PROCEEDINGS AND DEBATES OF THE 97th CONGRESS FIRST SESSION

VOLUME 127—PART 15

AUGUST 1, 1981 TO SEPTEMBER 14, 1981 (PAGES 19283 TO 20531)

Congressional Record

PROCEEDINGS AND DEBATES OF THE 97th CONGRESS, FIRST SESSION

SENATE—Saturday, August 1, 1981

(Legislative day of Wednesday, July 8, 1981)

The Senate met at 6 p.m., on the expiration of the recess, and was called to order by the President pro tempore (Mr. THURMOND).

PRAYER

The Chaplain, the Reverend Richard C. Halverson, LL.D., D.D., offered the following prayer:

Let us begin our prayer with the words of the 139th Psalm:

O Lord. You have examined my heart and know everything about me. You know when I sit or stand. When far away you know my every thought. You chart the path ahead of me, and tell me where to stop and rest. Every moment, you know where I am. You know what I am going to say before I even say it. You both precede and follow me, and place Your hand of blessing on my head.

This is too glorious, too wonderful to believe. I can never be lost to your spirit. I can never get away from my God .-Psalms 139: 1-7. The Living Bible.

Gracious, loving God, Thou knowest the condition of each of us: The weariness of body and mind, the impatience felt, the anger and frustration, the hurt. Lord, let these working men and women feel Thy presence, Thy love, Thy peace, Thy strength, and wisdom. Let them know that Thou dost care, that Thou canst really meet them here and now; and that whatever their needs, Thou hast infinite resources with which to meet

Dear Lord, let Thy blessing flow like a river, bathing hearts and minds with wave after wave of Thy peace and power. Transform these historic surroundings, these evening hours, these dedicated men and women with Thy gracious providence.

In Thy name, we pray, Amen.

RECOGNITION OF THE MAJORITY LEADER.

The PRESIDENT pro tempore. The majority leader is recognized.

THE JOURNAL

Mr BAKER. Mr. President, I ask unanimous consent that the Journal of the proceedings of the Senate be approved to date.

The PRESIDENT pro tempore. Without objection, it is so ordered.

CONFERENCE REPORT ON H.R. 4242, ECONOMIC RECOVERY TAX ACT OF 1981

Mr. BAKER. Mr. President, I see the minority leader is in the Chamber now, and I wish to announce that by a prodigious effort by the Senate conferees and the House conferees last evening the conference on the tax bill began, continued through the entire evening, the early morning, and concluded this morning at 8:05.

I wish to pay my respects to the distinguished chairman of the Finance Committee. Senator Dole, the distinguished ranking member, Senator Long. their House counterparts, to all of the conferees on both sides of the House and Senate, for such diligence and dedication in their effort to conclude this important piece of legislation, the conference on the disagreeing votes of the two Houses, in the manner in which it was done and as promptly as it was done.

Mr. President, it was done so promptly that the documents are not here, and there is simply nothing we can do at this moment because there is nothing to act on. I expect that they will be received shortly, but even then on a bill as complex as this I do not expect that it will be possible to act on the tax bill conference report today.

I have conferred with the distinguished minority leader, with the assistant minority leader, with the assistant majority leader, with the chairman of the Committee on Finance, Mr. Dole, with others involved, and I have this request to make, Mr. President, in order to accommodate the orderly disposition of this matter.

ORDER FOR RECESS UNTIL 11 A.M. ON MONDAY NEXT

Mr. President, I ask unanimous consent that when the Senate completes its business today it stand in recess until the hour of 11 a.m. on Monday.

The PRESIDENT pro tempore. Without objection, it is so ordered.

ORDER FOR CONSIDERATION OF THE CONFERENCE REPORT ON MONDAY

Mr. BAKER, Mr. President, I ask unanimous consent that after the recognition of the two leaders under the standing order, that the Chair lay before the Senate the tax bill conference report.

The PRESIDENT pro tempore. Is

there objection? The Chair hears none, and it is so ordered.

TIME-LIMITATION AGREEMENT OF 2 HOURS ON MOTION TO COMMIT INSTRUCTIONS

Mr. BAKER. At that time, Mr. President, I ask unanimous consent that the Senate consider H.R. 4242, the tax bill conference report, and that at that time there be 2 hours of debate equally divided between the Senator from Massachusetts (Mr. KENNEDY) and the Senator from Kansas (Mr. Dole) on a Kennedy motion to recommit with instructions, and that if the motion fails then immediately thereafter without further debate, motions, points of orders or appeals, the Senate proceed to a vote on the adoption of the conference report.

The PRESIDENT pro tempore. Is

there objection?

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object, I am assured by the distinguished majority leader that the papers will be here by 8 o'clock or soon thereafter tonight, and with that understanding that the papers will be available on this evening I would like to say, before stating that I have no objection, that it is my understanding this request has been cleared with Mr. KENNEDY, Mr. EAGLETON, in effect, Mr. METZENBAUM, and other Senators, and I feel that this is probably about the best time that can be agreed upon.

If the vote were to be put over until Tuesday, some Senators might be discommoded. We do not know what will happen in connection with the problem involving the air controllers. If the vote were put over until Wednesday, that would keep the other body from acting on Tuesday, and they would be sitting around waiting until Wednesday.

If the Senate were to wait until Wednesday, the other body, if it had the papers, would proceed to act and leave this body with a fait accompli.

So I think that this time agreed upon is as good as we can possibly select. Obviously we cannot contact every Senator at this time, although a good many Senators are probably in town expecting the Senate to complete action on the conference report today or Monday.

So, having said that, Mr. President, I have no objection to the request.

Mr. DOLE. Mr. President, reserving the right to object, and I shall not object, I want to say to both the majority

and minority leaders that I regret we cannot, after staying up all night with several other Members of the House and Senate, be accommodated, and that we have to be inconvenienced by one Member who is not even present which, to me, indicates his great concern for this legislation.

But beyond that, it was our hope and the hope of many colleagues who felt we might conclude this report this evening, that kept us up until 8 o'clock this morning, and I just frankly regret that my assistant commissioner, Senator METZENBAUM, has put out a release praising the work of the conference and how much money he was able to save, and at the same time I notice the distinguished Senator from Massachusetts has put out an opposite release. Obviously they have not had a chance to communicate today. Maybe they will on Monday. But I hope the Senator, if it is convenient for him, will be here on Monday, and that we will dispose of this on Monday.

The PRESIDENT pro tempore. Is

there objection?

Mr. CRANSTON, Mr. President, reserving the right to object, I would just like to say in behalf of the Senator from Massachusetts that he has been diligently involved in the consideration of this measure. He was on the floor con-

stantly while it was before us.

He had commitments that took him out of town at this particular moment. He communicated with various Members of this body about his wishes. He did indeed discuss the substance of the conference report with the Senator from Ohio (Mr. METZENBAUM). He has dropped plans for a long debate on the matter to help expedite the work of the Senate. He does feel very strongly about the contents of the conference report, and he agreed to a vote at any time convenient to the Senate, when other Senators and he himself could be present. He stated he would come at any time it was determined to have that vote, including tonight.

Mr. DECONCINI. Mr. President, re-serving the right to object, may I say to the distinguished chairman of the Committee on Finance when will there be a report or summary that those of us who are here could take an opportunity to look at and see exactly what the final conference report is, other than the UPI and AP releases we have seen, unless that is it?

Mr. DOLE. It is my understanding that the summary may be available momentarily, and that at least Xerox copies of the entire report will be available hopefully by 8 o'clock this evening. It just takes some time, as I understand it, to

Mr. DECONCINI. I understand that, and I thank the chairman, because if we were going to put this over until Monday. I would at least like to see the great work that the chairman and the other members of the conference committee did do. I intend to vote for it, barring something that is in there that is repugnant to me that I could not accept. So I would appreciate knowing what is in there.

Mr. DOLE. I might say there is a brief summary available. I also thank the Senator from Arizona for coming to the con-

ference. I regret we could not accommodate the Senator.

Mr. DECONCINI. I wonder if there is any magic about the hour of 11 o'clock?

Mr. BAKER. No, there is no magic about that. I simply chose the time as a convening hour, and I will be glad to change the time for a vote if it will increase the convenience of Senators on both sides of the aisle.

Mr. ROBERT C. BYRD. Mr. President, again reserving the right to object, I wonder if the distinguished majority leader would agree to have the vote at 2 p.m. I have received some information concerning some callers on my side of the aisle who would have some problems getting back here by 1 o'clock.

Mr. BAKER. Mr. President, do I understand the minority leader to suggest that we have the vote at 2 o'clock?

Mr. ROBERT C. BYRD. Have the vote at 2 p.m.

Mr. BAKER. The vote on the motion to recommit?

Mr. ROBERT C. BYRD. Yes.

Mr. BAKER. I have no objection to

Mr. DECONCINI. Will the majority leader, or whoever has the floor, yield to

Mr. ROBERT C. BYRD. I merely reserved the right to object.

Mr. BAKER. I am happy to yield to the Senator.

Mr. DECONCINI. As long as we are doing this, and I am not going to throw a wrench into this matter and ask for the next day, but there are some travel plans that would be facilitated by making it at 2 o'clock or 3 o'clock or sometime later in the afternoon and then Senators could still leave in time to go various places. I wonder if we could set it at 3 o'clock.

Mr. BAKER. Mr. President, I think the rationale for a Monday vote is largely on the basis that people either have not yet left town or planned to stay over this weekend before they leave early next week and perhaps avoid major consequences of a controller strike. So the time is not important to me. It is important that it be on Monday.

Mr. DECONCINI. May I request to make it at 3 o'clock?

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object, there are some Senators who have some problems with leaving and I know some Senators who need to leave before 3 o'clock.

Mr. BAKER. If the Senator will yield, I am advised by the assistant majority leader that there are strong objections on this side to 3 o'clock because there are, frankly, 4 o'clock plans to leave, especially for the west coast.

Let me amend the request, Mr. President, to provide that we convene at 12 o'clock noon and that there be a special order in favor of the distinguished Senator from Wyoming (Mr. SIMPSON), to follow after the recognition of the two leaders under the standing order, and then a period for the transaction of routine morning business to conclude not later than 2 p.m. and the vote to occur no later than 2 p.m. on the Kennedy motion, as previously described in my request.

Mr. DECONCINI. Will the majority leader yield for just a question?

Mr. BAKER. Mr. President, the time for debate is included in the previous request, and that was incorporated in the revision that I just made. I will be glad to restate the entire request if the Chair wishes me to do so.

The PRESIDING OFFICER. Is there objection?

Mr. DECONCINI. Reserving the right to object.

Mr. ROBERT C. BYRD. Reserving the right to object

Mr. DECONCINI. I would like to hear the entire request.

Mr. BOSCHWITZ. Mr. President, I have made arrangements to go back to my State, thinking that we were going to vote later in the week, and coming back for the arrival of President Sadat. As it happens, Monday is an inconvenient time for me. I wonder why we cannot vote now. I wonder why the Senator from Massachusetts, Senator Kennedy, is not here, if he wants to speak on it. Other Senators have been able to arrange their plans to be here. I want to hear again why the distinguished Senator from Massachusetts, who has taken no greater interest than I in this bill, cannot be here.

Mr. CRANSTON. Mr. President, I would like to point out to my friend that it was agreed last night, and stated by the majority leader last night, that there would not be rollcall votes last night beyond a certain hour or any time today. All Senators were so advised.

Mr. BOSCHWITZ. If the Senator will yield, we should vote by voice vote on this. We have voted dozens of times on this bill, so the positions of the various Members are clearly established. There is really no necessity to vote by rollcall vote on this matter.

Mr. ROBERT C. BYRD. Mr. President, reserving the right to object, I wonder if the distinguished majority leader would move up the convening time to 11:30, get the special order included, and I would be willing to give up my time under the standing order so that the time for debate could begin at 12 o'clock and there could be the full 2 hours of debate with the vote or votes beginning at 2 p.m.

Mr. BAKER. Mr. President, let me restate the request, if I may.

RESTATEMENT OF UNANIMOUS-CONSENT REQUEST

Mr. President, I ask unanimous consent that the Senate convene on Monday next, after the recess as ordered pre-viously, at 11:15 a.m.; that after the recognition of the two leaders under the standing order, the Senator from Wyoming (Mr. Simpson) be recognized for not to exceed 15 minutes; that, after the recognition of the Senator from Wvoming under the special order, there be a brief period for the transaction of routine morning business in which Senators may speak for not more than 3 minutes each; that the time for morning business expire not later than 12 noon; that at 12 noon the Chair lay before the Senate the conference report on H.R. 4242; that at that time there be 2 hours of debate, equally divided between the Senator from Massachusetts (Mr. KENNFDY) and the Senator from Kansas (Mr. DOLE) on a Kennedy motion to recommit with instructions; and that, if the motion fails, immediately thereafter, without further debate, motions, points of order, or appeals, the Senate proceed to a vote on the adoption of the conference report.

The PRESIDING OFFICER. Is there

objection?

Mr. BOSCHWITZ. I object.

The PRESIDING OFFICER. The objection has been heard.

Mr. BAKER. Mr. President, is there time remaining for the recognition of the two leaders under the standing order?

The PRESIDING OFFICER. There is

3 minutes remaining.

Mr. BAKER. Mr. President, I ask unanimous consent that I may proceed for 10 minutes

The PRESIDING OFFICER. Without

objection, it is so ordered.

Mr. BAKER. Mr. President, I understand the concern of Senators, but it is absolutely essential, especially in view of the controllers strike, that we try to arrange a time with as much certainty as possible for the disposition of this matter. I think almost no one had thought that we could finish this matter tonight. Indeed, the reason for requesting the order to convene tonight was not for the purpose, really, of trying to dispose of the conference report, but was for the purpose of trying to provide an opportunity to have the conference report made the pending business and, if necessary, to file a cloture petition.

As a result of the good efforts of the Senator from Kansas and the Senator from Louisiana, the chairman and ranking member of the Finance Committee, and the other Senate conferees and House conferees, they did an extraordinary thing and finished that work. Perhaps just as extraordinary is the work of the clerical assistants of the House and Senate in providing that we would have at least a Xerox copy of that con-

ference report tonight.

There was a faint glimmer of hope then, just for awhile this afternoon, that we could dispose of this matter by a voice vote tonight. But, as other Senators have pointed out, I represented on yesterday, and it was clearly understood by Senators, that there would not be rollcall votes today; that this day was for a special purpose, as I have described it.

But that glimmer of hope that we could finish tonight evaporated when the Senator from Massachusetts indicated his desire to file a motion to recommit. The Senator from Massachusetts, of course, is fully within his rights. I would prefer that he not do that. I would still prefer that we could do this conference report tonight. But there is nothing I can do to prevent that, no reasonable measure that I can take to avoid that development.

If that is the case, then, Mr. President, it seemed to me the best thing to do was to try to provide a degree of certainty for all Senators on both sides of this question, on both sides of the aisle, to either stay in Washington or to return to Washington so that they would have an opportunity to vote not only on the Kennedy motion but on the conference report itself and, I would hope, then on a

resolution of adjournment for the August recess.

Mr. President, we shopped at some length to find the best time. The first thought had been that we should do it on Tuesday or Wednesday of this coming week; there was some consideration for Thursday or perhaps Friday. But the intervention of at least the real possibility of the controllers' strike seemed to suggest that the best way to proceed was to do it sooner rather than later.

Mr. President, I understand the concern of the Senator from Minnesota and others. I am concerned, as well, because, in addition to representing that there would not be votes tonight, I also indicated that I expected that we would probably deal with this matter next week, probably on Tuesday or Wednesday. So I am at risk in that respect. But I made no commitment in that regard.

I am simply saying at this time that it is my best judgment that the major concern of the Senate at this time is certainty and that Monday provides the best opportunity to deal with this matter on a prompt and effective basis.

Mr. STENNIS. Will the Senator yield

to me?

Mr. BAKER. Yes, I yield to the Senator

from Mississippi.

Mr. STENNIS. Mr. President, I came in a little late. As I understand it, as I heard the floor leader's request last night, it unquestionably precluded us from doing anything now in the way of voting.

As I understand the request, it is for a vote on Monday, including a vote on final passage on Monday. That makes me quite pleased to know that we will be getting ahead of possible blockage by the strike, if it occurs, of the air controllers.

I want to know if the managers of the bill have indicated their willingness to follow this request for Monday. It seems to me, if they agree, that is very persua-

Mr. DOLE. Will the Senator yield so I may respond to the question?

Mr. BAKER. I yield to the Senator

Mr. DOLE. Mr. President, the Senator from Louisiana and the Senator from Kansas are here right now. We would be glad to roll this right on through. We had a good time last night and got a lot of things done; some things did not get done. But we will be here Monday.

Some of us are here to do our work and some are not. We will be here tonight; we can do it tomorrow afternoon or Monday.

I might say that we believed that we put together an outstanding package. I just say to the Members who are present that there was some concern about whether or not we could restrain ourselves as far as add-ons are concerned.

I can now advise my colleagues that we are within the President's numbers, less than \$38 billion in 1982, about \$93 billion in 1983, and \$149.9 billion in 1984. So we are within the administration's estimates. We were able to accommodate a number of Senators who had amendments, though some we could not. It was not because the Senator from Louisiana, the Senator from Kansas, and others in the conference, did not try.

I really believe when the Senator from Massachusetts has a chance to examine the oil provision, which is what I understand he is concerned about, he will find that it was a very fair and balanced agreement we made.

We were dealing with Members who hate oil companies just as much as the Senator from Massachusetts does, particularly little oil companies, I guess, because that is what they are attacking, the little mom and pop operations, little independents, three or four employees, trying to get along in Kansas and other places, 2 or 3 barrels a day. These are the ones that the Senator from Massachusetts is afraid are making too much money. They put a lot of people to work

and help our economy.

I might say to the Senator from Massachusetts if he should be listening or if word can be conveyed to him, that we tried the best we could to get the House to take the heating credit amendment. I tried eight times to get them to take that amendment, the amendment of the distinguished Senators from New Hampshire and Massachusetts. The conference did not want it. They had one Congressman who spoke for it, the distinguished Congressman from New York, Mr. Rangel. The last effort I made was to get that away, but nobody would take it. It was \$400 million and we decided to put it back into the taxpayers' pot.

I would hope the Senator from Massachusetts is not suggesting that we did not work hard enough for that provision because the facts would belie that.

Again, the Senator from Massachusetts is within his rights. I have no quarrel with that. I am just sort of all keyed up to get this passed.

Mr. BAKER. Mr. President, have I any time remaining?

The PRESIDING OFFICER. The Senator has 7 minutes remaining.

Mr. BAKER. I yield to the Senator from Minnesota.

Mr. BOSCHWITZ. Mr. President, I continue to object. Everybody has done extraordinary work, as the majority leader pointed out, even the Senator from Kansas, who we are losing at the moment. They worked all night. And, as the majority leader said, the staff did extraordinary work. But the Senator from Massachusetts cannot be here. I pointed out to the majority leader that I have a scheduling problem. My son is going into the hospital on Monday and I would like to be with him. The Senator from Massachusetts cannot be here and he lets us know this morning. I first find out about this when I came here this evening, that he wishes to file a motion to recommit.

We changed our reservations in order to accommodate ourselves because of the controller strike, which may come off or may not, so that we could leave tomorrow night and be with our son. But the Senator from Massachusetts cannot be here to file his motion to recommit.

Well, I do not know where the Senator from Massachusetts is. I hope he does not have any personal or family problems.

May I inquire, where is the Senator from Massachusetts? The Senator from California has spoken about his absence.

Mr. ROBERT C. BYRD. Mr. President, will the Senator yield?

Mr. BOSCHWITZ, I yield.

Mr. ROBERT C. BYRD. I hope we will proceed to try to help the majority leader get an agreement. I certainly sympathize with the distinguished Senator from Minnesota. I have every compassion for him. I hope that we can reach some agreement that will take into consideration his problem.

The Senator from Massachusetts is not here. There are a good many Senators who are not here. He is not here to defend himself or to speak up for himself.

I would hope we would proceed in a positive way to try to help the majority leader get an agreement and act in the best interests of all Senators and in the best interest of the Senate.

I have many times sought to get agreements myself in the past when Senators were absent on the other side of the aisle. But those are things that we have to try to accommodate. Those are considerations we have to think of from time to time. None of us can control the time of another Senator or what his calendar may be. None of us can anticipate what the problems of another Senator may be or what our own problems may be at times.

The distinguished majority leader stated very accurately, cogently, succinctly what the understanding was. Based on that understanding that the majority leader gove—and I do not know of anything else he could have said; I think he took the only approach that could have been taken—a lot of Senators are not here.

I went to West Virginia today. I am back. But I knew there would not be any votes this evening. I could have stayed the evening. I canceled another engagement. But had I not been the minority leader of the Senate I probably would have stayed because I knew there would be no rollcall votes. I would have liked to have stayed for the evening engagement to which I was committed.

As I say, I have a responsibility to which my colleagues on this side of the aisle elected me and I felt I ought to be here. But that is not to say that every other Senator ought to feel that his responsibility is the same as I see mine.

I would hope we can proceed. I want to do everything I can to cooperate with the majority leader in trying to reach a time to vote. At the same time, I have to protect the Senators on my side of the aisle, as I have respected his efforts to protect the Senators on his side of the aisle when he was a minority leader and did such an excellent job.

So let us avoid the recriminations and the assertives and try to get on with an effort that will reach an agreement which will accommodate the Senate overall. Those Senators who have motions that they want to make should be considered and we must try to accommodate them. I would certainly do that

for any Senator, as the majority leader is attempting to do.

Mr. BAKER. Mr. President, if there is time remaining I am prepared to yield to the Senator from Minnesota or prepared for the Chair to rule.

Before that, let me say that I am keenly aware of the difficulties that this provides. The only defense I can offer is that this is the best that could be done under the circumstances.

Mr. BOSCHWITZ. As both the majority leader and the minority leader know, I am not one to try to disrupt the Senate, as the minority leader suggests this objection may tend to do. I have not been disruptive in the past and I do not wish to be disruptive at this time.

However, as the minority leader points out, the distinguished senior Senator from Massachusetts, Senator Kennedy, is not here to defend himself. Nevertheless, he seems to be able to hold up the whole proceedings of the Senate. It is clear to me, Mr. Leader, that though we probably would be coming back later in the week for the purpose of voting on this measure, it was not entirely clear that we might not vote on this measure tonight and do so by a voice vote inasmuch as we have voted on the tax bill any number of times, on its provisions, and entirely at the end. It does not bear a great deal of difference from the conference report. I felt perhaps we would be able to proceed on a voice vote.

Clearly, the Senator from Massachusetts is not here to defend himself, but that does not prevent him from putting in a delaying motion that will inconvenience many of us.

Mr. President, I would like to consult with one or two of my colleagues on this matter for a moment or two. If the lead will be kind enough to allow me that time, I will consult with him.

Mr. BAKER. Mr. President, if I have time remaining, I ask the Chair to withhold putting the request while in the meantime I yield to any other Senator who may wish recognition.

Mr. DECONCINI addressed the Chair. The PRESIDING OFFICER. Does the Senator from Tennessee yield to the Senator from Arizona?

Mr. BAKER. I yield.

Mr. DECONCINI. Mr. President, I thank the distinguished majority leader.

Mr. President, in discussing the conference report which I have not had an opportunity to review, let me say that I compliment the conferees on the Senate side and the distinguished chairman for their efforts last night. It is no easy task to stay up all night and attempt to grind out a bill under the pressures which are there. I compliment the chairman, the ranking member, and the other Members of the Senate.

I do, however, regret that the House would not accede to the Senate provision sponsored by Senator Armstrong and Senator Matsunaga which would have overridden a decision by the Corporation Commissioner in California delaying the

implementation of the employee stock ownership plan, ESOP, proposed by the employees of Continental Airlines. The Senate is now on record in firm support of the Continental employees' ESOP and we reject the notion that a State regulatory official be allowed to impede an ESOP plan which is in the best interests of the employees, the company, the stockholders, the airline interest, and the American public. When I discussed it last evening, one of the conferees indicated, "Well, you are taking from somebody and giving to somebody else." Let me remind my colleagues that these employees are paying for the stock. No one is giving them anything. They are paying for it out of hard-earned dollars, out of reduced income from their contracts with management. It seems to me we ought to give the employees of the airline industry who want to own and be part of the capitalistic system every encouragement.

The final reason that this amendment was not included in the bill before us is due to the pressure of passing the tax bill itself rather than the substantive issue contained in the proposed amendment. Let there be no doubt, however, that the Congress supports the efforts of Continental employees. These employees have successfully scaled every hurdle in their path. They have won in Federal court two times, in State court, and before the Federal regulatory agencies. They are now in another litigation in the court of California.

The implementation of their plan is now being unreasonably restrained by a single corporation commissioner in the State of California in an effort to grab the control of an airline. That commissioner should move now expeditiously to approve this employee plan. It is very discouraging for those of us who support the ESOP provisions—certainly the ranking member of the Committee on Finance, who really is the father and author of the ESOP plans—to see an opportunity lost when we could realize a real gain.

Mr. CRANSTON. Will the Senator yield for one moment?

Mr. DECONCINI. Yes, I yield.

Mr. CRANSTON. I wish to say I share the views of the Senator from Arizona. I admire the tenacity with which he sought to get a decision on this matter. I was pleased to work with him and others, and I regret very much that the decision did not come out the way we sought.

Mr. DECONCINI. Mr. President, I thank the Senator from California for his effort in conference with the Members of the House. I understand they have their own good reasons in their minds, but I urge all Members of Congress that if we want to do something about productivity, which we all talk about and profess that this is what this country needs—and I do not think there is any question, statistically or anything else, that productivity has to be raised—there is no better way than to have employees become part of ownership and

be producing for themselves. So, with regret, I am going to cast a vote in favor of the conference report. I do favor many of the provisions.

I point out along that line that this bill is greatly different from the bill that was originally introduced by the administration known as the Kemp-Roth tax plan. With a number of Democrats, with the leadership of the chairman of the committee and a number of Republicans, there have been significant changes. One is the reduction of the unearned income rate, the phasein of the indexing provision—the Senator from Colorado had a lot to do with that and led the phasing out—the marriage penalty, reduction of the capital gains. These are just a few of the items that have been added onto this bill.

It is a better bill because of it, Mr. President. It is a bill that a number of Democrats take some pride in. I am sorry that the ESOP provision was not included in the final passage and I hope that this body will continue to stand steadfast in support of the employee stock ownership plans.

I thank the Chair.

Mr. BAKER. Mr. President, I ask unanimous consent that I may proceed on leader time for an additional 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, I yield to the Senator from Kansas.

Mr. DOLE. Mr. President, I just want to indicate to the Members that we are prepared to do it on Monday. We would rather do it today. The Senator from Kansas is going to be in town in any event, but I know many Members, the last 2 days have been—not insisting, but encouraging us to finish the conference report because they had travel plans. But that is no reason we cannot do it on Monday.

We are prepared to do it on Monday. As I understand, the consent agreement would limit the debate to 2 hours equally divided on the motion. I assume that will be followed by a motion to agree to the conference report.

Mr. BAKER. If the Senator will yield to me, the request put would provide for 2 hours debate on the motion to recommit, then, if that motion fails, to proceed without any intervening debate, motion, appeal, or point of order, on the conference report itself.

Mr. DOLE. The Senator from Kansas would prefer to do it on Monday because the chairman of the Ways and Means Committee was kind enough to give us the papers so we could act on it first. They will act on it on Tuesday. Hopefully, we will do it on Monday. I shall be very glad to have the discussion at that time with the Senator from Massachusetts. I want him to know that I made every effort to get that provision I know he is concerned about. I just could not get anybody to take it.

Mr. BOSCHWITZ. Mr. President, is mv understanding correct that at 2 o'clock

on Monday, we shall vote on the motion to recommit and immediately thereafter, without any intervening debate, we shall vote on passage?

Mr. BAKER. If the motion to recommit fails, we shall vote on the conferense report without intervening debate or motion, point of order, or appeal. The two votes would occur back to back assuming that the motion to recommit fails.

Mr. BOSCHWITZ. Will they be roll-call votes?

Mr. BAKER. The request does not order rollcall votes. That is a matter that would be within the province of any Senator to ask. I do not plan to ask for a rollcall vote, but I assume at least one of the two will be a rollcall vote.

Mr. BOSCHWITZ. Mr. President, I shall not object. I shall be here on Monday because I have not missed a vote this year. I do not wish to miss a vote this year. I shall just have to arrive prior to Tuesday morning, when the surgery is going to be performed.

I shall take some of that hour to ask the Senator from Massachusetts why he could not be here tonight. I hope he has a good reason at that time why he cannot be here to accommodate the Senate and to do the business of the Senate when it should be done, when we are in session to hear a motion to recommit. It is distressing to me that he sends a message saying, "I want to have a motion to recommit" and then he goes off wherever he has gone without consideration of other Members.

So, Mr. President, I shall not object.
Mr. BAKER. Mr. President, I really
understand the concern of the Senator
from Minnesota and the anguish he expresses. I bear a share of the responsibility for the changed plans and I apologize. But I am most grateful, Mr. President, that the Senator from Minnesota
will not object.

The PRESIDING OFFICER. Is there objection to the majority leader's request?

Mr. HAYAKAWA. Mr. President.

Mr. DECONCINI. Reserving the right to object, I wonder if the majority leader would have any objection to including a rollcall vote? If we are going to come back here, I would like to have a rollcall vote on adoption of the conference report.

Mr. BAKER. Mr. President, I am perfectly willing to do that. I think that that is a good suggestion, as a matter of fact. If we are coming back, and indeed we are, and Members are making sacrifices as they are, it seems to me we should go ahead with it.

Mr. DECONCINI. I ask for the yeas and navs.

Mr. BAKER. Mr. President, I include that it be in order to call for a rollcall vote on the motion to recommit and the conference report.

The PRESIDING OFFICER. Is there objection?

Mr. BAKER. Mr. President, before the Chair puts the question, I want everybody to understand that there is now before the Senate a request that the Senate

reconvene at 11:15 a.m. and, after certain other details, including the recognition of the leaders and one Senator on special order and a brief period for the transaction of routine morning business, the Senate will resume consideration of H.R. 4242 on the conference report.

The PRESIDING OFFICER. The majority leader is correct. That will be at 12 noon.

Mr. BAKER. And that at 12 noon, there be 2 hours of debate equally divided, and that a vote will occur at 2 o'clock, or not later than 2 o'clock, on the motion to recommit; that if the motion to recommit fails, it will be followed immediately without further debate, motions, points of order or appeals, by a vote on the conference report; and that the yeas and nays are authorized to be ordered at this time on both of those votes. Is that a correct restatement of the request?

The PRESIDING OFFICER. The Senator is correct. That is the Chair's understanding. Is there objection to the majority leader's request.

If not, without objection, it is so ordered.

The text of the agreement follows:

Ordered, That on August 3, 1981, at the hour of 12:00 noon, the Senate proceed to the conference report on H.R. 4242, the Tax Reduction Act of 1981, and that there be 2 hours for debate, to be equally divided and controlled by the Senator from Massachusetts (Mr. Dole) and the Senator from Massachusetts (Mr. Kennedy), with a vote to occur on a motion to recommit the conference report with instructions at no later than 2:00 p.m., and if this motion falls, to be immediately followed without further action by a vote on the conference report.

Mr. BAKER. Mr. President, I ask for the yeas and nays. I ask unanimous consent that one showing be in order for the two votes.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. BAKER. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second. The yeas and nays were ordered.

Mr. BAKER. Mr. President, does the Senator from California wish me to yield to him?

Mr. HAYAKAWA. I would be very grateful to the majority leader. I would like to make a short statement.

Mr. BAKER. I yield to the distinguished Senator.

Mr. HAYAKAWA. Mr. President, I do plan to be here at 2 o'clock on Monday for that vote. It has disrupted many of my plans. I have changed my plane reservation three times already and canceled events for today and for tomorrow and for last Friday. I have to cancel some more for Monday.

On top of that, if we do have the vote, I should be able to attend the hearing of the Special Commission Inquiring Into the Wartime Relocation of Civilians During World War II, at which I am supposed to testify on Tuesday morning at 9 o'clock. On Wednesday, I am supposed

to go to Southeast Asia on behalf of the Foreign Relations Committee. There is danger that that would be interfered with too.

I am very, very happy that the majority leader has arrived at this solution; so I shall be here. I shall be here to vote. I am very grateful for the arrangement being made. But I must enter my protest against what seems to me to have been the unnecessary delays on this vote, despite the fact that this devoted group of Senators and Representatives worked all night until 8 o'clock this morning to get before us a bill to act upon. I am very disappointed we are not acting upon it.

Mr. BAKER. Mr. President, I thank the Senator from California. As always, he has been most cooperative and he is most energetic in his pursuit of his official duties and other duties beyond the regular duties of the Senate in trying to serve his State and serve the country. I express my unfailing admiration to the Senator and my gratitude for his friendship and consideration.

Mr. President, there are other minor details to be taken care of today and there may be other Senators who wish to speak.

ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent, if the minority leader has no objection, that there be a brief period for the transaction of routine morning business to extend not past the hour of 7 p.m. in which Senators may speak.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL COSPONSORS

S. 861

At the request of Mr. Packwood, the Senator from Maine (Mr. MITCHELL) was added as a cosponsor of S. 861, a bill to amend the Social Security Act to provide for a 6-year demonstration program of comprehensive community-based non-institutional acute and long-term-care services for the elderly and disabled.

ADDITIONAL STATEMENTS

REAGAN ADMINISTRATION ATTACKS ON PROGRAMS FOR DISABLED PERSONS

 Mr. CRANSTON. Mr. President, in this the International Year of Disabled Persons (IYDP) I believe that it is very important to bring to my colleague's and the public's attention the broad, persistent attack that the Reagan administration has launched against Federal programs that help disabled citizens overcome their handicaps and, to the maximum extent possible, lead productive, independent lives in their communities. A great deal of attention has been given to the efforts to reduce Federal spending and move toward a balanced budget—two objectives I strongly support—and the administration's unfair attempts-which I oppose-to cut and

eliminate under that banner some of the most effective, badly needed social programs that we have.

However, little attention has been given specifically to what has been happening regarding Federal programs and policies for our disabled citizens. This especially true with respect to actions-such as the two recent events that I will discuss briefly—that have not been part of our focus on the Federal budgets for fiscal years 1981 and 1982 and the Reagan administration's and the Congress' revisions of the budgets. Regardless of whether an item relating to disabled Americans is a budget or nonbudget matter, the Reagan approach has been the same-eliminate, undercut, or reduce whatever specific Federal help exists, leaving handicapped individuals with little to celebrate and many unfortunate losses to count during the IYDP.

We are already familiar with the fact that, in the Reagan budget, there were proposals to make cuts in the social security disability insurance program, to consolidate the vocational rehabilitation program, the developmental disabilities program, and programs of the National Institute of Handicapped Research—at significantly reduced funding levels—into block grants, to eliminate all funding for the Architectural and Transportation Barriers Compliance Board, and to reduced Federal support for vocational rehabilitation programs even further by eliminating the Social Security Act transfer to State vocational rehabilitation agencies.

In addition, several other budget reduction proposals, while not directly aimed at disabled persons, will nevertheless have a disproportionately adverse effect on these individuals. Programs included in this category of cutbacks are medicaid, low income energy assistance, legal services, food stamps, and the community services block grant.

RESCINDING OF MINIMUM GUIDELINES FOR ACCESSIBILITY TO PUBLIC BUILDINGS

Mr. President, on July 10, 1981, a small and little-known independent regulatory board met and took actions that might have very serious negative consequences for millions of disabled Americans. The Architectural and Transportation Barriers Compliance Board has 22 members, 11 of whom are representatives of Federal agencies and departments and 11 Presidential appointees from the general public. The Board is charged with critical functions under the Rehabilitation Act of 1973 as amended, including the responsibility to insure compliance with the standards issued under the Architectural Barriers Act of 1968 for public building accessibility for disabled persons.

At its July 10 meeting, the Board voted to rescind the minimum guidelines and requirements that it had—pursuant to the specific mandate in section 502(b) (7) of the Rehabilitation Act for it to establish such guidelines and requirements—promulgated earlier this year. The Rehabilitation Act requirement for the Barriers Board to issue minimum

guidelines and requirements in order to help insure compliance with the Architectural Barriers Act was enacted 3 years ago in the Rehabilitation Act Amendments of 1978 as a result of the persistent failure of Federal departments and agencies to achieve the level of accessibility required in the Barriers Act. The rescinding of the board's minimum guidelines and requirements leaves that mandate entirely unfulfilled.

That general failure of compliance has twice been pointed out by the Environment and Public Works Committee in the last year: First, in the committee report on S. 2080 last Congress, Senate Report No. 96–771, pages 33–39, and more recently in its report, Senate Report No. 97–48, pages 32–36, on S. 533 passed by the Senate on May 6, 1981. Both reports rely upon a staff study prepared in 1979 at the request of the Senator from Vermont (Mr. Staffford) now the chairman of that committee, Committee Print No. 96–8, which states:

The record of adherence by GSA and other agencies to this law [Architectural Barriers Act], and in some cases to an agency's own regulations, is uneven. The Congress clearly intended in 1968 to formulate a policy to be carried out by the GSA which would assure that after the enactment of the Architectural Barriers Act there would never be another building built at public expense which was inaccessible to individuals with mobility impairments. This is not what happened.

Mr. President, it is true that concerns have been expressed that the guidelines adopted by the Board in January had incorporated standards parts of which are unduly demanding. A prior draft of the guidelines raised a number of questions in that regard, and was opposed by a number of the Board members who represented Federal agencies. In order to insure that the appropriateness of the guidelines was broadly supported, I joined a group of Senators who, during the final days of the rulemaking process, urged the Board to seek to achieve unanimity among all of the members of the Board, both public and Federal members. I ask, Mr. President, that our letter in that regard be printed in the RECORD at the conclusion of my remarks.

Mr. President, unfortunately, unanimity was not achieved, and the guidelines and requirements were approved by a vote of 14 to 4, with 6 Federal members supporting the action, 2 abstaining, and 3 casting negative votes.

Thus, it would have been understandable for the administration, after replacing all of the Federal members with Regan appointees, to seek to modify the guidelines by changing or deleting particular aspects that it considers either to be unduly burdensome or to exceed the Board's authority. But no effort to modify the guidelines was made even after repeated attempts on the part of the public members to negotiate a revised approach. Rather, the administration's apparent disagreement with the Board's previous approach resulted in a total elimination of the

guidelines.

Mr. President, that action, orchestrated by the administration through its representatives on the Board—with only one public member joining a united Fed-

eral agency phalanx marching in lockstep—is a blatant example of this administration's lack of concern for the requirements of laws designed to guarantee basic civil rights for this significant segment of our citizenry. The Barriers Board is an important experiment in participatory democracy and, under the current membership, 9 of the 11 public members are disabled. The administration's approach to this problem makes a mockery of this process.

Mr. President, the administration's attempt to achieve regulatory reform has gone too far in this instance. These minimum guidelines and requirements were not regulations in the usual sense. They had no direct impact on the private business sector. Rather, these guidelines and requirements were designed to assure liberty and freedom by helping to provide equal access to Federal buildings and services to the millions of Americans unable to enter many Federal buildings because of architectural barriers.

If there are problems with the guidelines, the administration and the Board should move to address them, not to refuse to issue guidance that Congress has mandated be issued. Without these guidelines, designed to guide the government and not to regulate the private sector, billions of dollars may be spent in the construction and renovation of Federal facilities that are not fully accessible to disabled Americans.

NEW DOT HANDICAPPED REGULATIONS

Mr. President, in another recent action, the administration further demonstrated its insensitivity to the needs of handicapped persons in the issuance by the Department of Transportation— DOT-on July 20, 1981, of an "interim final rule" to replace the previous DOT regulations with regard to meeting the mass transit needs of disabled persons. These new regulations are made in explicit disregard of the provisions of Federal law-including section 504 of the Rehabilitation Act—that they purport to implement and which were designed to guarantee the availability of Federally subsidized programs, including mass transit facilities, to elderly and handicapped Americans.

Mr. President, in view of the sizable financial commitment made by the Federal Government in assisting in the development and generation of mass transit across the Nation, Congress has sought to assure the availability of these services to elderly and disabled persons. In the Urban Mass Transit Act, the Federal-aid Highways Act, and the Rehabilitation Act of 1973, Congress has clearly indicated its intention to provide disabled and elderly persons with the right to use and have available the services of mass transit facilities in receipt of Federal funds.

On May 26, 1981, in the case of the American Public Transit Association against Lewis, the U.S. Court of Appeals for the District of Columbia circuit found that the previous DOT regulations implementing the nondiscrimination provi-

sions of section 504 of the Rehabilitation Act with regard to federally assisted mass transit for handicapped persons exceeded DOT's authority under section 504. Without commenting on the merits of the court's opinion, I note that it is very clear that the administration is using the occasion of this court decision to overturn all of the progress we have made in this area over the last 4 years. The new interim final rule, which incorporates the so-called local option approach, provides no assurances to disabled Americans that mass transit facilities will be accessible and available to them.

In fact, the new regulations provide so much so-called flexibility to local transit operators in providing disabled people with alternative services, as opposed to accessibility to the facilities that everyone else uses, that disabled persons can be assured of the opposite result—especially during these times of reductions in Federal assistance—that in many instances the special services provided will be inadequate to meet the needs of handicapped commuters.

Mr. President, in connection with the Department of Transportation's rescinding of its accessibility regulations, it is important to note that on July 17, the Department of Justice objected to the publication of those regulations, suggesting that there was a substantial question as to their compliance with two Federal laws, the Urban Mass Transit Assistance Act of 1964 and the Federal-Aid Highway Act of 1973. This letter was signed by Lynn Walker, Acting Deputy Assistant Attorney General for the Civil Rights Division. On July 21, the day after the Department of Transportation published its interim, immediately effective regulation. James P. Turner, Acting Assistant Attorney General for that Divsion, wrote to the Department, in effect withdrawing, but making no reference to, the July 17 letter. I leave to others any speculation on this rather unusual series of events, and I ask, Mr. President. that the July 17 and 21 letters be printed at the conclusion of my remarks in the RECORD.

CONCLUSION

Mr. President, both of these recent actions by the administration—the rescinding of the barriers board's minimum guidelines and requirements and the issuance of new regulations with regard to meeting the mass transit needs of disabled persons—vividly demonstrate to America's 35 million disabled persons that the present administration has no desire to recognize their civil rights and is committed to attempting to overturn and reverse all of the steps forward we have taken together in this area in recent years.

This situation places a heavy responsibility on the Congress to try to minimize the damage being done in these areas and to protect what remains of effective programs. I pledge myself to do all I can to carry out that responsibility, and I urge my colleagues to join in this effort.

The letters referred to follow:

COMMITTEE ON LABOR AND
HUMAN RESOURCES,
Washington, D.C., November 20, 1980.
Hon. Max Cleland,
Chairman, Architectural and Transportation

Barriers Compliance Board, Washington, D.C.

DEAR MR. CHAIRMAN: We are writing to you to express our concern with respect to the Notice of Proposed Rulemaking appearing in the Federal Register of August 18, 1980 (45 Fed. Reg. 55010).

1980 (45 Fed. Reg. 55010).

Because of our involvement in this issue as the authors of the Rehabilitation, Comprehensive Services, and Developmental Disabilities Amendments of 1978 that set forth the Board's authority, in section 502 (b) (7), to propose minimum guidelines and requirements, we had our staffs review the Proposed Rule as well as federal agency and public comments elicited by the proposal.

From that review, we note that there are several important questions raised about the Proposed Rule by agencies with standard-setting responsibilities under the Architectural Barriers Act of 1968, as amended. Some of those same questions as to the scope of the Proposed Rule and as to whether the Board has exceeded the intended authority of the authorizing statute are of concern to a number of members of the public who have commented as well.

Among the major concerns raised, which we share, are whether the Board's proposal genuinely reflects an attempt to set minimum guidelines and requirements, or whether it actually has proposed a standard. Further, we are concerned by the number of technical revisions (48) that the Proposed Rule would make to the most recent promulgated ANSI Standards (ANSI 117.1-1980). Although the ANSI Standards may err in some places, the number of revisions seems high and the justification for many is unclear in any event.

is unclear in any event.

Also of considerable concern is the part of the proposal that essentially permits the rule (if approved) to become the standard for any agency that does not publish standards consistent with it within 240 days. The Congress did not intend that such a require-

Congress did not intend that such a requirement be imposed by the Board on an agency charged with the responsibility to promulgate standards under the Architectural Barriers Act.

Last is the important issue of whether section 502 allows the Board, as proposed in the rule, to determine in advance the conditions under which a waiver can be granted. There would appear to be a conflict between that procedure and the Architectural Barriers Act which gives the waiver granting authority to the standard setting agencies.

We are very hopeful that these difficulties and others in the Proposed Rule can be resolved in a reasonable way within the framework of the current proposal. If that is not possible, we would urge the Board to seek the opinion of the Justice Department to assure that the rule would be within the Board's statutory authority. We believe that this should be done if the difficulties can not now be resolved through a consensus on the part of the Board members, including the principal agencies involved.

We would appreciate your bringing our

We would appreciate your bringing our concerns to the attention of all Board members. Thank you for your cooperation.

Truly,

ROBERT T. STAFFORD,
Ranking Minority Member,
Subcommittee on the Handicapped.
JACOB K. JAVITS.
JENNINGS RANDOLPH,

Chairman,
Subcommittee on the Handicapped.
ALAN CRANSTON.

U.S. DEPARTMENT OF JUSTICE,
CIVIL RIGHTS DIVISION.
Washington, D.C., July 17, 1981.

Re Department of Transportation Final Interim Regulation Amending 49 C.F.R. Part 27.

Hon. John M. Fowler, General Counsel, U.S. Department of Transportation,

Washington, D.C.

DEAR MR. FOWLER: We have been advised that the Department of Transportation may submit to the Federal Register for publication on July 20, 1981, a Final Interim Regulation amending 49 C.F.R. Part 27 regarding non-discrimination on the basis of handicap. As you know, this Regulation is to be approved in advance of issuance by the Department of Justice pursuant to its responsibilities under Executive Order 12250 (November 2, 1981). This is to advise you of the status of our review and to request that you hold publication of the Regulation in abeyance pending resolution of the matters discussed below.

cussed below.

We think that the Regulation, as proposed, substantively complies with the requirements of Section 504 of the Rehabilitation Act of 1973, as amended. However, it is not yet clear whether the proposed Regulation is in compliance with requirements of the Urban Mass Transit Assistance Act of 1964 or with the Federal-Aid Highway Act of 1973.

The attached research memorandum pertaining to the legislative history and requirements of these statutes as they pertain to bus-accessibility raises some questions which suggest to us that further consideration of certain provisions of the proposed Regulation is advisable.

Further, since we have not yet approved your Regulation and have not yet suspended the Department of Justice Section 504 Guidelines, 45 C.F.R. Part 85, were you to proceed with publication of the Regulation on July 20, 1981, litigation could ensue, challenging the propriety and legality of your action.

Finally, we are still examining whether the Administrative Procedure Act requirements allow publication of your Final Interim Regulation without first affording a period of public comment. This, of course, depends upon the adequacy of the stated justification for dispensing with those requirements.

tion for dispensing with those requirements.

We are fully aware of your desire for prompt clearance of the proposed regulation. Please advise us of the earliest date when we can meet to discuss and resolve this matter. Thank you.

Sincerely,

LYNN WALKER,
Acting Deputy Assistant Attorney General.

MEMORANDUM

JULY 17, 1981.

Subject Section 16 of the Urban Mass Transportation Act of 1964, as amended, 49 U.S.C. 1612, and Section 165 of the Federal Aid Highway Act of 1973, 23 U.S.C. 142 note.

To Mary Lynn Walker, Acting Deputy Assistant Attorney General, Civil Rights Division.

From Stephen L. Mikochik, Attorney, Appellate Section, Civil Rights Division.

In APTA v. Lewis, No. 80-1497 (D.D.C., May 26, 1981) the Court of Appeals for the District of Columbia reserved decision on whether regulations issued by the Department of Transportation in 1979 (49 C.F.R. Part 27 (1980)) to require public transit accessibility for handicapped persons were supported by Section 16 of the Urban Mass Transportation Act (UMTA) or by Section 165 of the Federal Aid Highway Act (FAHA). The Court remanded this issue back to the

Secretary of Transportation for an initial determination.

The Secretary has approved "final" interim regulations, substantially similar to those issued in 1976 (41 Fed. Reg. 18234 (April 30, 1976)), which require neither bus nor fixed rail accessibility. The regulations have been submitted to this Department for our review under Exec. Order 12250, 3 C.F.R. 298 (1980). It has been suggested that, by suspending the Inter-Agency Guidelines implementing Section 504 of the Rehabilitation Act of 1973, as amended, 29 U.S.C. 794 (504), (45 C.F.R. Part 85), the regulations can be swiftly approved and published.

Aside from whether final regulations may be published or guidelines suspended absent compliance with the Administrative Procedure Act public comment requirements, mere suspension of the Section 504 Guidelines will not, of course, fulfill this Department's responsibility in this matter. The Guidelines apply only to Section 504 and not to Section 16 of UMTA or Section 165 of FAHA which, as statutes requiring equal treatment for the handicapped in federally assisted programs, fall within our coordination responsibilities under Exec. Order 12250 and must be separately reviewed. Furthermore, as will be demonstrated below, the proposed regulations violate the requirements of these statutes.

LEGISLATIVE HISTORY OF UMTA AND FAHA

Congress amended UMTA in 1970 to provide handicapped persons with an equal right to use mass transportation and required that transit systems be planned, designed, constructed, and operated to permit their effective use by these persons. 116 Cong. Rec. 34180 (Sept. 29, 1970). Representative Biaggi, who authored the amendment, rejected without opposition the notion that his amendment would permit paratransit in place of accessible systems (id. at 34181):

"Other proposals have been offered that would set up special transportation facilities for the elderly and the handicapped. Others would provide subsidies so that these people could use more expensive services such as taxi cabs or limousines.

"However, besides the factor of cost for these programs, they would further serve to segregate the elderly and the handicapped from our society."

In 1973, Congress established a corresponding accessibility requirement under FAHA. See S. Rep. No. 93-61, 93 Cong., 1st Sess. 15, 35 (1973); see also S. Rep. No. 93-355, 93 Cong., 1st Sess. 87 (1973) (Conference Report).

Reacting to reluctance by the Department Transportation to provide access for wheelchair-bound individuals, Congress moved in 1974 to reaffirm and strengthen the accessibility requirements of FAHA, expressly indicating that "nonambulatory wheelchairbound [individuals] and those with semi-ambulatory capabilities" were included within the coverage of that statute. See Section 105 of Pub. L. 93-643; see also S. Rep. No. 93-1111, 93d Cong., 2d Sess. 7-8 (1974); 120 Cong. Rec. 30820 (Sept. 11, 1974) (remarks of Sen. Stafford); id. at 30823 (remarks of Sen. Randolph). Although no corresponding clarification was made that year to UMTA. Congress nevertheless prohibited the use of Department of Transportation funds for purchasing rolling stock, including buses, or for constructing transit facilities unless they were ". . . designed to meet the mass transportation needs of the elderly and the handicapped."

Section 315 of the Department of Transportation and Related Agencies Appropriation Act of 1975, Pub. L. 93-391. Representative Biaggi, who authored this provision, stated that it would reaffirm the intent of his 1970 UMTA amendment to make newly

designed or constructed transit facilities and services fully accessible to handicapped persons. 120 Cong. Rec. 19851 (June 19, 1974); ibid. (remarks of Rep. McFall). Representative Biaggi indicated that his provision was addressed to the out and out discrimination" of the Department of Transportation in fostering separate services and impeding accessible transportation (ibid.):

sible transportation (ibid.):
"My amendment, today, will put a stop to future expenditures by the Department of Transportation for equipment and facilities that are inaccessible to the elderly and the handicapped. We cannot continue to abide by the doctrine of separate and unequal facilities."

Attempts in 1974 (S. 662, 94th Cong., 1st Sess.) and in 1977 (S. 208, 95th Cong., 1st Sess.) to clarify the accessibility requirements of UMTA were rendered moot by the "Transbus" decision (reprinted at 123 Cong. Rec. 20531-20537 (June 23, 1977)) issued by the Department of Transportation on May 19, 1977. Under that decision, buses purchased after September 30, 1979 with Department of Transportation funds were required to have a low-floor and ramp feature. Commenting on the deletion of his provision in S. 208 to clarify and re-enforce the requirements of UMTA, Senator Williams indicated that (id. at 20530):

"[The 'Transbus' decision] means that elderly and handicapped persons will no longer be excluded from adequate transit service because of its inaccessibility. It also makes unnecessary our enacting amendments [Section 10 of S. 208] to Section 16 [of UMTA] to force UMTA and DOT to take action on the accessibility mandate and to clarify that the term handicapped includes persons in wheelchairs."

In 1978, the House considered a proposal (Section 323 of H.R. 11733, 95th Cong., 2nd Sess.), requiring the Secretary of Transportation to re-evaluate his "Transbus" decision. This proposal was not intended to eliminate accessibility requirements for buses but rather called for a study to determine whether wheelchair-lifts in place of ramps would prove more effective (H.R. Rep. 95-1485, 95th Cong., 2d Sess. 62 (1978)): "Inasmuch as the [House Banking] com-

"Inasmuch as the [House Banking] committee is concerned with providing full accessibility on public transit vehicles, the committee cannot ignore allegations that a ramp [rather then a wheelchair-lift] may prove to be a hindrance to the elderly and handicapped in certain situations."

handicapped in certain situations."

After the "Transbus" decision was modified on September 15, 1978 to permit the option of ramps or lift equipment, Section 323 was deleted on the House floor as unnecessary and a potential impediment to achieving bus accessibility. See 124 Cong. Rec. 32299–32300 (Sept. 28, 1978) (remarks of Rep. Biaggi); see also id. at 32300–32301 (remarks of Rep. Green).

Beginning in 1978, Congress focused its attention on requirements under 504 relating to transportation accessibility, Reacting to the potential cost of retrofitting existing subway systems, Congress required the Secretary of Transportation to conduct a study

¹ Commenting on the broad public support for the "Transbus" decision, Representative Biaggi, who authored the floor amendment deleting Section 323, quoted from the testimony of Mayor Edward Koch during Department of Transportation public hearings on implementation of Section 504 124 Cong. Rec. 32300 (Sept. 23, 1978)):
"I am committed to a fully accessible bus

[&]quot;I am committed to a fully accessible bus system in New York City. I also support the purchase of low floor, wide door wheelchair accessible transbuses with a preference for the use of ramps over lifts. We need low floor buses not only for handicapped but for all persons."

of this issue, reporting his findings to Congress by January 30, 1980 ** * together with his recommendations for such legislation as may be necessary to finance the improve-ments set forth in the cost estimates." Secments set forth in the cost estimates. Section 321(a)(1) of the Surface Transportation Assistance Act of 1978, Pub. L. 95-599, 49 U.S.C. 1612 note. The Secretary was further required to evaluate methods for making light and commuter rail systems accessible, January 30, 1980 "* * together with his recommendations for legislation necessary to clarify or to change federal law or provisions pertaining to accessibility requirements affecting the light rail and commuter rail modes." Section 321(b) of the Surface Trans-portation Assistance Act of 1978. Pending completion of these studies (see H.R. Rep. No. 96-272, 96th Cong., 1st Sess. 48 (1979)), Congress prohibited the availability of funds, appropriated to the Department of Transportation for urban discretionary grants under UMTA in fiscal year 1980, for use in retro-fitting fixed rail transit systems to comply with regulations issued under 504. Department of Transportation and Related Agencies Appropriation Act of 1980, Pub. L. 96-131, 29 U.S.C. 794. This restriction on the use of urban discretionary grants was renewed for fiscal year 1981 appropriations. Department of Transportation and Related Agencies Appropriations Act of 1981, Pub. L. 96-400, 29 U.S.C. 794. Although twice prohibiting the use of annual urban discretionary grant appropriations for retrofitting fixed rail systems, Congress has never amended the authorizing legislation to eliminate this requirement.

Finally, Congress prohibited the Department of Transportation from using its fiscal year 1981 appropriations to compel the purchase of wheelchair-lifts pursuant to 504 except to the extent required by the so-called "Zorinski Amendment" or where local transit authorities have elected to purchase lifts. Section 324 of the Department of Transportation and Related Agencies Appropriations Act of 1981, Pub. L. 96-400. Congress expressly indicated that Section 324 "* * shall be effective only until modified by subsequent legislation." ²

CONCLUSION

Since the final interim regulations proposed by the Department of Transportation do not require the use of wheelchairlifts, they are inconsistent with the "Zorinsky Amendment" which requires a certain degree of bus accessibility. Arguably, the "Zorinsky Amendment" presupposes regulations requiring full bus accessibility and serves as a limitation on that requirement. In this event, the "Zorinsky Amendment" would have no application to the final interim regulations which do not require bus accessibility. Nevertheless, these regulations must be consistent with UMTA and FAHA. As evident from the legislative discussion above, these statutes require full accessibility."

² It is unclear from the language whether Congress intended Section 324 to apply to future appropriations, absent subsequent legislation to the contrary, or whether it merely reflects an expectation of some future modification to the authorizing legislation.

³ As part of an appropriations act, the incorporation of the "Zorinsky Amendment" into Section 324 would of course not serve to modify the authorizing legislation.

Regarding fixed rail transit systems, it was previously noted that Section 165(b) of rAHA was amended in 1974 to clarify its coverage of wheelchair bound individuals. The amendment was specifically addressed to remedy the failure of the Department of Transportation to provide accessible features for these individuals" * * * such as turnstile alternatives or elevators which would make a system accessible to persons in wheelchairs" (S. Rep. No. 93–1111, 93rd Cong., 2nd Sess. 8 (1974)), and there was no indication that FAHA funded fixed-rail systems, planned, designed, constructed, or operated after 1974, would be excluded from coverage. Furthermore, the restrictions imposed by the 1980 and 1981 Appropriation Acts on the use of funds to retrofit fixed rail systems apply to urban discretionary grants under UMTA and not in FAHA.

Additionally, Congress amended UMTA in 1970 to require access to all newly designed mass transit programs without exception. This intention was reaffirmed during the debates on the 1974 Department of Transportation Appropriations Act which prohibited appropriated funds from use not only in purchasing inaccessible buses but also in constructing inaccessible transit facilities. Finally, although Congress has restricted the use of UMTA funds in fiscal years 1980 and 1981 for retrofitting fixed rail systems, these appropriation acts do not serve as modifications of the underlying requirement to make newly designed facilities accessible; and prohibitions will terminate, if not renewed, at the end of fiscal year 1981.

U.S. DEPARTMENT OF JUSTICE, CIVIL RIGHTS DIVISION, Washington, D.C., July 21, 1981.

Re Department of Transportation Final Interim Regulation Amending 49 C.F.R. Part 27.

Hon. JOHN D. FOWLER,

General Counsel, U.S. Department of Transportation, Washington, D.C.

DEAR MR. FOWLER: This is to advise you that pursuant to Executive Order 12250 (November 2, 1980), the Department of Justice has concluded its consideration of the Department of Transportation Final Interim Regulation amending 49 C.F.R. Part 27.

We understand that the Department of Transportation will solicit public comment for a period of 60 days upon its Final Interim Regulation and will consider in that connection concerns involving the state of technology as it pertains to bus accessibility and cost-related data. Given the need for guidance to recipients of federal financial assistance regarding bus accessibility requirements and the ongoing reevaluation of mass transit accessibility by the Department of Transportation, your action in publishing the Final Interim Regulation is appropriate. The preamble justification for dispensing with prepublication comment seems adequate for Administrative Procedure Act purposes.

Action to suspend Department of Justice Section 504 Guidelines, 45 C.F.R. Part 85, will be initiated immediately.

Sincerely,

JAMES P. TURNER, Acting Assistant Attorney General.

U.S. POPULATION

o Mr. PACKWOOD. Mr. President, I wish to report that, according to the latest U.S. Census Bureau approximations, the total population of the United States on August 1, 1981 was 229,470,213. This represents an increase of 180,127 since July 1, 1981. In 1 short month we have added enough people to fill the entire city of Miami Beach, Fla. two times.

The final count of the 1980 census was 5 million more than what was anticipated. This has made any comparison between 1981 figures and 1980 figures meaningless at this time. I should be able to resume the yearly comparison in October or November. ●

CONFERENCE REPORT ON H.R. 4242— ECONOMIC RECOVERY TAX ACT

Mr. ROBERT C. BYRD. Mr. President, I thank the conferees on the part of the Senate for the work that they did throughout the night and into the late morning of this day in the effort to complete the conference action on the tax bill.

I express my thanks to the chairman of the conferees on this side of the Capitol, Mr. Dole. I thank Mr. Long, the ranking minority member.

I know how they steadfastly attempted to stand up for the Senate position on the amendments that were involved. I know what a difficult task it is, having been in some of those conferences myself in the past, especially those affecting appropriations, and I think that Mr. Dole and Mr. Long, and the Senate conferees, are entitled not only to the admiration and respect of all of us, but entitled to our expressions of deepest appreciation. I thank them on my part.

I had an amendment which I considered to be of some importance. I know that the House conferees were adamant in their position. They refused to yield for several hours. I was unable to get in touch with the chairman on the House side. I attempted in the wee hours of this morning up until 2 a.m. to reach them, but I know they were busy. They were tied up in the conference.

But I also know and appreciate the fact that Mr. Dole, Mr. Long, and others, tried diligently to fight for my amendment and were successful in getting a major portion of it.

I thank the distinguished majority leader for his support in this regard and again thank Mr. Dole, Mr. Long, and the Senate conferees for upholding the positions of the Senate, not only with respect to my amendment, but other amendments as well.

EXECUTIVE CALENDAR

Mr. BAKER. Mr. President, I am advised by the distinguished chairman of the Finance Committee that there is one name on the Executive Calendar that he would very much like to present to the Senate for its consideration and confirmation this evening. The nominee is scheduled to make an official visit out of the country beginning on tomorrow.

I inquire of the minority leader: Is he in a position to proceed to the consideration of Calendar Order No. 397, John M. Walker, Jr., of New York, to be an Assistant Secretary of the Treasury at this time?

Mr. ROBERT C. BYRD. Mr. President, I am informed that there are no objections on this side of the aisle to the

^{*}Representative Biaggi indicated that this amendment which he authored, would advance the intent of his 1970 amendment to UMTA and insure, inter alia, that funded facilities were designed with elevators and alternatives to turnstiles. 120 Cong. Rec. 19851 (June 5, 1974).

consideration of the nomination of Mr. Walker, and I am ready to proceed. Mr. BAKER. I thank the minority leader.

EXECUTIVE SESSION

Mr. BAKER. Mr. President, in view of that statement, I ask unanimous consent that the Senate now go into executive session for the purpose of considering the nomination just identified.

There being no objection, the Senate proceeded to the consideration of executive business.

The PRESIDING OFFICER. The nomination will be stated.

DEPARTMENT OF THE TREASURY

The assistant legislative clerk read the nomination of John M. Walker, Jr., of New York, to be an Assistant Secretary of the Treasury.

Mr. DOLE. Mr. President, on July 29, 1981, the Committee on Finance held a hearing on the nomination of John M. Walker to be Assistant Secretary of the Treasury for enforcement and operations. As chairman of the committee, it is a privilege and a pleasure to report favorably on the nomination of Mr. Walker. The committee has reviewed Mr. Walker's financial statement and the report of the Office of Government Ethics. We are confident there are no

problems in these areas.

Mr. Walker has been nominated to fill a key position in the Treasury Department. The Assistant Secretary for Enforcement and Operations is responsible for supervising the following Treasury bureaus: U.S. Customs Service, U.S. Secret Service, U.S. Federal Law Enforcement Training Center, and Bureau of Alcohol, Tobacco and Firearms. He coordinates Treasury-wide enforcement policy. In addition, he supervises the Office of Foreign Assets Control and Regulation of Customs and the alcohol, to-bacco and firearms industries.

Mr. Walker's educational background and experience make him well qualified to fill this position. He received a bachelor's degree from Yale University in 1962. In 1963 he enlisted in the U.S. Marine Corps Reserves. In 1966 he received the juris doctor degree from the University of Michigan Law School. Following law school, he was awarded an Africa-Asia public service fellowship and served, on assignment, as a state counsel to the Republic of Botswana, where he was in charge of criminal prosecutions.

Beginning in 1970, after a period of private practice of law in New York City, Mr. Walker served as an assistant U.S. attorney for the southern district of New York in the criminal division, where he specialized in narcotics and business fraud investigations and prosecutions. From 1975 to 1981, Mr. Walker was associated with and a partner of Carter, Ledyard & Milburn, a New York law firm where he specialized in litigation.

Mr. Walker is a member of the bar of New York State, the U.S. district court (SDNY), the Second Circuit Court of Appeals and the U.S. Supreme Court as well as the Bar Association of New York City and the American Bar Asso-

ciation.

Mr. Walker is married to the former Cristy West and resides in the District of Columbia.

Mr. President, I urge the Senate to approve his nomination.

The PRESIDING OFFICER. Without objection, the nomination is considered and confirmed.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the nomination was confirmed.

Mr. ROBERT C. BYRD. Mr. President, I move to lay that motion on the table.

The motion to lay on the table was

agreed to.

Mr. BAKER. Mr. President, I ask unanimous consent that the President be immediately notified of the confirmation of this nomination.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. BAKER. Mr. President, I ask unanimous consent that the Senate return to the consideration of legislative business.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER THAT THE CONFEREES ON H.R. 4242 HAVE UNTIL 11 P.M. TO FILE A REPORT

Mr. BAKER. Mr. President, I have not discussed this with the minority leader, but I believe it is routine. I ask unanimous consent that the conferees have until 11 p.m. tonight to file their report.

Mr. ROBERT C. BYRD. I have no objection.

Mr. BAKER. I thank the minority leader.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. BAKER. Mr. President, I know of no other business to come before the Senate. If the minority leader has no further business to transact I am prepared to recess the Senate.

Mr. ROBERT C. BYRD. I have no further business. I wish to congratulate the distinguished majority leader on working out an agreement. He has demonstrated his usual skill and patience, and I personally appreciate it.

Mr. BAKER. Mr. President, the minority leader has shown his usual courtesy, consideration, and even compassion, and I am grateful.

RECESS UNTIL 11:15 A.M., MONDAY, **AUGUST 3, 1978**

Mr. BAKER. Mr. President, I move, in accordance with the order previously entered, that the Senate stand in recess until 11:15 a.m. on Monday next.

The motion was agreed to, and, at 6:53 p.m., the Senate recessed until Monday. August 3, 1981, at 11:15 a.m.

CONFIRMATIONS

Executive nomination confirmed by the Senate August 1, 1981:

DEPARTMENT OF THE TREASURY

John M. Walker, Jr., of New York, to be an Assistant Secretary of the Treasury, vice Walter J. McDonald, resigned.

SENATE—Monday, August 3, 1981

(Legislative day of Wednesday, July 8, 1981)

The Senate met at 11:15 a.m. and was called to order by the President pro tempore (Mr. THURMOND).

The Chaplain, the Reverend Richard Halverson, LL.D., D.D., offered the following prayer:

Let us pray.

Father in heaven, we pray that Thou will overrule in the air controllers' strike and help those inconvenienced by it, especially those whose travel is critical.

We commend to Thee the Boschwitz family, son Ken, as he enters the hos-

pital for surgery today.
Gracious God, our Father, as Thou didst rest from Thy work, so hast Thou ordained rest for Thy people. As we near the close of these stressful weeks, we thank Thee for the prospect of the August recess. Grant special grace to this body that it may resolve the issues before it; and help these public servants to take seriously the divine mandate for rest.

May this recess be preeminently a time for family, for healing, renewing and deepening relationships. Grant discernment as to the apportionment of time and work so that Thy servants may give attention to their loved ones and to their

health.

Be with those who are required to stay on the job here. Help them to make time for relaxation, recreation, and rest.

May this recess be a time of physical and emotional rehabilitation. We pray this, not selfishly, but that we may be maximized in our continued effectiveness in public life.

We pray this in the name of Him whose life as a servant was unhurried, the epitome of peace and poise and

power. Amen.

RECOGNITION OF THE MAJORITY LEADER

The PRESIDENT pro tempore. The majority leader is recognized.

Mr. BAKER. I thank the Chair.

THE JOURNAL

Mr. BAKER. Mr. President. I ask unanimous consent that the Journal of the proceedings of the Senate be approved to date

The PRESIDENT pro tempore. Without objection, it is so ordered.

ORDER OF PROCEDURE TODAY

Mr. BAKER. Mr. President, I might say at this point that there was an order entered on Saturday that after the time for the two leaders and the time for the recognition of the Senator from Wyoming (Mr. SIMPSON) for 15 minutes, there

be a brief period for the transaction of routine morning business in which Senators may speak.

CONSIDERATION OF CONFERENCE REPORT ON H.R. 4242 INCLUDING KENNEDY MOTION TO RE-

At 12 noon, the Senate will proceed to the conference report on H.R. 4242, the tax bill, on which there will be 2 hours of debate equally divided and controlled by the distinguished Senator from Massachusetts (Mr. KENNEDY) on behalf of the proponents, and the distinguished Senator from Kansas (Mr. Dole), the chairman of the Committee on Finance.

If the motion to recommit fails, under the previous order the Senate will immediately turn to the consideration of the conference report itself, and without intervening action of any sort the Senate will vote on the conference report.

DEPARTMENT OF JUSTICE AUTHORIZATION BILL

It is my understanding, Mr. President, that after the disposition of the conference report, assuming that it is disposed of as I have just described, the Department of Justice authorization bill (S. 951) will automatically recur as the pending business before the Senate.

May I inquire of the Chair if that is

correct?

The PRESIDENT pro tempore. That is correct.

Mr. BAKER. It would not be the intention of the leadership to proceed to debate the Department of Justice au-

thorization bill today.

However, it is anticipated that the distinguished Senator from Louisiana or another Senator may file on his behalf a cloture motion to end further debate on the Johnston amendment to the Helms amendment to the Department of Justice authorization bill. If that does occur, it is my understanding that, under rule XXII, a vote on that cloture motion would occur then on the 2d day after our return, which would be the 10th day of September, a Thursday.

I do not anticipate any other business to be transacted today, other than that which I have just described. If there are matters that can be dealt with by unanimous consent, of course, I will confer with the minority leader in that respect.

But, assuming that the conference report is disposed of and the other business I have described is transacted, it would be my intention to offer for the Senate's consideration an adjournment resolution conditioned on action by the House of Representatives on tomorrow.

It would be necessary, Mr. President, perhaps to provide for a contingency of a Wednesday session, which I do not anticipate-I reiterate, I do not anticipate-simply because I think it would be unwise for the Senate to pass the adjournment resolution without any restriction or without any provision until

the House of Representatives has acted and has had an opportunity tomorrow to consider the adjournment resolution and if, indeed, they turn to the consideration of that resolution at that time.

The practical effect of what I have said is to say that I believe the conference report on the tax bill will be disposed of on today, a cloture motion will be laid down by Senator Johnston against other debate on his amendment, a resolution of adjournment will be adopted with certain contingency plans to permit the House of Representatives to act on tomorrow, and then, Mr. President, to deal with any other items of business that may be agreed upon by unanimous consent but, otherwise, to transact no further business before the beginning of the August recess.

Mr. President, that is the business before the Senate as I can anticipate it at

this time

In furtherance of that program, Mr. President, I have a series of requests that I would like to make at this point.

AUTHORIZATION FOR CERTAIN ACTION TO BE TAKEN DURING THE ADJOURNMENT

Mr. BAKER. Mr. President, I ask unanimous consent that, during the ad-journment of the Senate over until Wednesday, September 9, 1981, the Vice President, the President pro tempore, or the Acting President pro tempore be authorized to sign duly enrolled bills and joint resolutions.

The PRESIDENT pro tempore. Without objection, it is so ordered.

AUTHORIZATION FOR NOMINATIONS TO BE HELD IN THE STATUS QUO DURING ADJOURNMENT

Mr. BAKER. Mr. President, I ask unanimous consent that any nominations which have been submitted to the Senate and not acted upon by the time the Senate adjourns be held in the status quo until the Senate next reconvenes.

The PRESIDING OFFICER. Without objection, it is so ordered.

AUTHORIZATION FOR THE SECRETARY OF THE SENATE TO RECEIVE CERTAIN MESSAGES

Mr. BAKER. Mr. President, I ask unanimous consent that during the adjournment of the Senate over until Wednesday, September 9, 1981, the Secretary of the Senate be authorized to receive messages from the President of the United States and the House of Representatives and that such be appropriately referred.

The PRESIDENT pro tempore. Without objection, it is so ordered.

TO FILE REPORTS

Mr. BAKER. Mr. President, I ask unanimous consent that during the adjournment of the Senate over until Wednesday, September 9, 1981, committees be authorized to file reports between the hours of 9 a.m. and 3 p.m. on Thursday, August 13, 1981, and Thursday, August 27, 1981, and that, in addition to those dates, the Committee on Ethics be authorized to file between the hours of 9 a.m. and 3 p.m. on Thursday, September 3, 1981.

The PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BAKER, Mr. President, I will have other requests to make as they are cleared by the distinguished minority leader.

ORDER FOR RECESS UNTIL 12 NOON ON WEDNESDAY, AUGUST 5, 1981

Mr. BAKER. Mr. President, I ask unanimous consent that when the Senate completes its business today it stand in recess until the hour of 12 noon on Wednesday, August 5, 1981, unless the House of Representatives has previously agreed to Senate Concurrent Resolution

Before the Chair acts on the request I have just made, may I say once again, for those who are listening, that there is no intention to convene the Senate on Wednesday. This is a simple precaution in view of the fact that the House will not act on the adjournment resolution, which I will offer later today, until Tuesday. To provide against the extreme improbable possibility that the House would not act on Tuesday, then the Senate must preserve the option of coming back on Wednesday.

But, I repeat, I do not anticipate it. I think it is virtually certain that there will be no session of the Senate on Wednesday. This request is necessary in order to preserve the opportunity for the Senate to act in the event the House does not complete its action tomorrow.

Mr. PROXMIRE. Will the majority leader yield for a question?

Mr. BAKER. Yes.

Mr. PROXMIRE. If there were a session on Wednesday, would there be a rollcall vote?

Mr. BAKER. Mr. President, I do not expect a session on Wednesday. I do not expect any business to be transacted. I think there is less than a 1-percent possibility that we will be in on Wednesday. But if we are in on Wednesday, it will be so unexpected that I simply could not rule out any possibility of any procedural votes.

Mr. PROXMIRE. I thank the Senator. Mr. BAKER. Mr. President, was the request granted?

The PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BAKER Mr. President, later in the day, assuming the Senate has transacted the business that I alluded to in my previous remarks, I will offer an adjournment resolution which will be designated Senate Concurrent Resolution 27. I do not expect a rollcall vote on that.

AUTHORIZATION FOR COMMITTEES It will provide that the Senate will go over until Wednesday, September 9, at 12 noon.

> I say to my friend, the minority leader, it will be an adjournment.

Mr. President, I have no need for my time under the standing order. If no other Senator requires additional time. I am prepared to yield it back or yield it to the control of the minority leader, if he wishes.

Mr. ROBERT C. BYRD. I thank the distinguished majority leader.

RECOGNITION OF THE MINORITY LEADER

The PRESIDENT pro tempore. The minority leader is recognized.

ORDER TO PERMIT MINORITY LEADER TO OFFER CLOTURE MOTION ON BEHALF OF SENATOR JOHNSTON

Mr. ROBERT C. BYRD. Mr. President, Mr. Johnston is not here today and he would like for me to introduce a cloture motion on his behalf. Inasmuch as the Justice Department authorization bill automatically will be before the Senate upon the disposition of the conference report of the tax bill today, at which time I would offer the cloture motion on behalf of Mr. Johnston, would the distinguished majority leader consider getting a consent at this time to allow me to offer the cloture motion at this time, even though the DOJ bill is not before the Senate, because I may have to leave Washington immediately after the second rollcall vote and would not be here at the time the DOJ bill becomes the pending business.

Mr. BAKER. Mr. President, I have no objection to that.

I wonder if we might even go further than that. Would it be convenient to the minority leader or Members on his side and perhaps Members on our side to set some time other than rule XXII time for the vote on the cloture motion?

Mr. ROBERT C. BYRD. Mr. President, I would have to counsel with Mr. JOHNSTON.

Mr. BAKER. Mr. President, why do we not explore that possibility on both sides of the aisle and perhaps I could make another request later in that respect.

Mr. President, I ask unanimous consent that it be in order at this time for the distinguished minority leader to offer a cloture motion under rule XXII to limit further debate on the Johnston amendment to the Helms amendment to the Department of Justice authorization bill, notwithstanding that the bill is not yet pending before the Senate.

The PRESIDENT pro tempore. Is there objection? The Chair hears none. Without objection, it is so ordered.

Mr. ROBERT C. BYRD. Mr. President, I thank the distinguished majority leader for his characteristic courtesy and consideration of the request of the minority leader.

CLOTURE MOTION

Mr. ROBERT C. BYRD. Mr. President, at this time I send to the desk a cloture motion on behalf of Mr. Johnston.

The PRESIDENT pro tempore. The cloture motion having been presented under rule XXII, the Chair directs the clerk to read the motion.

The legislative clerk read as follows: CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of Rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on amendment No. 96 (as modified) to S. 951, the Department of Justice authorization bill.

Jennings Randolph, Lloyd Bentsen, J. Bennett Johnston, Don Nickles, Dennis DeConcini, John C. Stennis, Russell B. Long, David L. Boren, Lawton Chiles, Edward Zorinsky, Steven Symms, J. James Exon, Bob Kasten, Walter D. Huddleston, Sam Nunn, and Chuck Grassley.

Mr. ROBERT C. BYRD, Mr. President, I again thank the distinguished majority leader.

Mr. President, does the Senator from Wisconsin have need for time this morning?

Mr. President, I yield to Senator PROXMIRE at this time.

GENOCIDE IS COMMITTED BY INDIVIDUALS

PROXMIRE. Mr. President, I would like to point out one of the important provisions of the Genocide Convention.

Article IV states that:

Persons committing genocide . . . shall be punished, whether they are constitutionally responsible rulers, public officials, or private individuals.

Article IV is of great and subtle importance. Genocide is defined as a crime committed by persons, not by governments or organizations.

In any case of genocide, charges would be brought against a person or persons responsible for acting with the intention of destroying a substantial part of a group of people.

The wisdom of this provision lies in the fact that we have no method of punishing governments or organizations. We can bring all the pressure which the international community can muster to bear on institutions that support genocidal acts. But we have no worldwide government or penal system which could actually punish an institution.

Instead, each country of the world has its own criminal justice system which can accuse, try, convict, and punish persons who deliberately engage in genocide and other crimes. The Genocide Convention takes into consideration the reality of national penal systems.

Another important aspect of article IV is that it applies one of the funda-mental principles of America's judicial system-that all people are equal in the eyes of the law. No one is exempt from responsibility for their actions. Thus, a genocidal act committed by a king or a Senator is just as much a crime as one committed by any person.

Clearly, article IV of the Genocide Convention is an integral part of the treaty. Its wording leaves no doubt that persons, not governments, could be accused of genocide under the treaty. No person, from the highest public official to the lowliest man in the street, would be treated differently under this law.

This provision exemplifies the wisdom and deliberation which went into the Genocide Convention. The document was approved by the United Nations in 1948 and today, 33 years later, the U.S. Senate still has not shown its approval of the treaty. I urge my colleagues to speedily ratify this treaty.

ratify this treaty.

Mr. ROBERT C. BYRD. Mr. President,
I suggest the absence of a quorum on my
time.

The PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. ROBERT C. BYRD. Mr. President, does the distinguished Senator have need for additional time?

Mr. SIMPSON. I think the time of the special order will be adequate.

Mr. ROBERT C. BYRD. Mr. President, I yield back the remainder of my time.

RECOGNITION OF SENATOR SIMPSON

The PRESIDENT pro tempore. The Senator from Wyoming is recognized.

Mr. SIMPSON. I thank the Chair.

JAMES WATT, SECRETARY OF THE

Mr. SIMPSON. Mr. President, I have noted with considerable interest a variety of recent commentary which has been offered into the Congressional Record with regard to Interior Secretary Jim Watt. I must admit that I was somewhat startled at the intensity of the recent remarks by my fine friend and colleague, Senator Alan Cranston of California. I thought his assessment of Jim Watt to be uncharacteristically harsh. I think it is appropriate for those of us who support Jim Watt to respond to those comments.

I would respectfully state that all of the evidence certainly has not been presented in this case. Jim Watt is a solid guy, a fair one, and I want to say just a very few words about him.

I think Jim Watt realizes that he may have erred in his early months in this administration, since he made the determination to set the Department of the Interior "on course," to mold it in the new image of the Reagan administration, and in doing so he cloistered himself, limiting his media availability. He paid dearly for that.

We are all personally aware of that. When he arrived on the scene, he very quickly found that some of those red hot issues which had been discussed in past weeks have been lurking around in the inner recesses of the Department of the Interior for many years. One of the issues that was not dealt with in past

administrations was the critical need to assess the location and extent of strategic materials in our country. These are minerals which our country simply could not replace if sensitive sources were shut off. Many of those strategic materials are located in Third World countries that have an unstable governmental structure and many of these countries feel no special obligation to the United States of American. If these sensitive sources of supply are shut off we will be in critical need in this country.

Mr. President, there has been a lot of high old hysteria about Jim Watt. Many have a real sense of glee as they hurl their harpoons into him. It is ironic that various organizations in America which characterize themselves as "sensitive and gentle folk" who banded together years ago to "preserve, protect, and nurture" really do like to get the gloves off and get into some pretty vile characteriza-tions. Those organizations are having a heyday at the present time. It is interesting to see them rubbing their hands with glee as they contemplate tacking Jim Watt's pelt on a wall of their redwood paneled dens. They really are quite the hunters, even though they would like to give one the impression of hunting "only with binoculars or camera" as they tramp through the woods searching for the furbish lousewort and various species of the crested titmouse. But I conclude they know more about the jugular vein of adversarial combat than many a hunter I have known out in the high country of Wyoming.

I have known Jim Watt for over 20 years. He is no zealot, no nut, no lightweight. He is doing things that fit into this administration's agenda and he will be doing those things in a manner which will be protective of the environment. Yes, that just could be so. But there is dedicated band out to nail him to the cross. So dedicated and so bizarrely zealous and off tilt that he now has Secret Service coverage with him around the clock. No other Cabinet Secretary is confronted with the type of abuse and threats he receives. And so it goes. He is a tough guy and he knew what he was headed into.

As someone well stated several days ago, "It is possible to do controversial things in a noncontroversial manner.' Jim is learning that. Jim Watt is also making himself available in the editorial boardrooms throughout the United States. He is holding himself open for media questioning and participation and he is becoming accessible. I think that is great. And yet, it must be a little disappointing and disheartening to him as one of the human clan to be painted as some sort of a "death's head" engaged in the mindless destruction of the fragile world of flora and fauna and also some kind of a religious fanatic. He is not that.

I do say that one of the toughest prejudices that Jim Watt has had to encounter is one that has been planted with great glee. All sources of opposition to him prefer to languish in the distortion that Jim Watt, if he but had his way, would allow oil and gas leasing and min-

ing development in the national parks. Now, there is a phony one. But it still gets good coverage. Jim Watt could not do that even if he wanted to, and he has indicated on repeated occasions with utmost incredulousness that he never made such a statement. He did not. But it gets good mileage. He could not do it even if he wanted to, since the statutes of the United States would prevent it, and there are not two or three Senators in the United States who would give him that authority. I assure you that this one would not.

It might just be well to review for a moment the circumstances which have brought us to this point. Perhaps we can wade through all of the stuff and see why we are now hearing all this hue and cry

from this rabid opposition?

Well, Jim Watt will never shake the bar sinister which was conferred upon him by the so-called environmental extremists when he chose years ago to enter the fray on behalf of a public interest law firm in a manner which caused him to realize the ironic worth of that remarkable adage, "Hoist on your own petard." This is what has vexed those organization so and it continues to do so. Those are the groups who failed to get their way in the legislative arenas throughout America years ago and, therefore, began to zealously utilize the court systems for their triumphs. It worked, and indeed it worked well, and it worked unfettered for many years until these public interest law firms, such as Mountain States Legal Foundation, rose up to bring some semblance of balance to the serious environmental issues that confronted Americans. And now they also shriek that he has surrounded himself with people of "his own ilk."

What a kicker. Go take a look at the roster of the cast of characters that staffed the Interior Department and the Forest Service in the previous administration—the Under Secretary, the Assistant Secretary, the Deputy Secretary. Talk about a revolving door. They bounced between being counsel for the environmental organizations to being a part of the department with whom they would bargain in the courts. I commend you to a review of my previous remarks on that subject many weeks ago on page 806 of the Congressional Record of January 22, 1981.

You might just want to take a look at a few of those names and offices and see why those groups seem to so enjoy that method of administering the public lands when their side was riding high.

I still believe that Jim Watt is the right person at the right place at the right time for just the right position in this new administration.

I believed that at the time of his confirmation and I believe that now.

What I hope that Americans would keep in mind was that Jim Watt pledged—prior to even accepting the nomination of Secretary of the Interior—that he would support the language and the intent of the statutes of the United States. Those are the statutes that describe the stewardship of national public lands and the concept of multiple use. That concept of multiple

use was not Jim Watt's new idea as Secretary of the Interior. That was the concept of Congress when they first spread the law on the books. Jim Watt will carry out that pledge he gave to the President and to the country at the time of his confirmation.

He loves the land which nurtured him. During many times in his youth, there were periods of hard scrabble in seeing that the Earth could provide enough sustenance for him and for his family. He knows more about the fragile nature of the ecosystem than many who simply read about it in the magnificent and graphic publications that you are privy to when you pay your dues to those vigorous organizations. He paid his dues many years ago and in many ways. He believes deeply in stewardship and conservation and protection of the environment. He happens to be in a job where he is required by law to do that and also by law to allow for grazing and mining and timbering and development on the public lands.

That is what the law says. Those things are demanded by the statutes of America. If we do not want to give him that power, change the statutes. They were not hatched by Jim Watt or those in the present administration.

Jim Watt knew the stakes of this game when he came. What he did not count on was that peculiar parlor game played in Washington where what is said in private and thoughtful conversation with your adversaries is totally different from the babbling and posturing by those adversaries when those camera lights go on or when somebody stuffs a microphone under their nose. We all learn that one around this place—sooner or later.

Well, enough of that, Mr. President. It is my great pleasure to enter into the RECORD an editorial from the Detroit News of July 6, 1981, which is supportive of these observations of mine.

I also wish to state again that it has been my rich personal privilege and pleasure to have shared much with this fine man. He brings rare skills to what is most assuredly a very tough job. He has a great personal faith—a great personal stability-and a firm anchorage and heritage of persistence and perseverance. What pleases me most at this time in his tenure is to see my friend listening to others and hearing them out. That augurs well for the future. It is the kind of thing that will turn rugged opposition into ragged opposition. I commend Jim for his willingness to do it. I think Americans will be pleased with that new attitude of his.

I think that it is important to reflect that none of us in our daily lives as humans have ever witnessed anything but a hollowness that comes when a person or an organization attempts to add greater stature and dimension to his or its own self by lessening or diminishing another.

I ask unanimous consent to have the aforementioned editorial printed in the RECORD.

There being no objection, the editorial was ordered to be printed in the Record, as follows:

A DELICATE BALANCE

The Department of Interior has generally been an obscure Washington preserve presided over by forgettable directors. Then came James Watt.

During his five-month tenure, Secretary Watt has generated more controversy than any of his predecessors. From the confirmation hearings when he faced down Senate critics, to the initial decision to reconsider offshore oil drilling along northern California's scenic coastline, Mr. Watt has not been one to shrink from confrontation.

A Newsweek cover depicts him lifting a carpet of wooded beauty to assist in the "exploitation" of the land. Former Sen. Gaylord Nelson calls Mr. Watt "unfit to hold office." The Sierra Club is circulating a petition to force him from office.

Who is this man the environmentalists

Who is this man the environmentalists characterize as a Dr. Strangelove bent on defiling nature's grandeur?

He is a man who simply wants to restore the balance between preserving the environment and promoting economic development—a balance that has been lost during the past two decades.

This may sound easy, but it isn't. Not only is the Interior secretary the nation's chief environmentalist, he oversees dam construction, mining, the leasing of oil fields on the outer continental shelf, and mineral-rights grants.

Mr. Watt must resist those who would exploit the land for profit, as well as the environmental purists who would make the world safe, at any cost, for the snail darter.

There is a clear need both to preserve the land's natural beauty and to extract those resources that will promote economic self-sufficiency. And, from the evidence to date, Secretary Watt seems to recognize the need for equilibrium far better than his detractors do.

The energy crisis has clarified American attitudes about achieving that balance.

A Newsweek poll reflects an American eagerness to increase the nation's energy production. Seventy percent favor expanded offshore oil drilling and 76 percent want increased oil exploration on federal lands. A plurality supports easing strip-mining regulations to extract more coal from the land, and a majority favors relaxing air-pollution standards to permit more coal burning.

Many environmentalists view this trend with alarm.

They believe that the public's shortsighted self-interest will defile the land. But it is the extreme environmentalist who has been shortsighted, and selfish, by refusing to acknowledge the possibility of development that is sensitive to the ecology.

But charges that Secretary Watt will sacrifice the national landscape to wanton timbering, drilling, and mining inflame the issue without providing hard facts or, more important, redeeming and practical alternatives.

Certainly the Interior Department's program must be tempered by a reasonable concern for preserving the landscape. But to prevent the nation from tapping its abundant natural resources would be precisely the kind of foolishness the American people emphatically rejected last November.

The extreme environmentalists, who dislike compromise, have a choice: They can either recognize the economic need to accommodate dual values, or they can go out to the garden and eat worms.

ORDER OF BUSINESS

Mr. BAKER. Mr. President, there is no other special order today, is there?

The PRESIDING OFFICER (Mr. KASTEN). The Senator is correct.

Mr. BAKER. Mr. President, I believe there is one item on the Executive Calendar that can be cleared for action at this time. May I inquire of the minority leader if he is prepared to proceed to consideration of the first item under nominations, to the Department of Defense, Richard N. Perle, of Maryland, to be an Assistant Secretary of Defense?

Mr. ROBERT C. BYRD. Mr. President, I have discussed this nomination with Mr. Jackson and assured Mr. Jackson that I would act to clear the nomination quickly. That has been done on my side of the aisle at this time. I am in a position to advise the distinguished majority leader that the minority is ready, willing, and eager to proceed.

Mr. BAKER. I am grateful, Mr. President, in all three categories.

EXECUTIVE SESSION

Mr. BAKER. Mr. President, I ask unanimous consent that the Senate now go into executive session for the purpose of considering the nomination of Richard N. Perle.

There being no objection, the Senate proceeded to the consideration of executive business.

The PRESIDING OFFICER. The nomination will be stated.

DEPARTMENT OF DEFENSE

The legislative clerk read the nomination of Richard N. Perle, of Maryland, to be an Assistant Secretary of Defense.

The PRESIDING OFFICER. Without objection, the nomination is considered and confirmed.

Mr. BAKER. I move to reconsider the vote by which the nomination was considered and confirmed, Mr. President.

Mr. ROBERT C. BYRD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BAKER. Mr. President, I ask unanimous consent that the President be immediately notified that the Senate has given its consent to this nomination.

The PRESIDING OFFICER. Without objection, it is so ordered.

LEGISLATIVE SESSION

Mr. BAKER. Mr. President, I ask unanimous consent that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order, there will now be a period for the transaction of routine morning business not to extend beyond the hour of 12 noon, with statements limited therein to 3 minutes each.

The PRESIDING OFFICER. The Senator from Utah is recognized.

THE AIR TRAFFIC CONTROLLERS STRIKE

Mr. GARN. Mr. President, I wish to express in the strongest possible terms

my anger with the Nation's air traffic controllers strike.

I have had considerable experience with airports, Mr. President, and I am well aware of the function of the air traffic controller. I have also had considerable experience with Government employee unions, and what the Professional Air Traffic Controllers Association has wrought is a classic case of employee greediness. Under agreements negotiated by PATCO, the controllers at small and little-used airports earn the same salaries as those at the major airports such as La Guardia or O'Hare. Those salaries are substantial, Mr. President. Right now, they average \$33,000 per year. The union is shooting for an average of \$52,000, and a cutback to a 4-day week.

Why air traffic controllers, Mr. President? I do not deny that there are heavy pressures on some controllers, but there are heavy pressures on lots of other Government employees. Soldiers, sailors, marines, airmen, all serve their Nation at the peril of their lives, as the tragic accident on the U.S.S. Nimitz recently reminds us. They are not allowed to strike, and they should not be.

To choose an even closer parallel, what about air traffic controllers on aircraft carriers? Even the pressures on controllers at the busiest airport in the United States do not compare with trying to set a supersonic jet down on the postage stamp deck of a carrier, rolling and pitching in heavy seas. Those controllers do not threaten strikes. Neither do the pilots whose lives hang in the balance in those operations.

I note, Mr. President, that there are no geographical differentials built into the pay scales of controllers. What that means is that a controller at the busiest airport in the country gets the same pay as the controller at the dirt strip in the country where an airplane is an oddity. In other words, the union for these workers has behaved in normal fashion, and written into law the same pay for all its members, using the requirements on the most burdened worker as justification.

Mr. President, I cannot emphasize strongly enough that this strike is illegal. As Federal employees, the air traffic controllers are forbidden to strike. We have had illegal strikes in the past, Mr. President, and the Government's response has been sickening. I sincerely hope that the Reagan administration will have the guts to stand up to this union, a union whose officers sat before committees of this Congress and denied that they were thinking about a strike. Robert Poli, the president of the union, testified before the Commerce Committee that "in no way is PATCO planning to go on strike in 1981." He also said "I make no excuses for people involved in illegal actions."

Well, Mr. President, Mr. Poli is singing a different tune today. In the Wall Street Journal he is quoted as saying "the only illegal strike is one that fails." That is a very different tune, and one that this Senator does not care to march to. I think our response should be a little bit different, too. I think the administration should be as hard on this illegal strike as it can be.

Mr. President, this is a dangerous

strike. The union has picked the most disruptive time of year to threaten a strike. Millions of Americans will be traveling this summer, and the work stoppage or slowdown will endanger their lives, and seriously damage the economy at a time when it needs all the help it can get. The administration is attempting to get the budget into balance, and the kind of budget-busting demands made by this small group of critical workers is outrageous. I urge my colleagues to stand fast against this extortion, and to join me in urging the President to prosecute violations of the law to the utmost.

Mr. President, in order that my colleagues can judge for themselves the extent of official PATCO involvement in preparations for this threatened strike, I ask unanimous consent that a document outlining preparations for the strike be printed at this point in the RECORD. This strike plan appears on official PATCO stationery, and amply justifies the remarks I have just made.

There being no objection, the document was ordered to be printed in the RECORD, as follows:

PROFESSIONAL AIR TRAFFIC CONTROLLERS ORGANIZATION

Brothers and Sisters of Cluster G-9 (ZAU, ARR, DPA): This is the first in a series of informational packages designed to let the members of the cluster know what is being done, what is planned, what you are expected to do and any other information pertinent to our success and well-being in pursuit of an equitable contract.

This packet contains five items that should be of interest to everyone.

First is a draft of the letter given to our legislators informing them of the reasons and rationale behind H.R. 1576. For those who may doubt your worth, this will provide interesting and, hopefully, enlightening reading. You rightfully deserve a shorter work week, improved retirement, and better pay.

The second item is a list of the various committees involved in the '81 program along with all their functions.

The third item is the rules of conduct for the headquarters' area in the event of a confrontation. The key word is rules. We must protect our professional standing at all times.

The fourth item is the National Controllers Subsistence Fund Guidelines. Anyone concerned over the consequences of a job action will find this document of the utmost importance.

Last, but certainly not least, is the probable sequence of events leading up to the head count and a description of your individual areas of responsibility.

If this package has generated any questions or you have any recommendations on information that should be included in future packages, please contact me or your Area Representative. Remember, PATCO is not me, PATCO is not you, PATCO is US!

TERRY ANDERSON, Choirboy, Cluster G-9.

COMMITTEES

HEADQUARTERS COMMITTEE

Operates the main desk at headquarters and coordinates the activities between other committees. The Headquarters Committee will also:

(a) maintain an incident log and status board,

(b) determine emergency situation actions to be taken,

(c) disseminate latest info on conflict status at all times.

(d) act as a spokesperson for the local in the absence of any local officer or choirboy.

GOOD AND WELFARE COMMITTEE

The people of this committee will serve as the official channel through which local community services provide assistance. These people help make agency services available to the strikers. The conflict counselors may be called upon to give info on any needs, such as eviction, hospitalization, financial problems, installment payments, etc. Each area in the building will be represented by a trained strike counselor. The membership must realize that the public aid is not a charity. It represents tax money that you and I have paid. A letter will be sent to each member prior to a confrontation explaining the committee and it's job.

INTERNAL COMMUNICATION COMMITTEE

This committee is responsible for maintaining a membership phone list in conjunction with the "Call-Pak" and, in a time of conflict, to collect, validate, and disseminate on a daily basis any and all information the committee has acquired. The sources of information would be National, Regional, or Facility Bulletins, TV coverage, articles from prominent newspapers across the country as well as local articles from magazines, suggestions from members, and information about all of the committees. Any information acquired by an individual who feels it is pertinent to PATCO would be welcomed and duly posted by this committee.

SOLIDARITY COMMITTEE

This committee will be responsible for a variety of activities aimed at boosting membership morale. Each evening, at rally time, one or two activities will be scheduled for the members entertainment. Listed below are the types of activities and those people who will coordinate them.

Sports, Dwight King; Refreshments, Gary Hedman; Speakers, A. J. Andrews; Music, Pete Nyquist; Movies, Gary Michael; and Free Time, Jim Marszalek.

In addition to the above, each night this committee will hold a strength evaluation and an open forum type discussion that will allow everyone to vocalize his or her feelings about the conflict and our progress.

TRANSPORTATION COMMITTEE

The Transportation Committee was formed to help meet any transportation needs that the membership might have in the case of conflict. The committee will survey the membership to ascertain what our transportation capabilities are; then formulate a plan to meet the membership's needs to the best of our capabilities and resources.

PICKETING COMMITTEE

The Picketing Committee is responsible for implementing the picketing portion of the plan as it pertains to our cluster. This includes researching the applicable laws and regulations, procuring supplies and designating key individuals.

SECURITY COMMITTEE

This committee is responsible for the headquarters area, parking security, picket line security, and air traffic movement volumes. The committee has a representative from each area plus other personnel to carry out each assignment. The overriding responsibility of maintaining order and protecting PATCO personnel and property are given top priority. Security personnel will be present at all picketing sites to assist the picket line Captain in the event of an incident.

POLITICAL ACTION COMMITTEE

This committee's function is to encourage and to coordinate letter writing campaigns in support of both HR 1576 and S 808 now before congress

The National Controller Subsistence Fund guidelines were amended via a resolution passed at the 1980 Convention. The new guidelines are:

ARTICLE I-GENERAL

Section 1.—The controller subsistence fund shall consist of those monies collected from dues for that purpose and any interest, dividends, profits or repayments made to the PATCO controller subsistence fund resulting from backpay awards

Ing from backpay awards.
Section 2.—Duration: The fund shall be perpetual unless dissolved by majority vote of the members of the fund. In case of dissolution, all financial obligations of the fund must be paid prior to disbursement of the monies.

Section 3.—Objective: To provide financial support of members whose participation in a nationally sanctioned job action has resulted in suspension and/or dismissal.

ARTICLE II-RESPONSIBILITY

Section 1.—The Executive Vice President of PATCO shall be responsible and assountable for the proper receipts and disbursement of all monies of the Fund, in accordance with Article II, Section 4.b of the PATCO Constitution. All investments of monies in the fund shall be made only in guaranteed government securities.

Section 2.—The National Finance Committee shall exercise overview responsibilities of the fund in accordance with Article X, Section 1.c of the PATCO Constitution.

ARTICLE III-ELIGIBILITY

Section 1.—In order to receive subsistence, a member must:

- a. Be a member as described in the PATCO Constitution.
- b. Be suspended and/or dismissed as a direct result of his (her) participation in a nationally sanctioned job action.
- c. Have been an active member of PATCO for 60 days immediately prior to engaging in a nationally sanctioned job action. The 60 day limitation does not apply to new members who have been employed as air traffic controllers for less than one year.
- d. File a grievance or administration appeal against the suspension/dismissal.
- e. Be certified as eligible by his (her) local Executive Board. If no local Executive Board exists, the member must be certified by the Regional Vice President.
- f. Deliver a promissary note to the Executive Vice President promising to repay the fund for subsistence received in an amount equal to all backpay awards resulting from grievance, appeal or court action, if any.

ARTICLE IV-SUBSISTENCE

Section 1.—Each eligible member shall receive, on a bi-weekly basis, subsistence payments equal to his (her) base pay, including regularly scheduled increases, had the member's employment continued. No eligible member or his (her) designated survivor, who is receiving subsistence from this Fund, can have his (her) subsistence revoked without a $\frac{2}{3}$ majority vote of all the Voting Representatives of PATCO convened at a National Convention.

Section 2.—When an eligible dismissed member reaches age 61, the amount of subsistence which he (she) receives from the fund will be reduced to a level he (she) should have received if normal Civil Service Retirement had occurred.

Section 3.—In the event of the death of a controller receiving subsistence from the fund, the member's designated survivor shall receive survivor subsistence annuity equal to the amount that the survivor would have received, if the member had not been dismissed.

Section 4.—An eligible member, whether developmental or full performance level at the time of his (her) dismissal, shall be guaranteed, in accordance with the regular schedule of promotion for which the member would have become eligible, in progressing to at least the journeyman level of a level three terminal or a level one center.

Section 5.—In the event of a suspension.

subsistence will be paid to the eligible member for a period of time equal to the length of the suspension which the member actually served. In the case of dismissal, the eligible member will be paid until that member has been offered reinstatement at his (her) last assigned facility or at a facility exceptible to the member.

acceptable to the member.
Section 6.—Each subsistence fund recipient or designated survivor may appeal a decision related to the establishment or the payment of subsistence to the PATCO National Executive Board. The National Executive Board's related decision shall be final.

Section 7.—In the event of fund depletion, the National Executive Board may, by a $\frac{2}{3}$ vote, reduce payments by an equal percentile in order to preserve continuity of income to all recipients.

ARTICLE V-SANCTIONING

Section 1.—A national job action must be sanctioned by at least five members of the National Executive Board.

HEADQUARTERS—RULES OF CONDUCT Absolutely no alcoholic beverages. Sobriety required. Keep it clean . . . America is watching. Do not let any question go unanswered. Cooperate.

SCENARIO

- 1. Meaningful negotiations with the F.A.A. no longer exists.
- Our legislative pursuits have stalled.
 Only because the above efforts have reached their end, a nation-wide strike of

reached their end, a nation-wide strike of air traffic controllers will be called. The date for this action (2-3 weeks prior to the actual headcount) will be given to the F.A.A., the media, and the flying public.

4. The headcount will be taken nationwide, prior to the day shift of the strike date. This count will be checked and cross-checked via the validation process which has been

outlined at our meetings.
5. If we do not get the required 80 percent, everyone will return to work as scheduled. There will be no exceptions!

- 6. If we have 80 percent of the bargaining unit, which must also include 80 percent of the high impact facilities, willing to go out and stay out, we will go on strike at the start of that day shift.
- Every member will be required to attend the rallies scheduled for the first day of the strike.
- 8. After the first day, every member is expected to work the same schedule that was shown in the schedule book prior to the strike. The only difference is that you will be working for PATCO as a striker, not the F.A.A. who has failed to address the needs of the work force. Our members should not look at this time away from the boards as a vacation, but as a dog fight where we will take what we deserve.
- 9. Members and their spouses can expect phone calls/letters from F.A.A. managers offering immunity if controllers return to work. These calls must be ignored but should be reported to strike headquarters.
- 10. The courts will more than likely issue subpeonas which will require controllers to appear before a Federal Judge. The Judge will order all controllers back to work with the threat of a jall sentence/fine if the order is not complied with. This situation will be dealt with when the time comes.
- 11. When the National states they have negotiated a settlement worthy of our efforts, the PATCO members who are on strike will be given an opportunity to ratify the contract. That vote will require 50 percent plus one of the striking PATCO members.

Mr. GARN. Mr. President, let me give mv colleagues an example of what PATCO wants, as outlined in S. 808. This bill would make it possible for controllers to become the highest paid employees in the Government. The top controller under S. 808 would make \$73,420 in base pay. Add-ons would make it possible for him to make as much as \$135,000 per year. Controllers would receive a 1½-percent increase for every 1-percent increase in the CPI, thus allowing them to benefit from inflation. This bill would allow them to retire after 20 years at 75 percent of their highest annual gross salary, and would give controllers the right to strike. No responsible agency or Congressman could support these proposals.

More than a month ago, Mr. President, 38 of our colleagues in the Senate signed a letter that Senator Kassebaum and Senator Packwood initiated telling the controllers that we were willing to listen, we were willing to talk, but if they struck, it was an illegal action and there are severe penalties that could come from that kind of action. They did not go on strike and, therefore, no further action was taken on this floor.

But, last week, after they rejected a very generous contract that would have given them pay increases of over 11 percent, a reduced workweek, and increased fringe benefits plus the almost 5 percent that would occur this fall—more than 16 percent in that package—and they turned that down, 54 of my colleagues joined me in sending in a very strong letter saying that we would not agree to this kind of extortion or blackmail.

That is exactly what it is, Mr. President. They have ignored that letter. They have gone on strike. They are going to cost the airlines and industry of this country hundreds of millions of dollars and they are not too concerned about public safety, apparently, either.

So I am pleased with the President's actions this morning, Mr. President, that he has given them 48 hours to come back to work or they will be terminated. The only thing I would disagree with the President on is I would have given them 24 hours. If they were not back to work in the morning, they would be fired; if we have to retrain controllers and start from scratch and have to take some old retread pilots like me to man those towers, we will do it; but we are not going to have this kind of illegality and this kind of threat and this kind of intimidation. Whatever they may now negotiate with the administration, which is taking a tough stand at this point, they need to know that they will not get any huge increases negotiated as a result of an illegal strike through this body.

They had better remember that 55 Senators signed that letter and even if all 54 others back off, this Senator will filibuster any agreement obtained through this type of greedy action. I hope Mr. Poli hears this, either before or after the Federal marshals find him. If they persist, this union should be broken up, they should be fined heavily, they should be terminated. And if that does not stop it, they should be placed in jail. We put poor people in jail in this country for larceny who take \$100 from a grocery store.

Here we have this greedy union demanding ridiculous salaries—I repeat: more than other Federal employees except the President of the United States.

I hope the message goes loud and clear from this Chamber today that they had better be back to work as quickly as they can, or they will not be working at all as air traffic controllers and I defy them to try to find a job at the salary levels they are now making.

I am pleased that some of my colleagues are on the floor with me today to add their concerns about this illegal

job action.

Mrs. KASSEBAUM. Mr. President, I support the comments that the Senator from Utah has made in addressing the air traffic controllers' strike.

It is not only troubling to us in Congress but also to others throughout the Nation; not just for those travelers who might be bothered for a day or two but also, more important, the disruption of a major transportation system that significantly impinges on many aspects of lives.

I have consistently expressed the desire that the dispute between the Professional Air Traffic Controllers and the Federal Aviation Administration could be resolved through genuine efforts to reach a negotiated agreement. It is my feeling that the agreement reached through the negotiation process, which was submitted to the membership of PATCO, provided a care package of wage and other benefits.

I firmly believe that illegal action will do nothing to further the goals of increased pay and changes in working conditions of the controllers. That proposal which was presented to them was fair and equitable.

I believe that the administration should be praised for its reaction to this illegality in the strike that was called this morning.

It is to the credit of the air traffic controllers who reported to work this morning, those who have helped fill in, that the system, in the early hours of the strike, has operated at almost full capacity.

I believe that the strong position taken by the President, the Secretary of Transportation, and the Director of the Federal Aviation Administration is to be commended. I hope that those who are breaking the law will be met with the full force of the sanctions available to the Secretary and to the President, and I commend them for the firmness they have shown and which I am sure they will continue to show until the situation is resolved.

Mr. MATTINGLY. Mr. President, I commend Senator Garn and Senator Kassebaum for their stand this morning. We joined in sending the letter last week to the air traffic controllers, warning them with respect to the strike threat.

I represent the State with the world's largest airport, which is located in Atlanta, Ga. Therein lies not only my interest but also the interests of many people today, even those in this Chamber. We do have the world's largest and busiest airport, but more important than that is what has happened today with respect to the Professional Air Traffic Controllers.

I believe that the position taken by the President of the United States and by Secretary Lewis is correct—by giving the air traffic controllers a 48-hour getback-to-work order or new people will be put in their positions.

However, I believe that, even more than that, what needs to be done is to send a clear warning to all Federal unions that they are not to threaten strikes, because that is against the basic oath they take when they take those Federal jobs, as union people. The oath says that they shall not threaten a strike, nor shall they go out on strike.

I believe we need to look at legislation that is even more stringent, so that this

does not happen again.

I agree with the President of the United States and the Secretary of Transportation that those air traffic controllers who do not come back to work have committed an illegal action and that they should find other jobs.

With respect to Mr. Poli, who is the head of their union, PATCO at one time made the comment that their past union leader was not strong enough, that they needed somebody more militant. They certainly got one in Mr. Poli. He has put that union and its members in a very precarious position, but he also has put the Nation in a very precarious position.

He may have been successful in voicing his threats, he may have been successful in putting people on strike, and he may be successful in slowing down the air transportation of this country; out what he is not successful in is in threat ening this body or in threatening the people of the United States, because the people will not stand still for illegal action.

I suggest to him and those people who do not show up for work in 48 hours to please find other employment, because the American people will not be held hostage by this act or any other act.

Mr. GARN. I thank my distinguished colleagues.

Mr. President, I close by reminding the air traffic controllers of this country that no agreement reached can be agreed to only by the administration. It must come before the Congress of the United States.

I suggest that they listen very carefully to the attitudes expressed on this floor today. It is not just three Senators. There are others who would like to have been heard this morning, to participate in this colloquy, such as the Senator from South Carolina (Mr. Hollings) and the Senator from Florida (Mr. Chiles). However, they were unable to get here because of the strike, and they have not arrived yet. I imagine that they will not feel too happy when they finally do arrive.

Again, I thank the Senator from Kansas and the Senator from Georgia for their participation this morning.

Mr. PACKWOOD. Mr. President, I join my colleagues in deploring the strike today by the Professional Air Traffic Controllers Union. These individuals, employed by the Federal Government, are prohibited from striking. Their walkout, in contempt of a Federal court restraining order, constitutes an illegal activity. The Departments of Transportation and Justice have my full support in

taking whatever punitive action against the strikers called for in the law.

Striking air traffic controllers are to be reminded that the Congress will have to approve whatever salary, workweek and benefits package that is eventually recommended for ratification. Our consideration of that package will be affected by the cooperation and attitude of controllers in negotiating a new agreement. Our consideration will also take into account the salary needs of other Federal workers, as well as the impact of the agreement on the Federal budget.

This is a time when tremendous efforts are being exercised by the executive branch and the Congress to slow down inflation so that eventually all of us can enjoy better buying power and lower interest rates. That means that we all have to work together to keep Federal spending down. This is not a time when management looks with favor on shorter workweeks, higher salaries and increased overtime pay. This is a time for increased productivity.

Air traffic controllers are important to the smooth operation of the entire air traffic control system. They provide a specialized expertise and oftentimes under considerable pressure. We appreciate those services, but we do not intend to be blackmailed by the lack of them.

The airlines expect to lose at least \$80 million per day as a result of the strike. Commuters will be most seriously affected since short distance flights are given a lower priority. Air travelers will be tremendously inconvenienced. This is a high price to pay because some Federal employees are frustrated and want higher salaries. The benefits package which has been presented to the Department of Transportation estimated to cost \$681 million surely does not represent a serious attempt to negotiate with the Government. I think the union had better quickly return to the bargaining table with a reasonable package.

The PRESIDING OFFICER. Who yields time?

Mr. GARN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. STEVENS). Without objection, it is so ordered.

Mr. BAKER. Mr. President, this morning the President issued a statement to the press in respect to the air controllers' strike. I think the statement is succinct and I think it is correct, and I support it.

I ask unanimous consent to have printed in the RECORD the President's statement.

There being no objection, the statement was ordered to be printed in the RECORD, as follows:

STATEMENT BEFORE THE PRESS, AUGUST 3, 1981

This morning at 7 a.m. the union representing those who man our air traffic control facilities called a strike. This was the culmination of 7 months of negotiations between the Federal Aviation Administration and the union.

At one point in these negotiations, agreement was reached and signed by both sides granting a \$40,000,000 increase in salaries and benefits. This is twice what other government employees can expect. It was granted in recognition of the difficulties inherent in the work these people perform.

herent in the work these people perform.

Now, however, the union demands are 17 times what had been agreed to—\$681 million. This would impose a tax burden on their fellow citizens which is unacceptable.

I would like to thank the supervisors and controllers who are on the job today helping to keep the nation's air system operating safely. In the New York area, for example, four supervisors were scheduled to report for work and 17 additionally volunteered. At National Airport a traffic controller told a news person he had resigned from the union and reported to work because, "How can I ask my kids to obey the law if I don't." This is a great tribute to America.

Let me make one thing plain; I respect the right of workers in the private sector to strike. Indeed as president of my own union I led the first strike ever called by that union. I guess I'm the first one to ever hold this office who is a life-time member of an AFL-CIO union. But we cannot compare labormanagement relations in the private sector with government. Government cannot close down the assembly line, it has to provide without interruption the protective services which are government's reason for being.

It was in recognition of this that the Congress passed a law forbidding strikes by government employees against the public safety. Let me read the solemn oath taken by each of these employes:

I am not participating in any strike against the Government of the United States or any agency thereof, and I will not so participate while an employee of the Government of the United States or any agency thereof.

It is for this reason I must tell those who failed to report for duty this morning they are in violation of the law and if they do not report for work within 48 hours they have forfeited their jobs and will be terminated.

Mr. BAKER. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONFERENCE REPORT ON H.R. 4242, ECONOMIC RECOVERY TAX ACT OF 1981

The PRESIDING OFFICER. Under the previous order the hour of 12 noon having arrived, the Senate will now proceed to the consideration of the conference report on H.R. 4242, which the clerk will state.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4242) to amend the Internal Revenue Code of 1954 to encourage economic growth through reductions in individual income tax rates, the expensing of depreciable property, incentives for small businesses, and incentives for savings, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by all of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report will be printed in the RECORD following today's Senate proceedings.)

The Senate proceeded to the consideration of the conference report.

The PRESIDING OFFICER. The time for debate on this conference report is limited to 2 hours, equally divided and controlled by the Senator from Kansas (Mr. Dole) and the Senator from Massachusetts (Mr. Kennedy).

Who yields time?

MOTION TO RECOMMIT

Mr. KENNEDY. Mr. President, I send to the desk a motion and ask for its immediate consideration.

The PRESIDING OFFICER. The motion will be stated.

The assistant legislative clerk read as follows:

Motion by Mr. Kennedy: I move to recommit the conference report on H.R. 4242, with instructions that the Senate conferees shall seek to reduce the revenue loss from the windfall profit tax provisions.

Mr. KENNEDY. Mr. President, I yield myself such time as I might use.

This motion would recommit the conference report to the conference committee with instructions to reduce the revenues for oil. I believe that the \$33 billion in oil tax breaks in this legislation is a breach of faith with the American people, a surrender to expediency, and a gross act of injustice to many American taxpayers.

I hope the Senate will oppose the gigantic multibillion-dollar giveaway to the oil industry that is included in this tay bill

Last Friday night in the Capitol turned out to be a big night for big oil and a bad night for every American taxpayer. The oil industry's midnight raid on the Treasury netted them a cool \$13 billion over the next 5 years and an incredible \$33 billion over the next 10 years.

I am particularly disturbed by reports that the Secretary of Treasury himself held out until the very last moments of the all-night conference for an additional \$13 billion for oil. It appears that at least this part of the oil deal could not stand the light from the rays of the early morning Sun.

At a time when millions of average families are being asked to sacrifice as part of the administration's economic program, and at a time when millions of elderly citizens are being asked to accept drastic cutbacks in their social security benefits and their retirement plans, it makes no sense to give the Federal store away to the oil companies.

The issue here is not the President's tax bill. I would have preferred a fairer tax cut for low- and middle-income tax-payers and small business, and a shorter tax cut to help keep inflation down. But the President won that battle.

What I do oppose is the \$33 billion pot of gold for the oil industry that has now been tied to the tail of the tax bill. It is an unfair and unnecessary giveaway that should be stripped from this measure before it is sent to the President for his signature.

I know that my colleagues wish to begin the current recess and to leave the long hot summer of a Washington August.

But before voting another Bonanza for the oil industry, the most profitable industry in the Nation, we should remember the families who will have increasing trouble making it through another long cold winter in their homes.

Just 17 months ago the Senate was considering a conference report on another major piece of tax legislation—the crude oil windfall profit tax of 1980. We passed that legislation after 7 years of national debate on oil prices. In the course of that debate, two Presidents—both Republicans—and two Congresses (in 1972 and again in 1976) had approved oil price controls.

But between 1976 and 1979, an unprecedented lobbying campaign took place, orchestrated by the oil industry, to end price controls on oil. These controls were not put in place to punish the oil companies. They were established because skyrocketing oil prices had turned the American dream of prosperity and economic growth into a nightmare of domestic inflation. It was unfair to permit the oil companies to charge the OPEC cartel price to American consumers, and keep the profits. It was wrong to permit the oil industry to charge the international monopoly price for oil produced in the United States and keep the windfall profits from those higher prices.

It has always been the responsibility of Government to protect the American poeple and the American economy from monopoly power—at least until now.

But between 1976 and 1979 a new direction developed, engineered largely through the lobbying efforts of the oil companies. Under this new plan, oil prices would be permitted to rise to OPEC levels, but the windfall profit of the oil companies would be subjected to a tax. From the beginning, many of us considered this approach intellectually attractive but unrealistic in practice. We feared that once decontrol was accomplished—even if a windfall tax was enacted—the tax would soon be nibbled to death.

Unfortunately, those fears are now becoming a reality. The ink was barely dry on the windfall profit tax before the oil industry began lobbying for its repeal. Their 17 months of lobbying have been very, very effective. In fact, their lobbying has been worth \$2 billion a month—for the tax loopholes in this legislation are worth about \$33 billion to the oil companies for the next decade.

What has become of the solemn promise we made to the American people when we passed the windfall tax? We promised that the oil companies would not keep their windfall profit from decontrol. But if we approve this legislation today, we are saying—in the first tax bill passed after the windfall tax was signed into law that we did not really mean it, that the oil companies can keep their windfall after all.

The windfall profit tax was enacted for a very simple reason. As the President told Congress in April 1979, a windfall profit tax was essential to recover the "unearned, excessive profits that the oil companies would receive, as a result of decontrol and possible future OPEC price increases."

But now, if the Senate accepts this conference report, it will be stating its belief that the oil companies are actually entitled to these "unearned excessive profits;" \$33 billion more will be turned over to the industry that Wall Street has called "more profitable" than any other industry in America—an industry whose profits are 12 times greater than nonoil companies.

This legislation is a breach of faith with the American people. When we decontrolled the price of oil, we pledged that windfall profit would be taxed. Now, we are revoking that pledge.

If we accept this conference report, we are also ratifying the bidding war that led to its inclusion in the House bill.

When President Reagan proposed his original tax package, he did not ask for \$33 billion in special tax cuts for the oil companies. There was no provision for oil at all. There was no mandate in the November election to cut the windfall profit tax.

The reality is that, in the intense lobbying of the past 5 months, the oil interests have been able to manipulate the President's program for national economic recovery into a giveaway to the oil industry. This legislation might better be called the oil industry tax relief act of 1981.

Even without this \$33 billion in special tax relief, the oil companies did very, very well in this legislation. The accelerated depreciation provisions alone will give the oil companies billions of additional dollars each year—which they can use to buy department stores, or copper companies, or circuses—or even each other, as they are trying to do today.

But billions of dollars in new tax relief from accelerated depreciation was not enough for the oil companies. So they added \$20 billion more in special relief from the windfall profit tax in the Senate bill. But even that was not enough to satisfy their greed. They wanted even more. They prowled the Halls of Congress and the executive branch. They demanded and manipulated. They smelled an even greater victory. And they got itthey got \$13 billion more in this conference report-for a total tax cut of \$33 billion for oil. They won that extra \$13 billion in the wee hours of Saturday morning. With the corridors outside the conference room filled with oil lobbyists, the conferees agreed to give the oil companies \$13 billion more.

And make no mistake about it—\$33 billion will not even be enough. For if this body today announces its surrender by accepting this conference report, the oil companies will be back again later this year, and the next year, and the year after that, until there is no windfall profit tax left at all.

They know they have Congress on the run. If we throw in the towel today, in a very short time the oil companies will turn the windfall profit tax into an empty gesture. And in doing so, they will be taking unfair advantage of every American, and every small businessman who supported decontrol of oil in good faith, be-

cause it was accompanied by the windfall profit tax.

Finally, approval of this legislation will be a great act of injustice to the American people.

When President Reagan announced his economic recovery plan, he stated the principles upon which it was based. One of these principles was that every segment of American society must sacrifice for the greater good. But what sacrifice is the oil industry being asked to make?

What we are now witnessing in the United States is a full-court press by the oil interests against the best interests of the American people. The Secretary of the Interior, Mr. Watt, wants to give away a billion acres of Federal lands to the oil companies in 5 years. The Secretary of Agriculture wants to let the oil companies drill at will in the national forests of America.

The Environmental Protection Agency proposes to weaken the controls over the toxic wastes the oil companies produce, and the poisonous gases they vent into the atmosphere.

And now the Congress proposes to give them \$33 billion in new tax breaks. I say, it is time to take a stand. It is time to say enough is enough.

When we are asking schoolchildren to pay more for lunches, should we be giving more to the oil companies?

When we are asking the elderly to give up their minimum social security benefit of \$122 a month, should we be giving away \$33 billion to the oil industry?

The funds distributed to the oil companies alone in this bill could make up the entire deficit in the social security trust funds.

In effect, the choice before us now is between protecting social security, or giving the oil companies \$33 billion more in tax relief. That choice should be an easy one for any Congress to make. I urge the adoption of the motion and the instruction to the conferees.

Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER (Mr. Stevens). Who yields time? Who yields time?

Mr. KENNEDY. Mr. President, I suggest the absence of a quorum, with time to be equally divided.

The PRESIDING OFFICER. Is there objection to time to be equally divided? Mr. BOSCHWITZ. I object.

The PRESIDING OFFICER. Objection is heard.

Who yields time? If neither side yields time, time will be charged equally to both sides.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. DOLE. I think that is an indication of how big an issue that is. It is really not an issue because there is not anybody waiting to speak on this momentous occasion. Many of us were ready to speak Saturday evening.

I would just suggest that we did have a long conference. I am not certain where the Senator from Massachusetts obtained all his figures about big oil. I did not know big oil was even in the conference. Maybe there were some people there we were not aware of in the

conference, and I am not certain about all these lobbyists.

I am certain the Capitol was full of lobbyists, as there are every other time a major bill is considered. If there was an inference in his statement that they were in the room and dictating what happened in the conference, I can indicate to the Senator from Massachusetts that that was not the case.

I would also indicate that the conference report was signed by every member of the conference, every House Member, every Senator, and I think it is fair to say that some of those House Members are just as much antioil as the Senator from Massachusetts. But they signed the conference report because they believed it was fair.

There was a give and take, and as far as this Senator knows the only discussion was what we were doing for independent producers, not major oil companies. It does not do much good to say that on the floor because the press never seems to write anything other than what the Senator from Massachusetts has to say on this subject. He gets up and attacks big oil, so it is big oil in the papers and big oil on television and big oil on radio. We will just keep trying. At least it is in the RECORD in case somebody ever wanted the facts, and they will be in the RECORD, perhaps not in many of the papers, but in the RECORD.

Having said that I would suggest that anybody who would read the conference report and anybody who may have covered the conference will know that the discussion was not about big oil. We were talking about stripper production, wells that produce 10 barrels or less. If that is big oil, then the Senator from Massachusetts has information not available to any of the conferees.

Mr. President, the House-passed tax bill had about \$16.2 billion in windfall profit income tax relief for oil producers and royalty owners for the next 5 years. The Senate-passed bill had about \$6.6 billion in such relief, and the compromise was about \$11.7 billion. That is slightly over half.

I am not certain how other conferences do, but I think it is—maybe not the custom, but more often than not around here—if you have one figure on one side of the Congress and another figure on the other side, it is generally conceded that if you split the difference that is fair. I think that is the feeling of most Senators.

In fact, I read with interest the press release issued by the distinguished Senator from Ohio (Mr. Metzenbaum) taking credit for the big savings because the conference had dropped so many of the oil provisions and many of the demands by the so-called oil industry.

So I was frankly somewhat surprised to learn later that the Senator from Massachusetts had a release saying just the opposite. So somewhere there was a lack of communication by the antioil Senators on what would be the line.

(Mr. GORTON assumed the chair.)
Mr. DOLE. Having said that, let me again indicate that we are talking about stripper production, oil wells that produce less than 10 barrels a day, effective in 1983. Nobody tampered with the date.

That was in the House bill. It was not in the Senate bill.

We ended up with the House provision that, effective in 1983, there would be no tax on stripper production. Stripper production has been exempted in the past and should not have been taxed when the windfall profit tax bill passed last year.

I might say that the phasedown of new oil taxes was the same in both bills. Certainly the Senator from Massachusetts does not expect us to go in and go out beyond the scope of the conference. The phasedown of new oil tax was down to 27.5 percent in 1982, 25 percent in 1983, 22.5 percent in 1984, 20 percent in 1985, and 15 percent in 1986, and the whole tax is going to end somewhere in 1989–90, so that is no great concession to the industry.

That was worth about \$3.3 billion. But that was agreed to by a voice vote in the Senate. It was also in the House bill, so it was not in conference. What is left? The only other issue open for discussion were the depletion allowance and royalty owner relief.

We tried several variations on reaching agreement on the percentage depletion issue. The Democrats on the House conference made it clear to me that they did not care if we stayed there for 6 months. There would be no change in the so-called depletion provision which is in present law.

So after a number of efforts to freeze it at 20 percent or a combination thereof of 18 percent, 19 percent, 17 percent, 22 percent, it was agreed among the Senate conferees to forget about it. I do not know where the Senator from Massachusetts can find any fault with that.

I want to make it very clear because it is hard to understand by some who write these stories that the new oil provision was the same in both bills. That could not be changed. The Senate receded to the House on the so-called depletion allowance, so there was not any loss there.

The stripper provision, which I have indicated, talks about wells of 10 barrels or less, and if that is big oil, as the Senator had in his release, then again it defies my imagination, if not his,

So the only other provision left was with reference to royalty owners, not oil companies as stated in the Senator's release, not oil companies, but individuals, retired people, landowners, and others who never thought they were taxed in the first place, but they found o' that the last administration did not spare anybody when it came to increasing taxes, and they imposed the windfall profit tax on the small landowners and others who had royalty income.

We, in effect, cut back on the House provision by \$300 million or \$400 million. So I was surprised, to be very candid about it, to learn late Saturday afternoon that the Senator was going to hold us up for 2 days so he could come down and attack big oil because big oil is not in the picture. Big oil has never been in the picture. There is not a thing in the stripper amendment or in the loyalty owner amendment that does a thing for big oil. That does not mean you cannot put out a press release and say that it does, and most of the press in this country will print that, but that is not a fact.

And it is about time we started looking at the facts instead of the rhetoric or the politics of the moment.

We worked long and hard, I would remind the Senator from Massachusetts, all of us, Democrats and Republicans alike, starting at 4 p.m. on Friday and concluding at 8 a.m. on Saturday morning, to come together on the outstanding issues, I believe, and I say this on behalf of all of the conferees, that, for the most part, we did the best that could be done.

I regret that the Senator from Massachusetts could not have been there, because had he been there or had his staff been there, he would have known that we discussed this oil provision probably more than any other provision. And it was not held up, as you are advised, by the Treasury Secretary. This Senator contacted the Treasury Secretary to indicate that we had gone about as far as we could go. The House Democrats were frozen in their position as far as any change in depletion. We were going to concede to that, not because we wanted to, but because there were no other choices

Aside from that, the only other provisions discussed were the new oil provision, which is the same in both bills, the stripper provision that benefits only small oil wells—in my State, they average 3.3 barrels a day—and relief for royalty owners, individuals, and not companies.

Now, if I missed something in the conference, then perhaps we should be reprimanded by the Senator from Massachusetts. But we left the Senate floor with about \$6.6 billion, as I have indicated. We met with the House and they had about \$16.2 billion over the next 5 years. We came out with \$11.6 billion or \$11.7 billion, depending on whose numbers you use.

Now, I think everybody in this body would agree that this is a fair compromise. We did not get everything and we did not lose everything. We came down in the middle. So this Senator would suggest that we did the best we could.

Perhaps the Senator is concerned because we exempted children's homes. We decided that oil interests held by charitable children's homes on January 2, 1980, would be exempt from the windfall profit taxes.

If that is what the Senator is complaining about—another big oil provision—we ought to hear more on that from the Senator from Massachusetts.

As one Senator to another, I do not quarrel with the Senator's right to argue as he does. But, in fact, when there is no substance to the argument, it would seem to me that we would do better to stick to the facts. The facts to the Senator from Massachusetts, where there is no oil production, probably are that whatever we do for anybody who makes a living in the oil business, whether he is small or large or working in the business or relping on that business for his livelihood, would be wrong.

But, in my State, in the State of Kansas and other States, the industry is important. It is important to our State, important to the people who work in the industry. We do not have any major

oil companies to speak of in our State. We do not have big oil, as the Senator refers to it in every other sentence.

So I would suggest that if there were any other things the Senator from Kansas missed in the conference, other than a lot of sleep, then perhaps it could be pointed out to us. In fact, I might say to the Senator from Massachusetts that we could have gone higher dollarwise, but we did not. We were told by some of the influential House conferees that we could go as high as \$12 billion. It was all right with them. We did not do that. We backed off, knowing that on the Senate side there might be some little problem. And I think it is only a small problem.

We are talking about a tax bill over the next several years of about \$750 billion. We believe that the accommodation we made fairly well satisfies most of our colleagues in the House and the Senate.

Finally, I will point out one other thing. The Senator's position did not prevail in the Senate. It did not prevail in the House. Now, if a majority in the House and a majority of the Senate have one position and the Senator from Massachusetts has another, I would hope that most people would understand that you probably go with the majority. Had the Senator from Massachusetts prevailed, that would have been another matter. But that was not the case.

I would also indicate that I know of one provision or two provisions the Senafor was concerned about. One was charitable contributions by corporations, which we agreed to. Another one was the amendment offered by the distinguished Senator from New Hampshire, Senator Rudman, and the Senator from Massachusetts on the heating credit.

I would say, and I think the official record will point this out, I tried to get the House to accept that a half a dozen times and the House would not take it. Only one House conferee even indicated any interest in it, and that was Congressman Rangel from New York. If they will not take it, it is hard to force it on them. We tried to do that. This Senator tried to do that as chairman of the conference on our side.

Again, I would hope that the official record will be read, because I had given my word to the Senator from Massachusetts and the Senator from New Hampshire that they were not going to have any problem with this Senator.

Mr. LONG. Will the Senator yield? Mr. DOLE. I yield to the Senator.

Mr. LONG. Is it not true that throughout that whole conference that lasted for 16 hours or better, that every step of the way, at any moment, all one of those House conferees needed to do was to move to agree with the Senate provision with regard to the heating oil credit, and that would have been all there was to it. But at no point did more than one member of the House conference of eight Members indicate any interest in that item. And even that member did not make the motion that they agree to the Senate provision.

Mr. DOLE. The Senator is correct. And I wanted the record to reflect that, because I do not give my word lightly. But

when you cannot force something on

them, it is hard to keep it.

Mr. LONG. If the Senator would yield further, it is not a matter of giving something away, it is a matter that this was in the Senate bill. As far as the majority of the conferees was concerned, our position has always been if there is something in the Senate bill that the House is willing to agree to, the House has a right to agree to it. I would ask the Senator, is it not true that the Senator from Kansas, the distinguished manager for the Senate, the chairman of the conferees for the Senate, repeatedly suggested to the House conferees that this provision ought to be part of the package?

Mr. DOLE. I think the record will indicate that. We had our private discussions. Senators met, the Democrats and Republicans together, and House Members met. We narrowed the list down, I think, to about seven items. That item was still on the list. We narrowed it down to four items. In fact, the last item mentioned in the entire conference was the heating credit. This Senator brought it up himself. I thought I would try one more time to accommodate a number of Senators in this body, because there was widespread interest in that amendment.

I think Congressman RANGEL indicated that he had heard from the Speaker about it, but that is about all he said.

And so, if that is a problem, I regret, if that is the cause of this extra session today. If that is a fact, then I regret that, because it was not the intention of anybody on the Senate side to lose that provision.

Finally, let me say this: I agree with the Senator from Massachusetts: The oil industry does not like the windfall profit tax. No other industry would like a special tax applicable only to them. Again, when the story is written, it is always a tax break for oil. But remember that nobody else gets this special detriment-to be singled out for a windfall profit tax-as the oil industry re-

ceives.

I would say again to my friends on both sides that the oil companies are probably like most other people in this country, most other businesses. They like to make a profit. They do not like taxes. The American taxpayer does not like taxes. The American businessman does not like taxes. We have to have some. That does not mean we have to penalize with a special tax, stripper production of 10 barrels or less or small royalty owners or something that was agreed to in both the House and the Senate.

I do not know what we are here for today. There really is not any argument about big oil at all. Big oil is not in this conference report.

Even if we had frozen the depletion allowance at 20 percent or 22 percent or 18 percent, we were talking about independents and not major oil companies.

So to keep beating the major oil companies over the head may be good politics, but it is not an issue. The only issue is that we are back here on Monday instead of finishing on Saturday, at the inconvenience of many Senators who had to come back. It does not bother this Senator. I was going to be here, in any

So I just suggest, for whatever it is worth, that this is sort of an empty discussion. It is a media event. That is all it is. It is a media event. [Gestures to press gallery.] Maybe it is all right to have a media event on Monday. There is not much else going on in town.

Mr. President, I reserve the remainder of my time.

The PRESIDING OFFICER. Who vields time?

Mr. KENNEDY addressed the Chair. The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. I yield myself such

time as I might use.

Before we start crying crocodile tears for the oil industry, we ought to recognize, Mr. President, that this is the wealthiest industry in America. That is not just a statement of the Senator from Massachusetts. It is Merrrill, Lynch which has made the judgment. I read from May 1981, Merrill, Lynch investors report, evaluating the profits of the oil industry, not only the majors but the independents. It stated that it is "probably the more profitable than any other segment of American industry." Profits have gone up 117 percent in the last 2 years, 12 times other industries.

Mr. Reagan himself did not request that we provide this kind of windfall to the major oil industries and to the independents. But we find that the conference committee comes back with \$33 billion. All I am saving is we should have a rollcall so the Members of the Senate will be able to vote up or down on that

Now we hear about how we are so concerned about independent oil and stripper production.

That is an interesting argument from the Senator from Kansas, because we did not see that kind of attention for the stripper and independent producers when the legislation came out of the Senate Finance Committee.

He argues one thing today, but he argued something quite differently when the Senator from Texas (Mr. BENTSEN) was trying to provide help and assistance to the independents. He was the one who made the case against the independent at that time, and the Senate rejected it.

Now he comes back and he says, "Look, we are just trying to help the mom and pop stripper well."

He mentions 10 barrels a day. At \$30 a barrel that is \$300 a day. That is \$100,-000 a year if you have one well. Many of these owners have scores of wells.

That is hardly the average taxpayer. The average taxpayer in this bill is \$20,-000 a year, and the average taxpayer in this bill will not be held harmless from the increases in inflation and social security over 3 years.

Nonetheless, we are trying to help that industry which has been described by financial analysts as the most profitable in this country. That is where the Senator from Kansas comes out on this issue.

It is interesting that the \$20 billion amendment of the Senator from Kansas

was primarily a phaseout of the windfall profits on new oil, much of which went, not to the mom and pop operators of the industry, but to big oil. If, as the Senator from Kansas contends, these tax breaks are going to the independents, those independents will be receiving \$2.75 million in tax breaks-hardly "ma and pa" operations.

It is interesting to hear now when we are about to vote on this issue that finally we have the mom and pop part of the oil industry before the Senate.

That is hogwash, and every taxpayer in this country will understand it.

This is \$33 billion to the most profitable industry in this country at a time when we are cutting back on social security, cutting back on student loans and programs to educate the young people in this country, cutting back on decent quality health care, cutting back on assistance to the elderly to heat their homes in the winter. And we are pro-viding \$33 billion for the major oil industry.

That is the issue, Mr. President, and that is the issue that we ought to vote on.

The Senator from Kansas points out that on many of these issues we lost during the debate and discussion of the tax bill earlier last week. The fact of the matter is when the Senator from Kansas himself was trying to add billions of dollars more to the Senate Finance Committee and tabled his own motion, the Senate voted on that 49 to 47. Basically we were almost evenly divided about whether we were going to add anything more for the oil industry. The Senate was basically evenly divided on that issue. But, nonetheless, we have seen this conference report sent to the Senate.

Finally, Mr. President, during the course of the conference, CHARLIE WILson, a Congressman, talked to a number of those who were concerned about the giveaways to the oil industry and proposed that we use the Senate figures and target those figures into the independents and into stripper wells.

That seemed to me to make some sense. That seemed to me, if we were going to provide any kind of additional incentive for the oil industry, that was the approach which commended itself, most realistically, on the merits. If we were going to provide the \$20 billion which Senate Finance Committee bill had, why not target that into the independents? I would have said amen to

But that was rejected. The conferees said, 'That is out of conference.'

I have been around here long enough to know that when the Senate Finance Committee goes to conference with the House of Representatives, anything that they basically want is in conference.

I remember in 1978 when here on the floor of the Senate the Senate accepted the Bumpers-Kennedy amendment to target the various tax reductions more equitably among the taxpayers. We overturned the Senate Finance Committee recommendation. They went to conference and what did they come back with from the conference? Exactly what the Senate Finance Committee has reported

So, Mr. President, I think it is impor-

tant to understand what the issue is. Call the roll on whether we want \$33 billion for the most lucrative, most successful industry in this country at a time when we are refusing to provide equity and fairness for the other taxpayers in this country and at a time when we are giving special privilege to the most successful industry.

I yield 5 minutes to the Senator from

Missouri.

Mr. DOLE. Mr. President, could I answer some of those errors right now?
The PRESIDING OFFICER. The Sen-

ator from Kansas.

Mr. DOLE. Mr. President, I regret the Senator from Massachusetts was not at the conference. If he had been he would not make many of the statements he makes. Charlie Wilson was not a conferee. Maybe he was a messenger for the Senator from Massachusetts but he was not a conferee. As far as this Senator knows, I never saw Charlie Wilson. I know Charlie Wilson. If he was there as an aide or something to carry out the wishes of the Senator or whatever, it was never called to my attention. I regret we did not have his input.

Second, the Senator from Massachusetts claims that we could have gone outside the conference. Well, the Senator may be right; in normal times that could have been possible. But you have to understand, Mr. President, the House conferees were not too happy to be there at all. Chairman Rostenkowski, Sam GIBBONS, JAKE PICKLE, CHARLIE RANGEL, and Pete Stark just lost 2 days before or the House floor. They were more or lesthere under duress in any event. Some had voted for the bill on final passage so they could be conferees, but they lost the big fight. They did not really enjoy the conference at all except when it ended.

They were very careful to point out that we could not go outside the conference. They told us that a dozen times; they could not go outside the conference or they would have to go back to the Rules Committee, to Mr. Bolling's com-

mittee.

It was a very tight conference. There was not one thing that happened that was outside the scope of the conference. That is another fact that ought to be in the Record, in case anyone reads the Record.

On the Bentsen amendment, the Senator from Massachusetts is right, the Senator from Kansas did everything he could to defeat that amendment. That would have exempted 1,000 barrels a dar as opposed to the stripper which is 10 barrels a day. Maybe that is not much difference to the Senator from Massachusetts, but it is a great deal in the dollar difference. The Senator from Kansas understood that was about \$4.5 billion a year in lost revenue that we could not afford. So the Senator from Kansas did his best to defeat that amendment, to table that amendment. He was joined by the Senator from Massachusetts and I thank him for that.

So, Mr. President, it is not a question of standing up today talking about the little oil wells and, last week, discussing something else. I opposed that amendment. It was a thousand barrels a day, about \$13 million or \$14 million a year, if you add it up. That would have

pleased many in my State and many in the State of Texas and many in every other oil-producing State. But the Senator from Kansas was trying to act responsibly, because I understood that we would have some difficulties in the event such an amendment were adopted.

I also say that the Senator from Kansas never offered any oil amendments to this bill. They were offered in the committee. The Senator from Kansas voted against the Boren amendment, which prevailed, and overnight we were able to turn a couple of people around to defeat the Boren amendment. Then we worked out the compromise.

Mr. President, I believe the compromise in the Senate Finance Committee bill was a good one. There was a close vote in the Senate. That did not disturb the Senator from Kansas. It indicated what I already believe, that we should not do too much as far as oil is concerned

in this legislation.

But this Senator does not vote in the House and this Senator does not control the House any more than the Senator from Massachusetts does. They acted and, by a wide margin, they adopted the President's proposal. That proposal contained some small items for small producers, royalty owners, individuals. Some of these royalty owners may even live in Massachusetts or Missouri. You do not have to live in the State where the oil is from to be a royalty owner.

There was also a provision for stripper production in the House bill and there was the new oil provision that we had in the Senate and the House bill. That is in essence what it is. That does not mean we cannot argue about it in the Senate. We argue about less, I guess, and have in the past. But to have the Senators stand up and indicate that we more or less sold out to big oil is not a fact. There is no big oil in this discussion, and there should not be any if we are going to stick to the facts.

I would like to read a little bit from a typical letter that a royalty owner sent in to us. I shall ask unanimous consent that this be made a part of the RECORD.

Mr. President, I ask unanimous consent that that letter be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

GREAT BEND, KANS., April 24, 1980.

Hon. Bob Dole, Dirksen Senate Office Building, Washington, D.C.

DEAR SENATOR DOLE: I am enclosing a copy of the check received by my Mother, Ada Kingston, from Clear Creek for her one oil well for the month of March 1980. I think it is ridiculous for this person to be taxed with the Windfall Tax.

My Mother is 83 years of age and in a nursing home and the charge is now over \$800.00 per month. She gets social security of \$260.00 per month and the income from the one oil well was really a "lifesaver" for her financially before this tax. She owns one quarter of land but with "cheap wheat" and only ½ of the crop that is not much income by the time you pay the tax and buy fertilizer. Her total farm income last year was only 700 bushels of wheat and with \$3.25 wheat this does not go very far for her \$800.00 expense each month. She has been using savings left by my Dad but it does not take long to use

this up. Probably she will soon have to sell her land for her keep in the nursing home.

Can't something be done to exempt the small land owner with only one stripper well from paying this tax?

Sincerely,

Mrs. Roy Dirks.

WINDFALL PROFIT TAX ACT OF 1980

Lease Interest Owners: Effective March 1, the Crude Oil Windfall Profit Tax Act of 1980 became law. As the first purchaser, Clear Creek, Inc. must collect the tax from your account. This has been done by a deducted item as shown on your check apron. The tax deduction item has been labeled as Windfall Tax Major Rate or Windfall Tax Independent Rate.

By law, all royalty and overriding royalty are taxed at the high rate used for "Major" or Integrated Oil Companies. If eligible, Independent working interest owners can, through certification to the purchaser, receive a reduced tax rate.

The tax is administered through the Internal Revenue Service. At the calendar year end, Clear Creek, Inc. will furnish each owner, who has incurred a tax deduction, with the the total amount of the tax withheld.

CLEAR CREEK, INC.

Mr. DOLE. Mr. President, I shall also include in the Record a story from the U.S. News & World Report, dated June 9, 1980. It talks about the windfall profit tax's unlikely victims. Then it talks about how many people are losing money and how many should not have been taxed in the first instance. It is an article that cites cases in Kansas, Oklahoma, Texas, and talks about hearings held in these States on the windfall profit tax.

I shall also include a letter to the editor in the Baton Rouge Morning Advocate dated June 20, 1980. I ask unanimous consent that they be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From U.S. News & World Report, June 9, 1980]

"WINDFALL" TAX CLAIMS SOME UNLIKELY VICTIMS

Beatrice Wright, a Pauls Valley, Okla., widow who supplements her income by giving plano lessons, was outraged to discover that the U.S. government is now taxing away half the \$2,180 she earns each year from an investment left by her late husband.

John B. Davis, a retired Milwaukee chemical engineer, reacted with shock when notified that Washington is suddenly taking an extra \$75.43 bite out of his monthly income.

Mrs. Freida M. Brewer of Winfield, Kans., discovered the other day that one source of her retirement income has been reduced by 30 percent.

These three are among an estimated 2 million Americans—most of them farmers, ranchers, retirees and others of modest incomes—who own royalty shares of oil wells.

And they are angry.

Royalty owners have belatedly discovered that Congress included them in the controversial "windfall profits" tax recently enacted to siphon off some of the record earning of "big oil."

"I was all for the tax because I thought it was going to take away some of the profits of the big oil companies," reports an elderly Oklahoma woman who earns around \$20 a month from a share of an oil well inherited from her husband. "Now I find out that I have to pay the same rate as Exxon."

A MISLEADING NAME

Part of the confusion stems from the label attached to the "windfall profits" tax. The

tax is not really levied against oil-company profits at all, but is an excise tax on oil production. It is designed to recoup, in addition to regular taxes, 227 billion dollars of the estimated 1 trillion that oil companies will earn over the next 10 years as price controls on U.S. oil are gradually lifted. Royalty owners are expected to pay about 30 billion dollars in new taxes.

Not only will individuals be taxed at the same 30 to 70 percent rate as major oil companies, royalty owners complain, but they will not be able to pass the tax on to con-sumers in the form of higher prices as oil companies are expected to do.

Says Representative Wes Watkins (D-Okla.): "Those people cannot in any way be considered engaged in profiteering or plundering. How the administration and Congress can justify taxing them at the same rate as major oil companies is beyond my comprehension." Watkins is one of several lawmakers from oil-producing states who are trying to persuade Congress to reopen the windfall-profits issue to grant an exemption to royalty owners.

Leading the drive are Senators Robert Dole (R-Kans.) and David Boren (D-Okla.), who are sponsoring legislation exempting royalty owners from the tax on up to 10 barrels of oil a day.

Senator Lloyd Bentsen (D-Tex.) is backing a bill that would exempt royalty owners and independent oilmen from the tax on the first 1,000 barrels of oil per day.

Similar measures were rejected during the grueling debate on the "windfall profits" tax approved by Congress in March. Oil-state congressmen admit that they are facing an uphill struggle to persuade their colleagues to amend the measure in the near future.

Pressures for such changes, however, are mounting fast. At hearings held by Dole and Boren in late May in Oklahoma City and Great Bend, Kans., more than 4,000 outraged royalty owners showed up. Many of those attending were farmers who claimed that they need all their royalty income to help them survive the high interest rates and the downturn in farm prices. Also attending were a number of widows and retirees, who said they depend on monthly royalty checks to supplement their Social Security income.

James L. Stafford of Ada, Okla., representing a group called the Royalty Owners Action Committee, described the tax as "the biggest step towards nationalization of assets since Hitler seized control of Germany's industrial organization."

Representative Watkins says the new tax forced one of his constituents, a retiree, to go on welfare in order to keep his wife in a nursing home.

"The vast majority of royalty owners have small incomes from that source, many under \$100 a month," declares Senator Boren. "Many did not even realize that their interests were included in the tax."

Experts disagree on just how hard royalty owners will be hit by the tax. Along with farmers and widows in nursing homes, the ranks of royalty owners include wealthy oilmen and major landowners.

One petroleum-industry executive argues that, in the long run, royalty owners will benefit from high oil prices along with oil companies. And the "windfall" tax can be de-ducted from regular income as a business

However, Julian G. Martin, executive vice president of the Texas Independent Pro-ducers and Royalty Owners Association, contends that about 60 percent of royalty owners receive income from "stripper produce less than 10 barrels of oil a day. He points out that the administration lifted price controls on stripper wells four years ago in an effort to encourage more produc-tion, sending the price to around \$35 a bar-rel. As a result of the tax, Martin says, owners of stripper-well production will receive no benefit from decontrol while paying \$12 to \$14 a barrel in new taxes.

Analysts also warn that the tax is likely to turn into a bookkeeping nightmare for small royalty owners who cannot afford to hire accountants

Declares Gene Howard, an Oklahoma state senator from Tulsa: "If the tax is designed to punish large corporations whose profits are deemed excessive, then it misses its mark. Instead, it uses a hammer to kill an antand it comes down much more heavily on a lot of little people than it does on any faceless corporation.'

From the Baton Rouge (La.) Morning Advocate, June 20, 1980]

"WINDFALL" TAX SHOWS PARTY IN TRUE LIGHT (By William R. Tucker)

Nobel prize winning economist Milton Friedman has called the "windfall profits" tax a "disastrous measure." Texas Gov. Clements has announced his intention to challenge the tax in the courts. There is, indeed, serious question about its compatability with the federal constitution and about its impact on both the royalty owners and the oil companies which must pay the tax.

Concerning the imposition of the tax on royalty owners (land owners), Sen. Russell Long of Louisiana is reported to have com-mented, "Not one of them will be on wel-fare." The implications of this cynical remark should not go unchallenged. The fact that there are royalty owners, most of whom are elderly, who have very modest incomes and who must rely on small royalty checks to pay their medical bills and make ends meet. Other royalty owners are people with middle-class incomes who use the payments to finance their children's college education in these inflationary times. Not all royalty owners are wealthy Texans or Oklahomans who drive Cadillacs and spend their vacations on the French Riviera. And yet Sen. Long would have us believe that the application of the "windfall profits" tax to royalty owners would affect only the affluent.

This tax measure is based on the premise that any increase in royalty revenues, due to the gradual federal decontrol of the price of domestically produced petroleum, is unde-served. Yet the prospective increase would have been due to market forces, particularly the law of supply and demand. Thus, this tax has far-reaching implications. Cannot an increase in any person's income, due to market adjustments, be labeled by Sen. Long's "undeserved" or "unwarranted" and then be taxed away at the rate of 70 percent? In the future could not any businesses' profits be called "obscene" by other members of the Congress and taxed at a similar rate? It seems to me that the entire business and professional community should consider that possibility. Nor should working people think they will be immune to a confiscation of their incomes similar to that imposed on royalty owners.

The Democratic Party has gained a fair The Democratic Party has gained a land degree of credibility over many years by its contention that it is the party that defends the interests of the "little man." This tax puts the Democratic Party in its true light. At the national level its primary motivation is greed for additional federal revenues. And, apparently, anyone is fair game to its roving

Mr. DOLE, Mr. President, I reserve the

remainder of my time. Mr. KENNEDY. Mr. President, I yield to the Senator from Missouri.

Mr. EAGLETON. Mr. President, I realize that the Senate now finds itself in a state of euphoria over the imminent passage of the Reagan tax bill. What I have to say on this bill in no way detracts from the magnitude of the President's victory. The hour is clearly his and now the state of the American economy between now and the end of 1984 is clearly his.

Mr. President, this is an atrocious tax bill. It is atrocious in terms of economic policy and it is atrocious in terms of fundamental equity.

On basic economic policy, you do not have to take my word for it. Listen to some of the most conservative economists in the Nation

Listen to Henry Kaufman of Salomon Brothers:

I think we have not yet seen the high in interest rates. And we have not seen the full impact on the financial markets of the tax cuts the administration is proposing, or of the increase in defense spending, or the actual results of what the Federal Reserve is doing to stabilize monetary policy when fiscal policy is so extraordinarily expansionary . . . There is hope by everyone, insionary . . . There is hope by everyone, including the Treasury, that interest rates will come down. But you cannot talk interest rates what President no matter what President Reagan thinks.

The central bank is being overburdened by the administration. It is encouraging tighter monetary policy while fiscal policy is in the process of becoming even more expansive.

Listen to Edward Yardeni, the chief economist at E. F. Hutton:

Whereas the consensus has been that the economy is remarkably resilient in the face of these high interest rates, we are finding that the economy has turned much weaker as a result of the Fed's aggressively tight monetary policy . . . A decision has been made in Washington to deliberately engineer a period of protracted economic slack. But the Fed, we've learned, if it errs, is going to err on the side of being too tight rather than too easy . . . This is going to be more painful than many people expected. And if inflation is so dug in that it takes a long and pro-tracted recession to get rid of it, the risk is that the public's patience with this kind of policy will get short.

Listen to Alan Lerner, economist at Bankers Trust Co.:

The Fed can decide to monetize this huge debt, but if it does, it can kiss the long-run economic outlook good-bye. And if it doesn't, it can kiss the short-run economy good-bye We will see historical highs in interest rates before the year is over.

What these and other economists are saying is that in order for the Reagan plan to work we will have to go through a protracted period of high interest rates. endure a sharp recession, and rising unemployment.

Although our economy is significantly stronger than that of Great Britain, remember that this is the same medicinehigh interest rates, recession, rising un-employment—that Mrs. Thatcher prescribed for Great Britain.

On the question of equity, I do not believe that the American people as yet perceive the inherent inequity of the Reagan program. I do not believe, for example, that the public realizes that ? wage earner making \$20,000 next year will end up paying more taxes next year than he did the last because his minuscule income tax cut will be more than offset by social security tax increases and bracket inflation.

I do not believe for example, that the public as yet realizes how we have so brazenly overloaded this tax bill with special benefits for the rich or for the oil companies.

But the day of reckoning, Mr. President, the day of public awareness will come

Some day, next year perhaps, when a factory worker looks at his paycheck and finds that he has received no net tax cut at all, he will ask his friendly H. & R. Block friend some questions.

The H. & R. Block man-worker conversation may go something like this:

WORKER. Say, what the hell ever happened to that "across the board" tax cut I was going

H. & R. BLOCK MAN. Well, "across the board" was a clever euphemism. "Across the board" means that the wealthy get a whopper of a tax cut and the average guy like you gets

little or nothing.

Worker. Well, wasn't there any tax break for me in that Reagan bill that everyone was

pragging about?

H. & R. BLOCK MAN. Well, let's see. I'll ask you some questions to see if you qualify.

Do you have a large amount of dividend income? Do you own a piece of a Subchapter S company? Income from this stuff is called 'unearned" and the Reagan tax bill gives one hell of a tax break on "unearned" income.

WORKER. I earn all of my income. I don't own any stocks or any of that Subchapter S stuff.

H. & R. BLOCK MAN. Too bad. Well, do you own any oil royalties? If you do, the Reagan

bill gives you a heck of a deal on that.

WORKER. No. I've told you. I work for a living. The only thing I own is my car, my dog, and my house, and my Savings and Loan

owns most of the house.

H. & R. Block Man. Too bad. There is nothing in the Reagan bill about dogs, although there is a great deal in the Reagan bill for thoroughbred race horses. Do you happen to own a thoroughbred race horse?

WORKER. No. But my father-in-law bets on

H. & R. BLOCK MAN. Say, speaking of your father-in-law, he can now give you a \$10,000 tax free gift under the Reagan bill.

Worker. I told you, my father-in-law bets on horses. He borrows money from me.

H. & R. BLOCK MAN. Gee, that's too bad. Let me try one more angle. Does anyone in your family own a grove of pecan trees? There's a real good tax steal on those in the Reagan bill.

Mr. DOLE. Mr. President, will the Senator yield?

Mr. EAGLETON. I do not yield.

WORKER. The only trees I own are the two in the backyard, and Dutch Elm is about to get them.

H. & R. BLOCK MAN. Sorry, no gimmick in the bill for Dutch Elm. Do you have a rich relative who might die and leave you a bundle? The Reagan bill is great on rich people when they die.

WORKER. None of my relatives have a pot

to cook in.

H. & R. BLOCK MAN. Well let me take one final stab. Does any member of your family own any oil stock? The Reagan bill gives away the store to the oil industry. The oil boys get a \$33 billion give-away in the Reagan tax bill and anyone who earns any capital gains from selling their oil stock will find that he's paying less in taxes to boot. If you or your wife happen to own some Conoco stock, the combination of all the bigshot corporations bidding for Conoco and the special deals the Reagan bill gives to oil companies will give you a huge capital gain on Conoco stock. The Reagan bill gives a great tax deal on capital gains.

Worker. The only thing I know about Conoco is that I buy their gasoline and pay

too much for it at that.

H. & R. BLOCK MAN. Well, I'm sorry, fella, the Reagan tax bill doesn't do a thing for you. You aren't rich enough to benefit from its provisions. Perhaps someday you will win a pot of gold on a TV game show. By the way, there is a special tax deal in the Reagan

bill for investors in game shows. But I guess you don't own a piece of a theatrical production or a game show. I'm terribly sorry, fella, but the Reagan bill wasn't designed with you in mind.

This conversation may never take place. But the gist of this conversation will take place. Mr. Average Citizen will come to realize that he has been had by the Reagan tax bill. He will realize that about all he gets of the Reagan bill is the privilege to pay high interest rates and the increased risk of losing his job in a credit-crunch recession.

Mr. Average Citizen will realize that the across-the-board Reagan tax cut and its assorted sweeteners constituted nothing more and nothing less than the rape

of the U.S. Treasury.

Finally, Mr. President, let me say this: Many articles have been written since the President's decisive, convincing, and overwhelming victory on the tax bill in the House of Representatives. Articles have been written to the effect that the Democratic Party is dead and gone, perhaps forever. Only time will tell the accuracy of those political predictions, those dire predictions, that are being made by some of the journalistic pundits.

But I submit this: I suggest that the Democratic Party is not dead and that the one main thing that is keeping the Democratic Party alive is the egregious, greedy inequity of this Reagan tax

program.

I will make the prediction that, come 1982 and come 1984, those journalistic pundits who are predicting the demise of our party will point to this date will point to the date of August 3, 1981when the Reagan folks foisted on the American people a greedy, bloated, avaricious tax bill that benefits only the rich and gives a pittance to the poor and to the moderate income taxpayer.

The journalists will point to this day as the day of the revival of the Democratic Party.

This bill keeps the Democratic Party alive. It is so inherently inequitable, so inherently imbalanced, and so inherently unfair that it will stand as the bedrock for the rebirth of the Democratic Party.

The euphoria of the moment is clear. I do not want to be the skunk at the garden party, but I caution those who are caught up in this euphoria that the day of reckoning is coming. Do not sell the intelligence of the American people short. The American people, at this particular point in time, may not know all the "sweeteners," "goodies," "ripoffs," and the "special benefits" that are in this bill, but they will know. They will come to know them when they see that they get nothing out of this bill and that the rich get richer, the special interests get more special benefits, and that the oil companies get \$33 billion in tax relief that they neither need nor deserve.

When the American people come to that awareness, there is going to be a day of political retribution, and that day of political retribution will be visited upon those who foisted this "across-theboard" tax cut euphemism on the American people.

The PRESIDING OFFICER. Who yields time?

Mr. DOLE. I yield 5 minutes to the Senator from Minnesota.

Mr. BOSCHWITZ, Does the Senator from Kansas wish to make a response to the Senator from Missouri?

Mr. DOLE. I will take a moment to indicate that I appreciate the statement by the Senator from Missouri, my friend, who did not vote for the bill in the first place. The vote was 89 to 11. We have heard from two speakers who voted against the original bill, so I would not expect any great praise.

I will want to clarify the record as to some misinformation that got into the H. & R. Block questions and answers, as to whose bill it was in.

The provision as to the pecan trees. for example, was added on the floor. It did not make it through the conference. The investment credit for television game shows, the "Gong Show" amendment, fell by the wayside in conference. We fought hard for those amendments and could not retain them in conference. [Laughter.]

Mr. President, I yield 5 minutes to the

Senator from Minnesota.

Mr. BOSCHWITZ. Mr. President, will the Senator yield me 10 minutes?

Mr. DOLE. All right.

Mr. BOSCHWITZ. Mr. President, 1 was very upset on Saturady night, when I arrived here and found that the Senator from Massachusetts had left, forcing us all to be back on Monday, even though we were prepared to debate and vote by voice vote on the conference report of the tax bill. Yet, he left and saw to it that we all had to come back here today, at considerable cost to the American taxpayer. I do not know how much of a cost-\$40,000 or \$50,000 for shipping Senators around and opening the Senate, with all the expense that requires.

That, in my judgment, perhaps deserved the term that the Senator from Missouri used-egregious. The Senator from Massachusetts could not be here. Nevertheless, he saw to it that, despite many family and other obligations, we had to rearrange our travel, in the face of the air controllers' strike, presenting even more problems.

However, what surprises me, and what I ask the Senator from Massachusetts to address himself to again, is where in this bill he finds such advantage being given to the large oil companies. That, of course, is his reason for asking that the bill be recommitted to yet another conference.

There are four provisions that affect oil in this conference report.

Incidentally, it is important to point out that the \$33 billion that the Senator from Massachusetts speaks of is a 10year figure. It is not a figure for each year but it is a figure spread out over 10 years. The royalty owners' credit and exemption is approximately one-third of that \$33 billion. It does not apply to the big oil companies the Senator speaks

The producers' exemption applies to the exemption of stripper oil wells which produce 10 barrels a day or less. Most oil wells in this country do produce 10 barrels a day or less. There are well over

500,000 oil wells, and most of them are producing very few barrels a day. It exempts stripper oil produced by independent producers.

The Senator points out that 10 barrels, when annualized, amounts to \$100,000. Yet, he criticizes the Senator from Kansas, who opposed a 1,000-barrel-a-day exemption.

That is real money, I say to the Sen-ator from Massachusetts, who is not listening. That is real money. That is about \$10 million a year, not just \$100,000 a year. Yet he criticizes the Senator from Kansas for not supporting the Bentsen amendment which really would have been a very major reduction in that tax. One thousand barrels a day is indeed very large production, which most independent producers certainly do not have.

So, the first part of this bill, the royalty owners' credit and exemption, does not apply to big oil. That is \$11 billion over 10 years.

The next part of the bill, the producers' exemption, applies to stripper wells of independent producers. It is approximately \$6 billion over 10 years. It, too, does not apply to big oil.

The depletion allowance, which is \$8.4 billion over 10 years, does not apply to big oil either.

Then we come to the reduced tax rate on newly discovered oil. Indeed, that could apply, at least in part, to big oil companies. It should be kept in mind that approximately 80 percent of the wells that are drilled in this country are drilled by independents, are drilled by wildcatters. They are not drilled by the large oil companies, even though independents do not find 80 percent of the oil that is found. Large oil companies do indeed find a good share of the new oil.

But, I say to the Senator from Massachusetts, there is no difference between the House bill and the Senate bill. It was not an item in conference. Certainly no one could reasonably presume or reasonably maintain that the conference would go beyond a conferenceable item or that it would get into the never, never land

of anything goes in this tax bill.

This bill with all of its exposure and all the attention it is getting, simply would not go beyond the items that were conferenceable, and this was not such an

The only item in the bill that applies to big oil is the reduced rate on newly discovered oil, which will save the oil industry \$6.6 billion. Let us assume that half of that savings goes to the big oil companies. Then \$3.3 billion of this bill would apply to big oil companies. Not the \$33 billion, but \$3.3 billion, yet this particular provision was the same in the House bill as in the Senate bill and simply was not an item of the conference.

So, as the Senator speaks out about crocodile tears, the wealthiest industry in America, and the \$33 billion that we are handing the big oil companies, I submit that he is just plain wrong; that perhaps one-tenth of that \$33 billion applies to the big oil companies. It is not even clear that it is as much as one-tenth, and, even so, that particular one-tenth was not subject to the conference. Therefore, I submit that the Senator from Massachusetts has brought the Senate back here today under false pretenses. The Senator from Massachusetts is doing what the Senator from Kansas stated, creating a media event, and I, for one, dislike it.

I admire the Senator from Massachusetts, but not today, because he is wasting the time of the Senate. He is wasting the money of the American taxpayers in bringing us back here on an item that is simply not subject to conference.

I was not at the conference, but I understand from people who were there, that numerous objections were heard when items were brought up that were not properly conferenceable. Certainly, the Senator from Massachusetts understands that if this item, one of the principal items in the entire windfall profit tax provisions, had been brought up, it would have been considered beyond the scope of the conference, and most certainly opposed for that reason.

So, Mr. President, I am sorry that I have to be here today. I am sorry that the Senate has to waste its time and its money, the money of the American taxpayers, perhaps not in the billions, and that is all we talk about around here, but \$40,000 or \$50,000, the kind of money I used to understand pretty well before getting to the Senate. Now I am in the big time. Now I only talk about billions and hundreds of millions.

But, Mr. President, I submit to you that we are here under false pretenses and that indeed the single item of this bill that applies to big oil was not even an item of conference.

I yield.

The PRESIDING OFFICER. Who yields time?

Mr. KENNEDY and Mr. RUDMAN addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, I will make a brief comment, and then I will be glad to yield to the Senator from New Hampshire.

The issue is, is \$33 billion for the oil industry too much?

The Senators from Minnesota and Kansas can talk about how you cut up the pie, but it is \$33 billion for a major industry which has been described as the most profitable in this country.

There is just one point I will make in response to the Senator from Minnesota. He talks about 10 barrels and he talks about \$30 a barrel. He is talking about \$300 a day or \$100,000 a year. For those who own 10 stripper wells, he is talking about \$1 million a year in income. That is what they talk about when they talk about mom and pop stores in the oil industry, \$1 million a year income.

I come back to my statement, are we going to shed crocodile tears for individuals in this country who are making \$1 million a year in income and have already been described as the most profitable industry in this country?

I yield to the Senator.

Mr. BOSCHWITZ. Mr. President, now all of a sudden we are going from nothing to \$1 million a year.

Mr. KENNEDY. Mr. President, this is on his time.

Mr. BOSCHWITZ. Fine. This is on the time of the Senator from Kansas.

The PRESIDING OFFICER. The Senator from Massachusetts has the floor. Does he yield?

Does the Senator from Massachusetts yield?

Mr. KENNEDY. I yield for a question as long as the question is on the time of the Senator from Minnesota.

Mr. DOLE. Mr. President, I yield 1 minute for that purpose to be very help-

Mr. BOSCHWITZ. Let me comment. The Senator goes from nothing to \$1 million a year. One of the people on my staff has an oil well that is producing in Kansas. He and his bother-in-law are up to 2 barrels a day. They do not have 10 wells, only that single well and, as a matter of fact, the brother-in-law is entirely engaged in trying to make it two wells.

People do not have \$1 million a year, and mind you that is not tax-free income. That is income that is subject either to a corporate tax or an individual

Mr. DOLE. It is gross.

Mr. BOSCHWITZ. Sure. It is an item of gross income. And it is subject to income tax.

The Senator is quite right, that it may not be subject to a windfall profit tax. But again, the Senator is talking about the oil industry. He is talking about wanting the oil industry to be energy independent over a period of time. Certainly if people who go out to produce oil and people who go out to look for oil are going to create the energy independence of this country, they have to be allowed to make a reasonable dollar.

The PRESIDING OFFICER. The Sen-

ator's time has expired.

Mr. KENNEDY. Mr. President, I yield such time as the Senator from New Hampshire may require.

The PRESIDING OFFICER. The Senator from New Hampshire is recognized.

Mr. RUDMAN. Mr. President, I thank the Chair and I thank the Senator from Massachusetts for yielding time.

Mr. President, I supported the President's tax bill and I will support it today on final passage.

I wish to say to the Senator from Kansas and the ranking minority member, the Senator from Louisiana, that I thank them very sincerely for what I know were their Herculean efforts to incorporate in the conference report the amendment that passed the Senate 71 to 25 to give home heating credit for all fuels to those people of moderate income.

I know from people who attended the conference that they tried and they tried diligently. I understand that the House of Representatives just would not have

I thank them for faithfully trying to fulfill the wishes of the Senate.

I wish to say as much to the Members of the House of Representatives and to the administration more than to the members of the Finance Committee that I do not intend to engage in a diatribe against big oil today. That has been going on for years. But I wish to address something to the record today and hope that in later debates some dim echo of what I say may be heard.

We have spent 1 hour and 15 minutes in the Chamber today talking our interpretations, be it the Senator from Massachusetts, the Senator from Kansas, or the Senator from Minnesota, as to what was or was not done for people who either drill for oil, own oil wells, or invest in oil.

As far as this Senator is concerned, that is symptomatic of the problem that has been going on in Congress for more years than I wish to remember.

Because, Mr. President, there were only two amendments that came to that conference that dealt with the consumers of this Nation. One dealt with a tax credit for wood stoves. The other dealt with, the Senate amendment sponsored by the Senator from Massachusetts and myself which dealt with, inflation-fighting tax credits for those who have a hard time heating their homes across the Frost Belt of this country.

Neither of those amendments is before us for final passage, and what that tells this country, Mr. President, is that the majority of Members of the House of Representatives and a number of Members of this body do not care about the deep concerns that many of us have for the people of the Frost Belt of this country, who are making horrible choices every winter, people in my State spending 32 to 40 percent of their income to heat their homes.

Now, Mr. President, I want to make a prediction, and it is simply this: This Senate and the House represent this entire country. This entire battle has been a regional conflict for more years than I would like to remember. The fact of the matter is if there were a disaster in any part of this country costing millions or billions of dollars affecting the lives and the safety of human beings who are American citizens, be they from Louisiana or from Mississippi or from Kansas or Maine, the majority of the Members of this Senate and that House would vote funds to help them in their time of need.

Well, I want to serve notice on the Members of this body that the people of the Northeast are in a time of dire need, as well as the people of the upper part of this country from East to West, and we are facing a crisis and a polarization of those who freeze against those who do not. I hope when the President's second tax bill comes before this Senate that we will pay heed to those people who need help.

It is not simply a question of giving credits for home heating. It is a question of the entire administration's policy towards alternate energy sources. If we are to say, and the majority is to prevail, that free market policies are the policies of this administration and we will let the price of oil and gas and whatever energy sources rise as the market demands, and that prevails, so be it. But at the same time we ought to be making some substantial commitments to helping the people of this country find alternate energy sources to help ameliorate the horrible impact these costs have been having.

Mr. President, I support the President's tax program. I think it is a good program. I think there are some things

in it which I would have voted against had I had the chance. But in the main I disagree, of course, with my good friend from Missouri. I think it is a very good bill, and I will vote for it on final passage. But I will support the Senator from Massachusetts today in his motion to recommit not because I do not believe the Senator from Kansas or the Senator from Louisiana have not done an extraordinary job and worked hard, and I thank them for that and I am sure my constituents do, but because I would like to give the Members of the House who so quickly rejected our amendment, who so quickly rejected their own amendment on wood stoves, the only two items directed to the consumers of energy in America in this entire tax bill, I would like to have them have a chance again to address those issues and do something for the people who need help.

I thank the Senator from Massachusetts for the time.

The PRESIDING OFFICER. Who yields time?

Mr. DOLE. Mr. President, I appreciate the comments of the distinguished Senator from New Hampshire, and I think even though the motion to recommit is based on what some consider to be too much relief to certain segments of our economy, I think the point has been made that we are talking about a \$750 billion tax package in the next 5 years. and we are concerned about the difference between \$11.6 billion and some lower figure, it could not be any lower than 6, so we are discussing something between \$6.2 billion and \$11.7 billion. I do not know what percent that is of \$750 billion, but certainly it is not very much.

I hope we would focus on what this tax package means to the American working man and woman, as well as American business. Anybody can pick up the table of contents in the conference report and learn very quickly that there are a number of provisions that will reduce taxes for people in this country, whether it is some relief from the marriage penalty, a child care credit, deductions for charitable contributions, tax relief on the sale of a residence, individual retirement accounts, the socalled targeted jobs tax credit, 25 percent across-the-board rate cuts, the estate tax reductions, and the accelerated cost recovery system, which is certainly going to be helpful to business and create new jobs.

It would seem to this Senator this is a massive program that is going to impact on every single American, taxpayer or nontaxpayer alike.

During this media event this afternoon we may have lost sight of just what this bill will do for the American people. Let us face it. All we have here is a media event, an attack on the big oil companies or so-called big oil companies, even though that is not a part of the discussion.

So I would just suggest during this media event maybe we ought to talk a little bit more about what this bill means to the American people.

Mr. LONG. Mr. President, will the Senator yield?

Mr. DOLE. I will be happy to yield to the Senator from Louisiana.

Mr. LONG. We did not talk about the employee stockownership plan provisions which concern employees owning stock in corporations. The Senate did not get all we wanted from the conferees, but we did as well as we could. This provision will help employees to get some stockownership in the corporations in which they work, more so than any measure would do.

I would have liked to have seen accepted everything the Senate passed on employee stockownership. But what was agreed to will help advance the cause of the employee stockownership.

Mr. DOLE. As the Senator knows, that was one of the hard-fought provisions. There were a number of hard-fought provisions that we believed in and fought for. As the Senator pointed out, he did not get all he wanted, and I assume the House may have thought the Senator got more than he should have, but we worked it out. That is why I do not really want to dwell on this so-called big oil provision because that never was a matter of discussion among the conferees. It is only a matter of discussion by those who did not attend the conference and who did not vote for the bill in the first place.

Had they voted for the bill and said we had violated their faith or somehow breached our responsibilities, that would have been something else. But those who are standing up now crying out now are—the same old tired liberal voices, making the same old speeches, knocking the private sector. When it gets cold in Massachusetts remember we produce a little oil in the State of Kansas, and we produce a little oil in other States. It is necessary and of benefit to all America.

I understand a media event although I may never have had the success the Senator from Massachusetts has had. This is certainly a good place for one. Who else could call a press conference for 2 hours on the Senate floor? This could all have been done on Saturday night with a voice vote. I want to put in the Record for those Senators who cannot make it back today, to let them know they did not miss these votes because of the Senator from Kansas. There are 10 on this side who wanted to be here for the vote and thought it was all going to be worked out on Saturday.

The Senator from Ohio, who was our special commissioner for taxation on the floor, Senator Metzenbaum, put out a release saying, in effect, we had done a good job and taking credit back home for saying these billions of dollars.

The Senator from Massachusetts said we have wasted them. But what a place for a press conference. I never tried it before in my life, but now that we have everybody here it is not such a bad idea, and we can talk about anything. If you have the right philosophical belief, it will be written about. You might even make the nightly news. But I want the 10 Senators from this side and the 10 from the other side who are absent today to know that the Senator from Kansas did not call this meeting. I only came to participate in the meeting as a manager of the bill.

We are not really discussing something that is really in doubt of anything. I hold up as exhibit A the conference report signed by all the House Members, everyone. Some of those have a 100-percent ADA rating, and that is not the American Dental Association. [Laughter.] That is the Americans for Democratic Action. Everyone signed the conference report. They were not concerned about big oil. Only one, only one lone ranger from Massachusetts, stood up and said "We have got to cut off big oil."

Well, if he is going to say that, he has to prove what big oil is, after having hustled back from Massachusetts to meet the rest of us who have been here all weekend. This Senator just suggests that if, in fact, there is a debating point, we ought to debate it. But, as the Senator from Minnesota pointed out, there is not any debating point. Big oil has never been a factor. And when the provision is the same in the House side as it is in the Senate side, I assume the Senator would agree there is not anything in conference.

I want to put in the Record that I do not own any interest in oil properties. If I do not, somebody will be writing that I must have some oil. I do not have any. I have some in my car and that is about all. I do not have any production. I tried it once and did not do very well. I decided to run for Congress, instead. So this Senator does not have any big oil income. I am not worried about the tax breaks in this bill. It will help. not as much as it will help some, but it will help. So I would hope that those of us who

So I would hope that those of us who could make it here are here, some 78 or 79 Senators are present. I hope the others who are listening or tuned in will know that we had an outstanding meeting and that nearly everybody came and it was really written up in the proper places. Maybe not accurately, but it was noted. The Senator from Massachusetts gave up Monday to come back and tell the rest of us what we did wrong on Saturday and all night Friday night.

But this Senator is not going to yield to anyone to suggest that we went into that conference and did not keep our word to the Members of this body. About all I have is my word on the Senate floor. Once you lose that credibility in this body. I suggest that it is very difficult to continue. This Senator followed the instructions from the Senate.

I might say that even the pecan trees, we even put up a battle for those pecan trees; not very long, but we put up a good fight. We did not talk too long, but we made the point for those pecan trees. The Senator from Louisiana, I thought, made a very good argument. The trouble is, no one listened. So we dropped the pecan trees.

The "Gong Show" amendment had a lot of support in the Senate, and it passed on a voice vote. The distinguished Senator from Alaska offered that amendment, along with another amendment to help theatrical productions. We could not find any support for that among the House conferees. In fact, some thought we were in the Gong Show about 3 o'clock in the morning. So we had to drop the amendment.

I would sav that there were other amendments that did not survive. Some were good and some were bad and some we passed anyway. That is sort of how it works out in a conference.

The Senate did not get all they went in with and the House got less than they went in with, in some cases. We had to drop some provisions that I know some Senators wanted very much-the Senator from Connecticut, Senator Dopp, and the Senator from Pennsylvania, Senator HEINZ, for example, had what I thought was a good amendment to modify section 189. We had to modify their amendment, but we went back to ACRS and put the real property recovery method back up to 175 percent rather than 150 percent. The Senator from Connecticut came down to our conference about 2 a.m. that morning. He arrived, I think, when we were discussing oil, because the last three items discussed were the oil amendments. the straddles, and the heating credit.

On straddles, the Senate prevailed. There were discussions about lowering the rate from 32 percent to 20 percent. But there was not sufficient support for doing that, on the House side and in the Senate we felt we had a pretty good provision.

As I have indicated before on the oil proposition, there was never any argument about dollars. In fact, I believe the distinguished Congressman from Florida, Congressman Gibbons, will tell the Senator from Massachusetts that, as far as he was concerned, we could have gone to \$12 billion over a 5-year period. But we did not do that. We settled on \$11.7 billion or \$11.6 billion, depending on whose figures you use. So this Senator would suggest that the dollar amount was never in question until it was raised by the Senator from Massachusetts.

Certainly that is his right. I have no quarrel with that.

Mr. President, early Saturday morning the conferees on the tax bill reached agreement on the provisions that should be included in the bill that we send to the President's desk. This agreement represents the final stage of the tax legislative process that, for practical purposes, began last summer when the Senate Finance Committee approved a tax bill that would have reduced individual tax rates and provided accelerated depreciation beginning in 1981.

The major provisions of this legislation were similar in both bills—5-10-10 sequence of individual tax rate reductions, and the accelerated cost recovery system for business investment in new plant and equipment. Both bills also included identical provisions for stabilizing individual tax rates by a system of indexing beginning in 1985, and included similar provisions that would make major revisions of the estate and gift tax laws, the tax treatment of Americans working abroad, and incentives for individual retirement savings. To the extent these provisions differed, the differences have been resolved in what I believe is a satisfactory manner.

Mr. President, each bill contained a number of provisions on relatively narrow or technical matters that were not also in the other bill. Some of these have been dropped by agreement of the conferees, and some were modified to satisfy concerns that were raised. We have done our best to consider the interests of those

who proposed amendments, and I think we have come out with a good package. Obviously anyone who proposed an amendment that is not in the final package will have every opportunity to have that proposal reconsidered in the next tax bill.

There were some areas of substantial disagreement between the bills, including oil, commodity straddles, and ESOP's. While some hard bargaining was necessary, a suitable balance has been struck in each of these areas. The particulars of the agreement are set forth in the conference report. I believe we now have a bill that everyone can agree to.

Mr. President, as far as this Senator is concerned, this is the conclusion of the legislative process on this matter with regard to the Senate. The issues have been debated again and again, and the sentiments of the people have been overwhelmingly expressed in both the Senate, by a vote of 89 to 11, and the House, by a vote of 238 to 195. We know how the people want us to go, and we know the preferences of the President. We must have this legislation on the books as soon as possible, and I hope we will agree to the conference report without delay.

This legislation is the most important revision of the tax laws in recent years. It redirects tax policy to restore incentives for work, savings, investment, and productivity. This change in direction will benefit all Americans, and can be a key part of an economic renaissance in this country. That is why this legislation has received priority attention from the Congress and why we should take satisfaction in completing action before the August recess.

Mr. President, this effort would not have succeeded without the cooperation of many in Congress and in the executive branch. I have mentioned before the contribution of the distinguished minority leader, Senator Byrn, and of course the distinguished majority leader, Senator Baker. I would now also like to express my appreciation to the Speaker of the House, TIP O'NEILL, for agreeing to the ambitious legislative schedule that enabled us to move as fast as we have. In particular, I salute the conferees on this legislation. Chairman Rostenkowski showed good spirit and determination in his efforts to complete action on the bill. As always, the senior Senator from Louisiana, Russell Long, made an invaluable contribution. I also thank Senators Roth, Packwood, Danforth, Byrd, and Bentsen, and Congressmen Pickle, GIBBONS. STARK, RANGEL, CONABLE. ARCHER, and DUNCAN for putting in the long hours and helping in the negotiations that led to this agreement.

Mr. President, I ask unanimous consent to have printed in the Record at this point a brief summary of the legislation as agreed to by the conferees.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

SUMMARY

As agreed to by the House and Senate conferees, the Economic Recovery Tax Act of 1981 provides for substantial reductions in the individual income tax, the corporate income tax, the windfall profit tax and the

estate and gift taxes. It also contains provisions for reforming the treatment of tax straddles and improving tax administration. The revenue impact of the Act is estimated to be a reduction of \$1.6 billion in fiscal year 1981, \$37.7 billion in 1982, \$92.7 billion in 1983, \$149.9 billion in 1984, \$199.3 billion in 1985 and \$267.6 billion in 1986.

Let me summarize the major provisions of the Act.

INDIVIDUAL INCOME TAX PROVISIONS

The Act reduces individual income tax rates across-the-board, beginning on October 1, 1981. The cumulative rate cuts are scheduled to be 1½ percent for 1981, 10 percent for 1982, 19 percent for 1983 and 23 percent for 1984. However, the top tax rate is reduced to 50 percent and the maximum tax is repealed in 1982. Starting in 1985, the income tax brackets, zero bracket amount and personal exemption are adjusted for inflation as measured by the Consumer Price Index.

The Act allows a married couple that files a joint return to deduct 5 percent of the first \$30,000 of the lower earning spouse's earned income in 1982 and 10 percent of that amount after 1982. It allows all taxpayers, whether or not they itemize deductions, to deduct 25 percent of the first \$100 of charitable contributions in 1982 and 1983, 25 percent of the first \$300 contributed in 1984, 50 percent of all contributions in 1985 and 100 percent of all contributions in 1986, after which the provision expires. The Act permits deduction of up to \$75,000 of foreign earned income in 1982, deduction of certain excess foreign housing expenses, and reduces the out-of-country requirement to 11 of 12 months. The child and dependent care credit is put on a sliding scale based on the taxpayer's income, and the maximum amount of expenses taken into account is increased to \$2,400 for one dependent and \$4,800 for more than one dependent.

The maximum effective tax rate on capital gains for individuals is reduced by the Act to 20 percent on sales or exchanges made after June 9, 1981, and the present 12-month minimum holding period for long-term capital gain or loss treatment is retained.

BUSINESS TAX CUT PROVISIONS

The Act replaces the present system of depreciation and investment tax credits with the Accelerated Cost Recovery System. Under this system, most tangible personal property is depreciated over 3, 5, 10 or 15 years. Personal property with an ADR midpoint life of 4 years or less and research and development equipment are depreciated over 3 years. Public utility property with an ADR midpoint life greater than 18 years but not greater than 25 years, railroad tank cars, residential mobile homes, real property with an ADR midpoint life of less than 13 years and certain coal utilization burners and boilers used by public utilities are included in the 10-year class. Public utility property with an ADR midpoint life exceeding 25 years is depreciated over 15 years.

In general, all other personal property and single purpose agricultural structures and petroleum storage facilities are depreciated over 5 years. The method of depreciation is approximately equivalent to the 150-percent declining balance method switching to straight-line for property placed in service in 1981-1984; the 175-percent declining balance method switching to sum-of-the-year's digits for property placed in service in 1985; and the 200-percent declining balance method switching to sum-of-the-year's digits for property placed in service after 1985. At the taxpayer's election, up to \$5,000 of equipment may be expensed in 1982 and 1983, 87,500 in 1984 and 1985, and \$10,000 after 1985.

The Act provides a 6-percent investment credit for eligible property in the 3-year class and a 10-percent credit for eligible property (including petroleum storage facilities) in

the 5-year, 10-year, or 15-year classes. On early disposition, the credit is recomputed by allowing a 2-percent credit for each year the property is held. An at-risk limitation is applied to certain taxpayers, and the 7-year requirement for availability of credit for qualified progress expenditures is repealed. The limitation on used property eligible for the credit is increased to \$125,000 in 1981 and \$150,000 in 1985, and the investment credit carryover period is extended to 15 years.

Under ACRS, real property is depreciated over 15 years, on a composite basis and without regard to salvage value. The method of depreciation is approximately equivalent to the 175-percent declining balance method (200 percent for low-income housing) switching to straight-line. Section 1245 recapture will apply on dispositions of nonresidential property if the accelerated method of depreciation has been used. Section 1250 recapture will apply on dispositions of residential property.

The Act liberalizes the terms for characterizing a transaction as a lease and contains rules to prevent the churning of assets solely to obtain the benefits of ACRS.

The Act provides an investment credit for rehabilitation expenditures of 15 percent for nonresidential buildings 30 to 39 years old, 20 percent for nonresidential buildings 40 or more years old, and 25 percent for certified historic structures. The credit is available only if straight-line depreciation is elected. Basis reduction is required for rehabilitation credits other than the tax credit for certified historic structures.

The Act provides a nonrefundable 25-percent tax credit for incremental research and experimental expenditures made after June 30, 1981, and before 1986. The Act reduces the corporate income tax rate on income under \$25,000 to 16 percent in 1982 and 15 percent thereafter; on income between \$25,000 and \$50,000 the tax rate is reduced to 19 percent in 1982 and 18 percent thereafter.

ENERGY TAX PROVISIONS

The Act allows a royalty owner's credit up to \$2,500 against windfall profit tax for 1981. There is a 2-barrel a day exemption for royalty owners in 1982 through 1984 and a 3-barrel a day exemption thereafter. The Act also exempts stripper oil produced by independent producers, beginning in 1983, and reduces in steps the tax rate on newly discovered oil to 15 percent by 1986.

SAVINGS INCENTIVE PROVISIONS

The Act increases the limit on the deduction for contributions to a self-employed retirement savings plan to the lesser of 15 percent of earnings or \$15,000. The Act also increases the limit on the deduction for contributions to an independent retirement account to the lesser of 100 percent of earnings or \$2,000, and extends eligibility to active participants in employer-sponsored plans.

The Act repeals the present \$200 interest and dividend exclusion and reinstates the \$100 dividend exclusion of prior law, beginning in 1982. Starting in 1985, there is a 15-percent net interest exclusion up to \$450 on a single return and \$900 on a joint return. Up to \$1,000 (\$2,000 on a joint return) of interest earned on one-year certificates issued by depository institutions between October 1, 1981, and December 31, 1982, are exempted from income tax. These certificates must be issued at 70 percent of the Treasury bill rate and at least 75 percent of the proceeds must, in general, be linked to residential financing and agricultural loans.

This Act terminates the ESOP additional investment tax credit after 1982 and allows a new income tax credit for contributions to an ESOP. The new credit is limited to 0.50 percent of compensation paid to employees under the plan in 1983 and 1984, to 0.75 percent in 1985 through 1986, and terminates thereafter.

The Act permits utility corporations to

establish dividend reinvestment plans, under which an individual may exclude up to \$750 of stock dividends (\$1.500 on a joint return) per year. Shareholders will have a zero basis in such stock and realize gain upon sale of the stock. The provision applies to distributions made after 1981 and before 1986.

ESTATE AND GIFT TAX PROVISIONS

Beginning in 1982, the Act increases the unified credit in stages so that transfers up to \$600,000 will be exempt from the estate and gift taxes by 1987, phases down the maximum tax rates to 50 percent by 1985 and allows an unlimited marital deduction. The estate tax limitation on reduction in fair market value for current use valuation is increased to \$600,000 for 1981, \$700,000 for 1982 and \$750,000 for 1983 and thereafter. The amount of the annual gift tax exclusion is increased to \$10,000 per donee, plus an unlimited exclusion of amounts paid for benefit of an individual for medical expenses and school tuition.

TAX STRADDLES

The Act provides that regulated futures contracts be marked to market at year end and taxed as if 60 percent of the net gain is long-term and 40 percent is short-term. Straddle losses on contracts that are not marked-to-market are allowed only to the extent losses exceed unrealized gains on off-setting positions, and disallowed losses are deferred. The Act requires that taxpayers capitalize interest and carrying charges, that Treasury bills be treated as capital assets and that broker-dealers identify securities held for investment on the day they are acquired. The Act exempts hedging transactions from the mark-in-market, loss deferral and capitalization rules.

ADMINISTRATIVE AND MISCELLANEOUS PROVISIONS

The Act provides for the annual adjustment of the interest rate on deficiencies and overpayments to 100 percent of the prime rate, provides additional penalties for filing false W-4 forms, requires that estimated tax payments of large corporations be increased over 3 years to 80 percent of the current year tax liability, and increases the exemption from the estimated tax penalty for individuals to \$500 over a 4-year period. In addition, the Act provides for increases in railroad retirement taxes and, among other miscellaneous provisions, an extension of the telephone excise tax through 1984.

In addition, the Act extends and modifies the targeted jobs credit. The credit will be available for targeted employees, including displaced CETA workers, who begin work before January 1, 1983. The modifications include administrative tighthening and limits on retroactive certification.

Mr. DOLE. Mr. President, I do want the Record to reflect that this is a very comprehensive piece of legislation. It is good tax legislation. We can quarrel all day long about whether it is too much for business or too much for individuals or too much for my part of the business sector. But it is a \$750 billion tax proposal and probably makes the biggest single piece of tax legislation in history.

Eighty-nine Members of this Senate voted for it. Eleven voted against it. That is their right. Two have already spoken and the other nine may show up. But these are the facts: 89 to 11.

Now, it cannot be 89 today because some Senators cannot get back. But many of the Senators are here and it will be a good vote.

I would hope when we vote on the motion, whether it is going to be the motion to table or the motion itself, that we keep in mind that the Senate conferees kept their pledge to the Senate. We, in

Modification of Foreign Investment Com-

Charitable Contributions by Corporations Unemployment Tax Status for Fishing Boat

pany Provisions.

Services.

Mr. President, I ask unanimous con-

fact, split the difference on this provision. We tried to keep as many of the Senate amendments as we could.

sent to have printed in the Record at this point a list of all the amendments offered in the Senate and their final disposition.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

FLOOR AMENDMENTS-DISPOSITION IN CONFERENCE

TITLE	FLOOR AMENDMENT	CONFERENCE ACTION
Indexing	Committee	Same as House Bill.
Child Care Credit	Metzenbaum & Durenberger	House recedes except to refundability and employer 50 percent credit.
Charitable Deduction for nonitemizers	Packwood	Senate recedes with amendment providing \$300 Cap in 1984 and requirement of sub- stantiation.
Sale of Residence by Handicapped Persons Capital Cost Recovery (Eligible Property)	Huddleston	Senate recedes. House recedes with amendments—RACE
Capital Cost Recovery—Useful Lives for	D. Brad & Lineau	horses over 2 years old and other horses over 12 years old go into 3 year class. All others 5 years.
Personal Property.	R. Byrd & Eugar	Same as House Bill with amendment to place burners & boilers using coal in 10 yr. class if used by utility & if conversion or replacement; and to place residential manufactured homes in 10 yr. category.

(Mr. WARNER assumed the chair.)

Mr. DOLE. Mr. President, I would hope that most Senators would read that list. If it does not explain it enough, I would be very happy to discuss it, because in a majority of the cases the Senate prevailed. In some other cases where an amendment was dropped, take the amendment of the Senator from Oregon on the Oregon veterans home, it was not because the amendment lacked merit, it was because the House had four or five similar amendments they did not have in their bill and they just said that they were not going to accept the Senate provision. The House conferees did not want to do it because they were going to wait until they were able to take care of some of the problems in their States. And we understood that.

So the Senator from Kansas would hope that we can address these problems raised by the Senator from Massachusetts and the Senator from New Hampshire in the second tax bill. There is going to be a second tax bill. The President had not changed his mind. There was never any attempt to address everything in the first tax proposal.

I would hope that those who have an interest in some measure, whether it is the heating credit or whether it is something else, that we will have an opportunity now to really hone in on some of these areas and try to work them out to serve the best interest not only of the Senators but the people they represent.

We have not given up on trying to improve things in this legislation or improve the tax system. I would hope the Senators who feel that we may have let them down in some way have not given up, either.

Mr. President, I reserve the remainder of my time.

Mr. KENNEDY addressed the Chair. The PRESIDING OFFICER. The Senator from Massachusetts.

Senate recedes. House recedes.

Senate recedes.

Senate recedes with technical modification.

House recedes.

House recedes, itemized returns only and technical modifications.

Senate recedes. Senate recedes. Senate recedes.

Mr. KENNEDY. Mr. President, I yield myself 3 minutes.

I appreciate the comment of the Senator from Kansas when he said that the money value of this tax deal for the major oil companies was not raised until the Senator from Massachusetts raised it. It seems that the Senate conferees went out shopping on Friday night and they bought a little bit here for some of the oil industry and a little bit there for others of the oil industry and when you added it all up it was \$33 billion.

The Senators from Kansas and Minnesota are well aware of what the majority leader had said. I quote at 19227 of the RECORD on July 31: "There will not be a rollcall vote on Saturday.

Now, I can understand how the conferees wanted to voice vote this right through. They effectively robbed the Treasury on Friday night and they would like to get this thing comfortably through on Saturday night. But we are here in the broad daylight so that the Members of the Senate will be able to vote on this issue about whether we want to give \$33 billion away to the oil industry

I yield 5 minutes to the Senator from Connecticut.

WINDFALL PROFIT TAX REDUCTION

Mr. DODD. I thank the Senator for vielding

Mr. President, at the outset let me compliment the people who stayed up all night Friday night. The Senator from Kansas is absolutely correct. I showed up around 2 o'clock and they were working very hard at that hour. I finally decided they did not need me at that particular point. They seemed to be doing all right on their own. Maybe we should have had the Lone Ranger down here at that hour to carry the day.

I know they did work hard and spent all evening trying to reach a compromise on various matters in disagreement between the Senate and the other body. So I am not here this afternoon to chide or in any way be critical of that effort, but really to comment on the outcome of that effort.

It is in that regard, Mr. President, that I will stand this afternoon with my colleague from Massachusetts in expressing my disappointment over the result of that effort. I do not in any way want to lead my colleagues here to the conclusion that our colleagues did not try. So, it is not on the effort; on the effort they get an A, an A-plus. It is really the result of that effort that troubles me, and that is where I have my disagreements.

Mr. President, I came to the floor last Friday along with several of my col-leagues to urge the Senate conferees on the present tax bill to limit the windfall profit tax reductions to those already contained in the Senate bill.

The Senate bill was already very generous to the Nation's most profitable industry, the oil industry. It provided a tax reduction of \$6.6 billion during the next 5 years and \$20 billion by 1990. At a time when we apparently cannot find even enough revenue to maintain the \$122 per month minimum benefit for social security recipients, when we apparently cannot find the revenue to provide the most elemental nutritional benefits to hundreds of thousands of schoolchildren, the poor and the elderly, I felt that even the Senate bill contained an excessive transfer of wealth from the poor to the rich.

As the Senator from Missouri (Mr. EAGLETON) stated on the floor last week, the budget bill passed by the Congress last week fundamentally alters the social and economic priorities of this Nation by taking from the poor and giving to the rich. The tax measure we will vote on today more than simply reinforces this reversal. It compounds it to a serious degree.

The administration's budget bill will lead to massive cuts in funds to assist the poorest as well as the middle class in our society.

This tax bill will substantially reduce the contribution of the wealthiest members of our society to the revenues needed to finance all functions of Government.

The so-called compromise on the windfall profit tax reductions reached by the conferees violates the most basic standards of social justice. While providing a \$33 billion tax reduction for the oil industry during the next 10 years, the conferees could not find it in their hearts to approve a 1-year tax credit for escalating home heating costs with only a \$500 million price tag.

Mr. President, the administration has been pressing the conferees on this bill to adopt the full \$46 billion, 10-year, boon to the oil industry that was contained in the House bill. That was excessive.

What we have done in the conference is, in my mind, still too excessive. By failing to limit the windfall tax reduction to the \$20 billion provided in the Senate bill we have made it virtually impossible to have a restraining impact on inflation. I am under no illusion, Mr. President,

I am under no illusion, Mr. President, that this bill will be rejected by the majority of the Senate.

May I add at this point that I understand what we are doing in this tax bill is not just aiming for a redistribution of wealth, but we are also trying to increase the productivity of this country. But I think we have lost the sense of balance over the last couple of weeks. This is largely the result of a desire to please those who already share in the greatest benefits this bill will offer.

So, Mr. President, I will join this afternoon with the Senator from Massachusetts and others in expressing our opposition to the conference report despite the valiant effort of the conferees during that allnight session on Friday. I yield back any remaining time.

The PRESIDING OFFICER. Who yields time?

Mr. KENNEDY. I yield 5 minutes to the Senator from Maine.

The PRESIDING OFFICER. The Senator from Maine is recognized.

Mr. MITCHELL. Mr. President, I rise in support of the motion to recommit the bill before us to the members of the conference committee with instructions to return with a lesser revenue loss in the windfall profit tax provision.

As I indicated during the Senate's debate on the bill last week, the provision for oil producers was a cause of deep concern. Despite those concerns I voted for the Senate bill because I felt that its passage was essential to prevent further erosion of working Americans' incomes through inflation caused tax increases, and I will vote for final passage of the conference report. But I did not, and I do not now, feel that either the Senate bill or the conference report's oil tax provision were necessary to provide a production incentive, to speed capital formation, or to relieve any inequities in the tax burden.

The oil industry has not suffered from inflation. Rather, the inflation-induced price increases that have afflicted the remainder of the economy are in very large part due to the extremely high

price of oil, which doubled just 2 years ago.

The oil industry may not have been responsible for that doubling but it has reaped the benefits of it, while no other sector of our economy has been able to do so.

The windfall profit tax was so named and enacted principally because all were agreed that the unprecedented price increase represented a true windfall to oil producers, not an earned return on investment. For that reason, Congress agreed that it was only rational and just to return some small portion of that windfall to the public through a tax that could be used to offset the effects of oil price inflation on individuals and businesses.

So the provisions in the Senate bill which halved the tax rate on so-called new oil and increased the royalty owners' credit from \$1,000 to \$2,500 were matters of serious concern. Those Senate provisions would have cost \$6.5 billion in the first 5 years in revenues returned to the oil producers, a truly generous tax reduction to an already prosperous industry.

Unnecessary as these provisions were, however, the result of the House leader-ship's bidding war with the administration presented the oil industry with even more generous tax relief, \$16 billion in the first 5 years, compared to the Senate's \$6.5 billion.

The Senate could not have responsibly gone along with those House provisions. Fortunately, we do not face that choice today. Fortunately, the conference re-port does not give the oil industry the full \$16 billion the House and the administration promised. Rather, it gives about \$11 billion over the next 5 years. And yet the conference report also tragically eliminates the Senate's home heating cost credit, a modest credit which would only permit a maximum \$200 credit for poor people against heating costs. It phases out as a family's income approaches \$25,000. The cost of this provision would have been \$400 million a year—that is not billions; that is millions-\$400 million for the poor of the North who confront the hard choice between heating and eating in the winter. That could not be afforded even though it was perfectly consistent with the rationale behind the windfall profit tax when it was first enacted.

The conference report also eliminates the modest, very modest, House credit for wood stoves, a credit the administration has repeatedly refused to implement, even though it has the authority to do so. That would have provided a 15-percent credit against wood stove costs.

Both of these provisions represented a way to get some money back to working people for the enormous transfer of wealth they have all paid to the oil industry over the past couple of years. These two provisions apparently could not be saved. They did not represent a high priority to this administration. Instead, we read in the papers where Treasury Secretary Regan fought all through the night to save the oil depletion allowance.

Mr. President, the need for a tax cut is clear. There has been no dispute over that since last year when the Senate Finance Committee wrote a good bill.

There has been no dispute over the need to relieve the tax burden on working Americans. The Federal income tax burden is at an all-time high. In 1981, if there is no tax cut, Federal income taxes will reach 15.9 percent of personal income. This compares to only 12.7 percent a decade ago. The rise in the tax burden occurred in spite of a number of tax cuts over the last 10 years.

If we do not cut taxes now, there will be a further tax increase next year, and this increase will fall most heavily on low- and middle-income workers. The combined effect of inflation and higher social security taxes would result in a \$23 billion tax increase in 1982. As I say, this increase falls most heavily on lowand middle-income workers. Taxpayers earning between \$5,000 and \$10,000 face a 25-percent increase in their taxes, and those making between \$10,000 and \$15,-000 face a 12-percent increase. In contrast, the worker with an income of \$50,-000 to \$100,000 only faces a 6-percent increase. Thus, not only are those built-in tax increases now scheduled harmful to the economy, they will make the tax system less progressive.

That is why we need a tax cut.

Many of the specific problems confronting our economy are related to the rising tax burden.

But nowhere throughout the entire debate over the tax cuts has there ever been evidence offered that these massive reductions to the oil industry are needed, are warranted on are justifiable. The public debate has concentrated upon the need for savings incentives, capital formation, investment incentives, marriage tax relief, commodity straddles and the different ways in which these admirable needs might best be met.

There has been little public debate about the need for additional incentives to the oil industry, and there is no evidence that they are short of investment capital or that they are having a cash flow problem.

We should have a tax cut, Mr. President. We must have a tax cut. But we can and should have a tax cut that does not provide unwarranted, indefensible tax reductions to the oil industry. We should recommit this bill, improve it by reducing the oil industry tax reductions, and then pass it unanimously.

I thank the Chair.

Mr. KENNEDY. Mr. President, I am going to yield to the Senator from New York, but there was some question that was raised by the Senator from Kansas about whether the Senator from Massachusetts was the only one who was interested in this issue. I am glad to see that we have now our sixth speaker, Senator Moynihan, and Senator Bumpers will make seven speakers who will speak in opposition to this amendment. There will be only three speakers who have supported it.

I yield 4 minutes to the Senator from New York.

The PRESIDING OFFICER. The

Senator from New York is recognized for a period not to exceed 4 minutes.

Mr. MOYNIHAN. Mr. President, I cannot say what I would wish this Chamber to hear in the space of 4 minutes. What I do say I want to preface with the statement of the very gracious regard that I and, I think all the members of the Committee on Finance and of this Chamber have for the chairman of the committee, who performed so splendidly in that long conference from Friday night to Saturday morning. I recognize that what was brought back in the conference report was a compromise with respect to the reductions of windfall profit taxes on oil. In the circumstances, that is what was perhaps to be expected, but not, Mr. President, what we need accept.

A year ago, I was a member of the conference committee, as was the Senator from Kansas, on the windfall profit tax. The conference went on week after week and we finally settled the issue so that all who received the windfall would return part of it in the form of the windfall profit tax. Now with this tax cut bill, we are beginning to make distinctions among those who need do so. Royalty owners, for example, need not do so. On what grounds? That they are making less of a profit? Not at all.

Most importantly, Mr. President, the idea that a group known as independent producers is somehow apart from the general structure of this industry and, therefore, entitled to special exemptions is fallacious to the point of being outrageous.

The same proposition came up in the course of the debate on the windfall profits tax; at that time, I had the opportunity to remind this Chamber that if, by some happy circumstance, Abu Dhabi were to be located on the eastern end of Long Island, Abu Dhabi would qualify for exemption from taxes as an independent producer under the legislation then being considered and which we are about to adopt.

The overwhelming amount of oil production in this country is done by organizations technically called independent producers; the annual revenues of such producers range in the upper two-thirds of a billion dollars. In the case of Abu Dhabi, it could be in the upper range of some \$16 billion and still, absent refining capacity, Abu Dhabi would still qualify as an independent. I point out, Mr. President, that we distort the petroleum industry when we make such a large advantage available only to those with a low capacity in refining. The obvious decision is to go to small, inefficient, and fragmented facilities.

This is very much to be deplored. It verges on breaking understandings reached a year ago after a long and difficult tax conference. I hope we shall decide to recommit the tax cut bill, make this change, and then adopt the legislation unanimously.

Mr. President, I thank the Chair for his respectful attention. I thank the Senator from Massachusetts for giving me this opportunity.

Mr. DOLE. Mr. President, I yield 3 minutes to the Senator from Oklahoma

and 3 minutes to the Senator from Louisiana.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized for a period not to exceed 3 minutes.

Mr. NICKLES. I thank the Chair. Mr. President, I compliment the distinguished Senator from Kansas, the chairman of the committee, for what I believe to be an outstanding job. I think the bill that is before us and the improvements he made in the conference committee are excellent.

Mr. President, there has been a lot of rhetoric anti-big oil, that the big oil industry is going to make \$33 billion and rip off the taxpayers. Mr. President, this is an unbelievable statement that cannot be backed up. This tax cut, if we look over the next 5 years, totaled \$11.7 bil-lion. The Senate had already approved \$6 billion of that, so this is an improvement, or an increase of about \$5 billion over 5 years.

Mr. President, we have to look at what this so-called industry is paying over the next 5 years. They are paying an additional \$100 billion in so-called windfall profit tax that no other industry, not one, pays. This is in addition to corporate taxes, in addition to personal income tax. Out of \$5 or \$11.7 billion, who is going to receive the benefit? Is it big oil, is it Exxon, is it Conoco, is it Mobil? No. Mr. President, it is the millions of independent producers and the millions of royalty owners.

Mr. President, there are 2.5 to 3 million royalty owners in America today. I have met with people and all these people have very, very limited income. One individual in Oklahoma showed me a monthly check that used to be for \$1.49. Then came the windfall profit tax that took away 50 cents, so his net check was 99 cents.

Mr. President, the vast majority of the people who benefit from this bill are the small people. They are the small people; not Exxon's, not Mobil's. That is campaign rhetoric, but it does not apply to this bill.

Over half the benefit of the conference report will go to the royalty owners, Mr. President, the other half will go to the independent producers. Who are the in-dependent producers? Something like 12,000 independent producers all over this country. In Oklahoma, if we look at the average amount of production coming from stripper wells, stripper wells would be exempt. Those are the wells that produce 10 barrels or less a day.

The average production from these wells was 3.3 barrels a day. That is not Exxon. Exxon does not own those wells. They cannot afford to. It is economically unfeasible for the big boys to own those wells. Half the wells of this country are owned by small, independent producers. Most of those wells produce 3 barrels a day. The wells in the State of the Senator from Kansas produce something like 2.3 barrels a day.

Those are the people who will be exempt. Those are the people who will allow us to get the marginal production that is now unfeasible.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. DOLE. I yield 3 minutes to the Senator from Louisiana.

The PRESIDING OFFICER. The Senator from Louisiana is recognized for not to exceed 3 minutes.

Mr. LONG. Mr. President, I hope the conference report will be agreed to. This is a very significant bill.

For years we have continued what basically were the wartime tax rates. starting back in World War II. There was a time when income was taxed at more than 90 percent at the top rate for individuals. There was a time when we had an excess profits tax of 90 percent in addition to an income tax of more than 50 percent.

Mr. President, the President of the United States campaigned on the basis that we should have a supply-side tax cut. He advocated an across-the-board cut of 10 percent a year each year for 3 years, or an overall 30-percent cut in rates. This bill does not go quite that far, but it goes for a three-stage 25-percent across-the-board cut.

Mr. President, it was the feeling of this Senator that we should do more than have just an across-the-board cut. The feeling of this Senator is that we should do things that encourage savings and investment. That is very much a part of this bill. I am pleased that there are provisions in this bill that would help those we would like to help. We would like to encourage the hiring of those who are less fortunate in our economy. The targeted jobs credit is extended in this bill.

We would like to provide help for those who hire persons for day care, where both spouses are working. That is part of the bill. We would like to do something to reduce the marriage penalty. That is part of the bill.

I am pleased that we have provisions in this bill that move forward, by giant strides, our effort to encourage employee stock ownership. I believe we should see that workers have the opportunity to own stock in the companies for which they work.

We fought hard to bring back what we did. I would have liked to have brought back all the Senate provisions. We had to yield on some significant provisions. but most of them are still here.

I believe that this bill is what the American people expected when they voted for President Reagan. He went to the American people on television to urge that this type of bill be passed by the Congress, to give the supply-side economic theory a try, and I believe this bill does that.

I will be happy to support the bill. The PRESIDING OFFICER. Who seeks recognition?

Mr. KENNEDY. Mr. President, how much time remains?

The PRESIDING OFFICER. The Senator from Massachusetts has 3 minutes and 53 seconds.

Mr. KENNEDY. And the opposition?

The PRESIDING OFFICER. The Senator from Kansas has 3 minutes and 6 seconds.

I yield 3 minutes to the Senator from Arkansas.

The PRESIDING OFFICER. The Senator from Arkansas is recognized for not

to exceed 3 minutes.

Mr. BUMPERS. Mr. President, right after this bill was passed last Wednesday, President Reagan went to Atlanta, and, said that the country is off and running now, that everybody is going to be brought along, and that nobody will be left behind.

That is a very persuasive, compelling, and interesting thing to say, unless we look at what we have done. This bill leaves 50 percent of the American people behind in the starting blocks. Fifty percent of the American people make less than \$20,000 a year; and, under this bill, they are not even protected from the increased cost of inflation and the increase in social security taxes. So, at the end of 3 years, 50 percent of the American people will be worse off than they are today. That is hardly bringing all America along.

Senator Kennedy and I pleaded with this body to increase this bill by \$13 billion in the total amount for those very people who make less than \$20,000 a year. That would not have given them a windfall, but simply made them even with inflation and their increased social security taxes.

How can we sit in the Senate and be a part of a nation, the governing body of a nation which professes to be a Christian nation, cherish those absolute values, such as fairness and justice, cherish the rights of every individual, no matter how lowly, and still pass a tax bill which gives the American oil industry more than we give the 50 percent of the people who earn below \$20,000 a year?

This is supposed to be a nation that is short of money, and the high interest rates are attributable to the terrible shortage of money. Yet, five American companies trying to take over Conoco have \$30 billion of credit tied up in this Nation that can be used for other purposes. Who are they? I do not need to name them, because you know who they

Mr. President, what social or economic value is served, what part of America is served, with this amendment, which gives the American oil industry \$33 bil-

lion over the next 10 years?
Finally, Mr. President, I want to say, simply, that passage of this particular part of the bill that betrays 50 percent of the people and gives \$33 billion to the very wealthiest of the wealthiest of the wealthy, say a lot more about Congress than it does about the oil companies.

The PRESIDING OFFICER. The Senator's 3 minutes have expired.

Mr. KENNEDY. I yield the Senator an additional 45 seconds.

Mr. BUMPERS. Mr. President, President Reagan never asked for this. When he submitted this tax bill, he said, "I want a clean tax bill," and he told you the few provisions that he wanted. Nowhere did he say, "I want to relieve the oil companies of this Nation from the windfall profits tax." He did not ask for it. The people who asked for it were the people in the House of Representatives who were doing the shameless bidding,

on both sides of the aisle, for votes, and the oil companies, who lobbied this body and urged on that bidding war.

It will be a travesty if this motion is not adopted.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Massachusetts has 6 minutes remaining.

The Senator from Kansas has 3 minutes and 6 seconds.

Mr. DOLE. I yield 30 seconds to the Senator from Tennessee.

Mr. BAKER, I thank the Senator. Mr. President, a few moments ago, I talked with the Senator from Ohio (Mr. METZENBAUM) on the telephone. He was in Atlanta.

At that time, Senator Metzenbaum asked me to agree to a unanimous-consent request to try to extend the time for voting on the Kennedy motion. I had to tell the Senator from Ohio that that was not feasible to do, that a great number of Senators are committed to the voting sequence that has been established for 2:15 and then 2:30.

The Senator from Ohio, I believe, understood why that unanimous-consent request could not be agreed to.

That, together with the complications of the air controllers' strike, apparently indicates that the Senator from Ohio will not be here. I promised to put in the Record, as I am doing now, the fact that he made a very diligent and good-faith effort to be here, including his request to extend the time for voting, which I regret I could not grant.

Mr. DOLE. Mr. President, after a great deal of give and take during the 16-hour marathon conference the House and Senate reached agreement resolving the differences between the House and Senate tax bills. There were accommodations made on both sides, as there must be in any conference.

I know there are those in this body that have some concern about the provisions in the bill relating to the socalled windfall profit tax. The House-passed tax bill had about \$16.2 billion in windfall profit and income tax relief for oil producers and royalty owners. The Senate-passed tax bill had about \$6.6 billion in such relief. The final compromise resolved early Saturday morning had about \$11.7 billion in windfall profit tax relief. This compromise is just slightly above the midpoint between the House and Senate bills. Thus, the conferees essentially split the difference between the House and Senate positions. Splitting the difference is hardly a novel or inappropriate way of resolving differences between two bills.

It is important to recognize that despite the talk about "major oil companies" and "big oil," the conference decision did not add one additional nickel for the big oil companies. It is true that the phase down of the tax rate on newly discovered oil will give some relief to major oil companies as well as independents and royalty owners.

Nevertheless, the new oil provision was the same in both bills and thus not subject to change in conference. Moreover, the new oil provision should be no surprise to the Senator from Massachusetts, since he negotiated the phase down with this Senator when the tax bill was on the floor last week.

The windfall profit tax relief added to the Senate bill in conference will entirely go to independent producers and royalty owners. They are not big oil. Independent producers are generally little oil. The relief for independents applies only to marginal wells producing less than 10 barrels per day.

In Kansas the average well produces only 3.3 barrels per day. These wells did not benefit from decontrol since stripper oil had long been exempt from price controls.

Thus, these wells received no so-called windfall from President Carter's decision to decontrol the price of crude oil and it should never have been subject to the windfall profit tax. Imposing an additional tax burden on economically marginal strippers just accelerates the premature abandonment of wells that collectively play an important role in our effort to produce more oil here in the United States.

Royalty owners likewise should never have been subject to windfall profit tax. There are about 2 million royalty owners throughout the United States. These are typically little people—farmers, ranchers, retired people. These are not the giant oil companies at which this tax was supposed to be aimed. How can anyone justify imposing a windfall profit tax on an 80-year-old widow who depends on her royalty checks to buy food, clothing, and pay her rent.

In my view, if we have any windfall profit tax at all, it should apply only to the big producers and not to little people or even to middle-class families. The royalty owner provisions in the conference report accomplish this objective.

ROYALTY OWNER RELIEF

The windfall profit tax has worked an unconscionable hardship on the approximately 2 million small royalty owners throughout the country. There are royalty owners in literally every State of the United States.

The vast majority of royalty owners are retired persons who depend on royalty checks to supplement their social security checks and farmers, who are currently hard pressed by low farm prices and high interest rates.

On May 23, 1980, the Finance Committee held field hearings on the royal-ty owner issue in Oklahoma City and Great Bend, Kans. Nearly 4,000 angry royalty owners turned out to those hearings.

Over 50 percent of the people who attended these field hearings identified themselves as being retired and approximately 75 to 80 percent identified themselves as farmers.

How can anyone justify taxing away 36 percent of the income on 80-year-old retired couples who have not had sufficient income to pay income taxes in years?

The royalty owners were almost completely ignored during the consideration of the windfall profit tax. Unlike the major oil companies or the independents, royalty owners had no Washington lobbyists or even any national organizations to plead their case.

Mr. President, I ask unanimous consent to have printed in the Record a letter I have received from a constituent, together with an attached article.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STOCKTON, KANS., May 1, 1980.

Senator Bob Dole: I'm writing this letter to you in regard to "Windfall Profits Tax." Now I am a widow trying to get along on my S.S., which is \$239. I am 76 years old and get a small oil check and in my last check the "Permian" Corporation, in Houston, Tex, held \$81.00 WPT out of my check, which is very unfair to us consumers. Every day you see the big profits the oil companies are getting. What good is the tax if they are putting it all on consumers. The Rooks Co. people are up in arms about this matter.

people are up in arms about this matter. I am the mother of Georgia (Guthrie) Penner and Les her husband, which have been Dole supporters.

I pay \$17.31 for Blue Cross and Blue Shield per month, \$9.40 for Medicare and they are not paying what most Dr's, and Hospitals are charging, they are really ripping us off. I have spent over \$500 for prescriptions, let alone over the counter medicine, have to drive to Hays for medicine and medical treatments.

Please make President Carter read this.

Sincerely,

EULA M. GUTHRIE.

THE WINDFALL PROFIT PINCH (By Scott Seirer)

PLAINVILLE.—Henry Desaire looks nothing like an oil baron. He's a Plainville painter. Paint spots his clothing; white paint hasn't washed completely from his hands.

Yes Desaire, who owns a fraction of four Rooks County oil wells pumping a tiny amount of black gold, has been swept up into the same oil windfall profits tax dustpan as oil biggles such as Exxon, Texaco and Mobil.

He felt the blow of the tax for the first time last week when his oil royalty check arrived in the mail. About 34 percent of that check had been eaten by the tax that Carter signed into law April 2, becoming effective retroactively on March 1

retroactively on March 1.

"It about floored me," said Desaire. "I don't think anybody realized this was going to happen—that the small royalty owner would be chopped. How can anybody come along and take 34 percent of anything from you?"

Desaire isn't alone in his anger. He's one of a legion of some 150,000 Kansans who own oll royalty rights. Those rights belong to the landowner, who traditionally receive one-eighth of the production of a well pumping on his property. The royalty rights can be sold, given away or divided among heirs. Desaire received his royalty rights from his father in the form of Christmas gifts.

The effects of the windfall tax became apparent to Desaire and others when the monthly royalty checks arrived, as is traditional, soon after the 20th of the month.

"A lot of them (landowners) were not aware of this," said Joe Hess of Dreiling Oil Company, Victoria. They were aware of the windfall profits legislation, he added, "but they thought (lawmakers) were talking about the major oil companies."

Royalty owners are being surprised.

"They treated the royalty owner terribly." Hess said of lawmakers. "They treated him just like a major oil company."

The windfall profits tax is a complex maze that spans three classes of oil, two classes of oil producers and numerous tax rates.

The "windfall" is the difference between a fluctuating "base price" of oil and the market price, which has been decontrolled by the government and allowed to escalate. In March, the base price was computed to be about \$16.50 a barrel; the market price was about \$39. The windfall tax, therefore, is levied on the difference, about \$22.50.

There are, Hess explains, three "tiers" of

There are, Hess explains, three "tiers" of oil. The tax is most severe in tier one, which includes oil from wells in production before 1979. On these wells, major oil companies and the royalty owners must fork over 70 percent of the "windfall."

Independent oil companies, those drawing fewer than 1,000 barrels per day from their various wells, are given a windfall tax break. They must fork over only 50 percent of the "windfall."

The oil companies suffer less of a windfall bite, Hess explained, because they bear the cost of maintaining the well and its location; the royalty owner has no expenses.

Most of Kansas oil falls into the second tier, Hess said. This tier gives special consideration to wells producing fewer than 10 barrels per day—socalled stripper wells. Desaire's Rooks County wells fall into this category.

For these wells, major oil companies and royalty owners such as Desaire must surrender 60 percent of the windfall in the name of the tax. Independent oil companies give up 30 percent of the windfall.

Tier three recognizes new oil wells, put into production after Jan. 1, 1979. In this tier, the tax for all parties is 30 percent of the windfall.

Desaire is disgusted that he's shouldering the windfall burden with the likes of Big Oil. He sees the skyrocketing profits of the large companies as the catalyst of the legislation that is taxing him.

"Everybody got emotional and said 'Boy, look at these oil companies.' And sure. Exxon reports that profits are up 104 percent for the quarter. But they're not the ones who stand to lose anything."

As the owner of the royalty rights, Desaire insists that his oil should be marketed at the price set by free enterprise. Even with the windfall tax, of course, his oil checks are on the increase.

"Where's my windfall. I live in one of the oldest houses in Plainville."

The windfall profits taxes, Desaire contends, will siphon money from Kansas to fund social programs in the urban areas.

"I wouldn't mind helping (poor people) heat their homes with this because to me it's a gift from God," Desaire said. He fears, though, that the menu of social welfare is becoming so vast the work incentive is lost.

Too many poor people are poor because they have a distaste for work, he said. "No amount of money I could give them would help them."

"I'll admit, some people are born to poverty and there's nothing they can do about it—I saw Coal Miner's Daughter (a movie)."

Desaire, oil royalty owner that he is, doesn't count his family of six, including a set of infant twins, among the wealthy.

He says his income, derived from painting jobs as well as oil royalties, is only slightly higher than the government's poverty level for a family of six, which is \$8,900.

for a family of six, which is \$8,900.

"There is nobody around here getting filthy rich off their oil checks," he said. "I don't think we have anybody in Plainville flying off and putting their money in a Swiss bank."

The oil checks Desaire receives are spent on such mundane projects as kitchen remodeling and repairs to his pickup. He demonstrates by pointing to a pair of occasional chairs and other furniture.

"Our oil check bought those two chairs right there—and that chair you're sitting on and that used couch.

With oil income being siphoned from the area economy, Plainville merchants will suffer, he predicts.

fer, he predicts.

Banker Paul VanDyke of the Plainville State Bank agrees. Because oil is big business in Rooks County, the tax "will make a lot of difference in this community."

VanDyke noticed many unhappy depositors in his bank last week when they carried their oil checks to the teller's windows.

Many royalty owners in Plainville, he said, rely on their oil checks to help them meet the cost of living, "All at once a third of (their oil income) is gone and they're going to have a hard time making it. I think it's unfortunate."

Don Schnake, Wichita, executive vicepresident of the Kansas Independent Oil and Gas Producers Association, says the tax will take some \$400 million from the pockets of Kansans every year.

Kansans every year.
"That's an awfully big bite for a small state that's trying to stay in the oil business."

Hays oilman Steve Pratt, in business with his father, Don, an oil developer, doesn't doubt that the economic impact will be severe.

"It's a blow to our economy that we just don't need right now," he said, noting that cattle and wheat prices have fallen substantially in recent weeks.

Pratt calls the windfall tax a national ripoff tax. It was designed to tax the big oil companies can recoup some of that at the gas pumps. The land owner has no recourse. He's losing an asset under his ground and it'll never be there again.

"I don't mean to make a speech but the people who can least afford it are being taxed the most. It's going to be awfully tough on a lot of people."

Besides that, Pratt says the tax alters the economics of keeping low producing wells pumping.

An oil company is exposed to considerable costs, including maintenance of the well, maintenance of roads to lease sites and the ever-higher costs of fuel to power the pumps. Wells producing less than five barrels per day, he said, are operating dangerously close to the break-even point.

"We're going to have to take a long, hard look at these," he said. Some may be shut down, even though the operator can receive a windfall profit rebate if his well loses money, (The royalty owner wouldn't receive such a rebate, though.)

Desaire fears his wells may be among those shut down. "I think mine might fall into that category because they are very marginal."

None of his four wells pump more than five barrels per day. Often one or more of the wells are shut down for repairs of one kind or another. "I've never been out there when all four of them were pumping," he said.

Desaire's wells are operated by a tiny independent oil company formed with the partnership of two Denver men. They're not to be confused with big oil, he says.

"These little independent oil companies, if something goes wrong (with the well) they have to wait until they get an oil check before they can fix it."

Mr. DOLE. Mr. President, there is an error in the Statement of Managers. On page 271 item 86 is the provision for charitable contributions by corporations. The statement says that the House provision prevailed. This is not correct. The House actually receded to the Senate.

Under present law, a corporation's deduction for charitable contributions may not exceed 5 percent of its taxable income. The conference bill increases

the limitation on a corporation's charitable contributions deduction to 10 per-cent of taxable income. The provision is effective for taxable years beginning after December 31, 1981

The statute is correct, however.

The President, this Senator is one who thinks that windfall profits tax relief for royalty owners is long overdue. Thus I applaud the conference committee's decision to provide a permanent windfall profit tax exemption for royalty owners beginning in 1982. Under the conference bill, qualified royalty owners will be exempt on two barrels per day of royalty interest in 1982, 1983, and 1984 and on three barrels per day after 1984.

Mr. President, I would like to clarify one point about the royalty owner relief. During our discussions of royalty owner relief during the conference there was some indication that the Treasury Department would find it somewhat easier to administer an exemption that was stated in terms of dollars, rather than

in terms of barrels.

It was the intention of this Senator and those other Senators who fashioned this compromise proposal that the Treasury Department should be authorized by regulation to translate the barrel exemption into an equivalant dollar figure for administrative purposes. This would presumably be done on an annual or quarterly basis and would involve different dollar figures for each tier of oil

I think it is appropriate that the Treasury and the IRS should have this authority to insure the most efficient

functioning of this relief.

Mr. LONG. Mr. President, I appreciate the remarks of the Senator from Kansas. I share his view of what was intended and I think it should be made clear that the Treasury Department has the authority indicated to effectively administer the provisions.

Mr. President, the bill allows taxpayers who do not itemize their deductions to deduct charitable contributions. It is my understanding that these contributions will be subject to the substantiation requirements now contained in the regulations pertaining to charitable contributions and that the conferees intended that the Secretary may modify these regulations and prescribe additional requirements for the substantiation of above-the-line charitable deductions.

Is that correct?

Mr. DOLE. Yes, it is. Mr. LONG. Under the provision of the bill relating to section 483, certain deferred-payment sales of land between related parties, described in section 483 (g), will be subject to a special imputed interest rate. The maximum rate of imputed interest under section 483(b) will be 7 percent, compounded semiannually. for sales qualifying under new section 483(g)

In effect, this means that, if there is a total unstated interest, within the meaning of section 483(c), then the imputed interest rate provided in the regulations will be no greater than 7 percent, compounded semiannually.

However, the bill does not seem to specify what rate would be used as a test rate to determine whether, under section 483(c), there is total unstated interest.
Mr. DOLE. We anticipate that the

Internal Revenue Service will provide by regulation that, for sales of land between related parties qualifying for the maximum 7 percent imputed interest rate under new section 483(g), the test rate will be 6 percent simple interest.

Mr. MATSUNAGA. Mr. President, I should like to address a question to the distinguished chairman of the Finance Committee, Senator Dole, and to the ranking minority member of the commit-

tee, Senator Long.

During the Senate debate on the Finance Committee reported tax bill, on July 23, 1981, the distinguished chairman of the committee, Senator Dole, was kind enough to explain to me the committee's intention with regard to the income tax withholding provisions in the bill. He stated that the provisions contemplated prompt Treasury implementation to allow adjustment of withholding to prevent overwithholding of income tax.

Do the withholding provisions in the conference report have the same legisla-

tive intent?

Mr. DOLE. My response to the Senator from Hawaii is "Yes."

Mr. MATSUNAGA. Does the Senator from Louisiana (Mr. Long) agree with the response of the committee chairman?

Mr. LONG. Yes, I do.

Mr. President, we have had a good debate here. There has been a great deal of talk about \$33 billion. That is over a 10year period. We have never talked about a 10-year period on anything until the Senator from Massachusetts put out his press release. We have been talking about 5 years.

If you talk about a 10-year impact of this bill, it is between \$2 and \$3 trillion. So let us take this \$33 billion figure and compare it to \$2 or \$3 trillion, and it indicates that it is not very substantial. Much of that \$33 billion was never in conference, I say to the Senator from Massachusetts.

Mr. President, I shall ask unanimous consent to have printed in the RECORD a story in yesterday's New York Times about oil activity in New England, Vermont, New York, and those States that do not seem to want us to produce any more. They are going to have an opportunity to produce some of their own. It is referred to as "Oil Treasure Hunt Begins in New York State." It is not only New York State but the eastern overthrust belt.

Maybe they can help out in that part of the country and not have all this rhetoric about oil companies.

Mr. President, I ask unanimous consent to have that article printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD. as follows:

OIL TREASURE HUNT BEGINS IN NEW YORK STATE

(By Richard D. Lyons)

FORT ANN, N.Y.-Visions of oil wealth are wafting across the counties along the upper Hudson River and Lake Champlain.

Agents for oil and gas companies are comb-

ing the hilly region, leasing the mineral rights of farmers; seismologists are taking soundings of the rock strata, and geologists are estimating that the chances of finding least natural gas rising as more of the underground structure is mapped.

'It really is incredible to find a classic exploration play for oil and gas here in the Hudson Valley," said Henry B. Bailey of the

State Geological Survey

While some experts doubt that drilling in this area will be productive, legislation awaiting Governor Carey's signature would add 20 engineers and environmental specialists to the state agency regulating oil and gas production. The staff now numbers only

"It's a multibillion-dollar treasure hunt," said Harry Fairbanks, one of the leasing agents for Columbia Gas Transmission Company, a major national retailer of natural

The optimism extends beyond the Hudson River Valley, where Columbia Gas has leased the mineral rights on 300,000 acres in Albany. Rensselaer, Saratoga and Warren Counties, as well as here in Washington County. Many other acres are being leased by intermediaries, state officials say, making it possible for companies to conceal their interests in the region.

On the Vermont side of the state line a dozen miles east of here, as many as a million acres have been leased for mineral rights in the five counties that border New York and extend northward to the Quebec border. In addition, several companies, including the Ohio Oil and Gas Company, have leased acreage this year near the New York border.

Geologic surveys that led to handsome oil and gas production over the last 20 years in nearby Quebec and Ontario have led scientists to conclude that there should be amounts in commercial quantity south of the border, certainly in natural gas and perhaps in oil as well.

With demands and prices for natural gas rising, particularly in the Northeast, as price controls are lifted, the economic potential is

thought to be enormous.

Most of the new excitement has been generated by recent geologic discoveries along what are called overthrust belts, that is, areas in which one thick rock layer has been shoved atop another by mighty pressures within the earth's crust, masking the identity-and thus the economic potential-of the lower layer.

SEARCH PAYING OFF

Enormous quantities of oil and gas have been found over the last decade in the Western Overthrust Belt along the Rocky Mountains, while the hunt in the Eastern Overthrust Belt along the Appalachians is just beginning to pay off in some southern areas.

The Eastern belt snakes northward through New Jersey, where no major leasing activity has been reported, up the Hudson Valley and the New York-Vermont border, envelopes Lake Champlain and its shores. and finally thins out in Quebec.

"The center of the overthrust belt goes right through my farm," said Dick McGuire

of Salem, N.Y.

Mr. McGuire, who is president of the State Farm Bureau Federation, said the Farm Bureau had worked with the various oil and gas companies in drafting the model lease now in use, which gives farmers \$1 per acre per year for 10 years, plus a royalty of oneeighth of any oil and gas produced, as as lesser considerations.

Dr. John Matochik, a Washington County neighbor and veterinarian, said he believed that "the prospects for finding something around here are very good," and continued:

"A lot of people are optimistic, but many of the farmers in the county have refused to sign because they don't want to be obligated to doing something they might later regret."

For one farmer, however, the reason for not signing was totally different.

"The oil companies have the country by the throat, and I for one won't play along with them," said Ralph Tilford, 69, of Kingsbury.

NEIGHBOR NEEDS MONEY

Yet a neighbor, Larry White, 32, is happy to lease the mineral rights to his 400-acre dairy farm.

"I hope the companies do strike oil or gas," Mr. White said. "Even though I intend to stay in farming, I could use the extra money what with having four children."

The prospect of extra income is also the main reason this part of New York is being explored at all. Here, as elsewhere throughout the country, areas previously held to be of only marginal interest in oil and gas production are coming under increased scrutiny.

The American side of Lake Erie, for example, is believed to contain 300 billion cubic feet of natural gas on the basis of production on the Canadian side of 20 million cubic feet a day. Even though the cost of drilling is higher than on land, interest has increased lately as the price of natural gas has risen.

"The gas is there and it will be recovered," said Stanley F. Kiersznowski, a petroleum engineer with the State Department of Environmental Conservation.

Mr. Klersznowski noted that the number of permits to drill oil and gas wells in New York State had risen from about 500 in 1978 to almost 900 last year. That increase mirrors an increase in drilling activity throughout the country.

Indeed, while for years the number of new gas wells had averaged 20 or so a year, in 1974, the year the Arab oil embargo ended, the number shot to 250. It has since continued to rise, reaching 450 last year, while gas production has risen tenfold in 20 years, to 15.7 billion cubic feet last year.

He estimated that this amount would triple by the end of the decade because of the combination of greater demand, higher price and new discoveries.

MODEL DRAWN IN 1974

Richard Beardsley, who is in charge of the exploration activities here for Columbia Gas, and others said the initial idea that commercial quantities of oil and gas might be present stemmed from a geological model drawn in 1974 by Dr. Brian Keith and Dr. Gerald Friedman of Rensselaer Polytechnic Institute in Troy. It forecast the presence of formations containing hydrocarbons beneath the overthrust stratum.

Shortly afterward, outcrops of 450-million-year-old limestone were found on North Hero and South Hero islands in Lake Champlain several miles from the junction of New York, Vermont and Quebec. The finding was significant since oil and gas had been produced from these limestones in Quebec.

And just as important was the development in the last few years of computer-assisted methods of interpretation of seismic data that make subsurface mapping much more accurate than it had been in the past.

The combination of these findings and new technology has, according to specialists, substantially increased the chances of finding oil and gas in this region. Columbia Gas is investing about \$10 million in the search and plans to drill an exploratory well next year.

Two earlier efforts, in Orange County, N.Y., in 1978, and in Franklin County, Vt., in 1964, found only small amounts of hydrocarbons.

Few specialists are willing to predict when or if a gas or oil field will be found in this area, but many agree with Mr. Beardsley.

"My job is optimism," he said.

Mr. DOLE. Mr. President, I close by suggesting that what we had is one of the best media events I have ever participated in. A lot of people showed up and took notes and a lot of Senators are going to have a chance to vote on this very important issue.

I am certain there will be some votes for the motion, and I am going to permit that we have an up and down vote so it will be totally above board, with no motion to table, just an up and down vote on the motion to recommit.

There are no dollar figures in the motion to recommit. "Just be fair," it said in the motion to recommit.

I think we have been fair, and I hope my colleagues will support the Finance Committee and the Senate and defeat this motion resoundingly.

The PRESIDING OFFICER. All time has expired.

Mr. KENNEDY. Mr. President, a parliamentary inquiry.

The PRESIDING OFFICER. The Senator will state it.

Mr. KENNEDY. Do I not have 6 seconds remaining?

The PRESIDING OFFICER. The Senator is correct. The Senator has 6 seconds remaining.

Mr. KENNEDY. Mr. President, the issue is not the President's tax bill. The issue is oil. I say that \$33 billion is too much, and I hope the Senate will vote for my motion which will send the conference back to reduce that figure.

THE CALENDAR

Mr. BAKER. Mr. President, I ask unanimous consent that the distinguished minority leader and I may proceed for 2 minutes to take up certain housekeeping details before we vote on this motion to recommit.

Mr. KENNEDY. Let us have the yeas and navs.

Mr. BAKER. They have been ordered. The PRESIDING OFFICER. The yeas and nays have already been ordered.

Without objection, it is so ordered. Mr. BAKER. Mr. President, I thank all Senators. This will not take but only

Mr. President, I ask the distinguished minority leader if he is in a position to consider two items on the legislative calendar of business for today? I am referring to Calendar Order No. 95, S. 1191, and Calendar Order No. 234, Senate Joint Resolution 65.

Mr. ROBERT C. BYRD. Mr. President, those matters are cleared on this side of the aisle, and I am ready to proceed.

PROCLAIMING RAOUL WALLEN-BERG AS HONORARY CITIZEN OF THE UNITED STATES

The Senate proceeded to consider the joint resolution (S.J. Res. 65) proclaiming Raoul Wallenberg to be an honorary citizen of the United States, and requesting the President to ascertain from the Soviet Union the whereabouts of Raoul Wallenberg and to secure his return to freedom.

• Mr. BOSCHWITZ. Mr. President, today the Senate is considering a resolution to honor and aid an extraordinary and courageous man, Raoul Wallenberg, a Swedish diplomat who saved thousands of people from death during World War II. I am proud to be one of the original cosponsors of Senate Joint Resolution 65, to grant honorary citizenship to this man. A similar resolution, House Joint Resolution 220, is pending in the House.

As one of the original members of the "Free Raoul Wallenberg" Committee, I have long been concerned about Mr. Wallenberg, one of the few genuine heros of our time. Last year, I cosponsored Senate Concurrent Resolution 117.

This resolution, approved overwhelmingly in both the House and Senate, expressed the sense of Congress that the President should convey to the Soviet Government the deep concern of Congress and the American people for the fate of Raoul Wallenberg.

Raoul Wallenberg saved as many as 100,000 Hungarian Jews by extending Swedish citizenship and protection to these victims of Nazi persecution. Daily, this incomparable humanitarian showed impressive bravery and ingenuity as he faced Nazi soldiers and death squads to save thousands of prisoners, people who were unrelated to him by birth or ethnic group or citizenship or religion.

He followed the death marches and went to the deportation trains in Hungary. There he literally pulled people out of the clutches of the Nazis, consistently endangering his own life.

In 1945, when the Russian Army occupied Budapest, they arrested Wallenberg. For 12 years, the Soviet disclaimed any knowledge of his existence.

Finally, in 1952 Soviet authorities said he was dead. Despite these official Soviet statements, numerous former Russian prisoners claim that they have seen or spoken with Wallenberg during the past 36 years. As recently as January of this year, witnesses reported having seen Wallenberg alive.

In addition to honoring this self-sacrificing individual, the resolution will give our State Department additional diblomatic leverage to pursue the case of this heroic prisoner. We must continue in our efforts to emphasize to the Soviets our commitment to Wallenberg's survival. We hope that the Soviet Government will take notice of our deep concern, reexamine the situation and conduct a thorough search for Wallenberg.

During World War II, at a time when people were paralyzed by fear, Raoul Wallenberg rescued thousands by conferring Swedish citizenship upon them. What he accomplished, risking his own life to save the lives of tens of thousands of innocent people, is unparalleled in history.

It is only appropriate to confer honorary U.S. citizenship upon him, both as part of the effort to secure for him the same life and liberty he brought to so many others, and to honor this great individual. Only once before has Congress taken such an action. In 1916, we honored Winston Churchill for his unique contribution to preserve free societies.

I am confident that the Senate will join in this resolution, thus, granting to Mr. Wallenberg the high and unique honor of honorary U.S. citizenship and demonstrating that the strong bonds of human spirit transcend race, religion, and nationality.

Mr. PROXMIRE. Mr. President, I am pleased to support Senate Joint Resolution 65 to make Raoul Wallenberg an honorary citizen of the United States of America and to seek his status in the Soviet Union.

I hardly need to recall the dramatic story of Raoul Wallenberg. It has been repeated in magazines, in books, and on the CBS documentary program "60 Minutes." Again and again America has heard the story of the noble Swedish citizen who over the course of years risked his life in an effort to save as many Jews as he humanly could from the awful fate that awaited them as victims of Nazi persecution, forced labor and death camps.

Raoul Wallenberg didn't hesitate to do all he possibly could in this noble cause. Can we now hesitate to take action that may well save him further agony as a man lost in the maze of the Soviet prison system? Across the world, individuals and organizations have called for any action that might spur the Soviet Union to forward an investigation into his whereabouts.

We have heard on many separate occasions from the victims of Soviet camps who had known Wallenberg in his work in Germany. These men and women swear that they without a doubt recognized Wallenberg's face during their time in the U.S.S.R. The evidence is sketchy, but it is possible that Raoul Wallenberg may still be alive somewhere in Russia.

If this Senate agrees to make Wallenberg an honorary citizen, there is the further possibility that the request of an American President would mean that the long and troubled story of Raoul Wallenberg might come to light, and, perhaps, that Wallenberg might be at long last freed.

Mr. President, this great man whom we honor, this man who saved almost 100,000 innocent men, women, and children, who was not afraid to risk even his life, provides a very high standard as we look at our own accomplishments.

While our duties may not demand heroism, we do have the responsibility to accomplish legislatively what Raoul Wallenberg did through his action.

We can demonstrate to the world our dedication to the right of a man and of a people to life. Let us follow the passage of this resolution with the swift consideration and passage of the Genocide Treaty.

• Mr. PELL. Mr. President, I am very pleased that the Senate is about to pass Senate Joint Resolution 65, proclaiming Raoul Wallenberg to be an honorary citizen of the United States and requesting the President to ascertain from the Soviet Union the whereabouts of Raoul Wallenberg and to secure his return to freedom. A Swedish citizen, Wallenberg went to Hungary during World War II at the behest of the U.S. Government and,

ignoring the constant danger to himself, courageously saved the lives of an estimated 100,000 innocent people who had been marked for death by the Nazis.

In the spring of 1944, the United States requested the help of Sweden in protecting the lives of Hungarian Jews facing extermination at the hands of the Nazis. Specifically, the United States suggested that the number of Swedish diplomatic and consular officials in Hungary be increased to deal with this situation. Such personnel would receive instructions and financial support from the U.S. War Refugee Board, arrangements to be handled through Iver Olsen, the Board's official representative in Sweden.

Raoul Wallenberg, a young Swedish businessman who had been educated in the United States, volunteered to undertake this perilous assignment for the War Refugee Board, and in the summer of 1944, Wallenberg was sent to Hungary as the Secretary of the Swedish Legation.

With funds provided by the War Refugee Board, Wallenberg began his efforts to save Hungarian Jews from deportation to the death camps or violent deaths in the ghetto of Budapest. He printed and issued thousands of Swedish protective passports of his own design. He purchased and rented scores of houses in Budapest, equipped them with Swedish flags and declared them to be Swedish Embassy property, and protected and cared for the refugees he gathered within these safe houses.

Risking his own life time and time again, Wallenberg followed the death marches and went daily to the deportation trains where he literally pulled people out of the clutches of the Nazis. And, when the Nazis decided to blow up the ghetto in Budapest and all its inhabitants with it, Wallenberg confronted the Nazis leaders, threatened to see to it personally that they were hanged as war criminals if they proceeded with their plan, and thus prevented its execution. Altogether, it is estimated that Raoul Wallenberg save the lives of 100,000 innocent people in Hungary during World War II. Among those saved through Wallenberg's efforts were Congressman Tom LANTOS and his wife .

In January 1945, Raoul Wallenberg was seized in Hungary by Russian authorities in direct violation of his diplomatic immunity. At first the Soviets said they had taken him into protective custody. A few months later, however, they denied any knowledge of him or his fate. But over the years evidence mounted that the Soviets were holding Wallenberg prisoner. Former inmates of Soviet prisons who were released and escaped from the Soviet Union reported talking to or hearing about Raoul Wallenberg. Finally, in 1957 Soviet authorities acknowledged that Wallenberg had been taken prisoner in 1945, but they claimed that he died of a heart attack while in a Soviet prison in 1947.

More recent reports from within the Soviet Union, however, indicate that Wallenberg might still have been alive as recently as a few years ago. In 1975 a Soviet Jew named Jan Kaplan was arrested on charges of black marketeering shortly after applying for an exit visa to

Israel. When he was freed 18 months later for health reasons, he called his daughter in Israel, and in the course of the conversation he mentioned a Swede he had met in prison who had been held by the Russians for some 30 years. Kaplan was then rearrested, and his daughter heard nothing further until July 1979, when her mother smuggled out a letter explaining that Kaplan had been rearrested because he had mentioned "a Swiss or Swede named Wallberg" whom he had met in the prison infirmary.

Mr. President, I have long had a special interest in Hungary and the Raoul Wallenberg case. My father was the U.S. Minister to Hungary just prior to World War II, and later, after serving as the U.S. Representative to the United Nations War Crimes Commission, he was responsible for the State Department reversing itself and agreeing that genocide would be considered a war crime. I, myself served as vice president of the International Rescue Committee and was responsible for the IRC's refugee relief effort in Europe following the Hungarian uprising in 1956.

Two years ago, Senators Boschwitz, Church, Moynihan and I founded the Free Eaoul Wallenberg Committee, and last year, along with those same distinguished colleagues, I sponsored Senate Concurrent Resolution 117, expressing the sense of Congress that the President should convey to the Soviet Government the deep concern of Congress and the American people for the fate of Raoul Wallenberg. That resolution was approved overwhelmingly in both the House and the Senate.

At my request, Secretary of State Vance raised this matter with Soviet Ambassador Dobrynin, and Ambassadors Toon and Watson were asked to make similar approaches in Moscow. I also made an appeal on behalf of the Wallenberg family at a press conference in Madrid last year in connection with the review Conference on Security and Cooperation in Europe. Unfortunately, the Soviet Union still refuses to account in a credible manner for the whereabouts and fate of Raoul Wallenberg.

It is true that it has never been the general practice in the United States to award honorary citizenship to foreigners. The only person so honored in the past was Winston Churchill.

Nonetheless, I strongly believe that it is entirely fitting and proper that we honor Raoul Wallenberg in this manner. It must be remembered that Wallenberg undertook his perilous mission and put his own life in jeopardy at the behest of the U.S. Government. His efforts in Hungary were supported and financed by our War Refugee Board. Hence, the United States has a much greater responsibility in this matter than would otherwise be the case. The United States has an obligation to Raoul Wallenberg and his family to try to secure for him the same life and liberty he saved for so many others, and passing this resolution is one real step we can take toward meeting that obligation.

In making Raoul Wallenberg an honorary U.S. citizen, we are not confer-

ring citizenship upon him in any technical sense. Rather, we are giving concrete expression to our gratitude and respect for his heroic actions in saving the lives of 100,000 people. By so doing we will greatly increase his renown as a courageous humanitarian, not only among those whose lives he saved, but among all groups and individuals who value human life and human rights. Moreover, conferring honorary citizenship upon Raoul Wallenberg will underscore the seriousness with which the American people and Government view Soviet behavior in this case, and reaffirm to Sweden our firm support for the quest to resolve Wallenberg's fate.

Before closing, Mr. President, I would like to thank all of my colleagues who have joined with me in supporting this legislation. The resolution now has 58 cosponsors in the Senate, and 275 in the House. I would also like to acknowledge the tremendous effort put forth on behalf of this measure by Congressman Tom Lantos and his wife Annette, both of whom were saved in Hungary as a result of Raoul Wallenberg's actions. They more than anyone else have kept this matter alive, refusing to let Raoul Wallenberg's name slide quietly into the history books with his ultimate fate still unresolved. They have been our conscience in this case, and for that we all owe them our gratitude.

• Mr. BIDEN. Mr. President, I am pleased to speak in behalf of granting Raoul Wallenberg honorary U.S. citizenship. The fact that the resolution is cosponsored by over half of the U.S. Senate attests to the significance of this legislation.

Because of the systematic mass murders and organized brutality by the Nazi regime, President Franklin Roosevelt on January 22, 1944, established, by Executve order, the War Refugee Board. The Board's purpose was to rescue innocent victims of Nazi persecutions.

Raoul Wallenberg, a Swedish businessman volunteered to undertake this dangerous assignment. Wallenberg was sent to Hungary as the Secretary of the Swedish Legation. There he printed and issued thousands of Swedish passports. In Budapest he purchased houses and declared them property of the Swedish Embassy. Wallenberg daily risked his own life by defying Nazi troops as he marched along the Danube River where Hungarian Jews were lined up for deportation trains.

He saved the Hungarians' lives by giving them cards designating them as having diplomatic immunity. Congressman Tom Lawros and his wife Annette were two of the people Wallenberg pulled out of the line. It is estimated that Wallenberg saved the lives of over 100,000 Hungarian Jews.

When the Nazis threatened to blow up the ghetto in Budapest, Wallenberg again confronted the Nazis and threatened that they would be hung as war criminals if Budapest was bombed.

In January 1945 Wallenberg was seized by Russian authorities. This was in direct violation of his diplomatic immunity. It was first thought that the Soviets had taken him into protective custody. Later the Soviets denied any

knowledge of him. Recent reports from Soviet prisoners indicate that Wallenberg might still be alive as recently as a few years ago.

Granting Raoul Wallenberg honorary citizenship will underscore the seriousness the American Government and people view Soviet behavior in this case. Honoring Wallenberg will greatly increase his renown as a courageous humanitarian not only among those whose lives he saved, but among all individuals who value human life and human rights. Honorary citizenship will also reaffirm to the Government of Sweden that the United States offers great moral support in the quest to determine Wallenberg's fate.

Conferring honorary citizenship on Raoul Wallenberg will not give the United States any new legal right, duty, or privilege under international law. Nor will the Soviet Union be brought under any additional legal obligation by treaty, international covenant or act to respond to U.S. inquiries regarding Wallenberg.

I realize the importance and significance of granting U.S. citizenship. It has only been done on one occasion in more than 200 years. In 1963, President John F. Kennedy, exercising the authority granted to him by the 88th Congress (Public Law 88-6) proclaimed Winston Churchill to be an honorary U.S. citizen.

There are many people who have helped save innocent victims of the Holocaust, but there are no others who can be so readily and conclusively identified by so many survivors as the single reason they are alive today. Because of his courageous and successful efforts to save Hungarian Jews from the Holocaust, I believe that Raoul Wallenberg is an exemplary world citizen and that he should be granted honorary U.S. citizenship.

Mr. LEVIN. Mr. President, I am proud

• Mr. LEVIN. Mr. President, I am proud to speak on behalf of Senate Joint Resolution 65, granting Raoul Wallenberg honorary U.S. citizenship.

Raoul Wallenberg was a bright light in modern history's darkest hour. A Christian Swede who graduated from the University of Michigan's architectural program in 1935, his life was one of gentility and refinement. Yet, he risked his life to deliver tens of thousands of Hungarian Jews from the throes of Nazi genocide during the final months of World War II, on a mission financed by the American War Refuge Board.

He set an example that few have followed, or perhaps, could follow. His life, once as orderly as the buildings he designed, became a jagged line of dashes and danger. In 1944 Wallenberg accepted the assignment of first secretary of the Swedish Legation in Budapest, Hungary, in charge of a special department responsible for the protection and relief of Jews. Arriving in the city in July, Wallenberg worked heroically at his task for the next 7 months. He had the measure of good will, decency and courage, skills and means, and a fertile imagination.

Raoul Wallenberg issued thousands of protective passports of his own elaborate design, complete with official seals and the triple crown insignia of Sweden. In addition, he rented 32 apartment houses, raised the Swedish flag over them and

used them as safe houses for the sheltering of Jews who were constantly in danger of their lives.

Working around the clock, he built up a city-wide relief organization of hospitals, nurseries, and soup kitchens, staffing these institutions with 400 Jews. Negotiating directly with the S.S. and the Hungarian authorities, he prevented the deportation of thousands of Jews. On more than one occasion he went down to the railroad station, and under the rifles of the S.S., took refugees out of the cattle cars. He even organized an undercover group of young Jews, who raided Nazi prisons and released Jews held in custody.

Heedless of the personal danger to himself, Wallenberg personally engineered and aided in the rescue and escape of tens of thousands of Hungarian Jews. In 1945, following the Russian occupation of Budapest at the close of World War II, Raoul Gustaf Wallenberg disappeared. He disappeared on his way to meet with the "liberating" Russian forces. At first the Soviets denied knowing anything about his whereabouts. Then, years later, they admitted he had been taken prisoner but had died in 1947—of a heart attack at age 36—in a Soviet prison.

However, clear and persuasive reports persist from within the Soviet Union that Wallenberg has been seen alive long after 1947. The most recent of these reports being just a few years ago. He may still be alive today.

Mr. President, Roaul Wallenberg saved nearly 100,000 lives at the behest of the American War Refugee Board. By granting him honorary U.S. citizenship we may in fact save his life. We can at least show our appreciation and dedication to the principles he donated his life for. Our greatest gift, U.S. citizenship, is our fitting response to Roaul Wallenberg, a citizen of whom the whole world can be proud.

The joint resolution was considered, read the third time, and passed.

The amendment to the preamble was agreed to.

The preamble, as amended, was agreed

The joint resolution (S.J. Res. 65), and the preamble, as amended, are as follows:

S.J. RES. 65

Whereas the United States has conferred honorary citizenship on only one occasion in its more than two hundred years, and honorary citizenship is and should remain an extraordinary honor not lightly conferred nor frequently granted;

frequently granted;
Whereas during World War II the United
States was at war with Hungary, and had no
diplomatic relations with that country;

Whereas in 1944 the United States Government through Secretary of State Cordell Hull requested the cooperation of Sweden, as a neutral nation, in protecting the lives of Hungarian Jews facing extermination at the hands of the Nazis;

Whereas Raoul Wallenberg agreed to act at the behest of the United States in Hungary, and went to Hungary in the summer of 1944 as Secretary of the Swedish Legation; Whereas Raoul Wallenberg, with extraordinary courage and with total disregard for

Whereas Raoul Wallenberg, with extraordinary courage and with total disregard for the constant danger to himself, saved the lives of almost one hundred thousand innocent men, women, and children; Whereas Raoul Wallenberg, with funds and directives supplied by the United States, provided food, shelter, and medical care to those

whom he had rescued;

Whereas the Soviet Union, in violation of Wallenberg's Swedish diplomatic immunity and of international law, seized him on January 17, 1945, with no explanation ever given for his detention and subsequent imprisonment:

Whereas Raoul Wallenberg has been a prisoner in the Soviet Union since 1945;

Whereas reports from former prisoners in the Soviet Union, as recent as January 1981, suggest that Raoul Wallenberg is alive;

Whereas history has revealed that heroic acts of salvation were tragically rare during the massacre of millions of innocent human

beings during World War II; and

Whereas the significance of this symbol of man's concern for his fellow man has been tainted by the wall of silence that surrounds the fate of Wallenberg: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America

in Congress assembled,

SECTION 1. Raoul Wallenberg is proclaimed to be an honorary citizen of the United States of America.

SEC. 2. The President is requested to take all possible steps to ascertain from the Soviet Union the whereabouts of Raoul Wallenberg and to secure his return to freedom.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the joint resolution was passed.

Mr. ROBERT C. BYRD. Mr. President, I move to lay that motion on the table. The motion to lay on the table was agreed to.

REIMBURSEMENT FOR U.S. FISHERMEN

The bill (S. 1191) to extend for 1 year the authority of the Secretary of Commerce to reimburse commercial fishermen of the United States for certain losses incurred as a result of the seizure of their vessels by foreign nations, was considered, ordered to be engrossed for a third reading, read the third time, and passed, as follows:

S. 1191

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 7 of the Fishermen's Protective Act of 1967

(22 U.S.C. 1977) is amended—
(1) in subsection (c) by inserting the following new sentence immediately after the fourth sentence thereof: "Those fees not currently needed for payments under this section shall be kept on deposit or invested in obligations of, or guaranteed by, the United States, and all revenues accruing from such deposits or investments shall be credited to such separate account.": and

credited to such separate account."; and
(2) in subsection (e) by striking "October
1, 1981;" and substituting "October 1, 1982;".

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. ROBERT C. BYRD. Mr. President, I move to lay that motion on the table. The motion to lay on the table was agreed to.

AUTHORIZATION FOR BUDGET COMMITTEE TO FILE REPORT

Mr. BAKER. Mr. President, I ask unanimous consent that the Budget Committee be authorized to file a report until 6 p.m. today.

The PRESIDING OFFICER. Without objection, it is so ordered.

BORROWING AUTHORITY OF THE DISTRICT OF COLUMBIA

Mr. BAKER. Mr. President, I ask that the Chair lay before the Senate a message from the House of Representatives on S. 640.

The PRESIDING OFFICER laid before the Senate the following message from the House of Representatives:

Resolved, That the bill from the Senate (S. 640) entitled "An act to amend the District of Columbia Self-Government and Governmental Reorganization Act with respect to the borrowing authority of the District of Columbia", do pass with the following amendments:

Strike out all after the enacting clause, and insert: That section 723(a) of the District of Columbia Self-Government and Governmental Reorganization Act (D.C. Code, sec. 47–241 note) is amended by striking out "October 1, 1980, or upon enactment of the fiscal year 1981 appropriation Act for the District of Columbia government, whichever is later" in the first sentence and inserting in lieu thereof "October 1, 1982, or the date of the enactment of the appropriation Act for the fiscal year ending September 30, 1983, for the government of the District of Columbia, whichever is later".

Amend the title so as to read: "An act to amend the District of Columbia Self-Government and Governmental Reorganization Act to extend the authority of the Mayor to accept certain interim loans from the United States and to extend the authority of the Secretary of the Treasury to make such loans."

Mr. MATHIAS. Mr. President, will the Senator yield?

Mr. BAKER. I yield to the Senator from Maryland.

Mr. MATHIAS. Mr. President, I express my thanks to the majority leader for bringing up this matter. It is a matter of urgent concern to the District of Columbia, and while it is not perhaps the optimum solution to the District's fiscal problems, it is a practical step that the Senate can take today, and I urge it be adopted.

Mr. BAKER, Mr. President, I move that the Senate concur in the amendments of the House.

The motion was agreed to.

Mr. BAKER. Mr. President, I move to reconsider the vote by which the bill was passed.

Mr. ROBERT C. BYRD, Mr. President, I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER FOR PROVISIONAL RECESS

Mr. BAKER. Mr. President, finally, earlier I asked unanimous consent in respect to recessing of the Senate. I wish to change that request in the following way:

I ask unanimous consent that when the Senate completes its business today it stand in recess until 12 noon on Thursday, August 6, 1981, unless the House of Representatives has previously agreed to Senate Concurrent Resolution 27 or Senate Concurrent Resolution 28.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BAKER. Mr. President, I thank all Senators for permitting us to take care of these details at this time.

CONFERENCE REPORT ON H.R. 4242, ECONOMIC RECOVERY TAX ACT OF 1981

REAL ASSETS IN RETIREMENT PLANS

Mr. HELMS. Mr. President, section 314(b) would restrict the use of certain tangible assets in IRA and Keogh retirement plans.

Under present law, taxpayers can selfdirect their investments, and the Federal prudent man and diversification standards of the Employee Retirement Income Security Act of 1974, are not applicable.

According to one report, the Ways and Means Committee language was adopted in the conference report because—

The committee is concerned that collectibles divert retirement savings from thrift institutions and other traditional investment media and that investments in collectibles do not contribute to productive capital formation.

The upshot is that section 314(b) specifically excludes a wide variety of investments. The action taken by Congress in approving this section of the act will have a major disruptive effect on the pension plans of hundreds of thousands of Americans, and, Mr. President, it will not result in the accomplishment of the stated goals of the section.

It is a fair proposition, I believe, that people should not have any assets in a retirement account, which are basically consumer goods, or household items, or even jewelry. In other words, people should not enjoy the tax benefits afforded IRA and Keogh plans in order to buy a luxury item or something that might be related to a hobby or personal tastes. I understand that some people have even taken to investing in old wine.

I would go along with a proposition that the tax laws should not subsidize personal consumption. The tax laws should not subsidize someone's hobby. But, Mr. President, if an individual believes that it is foolish to put hardearned money into an investment that does not even keep up with inflation, I would say he was an intelligent man. If that individual puts his money in a speculative stock, that might go up or might go down, then he is taking a risk, but it may turn out for the better. If that individual puts his money in gold bullion, then he may be hoping that gold will go up. He has a risk that it might go down in price.

Investing in gold, silver, or other tangible goods takes place because it is not prudent to do otherwise. The market-place tells us that people are looking for investments that will provide a good return. That is the simple truth of the matter.

But, Mr. President, the action of the Congress to adopt this section does exactly what Congress should not do and said it would not do when it adopted the basic law applicable to IRA and Keogh plans. That rule is that individuals are the best judge of how their retirement plans should be run.

The culprit, of course, is inflation. It has distorted values throughout the economy. It has crippled traditional financial markets. It has forced intelli-

gent people to find investments outside traditional areas.

The solution, of course, is to stop the distortions caused by inflation by ending inflation. In the meantime, we do a great disservice to individuals and the economy as a whole, when we act to reallocate resources from one sector to another. We show arrogance by pretending to have more knowledge than the individuals personally involved in these plans. We lower the ability of people to care for their own retirement, and we do no service to the financial markets that have been hurt by inflation.

Mr. President, I think that the bill before the Senate will have to be amended in the future. I plan to offer such legislation as soon as possible. I hope it will be given speedy consideration by the Finance Committee

Mr. CHAFEE. Mr. President, the Senator from North Carolina is correct. Neither the subcommittee which I chair on savings, pensions and investment policy, nor the full Senate has considered specifically the issue, the inclusion of tangible assets in retirement plans.

If the Senator introduces legislation on this subject, it would be my intention to give it priority for hearings this year before my subcommittee.

Mr. HELMS. I thank my friend and the distinguished chairman of the Savings and Pensions Subcommittee. I appreciate his offer of assistance and I will work closely with him on this important issue

Mr. President, I ask unanimous consent that the relevant portions of the bill be printed in the RECORD following my remarks, along with a letter from Mr. Harry Lamon, and a summary of a section from the Ways and Means Committee report.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

PORTIONS OF BILL

"(n) INVESTMENT IN COLLECTIBLES TREATED as DISTRIBUTIONS.—
"(1) IN GENERAL.—The acquisition by an

individual retirement account or by an individually directed account under a plan described in section 401(a) of any collectible shall be treated (for purposes of this section and section 402) as a distribution from such account in an amount equal to the cost of such account of such collectible.

"(2) COLLECTIBLE DEFINED.—For purposes of this subsection, the term 'collectible' means-

- "(A) any work of art,
- "(B) any rug or antique,
 "(C) any metal or gem,
- "(D) any stamp or coin,
- "(E) any alcoholic beverage, or
- "(F) any other tangible personal property specified by the Secretary for purposes of this subsection."

HARRY V. LAMON, Jr., Atlanta, Ga., August 3, 1981.

Hon. JESSE HELMS, U.S. Senate, Washington, D.C.

DEAR SENATOR HELMS: I know of your interest in preserving the integrity of the federal pension law and, more specifically, the rights of individuals to direct investments in whatever medium they choose. For this reason, I believe that Section 314(b) of the Economic Recovery Tax Act of 1981 is contradictory to past Congressional actions relating to retirement plans, and is poor tax

I am founder and past president of the Southern Pension Conference and the Southern Federal Tax Institute, and served as a member of the ERISA Advisory Council representing the general public from 1975 through 1979. In my view, the conference committee report language is unfortunate for a number of reasons.

Current tax law generally permits individuals to self-direct investments in individual retirement accounts (IRA's) or in accounts held under qualified retirement plans. Many individuals have chosen to invest in coins, metals, gems, stamps, art and other items of tangible personal property. To avoid current taxation on such investments, current law requires that such investments be held under the earmarked account, and not be held as a personal possession of the individual. A little known provision of the Economic Recovery Tax Act of 1981, Sec. 314, would change current law effective January 1, 1982, and would provide that any investment in a "collectible" auto-matically would be deemed a current distri-bution subject to current taxation. This provision should be repealed for the following reasons:

1. The provision was adopted without prior notice to the public and without hearings.

2. The provision effectively prohibits a form of investment which has substantially outperformed more traditional investments in recent years.

3. The provisions substantially curtails the freedom of individuals to invest their own money as they determine is in their own best interest.

4. The provision discriminates against individuals who wish to invest their own money in tangibles as opposed to intangibles.

5. The provision will have a substantial and detrimental impact on thousands of businesses, most of which are small, which trade in coins, stamps, gems, antiques, art, precious metals, antique automobiles, and other items of tangible personal property.

6. The provision grants to the Internal Revenue Service through the Secretary of Treasury, extremely broad powers to expand the restrictions to "any other tangible personal property". It would appear that the IRS could assert the authority to extend the restrictions to investments in commodities and equipment and Items not even contemplated by the Congress.

7. Portions of the provision are unclear. Does it extend to jointly owned property? To property owned in a joint venture or general partnership? To property owned through a limited partnership? To property owned by a corporation? To property owned by an elect-ing corporation under Subchapter "S" of the code? To property owned by a trust?

8. The provision is limited to IRA's or individually-directed accounts. It apparently does not apply to non-directed accounts under qualified plans. This would permit a trustee to invest plan assets in "collectibles" for all participants, whether the individual participants desired such investments or not. but would not permit individuals to direct their own investments.

In conclusion, I wish to emphasize that Sec. 314(b) applies not only to Individual Retirement Accounts (IRAs) but also applies to acquisitions of "collectibles" by participants in all self-directed qualified ment plans described in Internal Revenue Code Sec. 401(a).

This is a major reversal of tax policy and one which will begin a rush, in the coming months before December 31, 1981, by individuals to earmark "collectibles" which they may never have considered had they been given the option to acquire them over a period of years. This is simply bad tax policy. It focuses millions of dollars in a direction which might never have been considered by participants under qualified plans had collectibles not been singled out for elimination

as a permissible investment in "individuallydirected accounts".

In the hearings leading to enactment of ERISA, much testimony was given in favor exempting "Individually-directed counts" from the normal rules on diversification and prudence. The concept adopted was to allow individuals to invest their own money as they saw fit. This policy is now being attacked by defining as imperishable investments, those "hard assets" which have always been the ground rock of our American democracy.

This opportunity to protect one's purchasing power at his actual retirement date is now, by this section, being eliminated without the benefit of any hearings or public discussion of this important tax policy change.

Sincerely,

HARRY V. LAMON, Jr.

SUMMARY OF SECTION FROM THE WAYS AND MEANS REPORT

Investments in collectibles by an individual account or individually-directed account under a qualified plan (sec. 305(b) of the bill and sec. 408 of the Code).

Present Law.—Under present law, broad discretion generally is allowed with respect to investments by qualified plans and IRAs (Individual Retirement Accounts) where self-dealing is not involved.* The Federal prudent man and diversification standards of the Employee Retirement Income Security Act of 1974 (ERISA) do not apply to IRAs or to individually-directed accounts of employ-ees under qualified plans.

Under present law, only a bank, insurance company, or other qualifying financial institutions can act as an IRA trustee or custodian; however, the owner of an IRA can selfdirect the investment of assets in the account.

Reasons for Change.-In recent years there has been increasing interest in investing retirement savings in collectibles (coins, antiques, art, stamp collections, etc.) under IRAs an individually-directed accounts in qualified plans. The committee is concerned that collectibles divert retirement savings from thrift institutions and other tradi-tional investment media and that investments in collectibles do not contribute to productive capital formation.

Explanation of Provision.—Under the bill an amount in an IRA or in an individuallydirected account in a qualified plan which is used to acquire a collectible would be treated as if distributed in the taxable year the acquisition. The usual income tax rules for distributions from an IRA or from a qualified plan apply.

A "collectible" is defined in the bill as any work of art, rug, antique, metal, gem, stamp, coin, alcoholic beverage, or any other item of tangible personal property specified by the

Although the bill changes the tax treatment of the acquisition of collectibles under individually-directed accounts, it does not modify the tax qualification standards of the Code for pension, profitsharing, or stock bonus plans or the nontax rules of ERISA. For example, the tax qualification of a pension plan would not be adversely effected merely because an amount was treated as distributed to a participant under this provision at a time when the plan is not permitted to make a distribution to participant.

The committee expects that Treasury regulations will provide for appropriate adjust-ments that will avoid double taxation of benefits under a plan where the collectible is not actually distributed.

Special rules apply to investments by qualified plans in employer real estate. Also, investments by pension plans in employer securities are subject to a special limitation.

Effective Date.—The provision is effective for property acquired after December 31, 1981, in taxable years ending after that date.

Revenue Effect.—This provision will have a negligible effect upon budget receipts.

TAX STRADDLES

• Mr. SYMMS. Mr. President, I simply want to clarify one small point. When the Finance Committee changed the tax treatment of Treasury bills to a capital asset, we did so to end the tax abuse that existed due to differing tax treatment of physical Treasury bills and Treasury bill futures. I commend the chairman of the Finance Committee and the conferees for achieving this. I also want to stress that while ending the abuse, it was the intention of the committee to insure that physical Treasury bill transactions, such as arbitrage transactions by individuals, remain tax neutral

It is my understanding that it is the committee's intent to insure a tax neutral situation which allows for an income stream equal to the pro rata share of the bill's acquisition discount regardless of market fluctuations, and regardless of which side of the transaction long or short, an individual is on. This would be similar to treatment for U.S. Government Treasury bonds and notes, and corporate stock and corporate bonds. In each case, a stable income stream is separate from the value of the capital asset which fluctuates according to market conditions in a tax neutral way.

I appreciate the opportunity to clarify this matter.

THE VOTE TO RECOMMIT THE TAX BILL

• Mr. CHAFEE. Mr. President, I am not going to vote to recommit this tax bill because, I think on balance, it is a good piece of legislation. It represents the best compromise that could be worked out between the Senate and House conferees, and it contains many of the important ingredients for getting our economy moving in the right direction.

I want the record to show, however, that I share many of the same concerns Senator Kennedy and others have expressed this afternoon. The amount of favoritism that has been shown to the oil industry and to oil-related income is astonishing. To many millions of hardworking taxpayers, frankly, it is reprehensible.

Not only does the conference agreement give owners of oil royalties a permanent tax credit of \$2,500 to offset windfall profit taxes, but it takes away a 1-year \$200 home heating tax credit in the Senate bill targeted to lower income families. And to put icing on the cake, royalty owners will be given an additional exemption from the tax of up to four barrels a day. It may be that a lot of royalty owners are elderly, retired, living on small incomes, and so on, but is their plight worse or more deserving of relief than that of the elderly, retired New Englander living on a fixed income who pays \$1,200 to \$1,500 a year just to keep his house warm? Mr. President. I think some priorities have been misplaced in Congress.

Speaking of priorities, I believe the voters and the taxpayers will be outraged to know that while their own in-

come taxes are being cut 25 percent over the next 3 years, the tax on new oil production is being slashed 50 percent. But that is not all. The first 1,000 barrels of stripper oil produced by the independent companies will not be subject to any windfall profit tax at all.

What is the cost of all this, Mr. President? Between now and 1986, it will cost the taxpayers almost \$12 billion to grant these favors to the owners and producers of America's oil. What is most distressing is that these favors have been handed out so easily and so soon after cuts in many social programs were made with such difficulty.

While I am disappointed that these o'l giveaways have found their way into the Economic Recovery Tax Act, I believe strongly that the overall legislation is very important and should be enacted without delay. A billion dollars taken in any context is obviously a lot of money, but \$12 billion for oil in the context of a \$700 billion total package will have to be accepted so we can get on with the economic recovery program.

PROVISIONS IN H.R. 4242 AFFECTING DR. SUSAN AND PHILLIP LONG

• Mr. JACKSON. Mr. President, I would like to call attention to one particular provision of the conference report which is minor in the overall bill but of great significance to two of my constituents, Phillip and Dr. Susan Long.

Section 701 would effectively moot several lawsuits which the Longs have successfully pursued against the IRS over a period of 7 years. This section is an injustice to the Longs and it was unnecessary to protect the IRS's legitimate concerns.

In brief, the Longs have sued the IRS and the Bureau of Economic Analysis of the Department of Commerce to obtain certain statistical data generated by the taxpayer compliance measurement program. The IRS has contended that release of the data sought by the Longs would jeopardize the effective enforcement of the tax laws and provide a "roadmap for tax avoidance." The Longs dispute this contention and claim that the data is valuable for economic research and analysis of the effectiveness of the IRS audit and compliance program. Whether disclosure of the data would be harmful is a technical debate about which experts disagree. I express no view on this issue.

The Longs have won a lawsuit, affirmed by the ninth circuit, which was soon to be appealed to the Supreme Court by the Government. If the Government's appeal were denied, the judgment of the ninth circuit would become final and the TCMP data sought by the Longs would be immediately released.

Claiming irreparable harm if this data were released the IRS sought legislative relief which would authorize the Secretary of the Treasury to refuse to disclose data if he determines that it would impair the enforcement of the tax laws. The legislation sought by the IRS would effectively moot the Longs' lawsuits. It was introduced by request in the Senate on May 22.

Because there was no opportunity for a hearing on this narrow issue prior to Senate consideration of the tax bill, the IRS asked that it be added to the Senate bill as a floor amendment. Senator Gorton and I objected to this procedure on the sole basis that the Longs had not had an opportunity for a hearing to explain their side of this dispute. Senator Dole agreed to honor our request that no such legislation be added to the Senate bill. The administration asked me to withdraw my objection to Senate consideration of the amendment but I indicated I could not do so unless hearings were held at which the Longs could testify.

The IRS then obtained approval of the provision in the last markup of the House Ways and Means Committee and also obtained inclusion of the provision in the Hance-Conable substitute.

I proposed a compromise to the Senate conferees which would protect the Government's interest in preventing an immediate and potentially damaging disclosure of the data sought by barring its disclosure until January 1, 1983. This would have allowed the IRS an opportunity to obtain legislation permanently barring disclosure if it could convince the Congress that such a bar was justified. I do not object to the concept of such legislation and I would have voted for it if it was shown as hearings that disclosure of the data would damage enforcement efforts.

The administration objected to my proposal and proposed a compromise which would have delayed disclosure of the data sought by the Longs until all actions filed prior to July 19, 1981 seeking data the disclosure of which the Secretary deemed would impair tax enforcement were final. Since the Longs have several other suits and there are an unknown number of lawsuits pending around the Nation by unrelated parties in which the Secretary might make this finding, this proposal would have delayed a final decision on disclosure for many years. This proposal was worse than the proposed House language and at the request of the Longs, my staff advised the Finance Committee staff that it would be better to recede to the House position than to take this new proposed compromise. The conferees did recede and take the House position.

In an effort to assure that the record is clear on this issue I ask that a copy of my proposal and the language which my staff was provided as representing the administration proposal be printed in the Record.

I simply do not believe that it was necessary for the IRS to insist on effectively mooting the Longs case without a congressional hearing. I regret that the conferees did not accept my proposal.

The material is as follows:

In H.R. 4242 strike section 701 and insert the following new section as appropriate:

"SEC. PROHIBITION OF DISCLOSURE OF METHODS FOR SELECTION OF TAX RETURNS FOR AUDITS.

(a) GENERAL RULE.—Paragraph (2) of section 6103(b) (defining return information) is amended by adding at the end thereof the following new sentence: 'Nothing in the preceding sentence, or in any other provision of law, shall be construed to require the disclosure of standards used or to be used for the selection of returns for examination, or data used or to be used for determining such standards, if the Secretary determines that

such disclosure will seriously impair assessment, collection, or enforcement under the internal revenue laws.

(b) EFFECTIVE DATE.—
(1) IN GENERAL.—Except as provided in paragraph (2), the amendment made by subsection (a) shall apply to disclosures after July 19, 1981.

(2) TRANSITIONAL RULE.—The amendments made by subsection (a) shall not apply to

any person-

(A) which has filed before the date of enactment of this Act an action against the United States seeking to compel disclosures of standards used or to be used for the selec-tion of returns for examination, or data to be used for determining such standards (including but not limited to taxpayer compliance measurement program computer tapes), and

(B) which agrees not to take possession of such standards or data (whether pursuant to an order of any Federal court or otherwise) before January 1, 1983.

ADMINISTRATION PROPOSAL

(2) TRANSITIONAL RULE.—The amendments made by subsection (a) shall not apply to disclosures made more than one year from the date of, and pursuant to, final judicial resolution of all actions against the United States, seeking to compel disclosure of standards used or to be used for the selection of returns for examination, or data to be used for determining such standards (including but not limited to taxpayer compliance measurement program computer tapes). which was filed prior to July 19, 1981.

o Mr. DIXON. Mr. President, I am a supporter of H.R. 4242, the Economic Recovery Tax Act of 1981. While I do not fully support all its provisions, I do agree with its objectives. I believe that all Americans, including both individual taxpayers and businesses, need tax relief. Inflation has increased the individual taxpayer's tax burden to unjustifiable levels. Business needs tax cuts to stimulate new investment, increase productivity, and to increase its competitiveness in the world market.

However, I am extremely concerned about the provisions in the bill covering the tax straddle issue. The Senate and House conferees, as I understand it, agreed to include the Senate straddle provisions in the conference bill, eliminating the House approach. As I have stated on the Senate floor on a number of occasions, I believe that the markedto-market approach now included in the conference bill could have severe adverse

consequences.

It would cause significant disruptions of our Nation's commodity markets, markets which play a necessary and important role in our agricultural marketing and distribution system. The conferees acted to close a tax loophole used by wealthy speculators, but the real victims of the conference bill are likely to be the Nation's farmers, food processors and others who depend on the smooth functioning of the commodity markets.

I must continue to oppose, therefore, the approach taken in the conference bill. The risks of serious harm to the agriculture community is too great to justify taking the precipitious action the Senate is about to take today. I am sorry that the commodity markets will have to be seriously disrupted in order to convince my colleagues that the marked-tomarket approach is not the way to go. • Mr. JACKSON. Mr. President, I dis-

agree with a number of provisions in this tax bill. For example, I believe we have gone too far in rolling back the windfall profit tax on the oil industry. In addition, I favored amendments which would have given a larger share of the individual tax cuts to the middle-income groups. There are many other provisions about which I have reservations and would change if I had the power to do so.

However, the choice before us is between passing a tax cut bill or not passing a bill. We are beyond the point where individual amendments may be proposed to correct specific inadequacies. The Senate passed its version of the tax cut bill overwhelmingly and the House passed a similar bill by a narrower but decisive margin. It is clear that the American people want and need a tax cut and there is substantial ecoonmic justification for a tax cut though not necessarily with all the elements of this bill. The compromise worked out by the conferees fairly represents the will of the House and the Senate as reflected in the two

The President's economic program is an experiment, probably the greatest economic experiment since the New Deal. The tax bill is one of the basic elements of the President's program and its passage is essential if this program is to have a fair test. The administration has raised the expectations of the American people to a high level about the benefits of this program. I have reservations about the efficacy and the equity of this program which I have attempted to articulate during the debate on the budgetary and tax bills. That debate is now

The President has now won decisive congressional approval of all the major elements of his program and its success or failure will be determined on the correctness of his economic theories alone. Like most Americans, I hope this program works.

o Mr. BENTSEN. Mr. President, I would like to clarify the intent of the language in section 128(d)(3)(G) of H.R. 4242, "The Economic Recovery Tax Act of 1981." This section defines "qualified residential financing," for purposes of investing the proceeds of tax-exempt savings certificates, to include mortgagebacked securities issued or guaranteed by the Federal National Mortgage Association, the Government National Mortgage Association, and the Federal Home Loan Mortgage Corporation. Section 128(d)(3)(G) reads:

The purchase of securities issued or guaranteed by the Federal National Mortgage Association, the Government National Mortgage Association, or the Federal Home Loan Mortgage Corporation, or securities issued by any other person if such securities are cured by mortgages originated by a qualified institution, but only to the extent the amount of such purchases exceeds the amount of sales of such securities by an institution, and .

Mr. President, it is my understanding that all securities issued or guaranteed by these federally chartered or federally sponsored entities are eligible for purchase by qualified depository institutions with the proceeds of tax-exempt savings certificates whether or not these securities are by mortgages.

Mr. DOLE. The understanding of the Senator from Texas is correct.

• Mr. ARMSTRONG, Mr. President, the enactment of the Economic Recovery Tax Act of 1981 signals that the longpromised new beginning has begun.

Never in the history has an elective body ever dared to enact a tax bill like the one Congress will approve today. This is the largest tax cut in history.

This bill is the greatest transfer of wealth from the Government into the hands of individuals. During the next 6 years, some \$750 billion that would have been spent by the Federal Government will now be kept in the pockets, in the businesses, in the savings accounts, and in the stocks of American taxpayers.

Chalk this one up to the Guinness Book of World Records, and to the American

taxpavers

This bill sets a new direction for the country. In essence, the bill says "Americans, we hear you. You want lower taxes. less government, greater individual freedom to prosper.

This bill delivers. This tax bill:

Reduces tax rates for all Americans by over 25 percent over the next 3 years; Allows American businesses to recoup capital investment at a faster rate;

Provides incentives for Americans to save more of their paychecks;

Reduces corporate tax rates:

Encourages individuals to set aside money now to finance future retirement: Provides small businesses a fair and easy-to-use method of tax accounting:

Encourages universities to work more closely with businesses in the research and development of new technology:

Reduces substantially estate and gift taxes so that in the future, spouses and children will not have to sell inherited property to pay Federal taxes;

Fliminates the confiscatory 70 percent tax imposed on investment income:

Reduces taxes on newly discovered energy resources; and

Encourages Americans to contribute more to worthwhile charitable and civic activities.

On top of all this, this bill provides permanent tax reform by guaranteeing that in the future, taxpayers will no longer pay higher tax because of inflation. This tax indexing provision goes into effect after the individual rate reductions contained in the bill are implemented. So that by 1984, Americans will have their tax rates reduced by 25 percent, and will then no longer have to pay higher taxes if inflation jumps their income into higher tax brackets.

What a tax bill.

Already this legislation has sparked a sense of optimism that America is finally on the right course. The stock markets posted sharp gains the past week. The value of the dollar in international markets continues to rise. Americans are already personalizing the bill. They are figuring out how much their taxes will be reduced, and how this windfall ought to be best spent or invested.

America has turned the corner. But to realize how far we have come, and how far we have to go, some perspective

is needed.

Twenty years ago there was no question that America was the world's eco-

nomic power. Its average inflation rate for the previous decade was 1.9 percent: The United States exported far more than it imported. It dominated international finance; 8 of the 10 largest banks in the world were American. Americans applied for and received more patents than the rest of the world combined. We launched an ambitious program to put a man on the moon by the end of the decade. The total Federal budget in 1960 was \$77 billion, and the national debt was \$284 billion, or \$1,572 for each American. The typical American family spent only 20 percent of its budget on taxes. That family saved more than 9 percent of its income. Interest rates on mortgages were no more than 6 percent. Some 61 percent of Americans eligible voted in the 1960 Presidential election.

And where is the United States today? We are in economic decline. We know it. The world knows it, and treats us accordingly. Our average inflation rate for the past decade was 11 percent. Our annual trade deficit is more than \$28 billion. Only 2 American banks rank among the world's top 10. Japan has replaced America as the leader in successful patents. Our Federal budget exceeds \$700 billion, and our national debt exceeds \$1 trillion, or more than \$4,000 for each man, woman, and child in the United States. The typical American family spends 44 percent of its budget on taxes. Americans save less than 4 percent of their income. Home mortgage interest rates exceed 15 percent. In terms of real purchasing power, Americans are less well off than they were a decade ago.

President Carter 2 years ago declared that Americans had lost confidence that their Government could govern, and less than 40 percent of Americans voted in the last Presidential election.

In short, by nearly every conceivable measure, America has been in economic and political decline. Americans today feel poorer than they did 20, 10, even 5 years ago. They lost confidence in the future, in their dollar, and in their Government. This lack of confidence was reflected in many ways. Americans turned to artwork as a better investment than savings or stocks. An underground, untaxed economy-unheard of 2 years ago-now counts for some 20 percent of our gross national product, according to many experts. Tax shelters of dubious economic worth flourished, even became a national craze as more and more Americans sought tax relief. Business decisions were made not because they would create future profits, but because they would provide tax breaks.

What is needed to reverse this trend is bold, decisive action that signals a new economic era for Americans? An era that says Americans will keep more of what they earn, and can spend or invest it as they choose.

This tax bill signals this new era, this new beginning.

This bill will restore a degree of fairness to our overburdened tax system by giving every taxpayer in America a reduction in their tax rates in each of the next 3 years. Thereafter, this bill provides for indexing the tax code to auto-

matically lower taxes to offset the effects of inflation. To individual working men and women and their families, this legislation means welcome relief from the constant tax increases of recent years.

Moreover, this legislation is an important aspect of President Reagan's overall program for the economic revitalization of the Nation. Together with budgetary restraint needed to balance Federal spending and revenues by no later than 1984 and the President's proposed regulatory reforms, this tax bill holds the promise of restoring a large measure of economic incentive to the private sector.

While I do not expect overnight response from our sluggish private sector, I do believe that such incentives will foster increased private savings, investment, entrepreneurship and, in consequence set the stage for increased productivity, rising employment, and greater growth and prosperity for the Nation as a whole.

I submit for the RECORD the following summary of the principal provisions of the act prepared by the staff of the Senate Finance Committee.

The summary follows:

SUMMARY

INDIVIDUAL TAX RELIEF

Across-the-board marginal tax rate reductions of 5 percent on October 1, 1981, with additional reductions of 10 percent on July 1, 1982, and 10 percent on July 1, 1983.

The top marginal rate on investment income will be lowered from 70 percent to 50 percent, effective January 1, 1982.

The maximum rate of tax on capital gains will drop to 20 percent for transactions occurring after June 9, 1981.

Indexing of individual rate brackets, the personal exemption, and the zero bracket amount will begin in 1985. These items will be adjusted to reflect the change in the CFI.

Marriage tax penalty relief in the form of a 5-percent exclusion up to \$1,500 in 1982 and a 10-percent exclusion up to \$3,000 in 1983 and thereafter.

Americans working abroad will be entitled to an exclusion of \$75,000 as well as a housing allowance, effective January 1, 1982. The exclusion increases to \$95,000 (in \$5,000 increments) by 1986.

Taxpayers who do not itemize will be able to take a deduction for charitable contributions. The deduction is a percentage of contributions up to a fixed dollar amount: 25 percent (up to \$100) in 1982 and 1983; 25 percent (up to \$300) in 1984; 50 percent in 1985; 100 percent in 1986.

BUSINESS INCENTIVE PROVISIONS

Effective January 1, 1981, under the accelerated cost recovery system (ACRS), 10-year, 5-year, and 3-year classes of property will be written off using rates that approximate the 150-percent-declining-balance method through 1984. Certain long-lived utility property will be in a 15-year class. For property placed in service in 1985 and 1986 and thereafter, recovery rates will be increased to 175 percent and 200 percent, respectively. Assets in the 3-year class will get a 6 percent investment credit and those in the 5-, 10-, and 15-year classes a 10-percent credit. Taxpayers can elect in 1982 to expense \$5,000 annually, increasing in stages to \$10,000 in 1986.

All real estate will receive a 15-year auditproof cost recovery period and will be written off using rates equivalent to 175-percentdeclining-balance (low-income housing, 200percent declining balance).

A liberalized leasing rule will be provided to facilitate the transfer of the ACRS tax benefits to companies which can utilize these tax benefits. For small business additional benefits are provided:

Corporate rates are reduced in two steps to 15 percent on the first \$25,000 of income and 18 percent on the next \$25,000 by 1983.

The investment credit limitation on used equipment will increase from \$100,000 to \$125,000 for 1981-84 and to \$150,000 thereafter.

The maximum number of permitted Subchapter S shareholders will increase to 25, and under certain circumstances trusts will be permitted to be shareholders.

The minimum accumulated earnings credit will increase from \$150,000 to \$250,000.

Inventory accounting will be simplified for businesses with average gross receipts of less than \$2 million.

To encourage research and development, a new tax credit is included, equal to 25 percent of incremental R&D expenses after June 30, 1981. All R&D conducted in the United States will be allocated to U.S.-source income for two years.

source income, for two years.

The 10-percent investment tax credit for rehabilitation expenditures will be replaced by a credit that is 15 percent for buildings that are at least 30 years old, 20 percent for buildings that are at least 40 years old, and 25 percent for certified historic structures.

Employees will be entitled to favorable tax treatment on stock options qualifying as incentive stock options.

SAVINGS PROVISIONS

Individuals will have a lifetime exclusion of \$1,000 (\$2,000 on joint returns) of interpaid on depository institution tax-exempt savings certificates issued after September 30, 1981 and before January 1, 1983.

The maximum contribution to an individual retirement account (IRA) will be increased from \$1,500 to \$2,000 up to 100 percent of an individual's earnings for the year. The maximum contribution to a spousal IRA will be increased from \$1,750 to \$2,250. Both of these changes will be effective January 1, 1982.

Individuals who are active participants in an employer-sponsored retirement plan will be able to deduct up to \$2,000 per year of contributions to individual retirement accounts.

The maximum deductible contributions to a Keogh plan will be increased from \$7,500 to \$15,000, effective January 1, 1982.

ENERGY

The windfall profit tax credit for royalty owners will be raised from \$1,000 to \$2,500 for 1981, and go to 2 barrels per day in 1982, 1983, and 1984, 3 barrels in 1985, and 3 barrels in 1986.

The windfall profit tax on newly discovered oil will be reduced from 30 to 15 percent, in stages from 1982 through 1986. The windfall profit tax on stripper oil of independent producers will be eliminated beginning in 1983.

ESTATE AND GIFT TAX RELIEF

An increase in the credit against the unified estate and gift tax to \$192,800 will be phased in over six years exempting 99.7 percent of all estates from the estate tax. This corresponds to an exclusion of \$600,000.

The maximum estate tax rate will be reduced from 70 to 50 percent over four years.

The marital deduction will be unlimited,

effective January 1, 1982, as contrasted with present law, which limits the marital deduction to one-half of the adjusted gross estate or \$250,000, whichever is greater. The terminable interest rule will be repealed.

The annual gift tax exclusion will be increased from \$3,000 to \$10,000 per donee, effective January 1, 1982.

OTHER PROVISIONS

A series of provisions will substantially limit the use of transactions such as tax straddles to defer gains from noncommodityrelated income or to convert such income into long-term capital gains.

Administrative changes include several increased interest and penalty provisions, increased exemption from the individual estimated tax penalty, and safeguards from disclosure of certain IRS audit data.

The moratorium on the issuance of regulations on fringe benefits will be extended until December 31, 1983.

Special rules are provided to facilitate the reorganization of financially troubled thrift institutions.

The targeted jobs tax credit is extended through 1982.

Repeal of the "away from home" rule for state legislators, retroactive to 1976 and an extension of the per diem deduction.

A new income tax credit is allowed for contributions to a tax credit Employee Stock

Ownership Plan. The credit is limited to .5 percent of compensation in 1983 and 1984 and .75 percent through 1987.

and .75 percent through 1987.

Allow utility corporations to establish dividend reinvestment plans under which individuals may exclude stock dividends through such plan from income up to \$750 (\$1.500 for a joint return).

See attachment for estimate of revenue effects.

SECTION 861 NEEDS EQUITABLE ADMINISTRATION

• Mr. SCHMITT. Mr. President, I would like to express my gratification at the action taken by the Senate on Monday, July 27, and the House-Senate conference, to suspend for a year an inequitable administrative interpretation of section 861 of the Internal Revenue Code that for the last 4 years has created a serious disincentive to the performance, let alone sorely needed expansion, of research and development activity in the United States.

During this period of suspension, the Treasury Department is ordered to study the adverse effects of these 861 regulations and report back to Congress with recommendations for corrective action. If common sense prevails, Mr. President, these confiscatory tax regulations will be permanently abolished.

It was unfortunate, Mr. President, that the otherwise outstanding tax legislation we are now debating, the Economic Recovery Tax Act of 1981, did not initially address this disincentive to R. & D. But the omission was corrected, I am glad to say, when the leadership on both sides of the aisle, and the distinguished chairman and members of the Finance Committee, agreed to a bipartisan amendment offered by the distinguished Senator from Ohio (Mr. Glenn) in behalf of himself, the Senator from Missouri (Mr. Danforth), and the Senator from Wyoming (Mr. Wallop). The Senate wisely and promptly concurred.

These 861 regulations have been forcing a shift of R. & D. activities by this country's research-oriented industries to overseas locations. American companies have had to do this to minimize what amounts to double taxation, caused by this administration interpretation, of income generated by their overseas operations.

Speaking on the basis of my own background, and as chairman of the Subcommittee on Science, Technology, and Space, I fully concur in a statement made by President Reagan, shortly after his election, calling for bold action to make our companies competitive with the dynamic industries in Japan and Western Europe. And, Mr. President, I should emphasize that this is a true bipartisan concern. Former President Carter, referring to stifling Government restraints on

innovation in the United States, stressed the need for a Government partnership with the private sector to restore the scientific and technological productivity of the American free enterprise system.

We can make a start toward that critical goal by nullifying the 861 regulations relating to R. & D. Prior to 1977, the regulations under section 861 had remained essentially unchanged for over 50 years. However, in 1977 the Treasury Department added a new and complex set of rules relating to the manner in which companies with foreign sales must treat expenses for research and development conducted in the United States. Under these rules, U.S. companies must allocate a portion of these expenses to income earned in other countries. This arbitrary allocation effectively reduces the amount of foreign tax credit available to offset the taxes imposed by those other countries. Since foreign countries in question frequently will not recognize the allocations for their tax purposes, the U.S. company ends up paying tax on the same income twice.

There is convincing evidence that the 861 regulations create strong disincentives for U.S. companies to initiate or expand R. & D. programs in the United States and a corresponding incentive to undertake them in Canada, the United Kingdom, France, and other foreign countries whose governments do not have a policy that frustrates discovery and innovation in the private sector.

The consequences of this inequitable tax policy are inevitable: Discouragement of R. & D. in the United States and the resulting loss of highly-skilled jobs; construction of research laboratories overseas; increased employment at those American-owned laboratories of foreign scientists and technicians; and the conduct on foreign soil of millions of dollars of R. & D. projects conceived by American minds

Mr. President, let me leave with you and Members of the Senate this closing thought:

If we allow the number of scientists and related skilled workers to be diminished by reason of R. & D. facilities moving to foreign countries, our country will suffer a severe and lasting loss.

RESTRICTED STOCK PLANS

• Mr. BENTSEN. Mr. President, I ask that the distinguished floor manager clarify one aspect of the bill in the area of incentive stock options. The bill includes a provision which is designed to avoid the necessity, and attendant administrative costs, of amending existing employee stock purchase plans which are substantially the same as incentive stock options in order to qualify them as such options. I am specifically referring to section 422A(c)(4)(c), which would be created by section 251 of the bill, and the language on page 100 of the committee report, which expands on that provision.

Am I correct in assuming that the intent of that provision is to qualify as an incentive stock option the transfer of stock for nominal consideration under arrangements which would be considered the granting of an option for Federal income tax purposes? For example, if a company pursuant to a plan otherwise qualifying under the bill transferred stock for a nominal amount to an employee which could not be sold until the employee completed a required period of employment, could such a transfer qualify as an incentive stock option?

Mr. DOLE. I would be happy to respond to the Senator from Texas. The answer to the question is yes. In the situation the Senator describes, if the transfer of stock were, for instance, granted subject to an indebtedness for which there was no personal liability to pay, it would be considered an option. Under these circumstances the transfer of stock would be an option for Federal income tax purposes and if it met the requirements of new section 422A(b), it would qualify as an incentive stock option. One of these requirements is that the employee pay 100 percent of the fair market value of the stock at grantinga payment which would usually occur when the option is exercised, or in Senator Bentsen's example, when the restrictions upon the transferred stock lapse. LENGTH OF SERVICE, PRODUCTIVITY, AND SAFETY AWARDS

• Mr. GARN. Mr. President, my cosponsor, Mr. Chaffe, and I would like to clarify the purpose and effect of an important amendment that was made on

the Senate floor. Because of his great concern and knowledge on this subject, I would like to yield at this time to the distinguished junior Senator from Rhode

Mr. CHAFEE. I thank the senior Senator from Utah. Mr. President, under present law a deduction is allowable to an employer for a tangible item of personal property, such as a watch or a service emblem, that is awarded to an employee in recognition of length of service or safety achievement, but only if the cost of the item does not exceed \$100. Such items are awarded to motivate employees, cement employment relations, recognize loyalty, employment longevity, or achievement, or for other purposes of the employer. No change has been made in the dollar limit for such deductions since 1962, however, and during that time the Consumer Price Index has nearly tripled and the price of gold, silver, and other basic raw materials has gone up more than 1,000 percent. Unless this 20-year-old ceiling of existing law were raised, it would continue to impose an outmoded and unrealistic restriction upon the recognition of employee loyalty and achievement.

Furthermore, under current law no deduction is allowable for any item if the cost of it exceeds \$100, and no provision currently exists for productivity awards. Finally, although such awards are often made as part of a broad-based plan which recognizes achievement without regard to compensation levels-for example, by recognizing service with increasingly attractive awards at 5-year intervals with the most meaningful award, frequently a gold watch, at retirement—deductions for recognition awards cannot currently be taken on an average cost, planwide basis.

The measure that was introduced in the Senate by the distinguished senior Senator from Utah, and that I cosponsored, would resolve these problems. Under that amendment (UP No. 325), first, the per item deduction limit would be raised from \$100 to \$400. As thus amended, the code would continue to impose a reasonable dollar limit on recognition awards, but it would also at least partially recognize the increased cost of materials used in the manufacture of such awards.

Second, the amendment would allow a deduction for the first \$400 of each item even if the cost of that item exceeded \$400. This removes an unintended technical problem under prior law.

Third, the amendment would allow the per item cost of awards to be computed on a planwide, average cost basis, as long as the plan does not discriminate in eligibility or benefits in favor of officers, shareholders, or highly compensated employees. This provision recognizes that average cost is the logical and reasonable way to calculate the deduction limits when a broad-based, nondiscriminatory plan is involved.

In addition, to prevent any possibility of abuse, no deduction will be allowed, even on a plan-wide basis, for that portion of any award that exceeds \$1,600. Finally, the amendment would allow deductions for productivity awards as well as length of service and safety achievement awards. This addition is consistent with the overall purpose of the Economic Recovery Tax Act of 1981, for it will make it possible to provide meaningful, tangible incentives for increased productivity, such as efficiency, attendance, and achieving goals.

Mr. GARN. I would like to thank the Senator for that very clear and thorough explanation of the provision, in which I concur

Might we have the distinguished floor manager's views on the amendment.

Mr. DOLE. I appreciate the remarks of the Senators and I agree with their views. When section 274(b)(1)(C) was originally added to the code in 1962, the Senate made it clear that:

Gifts for these purposes . . . serve to strengthen the relationship between business and its employees [and] should not be discouraged by the tax laws. (S. Rep. 87-1881,

Our action today reaffirms that intention. Furthermore, the amendment is consistent with the overall purposes of the Economic Tax Recovery Act of 1981.

Mr. GARN. Does the distinguished minority floor manager of the measure share this understanding?

Mr. LONG. Yes, I do.

Mr. GARN. I thank both floor manag-

ers and I yield the floor.

• Mrs HAWKINS, Mr. President, Congress has labored long and hard on this tax bill. I think that the imagination of the public has been captured by the leadership of the President. People responded to his message by pressing their case with the Senate and with the House of Representatives. If our telephones and our mail are indicative, then Floridians wholeheartedly support the President's economic policy.

The symbolism of passage of the tax bill has already had an effect. The stock market is firming up and the dollar is doing well against foreign currencies. This morning's Wall Street Journal showed the dollar advancing against the German mark, the French franc, and the Japanese ven.

This early improvement is largely the result of a psychological effect. The real economic impact, needless to say, has not yet been felt. I am convinced, Mr. President, that this tax bill will reduce disincentives to saving and investment; I am convinced that it will stimulate personal and business investment; I am convinced that productivity will increase; I am convinced that the lower marginal tax rates will induce some of the underground economy to return to the tax rolls: some of the tax shelters will no longer hold the attraction they have held, and will be exchanged for productive investment.

Mr. President, I believe that the chairman of the Finance Committee, the other members of the committee, and their staffs, deserve an ovation from all of us. and from Floridians in particular. I have been gratified by the level of expertise and cooperation, not only on the committee and committee staff, but on the part of my colleagues, and their staff as well. This debate has shown that the country is well-served by this process and by those who have labored on this tax bill. I am proud to have been associated with them and with this legislation.

Mr. EAST. Mr. President. Congress will this week send to President Reagan the greatest single piece of tax-cutting legislation in our history.

This is an achievement of which we can be very proud. The bill we had to consider was lengthy, and the issues involved were intricate and wide ranging. Nevertheless we persevered, and the final product represents a bipartisan effort to give the American people the tax relief that they so urgently needed. The people have expressed their views on this issue in no uncertain terms, and Congress has made an appropriate reply.

It is impossible to exaggerate the salutary effect that this legislation will have on all taxpayers. The allegation that it will chiefly serve to benefit the well-todo just does not hold up under close examination.

The cornerstone of this measure is an across-the-board reduction in individual tax rates of 25 percent: 5 percent on October 1 of this year, with two 10 percent cuts to follow in July of 1982 and July of 1983. All taxpayers will thus have their rates slashed.

The reductions are essential. For years, Government has been playing a con game called bracket creep. By inflating the money supply, it forces more and more of our people into higher tax brackets so it can collect a larger share of their earnings. Assistant Secretary of the Treasury Paul Craig Roberts has pointed out that in 1965, a middle-income family faced a top Federal tax rate of 17 percent. Today, it faces a rate of 28 percent. In 1984, if the current tax law were to remain unchanged, it would face a rate of 32 per-

Instead, the new law will reduce the top rate to 24 percent by 1984. Furthermore, it will index tax rates to eliminate bracket creep for good. Starting in 1985. rates will be adjusted to reflect the costof-living increases of the previous year as measured by the consumer price index.

These lower personal tax rates will also help small business. The vast majority of business enterprises in this country are sole proprietorships. Partnerships are second, and corporations are a distant third. Since proprietors and partners pay only personal income taxes on what their enterprises take in, a major tax cut gives them more money to plow back into their enterprises and make them flourish. This in turn will help to reduce unemployment, since most new jobs are created by small business.

Personal tax rates will be adjusted to offset the so-called marriage penalty. At last our tax laws will recognize that an increasing number of married women are pursuing careers outside the home, and that couples should not be taxed at a higher rate because both spouses must work to make ends meet. The new tax bill will allow the spouse with the lesser income to deduct 5 percent of that income (up to \$1,500) in 1982, 10 percent (up to \$3,000) in 1983.

The bracket-creep phenomenon also gives a confiscatory edge to Federal estate and gift taxes. For too long it has been the bitter complaint of those who own family farms and businesses that they "live poor and die rich." In other words, they work all their lives to create something of value, only to have it snatched from their heirs by the tax man because inflation has artificially boosted the value of their estates.

Inflation has likewise made interfamily giving more difficult. The current \$3,-000 exemption from Federal gift taxes may have served well enough in an earlier day, but it is wholly inadequate now. As a practical matter, one cannot support an aged parent, send a child to college, or give newlyweds the downpayment for a home without incurring Federal taxes. Most of our people feel that this is unjust, and are properly resentful.

The new tax bill takes a giant step toward eliminating both these taxes. The top estate tax will be reduced from 70 to 50 percent, and will apply only to estates valued at more than \$2 million. The vast majority of smaller estates will escape taxation entirely through a gradual increase in the Federal exemption. Ultimately, a mere 0.3 percent of all estates will be subject to taxes.

The gift tax exemption will be increased from \$3,000 to \$10,000. This means that a husband and wife could give away as much as \$20,000 tax free.

I should mention here as well that the so-called widow's tax will be eliminated through the creation of a 100-percent marital deduction. This means that the death of one spouse will no longer be treated as a capital gain by the survivor.

Some of the changes in business taxes contained in this bill have also been criticized as favoring the few over the many. Again the criticism is unfounded. The new liberalized depreciation allowances will benefit our people in general as much as the business community in particular, because they will enable business to create jobs and increase productivity. In the course of these remarks I have repeatedly emphasized the negative distortions that inflation has introduced into our economy. Business must contend with additional distortions. Over the past decade and a half, Federal regulations have forced private firms to divert literally billions of dollars of capital from productive to nonproductive uses.

Now I am not opposed to safer working conditions or a cleaner environment. In some cases these goals cannot be realized without major capital investments. I do feel strongly, however, that social and economic goals should not be mutually exclusive. The depreciation provisions of this bill will help us to realize both.

The current rules governing depreciation are unduly complex and cumbersome. The new plan would replace the old useful life categories with four basic depreciation categories: 3 years for autos, light trucks, research and development equipment, and other special tools; 5 years for all other machinery and equipment; and 15 years for most depreciable real estate.

Here again, I would like to make plain that the small business has not been slighted in favor of large corporations. It is true that small business is less capital intensive, but the sheer complexity of present depreciation rules has kept many entrepreneurs from taking full advantage of them. Simplifying the rules cuts the Gordian knot, and puts small firms in a position to take advantage of tax write-offs that were previously available only to the corporate giants.

These then are some of the highlights of the new tax bill. In reviewing them, one feature in particular stands out; incentives. By allowing our people to keep more of the fruits of their labors, we encourage them to be more thrifty and productive. By making these incentives permanent, through indexation, we go a long way toward limiting the size of the National Government and its role in our way of life.

I should mention here as well that the bill also contains a provision that should help private charitable organizations assume a larger role in helping the poor and unfortunate as the National Government assume a smaller one. Beginning in 1982, taxpayers who take the standard deduction will be able to deduct up to \$25 in charitable contributions. This would be raised to \$75 in 1984, and would be unlimited in 1985 and 1986. The charitable contributions provision should cushion the impact of the budget cuts that have been made thus far, and those that will be required in the years ahead.

In conclusion, Mr. President, I would like to say how proud I am to have been able to play a role in the passage of this vital legislation. Throughout this century, real tax reductions have been invariably followed by real economic growth. I am convinced that this tax bill will have the same effect.

Mr. LEVIN. Mr. President, it is abundantly clear that, except for those earning over \$50,000, this tax bill will not offset the upcoming social security tax increases and inflation induced bracket creep. In effect, those earning less than \$20.000 will see their earning power in 1980 dollars reduced by 1984 under the Reagan tax plan, those earning between \$20,000 and \$50,000 will stay about even, while those earning over \$50,000 will see their purchasing power increase in real terms by 1984.

Take an example of a family of four earning \$15,000 in 1980. The family's take-home pay is \$12,838 after Federal and social security taxes are removed. In 1984 under the Reagan tax program, the family's take-home pay is \$12,632 in 1980 dollars. The purchasing power for this family has decined by \$206. A family of four earning \$35,000 in 1980 takes home \$28,347. In 1984, under the Reagan tax plan, take-home pay for this family will be \$28,163, a reduction of \$184. On the other hand, a family of four earning \$100,000 which now takes home \$70,534 in 1980 after taxes, will take home \$72,754 in 1984 under the Reagan program, a real increase of \$2,200, again as expressed in 1980 dollars.

Mr. President, taxes are too high. They should be cut. But I cannot support this conference report on the tax bill because it fails to protect those most hurt by upcoming social security tax increases and inflation induced bracket creep.

This conference report maintains the Senate provisions on small savers, those

persons with \$13,000 or less in savings. Those Senate provisions are terrible for small savers leaving them worse off in future years than they are now, in terms of tax treatment of the interest earned on their savings accounts.

I note that this conference report deletes the home heating oil credit approved by the Senate. The Senate bill allowed a maximum credit of \$200 for a portion of home heating costs. It is unfortunate that the conference removed this provision, designed to protect individuals against rising heating costs, at the same time it approved an additional \$13 billion in tax breaks for oil companies, above and beyond the \$20 billion bonanza for oil companies in the Senate bill.

As the case with most voluminous bills, there are many commendable features in this tax bill. Reducing the top marginal rate on unearned income from 70 to 50 percent should stimulate greater risk taking and capital formation. Expanded deductions for retirement savings should meet the twin goals of greater retirement income and savings. The marriage tax penalty deduction reduces the inequitable treatment of two earner couples. Numerous business tax cuts will strengthen capital formation and productivity. Accelerated and simplified depreciation is a much needed reform as are the expanded incentives for research and experimentation.

I am happy that the conferees retained the Jepsen-Levin amendment which provides tax deductions for expenses of adopting special needs children, thereby increasing the number of adoptions of those children.

But while there are laudable elements in this tax cut, it is overall a bad gamble. We are told that this tax bill promises economic recovery, low inflation, low unemployment, low interest rates, and balanced budgets. These are hollow promises. This \$750 billion tax cut, coupled with \$1.5 trillion increase in defense spending is like throwing gasoline on the fire. The administration's commitment to a tight money policy guarantees high interest rates even as we cut taxes and budgets. Higher inflation and interest rates increase budget costs resulting in more deficits. The need to borrow money from the private sector to finance these deficits will keep interest rates high and remove valuable resources from capital formation and productive investments. This bill does not offer relief from the high interest rates that have crippled the auto industry, paralyzed the construction industry, and dealt a mortal blow to hundreds of thousands of small businesses.

This tax bill is hollow. It promises tax relief for all taxpayers when only those earning more than \$50,000 receive a tax cut. It is a phantom tax cut for those earning less than \$50,000. Promises of economic recovery will soon turn into pessimistic forecasts for high interest rates, high inflation, and larger deficits. Those forecasts will not prove hollow.

The PRESIDING OFFICER. All the time having expired, the question is on agreeing to the motion of the Senator from Massachusetts to recommit the conference report on H.R. 4242.

On this question, the yeas and nays have been ordered, and the clerk will

call the roll. The legislative clerk called the roll. Mr. INOUYE (When his name was

called). Mr. President, on this vote I have a live pair with the Senator from Michigan (Mr. RIEGLE). If he were present and voting, he would vote "yea." If I were permitted to vote, I would vote "nay." I therefore withhold my vote.

Mr. STEVENS. I announce that the Senator from North Dakota (Mr. An-DREWS), the Senator from Missouri (Mr. DANFORTH), the Senator from Arizona (Mr. GOLDWATER), the Senator from Pennsylvania (Mr. Heinz), the Senator from Nevada (Mr. LAXALT), the Senator from Idaho (Mr. McClure), the Senator from Alaska (Mr. Murkowski), the Senator from Illinois (Mr. PERCY), the Senator from South Dakota (Mr. PRESSLER), the Senator from Vermont (Mr. STAF-FORD), and the Senator from Idaho (Mr. SYMMS) are necessarily absent.

I further announce that, if present and voting, the Senator from Idaho (Mr. SYMMS) would vote "nay.

On this vote, the Senator from Pennsylvania (Mr. Heinz) is paired with the Senator from Illinois (Mr. PERCY).

If present and voting, the Senator from Pennsylvania would vote "yea" and the Senator from Illinois would vote "nav."

Mr. ROBERT C. BYRD. I announce that the Senator from Montana (Mr. BAUCUS), the Senator from Texas (Mr. BENTSEN), the Senator from Florida (Mr. CHILES), the Senator from California (Mr. Cranston), the Senator from Illinois (Mr. Dixon), the Senator from Nebraska (Mr. Exon), the Senator from Colorado (Mr. Harr), the Senator from Louisiana (Mr. Johnston), the Senator from Vermont (Mr. LEAHY), the Senator from Montana (Mr. MELCHER), the Senator from Ohio (Mr. METZENBAUM), the Senator from Arkansas (Mr. PRYOR), and the Senator from Michigan (Mr. RIEGLE) are necessarily absent.

I further announce that, if present and voting, the Senator from Illinois (Mr. Dixon) and the Senator from Nebraska (Mr. Exon) would vote "nay"

On this vote, the Senator from Vermont (Mr. LEAHY) is paired with the Senator from Montana (Mr. MELCHER).

If present and voting, the Senator from Vermont would vote "yea" and the Senator from Montana would vote 'nav.'

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced-yeas 20, nays 55, as follows:

[Rollcall Vote No. 250 Leg.]

So Mr. Kennedy's motion to recommit the conference report with instructions was rejected.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the motion was rejected.

Mr. LONG. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The question is on agreeing to the conference report, H.R. 4242. The yeas and nays have been ordered and the clerk will call the roll.

The assistant legislation clerk called the roll.

Mr. BUMPERS (after having voted in the negative). Mr. President, on this vote I have a live pair with the distinguished Senator from Montana (Mr. MELCHER). If he were present and voting, he would vote "aye." If I were at liberty to vote, I would vote "nay." Therefore, I withdraw my vote.

Mr. STEVENS. I announce that the Senator from North Dakota (Mr. An-DREWS), the Senator from Missouri (Mr. DANFORTH), the Senator from Arizona (Mr. GOLDWATER), the Senator from Pennsylvania (Mr. Heinz), the Senator from Nevada (Mr. LAXALT), the Senator from Idaho (Mr. McClure), the Senator from Alaska (Mr. Murkowski), the Senator from Illinois (Mr. PERCY), the Senator from South Dakota (Mr. PRESSLER), the Senator from Vermont (Mr. STAF-FORD), and the Senator from Idaho (Mr. SYMMS) are necessarily absent.

I further announce that, if present and voting, the Senator from Pennsylvania (Mr. Heinz) and the Senator from Illinois (Mr. Percy) would each vote "yea."

Mr. ROBERT C. BYRD. I announce that the the Senator from Montana (Mr. Baucus), the Senator from Texas (Mr. BENTSEN), the Senator from Florida (Mr. CHILES), the Senator from California (Mr. CRANSTON), the Senator from Illinois (Mr. Dixon), the Senator from Nebraska (Mr. Exon), the Senator from Colorado (Mr. Hart), the Senator from Louisiana (Mr. Johnston), the Senator from Vermont (Mr. Leahy), the Senator from Montana (Mr. MELCHER), the Senator from Ohio (Mr. METZEN-BAUM), the Senator from Arkansas (Mr. PRYOR) and the Senator from Michigan (Mr. RIEGLE) are necessarily absent.

I further announce that, if present and voting, the Senator from Michigan (Mr. RIEGLE), the Senator from Nebraska (Mr. Exon), and the Senator from IIlinois (Mr. Dixon) would each vote "yea."

The PRESIDING OFFICER. Are there any other Senators in the Chamber to vote?

The result was announced-yeas 67, nays 8, as follows:

[Rollcall Vote No. 251 Leg.]

So the conference report (H.R. 4242) was agreed to.

Mr. DOLE. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. BAKER. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent that there now be a brief period for the transaction of routine morning business, to extend not more than 20 minutes in length, in which Senators may speak.

The PRESIDING OFFICER. Without

objection, it is so ordered.

The Senator from Virginia is recognized.

A POLICY FOR SOUTH AFRICA

Mr. HARRY F. BYRD, JR. Mr. President, I commend President Reagan for personally meeting with the Foreign Minister of the Republic of South Africa, Mr. Botha, during his recent visit to this country. This suggests the Reagan administration is changing our Government's official attitude toward South Africa.

I hope that is the case. I believe that it is time for the leadership of this country to conduct foreign affairs in such a way that the future well-being of the United States is placed in the highest

priority position.

At the outset of these remarks, I want to make it clear that I do not personally agree with the apartheid policy of South Africa; I wish that this racial situation did not exist in that country. But undesirable political situations do exist in many countries. Because such situations do exist does not mean that we should cut ourselves off from such countries.

The real issue now is: How can we best live within existing conditions, while we encourage those in power in South Africa as well as other countries to work for improved conditions for their

citizens?

I met with Foreign Minister Botha during his recent visit, and I had an extended conversation with him about his country. I am convinced that time will bring change to that country as it has done to others.

South Africa is friendly to the United States-and supportive. South Africa is also of great importance to the United States and to the Western World. The Western nations need to remember this.

We also need to remember that, for the past several years, we have pursued a policy that has not worked to improve conditions, and I feel a continuation of that policy will not work in the future.

Today, I wish to review what South Africa currently means to her southern African neighbors and what the impact would be on the industrialized nations should the leadership of South Africa fall into the Soviet orbit.

Whereas there has been criticism of racial policies around the world for many years, the disestablishment of colonial empires in the late 1940's and during the 1950s brought about the strongest and most bitter criticism of white influence and leadership on the continent of Africa.

At a conference of African states in 1960, the first regional step was taken by African countries to isolate the republic of South Africa from the world community by initiating a trade boycott.

The Organization of African Unity, organized in 1963, has provided the institutional framework for activity against South Africa.

Various African leaders and nations have been very outspoken in their condemnation of white-ruled South Africa. At the moment, the leader of this group is Nigeria.

The United Nations has been a forum for constant denouncements and harassment of South Africa.

But let us look beyond these words of condemnation. If we do, hypocrisy is apparent.

It is difficult to obtain precise information on the degree of trade that South Africa does with neighboring states, and therefore it is difficult to determine the degree of dependence on South Africa by other southern African countries. Most of the African nations will not release detailed information concerning trade. However, South Africa is the dom-

inant trade partner with the southern African countries. These countries are very dependent on South Africa for their day-to-day existence.

In 1980, South African trade with these African countries was greater than ever before and all indications are that this trade is accelerating. As trade accelerates, so does the dependence of these countries on South Africa.

South Africa's transportation systems-railways, highways, seaports, and equipment—are utilized by neighboring countries for export and import trade. Often these transportation systems are the only means of export-import trade. In other instances they are the most efficient.

Without the utilization of these systems, much of the trade with the outside world by several of these countries would be lost entirely and trade by other nations would be substantially reduced.

Mr. President, reports show that South Africa's exports to her neighbors reached an all-time high in 1980-up about 50 percent from the previous year.

In one recent year, an estimated 73 percent of machinery and spare parts, 55 percent of the chemicals, 89 percent of the plastics and rubber products, and 75 percent of the transport equipment imported by southern African countries came from South Africa.

South Africa, the only country on the African Continent able to be a major food exporter, provides more foodstuffs to southern African nations than all other countries. Without these foodstuffs the quality of life would be reduced and famine in southern Africa would be on the increase.

A number of neighboring states currently purchase electricity from South Africa and more are trying to work out agreements to do so. There is no other way for them to obtain electricity. South Africa has also been a purchaser of electric current from Mozambique's Cabora Bassa hydroelectric power dam.

South Africa is a major supplier of refined oil to five of her neighbors.

South Africa has substantial ongoing capital investments in all of the southern African countries except Angola and Tanzania.

An estimated 200,000 migrant workers from all of the neighboring countries except Zambia are wage-earners in the South African business community.

South Africa is the major supplier of aid funds to southern Africa. According to the recent study of South Africa by the Foreign Policy Study Foundation, which was funded by the Rockefeller Foundation, South Africa spent \$200 million on development aid and technical assistance in the region during 1980. This corporation and aid assistance to African countries was primarily on soil conservation, health and medical services, famine relief, and veterinary science. All other nations combined did not equal South Africa's financial contribution.

Comparing South Africa to the whole of Africa, South Africa produces 86 percent of the steel; generates 50 percent of the electric power; has 43 percent of the registered vehicles; and 42 percent of the telephones.

South Africa has the highest per capita income and longest life expectancy of any nation on the continent.

Mr. President, South Africa not only performs an essential role in the wellbeing of her neighbors to the north, but she also is an integral part of the West-ern world's economy. Without the raw materials which she alone can supply, the industrial nations would face possible disastrous consequences.

South Africa occupies less than 1 percent of the world's land surface, yet in volume it is the world's fourth largest supplier of nonfuel minerals. It possesses the world's largest known deposits of chromium, manganese, platinum-group

metals, vanadium, and gold.

In addition, South Africa has major reserves of many other minerals including asbestos, coal, copper, diamonds, iron, nickel, phosphates, silver, uranium, antimony, beryllium, vermiculite, and zinc. All of these are essential to the industrialized nations because of strategic, industrial, and economic uses.

Many nations, while increasing trade relations, are vocally condemning South

Africa.

The United Kingdom, West Germany, and France as part of the European Economic Community, have condemned apartheid without reservation. However, commerce between the three and South Africa is on the increase.

EEC trade with South Africa is three times more than that of the United

States with that nation.

European banks, particularly West German and French, are very active in South Africa. Banks from these two nations placed an estimated \$6 billion in South African enterprise during the past decade

Japan also has taken an active role in the denunciation of South Africa. However, during the late 1970's South African exports to Japan rose 85 percent in a 3-year period (to \$1 billion) and imports from Japan rose 33 percent in this same time frame (to \$950 million). Estimates for the first 6 months of 1980 show a 45 percent increase in trade between these two nations. Japanese banks have also made substantial investments in recent years.

Western nations and Japan will continue to increase trade with South Africa because of the location of raw materials.

Furthermore, the economic depend-ency of surrounding States on South Africa is likely to grow rather than decrease.

So it is blatant hypocrisy for these nations to demand that the United States impose economic sanctions on South Africa, when they, themselves, carry on a robust trade with that country.

Some 2,300 ships ply the water around the Cape of Good Hope each month. These ships deliver about two-thirds of Western Europe's imported oil, and about three-fourths of the strategic raw

materials used by these NATO countries.

Today, Soviet and Soviet surrogate forces are in many African states where they are impacting upon governments.

Up to 20,000 Soviet and Cuban personnel are in Angola. The leadership of Mozambique and Zimbabwe consists of avowed Marxists. Zambia has concluded a number of agreements with the U.S.S.R. and is utilizing Soviet military

equipment.

The Soviet Union is not satisfied with dominance of the sub-Sahara above the Tropic of Capricorn. The Russians recognize that any military force north of Capricorn is threatened so long as South Africa possesses its military power.

There can be no doubt about Soviet objectives. Clearly, the principal long-range objective of the U.S.S.R. is South Africa. Southern Africa and the U.S.S.R. together represent the major resource areas for many key minerals.

There are some obvious reasons why Soviet control of this area of the world could place Western nations in jeopardy.

They are:

First. Ability to deny access to strategic and critical nonfuel minerals in a war situation.

Second. Ability to obtain hard foreign currency for access to these minerals.

Third. Ability through exorbitant prices to bring down capitalistic systems.

Fourth. Ability to curtail other national influences in Africa.

Fifth. Ability to control from the littoral of southern Africa the sea lanes of commerce.

There is no historical evidence to show that deposing the white minority would result in representative government and individual freedom in South Africa. There is considerable evidence to show that this would not be the case. Surely, we cannot be so naive as to believe, based on reason, that economic progress would continue.

I find it difficult to identify a single government in that part of the world that is truly representative of its people. There is not one government on the continent that is a representative government on the continent that is a representative government.

ment by our standards.

I am advised that a majority of the members of the United Nations has a ready-made solution to the separation of South West Africa (also known as Namibia) from South Africa. That simplified solution is to turn the areas over to the South West Africa People's Organization (SWAPO). This is an Angola-based Communist group.

These readymade solutions concern me very much.

I feel sure that there are some who feel that a SWAPO-type organization could take over South Africa. If such an organization did prevail, I fear for progress that had been made to improve the way of life of South Africa. I am not aware of any Communist takeover that improved representative government, and I am aware of economic disaster following such a takeover.

I say that the United States and the industrial countries must not stand by and let the Communists gain their ob-

jective

The many nations in sub-Sahara Africa depend on South Africa. The quality of life as well as the lifespan of all southern Africa will be reduced if rhetoric prevails and logic fails.

Should the white minority be arbitrarily deposed, those who would cheer the loudest would be those first on the doorsteps of every Western capital demanding aid for that country that used to supply aid to others, and they would also demand aid for those countries that used to receive aid from South Africa.

There are four options for our conduct of foreign policy with respect to South Africa.

One option is continuation of what may be called drifting and hoping.

Another option would be to treat South Africa as an outcast among nations—cut her off from commerce and communication with the free world. That would be a disaster.

The Carter administration appeared to veer between these two options.

But there is a third option of placing South Africa in the same position as other historically friendly nations. I recommend this option.

We should normalize our relations, We should encourage unrestricted

We should consider the utilization of South African facilities for future ports of call for American naval vessels.

We should assist in the buildup and modernization of South African air and naval forces by selling appropriate new weapons systems.

It is particularly important that we strengthen the naval and air forces of free world nations in the Southern Atlantic and Indian Ocean areas.

We should give careful consideration to the establishment of an international air and naval force for that part of the world. Involvement should include those noncommunist nations bordering on these waters which are dependent on sea commerce for survival: South Africa, Australia, New Zealand, Brazil, Argentina, the United States, and perhaps others.

I will have more to say on this later. I believe it is time for the free world to take a strong stand in support of progress and stability in South Africa, and we should take whatever actions are necessary to insure that South Africa does not fall into the Soviet orbit.

EXTENSION OF TIME FOR ROUTINE MORNING BUSINESS

Mr. BAKER. Mr. President, I ask unanimous consent that the time for morning business be extended to 3:15 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXPIRATION OF EMERGENCY PETROLEUM ALLOCATION ACT

Mr FORD. Mr. President, the Emergency Petroleum Allocation Act (EPAA), expires on September 30. Implementation of this act with its myriad of allocation and price controls has been far short of a complete success. However, the fact remains that it did work to a degree. What we have never faced in this country is a chaotic market resulting from a severe petroleum crude and prod-

uct shortage with no mechanism in place to address the problem.

The Senate Energy and Natural Resources Committee has concluded a series of hearings on the issue: Do we need a Federal mechanism, preferably much less complex than that under EPAA?

Mr. President, I, for one, believe that we do and will cooperate with my colleagues to that end. The prevailing theology seems to be that the "free market" will take care of everything; everything, that is, except nuclear.

I, for one, do not believe that this will work when we have an emergency condition resulting from a severe cutoff of oil supplies. And this cutoff could happen at any time. The chances of it happening are much greater than the chances of it not happening.

Mr. President, the administration's position is set forth in the U.S. Department of Energy's July 1981 report on "Domestic and International Energy Emergency Preparedness":

The Administration is opposed to enactment of any petroleum allocation or price control authority, including extension of the Emergency Petroleum Allocation Act . . . Adequate levels of private and government stocks and reliance on the market will assure that the adverse effects of oil supply disruptions are minimized and that the various groups of procedures and consequences and different regions of the country will be treated equitably.

The report goes on to take the position that in an emergency:

Authority will be available under the Defense Production Act to allocate oil supplies for national defense purposes should that become necessary during a major disruption.

I agree with this position. However, I and many of my colleagues will take issue with the administration when it adds:

Other Authorities also exist that could be used to restrict demand, encourage additional domestic oil production, encourage fuel switching, increase fuel use efficiency, and encourage private stock drawdown by reducing the tax impact of such action.

Only July 28, W. Kenneth Davis, Deputy Secretary of DOE, reiterated the administration's position in testimony before the Energy and Natural Resources Committee. He specified that—

Relying on market forces for the development of adequate levels of private petroleum stocks, combined with SPR fill, is the most effective measure available for reducing shortfalls in petroleum supplies and the associated economic losses and national security threats.

Well, Mr. President, private stocks are not increasing. They are decreasing. Worldwide, in the first 6 months of this year the drawdown was one billion barrels. And they will continue to decrease as long as they are being held at 20-percent interest on investment.

Mr. President, I ask unanimous consent to have printed in the RECORD a Cabinet Council "Memorandum for the President" relating to the eventual decision to opt for solutions by "free market."

There being no objection, the material was ordered to be printed in the RECORD. as follows:

THE WHITE HOUSE, Washington, D.C.

Memorandum for the President.

From: James G. Watt, Chairman Pro Tempore, Cabinet Council on Natural Resources and Environment.

Issue: Should the Administration support enactment of some form of petroleum regulatory authority for essential emergency services, to replace the Emergency Petroleum Allocation Act (EPAA), which expires September 30?

BACKGROUND

In the wake of the 1973 oil embargo, Congress enacted the EPAA, giving the President virtually complete control over the domestic petroleum market.

This authority was exercised through allocation and price controls, along with a number of special provisions sought by specific constituencies, such as farmers and small refiners. All such controls were abolished on January 28, 1981. The authority to re-impose such controls, which the President currently retains, will expire on September 30,

As a result of the embargo, the United States joined with twenty other free world countries in the International Energy Agency, committing itself to sharing oil supplies the event of severe supply disruptions. There is authority in continuing law for the President to direct whatever actions are necessary to comply with our IEA obligations. There is a separate statute which allows a limited antitrust exemption so that oil companies may participate in this international agency's planning and operational programs. This exemption will also expire on September 30, but it is relatively uncontroversial, has been extended already on several occasions, and should be extended again, as an unrelated matter.

DISCUSSION

From campaign pledges and general philosophy, there is no doubt that the Administration opposes government intervention in the energy markets generally. All Council participants agree that government controls exacerbate, rather than solve, most shortages; disagreement comes only as to whether, in a very extreme disruption, the market would adequately provide for a few essential

After September 30, there will be a number of emergency authorities which vary in application and triggering mechanism, such as the Defense Production Act, the Trade Expansion Act, the Emergency Energy Conservation Act, and others. The Administration will also have power over specific crude oil supplies, including the Strategic Petroleum Reserve, and some oil from the Naval Petroleum Reserve, and royalty oil from federal lands

The Justice Department has done a legal analysis and concluded that, without additional legislation, the President will have sufficient authority after the expiration of EPAA to meet our international obligations. To calm any remaining doubts on this, Justice could testify on its interpretation of EPCA, and we would seek confirmatory committee report language. However, Justice has concluded that there will not be sufficient authorities to duplicate the comprehensive price controls and allocation authority available under EPAA. There is debate as to whether remaining authorities could provide the best response to any future crisis.

Both House and Senate Committees have held hearings on this issue, and there is considerable pressure by various special interest groups for "protective" legislation upon ex-piration of EPAA. The Republican Chairman of the Senate Energy Committee has indicated that the United States cannot responsibly be dependent on anything less than full preparation for allocation after EPAA has expired, including appropriate legal authority and clear Administration commitments take decisive federal action, if necessary. GOP leaders on the House Energy Subcommittee are not favorable to new allocation

OPTION 1

Oppose any new legislation authorizing controls on petroleum markets. Indicate that any emergencies caused by oil supply interruptions would be met by primary reliance on the market to restore equilibrium, supplemented by other existing authorities.

Without new legislation, the Defense Production Act would allow for meeting defense needs, use of government-owned supplies, such as Strategic Petroleum Reserve, could meet some part of a general shortfall, or could be used to meet essential emergency needs, and the Trade Expansion Act would allow for quotas or tariffs on imports. To provide back-up for our IEA international sharing obligation, we would develop a plan for fair sharing among U.S. oil companies which the President could use if he deemed it necessary to meet our obligations.

In addition, general emergency preparedness operations in DOE and FEMA would continue to evaluate potential threats, and update plans for facilitating private and government response to them, including con-tinuing evaluation of potentially useful legislation. Since the actual crisis that could occur in the future may be far different from that contemplated today, legislation based on today's thoughts may well be ineffective when the crisis occurs. Advantages:

Consistent with administration opposition

to federal regulation in energy markets.

Avoids support of concept of legislation which could invite passage of unnecessarily broad authority.

Prevents enactment of statutory authority which could be abused by a different administration.

Maximizes Presidential flexibility to meet unpredictable crises.

Reduces disincentives to private stockpiling and other means of self-protection in an emergency.

Disadvantages:

Existing authorities might not allow control of petroleum supplies if that were to be needed to prevent catastrophic consequences for certain users.

Political pressure at the time of a crisis could be almost irresistible, and may result in passage of a more disruptive and inefficient law.

Might be perceived by our allies as unwillingness to take measures necessary to

deal with an emergency.

Without administration leadership for a very limited bill, Congress may pass far more extensive and onerous legislation, perhaps even extending EPAA.

Without some federal legislation, states may be free to pass control laws of their own, unless pre-empted by federal action.

OPTION 2

Propose legislation to grant the President authority to declare a severe petroleum shortage, and in such cases to direct petro-leum supplies to meet "essential emergency needs." The proposed would not include explicit price control authority, but the President could order that sales be made at "non-discriminatory" prices. It would be anticidiscriminatory" prices. It would be anticipated that this authority would not be used except in situations far more severe than any we have so far experienced.

This authority would allow the President to direct supplies to meet the direct needs of farmers, police services, etc., in the event that such supplies were not available in the marketplace. It would not directly meet the problems of users who were unable to afford supplies due to the higher prices caused by a disruption.

Advantages:

The legislation would be sufficiently broad and flexible that the President could restrict its use to only those cases where some action was clearly warranted to alleviate critical situations.

Such authority would provide the President with an available tool to meet an emergency.

The proposal might prevent Congressional enactment of broader, and more disruptive, legislation.

Existence of standby legislation would prevent conflicting state legislation.

Enactment of standby authority would provide public confidence that there could be an immediate response to a very severe shortage.

Disadvantages:

Use of such authority could worsen any crisis by disrupting market adjustments.

Any standby legislation might quickly become obsolete, necessitating repeated amend-

Such authority could be abused by a different Administration.

Existence of such authority could distort investment and private stockpiling decisions.

The existence of such legislation would create pressure for its use in advance of government intervention being wise.

Requesting such authority could be considered a retreat from the Administration's support for deregulation.

RECOMMENDATION

The preponderance of the Cabinet Council discussion favored Option 1.

Interior, Transportation, Commerce, OMB, and CEA specifically recommend Option 1.

Agriculture recommends Option 1, but notes that if any measures for allocation were undertaken, Agriculture should have top priority.

Energy and Justice specifically recommend Option 2

Mr. FORD. Mr. President, this memorandum has two points that open to question the final decision.

However, Justice has concluded that there will not be sufficient Authorities to duplicate the comprehensive price controls and alloca-tion authority available under EPAA. There is debate as to whether remaining Authorities could provide the best response to any future

This is precisely the point that the Energy and Natural Resources Committee has been examining.

Second, the memorandum notes that Energy and Justice specifically recommended an option other than the one chosen.

Energy and Justice, in the course of the decision development, would suggest:

Propose legislation to grant the President authority to declare a severe petroleum shortage, and in such cases to direct petroleum supplies to meet essential emergency needs. The proposal would not include explicit price control authority, but the President could order that sales be made at "non-discriminatory" prices. It would be anticipated that this authority would not be used except in situations far more severe than any we have so far experienced.

Mr. President, I submit that the Departments of Justice and Energy were correct at the time they recommended this option.

I hope that my colleagues realize that one possible effect to "no Federal law under any circumstances" will be up to 50 State laws covering allocation and pricing of petroleum products.

Two timely reports on this possibility recently have been developed, one by the State Relations Department of the American Petroleum Institute, the other by the Congressional Research Service.

The CRS study has the following conclusions and observations:

The expiration of EPAA marks the termination of nearly ten years of extensive Federal regulation of petroleum, and petroleum product, regulation. That regulation has involved both allocation and pricing regulation during periods of seemingly major shortages of supplies.

It seems likely that unless the Congress moves to continue EPAA in its present standby status, or enacts other laws preventing state regulation by preemption, many states are likely to provide new statutory author-ity to regulate some aspects of pricing and allocation which were subject to regulation under EPAA.

In addition to moving to fill the void of Federal regulation, the expiration of EPAA also marks a point where state regulation may be expanded for purposes of providing tax revenue, carrying on production conser-vation, and other forms of regulation which may have formerly conflicted with EPAA.

While EPAA's expiration is presently automatic, it would seem that the impact of total termination of Federal regulation should be carefully assessed at the national level because of the enormous economic significance of petroleum and because of what has now become our obvious dependence upon un-reliable foreign sources for petroleum.

The potential impact of numerous differing state laws regarding allocation and distribution of petroleum, even though they may be constitutional, is difficult to assess in a practical sense.

The need for national laws to be used in the event of an emergency or in the event of short supplies involves a matter of such major importance that only Congress can pass final judgment.

Mr. President, I ask unanimous consent that the API report and pertinent portions of the CRS report be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

STATE RESPONSE TO DECONTROL: EMERGENCY ENERGY MANAGEMENT, MARKET WITHDRAWAL LEGISLATION, AND RELATED 1981 LEGISLATIVE ACTIVITY IN THE STATES

The following report has been prepared to indicate state legislative activity on a number of related issues which have taken on additional importance in light of federal decontrol of petroleum product prices. Pending legislation on market withdrawals; energy emergency management, including data collection; attempts at price regulation and changes in traditional business practices will be examined.

MARKET WITHDRAWALS

New Mexico (1979) and Virginia (1980) had enacted market withdrawal legislation prior to action taken in Maine. Within seven hours, shortly after decontrol went into effect, the Maine Legislature enacted, and the Governor signed into law, Chapter 3, 1981, which, as an emergency measure, would prohibit a petroleum supplier from discontinuing supply to state customers or reducing a monthly allocation by more than 25% unless the supplier furnishes a "reliable alternative source" or continues to supply customer for twelve months following notice to the customer and the Governor of an intent to withdraw.

Covered customers include tobbers, wholesalers, consignees, commission agents, distributors, bulk purchasers and any other purchaser from a supplier. The act covers gasoline, distillates, residual, avgas and LPG. Under a "sunset" provision, the act terminates on April 1, 1981. However, recent introduction of L. 977 would repeal this April 1 termination date and make permanent the act's provisions. Hearings are being held on the matter.

Oklahoma S. 271 would require a product supplier to give 30 months' notice of with-drawal or a reduction of 25% or more in al-locations to distributors. The supplier would be required to continue deliveries or furnish an alternate source of product supply during the notice period.

ENERGY EMERGENCY MANAGEMENT

State agencies

Although eleven states currently have measures pending which would revise or reorganize state-level energy agencies, two states are examining potentially onerous legislation: Indiana and Georgia. The Indiana bill (H. 1769) would establish a state energy agency designed to collect state-wide energy data and "regulate certain uses of energy." Georgia's proposal (H. 268) would establish an energy council whose mandate it would be to review and oversee the production, output, use and price of all energy resources in the state.

Washington State (H. 402, H. 403) and Oregon (H. 2258) bills are pending to require the states' energy offices to prepare comprehensive, long-range energy forecasts on costs, conservation, production and distribution.

Data collection

An issue closely related to state agencies' activities, data collection requirements imposed on the industry at the state level are under consideration in five states. Hawaii H. 279 would require the state's public utility commission to report every two years to the Governor on energy trends, supply/demand and conservation.

Maine L. 762 would expand the state's Office of Energy Resources' authority to obtain petroleum supply data by amending an al-ready-existing state law. The preamble to the legislation notes that the Office of Energy Resources now depends on copies of reports now submitted to the federal DOE, which may no longer be available. The measure would require primary suppliers to furnish semi-monthly data on actual deliveries during the preceding month and anticipated deliveries for the following month, plus any allocation factors. It would also expand the definition of products covered to include avgas, Bunker C and gasohol, along with the gasoline, propane, distillate and residual reports currently required.

In Massachusetts, a perennial introduction (S. 421) has been filed to require "major" oil companies to submit detailed inventory, sales and other data to the State Energy Resources Department. A Montana bill (H. 16), which would allow the state to collect various supply/demand data from suppliers and distributors, has already passed the House. Ohio H. 6 would establish procedures in the state for making long-range energy forecasts.

None of these measures has received final legislative action; all are currently pending.

Allocations of product

State-controlled allocations of productor continued operation of state set-aside programs—are being addressed in legislative form in eight states. A brief description of the various proposals follows:

California A. 489 would make it "an unfair practice" for certain franchisors to fail to supply or offer to supply their franchises starting December 1, 1982, with the same amounts of products, under the same conditions and terms, that were generally available to their franchisees on January 1, 1981.

Maryland H. 381 would transfer state fuel allocation authority from the State Controller's Office to the Natural Resources Department.

Lieutenant Governor O'Neill and several Massachusetts legislators have filed legisla-

tion (H. 4193) which has been described as "Fair Supply Act." It would require oil producers, refiners or suppliers to allocate to independent oil dealers at least the same amount of oil as they received in 1980. The measure appears to be specifically aimed at the state's heating oil supply allocations. Legislation is expected in Minnesota which

will continue the state set-aside program for gasoline, fuel oil and other fuels used in transportation or agriculture. Distributors would be required to keep available each month an amount equal to one-twelfth of 3 percent of that distributor's 1980 sales of gasoline, and one-twelfth of 4 percent of the 1980 sales of fuel oil. As in the past, the State Energy Agency would operate the program and determine where the set-aside program would be terminated on June 30.

New York A. 197 would extend to July 1, 1985, an existing law (due to expire on July 1, 1982) which provides for stand-by authority, effective on termination of the federal allocation program, to institute a 3 percent set-aside program and to require prime suppliers to submit monthly reports on products subject to the set-aside.

Rhode Island H. 5326 is a resolution which asks Congress to develop a 10-million to 20-million barrel petroleum reserve for the New England states. It has already been approved by the House.

Texas H. 110 would permit the State Division of Disaster Emergency Services to allo-cate additional supplies of gasoline to service station owners in each county experiencing a substantial increase in gasoline consumption as the result of a disaster, with inquiries and applications for additional supplies of gasoline to be handled by the Texas Energy and Natural Resources Advisory Council

(TENRAC). In West Virginia, H. 809 would authorize the governor to mandate the equitable allocation or distribution of gasoline and special fuels by any producer, refiner or jobber/distributor of petroleum products in the state during the period of any fuel emergency. It would also prohibit the inequitable transfer of such fuels to any company-owned and operated service station during a fuel emergency.

State energy emergency response

Currently, fifteen states' legislatures are examining proposals to extend, amend or broaden the powers of the governor in a state of "energy emergency." Because of the diverse nature of the proposals—and the complexity of their current status-it is best if we examine each state's activity separately.

Arizona S. 1122 would specifically define a "petroluem supply emergency" and propose methods for use by the state in coping with such a situation. In Georgia a proposal, which is very comprehensive (H. 121), would create a state emergency management agency with the authority to act as the result of a broad range of defined emergencies (including threatened shortages of usuable energy resources, their transportation, oil spills and other related actions). "Energy resources" are defined in the bill to include all forms of energy or power, including oil, gasoline and other petroleum products.

By amending the governor's powers to al-

low him to set rules without a legislative hearing, Hawaii H. 771 would allow the im-position of various controls to handle shortages of petroluem products during emergency

situations.

Indiana S. 72, which has already been approved by the Senate, would authorize the governor to declare an energy emergency, exercise emergency powers and order into effect programs, controls, standards, priorities and quotas for production, allocation, conservation and consumption of energy. These powers would be valid for a 60-day period, renewable for another 60 days, after which legislative approval would be needed. A House bill

on the same subject is still pending in com-

mittee (H. 1190).

Approved by the House, Maryland H. 44 would extend until March 15, 1982, the authorization of the governor to exercise certain powers during energy crisis emergency situations.

Mississippi's House has already approved 367 which would allow the governor to subpoena witnesses, records and other materials in the event of an energy emergency. Amended on the House floor prior to its passage, the bill would also create a state office of petroleum allocation and a state setaside program, which would only be in effect during an energy emergency declared by the governor. An additional amendment, also approved, requires that the governor have the concurrence of the lieutenant governor or speaker of the house before such an emergency can be declared. (S. 2012, a similar measure, is still pending.)

Approved by the House and currently in the Senate Natural Resources Committee, Montana H. 90 would amend the governor's energy emergency supply powers. H. 16, re-ported above under "Data Collection," was amended before House passage to also en-hance the powers of the governor during en-

ergy supply emergencies.

Four 1980 New Jersey bills, which were carried over to 1981 legislative deliberations, address a variety of "emergency" responses. A. 625 would prohibit "price gouging" by sellers of home heating oil when the gover-nor declares that there is an "abnormal shortage." A. 629 defines the rights and obligations of retailers and consumers of home heating oil and gives the state DOE certain powers to initiate fuel oil service in emergencies. A. 1362 (approved by the Assembly) would create a state "energy emergency pre-paredness committee" to advise the commissioner of the state DOE concerning alloca tion of scarce energy supplies. A. 3658 would prevent home heating oil dealers from adopting retail credit policies that are more stringent that those that were in effect during the 1978-1979 winter heating season.

New Mexico H. 261 would extend the state's "energy emergency powers act" to July 1, 1983. North Dakota H. 1363 (approved by the House and awaiting imminent passage in the Senate) gives the governor power to declare energy supply "alerts" and an "energy emer-gency" and creates guidelines for action by public and private entities. Pennsylvania H. 494 further delineates the governor's powers and duties in the event of energy or fuel supply emergencies, resource shortages, or

supply or distribution problems.

Already on the governor's desk awaiting signature, Utah S. 70 establishes a comprehensive emergency management organization for the state and permits the establishment of an "emergency advisory council." Vermont S. 51 would extend the governor's energy S. 51 would extend the governor's energy, emergency powers until June 30, 1983, and has received Senate approval. A joint resolution (S.J. Res. 13), already approved by the Senate and under consideration in the House, would revamp the state's emergency

energy plan.

Virginia bill (S. 667), which was passed by indefinitely during the state's just completed 1981 legislative session, would have added a paragraph to the governor's emergency powers to allow him to authorize reductions by producers and refiners of their monthly allocable supplies to purchasers of petroleum products for any region or area in the state by 5% and to increase the total quantity of any allocation products available in another region or area experiencing shortages (to meet regional imbalances). shortages (to meet regional influences). However, the legislature did approve a measure (H. 1119) which amends the state's "emergency services and disaster law" to use the term "emergency" in place of the word "disaster" as the trigger for the governor's powers to go into effect.

Two Washington State bills would modify the governor's powers during energy short-

ages, to permit him to delegate limited authority to local governments during energy shortages (S. 4208) and would extend the expiration date of his powers during energy shortages from June 30, 1981 to June 30, 1985.

PRICING REGULATION

Various proposals have been introduced at the state level which would, for the most part, ask that "freezes" be placed on prices charged for certain petroleum products.

Massachusetts S. 162 proposes that an investigation be undertaken on major oil companies' price and supply practices. A. 3001 proposes the creation of a special committee to review "discrepancies" in retail prices levied on certain petroleum-derived products for sale in the State of New Jersey.

Rhode Island's Legislature will be considering two resolutions asking Congress to freeze the prices of oil and gasoline in New England at a "ceiling" no higher than the charges that were in effect on January 27. 1981 (already approved by the House) and petitioning Congress to "shield" consumers from the high price of No. 2 heating oil (passed by the Senate). Another proposal, 416, would require wholesale fuel oil distributors to give retail dealers two-days notice of price increases.

CHANGES IN TRADITIONAL BUSINESS PRACTICES

A number of loosely-related proposals that would fall under a general classification entitled "Changes in Traditional Business Practices" have been introduced. They tend to be, at present, more specific than general in focus and include:

Measures in Connecticut to prevent fuel oil dealers from requiring minimum delivery quantities (H. 6093), to prohibit retail oil dealers from requiring security deposits (H. 5333); a bill in Maryland (H. 1145) which would prohibit home heating oil suppliers from assessing service charges on certain sales of home heating oil; bills in Massachusetts to initiate an "Interstate Fuel Oil Compact" covering the production, market-ing and distribution of home heating oil (H. 3038), to create a "strategic petroleum reserve," and to authorize Sunday deliveries of gasoline, diesel, and heating oil (H. 3694currently a practice banned under the state's Blue Laws").

New Jersey A. 324 would prohibit "providers" of electric and gas service and fuel oil dealers from discriminating against customers who are using "alternate energy systems." A New York measure (S. 1176) would require a contractor with home heating oil burner service contracts to conduct yearly

oil burner efficiency tests.

Rhode Island H. 5525 would require fuel oil suppliers (of grades No. 1, No. 2 and No. 3). upon delivery of fuel to a consumer, to supply the consumer with an invoice stating: the number of gallons delivered; the retail price per gallon; the total sales price; and the per-gallon wholesale price. Every fuel supplier/seller would be required, on a daily basis, to conspicuously post the pergallon wholesale and retail price at his principal place of business. Failure to comply carries with it penalties of a fine in an amount equal to twice the retail value of the fuel oil delivered, with 50 percent of the fine revenue to the consumer and 50 percent to the state, plus a \$100 fine for each day of violation.

LEGAL EFFECT OF THE EXPIRATION OF THE EMERGENCY PETROLEUM ALLOCATION ACT. TERMINATION OF FEDERAL STATUTORY PRE-EMPTION OF STATE LAW

INTRODUCTION

The purpose of this report is to examine the legal effect of the expiration of the Emergency Petroleum Allocation Act (EPAA) ¹ as it relates to issues involving the preemption of state law. EPAA has provided

Footnotes at end of article.

since its enactment in 1973 the principal source of Federal authority for the regula tion of price and allocation of crude oil and petroleum products in the United States.

Under the terms of Section 18 of EPAA, as amended,2 the Act is presently scheduled to expire at midnight on September 30, 1981. However, because EPAA provided for a broad series administrative decontrol actions, most recently by the President without the approval of Congress, price and allocation regulations which were originally mandated by EPAA have now been completely lifted.

The most recent action suspending the then remaining controls was taken by President Reagan on January 28, 1981, through the issuance of Executive Order 12287.3 This Order had the effect of lifting all remaining price and allocation controls under EPAA on crude oil, gasoline, and propane, effective immediately. Although suit was brought challenging this decontrol, the validity of the Order was sustained by the U.S. District Court for the District of Columbia on March 4, 1981.

Although all price and allocation controls are now removed, EPAA continues to have the force and effect of law and could technically authorize the administrative reinstitution of some, or all, controls until its expiration September 30, 1981, when the entire Act as amended expires thereby moving all authority to impose controls.

The price and allocation regulation carried on under EPAA has had the legal effect of preventing conflicting state regulation. The expiration of EPAA appears to have the effect of reviving existing state laws and regulations whose enforcement may have been forestalled during the life of EPAA, as well as permitting states to undertake new forms of regulation within the constitutional scope of state powers.

This report addresses several issues relating to those matters. Specifically, this report analyzes the nature of the preemption carried on under EPAA. Then, the report examines the relationship of state conservation laws with Federal laws. The Constitutional limitations on state regulation of petroleum are also significant, and this report addresses the broad framework of state intrusions upon the Commerce Clause. Finally, the report will present, and briefly analyze, current state statutes relating to the regulation of retail sales of petroleum, including some statutes that provide for certain allocation authority. [Note: This detailed analysis is omitted from this insertion in the RECORD.]

CASE LAW ON EPAA PREEMPTION

The expiration of EPAA will entail, among other things, the expiration of Section 6(b) of EPAA, which provides:

'The regulation under section 4 [providing for price and allocation rules for crude oil petroleum products] and any order issued thereunder shall preempt any provision of any program for the allocation of crude oil, residual fuel oil, or any refined petroleum product established by any State or local government if such provision is in conflict with such regulation or any such order."5

In essence, this provision made clear that EPAA was intended to supplant any inconsistent regulatory activity at the state or local level. There appears to be little in the way of legislative history relating to the provision as it was enacted in 1973. The conference report offers no analysis of the pro-vision 6 and the House Report merely paraphrazes it.7

The expiration of EPAA, along with its preemption provision, appears to allow the return to the regulatory status prior to the enactment of EPAA. There is no known statutory provision which would operate to further preempt state activities of the sort might have conflicted with EPAA during its

An appropriate beginning point in the discussion of what powers of the states will become unrestrained after the expiration of EPAA is to consider, first, the case law which litigated under Section 6(b) of EPAA. Although there has not been extensive litigation under Section 6(b) regarding the scope of EPAA preemption of state law, the cases which have been brought are in-structive on many of the issues which may be raised in connection with state regulation or state legislation after the expiration of

Many of the early cases touching on Section 6(b) issues involved the question of whether EPAA has the effect of invalidating contracts for crude oil and petroleum prod-ucts which would have been lawful under state law. In answering this question consistently in the affirmative, the cases, to one degree or another, pointed out the supremacy of the Federal enactment, EPAA, or more generally characterized the preemptive powers of Congress to invalidate contracts.

In addition to these cases, a number of cases were decided in state courts involving the issue of the scope of Section *(b) preemption. These cases almost uniformly found that Section 6(b) operated to preempt only allocation regulations of the states and not pricing matters.9

Other state court cases have addressed the matter of actual conflict between Federal regulations and specific state regulations observing that under Section 6(b) only those state provisions which are in actual conflict with Federal regulations must give way.10

One of the significant Federal cases involving the scope of Section 6(b) preemption is Consumers Power Co. v. Federal Energy Administration,11 where the District Court in Michigan concluded that the Federal Energy Administration had no authority to take a series of actions relating to the use and price of synthetic natural gas made from natural gas liquids subject to regulation under EPAA. Among other things the Court observed that preemption of state regulation of end uses and pricing of synthetic natural gas was not necessary in order for FEA to carry out its equitable allocation responsibilities under

It is worth noting that virtually all of the cases under Section 6 are somewhat limited in reach, and apparently none of the Section 6 cases fully explored a reasoned definition of the complete scope of Section 6(b), but instead focused upon the conflicts between Federal and state regulation immediately presented by the litigation.

The state court holdings confining the reach of EPAA to allocation under Section 4 somewhat curiously ignore the pricing com ponent of Section 4 regulation, and for this reason these cases may not constitute the final word on precisely what EPAA preempted and did not preempt.

The paucity of Section 6(b) cases is somewhat remarkable in itself, although it does suggest a high degree of deference to the Federal Government by the states on matters of petroleum allocation and pricing. It may, for example, signal nothing more than unwillingness of states to undertake sig-

nificant regulation that would raise poten-ial conflicts with EPAA.

Perhaps the most significant decisions. with regard to the present discussion, are those which focused, not on the scope of Federal regulatory preemption, where there were Federal and state regulations in conflict, but instead upon the nature of preemption under EPAA even in the absence

a gross receipts tax on companies engaged in

of Federal regulation. Such an issue was raised in Mobil Oil Corp. v. Dubno,12 a case in which the U.S. District Court for the District of Connecticut struck down a provision contained in a recently enacted Connecticut tax law which imposed

refining and distributing petroleum produc-tion and further prevented the companies from raising their wholesale prices in Connecticut. In effect the anti-passthrough provision of the Connecticut law precluded the possibility of raising retail prices beyond an average amount such price might be raised in other eastern seaboard areas

The gross receipts tax itself—applied to earnings derived from activity within the State of Connecticut—was conceded by the companies in the suit to be valid.13 However, the cost passthrough prohibition contained in Section 13(b) of the Connecticut Act 14 applied to prices of certain petroleum products subject to regulation under EPAA, but for which the regulatory controls had been removed. It was the exempted status of these products from regulation under EPAA which became the focal point for the discussion in Dubno. After a review of the provisions and legislative history of EPAA, the court found

"Analysis of the EPAA, its legislative history, and its administrative implementation reveals that "exemption"—far from relinquishing petroleum product pricing to state regulation-constitutes an affirmative federal decision that petroleum products should be free from all price regulation, and that EPAA objectives will best be served by an unregulated free market subject only to standby federal controls. Section 13(b) [of the Connecticut statute] is plainly in direct conflict with the federal regulatory scheme outlined above-i.e., it directly conflicts with the federal determination reached by the President and approved by Congress, that such products should be free of price regulation and their prices established by an "un-impeded free market." [Emphasis in origin-

It should be apparent that this interpretation of the preemptive nature of EPAA is perhaps the most far reaching of the opinions relating to Section 6(b), both because it specifically addressed the pricing com-ponent of EPAA regulations and because it found an intention to preempt even when Federal regulatory controls under EPAA had been removed.

A similar issue was addressed in another case involving a New York gross receipts tax which was challenged in Mobil Oil Corp. v. Tully.10 There, the Court struck down provisions of New York tax for essentially the same reasons as in Dubno. Both the Dubno case and the Tully case were appealed to the Second Circuit Court of Appeals, where the Court dismissed both actions 17 on the basis that the questions raised were within the exclusive jurisdiction of the Temporary Emergency Court of Appeals (TECA) which has jurisdiction over cases involving EPAA. The Tully case has been appealed to TECA and was argued on April 4, 1981 and a decision is pending.

Along with these judicial challenges to the New York and Connecticut tax statutes, the oil companies requested permission from the Department of Energy to pass through the cost of Connecticut's tax on those products which were then still subject to EPAA controls. On September 24, 1980, the Department of Energy granted all gasoline producers re-lief permitting price increases which included the Connecticut tax.18

Assuming the lower court decisions in Dubno and Tully stand, it would seem that during the present period of all lifted con-trols until EPAA expires, the rules of those cases would prevent state regulation of price or allocation irrespective of the fact that Federal controls have been removed.

What occurs after September 30, 1981 when EPAA expires is another matter. It seems most unlikely that Dubno or Tully, or even in a broader sense the entire EPAA. would be read so as to displace thereafter the wide range of state police powers to provide for the retail, and other, regulation of allocation and pricing of petroleum products.

Although it may be observed as in Dubno that during the period of potential standby controls Congress favored a "free market" without interference from state powers, there is no support which appears require such an interpretation in connection with the final expiration of even the standby authority in September.

Thus, it seems clear that the expiration of EPAA will mark the termination of all Federal policies regarding pricing and allocation-including whatever policy results from the final litigation of Dubno or Tully. The termination of all Federal policies seems to clearly permit the states to conduct any constitutional regulation they may wish.

FEDERAL RECOGNITION OF STATE LAWS CONSERVING OIL

Although the imminent expiration of EPAA will mark the termination of a significant exercise of Federal power over the pricing and allocation of petroleum, Federal law will continue to have an important relationship.

Many states have established state oil and gas conservation laws which date back as far as 1878, when the state of Pennsylvania enacted a statute relating to the plugging and casing of wells.19 The discovery and de velopment of new oil and gas fields in California, Oklahoma, and Texas in the 1920's which resulted in the production of oil and gas in excess of market demand, wasting these resources, renewed earlier state efforts at conservation.20 Much of the early legal activity arose out of the need to develop legal rules establishing the rights of surface owners to oil and gas obtained from pools running under land owned by many. In addition to these rules of capture, other technical aspects of oil production led to the need for legal rules establishing the means for efficient production and

The growth of the oil and natural gas industries during the early 1900's, inevitably brought the subject matter into the legal framework of the Federal government in connection with the power of Congress to regulate interstate commerce under the Commerce Clause of Article I, Section 8 of the United States Constitution.

It appears that the first case in which the U.S. Supreme Court considered state conservation regulation of oil and natural gas was Ohio Oil Company v. Indiana (No. 1),22 in which an Indiana statute that prevented the escape of natural gas into the open air was upheld as constitutional. It was argued that the effect of the statute was a taking of property without adequate compensation violation of the Fourteenth Amendment. In analyzing the rights of surface owners to the oil and gas beneath the surface, the Court concluded that the State had a valid interest in protecting the rights of several surface owners, where the action of one owner might divest another of gas or oil derived from a common natural reservoir. Thus, because the issues involved were matters of the regulations of real property, the State could validly carry on such regulation.

This principle was later reaffirmed by the Supreme Court in Lindsley v. Natural Carbonic Gas Company.23 However, in the same year, the court struck down an Oklahoma statute which sought to prevent the trans-portation of natural gas in interstate commerce in West v. Kansas Natural Gas Com-pany.24 There, the Court held that state prohibitions on transportation of natural gas in interstate commerce violated the due process clause of the Fourteenth Amendment and constituted an unconstitutional interference with, and restraint upon, interstate commerce, even though Congress had not legislated on the matter.

The theory advanced by the Justice Mc-

Footnotes at end of article.

Kenna in his opinion for the Court was that states did not have the authority to intrude upon matters of interstate commerce:

"If the states have such power, a singular situation might result. Pennsylvania might keep its coal, the Northwest its timber, the mining states their minerals. And why not the products of the field be brought within the principle? Thus enlarged, or without that enlargement, its influence on interstate commerce need not be pointed out. To what consequences does such power tend? If one state had it, all states have it: embargo may be retaliated by embargo, and commerce will be halted at state lines. And yet we have said that "in matters of foreign and interstate commerce there shall be no state lines."

In effect, the status of the law following these decisions would have permitted state regulation of wastage in oil and gas production, but would not have allowed a state to prevent transportation of oil or gas outside of the state. In 1923, the Supreme Court struck down a state statute requiring that a preference for supplies of natural gas be granted to local consumers prior to interstate shipment.²⁰

But, the Supreme Court upheld a California statute providing for natural gas conservation to maintain oil production on the theory that the correlative rights of surface owners with respect to a common source of supply of oil and gas was a valid matter for state regulation.

In 1937, the Supreme Court struck down a Texas Railroad Commission regulation providing for prorationing of natural gas production, on the theory that the effect of the regulation required private producers to purchase gas from others in order to fulfill their contract obligations and that such action constituted a taking of private property in violation of the Fourteenth Amendment.²⁸

Through the enactment of the Connally "Hot Oil" Act, the Congress recognized and gave implicit approval to state conservations laws by aiding state enforcement of limitations on production. The Connally Act makes it unlawful to ship or transport in interstate commerce contraband oil. "Contraband oil" is defined under the Act as being petroleum, or any constituent part of which is produced, transported or withdrawn from storage in excess of the amounts permitted to be produced, transported or withdrawn under the laws of a state.³¹

The case law under the Connally Act has acknowledged that the purpose of the Act was to provide for Federal legislation to aid in the enforcement of state laws in a manner that the states were legally unable to undertake:

"The purpose of the Connally Act . . . is to aid the states in enforcing law limiting the amount of oil permitted to be produced in designated fields by prohibiting shipment of excess oil in interstate commerce.³²

Interpretative case law under the Connally Act indicates a continuing effort on the part of the Federal government to enforce its provisions.³³

In addition to the Connally Act, the Federal government has given its imprimatur to state conservation laws through the initial and periodic approval of the Interstate Oil Compact of 1935.84

Under the Compact, the most recent version of which involved application to twenty-nine states, \$\mathbb{x}\$ producing states agreed to enact laws to prevent waste of oil and natural gas. Article III \$\mathbb{n}\$ of the Compact contains the principal thrust of the Compact:

Article III

"Each state bound bereby agrees that within a reasonable time it will enact laws, or if laws have been enacted, then it agrees to continue the same in force, to accomplish within reasonable limits the prevention of:

"(a) The operation of any oil well with an inefficient gas-oil ratio.

"(b) The drowning with water of any stratum capable of producing oil or gas, or both oil and gas in paying quantities.

both oil and gas in paying quantities.

"(c) The avoidable escape into the open air or the wasteful burning of gas from a natural-gas well.

"(d) The creation of unnecessary fire hazards.

"(e) The drilling, equipping, locating, spacing, or operating of a well or wells so as to bring about physical waste of oil or gas or loss in the ultimate recovery thereof.
"(f) The inefficient, excessive or improper

"(f) The inefficient, excessive or improper use of the reservoir energy in producing any well.

The enumeration of the foregoing subjects shall not limit the scope of the authority of any State."

But, as the Compact provides in Article 5, the concept of conservation was not intended to include limitations on production or price-figure.

or price-fixing:
"It is not the purpose of this compact to authorize the States joining herein to limit the production of oil or gas for the purpose of stabilizing or fixing the price thereof, or create or perpetuate monopoly, or to promote regimentation, but is limited to the purpose of conserving the available waste thereof within reasonable limitations." "

The important constitutional nexus between the Connally Act and the initial efforts to put into place the Compact are highlighted by this excerpt from the 1969 Report of the Attorney General of the United States: **

"Coincident with the Compact in timing and concern with production control was the Connally Hot Oil Act. As we have seen, the Compact binds the States to limited action in defined spheres and provides no authority for States action in these or any other conservation areas. But essential to the purposes and any effectiveness of the Compact was the firm establishment of an effective basis for individual State production regulation. Just prior to Compact negotiations the validity of State production controls had been sustained. However, serious challenge was still pending to the temporary Federal statute. section 9(c) of the National Industrial Re--the Connally Amendment-Actunder which Federal assistance was given to stop the movement in interstate commerce of oil produced in violation of State con-trols, an area the States individually were powerless to reach. In the midst of the Compact negotiations the Supreme Court declared this legislation an unconstitutional delegation of legislative power.

"Quick action was taken to reenact it on a firmer basis; the Connally Act was hastily introduced and enacted within six weeks, just after conclusion of the Compact negotiations. Like its predecessor, it provided for Federal assistance in prohibiting the in-terstate movement of "contraband" oil. But unlike its predecessor, it also made a specific finding that such contraband obstructed and unduly burdened interstate commerce; moreover, section 4 implicitly acknowledged that the State production controls to which the Act was conjoined could also unduly burden such commerce, and provided a Federal regulatory remedy for such eventuality. Thus, in retrospect the Connally Act provided a firm base for State conservation, particularly market demand regulation, against later challenge of its constitutionality under rapidly expanding concepts of the reach of the Commerce Clause.

"Production limitation under Texas law was upheld in Amazon Petroleum Corp. v. Railroad Commission of Texas, 5 F. Supp. 633 (E.D. Texas, 1934). In the companion case, Federal regulation in this area under section 9(c) of the Recovery Act was struck down as beyond the scope of the Act, 5 F. Supp. 639 (E.D. Texas, 1934). On appeal this decision

was reversed; Ryan v. Amazon Petroleum Corp., 71 F. 2d 1 (CCA 5, 1934). In a further appeal the Supreme Court on January 5, 1935 declared section 9(c) itself unconstitutional, Panama Refining Co. v. Ryan, 293 U.S. 388 (1935). The replacement measure, the Connally Hot Oil Act, was enacted on February 22, 1935

"It is not suggested that the constitutionality of State market demand laws and regulation depends entirely on the Connally Act. However, the existence of this expression of Federal policy, together with the actual and potential Federal regulatory operations under it, have since served to forestall any attacks under the Federal constitution on such State legislation. For more detailed discussion of this Act and its significance see Att'y Gen., Third Report Pursuant to Section 2 of the Joint Resolution of July 28, 1955. Consenting to an Interstate Compact to Conserve Oil and Gas, 15-30 (1958).

serve Oil and Gas, 15-30 (1958).²⁰
"As in the case of the Compact, the Connally Act was also regarded as a standby expedient pending a more complete Federal regulation system. It was enacted as temporary legislation, and for a time was periodically renewed for the same effective periods as the Compact. In 1942, however, it was finally enacted as permanent legislation."

Several points are significant regarding these observations of Attorney General John Mitchell in 1969. First, the time at which these comments were made precedes the significant development of price and allocation of crude oil and petroleum products under EPAA at the Federal level. The suggestion as to the nature and degree of State powers in conjunction with the Compact and with the Hot Oil Act is significant in providing a descriptive characterization of the scope of state powers immediately preceding EPAA.

Secondly, the rather straightforward man-

Secondly, the rather straightforward manner in which the eleventh extension of the Compact was considered underscores the significant change, particularly in the Congress, resulting from the events of the 1973 OPEC oil embargo which served as the principal stimulant for EPAA.

Finally, it is important to observe on the basis of the 1969 analysis that a return to the status quo of state regulation before EPAA raises important issues with respect to the policies underpinning both the Hot Oil Act and the Compact.

Act and the Compact.

The discussion of the twelfth extension of the Compact in 1972, a date by which international oil supply problems were most imminent, reveals a more comprehensive Congressional consideration of the underlying purposes of meaning of the Compact.

Two issues were raised at that time with respect to the continuation of the Compact: (1) the usefulness of the state prorationing laws " and (2) the constitutional necessity of Congressional approval of the Compact."

The most recent extension of the Compact occurred on October 16, 1976,43 more than two years following the expiration of the prior renewal. In the Senate Report accompanying this most recent extension several important observations were made. First, the Senate Interior Committee expressed the view contrary to that offered by the Compact Commission's General Counsel, who argued that Congressional consent was not required for the continuation of the Compact. 4 Secondly, and perhaps more significantly, the Committee reviewed in some detail the activities undertaken by the Compact Commission.45 On several matters the Senate Report was critical of positions taken by or activities of the Compact Commission. For example, a number of issues were critically discussed in conjunction with Commission recommendations relating to the definition of physical waste under the Compact.40

One observation made by the Committee Report suggests a broader reading of the charter of the Commission than might have been earlier understood: "Ironically, a novel series of recent recommendations on a subject never before seriously considered by the Compact Commission would seem to come squarely within the terms of its charter—the promotion of specific measures designed to minimize or avoid physical waste by consumers of oil and gas, as distinct from producers. (Emphasis contained in original)" if

Despite its presently expired status, the Compact continues to raise a series of legal issues with regard to the type of regulation which might be undertaken by the states under the rationale of preventing waste.

Since the last Congressional consideration of the Compact, two significant Supreme Court decisions have raised further doubts with regard to the legal need for Congressional approval of the Compact. In New Hampshire v. Maine, "a case decided immediately prior to the last extension, the Supreme Court applied the longstanding constitutional test of Virginia v. Tennessee "and found that an interstate agreement resolving an ancient boundary dispute did not require the consent of the Congress under the Compact Clause.

Even more recently the Supreme Court upheld, in United States Steel Corp. v. Multistate Tax Commission, the so-called "Multistate Tax Compact" as valid despite congressional refusal to give consent to the Compact. In its analysis of the effect of the Multistate Tax Commission upon the Federal structure, the Court made this observation:

"The test is whether the Compact enhances state power quoad the National Government. This pact does not purport to authorize the member States to exercise any powers they could not exercise in its absence. Nor is there any delegation of Sovereign power to the [Multistate Tax] Commission; each State retains complete freedom to adopt or reject the rules and regulations of the Commission. Moreover . . each State is free to withdraw at any time." 51

The Supreme Court further found that the object of the Commission to promote uniformity in the application of state-taxing principles would not run afoul of the supremacy of the Federal Government.

It would seem that even without further congressional approval of the Compact, that the objects of the Interstate Oil Compact might be continued, since any actual regulation adopted by any state seems wholly dependent upon the authorities of each state. Yet, the approval of the Compact by Congress may raise, by implication, the notion that something more than simply individual state actions is authorized under the Compact, perhaps by implication permitting coordinated state regulation which would otherwise run afoul of the Commerce Clause.

The status of the Compact and its implications for new state regulation after EPAA expiration, especially in light of the broad reading sometimes accorded the Compact, pose significant issues for the Congress to consider in connection with the expiration of the EPAA.

Both the Compact, and the Connally Act, have been understood historically to enhance the ability of states to carry on production regulation. That the scope of production regulation might be expanded, with the arguable imprimatur of the Federal Government, raises numerous potential legal issues in connection with the termination of nearly ten years of Federal regulation of pricing and allocation of petroleum products under preemptive Federal law.

CONSTITUTIONAL ISSUES

It should be observed that after the initial approval of the interstate Compact and the enactment of the Connally Act, the Federal Government, in effect, permitted actions by

Footnotes at end of article.

the states both individually, and collectively, and undertook no exercise of Federal jurisdiction over the matter of conservation of oil and natural gas.

Thereafter, the question of the type and nature of state conservation was presented to the Supreme Court in Railroad Commission of Texas v. Rowan & Nichols Oil Co.,52 In that case the issue raised was the validity under the Fourteenth Amendment of the Texas Railroad Commission order limiting and prorating production of an oil field at of its hourly potential, with exception granted for certain marginal wells, which if their low capacity was curtailed would result in their premature abandonment. The Supreme Court, however, refused to intrude the state administrative decision. '[W]hether a system of proration based upon hourly potential is as fair as one based upon estimated recoverable reserves or some other factor or combination of factors, is in itself a question for administrative and not judicial judgment. In effect, the Court found that the regulation did not constitute a taking of property in violation of the due process clause of the Fourteenth Amendment. 4 In 1950, the Supreme Court was presented

question of whether Oklahoma could validly fix minimum wellhead prices on all natural gas taken from fields located within the state. The Cities Service case arose after a state commission proceeding established minimum gas prices on the basis of evidence that low prices would make en-forcement of conservation more difficult, would result in the abandonment of wells before all recoverable gas had been extracted, and would contribute to an uneconomic rate of depletion and economic waste of gas by promoting "inferior" uses. The Court sustained the state action over objection that it was violative of the Fourteenth Amendment and constituted a burden to interstate commerce in violation of the Commerce Clause. In relying on Thompson v. Consolidated Gas, supra, the Court said:

"That a legitimate local interest is at stake in this case is clear. A state is justifiably concerned with preventing rapid and uneconomic dissipation of one of its chief natural resources. The contention urged by appellant that a group of private producers and royalty owners derive substantial gain from the regulations does not contradict the established connection between the orders and a statewide interest in conservation...

"We recognize that there is also a strong national interest in natural gas problems. But it is far from clear that on balance such interest is harmed by the state regulations under attack here. Presumably all consumers, domestic and industrial alike, want to obtain natural gas as cheaply as possible. On the other hand, groups connected with the production and transportation of competing fuels complain of the competition of cheap gas. Moreover, the wellhead price of gas is but a fraction of the price paid by domestic consumers at the burner-tip, so that field price as herein set may have little or no effect on the domestic delivered price. Some industrial consumers, who get bargain rates on gas for "inferior" users, may suffer. But strong arguments have been made that the national interest lies in preserving this limited resource for domestic and industrial uses for which natural gas has no completely satisfactory substitute."

Curiously, the question whether state orders fixing minimum prices intruded upon the Natural Gas Act was not raised in this case, and the issue awaited the determination by the Court in Natural Gas Pipeline v. Panoma Corporation, of before state minimum prices for natural gas were struck down as an intrusion upon the exclusive authority of the Federal Power Commission under the Natural Gas Act, in Northern Natural Gas Co.

And more recently, the Court under the Natural Gas Act, struck down state requirements that purchases of natural gas be made ratably from all wells in a particular field as being an intrusion upon the exclusive jurisdiction of the Federal Power Commission.³⁵

But, unlike natural gas, oil was not permanently subject to Federal well-head pricing until the 1970's. Thus, the argument advanced in Northern Natural Gas was then inapplicable to oil, since there was no preemptive regulation. And, it does not appear that the Supreme Court ever struck down oil prorationing through either minimum state prices or production limitations as an intrusion upon interstate commerce even in the absence of Federal legislation. Despite the view set forth in West, supra that states could not prevent the export of natural resources to other states, the doctrinal significance of Cities Service, supra, as it applies to oil, has continued, since there is no analogue to the Natural Gas Act governing the production of oil.

To the extent that state conservation

To the extent that state conservation measures governing the production and recovery of oil are currently acting as limitations on production beyond that technically necessary to assure maximum efficiency and reservoir development, it would appear that the repeal of the Connally Act would place the states in the position of not being able to artificially restrict development of oil under the view set forth in West. A restriction of quantity of production might be constitutionally viewed in light of EPAA preemption of petroleum regulation as an unwarranted intrusion on interstate commerce.

This view is buttressed by the 1979 U.S. Supreme Court decision in Hughes v. Oklahoma, in which the high court, citing with approval the decision in West v. Kansas struck down an Oklahoma statute prohibiting the transporting or shipping outside the state sale of natural minnows seined or procured from waters within the state. Although the Court's focus in this recent decision was upon the discriminatory treatment accorded the interstate commerce in minnows, the Court clearly announced the conceptual reaffirmation of the notion that the pertinent economic unit is the Nation, and that restrictions on interstate commerce, in an effort to preserve and conserve state resources, constitutes a violation of the Commerce Clause.

While the Court in Hughes acknowledged some local latitude to promote legitimate local purposes, the blanket discrimination against interstate commerce was deemed an unacceptably stringent burden.

Another recent case, Arizona Public Service Co. v. Snead, struck down a New Mexico tax on electricity transmitted outside the state as discriminatory under a Federal statute. st

The issues with regard to the precise constitutional limits to which states may regulate or tax natural resources moving into interstate commerce without running afoul of the Commerce Clause continue to present vexing legal problems. Currently pending before the Supreme Court is the matter involving the constitutionality of Montana's severance tax on coal.⁶²

It should be observed, however, that with the expiration of EPAA any preemptive effect upon state conservation laws may also expire. But so long as the Connally Act, and any remnants of the Compact, give the states Federal approval, states may be in the position to regulate oil beyond the scope of prior conservation laws without intruding upon the Commerce Clause.

There are indeed numerous constitutional decisions which might be cited in one fashion or another in an attempt to posit a precise delineation between state police powers and the Commerce Clause dealing with the issue of the extent to which states may regulate in the absence of Federal regulation. Although many of the cases cited above provide some guidance with regard to historical constitutional interpretations, the full range

of possible state legislative actions which might occur upon the expiration of EPAA

can only be broadly addressed.

For example, the relatively recent effort of states, during EPAA, to provide certain protections to independent gasoline stations have been upheld in Exxon Corp. v. Gover-nor of Maryland. The State of Maryland had enacted a statute which provided that a producer or refiner of petroleum products could not operate a retail service station within the state and that such producer or refiner

must extend "voluntary allowances" to all retail stations supplied with products.

The statute was challenged as violating the Commerce and Due Process Clauses of the Constitution and as having been Federally preempted by the Clayton Act, as modified by the Robins-Patman Act.

In addressing the Commerce Clause issue. and in eventually upholding the statute as valid, the Court made this important observation:

"Finally, we cannot adopt appellant's novel suggestion that because the economic market for petroleum products is nationwide, no State has the power to regulate the retail marketing of gas. Appellants point out that many state legislatures have either enacted or considered proposals similar to Maryland's, and that the cumulative effect of this sort of legislation may have serious implications for their national marketing operations. While this concern is a significant one, we do not find that the Commerce Clause, by its own force, pre-empts the field of retail gas marketing. To be sure, 'the Commerce Clause acts as a limitation upon state power even without congressional implementation.' But this Court has only rarely held that the Commerce Clause itself pre-empts an entire field from state regulation, and then only when a lack of national uniformity would impede the flow of interstate goods. The evil that appellants perceive in this litigation is not that the several States will enact differing regulations, but rather that they will all conclude that divestitute provisions (such as those at issue here) are warranted. The problem thus is not one of national uniformity. In the absence of a relevant congressional declaration of policy, or a show-ing of a specific discrimination against, or burdening of, interstate commerce, we can-not conclude that the States are without power to regulate in this area." 64

Thus, the Court has only recently re-articulated the broad constitutional principles with regard to the scope of state authority and intrusion upon the Commerce Clause in the specific context of retail regulation of petroleum products.

It seems clear from the foregoing analysis that while EPAA may have acted to preempt certain limited state regulation, following the expiration of EPAA broad powers to regulate both production and marketing of petroleum and petroleum products will again devolve upon the states.

ANALYSIS OF PRESENT STATE LAWS

For the purpose of providing some notion of the kinds of state regulation which are currently in place, we have surveyed state laws relating to marketing and allocation of petroleum products. For the purposes of this survey, we have not undertaken to identify or assess all state laws relating to petroleum. Notably absent from our assessment, by virtue of our earlier more general assessment and references, are state laws relating to production and conservation as well as state laws providing for taxation relating to petroleum.

We have surveyed all fifty states, and although we have attempted to provide a reasonably current list of statutes, we note the dfficulties of reporting on newly enacted laws. We do believe the list will provide some insight and indication of state interest in petroleum marketing and allocation legislation.

A few general observation about the state statutes are appropriate.

First, at least three states-Maine, New

Mexico, and Virginia-have state laws which require continuation of allocation of supplies to dealers, with certain withdrawal, substitution, or other termination provisions. These laws would appear to require a mandated allocation mechanism during a period of short

Second, several other states have provisions which have allocation components. For example, California and New York have statutes creating a state set-aside authority which might be used to divert products from the market place during periods of short supply for emergency or hardship purposes. Florida and Nevada have statutory authority create emergency plans, the possible content of which might be to provide for some sort of allocation mechanism during shortages

Another large group of states including Connecticut, Georgia, Hawaii, Louisiana, Maryland, Massachusetts, New Hampshire, Pennsylvania, Tennessee, Utah, Vermont, Virginia and West Virginia—have statutes which through a variety of methods regulate petroleum distribution or franchise relationships. Several of the laws of these states require some kind of advance notice before the termination of a supply relationship, thereby appearing to compel continued supply to dealers for at least a limited period.

In addition to these state laws specifically relating to petroleum, we note (but have at tempted no analysis) that more general emergency statutes, or state constitutional provisions may authorize petroleum regula-

In addition to the identified state laws, we are aware that a number of other legislative proposals are pending before legislatures both of states which are mentioned above and other states.

According to a recent survey of legislative proposals pending before state legislatures conducted by the American Petroleum Institute,65 twelve states are currently considering measures to either modify or austate emergency energy agencies. 96 tion, at least two states—Massachu-In addition, at least two statessetts and Rhode Island-are considering pricing regulations.

The following state statutes were identified in our survey of laws:67

CONCLUSIONS AND OBSERVATIONS

The expiration of EPAA marks the termination of nearly ten years of extensive Federal regulation of petroleum, and petroleum product, regulation. That regulation has involved both allocation and pricing regulation during periods of seemingly major shortages of supplies.

It seems likely that unless the Congress moves to continue EPAA in its present standby status, or enacts other laws preventing state regulation by preemption, many states are likely to provide new statutory authority to regulate some aspects of pricing and allocation which were subject to regulation under EPAA.

In addition to moving to fill the void of Federal regulation, the expiration of EPAA also marks a point where state regulation may be expanded for purposes of providing tax revenue, carrying on production con-servation, and other forms of regulation which may have formerly conflicted with

While EPAA's expiration is presently automatic, it would seem that the impact of total termination of Federal regulation should be carefully assessed at the national level because of the enormous economic significance of petroleum and because of what has now become our obvious dependence upon un-

reliable foreign sources for petroleum.

The potential impact of numerous differstate laws regarding allocation and distribution of petroleum, even though they may be constitutional, is difficult to assess in a practical sense.

The need for national laws to be used in the event of an emergency or in the event of short supplies involves a matter of such

major importance that only Congress can pass final judgment.

THE AIR TRAFFIC CONTROLLERS' STRIKE

Mr. STENNIS. Mr. President, I shall not detain the Senate more than a few minutes.

I was on my way to the Chamber this morning to take part in the discussion with reference to the situation concerning the strike by the air traffic controllers in the airports of our Nation. I did not get to the Chamber in time to take part in that discussion. However, I am not going to let the opportunity pass to express a sentiment that is deliberate on my part.

At the same time, I do not want to be rash and intemperate. However, I feel very strongly that if we do not take recognition of the gravity of this occasion and give fair warning, at least, as to future occurrences, we will pay a terrible

price.

Mr. President, I have a high regard for the air traffic controllers and for their responsibility. Some years ago, I handled an appropriation bill for the Department of Transportation which included funds for the operation of the air traffic controllers. They were in a distressing condition then, in that there were not enough of them to take care of the work required. I visited with them and saw their working conditions in many places. They took me all across the Nation, from East to West, to see other matters that had to do with air transportation-safety devices and other requirements.

One of the most pleasant experiences I have had here was to try to get into those problems and help to make recommendations which were passed here, far beyond the budget limitations that already had been set here by resolution.

We had a reconsideration of those limits in order to allow enough money. I do not think a pay increase for the controllers was involved; it was mainly additional employees to train to be controllers.

So I have a background of understanding and appreciation for this work and for the men who have been carrying it out.

But it makes no difference about that or anything else. When people take an oath to carry out the functions and duties of their job and responsibilities without going on strike and in particular when it is a highly sensitive employment or situation where the lives of countless of thousands of innocent people are imperiled by the hour with reference to the functions of these controllers and, as I said, have taken an oath to that effect in their promises and we have a law to that effect in our law, as I understand these men are under a court order of injunction, if those are the correct facts and we let that be tolerated, we will be nothing less than meagerly miserably small and indecisive and weak about meeting the situation.

There must be protection of the people where they are so helpless, and no nation can continue to be strong, in my opinion. unless we really resort to firm resolve and action to back up that resolve.

So in this case, the situation is so grave that I think, in speaking in terms unless there are of necessary circumstances that I do not know, or extenuating circumstances that I cannot imagine now, there will have to be a penalty applying along the lines for a breach of promise like this of imperiling the people. That carries with it the penalty of being disenfranchised, so to speak, toward future employment as well as being discharged from present employment.

That is not a mild remedy, but it will be as near an effective remedy as anything that I can imagine in this field, and I speak these sentiments now from my special knowledge and understanding of these operations and the necessity for them and out of a sense of obligation to the millions and millions of people who use our skyways by the hour and not for pleasure by any means, although it is partly that, but as a necessity.

So, of course, I hope that something is done to settle this strike, but I am try-ing to think in terms of what we are going to do and not only now but in the

future.

So I rest this case now on a hope that it will be settled but further that our committees in this field can give it special attention and that we will have the resolve to come up with a remedy that will be effective and protective.

AWARD TO SENATOR QUENTIN N. BURDICK

Mr. STENNIS. Mr. President, let me call attention to the fact that one of our Members has received a unique and exceptional honor. I refer to the fact that the Senator from North Dakota, Quen-TIN N. BURDICK, recently received the Distinguished American Award from the National Football Foundation and Hall of Fame. I know that we will all agree that this honor and distinction is richly deserved.

Senator Burdick earned this award for his achievements both on the playing fields of football and his accomplishments in life. In football he played blocking back and fullback for the University of Minnesota Golden Gophers during the days when they were a true national power. One of his teammates was the legendary Bronko Nagurski. The fact that Senator Burdick played on the team with this all-time great is adequate evidence of the fact that, even in his youth, he had outstanding qualities and ability.

The Senator from North Dakota has earned even greater distinction and honor in the field of life. He has had outstanding career of public service which commenced with his election to the House of Representatives in 1958 and continued with his election to the U.S. Senate in 1960. My friendship with him and esteem for him have grown over the 21 years during which he has been a Member of this body and I have had the privilege of working with him.

I know that my fellow Senators share my high regard for QUENTIN BURDICK. He has been a solid and influential Senator in a quiet but highly effective way. He has been dogged and tenacious in support of matters and principles which he believed to be right. He is a member of the Committee on Appropriations, the Committee on Environment and Public Works, the Special Committee on Aging, and the Democratic Policy Committee. In these and other positions he has made essential and valuable contributions to the public welfare. He is a positive force for good and an asset to the U.S. Senate.

Therefore, Mr. President, I commend the distinguished Senator from North Dakota, not only on this award, but for his many achievements and distinctions throughout his career. The Distinguished American Award which he has received is awarded each year to a Member of Congress who is an athlete who has been active in football. The selection is made by the Washington, D.C. Chapter of the National Football Foundation and Hall of Fame, and I commend that organization for its fine judgment and perception in selecting Quentin Burdick.

It is very possible, Mr. President, that, as the plaque presented to him reads, Senator Burdick carried the lessons which he learned on the football field into a life of service. In any event, we all know that he has served and continues to serve his State and Nation in an outstanding manner. I again congratulate the distinguished Senator from North Dakota on the justly deserved honor which he has received.

THE RETIREMENT OF JOHN PRICE

Mr. STENNIS. Mr. President, until his recent retirement, John Price, a native of West Point, Miss., had been an employee of the Sergeant at Arms for 31 years. During that period, he has consistently rendered efficient and faithful service of the highest order and is esteemed by every Member of the Senate as well as all those who worked with and under him while he served many years in charge of the care and upkeep of the interior of the Senate wing of the Capitol.

Mr. President, I personally knew John Price's family at West Point, Miss., while I was a circuit judge there. I esteemed them very highly, as did others. After, I knew John here later and offered him a job on my staff more than 10 years ago. He desired to stay with his work.

I congratulate John, his wife, and family and extend them fond good wishes for many years of happiness.

Mr. President, I yield the floor.

AGRICULTURE AND FOOD ACT OF 1981

Mr. MATSUNAGA. Mr. President, when we return from the August recess one of the important measures awaiting floor action will be the Agriculture and Food Act of 1981. We, in Hawaii, are particularly interested in that bill because it contains a sugar provision establishing a simple nonrecourse sugar loan program.

The loan level in that program is set at 19.6 cents per pound of raw cane sugar. Some have charged that level is excessive. But by any reasonable analysis, it is not.

To those who argue excessive cost, I would remind them first, that 19.6 cents is less than two-thirds of the average price of sugar last year. Second, that it is well under the average cost of production even if we exclude the cost of land. It is clear that we will not encourage a sugar surplus even if we were not importing almost half of the sugar we use.

Nevertheless, a reasonable relationship should exist between the loan rate and the average cost of production. Despite the many risks in farming no one argues that farmers are entitled to a support program with full production costs covered by the Government, and the sugar growers are no exception.

Production costs are important as a measure of a proper level for a Government support program. Recently the U.S. Department of Agriculture filed a preliminary report on production costs in the sugarcane sugar beet industries following an exhaustive survey of both industries for the 1978–79 and for the 1978–80 crops. I wish to share portions of that preliminary report relative to the cane industry with my colleagues. While it is a preliminary report and subject to minor revisions it is exhaustive and utilizes the same procedure used by the USDA in other cost surveys.

The report, prepared by the National Economics Division of the Economics and Statistics Service of the USDA estimates the cost of production for 1981-82 at 24 cents per pound for raw cane sugar with no land costs included. Given even an 8percent-per-year increase in nonland costs, that will place production costs in 1985-86 at 32 cents per pound for raw cane sugar. Unfortunately, the mandated loan rate under the Senate Agriculture Committee bill will still be only the 19.6 cents per pound in deference to the administration's strong opposition to any indexing of support programs. Far from being excessive, that loan level will clearly be inadequate to assure the survival of the major share of our domestic sugar industry.

With 75 percent of Hawaii's crop land in sugar and with no viable alternative crops for that land or employment for the 9,000 employees working directly with

sugar in my State, we are understandably concerned. We are also concerned that the American consumer will be inadequately protected from product shortages and from periods of excessive sugar prices, should our domestic industry not survive.

Mr. President, I ask unanimous consent that portions of the preliminary report on the cost of producing sugarcane and sugar beets in the United States including projections for the 1981–82 crops be printed in the Record.

There being no objection, the material was ordered to be printed in the Record, as follows:

PORTIONS OF PRELIMINARY REPORT

This preliminary report presents initial estimates from 1980/81 surveys of sugarcane producers and processors. The estimates presented are subject to minor revisions before the final report is released. This preliminary report is made available for use for policy makers, the sugar industry, and the general public. Comments and suggestions on the study are welcome.

This report was prepared by the staff of NED's Fruits, Vegetables and Sweeteners and Economic Indicators and Statistics Branches. Principal contributors to the report include Luigi Angelo, Robert Bohall, Ron Krenz, Hosein Shapouri, Ludwin Speir, and Glenn Zepp. Other key contributions were made by Pauline Cook, Rhodia Ewell, Robert Graham, Stanley Johnson, Larry Larkin, Nadine Loften, Jerry McCall, Robert Olson, Joan Pearrow, and the staff of State Statistical Offices in sugarcane.

SUMMARY

Net production and processing costs, excluding land, are estimated at 24.0 cents per pound of raw cane sugar and \$50.05 per ton of sugarcane in 1981/82. This represents an increase from 1980/81 when costs per pound were estimated at 21.4 cents for raw sugar and \$44.32 per ton of sugarcane.

Nonland production costs for sugarcane are projected at \$1,029 per acre in 1981/82 or \$28.80 per ton of sugarcane. This assumes a trend yield of sugarcane of 35.7 tons in 1981/82 with a trend U.S. average recovery of sucrose or raw sugar of 210 pounds per ton. Projected production cost per pound of raw sugar would increase to 13.8 cents by 1931/82.

Sugarcane processing costs are projected to increase 8 percent over 1980/81 to \$25.41 rer ton by 1981/82. Processing costs would increase to 12.2 cents per pound of raw sugar in 1981/82, compared with 11.3 cents in 1980/81.

Byproducts of sugarcane production and processing—molasses and bagasse—would contribute revenue of 2.0 cents per pound of raw sugar in 1981/82 to help offset costs.

Land allocation for sugarcane could not be determined in a reliable and consistent manner to reflect agricultural value. Cash rent, share rent, and current market value cost estimates vary widely. The land allocation would add 2 to 6 cents per pound to the projected costs of production and processing.

Fuel, interest, and machinery costs are expected to lead the 1981/82 cost increases.

INTRODUCTION

The Agriculture and Consumer Protection Act of 1973 directed the Secretary of Agriculture to estimate the annual costs of producing certain major commodities. That responsibility was delegated to the Economics and Statistics Service (ESS). Within the National Economics Divisions of ESS, a comprehensive program of research on agricultural costs of production is conducted. This report is the first on sugar. Estimates for the 1978/79 and 1979/80 crop years are considered to be final, (see Appendix), estimates for 1980/81 are preliminary, and those for 1981/82 are projected.

Responsibility for the collection and maintenance of data on cost of producing sweeteners was transferred from the Agricultural Stabilization and Conservation Service (ASCS) to the ESS in September of 1975. following termination of the domestic sugar program in 1974. ESS attempted to update sugar production costs in 1976, but was unable to obtain sufficient cooperation from industry representatives. Therefore, indexing procedures were used to update survey information last obtained by ASCS in 1970–72 based on data for the 1967–71 crops. As a result, estimates of input requirements and costs became seriously out-of-date and could only be considered as rough estimates.

The average costs presented are based on methods that provide total cost estimates for sugarcane production and processing on a per acre, per ton (cane), and per pound (raw cane) basis. Some inputs for producing or processing are used up each year, labor and fuel for example. Some, such as machinery, last more than 1 year, but become obsolete and wear out. Others—stock inputs such as management and land—provide a flow of services and output when combined with

other inputs. The cost estimates include the cost of all inputs used up, an allowance sufficient to replace the portion of depreciable inputs used, and a return to remaining stock inputs sufficient to keep them employed in their present use.

Interest and taxes on owned land require estimates of the value of land for agricultural purposes. Estimates on the value of owned land were not available for Hawaii. Federal Land Banks estimates of current land values were obtained for Florida. Farm Real Estate Market Development values were utilized for all other areas. However, all the indicators of current land values are estimates of the value of land for agricultural purposes plus its speculative value for other purposes including urban develop-In both Florida and Hawaii this speculative component was especially evident and, to a lesser extent, in the other sugarcane and sugarbeet production regions. As a result, a reliable and consistent indication of land allocation cost could not be obtained for sugarcane and sugarbeet produc-

COST OF PRODUCING AND PROCESSING SUGARCANE

The estimated nonland costs of producing and processing sugarcane in 1980/81 and projected costs for 1981/82 are summarized in tables 5 and 6. Net production and processing costs per ton of cane were estimated at \$44.32 for 1980/81 and were expected to increase to \$50.05 for 1981/82, equal to 24.0 cents per pound for raw cane sugar. Estimated net costs of producing and processing raw cane sugar in 1980/81 were 18.0 cents per pound in Florida, 23.3 cents in Hawaii, 25.1 cents in Texas and 25.8 cents in Louisiana.

United States weighted average production cost, excluding land, in 1980/81 averaged \$24.30 per ton of sugarcane with Louisiana

having the lowest cost and Hawaii the highest. For 1981/82, U.S. production costs, excluding land, are projected to increase to \$28.80 per ton, 19 percent over 1980/81. Cost per pound of raw cane sugar is projected at 13.8 cents per pound.

The U.S. preliminary processing cost for 1980/81 was estimated at \$23.58 per ton of sugarcane or 11.3 cents per pound of raw cane sugar. Costs per pound were lowest in Florida at 8.8 cents and highest in Louisiana at 16.9 cents. By 1981/82, U.S. processing costs are expected to increase 8 percent to an average of 12.2 cents per pound. Based on trend yields and recovery, cost increases in Florida and Hawaii are projected to be larger than for Louisiana and Texas.

Detailed sugarcane production costs per acre, and per ton and production costs per pound of raw cane sugar are indicated in tables 7, 8, 9, and 10. Total estimated nonland production costs in 1980/81 ranged from \$443 in Louisiana to \$2,810 in Hawaii (table 7). Composite land allocations were lowest in Texas at \$122 and highest in Florida at \$335 and Hawaii at \$379 (based on share rent) per acre.

Average U.S. cash rent for survey firms in 1980/81 was only 42 percent of the land at a cation when based on interest and taxes or owned land at current market value. Shererent in Hawaii and Louisiana reflects the relatively higher sugar prices of 1980/81. To production costs, excluding land, per tense sugarcane were \$24.30 or 11.8 cents pound, for 1980/81 (table 8).

Fertilizer, labor, repairs, interest, replerement of machinery, and general and additistrative expenses represent some of the Labor important cost categories. When yields a recovery rates are taken into account, raccane sugar production costs in 1980/81 were comparable for Florida and Louisiana with Texas and Hawaii 2 to 3 cents higher

For the 1981/82 crop U.S. sugarcane production costs, per acre, excluding land, are projected at \$1,029 (table 9). On the basis of per ton of sugarcane or per pound of raw sugar, projected 1981/82 variable costs were generally well over two-thirds of production costs with labor the largest component (table 10). Projected fertilizer and labor costs were high in Hawaii compared with other areas reflecting wage rates and cultural practices.

Custom operations were highest in Texas. Projected machinery ownership costs were lowest in Texas and highest in Louisiana, reflecting intensity of use of machinery as a substitute for labor in growing and harvesting of cane. The 1981/82 composite land allocation averaged \$7.84 per ton for all areas ranging from a low of \$3.89 per ton in Hawaii for share rent to a composite \$11.32 in Florida.

Information on processing costs is presented in tables 11 and 12. Total U.S. costs per pound of raw cane sugare are projected to increase from \$23.58 per ton of cane in

1980/81 to \$25.41 in 1981/82. Preliminary estimates for 1980/81 and projections for 1981/82 indicate that Florida has the most efficient facilities and the lowest processing cost.

Fuel, supplies and materials, and interest expenses are major contributors to expected cost increases. With an expected increase to trend recovery of raw sugar per ton of sugarcane offset by inflation, 1981/82 projected total processing costs per pound are 8 percent above 1980/81.

STATUS REPORT ON UNITED STATES-PANAMANIAN RELATIONS

Mr. ROBERT C. BYRD. Mr. President, the U.S. Ambassador to Panama, Mr. Ambler H. Moss, Jr., recently completed a report on the status of United States-Panamanian relationships.

In light of the tragic death of Panama's President Torrijos and the important role played by him in the negotiation of the Panama Canal Treaties, I ask unanimous consent that Ambassador Moss' report be printed in full in the Record.

PANAMA UPDATE-JULY 1, 1981

This paper addresses the various aspects of our country's economic and political relationships with Fanama, the business and investment climate, and the new partnership created under the Panama Canal Treatles which entered into force on October 1, 1979. The Embassy' mailing address and phone number are included on the last page; please do not hesitate to contact me or any other officer directly.

RECENT HISTORY

During the past several years, the focal point of United States-Panamanian relations has been the completion and entry into force of the Panama Canal Treaties. These agreements were the product of 14 years of negotiations, carried out during the administrations of four presidents, two Democrats and two Republicans. When the treaties were signed on September 7, 1977, all of the countries of Latin America and the major shipping nations of the free world such as Japan, Britain, France, and Germany endorsed them and indicated that they supported them as a just resolution of the canal issue. These nations also viewed the treaties as protective of their interests in using the canal in the future.

During the first months of 1978 the United States Senate debated ratification of the treaties. At that time, public opinion in the United States was very much divided. The Senate debate stretched on from January until mid-April, to the exclusion of all other Senate business during that time, making it the longest and most thorough Senate consideration of any treaties since the Treaty of Versailles after World War I.

Then, after a period of painstaking, detailed work by Penamulan and United

Then, after a period of painstaking, detailed work by Panamanian and United States officials, both in the civilian services and in the military, both countries prepared for the treaties to take effect on October 1, 1979.

Fortunately, many of today's leaders of the Panamanian Government were heavily involved in the treaty process over the last few years. They were extremely knowledgeable, therefore, about the treaty arrangements and felt a personal stake in their success. President Aristides Royo, a young lawyer who became President of Panama in October, 1978, was a chief treaty negotiator for Panama and was personally active in all phases of planning for treaty implementation. He has a particular sensitivity toward the needs and concerns of the United States citizens who live and work in the former Canal Zone. Prior to the entry into force of the treaties, President Royo visited both Atlantic and Pacific sides of the Canal Zone and met with American and Panamanian citizens employed there. There is certainly strong evidence of good will and determination on both sides

to make the treaties work.

The canal organization today is strong and efficient, and the people who work in the canal enterprise are as dedicated to the success of their endeavor as they have been in the past. The Administrator of the Panama Canal Commission is a retired Lieutenant General, Dennis P. McAuliffe, who previously

held the position of Commander-in-Chief, United States Southern Command here in Panama. The Deputy Administrator, for the first time in history, is a Panamanian citizen, Fernando Manfredo, a former cabinet minister and businessman. There is no one who doubts that the canal enterprise is in good hands.

This is not to say that the two countries will not have disagreements of one sort or another during the lifetime of the treaties; to be sure, this is true of any partnership. Nevertheless, differences are resolved in a business-like manner, and both parties share common objectives and a common understanding of the underlying relationship and the way in which it ought to function.

the way in which it ought to function.

We have now had "track record" of a little over a year by which to measure the effectiveness of the canal enterprise. One good yardstick is the number of ocean going commercial transits made through the canal. In 1980, the canal performed 13,507 such transits, as compared to 12,935 in 1979. That averages out to about 50 more ships per month in 1980, as compared to 1979. In terms of Panama Canal net tons, the basis on which tolls are assessed, the 1980 tonnage figures were up by roughly nine percent over 1979.

The years immediately preceding signature of the canal treaties were marked by an uncertainty as to the future of the relationship between Panama and the United States. Such a climate was a strong contributing factor to the virtual halt to Panama's economic growth. Now, with the stability in the country which has been brought about by a clear definition of Panama's relationship with the United States, we expect to see a period of economic expansion. Such signs of growth have been apparent already, even though world economic conditions are difficult.

PANAMA'S ECONOMY AND INVESTMENT CLIMATE

Panama's economic structure is essentially based upon private enterprise. Government policy has traditionally favored private investors, both domestic and foreign, and the economy has remained open and relatively free from restrictions. There are no controls on external capital flows; the repatriation of of capital and profits is unrestricted. Panama's unit of currency, the balboa, is the same as the dollar. There are generous incentives to investors, and Panama has traditionally maintained a liberal import policy even during periods of balance-of-trade difficulties. Foreign banks have been welcomed to Panama through liberal banking legislation, and funds of around \$37.5 billion are now being handled through Panama.

The country is now a major banking center which includes some 110 banks from the United States, Japan, Western Europe and Latin America. International banks continue to open for business. Two major Japanese banks and an important French bank have just begun operations within the last two months. The banking sector employs about 6,500 people in Panama, making it an employer of almost the same order as the canal enterprise.

Panama has embarked on a program to seek private foreign investment on a large scale. It is in our national interest to assist in that effort. We must never lose sight of the fact that Panama is the "habitat" of the canal. Its political climate will depend upon its economic performance.

In October, 1979, more than 70 American companies formed the American Chamber of Commerce and Industry in Panama, the first time in history that such a chamber has existed. It has now expanded its membership to 98. The American business community feels welcome here. Prsident Royo inaugurated our Chamber and told its members that he considered that it would be good for American business and also good for

Panama. This country is also a good customer for our exports. Apart from petroleum, U.S. products have a market share in Panama of about 49 percent.

of about 49 percent.

Last year, the value of U.S. exports to Panama amounted to about \$700 million, up 32 percent over the 1979 totals and up 102 percent since 1977. Industrial machinery, transportation equipment, telecommunications equipment, paper and paperboard products, and medical and pharmaceutical products were important components of our export mix. U.S. imports from Panama in 1980 amounted to about \$330 million, up about 70 percent. Shrimp, sugar and bananas accounted for the bulk of these imports.

Panamanians are justly proud of the social progess made in the last 10 years. Certainly the achievement in this area promise a far more stable society than does the familiar pattern of great disparity between wealth and poverty and the absence of hope by the very poor which is the case in so many Latin American countries. The literacy rate is now very high, close to 86 percent. Greatly expanded housing and health programs and agrarian reform programs have eradicated many of the inequalities between the standards of living of rural and urban inhabitants. Panama is happily free from terrorism, kidnapping, "liberation fronts" and the like. It is one of the safest places in the world for foreign businessmen and their families.

This social progress has been achieved at heavy cost to the Panamanian Government's budget, however. Public sector debt is very high in Panama, although the country is very credit-worthy in the international financial market and its record for meeting international obligations is enviable. But this means that private sector expansion is crucial in dealing with unemployment and other

major economic problems.

The Panama Canal Treaties not only have removed a principal psychological obstacle to business confidence, but they will have a direct effect upon the economy and will provide major benefits which the government is eager to exploit in cooperation with business. Under the treaty, more than 1,000 square kilometers have been transferred to Panamanian use, or about 64 percent of the former Canal Zone. There are houses and other valuable buildings and installations on this territory. The amount of exchange earnings Panama will receive from the canal will rise, not only because of an increase in the annual cash payments under the treaty (about \$75 million as compared with \$2.3 million before the treaty), but also because of the development of lands and facilities which have reverted to Panamanian use.

Among the first group of businesses to benefit by the expansion opportunities offered under the Panama Canal Treaty has been the Colon Free Zone, the oldest and largest free trade zone in the Western Hemisphere. With over \$4 billion in trade, it is second only to Hong Kong among the free zones of the world. Since its founding in 1948, the Colon Free Zone has been limited to a 94-acre area in the city of Colon. Until the entry into force of the treaty, neither Colon nor its Free Zone, enveloped as they were by the territory of the Canal Zone, was able to grow. With the treaty-mandated reversion of much of the surrounding land to Panamanian use, vast new acreage has become available for the Free Zone's expansion, necessary to accommodate the more than 100 new firms which have expressed interest in joining the 350 companies already operating there. Many U.S. firms use the Free Zone as a warehouse and marketing center for the sale and distribution of their products throughout Latin America.

To stimulate the development of a lightindustrial base, and to combat unemployment in Colon and in other high unemployment areas in the Republic, the Panamanian Government recently instituted a program to attract export-oriented, labor-oriented assembly operations to the Isthmus, through the offer of an attractive package of tax and other benefits named "Maquila", after the highly successful program initiated by Mexico on its border with the United States.

New business opportunities are being created constantly, such as the shrimp farms along extensive areas of the Pacific Coast. In Latin America, Panama now ranks second in farmed shrimp production. The completely new fishing port of Vacamonte, not far from Panama City, is now in operation. It affords a modern facility for Panama's shrimp fleets and facilities for Panamanian and foreign tuna fleets. The port will also stimulate a variety of new businesses in the area.

Though it imports all of its petroleum needs, and consumes some 19,000 barrels per day of such products, Panama is well underway with development of alternative energy sources, chief among them hydroelectric power, which will significantly lessen the country's vulnerability to OPEC price increases. As recently as 1976 Panama relied almost exclusively on thermal gen-eration to supply electricity. The commis-sioning of two major hydroelectric projects in 1976 and 1979 made dramatic inroads on oil dependency, to the point where Panama's power generation is now 50 percent hyro-electric. Two additional projects, to be com-pleted in 1983 and in 1990, will make Pan-ama's electric power production 93 percent hydroelectric in 1990. Other projects to reduce petroleum dependency—biogas, bio-mass and "gasohol" production—cannot match the hydrolectric projects in dramatic effect, and are still in various stages of study and discussion, but they demonstrate a will ingness on the part of the government to employ the nation's traditional agricultural strengths in finding solutions to problems of new energy generation.

You may have noticed discussion in the press from time to time about the prospects for a new sea-level canal. The United States Government has an open mind about this project at present. Interest in such a canal was embodied in Article XII of the Panama Canal Treaty, which commits both governments to study its feasibility. Last year an impressive delegation from Japan, headed by Mr. Shigeo Nagano, President of the Japanese Chamber of Commerce and Industry, spent four days here studying prospects for such a new canal, and President Royo visited

Japan subsequently.

In April a Panamanian delegation headed by the Minister of Commerce and Industry went to Japan to follow up specific areas of trade and investment prospects. The delegation included the Presidents of the Panamanian Chamber of Commerce and other private sector representatives. Mr. Nagano returned to Panama at the end of the month with several representatives of the Japanese Government

A by-product of the new relationship which has developed under the Panama Canal Treatles is the new spirit of cooperation which both countries feel in the international arena. You are aware, of course, that in December, 1979, Panama demonstrated its helpfulness to a grave world situation by inviting the former Shah of Iran to come here from the United States, after many other nations had refused our plea for help. When the USSR launched its brutal invasion of Afghanistan, Panama joined us in denouncing that aggression and participated in the boycott of the Moscow Olympics last year.

We have a healthy relationship with Panama and find increasingly that Panama's vision of the role and the importance of the canal to the world is, in fact, the same as ours. The slogan on Panama's coat of arms is Pro Mundi Beneficio—For the Benefit o

the World. During the struggle of Latin America for its independence in the last century, the great Liberator Simon Bolivar saw Panama as becoming the emporium of the world. Bolivar's dream could come true. Ambler H. Moss. Jr..

Ambassador.

INTERNATIONAL MILITARY EDUCA-TION AND TRAINING PROGRAMS

Mr. HAYAKAWA. Mr. President, in the course of hearings held by the East Asia Subcommittee of the Committee on Foreign Relations on U.S. policy in Southeast Asia, July 21, 1981, we heard testimony from Deputy Assistant Secretary of Defense for International Security Affairs, Richard L. Armitage. In discussing our relations with Asian governments dominated by military officers, Mr. Armitage emphasized the value of the international military education and training program (IMET). I agree thoroughly with his assessment. From my own experience with the IMET program, I have long felt that it represents one of our most effective foreign policy tools. I would like to share with you some of my observations and thoughts on the IMET program.

Mr. President, one of the critical pillars of stability in the United States and the Western World is the democratic values held by the military establishments of these countries. The men and women who form the officers corps of these nations are dedicated to the principle of civilian control of government and the military forces of their respective countries. These men and women belong to military services that have shed much blood and national treasure over the past several decades to protect freedom and preserve human rights and national social values.

I strongly believe that the cause of human liberty and the principal of civilian control of government are goals that the American people and their government should pursue throughout the world. Over the years we have furthered that goal through our military assistance programs and more specifically through the international military education and training program (IMET).

Under IMET, which began in 1950, hundreds of thousands of military personnel from around the world have undergone training in U.S. military schools and universities, which are of course among the finest in the world.

All participants who come to the United States are exposed to the constitutional freedoms and institutions of this Nation. They are exposed to the American press and the role it plays in American democracy. They read daily of its successes and even its failures. Regardless of the content they observe in our printed press and our electronic media, they go home realizing that the American press is truly free.

Should they be here during an election year, they will observe the workings of a truly representative democracy in action. They are exposed through the media to the winners and the losers of our local, State, and National elections. They are exposed to our culture, our material values, our social successes, and our so-

cial failures. They see our dedication to human rights and our overemphasis upon consumerism and materialism.

More importantly these foreign military personnel are trained in the values of American military traditions. Their course material contains no reference to military coups or takeovers in the United States because there have been none. They are exposed to a military command structure where the President and the civilian leadership in the Department of Defense hold the final authority. They learn about our separation of powers and our system of checks and balances. They observe that the Congress, not the President, has the final say in the level of defense funding.

In their military courses they are trained in U.S. military organization, tactics, strategy, command and control. They train using American equipment, weapons systems, and nomenclature.

In most cases, these foreign military personnel either learn or improve their English language capability during their stay in the United States.

Perhaps the most valuable personal benefit accruing to the foreign officers and enlisted men are friendships and personal relationships which they forge with U.S. military personnel. These relationships often endure for many years during the young officer's career, thus allowing the U.S. military officers to maintain close personal contact with people who frequently move into top command positions or high civilian government posts. Of course, many of the IMET participants come from countries with forms of government quite different than the United States.

They range from strong military to weak civilian governments. Frequently the most stable force in these countries is the military or the Army. It is in the interest of U.S. foreign policy to have developed personal relationships with key officers, especially in those countries where stability of the government is closely tied to the military forces.

Let me list, without specifying the countries, or the names of the individuals involved, some selected comments submitted by U.S. diplomatic and military officers stationed in countries that have received IMET training or have been required to terminate the IMET program due to cost.

Spirit of cooperation in Air Force is strong due to U.S. training. Since not true of Army due to longstanding training program.

As a result of not having an IMET program since 1977, we have lost contact with the younger officers in the military.

Among the older officers who were trained in the United States, there is a clear, softer edge on their political views, a more humble concept of the military, and a more rational approach to its role in society.

In September 1978, officers dissatisfied with the movement toward a return to civilian government tried to disrupt the process. Six key general staff officers representing the three services, all of whom had received extensive training in the United States and the Canal Zone, were pivotal in keeping the process on tracks.

who formed the nucleus of their supporters also had received IMET spon-

sored training.

General * * * was a graduate of the U.S. Command and General Staff College. He, and a significant number of senior military officers occupying key government positions, were instrumental in maintaining and strengthening western orientation of * * * Armed Forces as well as that of the Government as a whole during the years 1972-1979, a period in which * * * was under continued military rule. The * * revolution, with a marked potential for radical action by junior enlisted personnel, was tempered in large measure by U.S. military-school-trained cap-tain * * * and certain other westernoriented officers * * *

Ambassador proposes increasing IMET program over next 5-10 years from \$400,-000 to about \$1.2 million. He would be willing to trade some of the FMS credit

for an IMET increase.

Trainees very impressed with the dynamism and equalitarianism of U.S. society and become advocates of close defense cooperation (with the United States).

Graduates' changed attitudes are reportedly demonstrated by improved officer/enlisted relationships and a reduction in tribal favoritism, both of which are essential for greater efficiency and integrity in the * * * Armed Forces.

Mr. President, we must also accept the fact that the Soviet Union is very actively and successfully offering military training to several governments around the world, especially those among the developing nations. Some are turning to the Soviet Union because they cannot get the required training in the United States at a cost they can afford. Unfortunately, many of these countries receive their training from the Soviet Union at

Mr. President, we should not deceive ourselves. Soviet training is considerably different than American training. The political and social values of the two systems and the role of the military are radically different. The objectives of the two governments vis-a-vis the recipient countries are also very different. Where in the American military schools the foreign officers are exposed to the separation of powers, civilian control, and the values of our bill of rights, the Soviet system represents one party dictatorship, state control of the means of production and the peoples' lives and a police system that severely restricts the rights of free press, religion, speech, and a free political process.

In the past several years, the United States has tended to be shortsighted concerning the IMET program. As a result of Vietnam and the views which were formed as a result of our failure there, the funding levels for IMET were steadily reduced and a different pricing system was imposed which immediately cut the number of participants in the program. Under the new system each government sending students to IMET was charged a pro rata share of the cost of maintaining and operating the training facilities in

Moreover, the majority of the officers the United States. The end product of this costing procedure was that several governments could not afford to send as many students to the United States and terminated participation completely.

Last year, fortunately, I succeeded in changing the law under which training costs are allocated. Now the program is charged on the basis of any additional costs incurred by the American military installation and not on the previous pro rata system. This prudent change, taken at my initiative, allows the United States to offer training to 40-percent more foreign participants than under the previous

cost sharing system.

Mr. President, let me focus for just a moment on Thailand, our longtime friend and ally in Southeast Asia. To this courageous member of ASEAN, facing a Communist insurgency in its northeast provinces, housing thousands of refugees from Laos and Cambodia, and constantly facing a Vietnamese military threat on its western borders, the military is critical to its stability and long-range survival. On April 1, 1981 I addressed the Senate concerning the IMET program and I should like to repeat again here a point which I made in that speech concerning Thailand. It is as valid now as it was then.

I believe there is near unanimity among those who are responsible for projecting the U.S. image abroad that miscellaneous "exchange-of-perprograms are our most effective tool. Many of these programs have been in existence since the end of World War II, and many of today's national leaders have become our friends under the influence of their early experiences as guests of this country. When I visited Thailand last year and called on General Prem, the commander-in-chief of the Thai Army, he and all the senior staff officers in the room remarked with visible pride that they had some training in the United States.

WHEN UNCLE SAM GOES INTO BUSINESS FOR HIMSELF

Mr. HAYAKAWA. Mr. President, on June 22, 1981, I introduced Senate Joint Resolution 93, which if passed, would reaffirm a long-standing national policy of reliance on the private sector for the goods and services needed by the Federal Government. I am happy to report that the Reagan administration fully supports the resolution.

Recently, in hearings held by the Small Business Subcommittee on Advocacy and the Future of Small Business which I chair, the Administrator of the Office of Federal Procurement Policy of the Office of Management and Budget summarized the administration's position as follows:

The Joint Resolution, as introduced, is a vigorous and welcome reaffirmation of the free enterprise system that has made this country strong. We believe it provides timely support for this Administration's quest for a new, revitalized approach to strengthening this country's economy. Economy and efficiency in government and reward of the private sector for initiative and productivity are necessary ingredients in our formula for economic renewal.

Last week, U.S. News & World Report published a fine article that summarizes this issue of Government competition with private sector firms, Mr. President, I ask unanimous consent to have the article printed in the RECORD and I highly recommend it to each of my colleagues.

There being no objection, the article was ordered to be printed in the RECORD. as follows:

[From the U.S. News & World Report, July 27. 1981]

WHEN UNCLE SAM GOES INTO BUSINESS FOR HIMSELF

(By Manuel Schiffres)

(Note-From controlling pests to fixing tires, the government finds itself competing more and more with the private sector. Now, President Reagan wants to reverse the trend.)

Ronald Reagan, aiming to promote free enterprise and save taxpayers money, is launching the most determined drive in years to get Uncle Sam out of competition with private business.

If the President has his way, the U.S. soon will be relying less on federal workers and more on private contractors for a vast assortment of goods and services-from trash collecting to computer key punching.

Departments and agencies already are un-White House orders to examine all of their activities to determine which can be handed over to the private sector. Among the first to report: The Small Business Administration, which discovered itself competing with commercial or industrial operators in 14 areas, including microfilming, graphic production and warehousing of forms and publications.

The business community, which for years has protested government's spread into traditionally private areas, has been quick to note that there are thousands of other government activities that seem ripe for farming out. Among them:

An Army depot at Tooele, Utah, rebuilds tires for National Guard units in several

A Department of Energy operation at Richland, Wash., requires private contractors as well as its own employees to use government facilities for such needs as printing, photofinishing and reproduction of engineering drawings.

Offutt Air Force Base near Omaha, Nebr., undertakes its own pest-control work.

Jerry W. Keown, part owner of an extermi-

nating business in Omaha complains: "Offutt is in the defense business. We're in the pest-control business. There's no real good reason for them to be doing it. We can do it cheaper and better."

Such claims by business product loud outcrys from government workers whose tobs are on the line and who contend that the economic benefits of having work done by the private sector are more illusory than real. Moreover, public-employe unions argue that contracting out frequently is used by politicians in an effort to circumvent personnel ceilings. They add that it can jeopardize national security and that it encourage corruption.

At stake are billions of dollars in potential contracts or, in the view of federal workers. billions in potential salaries that could be

Commerce Department figures show that federal contracts for all types of goods and services—from the procurement of missiles to the hiring of janitors—amounted last year to 117 billion dollars, nearly one fifth of federal spending.

About 400,000 government workers, meanwhile, were employed last year in nearly 12,000 commercial and industrial activities. They produced an estimated 19 billion dollars' worth of goods and services, most of which, according to the Defense Department, was exempt from private contracting on grounds of national security.

Still, government-performed work worth about 7 billion dollars is subject to cost-comparison studies and could be handed to outside contractors, says Darleen A. Druyun of the Office of Federal Procurement Policy.

Despite their enthusiasm for what Reagan has set out to do, business officials warn that other Presidents have tried to accomplish the same thing—and falled. They observe that every President since Dwight Eisenhower endorsed the idea of contracting out wherever possible, but few pressed the issue after encountering resistance from the bureaucracy.

Furthermore, as far as government competition with the private sector is concerned, the contracting-out issue barely scratches the surface, according to business people.

surface, according to business people.

Private pharmacists, for example, claim that they are being harmed by a Veterans Administration policy requiring participants in a free-prescription-drug program to obtain their medicine from a VA facility or by mail directly from the VA.

David T. Hodgen, owner of a campground in Scotts Valley, Calif., contends that by charging unrealistically low fees, federal land-management agencies, such as the National Park Service, undercut private campground owners, who, he says, "are forced to charge fees that are not profitable and that affect the services they can offer."

Head-on challenges. Compounding the business community's frustration is the direct and indirect competition it feels when state and local governments use federal money to set up commercial and industrial-type activities.

Harold M. Kimble, the proprietor of a toolrenting shop in Cambridge, Ohio, argues that he may be driven out of business by a toolloan program sponsored by the local community-development agency, which gets funds from the U.S.

Amber Stephenson, the owner of a day-care center in Gloucester County, Va., complains that local governments and nonprofit agencies use federal funds to set up and operate day-care facilities. "It is unfair to a private business for the federal government to fund a competitor," she says.

Adds Earl Hess, an official with the American Council of Independent Laboratories: "Most of the major land-grant universities in the country do soil testing for very nominal fees. Very few of the private labs even com-

pete with them any more."

The government-competition controversy began heating up in April when the Office of Management and Budget sent memos to the heads of 37 executive agencies and departments reaffirming the government's reliance on the private sector for the acquisition of goods and services—a policy that had first been laid out by OMB's predecessor, the Budget Bureau, as far back as 1955.

Four agencies—the Defense Department, General Services Administration, Health and Human Services Department and VA—were singled out for special scrutiny. The OMB told the GSA it was "gravely" concerned that, despite a Carter administration directive some two years ago, "your agency has not reviewed a single in-house activity for pos-

sible conversion to contract performance."
Some results. The administration's gettough policy may be paying off. For instance, the Agriculture Department turned up 230 in-house activities, including film developing, office cleaning and aircraft piloting, that could be contracted out. Annual operating cost: 244 million dollars.

Even before the administration laid out its policy, the Department of Education switched from government employes to private collection agencies for tracing holders of delinquent student loans. The change came after the department had been widely critic-

ized for its past failure to collect such debts totaling hundreds of millions of dollars. With private collectors, whose track record for collecting owed money is better than that of their public-sector counterparts, officials expect to do better.

For now, the administration's focus is on commercial and industrial activities of the executive branch. Neither Congress, where public workers hold such jobs as barbers and tour guides, nor the judicial branch is affected.

Does the government save money by using private contractors? The answer appears to be yes in many—but not all—cases.

Not only does contracting out save money, supporters claim, but it gives the government better flexibility to terminate tasks that are no longer needed, and it generates tax revenues from the businesses that get the contracts.

A book by economists James T. Bennett and Manuel H. Johnson of George Mason University, Fairfax, Va., claims that governments at all levels can cut costs an average of 50 percent by contracting out for goods and services. Example: A National Weather Service facility at Washington's National Airport in 1979 hired a private firm, for \$126,000 a year, to provide the same observation services that, as an in-house activity, would have cost taxpayers about \$240,000.

Other evidence comes from a series of costcomparison studies by the Defense Department over a 2½-year period. After studying 335 defense activities around the nation, the department found that 62 percent of the time it was more economical to contract out than to do the work in house.

As a result, the department converted 207 activities to contract arrangements—including bus, guard, food and laundry services and maintenance of buildings, vehicles, aircraft and microwave systems. The conversions resulted in the elimination of 7,800 positions and a three-year saving of 130 million dollars, or 17 percent less than the estimated in-house cost of 747 million.

Sometimes, the private sector cannot match the public sector in efficiency. For example, a 1979 study of gold-refining operations at the Treasury Department's Assay Office in New York showed in-house costs to be about a third less than the contractor's cost.

What happens in some cases, contends procurement official Druyun, is that the mere threat of contracting out stimulates efficiency among employes whose jobs might be eliminated. "The government workers at the Assay Office probably recognized the handwriting on the wall," she says. "They had to become as productive as possible, or else the work would be contracted out. So they're streamlining all the fat."

Kenneth Blaylock, president of the 250,-000-member American Federation of Government Employes, dismisses studies that reflect unfavorably on the public sector's efficiency. He contends that it is impossible to fairly compare in-house costs with bids submitted by private contractors because government activities are usually top-heavy with management personnel.

Opponents of the administration's policy also say it fails to recognize the shortcomings of contracting out. They contend, for example, that private-sector workers may strike while government employes may not and that excessive reliance on private workers at military facilities could threaten national security.

Furthermore, asserts Representative Patricia Schroeder (D-Colo.): "Contracting out has been used by both Republican and Democratic administrations to get around personnel ceilings. It's supposed to be used for economies, not for that shell game."

Whether critics are right or not, it is clear they will be hard pressed to stop the administration from proceeding with its plan for turning more public work over to private industry.

THE THIRD WORLD AND THE WEST

Mr. HAYAKAWA. Mr. President, in early July, the Prime Minister of Australia, the Honorable Malcolm Fraser, visited our Nation and discussed a variety of political, economic and defense issues with President Reagan.

Australia is not only a trusted ally, having been one of only two countries which fought alongside America in four major wars in this century, but is also an emerging economic power in the world and a powerful force in the Pacific region.

I recently chaired hearings in the Senate Subcommittee on East Asian and between the United States and ASEAN—the Association of South East Asian Nations. Both the United States and Australia firmly support the ASEAN community, which has facilitated regional cooperation since its founding in 1967. Also, both countries have actively sought to contribtue to the continued economic and social progress of the Asian and Pacific affairs.

With this in mind, I feel it is pertinent that an address given by Prime Min'ster Fraser at the University of South Carolina, entitled "The Third World and the West," be printed in the RECORD. I ask unanimous consent that that be done.

Thank you, Mr. President.

There being no objection, the speech was ordered to be printed in the RECORD, as follows:

THE THIRD WORLD AND THE WEST

(An address by the Rt. Hon. Malcolm Fraser, C.H., M.P., Prime Minister of Australia, University of South Carolina, July 8, 1081)

You have asked me here today as the Prime Minister of Australia. Had I the time

and you the patience, there are many aspects of my country that I could enlarge upon: Australia's role as a significant, independentminded middle power; Australia as a leading member of what people are starting to think of as the Pacific community, a region which contains the most rapidly growing econ-omies in the world; Australia as an ally of the United States (and, incidentally, one of only two countries which have fought alongside America in four major wars in this century); Australia as the world's leading exporter, or very near to it, of a range of important minerals-iron ore, coal, alumina, mineral sands, lead, zinc and several others; Australia as, along with the United States and Canada, one of the worlds major efficient producers and exporters of food.

But it is another aspect of Australia that I particularly want to draw your attention to today, for it is pertinent to my theme. Along with New Zealand, Australia is the only stable democratic, liberal, Western society in the Southern Hemisphere. While we are thoroughly Western in our values and institutions, all our neighbours are Third World countries. They belong to the "South" in terms of the "North-South" dichotomy that is now widely used, while by almost every test except geography we belong to the "North." Living near to these countries—and, I might add, associated closely with more of them through the Commonwealth-we are of necessity very much aware of their perspectives and problems, more so perhaps than other developed countries of the Northern Hemisphere. Our situation requires us to give serious, constant attention to relations between the West and the Third World.

It is about this subject that I want to talk today. But before I do let me make one thing very clear. If I concentrate on these questions on this occasion, it is not because Australia is indifferent to or complacent about East-West questions, about the seri-ousness of the military threat of the Soviet Union to freedom and democracy in the world. On the contrary, we are most concerned.

Since assuming office in 1975, I and my Government have constantly emphasised the gravity of this threat and the need for an effective response by the West. We did so even when belief in detente was in the ascendancy, and the views we expressed were unfashionable and characterized as provoca-

Now, and none too soon, things have changed, partly due to the blatant nature of Soviet behaviour and partly to the remobilisation of will in the United States which President Reagan embodies. In my talks with the President last week, I made it clear that Australia profoundly welcomes the refound resolve and firmness of the United States towards the Soviet Union. As a middle power, Australia will do all within its means to encourage and support strong and purposeful American leadership in this respect.

I say with absolute conviction that such leadership from you is an essential precondition for the security of peace, freedom and democracy in the world. I say also, and with equal conviction, that you are entitled to and must receive support from other democratic Governments in this task.

The American nation has carried a huge burden in defence of freedom over the last four decades. Its shoulders are strong. But morally and materially the burden must be shared, shared by other democracies which have grown wealthler and more powerful be-hind the protection you have provided and, in the case of Western Europe, as a result of the economic help you gave in the immediate post-war years. (The Marshall Plan still stands out as a magnificent example of enlightened self-interest, a definitive reminder that generosity is often very sound policy.) We all know now that there is no such thing as a free lunch. Western coutries should also recognise that in the long run there is no such thing as a free ally. Australia well understands this. It is because we do, also because we owe it to those Australians who fought and died in earlier wars, that we have spoken out and will continue to speak out about the need for a concerted effort on the part of the West. For such an effort is the surest guarantee of peace.

I stress this not only because it is of vital importance in its own right, but because it is a necessary background to what I have to say about relations between the West and the Third World. For my position is some-

what untypical.
In the West, those who are tough-minded and realistic about East-West relations sometimes tend to be sceptical and dismissive about the Third World and North-South issues. They are disinclined to take them very

Conversely, those who are concerned about North-South issues, who accept they are important, only too often dismiss a serious preoccupation with the Soviet threat as outdated, exaggerated and a diversion from the crucial problem of managing global inter-

dependence.
I believe that both groups—and the either/ or mentality they represent—are profoundly mistaken. I believe that East-West and North-South issues are of the utmost importance. I believe moreover that the two sets of issues are closely interlinked, that what happens-or equally important what not happen-with respect to one will have implications for what happens to crucial the other.

There is no question of choice involved. As a matter of basic, rational self-interest they must both be attended to and at-tended to urgently. As I judge it, the most immediate danger to guard against at present with respect to relations between the West and the Third World is that of scepticism and indifference.

There are thoughtful, honest and responsible people who maintain that there is really no such entity as the "South" or the "Third World", that it is merely the figment of the imagination of intellectuals, ideologues and journalists. They point to the heterogeneity of the Third World, the great differences which exist among its claimed members, to their disparate and conflicting interests. And they conclude that there is no substance behind the labels. They maintain therefore that Western dealings with the countries involved should be bilateral and selective and that we should refuse to accept the notion of a North-South dialogue.

There are others who say that even if there is some substance there, it is fast disappearing as memories of colonialism fade and as a significant number of Third World states become more developed and wealthy. They anticipate a process of "graduating out" which will leave the Third World an increasingly unimportant rump. On this ba-sis, they argue that what the West should do is to stall and play for time—to keep issues "on the back-burner" as the saying goes—in anticipation that pressure and demands will diminish with time.

Most important of all, perhaps, there are those who maintain that even if the Third World exists and continues to exist, it need not be taken too seriously. The advantages, they claim, are all with the developed industrial countries.

You remember that Stalin once contemptuously asked the question, "The Pope? How many divisions has the Pope?" These people take a similar attitude towards the Third World. Overall, they point out, it is poor, it lacks political and military power, it is de-pendent on Western capital, know-how, aid and managerial capacity. It needs us much more than we need it.

Therefore, they complacently conclude, we can afford to resist its demands, to drive a hard bargain—or, indeed, to refuse to make any bargain at all. I believe all these views to be profoundly mistaken.

Everything that is said about the diversity and conflicting interests of Third World countries is true. But as well as this, and despite it, there is also a real sense of identity, of unity and solidarity among these

countries.

You may recall that it was said of the Holy Roman Empire that it was not holy, Roman or an empire; yet it was a potent actor in European politics for centuries. In the same way, the Third World is today a potent reality despite its internal diversity and divisions. That reality is evident in the voting patterns of the United Nations. It is evident in the institutions that the recently independent countries have forged for themselves, particularly the Group of 77 and the Non Aligned Movement.

It is evident in the degree of support the non-producing countries have given OPEC despite their interest in low oil prices; in the willingness of non-African states to support the Africans in their opposition to South Africa and apartheid; in the willingness of non-Arab states to support the Arabs over Palestine; in their ability to agree on the programme for a new international economic order. It is evident most of all in

their ideology.

Those who dismiss this ideology as "merely rhetoric" are, I suggest, ignoring the overwhelming and cruel evidence which this century has provided of the decisive impor-tance of ideology in modern politics. I agree with Senator Daniel Patrick Moynihan that, "the beginning of wisdom in dealing with the nations of the Third World is to recog-nise their essential ideological coherence". For in political terms the Third World is essentially a state of mind: a matter of shared memories, frustrations, aspirations and sense of what is equitable and just. Like the working classes in the domestic politics of the 19th century, they want to have full citizen rights in the world, to be subjects who act rather than objects who are acted upon. Just as Stalin was foolish in overlooking the spiritual power of the Papacy, so it would be foolish to underestimate the binding and motivating force of this aspiration in the Third World.

As to the claim that the Third World will As to the claim that the Third World Whi disintegrate before long, that there will be a "graduating out", I simply observe that twenty years after the main wave of de-colonisation there is no evidence of it, Many Third World countries have made great economic progress in that time-some have transformed themselves—but none has sought, as a result, to diassociate itself from the group or shows any sign of doing so.

Surely, if there were substance in this thesis of a natural "graduating out" process there would be some evidence to support it by now. In this respect I am sceptical of the sceptics. The Third World or the "South", exists and is likely to continue to do so for the foreseeable future.

But is it important? Should the West take seriously what it represents? My answer to that is an emphatic "yes". In economic terms, something of the order of 25 percent the West's entire trade is with the Third World. In the case of the United States the figure is over 40 percent and in the case of Japan 50 percent. This means that hundreds of thousands of jobs in Western countries depend on this trade and that the serious unemployment we are now experiencing would reach crisis proportions—proportions which would threaten the existence of democracy itself-if it were disrupted.

There are many in this audience and there are many in my own country who can re-member the demoralising effect of the mass unemployment that occurred in the 1930s. In my own country over 30 percent of the workforce was jobless during the worst period. A recurrence of unemployment on that scale would threaten the existence of democracy itself. Rising living standards and growing markets in Third World countries may play a critical role in ensuring that we do not. In addition, of course, the trade we have with the Third World involves commodities which are vital to Western economies and societies.

Oil is the clearest and most important example, with 60 percent of the West's oil coming from a handful of Third World countries. Out of conviction or prudence, or a mixture of both, those countries have shown themselves unwilling to divorce the question of oil from other matters of concern to their fellow members of the Third World. Beyond this there is the fundamental point that the West's commitment to a global market system requires and depends on the participation of the 120 or so countries of the Third World, over two thirds of all the countries which exist in the world.

One should not talk of these economic relationships purely in terms of potential danger. The language of opportunity is equally relevant. Over the last decade a number of Third World countries—the so-called newly industrializing countries—the so-called newly industrializing countries—the sustained growth rates well in excess of those suchieved by the rest of the world, including the West. By doing so they have prevented the world recession from being much more severe than it would otherwise have been. Insofar as this vigorous growth is maintained and extended to other Third World countries, insofar as countries which are now clients are converted, through rising living standards, into customers and consumers, the economies of the West will benefit. And insofar as this does not happen they will be impoverished.

This is why it is essential that, in its dealings with the Third World, the West should be true to its faith in the market system, should allow the newly industrialized countries access to its markets and should reject firmly the temptation to resort to protectionist measures which deny those countries the rewards for their own efforts and enterprise. In saying this I am emphatically rejecting the Marxist notion that the prosperity of the West depends on the impoverishment of the Third World.

Thomas Jefferson's observation that, "it is a kind of law of nature that every nation prospers by the prosperity of others", seems to me to be much closer to the mark and a much better guide to policy. Australia is in as good a position as anyone to appreciate all this.

We happen to live in a part of the world where many of these newly industrialized countries are concentrated, countries whose economics have been growing at twice the world average, or better, over recent decades. They—together with Japan, which in many respects has provided a model for them—have proved invaluable to Australia at a time when structural changes were threatening our traditional markets in Europe. They have made possible a remarkable change in our pattern of trade.

Of course, it is true that if the West is dependent on trade with the Third World, the Third World is even more dependent on trade with the West. Over 70 percent of its trade is with the developed industrialized countries. But it is a serious error to assume, as some do, that because of this—or for that matter because of the substantial OPEC investments in the West—the Third World can be taken for granted, that in the last resort it has no option but to cooperate with the West on Western terms.

The basic error here is to assume the primacy of economic rationality over politics, an assumption that runs counter to the fundamental experience and character of the Third World. We would do well to remember the advice given by President Nkrumah of Ghana to African nationalists: "Seek ye first the political kingdom". We would do well to remember too Sukarno's "Go to hell with your aid", uttered when the economy of Indonesia was a shambles and when it desperately needed all the American aid it could get. For these words represent widespread and deep-seated attitudes in the Third World.

More recently, despite its irrationality and intolerance, what has happened in Iran has pointed the same lesson: the lesson, that is, that many countries in the Third World will not hesitate to sacrifice their own immediate economic interests for political reasons of status, independence and what they believe is justice.

Those of us who fail to understand the force of this, do so only because we have forgotten our own history—because we have possessed freedom and independence for so long, have come to take them so much for granted, that we do not recall the passionate intensity of feeling they invoke when they are newly acquired. But the author of the Declaration of Independence understood that feeling and shared it. "By the God that made me", he wrote in 1775, "I will cease to exist before I yield to a connection on such terms as the British Parliament proposes". That, or something very like it, could have been said by many Third World leaders in our time.

It is also worth contemplating the potential power of the weak, of those who feel they have little left to lose—the power to threaten collapse, disorder and chaos. This is a potent power against those who have a large stake in stability and in the efficient working of the existing order. In this respect, the question that should be asked is not whether the Third World could conceivably reject the existing system and establish a viable one of its own, but how much damage would be done in any attempt to do so.

Edmund Burke said it better when he observed, in the process of cautioning Britain on its treatment of the American colonies, "that discontent will increase with misery; and that there are critical moments in the fortunes of all states, when they who are unable to contribute to your prosperity may be strong enough to complete your ruin." Today, all the Western countries need to heed that advice.

Apart from all this, there are compelling strategic and geopolitical reasons for taking the Third World seriously. Some of the most sensitive areas in the world—the Middle East, the Caribbean and Central America. Southern Africa, the Korean peninsula—are Third World areas. Most of the kev "choke points" in the world—the Straits of Hormuz, the Panama Canal, the entrances to the Red Sea, the passages from the Indian Ocean to East Asia—lie within the Third World. Over and above this, East-West rivalry has been and is largely fought out in the Third World and the West is extremely sensitive, rightly so, concerning any significant gains made by the Soviet Union in the Third World.

Moreover, despite its poor overall record in providing aid to developing countries, the Soviet Union can exploit tensions in relations between the West and the Third World. Given the unprecedented military strength it has at present, the Soviet Union is likely to make a particular effort in this respect during the next few years.

If the West is concerned to prevent these efforts from succeeding there are several things it should do. First, it should act to ensure that Third World perceptions of the East-West conflict are not of a declining West and an ascendant Soviet Union. For, as

a political leader of a country allied to the United States once succinctly put it on returning from a visit to Moscow, "no-one wants to be caught on the wrong side".

Secondly, the West should act in ways which minimize the need for Third World countries to contemplate turning to the Soviet Union in order to get the aid and assistance they desperately need. That in turn means maintaining a constructive and forth-coming relationship which does not systematically frustrate Third World hopes.

Thirdly, the West should do what it can to emphasize and show understanding of the economic dimensions of Third World affairs and the development aspirations of the Third World; for as long as the principal issues are economic the Soviet Union is not in the race as a competitor to the West.

race as a competitor to the West.

What is needed, in other words, is an integrated policy which combines a stress on restoring, and then maintaining, a military balance which can preserve world peace and a positive attitude towards economic relations with the South.

I repeat, there is no real choice involved between these two components of policy. Both are essential. So far, I have deliberately concentrated on making the case for a serious Western concern with the Third World in terms of direct political and economic self-interest, for that case has to be established if Western Governments are to respond. But that does not mean that I do not recognise other aspects and arguments. I should like to mention two of these.

First, there are the altruistic, humanitarian dimensions of the problem. We should never forget the extent of the stark human suffering that is involved in the Third World, never allow annoyance at the posturing and hypocrisy which sometimes characterise North-South relations to obscure it.

According to the World Bank, not a body given to emotional exaggeration, 800 million people are living in conditions of "absolute poverty" in the Third World. The infant mortality rate in low income Third World countries is twelve times as high as it is in Western countries. Life expectancy in them is still under 50 years. Thousands are dying every week from malnutrition and outright starvation.

As a society which holds Christian and humanitarian values, we must be diminished and damaged as long as we continue to live in a world where such conditions are commonplace. It is not a question of our masochistically accepting guilt for creating these conditions; that is an absurd oversimplification of the historical record. It is a question of our responsibility, in terms of our own professed values rather than of the demands of others, to work for the abolition of these intolerable conditions. And, again, of our interest in seeing them abolished.

My second observation is that, even apart from the claims of the Third World, there is another dimension of international relations which points to a clear and urgent need for action. This is the one covered by the now familiar phrase "the management of interdependence".

It is true that in recent years the case for this has sometimes been overdrawn and it is foolish to maintain, as some have done, that this task somehow renders obsolete the traditional concerns of power and national interest. But even after this exaggeration has been discounted, the basic case is sound enough.

The trebling of the number of states in the world; the very rapid increase in the volume of transactions among these states; revolutionary changes in communication, transport and other technologies; much greater demands and pressures on man's physical environment; the emergence of trans- or multinational corporations as a major force in international economic relations: all of these

point to the necessity for developing multilateral negotiating processes to deal with the new and unprecedented complexity and to respond to the new awareness of global environmental problems. The quality of the world in which our children will live will depend crucially on whether we succeed or fall in this respect.

But improving the management of interdependence and the North-South dialogue are intimately linked and progress in one depends on progress in the other. They must be approached as parallel enterprises. If the second is stalemated so will be the first. At present the North-South dialogue is stalemated. The global negotiations which were to be held have been postponed and postponed again. There is little evidence at present of the political will necessary to break that stalemate and to initiate progress.

As I have indicated, I believe that there are compelling reasons why the effort to marshal that will must be made. There will be opportunities to make that effort in the near future: in the Ottawa Summit this month; at the Commonwealth Heads of Government Meeting which I shall chair in Melbourne in October; and at the summit meeting in Mexico on North-South issues shortly afterwards. If these opportunities are not seized, if by the end of the year no progress has been made, the outlook will be very bleak indeed and the last decades of this century will promise tension, frustration, and instability rather than hope. The Western nations should seize these opportunities.

In doing so I suggest that there are a number of guidelines we should follow if we are

to succeed:

First, and fundamentally, we should accept and take seriously the reality of the South or the Third World as a political presence on the world stage.

Second, we should accept that, given the great transformation that has occurred in the world in the past 40 years, significant changes in international institutions and processes are inevitable. The question is whether these changes are to be orderly negotiated ones or imposed by disruption and breakdown.

Third, substantively we should adopt an innovative, constructive attitude towards the North-South dialogue, rather than be reactive or passive, leaving all the initiative to the Third World. For we have very important interests of our own in seeing progress made.

Fourth, procedurally the efforts of the West should be directed to forging more effective and efficient forms of multilateral negotiations, rather than to avoiding, delaying or frustrating them.

Fifth, if we want to retain credibility we should not play fast and loose with our commitment to the market economy. We should not preach it in order to dismiss Third World claims while simultaneously pleading special circumstances to justify exceptions in our own case. If exceptions can be made for our needs, why not for those of the Third World? Conversely, if it is an overriding commitment, why not apply it in dealing with the Third World's claims for access to markets?

Sixth, we should always bear in mind the interrelationship between North-South and East-West issues and not treat them as two separate categories. Success in dealing with the Soviet Union will always require the maintenance of a military balance. But in the middle to long term it will also depend significantly on the resolution of North-South differences. If Third World leaders come to us for the teachers, the advisers, the technologies, the capital, and in some cases the political support they desperately need; if they make it evident that, given a choice, they do not want to deal with the monolithic bureaucracy of the Soviet Union, that they are suspicious of its demands for political association as the price for aid; and if we still refuse to respond to them, then we

do so at our own peril and the consequences should come as no surprise. The needs of the Third World are such that, in the last resort, it will turn for assistance to wherever it is available, rather than go without. The West must ensure that that last resort is not the Soviet Union.

Seventh, we should act in such ways as to support and strengthen the moderate elements in the Third World, those elements which seek co-operation and want to achieve accommodation with us. Too often in the past we have behaved in ways which weaken the moderates and strengthen extreme forces hostile to us.

Eighth, as well as working to reinvigorate the North-South dialogue, each of us should do what is within our means, bilaterally and regionally, to contribute independently towards improving the prospects of the developing countries and relations between them and the West. Important as the North-South dialogue is, everything should not be made to wait on it.

Ninth and last, we should work on the assumption that time is a wasting asset, that the longer the delay in addressing them the more intractable will the problems become.

more intractable will the problems become. I should make it clear that in advancing these principles, I am not suggesting that it is only the West which must revise its attitudes and behavior if progress is to be made. The same is true of the Third World and I hope that there will be voices in it which will urge a moderate and constructive approach.

Neither am I suggesting that the developed countries should simply accept the package of demands made by the Third World. Rather that the approach should be a positive one which seeks to identify what is justified and sound in the Third World case and respond to it. In that process wider criteria than economic rationality should be employed because more than economic interests are involved.

In conclusion let me say that to respond to the North-South dialogue adequately we must be prepared to see it in broad historical perspective. In little over a generation, over a hundred new countries have come into existence. Nearly all of them have a colonial past. Nearly all of them are very poor compared with Western countries—how poor it is difficult for us in our prosperity to concive. Think of how long it takes you to spend \$200; then contemplate that there are over one billion people in the world whose average annual income is less than that amount. Again, and equally important in political

Again, and equally important in political terms, all these countries are deeply concerned about their place in the world, their dignity, status and influence. These countries and their needs have to be accommodated, and accommodated in a world which is simultaneously becoming smaller, more crowded and more complex. The conditions must be created which give them opportunities to break the grinding circle of poverty in which they are caught. There is much they can and must do for themselves. But simply to tell an undernourished man who is working hard, arid, poor soil with a wooden plough, in the certain knowledge that his crop will be at best meager—and there are millions of such men—simply to tell him that he must work harder and show more enterprise is insulting and dangerous nonsense. We cannot solve the Third World's problems; but we can help to create the conditions under which they can be tackled with some hope of success; and perhaps only we can.

This is essentially what the North-South dialogue is about and the atmospherics and frictions of day to day events should not be allowed to obscure it. Developing the statecraft and the will to achieve this accommodation is one of the decisive challenges of our time. It is not an easy challenge to meet. It lacks the drama and crisis of war and political confrontations. It invites the

resigned answer that "the poor are always with us." If we fail, the effects are unlikely to be immediately catastrophic. They may not be felt this week or this year. But, make no mistake, they will be felt and felt with cumulative force over the next decades, and we will be cursed by our children for our shortsightedness, our selfishness, our failure to seize opportunities in good time.

Mr. President, before I came to the United States on this visit I had been told that the current mood of the American people was not receptive to accommodating the Third World. Given the burden that you have carried in world affairs and given also the need for that renewal at home which President Reagan called for in his inaugural address, I could understand that some might feel like that. I will not presume to assess the American mood on the basis of a brief visit, though I can say that I did not find indifference or lack of understanding in Washington last week. In any case, I believe that there are certain periods in history when timely and bold adjustments to new forces are necessary to forestall convulsion, disarm revolution and preserve peace. I believe also that conciliation and magnanimity are usually sound policy.

At the time of the dispute between England and the American people in the 18th century, a dispute not without relevance to the contemporary situation, one of the wisest and most penetrating of political observers said: "It is not whether you have the right to render your people miserable, but whether it is in your interest to make them happy. It is not what a lawyer tells me I may do; but what humanity, reason and justice tell me I should do. Is a political act the worse for being a generous one?"

In the 19th century, the countries which enjoyed domestic peace were those who responded in good time to the aspirations of emerging groups and adopted democratic political institutions.

In our lifetime we have the evidence of the magnificently generous American response represented by the Marshall Plan to novel and dangerous circumstances. It is worth recalling, too, the enlightened recognition of and response to the "wind of change" in Africa which in a matter of three or four years transformed a continent of colonies into a continent of independent states with minimum bloodshed. I believe profoundly that we are now at a turning point in global history which is at least as critical and important as these great episodes I have referred to. The magnitude of the problems, the scale of the adjustments necessary, the vision required should be conceived in these terms. Mr. President, ladies and gentlemen for the sake of this and succeeding generations, I trust that they will be.

SENATOR DANIEL PATRICK MOYNIHAN

Mr. ROBERT C. BYRD. Mr. President, today's Washington Post contained an article by Clayton Fritchey which discussed the emerging role of the senior Senator from New York, DANIEL PATRICK MOYNIHAN, as a spokesman for the Democratic Party.

I was very pleased to be able to appoint Senator Moynihan as a spokesman in reaction to the President's address last week on the tax and social security issues. His articulate, incisive critique of the Reagan program was a credit to all of us whom he represented.

I ask unanimous consent that the article from the Washington Post be printed in full in the RECORD.

There being no objection, the article

was ordered to be printed in the Record, as follows:

THE NEW MOYNIHAN (By Clayton Fritchey)

One of the most surprising developments of the 97th Congress has been the emergence of a famous "neo-conservative," Sen. Daniel Patrick Moynihan (D-N.Y.), as a leading neo-liberal critic of the Reagan administration.

Who would have believed a few months ago that Moynihan would end up as the choice of the liberal-oriented Democratic congressional leadership to make the party's reply to the president's televised pitch last week for his tax program?

Yet, only two hours after Reagan finished, there was Moynihan also on the networks firing away at Reagan's arguments. Even before going on the air, however, the senator was already saying, "Something like an auction of the Treasury has been going on. This administration is seemingly willing to pay any price to win votes for their version of the tax cut, simply to gain a victory on their own terms."

The honor of speaking for the Democrats, though, was not bestowed on the supposedly conservative New York senator solely because of his opposition to Reagan's fiscal policies. He was picked because, in contrast to some of his supposedly liberal but cautious Democratic collegues, he has not hesitated in recent months to challenge the administration on any number of fronts.

As vice chairman of the Senate Intelligence Committee, he has been concentrating on an investigation into the tangled personal affairs of William J. Casey, director of the CIA. It has, of course, been acutely embarrassing to the White House, but no more so than some of the senator's other attacks on the Reagan regime.

He accused the administration of conducting "a campaign of political terrorism" to frighten Congress into slashing Social Security. He opposed efforts to cut housing subsidies and raise rents for low-income tenants. In defending Medicare, the senator said, "In all the talk of these budget cuts, there's almost no attention paid to the most dramatic effect of Medicare. It's changed the lives of old people." He was equally concerned about what would happen to children in foster care if assistance were jeopardized by administration plans to abdicate federal control. The senator thinks the cittes, especially New York, are being shortchanged in the Reagan budget, with its reduction of social programs and increases in military spending.

Moynihan has been toughest of all on the administration's foreign policy. He says it doesn't have one—just "a series of speeches and trips and press statements." He was "appalled at the way we have handled ourselves in Asia and Pakistan." He criticized Secretary of State Alexander Haig for offering arms to the Chinese and getting "nothing in return."

Moynihan himself has never appreciated being called a neo-conservative, yet that is the way he has been widely perceived in recent years. The New York Times has referred to him as "a leading apostle of neo-conservative philosophy." In The Washington Post, he was described as "a leading spokesman for a melange of hard-line foreign policies and 'free enterprise liberalism' that has come to be called neo-conservative politics."

As such, Moynthan was closely identified with a prominent group of defecting Democrats and former Democrats who found their party's foreign and military policies too "soft" and its domestic social policies too "extreme." But, unlike Moynthan, many of these old associates are now serving in the Reagan administration or uncritically supporting it.

When Norman Podhoretz, editor of Commentary and a spokesman for the neo-conservatives, first began promoting Moynihan for president, he said, "If I had to invent a candidate to suit the political mood of the country, it would be somebody like Moynihan."

That was in 1978. What would he say today?

The senator used to blast Democratic liberals on the grounds that they believed "government should be powerful and America should be weak." Still, in speaking for the Democrats at the Gridiron dinner this spring, the new Moynihan said, "We believe in American government, and we fully expect that those who now denigrate it, and even despise it, will sooner or later find themselves turning to it in necessity, even desperation."

It is hardly surprising, then, that the Democratic leadership is turning to the senator as a liberal spokesman. The Democratic National Committee, in fact, has just launched a fund raising drive with a letter appealing for help in resisting Sen. Jesse Helms (R-N.C.) and other ultra-conservatives who, the committee claims, "now control the Republican Parts"."

trol the Republican Party."

The letter, signed by Moynihan and Rep. Morris Udall, contends that the "mandate" of November has been distorted into a demand, among things, for repealing the Voting Rights Act, outlawing all abortions, subverting Social Security, crippling day-care centers and allowing developers to exploit public lands.

The senator will be up for re-election next year. He also may be a candidate for president in 1984. In either event, he apparently won't be running as a neo-conservative.

ON GENERAL ERNEST GRAVES' RETIREMENT

Mr. STENNIS. Mr. President, I wish to join with my colleagues Senators Tower, Percy, and Glenn in paying tribute to Lt. Gen. Ernest Graves, U.S. who retired on July after over 37 years of distinguished service. He is truly a man for all seasons. He was a highly successful troop leader in three wars; a platoon leader in Germany, a battalion commander in Korea and a group commander in Vietnam. He is a highly trained and skilled scientist in the nuclear energy field, starting with his receiving a Ph. D. degree in physics from Massachusetts Institute of Technology and culminating as director of military applications, U.S. Energy Research and Development Administration.

He is an accomplished engineer and planner, having served as a division engineer and later as the director of civil works for the U.S. Army Corps of Engineers. Lastly he has demonstrated the highest degree of capability in the foreign relations/diplomatic area during his superb performance as the Director, Defense Security Assistance Agency.

It has been my privilege to have known and worked with General Graves in his capacity as division engineer, director of military applications and director of civil works in his many appearances before the Appropriations Committee and also in his current assignment with his work with the Armed Services Committee. He was always superbly prepared and ably presented his program.

I would particularly mention his work in handling the most difficult and sensitive problems occasioned by the cancelation of many military procurement contracts by the Iranian Government 2 years ago. I would also mention his outstanding work as director of civil works during the so-called project review of the water projects by the previous administration. Through his diligent marshaling of the facts and his articulate and logical presentation he was able to convince the new administration that with few exceptions the 292 projects under review were environmentally sound, economically justified, and physically safe.

fled, and physically safe.

The country will miss the service of this outstanding soldier, scientist, engineer, and diplomat. I wish him well and thank him again for all that he has done.

REPORTS OF COMMITTEES SUB-MITTED DURING RECESS

Under the authority of the order of the Senate of August 1, 1981, the following report of a committee was filed on August 1, 1981, during the recess of the Senate:

By Mr. DOLE, from the committee of conference:

Conference report on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4242) to amend the Internal Revenue Code of 1954 to encourage economic growth through reductions in individual income tax rates, the expensing of depreciable property, incentives for small businesses, and incentives for savings, and for other purposes (Rept. No. 97-176).

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. ROTH, from the Committee on Governmental Affairs:

Special Report entitled "Oversight Inquiry of the Department of Labor's Investigation of the Teamsters Central States Pension Fund," report of the Permanent Subcommittee on Investigations (Rept. No. 97-177).

Mr. ROTH. Mr. President, on behalf of the Senate Committee on Governmental Affairs, I submit a report of its Permanent Subcommittee on Investigations entitled: "Report of the Permanent Subcommittee on Investigations Regarding Its Oversight Inquiry of the Department of Labor's Investigation of the Teamsters Central States Pension Fund."

This report reflects the extensive investigation performed by the Permanent Subcommittee on Investigations last year under the very able chairmanship of Senator Sam Nunn. In the report the subcommittee finds serious deficiencies in the Department of Labor's investigation of the Teamsters Union's Central States Pension Fund and makes a variety of recommendations for wideranging improvements.

By Mr. DOMENICI, from the Committee on the Budget, without amendment:

S. Res. 190. A resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 859; and

S. Res. 192. A resolution waiving section 402(a) of the Congressional Budget Act of 1974 with respect to the consideration of S. 778 (without recommendation).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. BAKER (for Mr. PERCY), from the Committee on Foreign Relations:

Winifred Ann Pizzano, of Virginia, to be Deputy Director of the ACTION Agency.

(The above nomination was reported from the Committee on Foreign Relations with the recommendation that it be confirmed, subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. ROBERT C. BYRD (for Mr. CRANSTON):

S. 1584. A bill to designate certain public lands in the State of California as wilder ness, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. ROBERT C. BYRD: S. 1585. A bill for the relief of Inder Vir Khokha, doctor of medicine; to the Committee on the Judiciary.

By Mr. HATFIELD:

S. 1586. A bill to establish a national policy of promoting and facilitating the operation, maintenance and development of deep-draft seaports, inland river ports and waterways necessary to domestic and foreign waterborne commerce; and to require recovery of certain expenditures of the U.S. Army Corps of Engineers for the operation, maintenance and construction of inland shallow-draft and deep-draft navigational channels and other projects as appropriate; to the Committee on Finance.

By Mr. BAKER:

S. 1587. A bill for the relief of Camel Manufacturing Co.; to the Committee on the Judiciary.

By Mr. ROTH:

- S. 1588. A bill to provide for a temporary suspension of the duty on bulk fresh carrots; to the Committee on Finance. By Mr. HEFLIN:
- S. 1589. A bill to improve the security of the electric power generation and transmission system in the United States; to the Committee on the Judiciary

By Mr. THURMOND:

S. 1590. A bill to amend title 10, United States Code, to provide for legal assistance to members of the Armed Forces and their dependents, and for other purposes; to the Committee on Armed Services.

By Mr. HOLLINGS:

S. 1591. A bill to eliminate certain provisions of the Federal Food, Drug, and Cos-metic Act relating to colored oleomargarine; to the Committee on Labor and Human Re-

By Mr. SYMMS:

S. 1592. A bill to provide protection from requirements and prohibitions imposed upon citizens of the United States by foreign nations concerning the disclosure of confiden-tial business information, and for other purposes; to the Committee on the Judiciary.

By Mr. GORTON (for himself, Mr.

STENNIS, Mr. KASTEN, and Mr. In-OUYE):

- S. 1593. A bill to revise regulation of international liner shipping operating in the U.S. foreign commerce; to the Committee on Commerce, Science, and Transportation. By Mr. SYMMS:
- S. 1594. A bill to amend the Internal Revenue Code of 1954 to apply the civil fraud penalty only to that portion of an underpayment which is attributable to fraud; to the Committee on Finance.

By Mr. INOUYE (for himself and Mr.

S. 1595. A bill to provide for the designation of income tax payments to the U.S. Olympic Development Fund; to the Committee on Finance.

By Mr. MATHIAS (by request):

S. 1596. A bill to amend the act relating to the Commission of Fine Arts to provide for private donations; to the Committee on Rules and Administration.

By Mr. DOLE:

S. 1597. A bill to establish a Corporation for Prison Industries; to the Committee on the Judiciary

By Mr. ROBERT C. BYRD:

S.J. Res. 106. Joint resolution to authorize and request the President to designate June 20, 1982, as "Bicentennial Emblem Day"; to the Committee on the Judiciary.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. ROBERT C. BYRD (for Mr. CRANSTON) :

1584. A bill to designate certain public lands in the State of California as wilderness, and for other purposes; to the Committee on Energy and Natural Resources.

CALIFORNIA WILDERNESS ACT OF 1981

(By request of Mr. ROBERT C. BYRD, the following statement was ordered to be printed in the RECORD:)

 Mr. CRANSTON. Mr. President, I introduce for appropriate reference a bill to designate 3.5 million acres in California as wilderness-2.1 million acres of national forest land and 1.4 million

acres of national park land.

This bill is nearly identical to Congressman Phil Burton's California wilderness bill, H.R. 4083, which passed the House on a voice vote on July 17. The deletion of 600 acres from the Sheep Mountain wilderness to permit the expansion of the Mount Baldy ski area on the northeast face of Mount San Antonio and the addition of 88,843 acres to the Sequoia-Kings Canyon wilderness to conform the acreage with the National Park Service's wilderness recommendation for this park are the only difference between this bill and the House bill.

For national forest lands, this legislation designates 53 separate wildernesses and wilderness additions ranging from the lush forests of the Trinity Alps to the endangered California condor habitat in the Dick Smith area of the Los Padres Forest and the Nation's highest desert mountains in the Boundary Peak area. The legislation also resolves the California lawsuit on RARE II, freeing up some 590,000 acres with 86 million board feet of annual potential yield currently under injunction for timber harvestng. Another 245,000 acres with 35.1 million board feet of annual potential yield in administrative further planning areas are released to nonwilderness through House committee report language, and I would hope for similar Senate report language.

The bill permits expansion of existing ski areas like Mammoth Mountain and relocation and development of others like Mount Shasta. It assumes that the development of important known deposits of minerals like the cobalt around the North Fork of the Smith River will not be hampered by wilderness designation or further wilderness study. And the bill keeps open many trails and other areas which have been used by recreational vehicles.

For the national parks, this legislation adds the 253-acre Crocker Ridge area and 7,000 acres of Sierra National Forest lands to Yosemite National Park, completing watershed protection along the park's southern boundary. The bill adds 12,000 acres of highly scenic Sequoia National Forest lands to Sequoia-Kings National Park, rounding out the park for better management. The bill also establishes two park wilderness areas—a 677,-600-acre Yosemite wilderness and an 825,853-acre Sequoia-Kings Canyon wilderness area.

Mr. President, I want to commend Congressman PHIL BURTON for developing this legislation. For the past 21/2 years, Congressman Burton has worked closely with every member of the California congressional delegation whose district is affected by the Forest Service RARE II proposals. His bill is a product of these extensive negotiations and committee hearings, both in California and Washington, D.C. It is a compromise between earlier California wilderness bills calling for a maximum of 5.1 million acres of national forest wilderness and a minimum of 1.3 million acres of forest wilderness. Personally I feel that this bill represents a good balance between environmental and commercial interests.

I am introducing my own California wilderness bill today to expedite Senate action on the California RARE II issue. Since the Forest Service finalized its wilderness recommendations, I have sought the counsel and views of all parties affected by the proposals, most especially those of the California timber industry as I have been concerned about the impact of the proposed wilderness designations on jobs, timber supply and lumber for housing. Based on these conversations, I am convinced of the need for Congress to pass legislation at an early date: First, to settle the California RARE II lawsuit and second, to identify for the Forest Service the land base on which to plan timber sales in the future. I am also convinced that this can only be accomplished through enactment of a California wilderness bill which designates some wilderness in California while at the same time lifts the injunction and releases other RARE II lands to multiple use.

As I have previously mentioned, this bill is a compromise worked out in the House. However, I anticipate that there will be further modifications to this bill, both in the Senate committee and in conference. What I believe is most important is to keep the process going so we can resolve the RARE II issues in California and protect for all time some of the most beautiful parts of the State.

Mr. President, I ask unanimous consent that the text of the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1584

Be it enacted by the Senate and House of Representatives of the United States of

America in Congress assembled, That this Act may be cited as the "California Wilderness Act of 1981"

DESIGNATION OF WILDERNESS

(a) In furtherance of the purposes of the Wilderness Act, the following lands, as generally depicted on maps, appropriately referenced, dated July 1980 (except as other-wise dated) are hereby designated as wilderness, and therefore, as components of the National Wilderness Preservation System—
(1) certain lands in the Inyo National

Forest, California, which comprise approximately forty-nine thousand nine hundred acres, as generally depicted on a map entitled "Boundary Peak Wilderness—Proposed", and which shall be known as the Boundary Peak Wilderness:

(2) certain lands in the Cleveland National Forest, California, which comprise approxi-mately five thousand nine hundred acres, as generally depicted on a map entitled "Caliente Wilderness Proposal" dated July 1980, and which shall be known as the Caliente Wilderness:

(3) certain lands in the Eldorado National Forest, California, which comprise approximately fourteen thousand acres, as generally depicted on a map entitled "Caples Creek Wilderness—Proposed", dated November 1980, and which shall be known as the Caples Creek Wilderness;

(4) certain lands in the Lassen National Forest, California, which comprise approximately one thousand eight hundred acres, as generally depicted on a map entitled "Caribou Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Caribou Wilderness as designated by Public Law 88-

(5) certain lands in the Stanislaus and Tolyabe National Forests, California, which comprise approximately one hundred ninety thousand acres, as generally depicted on a map entitled "Carson-Iceberg Wilderness—Proposed", and which shall be known as the Carson-Iceberg Wilderness: Provided, however, That the designation of the Carson-Iceberg Wilderness shall not preclude continued motorized access to those previously existing facilities which are directly related to permitted livestock grazing activities in Wolf Creek Drainage on the Toiyabe National Forest in the same manner and degree in which such access was occurring as of the date of enactment of this Act;

(6) certain lands in the Shasta Trinity National Forest, California, which comprise approximately seven thousand three hunapproximately seven thousand three nun-dred acres, as generally depicted on a map entitled "Castle Crags Wilderness—Pro-posed", and which shall be known as the Castle Crags Wilderness;

(7) certain lands in the Shasta Trinity National Forest, California, which comprise approximately eight thousand two hundred acres, as generally depicted on a map en-titled "Chancelulla Wilderness—Proposed". which shall be known as Chancelulla Wilderness;

(8) certain lands in the Lassen National crest, California, which comprise approximately fifteen thousand five hundred acres as generally depicted on a map entitled "Cinder Buttes Wilderness-Proposed", and which shall be known as the Cinder Buttes Wilderness

(9) cetrain lands in the Angeles National Forest, California, which comprise approximately four thousand four hundred as generally depicted on a map entitled "Cu-camonga Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Cucamonga Wilderness as designated by Public Law 88-577;

(10) certain iands in the Inyo National Forest, California, which comprise approximately seven thousand six hundred acres, as generally depicted on a map entitled

"Deep Wells Wilderness-Proposed", and which shall be known as the Deep Wells Wilderness:

(11) certain lands in the Los Padres Na tional Forest, which comprise approximately sixty-seven thousand acres, as generally de-picted on a map entitled "Dick Smith Wilderness—Proposed", dated October, 1979, and which shall be known as Dick Smith Wilderness: Provided, That the Act of March 21, 1968 (82 Stat. 51), which established the San Rafael Wilderness is hereby amended to transfer four hundred and thirty acres of the San Rafael Wilderness to the Dick Smith Wilderness and establish a line one hundred feet north of the centerline of the Buckhorn Fire Road as the southeasterly boundary of the San Rafael Wilderness, as depicted on a map entitled "Dick Smith Wilderness—Proposed", and wherever said Buckhorn Fire Road passes between the San Rafael and Dick Smith Wildernesses and elsewhere at the discretion of the Forest Service, it shall be closed to all motorized vehicles except those used by the Forest Service for administrative purposes;

(12) certain lands in the Sierra National Forest, California, which comprise approximately thirty thousand acres, as generally depicted on a map entitled "Dinkey Lakes Wilderness-Proposed", and which shall be known as the Dinkey Lakes Wilderness: Provided. That within the Dinkey Lakes Wilderness the Secretary of Agriculture shall permit nonmotorized dispersed recreation to continue at a level not less than the level of use which occurred during calendar year

(13) certain lands in the Sequoia National Forest, California, which comprise approximately thirty-one thousand acres, as generally depicted on a map entitled "Domeland Wilderness Additions-Proposed", and which are hereby incorporated in, and which shall be deemed to be part of the Domeland Wilderness as designated by Public Law 88-577;

(14) certain lands in the Stanislaus National Forest, California, which comprise approximately six thousand one hundred acres, as generally depicted on a map entitled "Emi-grant Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Emigrant Wilderness as designated by Public Law 93-632:

(15) certain lands in the Invo National Forest, California, which comprise approximately forty-six thousand four hundred acres, as generally depicted on a map entitled "Excelsior Wilderness—Proposed", and which shall be known as the Excelsior Wilderness;

(16) certain lands in the Angeles National Forest, California, which comprise approxi-mately thirty-two thousand nine hundred acres, as generally depicted on a map entitled "Fish Canyon Wilderness-Proposed", and which shall be known as the Fish Canyon Wilderness;

(17) certain lands in the Tahoe National Forest, California, which comprise approxi-mately twenty-five thousand acres, as generdepicted on a map entitled "Granite Chief Wilderness—Proposed", and which shall be known as the Granite Chief Wilderness;

(18) certain lands in the San Bernardino National Forest, California, which comprise approximately ten thousand six hundred acres, as generally depicted on a map entitled "Granite Peak Wilderness—Proposed", and which shall be known as the Granite Peak Wilderness:

(19) certain lands in the Cleveland National Forest, California, which comprise approximately eight thousand acres, as generally depicted on a map entitled "Hauser Wilderness Proposal" dated July 1980, and which shall be known as the Hauser Wilderness;

(20) certain lands in Toiyabe National Forest, California, which comprise approxi-mately forty-nine thousand two hundred acres, as generally depicted on a map entitled "Hoover Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Hoover Wilderness as designated by Public

(21) certain lands in and adjacent to the Lassen National Forest, California, comprise approximately forty-one thousand eight hundred and forty acres as shown on map entitled "Ishi Wilderness-Proposed", and which shall be known as the Ishi Wilderness;

(22) certain lands in the Invo National Forest, California, which comprise approximately nine thousand acres, as generally depicted on a map entitled "John Muir Wilderness Additions, Inyo National Forest— Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the John Muir Wilderness as desig-

nated by Public Law 88-577;

(23) certain lands in the Sierra National Forest, California, which comprise approximately eighty-one thousand acres, as generally depicted on a map entitled "John Muir Wilderness Additions, Sierra National Forest—Proposed", dated November 1980, and which are hereby incorporated in, and which shall be deemed to be a part of the John Muir Wilderness as designated by Public Law 88-577: Provided, That the Secretary of Agriculture is authorized to modify the boundaries of the John Muir Wilderness Additions and the Dinkey Lakes Wilderness as designated by this Act in the event he determines that portions of the existing primitive road between the two wilderness areas should be relocated for environmental protection or other reasons. Any relocated wilderness boundary shall be placed no more than three hundred feet from the centerline of any new primitive roadway and shall be-come effective upon publication of a notice of such relocation in the Federal Register: Provided further, That the nonwilderness jeep corridor between Spanish Lake and Chain Lakes which is surrounded by the John Muir Wilderness Additions as designated by this Act shall be open to the public only for one week each year between July 15 and August 15 and one week between September 15 and October 15;

(24) certain lands in the Lassen National Forest, California, which comprise approximately three thousand nine hundred acres, as generally depicted on a map entitled "Lassen Volcanic Wilderness Additions— Proposed", and which are hereby incorporated in, and shall be deemed to be a part of the Lassen Volcanic Wilderness as desig-

nated by Public Law 92-510;

certain lands in the Klamath National Forest, California, which comprise approximately thirty-eight thousand acres, as generally depicted on a map entitled "Marble Mountain Wilderness Additions-Proposed", and which are hereby incorporated in, and shall be deemed to be a part of the Marble Mountain Wilderness as designated by Public Law 88-577;

(26) certain lands in the Sierra and Inyo National Forest, California, which comprise approximately nine thousand acres, as generally depicted on a map entitled "Mina-rets Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Minarets Wilderness as designated by Public Law 88-577;

(27) certain lands in the Eldorado, Stan-islaus, and Toiyabe National Forests, California, which comprise approximately sixty thousand acres, as generally depicted on a map entitled "Mokelumn Wilderness Ad-ditions—Proposed", dated November 1980, and which are hereby incorporated in, and which shall be deemed to be a part of the Mokelumne Wilderness as designated by Public Law 88-577:

(28) certain lands in the Sierra and Sequoia National Forests, California, which

comprise approximately forty-five thousand acres, as generally depicted on a map en-titled "Monarch Wilderness-Proposed", and which shall be known as the Monarch Wil-

(29) certain lands in the Shasta Trinity National Forest, California, which comprise approximately thirty-seven thousand acres, is generally depicted on a map entitled "Mt. Shasta Wilderness—Proposed", and which shall be known as Mt. Shasta Wilderness;

(30) certain lands in the Six Rivers Na-tional Forest, California, which comprise approximately eight thousand one hundred acres, as generally depicted on a map en-titled "North Fork Wilderness—Proposed". and which shall be known as the North Fork Wilderness:

(31) certain lands in the Shasta Trinity National Forest, California, which comprise approximately twenty-eight thousand acres, as generally depicted on a map entitled "Pattison Wilderness—Proposed", and which shall be known as the Pattison Wilderness;

(32) certain lands in the Cleveland National Forest, California, which comprise approximately thirteen thousand one hundred acres, as generally depicted on a map en-titled "Pine Creek Wilderness-Proposed", and which shall be known as the Pine Creek

(33) certain lands in the San Bernardino National Forest, California, which comprise approximately seventeen thousand acres, as generally depicted on a map entitled "Py ramid Peak Wilderness-Proposed", which shall be known as the Pyramid Peak Wilderness:

(34) certain lands in the Klamath and River National Forests, California, which compromise approximately twenty-five thousand three hundred acres, as generally depicted on a map entitled "Red Buttes Wilderness—Proposed", and which shall be known as the Red Buttes Wilderness;

(35) certain lands in the Klamath National Forest, California, which comprise approximately twelve thousand acres, as generally depicted on a map entitled "Russian Peak Wilderness—Proposed", and which shall be known as the Russian Peak Wilderness; (36) certain lands in the San Bernardino

National Forest, California, which comprise approximately twenty-one thousand five hundred acres, as generally depicted on a map entitled "San Gorgonio Wilderness Addi-tions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the San Gorgonio Wilderness as designated by Public Law 88-577;

(37) certain lands in the San Bernardino National Forest, California, which comprise approximately ten thousand nine hundred acres, as generally depicted on a map entitled "San Jacinto Wilderness Additions—Pro-posed", and which are hereby incorporated in, and which shall be deemed to be a part of the San Jacinto Wilderness as designated by Public Law 88-577: Provided however, That the Secretary of Agriculture may pursuant to an application filed prior to January 1, 1983, grant a right-of-way for, and authorize construction of, a transmission line or lines within the area depicted as "potential powerline corridor" on the map entitled "San Jacinto Wilderness Additions—Proposed": Provided jurther, That if a power transmission line is constructed within such corridor, the corridor shall cease to be a part of the San Jacinto Wilderness and the Secretary of Agriculture shall publish notice there-

of in the Federal Register;
(38) certain lands in the Sierra and Inyo National Forests and the Devils Postpile National Monument, California, which comprise approximately one hundred and ten thousand acres, as generally depicted on a map entitled "San Joaquin Wilderness—Proposed," and which shall be known as San Joaquin Wilderness: Provided however, That nothing in this Act shall be construed to prejudice, alter, or affect in any way, any

rights or claims of right to the diversion and use of waters from the North Fork of the San Joaquin River, or in any way to interfere with the construction, maintenance, repair, or operation of the Jackass-Chiquito hydroelectric power project (or the Granite Creek-Jackass alternative project) as proposed by the Upper San Joaquin River Water and Power Authority: Provided further, That the designation of the San Joaquin Wilderness shall not preclude continued motorized access to those previously existing facilities which are directly related to permitted livestock grazing activities nor operation and maintenance of the existing cabin located in the vicinity of the Heitz Meadow Guard Station within the San Joaquin Wilderness, in the same manner and degree in which such access and operation and maintenance of such cabin were occurring as of the date of enactment of this Act;

(39) certain lands in the Cleveland Na-tional Forest, California, which comprise ap-proximately thirty-nine thousand five hundred and forty acres, as generally depicted on a map entitled "San Mateo Canyon Wilderness—Proposed", and which shall be known as the San Mateo Canyon Wilder-

(40) certain lands in the Laos Padres National Forest, California, which comprise approximately two thousand acres, as generally depicted on a map entitled "San Rafael Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the San Rafael Wilderness as designated by Public Law 90-

(41) certain lands in the San Bernardino National Forest, California, which com-prise approximately twenty thousand one hundred and sixty acres, as generally de-picted on a map entitled "Santa Rosa Wilderness—Proposed", and which shall be known as the Santa Rosa Wilderness;

(42) certain lands in and adjacent to the Sequoia National Forest, California, which comprise approximately forty-eight thousand acres, as generally depicted on a map entitled "Scodies Wilderness—Proposed", and which shall be known as the Scodies Wilderness;

(43) certain lands in the Angeles and San Bernardino National Forests, California, which comprise approximately forty-four thousand acres, as generally depicted on a map entitled "Sheep Mountain Wilderness— Proposed", and which shall be known as Sheep Mountain Wilderness;

(44) certain lands in the Cleveland National Forest, California, which comprise approximately five thousand two hundred acres, as generally depicted on a map en-"Sill Hill Wilderness Proposal" dated July 1980, and which shall be known as the Sill Hill Wilderness;

(45) certain lands in the Six Rivers, Klamath, and Siskiyou National Forests, California, which comprise approximately one hundred and one thousand acres, as generally depicted on a map entitled "Siskiyou Wilderness—Proposed", and which shall be known as the Siskiyou Wilderness;

(46) certain lands in the Mendocino National Forest, California, which comprise ap-proximately thirty-seven thousand acres, as generally depicted on a map entitled "Snow Mountain Wilderness-Proposed", and which shall be known as Snow Mountain Wilder-

(47) certain lands in the Sequoia and Inyo National Forests, California, which comprise approximately seventy-seven thousand acres, as generally depicted on a map entitled "South Sierra Wilderness—Proposed", and which shall be known as the South Sierra Wilderness:

(48) certain lands in the Modoc National Forest, California, which comprise approxi-mately one thousand nine hundred and forty acres, as generally depicted on a map en-titled "South Warner Wilderness AdditionsProposed", and which are hereby incorporated in, and which shall be deemed to be a part of the South Warner Wilderness as designated by Public Law 88-577;

(49) certain lands in the Lassen National Forest, California, which comprise approximately seven thousand acres, as generally de-picted on a map entitled "Thousand Lakes Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Thousand Lakes Wilderness as designated by Public Law 88-577;

(50) certain lands in and adjacent to the Lassen National Forest, California, which comprise approximately twenty-two thou-sand acres, as generally depicted on a map entitled "Timbered Crater Wilderness—Pro-posed", and which shall be known as the Timbered Crater Wilderness;

(51) certain lands in and adjacent to the Klamath, Shasta Trinity and Six Rivers National Forests, California, which comprise approximately five hundred thousand acres, as generally depicted on a map entitled "Trinity Alps Wilderness-Proposed", and which shall be known as the Trinity Alps Wilderness;

(52) certain lands in the Los Padres Na-tional Forest, California, which comprise approximately two thousand seven and fifty acres, as generally depicted on a map entitled "Ventana Wilderness Addition—Proposed", and which are hereby in-corporated in, and which shall be deemed to be a part of the Ventana Wilderness as designated by Public Laws 91-58 and 95-237; and

(53) certain lands in and adjacent to the Six Rivers and Mendocino National Forests, California, which comprise approximately forty-six thousand acres, as generally de-picted on a map entitled "Yolla-Bolly Middle Eel Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Yolla-Bolly Middle Eel Wilderness as designated by Public Law 88-577.

(b) The previous classifications of the High Sierra Primitive Area, Emigrant Basin Primitive Area, and the Salmon-Trinity Alps Primitive Area are hereby abolished.

MONACHE WILDERNESS STUDY AREA

SEC. 3. (a) In furtherance of the purposes of the Wilderness Act, the following lands shall be reviewed by the Secretary of Agriculture as to their suitability for preserva-tion as wilderness. The Secretary shall submit his report and findings to the President and the President shall submit his recommendation to the United States House of Representatives and the United States Senate no later than three years from the date of enactment of this Act:

- (1) certain lands in the Sequola National Forest, California, which comprise approximately forty-two thousand acres, as generally depicted on a map entitled "Monache Wilderness Study Area", dated July 1980, and which shall be known as the Monache Wilderness Study Area.
- (b) Subject to valid existing rights, the wilderness study area designated by this section shall, until Congress determines otherwise, be administered by the Secretary of Agriculture so as to maintain their presently existing wilderness character and potential for inclusion in the National Wilderness Preservation System: Provided, That within the Monache Wilderness Study Area the level of use existing during the year ending June 30, 1980, shall be permitted to

ADMINISTRATION OF WILDERNESS AREAS

SEC. 4. (a) Subject to valid existing rights, each wilderness area designated by this Act shall be administered by the Secretary concerned in accordance with the provisions of the Wilderness Act: Provided, That any ref-erence in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the effective date of this (b) Within the National Forest wilderness

areas designated by this Act-

(1) as provided in subsection 4(d)(4)(2) of the Wilderness Act, the grazing of live-stock, where established prior to the date of enactment of this Act, shall be permitted to continue subject to such reasonable regulations, policies and practices as the Secretary deems necessary, as long as such regulations, policies and practices fully conform with and implement the intent of Congress regarding grazing in such areas as such intent is ex-pressed in the Wilderness Act and this Act;

as provided in subsection 4(d)(1) of the Wilderness Act, the Secretary concerned may take such measures as are necessary in the control of fire, insects, and diseases, subject to such conditions as he deems desirable;

- (3) as provided in section 4(b) of the Wilderness Act, the Secretary concerned shall administer such areas so as to preserve their wilderness character and to devote them to the public purposes of recreational, scenic, scientific, educational, conservation, and historical use.
- (c) Within sixty days of the date of enactment of this Act, the Secretary of Agriculture shall enter into negotiations to acquire by exchange or otherwise (on a willing-buyerwilling-seller basis and at the landowner's option) all or part of any privately owned lands within the Trinity Alps, Granite Chief, Castle Crags, and Mount Shasta Wilderness areas as designated by this Act. Such acquisition shall to the maximum extent practicable, be completed within three years after the date of enactment of this Act. Market and exchange values shall be determined without reference to any restrictions on access or use which arise out of designation as a wilderness area.

FILING OF MAPS AND DESCRIPTIONS

SEC. 5. As soon as practicable after enactment of this Act, a map and a legal description on each wilderness area shall be filed with the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the House of Representatives, and each such map and description shall have the same force and effect as if included in this Act: Provided, That correction of clerical and typographical errors in each such legal description and map may be made. Each such map and legal description shall be on file and available for public inspection in the Office of the Chief of the Forest Service, Department of Agriculture.

ADDITIONS TO NATIONAL PARK SYSTEM

SEC. 6. (a) The following lands are hereby added to the National Park System:

- (1) certain lands in the Sierra National Forest, California, which comprise approxi-mately seven thusand acres, as generally de-picted on a map entitled "Mt. Raymond Addition, Yosemite National Park—Proposed", dated July 1980, and which are hereby incorporated in, and which shall be deemed to be a part of Yosemite National Park;
- (2) certain lands in the Sequoia National Forest, California, which comprise approximately twelve thousand acres, as generally depicted on a map entitled "Jennie Lakes depicted on a map entitled Jennie Lakes Additions, Kings Canyon National Park— Proposed", dated July 1980, and which are hereby incorporated in, and which shall be deemed a part of Kings Canyon National
- (b) Upon enactment of this Act, the Secretary of Agriculture shall transfer the lands described in subsection (a) of this section, without consideration, to the administrative jurisdiction of the Secretary of the Interior for administration as part of the national park system. The boundaries of the national forests and national parks shall be adjusted accordingly. The areas added to the national park system by this section shall be administered in accordance with the provisions

of law generally applicable to units of the national park system.

(c) The Secretary of the Interior shall study the lands added to the national park system by subsection (a) of this section for possible designation as national park wilderness, and shall report to the Congress his recommendations as to the suitability or nonsuitability of the designation of such lands as wilderness by not later than three years after the effective date of this Act.

(d) The Secretary of Agriculture is authorized and directed to transfer to the jurisdiction of the Secretary of the Interior for administration as part of Yosemite National Park, two hundred and fifty-three acres of the Stanislaus National Forest at Crocker Ridge, identified as all that land lying easterly of a line beginning at the existing park boundary and running three hundred feet west of and parallel to the center line of the park road designated as State Highway 120, also known as the New Big Oak Flat Road, within section 34, township 1 south, range 19 east, and within sections 4, 9, and 10, township 2 south, range 19 east, Mount Diablo base and meridian. The boundary of Yosemite National Park and the Stanislaus National Forest shall be adjusted accord-

The Secretary of the Interior is authorized and directed to transfer to the jurisdiction of the Secretary of Agriculture one hundred and sixty acres within the boundary of the Sierra National Forest identified as northwest quarter of section 16, township 5 south, range 22 east, Mount Diablo base meridian, subject to the right of the Secretary of the Interior to the use of the water thereon for park purposes, including the right of access to facilities necessary for the transportation of water to the park

NATIONAL PARK WILDERNESS

- SEC. 7. The following lands are hereby designated as wilderness in accordance with section 3(c) of the Wilderness Act (78 Stat. 890; U.S.C. 1132(c)) and shall be administered by the Secretary of the Interior in accordance with the applicable provisions of the Wilderness Act:
- (1) Yosemite National Park Wilderness comprising approximately six hundred and seventy-seven thousand six hundred acres, and potential wilderness additions comprising approximately three thousand five hundred and fifty acres, as generally depicted on a map entitled "Wilderness Plan, Yosem-National Park, California" numbered 104-20, 003-E dated July 1980, and shall be known as the Yosemite Wilderness;
- (2) Sequoia and Kings Canyon National Parks Wilderness, comprising approximately eight hundred and twenty-five thousand eight hundred and twenty-three acres; and potential wilderness additions comprising approximately one hundred acres, as generally depicted on a map entitled "Wilderness Plan-Sequoia-Kings Canyon National Parks—Calfornia", numbered 102-20, 003-F and dated August 1981, and shall be known as the Sequoia-Kings Canyon Wilderness.

MAP AND DESCRIPTION

Sec. 8. A map and description of the boundaries of the areas designated in section 7 of this Act shall be on file and available for public inspection in the Office of the Director of the National Park Service, Department of the Interior, and in the Office the Superintendent of each area designated in section 7. As soon as practicable after this Act takes effect, maps of the wilderness areas and descriptions of their boundaries shall be filed with the Committee on Interior and Insular Affairs of the United States House of Representatives and the Committee on Energy and Natural Re-sources of the United States Senate, and such maps and descriptions shall have the same force and effect as if included in this Act: Provided, That correction of clerical and typographical errors in such maps and descriptions may be made.

CESSATION OF CERTAIN USES

SEC. 9. Any lands (in section 7 of this Act) which represent potential wilderness additions upon publication in the Federal Register of a notice by the Secretary of the Interior that all uses thereon prohibited by the Wilderness Act have ceased, shall thereby be designated wilderness. Lands designated as potential wilderness additions shall be managed by the Secretary insofar as practicable as wilderness until such time said lands are designated as wilderness.

ADMINISTRATION

Sec. 10. The areas designated by section 7 of this Act as wilderness shall be administered by the Secretary of the Interior in accordance with the applicable provisions of the Wilderness Act governing areas designated by that Act as wilderness, except that any reference in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the effective date of this Act, and where appropriate, any reference to the Secretary of Agriculture shall be deemed to be a reference to the Secretary of the Interior.

SIX RIVERS PLANNING AREAS

SEC. 11. (a) The following planning areas shall be reviewed by the Secretary of Agriculture as to their suitability or nonsuitability for preservation as wilderness. The Secretary shall submit his report and findings to the President, and the President shall submit his recommendations to the United States House of Representatives and the United States Senate no later than three years from the date of enactment of this Act:

(1) certain lands in the Six Rivers and Klamath National Forests, California, which comprise approximately sixty thousand acres, generally depicted on a map entitled "Eightmile and Blue Creek Planning Areas", dated July 1980; and

- (2) certain lands in the Six Rivers National Forest, California, which comprise approximately thirty thousand acres as generally depicted on a map entitled "Orleans Mountain Planning Area," dated July 1980: Provided, That within the area shown on such map as the "Ski Study Area" the Secretary shall conduct a special study as to the suitability or nonsuitability of the area for location of an alpine ski facility. In conducting such ski study the Secretary shall consider the need for an alpine ski facility in the region, climatological factors, the feasibility and location of possible road access to any ski facility and the impact of ski development on other multiple use
- (b) Subject to valid existing rights, the planning are as designated by this section shall, until Congress determines otherwise, be administered by the Secretary of Agriculture so as to maintain their presently existing wilderness character.

(c) Until Congress determines otherwise, timber volumes within the planning areas designated by this section shall be included in the base used to determine potential yield

for the national forest concerned.

(d) Notwithstanding any existing or fu-

administrative designation or recommendation, mineral prospecting, exploration, development, or mining of cobalt and associated minerals undertaken under the United States mining laws within the North Fork Smith roadless area (RARE II, 5-707, Six Rivers National Forest, California) shall be subject to only such Federal laws and regulations as are generally applicable to national forest lands designated as nonwilder-

WILDERNESS REVIEW CONCERNS

SEC. 12. (a) The Congress finds that-

(1) the Department of Agriculture has completed the second roadless area review and evaluation program (RARE II);

(2) the Congress has made its own review and examination of national forest roadless areas in California and the environmental impacts associated with alternative allocations of such areas.

(b) on the basis of such review, the Congress hereby determines and directs that-

(1) without passing on the question of the legal and factual sufficiency of the RARE II final environmental statement (dated Janu-1979) with respect to national forest lands in States other than California, such statement shall not be subject to judicial review with respect to national forest system lands in the State of California;

upon enactment of this Act, the injunction issued by the United States District Court for the Eastern District of California in State of California versus Bergland (483 F. Supp. 465 (1980) shall no longer be in

(3) with respect to the national forest lands in the State of California which were reviewed by the Department of Agriculture in the second roadless area review and evaluation (RARE II), except those lands remaining in further planning upon enact-ment of this Act, that review and evaluation shall be deemed for the purposes of the initial land management plans required for such lands by the Forest and Rangeland Renewable Resources Planning Act of 1974 as amended by the National Forest Management Act of 1976 (Public Law 94-588) to be an adequate consideration of the suitability such lands for inclusion in the National Wilderness Preservation System and the Department of Agriculture shall not be required to review the wilderness option prior to the revision of the initial plans and in no case prior to the date established by law for completion of the initial planning cycle;

(4) areas in the State of California reviewed in such final environmental statement and not designated as wilderness by this Act or remaining in further planning upon enactment of this Act need not be managed for the purpose of protecting their suitability for wilderness designation pend-

ing revision of the initial plans;

(5) unless expressly authorized by Congress, the Department of Agriculture shall not conduct any further statewide roadless area review and evaluation of national forest system lands in the State of California for the purpose of determining their suitability for inclusion in the National Wilderness Preservation System.

DILLON CREEK

SEC. 13. (a) Certain lands in the Klamath National Forest, California, which comprise approximately thirty thousand acres, as generally depicted on a map entitled Creek Further Planning Area", dated July 1980, shall be considered for all uses, including wilderness, during the preparation of a forest plan for the Klamath National Forest pursuant to section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974, as amended.

(b) Pending completion of the plan, development activities such as timber harvest, road construction, and other activities that may reduce wilderness potential of the land will be prohibited. Activities permitted by prior rights, existing law, and other estab-lished uses may continue pending final disposition of the area. Although no harvesting of timber will be allowed other than for emergency reasons, standing timber on com-mercial forest land in the area will be used to determine allowable sale quantity.

(c) Recommendations for the Dillon Creek Further Planning Area shall be submitted to the Congress and, unless the Congress enacts legislation to the contrary within one hundred and eighty calendar days while Congress is in session, the Dillon Creek Area shall be designated for the use recommended and managed accordingly, beginning January

Sec. 14. If any provision of this Act or the application thereof is held invalid, the remainder of the Act and the application thereof shall not be affected thereby.

By Mr. HATFIELD:

S. 1586. A bill to establish a national policy of promoting and facilitating the operation, maintenance, and development of deep-draft seaports, inland river ports and waterways necessary to domestic and foreign waterborne commerce; and to require recovery of certain expenditures of the U.S. Army Corps of Engineers for the operation, maintenance and construction of inland shallow-draft and deep-draft navigational channels and other projects as appropriate; to the Committee on Finance. WATERWAYS TRANSPORTATION DEVELOPMENT AND

IMPROVEMENT ACT OF 1981

• Mr. HATFIELD. Mr. President, today I am introducing the Waterways Transportation Development and Improvement Act of 1981. This bill is designed to provide a funding mechanism for the operations and maintenance of our rivers and harbors and for the new construction of needed improvements on

our Nation's waterways.

I introduce this bill as a response to the administration's initiatives, S. 809, and 810, which would shift the responsibility of maintaining U.S. waterborne transportation to the local entities through which the bulk of our Nation's commerce passes. I understand the philosophy upon which the administration's bills are based. It is the conservative marketplace theory. In many areas of commerce, and with some slight reservations, I have supported the marketplace theory. But I am happy to say that I have not yet been seduced so completely by theory that I am willing to abandon reality for the purity of a theoretical model.

When the Founding Fathers drafted the Constitution, they appreciated the importance of a national policy on ports and harbors and navigable waterways to such an extent that it appears in several places in the Constitution. The most startling example of the awareness of these fine gentlemen of need to avoid discrimination among our Nation's ports appears in Section 9 of the Constitution which states:

No preference shall be given by any Regulation of Commerce or Revenue to the Ports of one State over those of another:

In Section 8, the drafters said-

But all Duties, Imposts and Excises shall be uniform throughout the United

The spirit of these provisions is clear, The Congress was not to promote seagoing commerce into some ports at the expense of other ports. Moreover, Congress was clearly given the authority to enforce its supremacy in these matters through the commerce clause. Mr. Chief Justice Marshall thought he had that dispute settled in 1824 when he wrote the opinion in Gibbons against Ogden. He

The power of Congress, then, comprehends navigation, within the limits of every state in the Union; so far as that navigation may be, in any manner, connected with "commerce with foreign nations, or among the several states, or with the Indian tribes."

Proponents of the administration proposals will correctly state that the port language of the Constitution was intended to deter the Federal Government from harming the ports through prohibitory legislation, whereas these bills merely remove an advantage which the United States has conferred on the ports of the States. I will not argue the letter of the law, but would like to point out that this advantage has been conferred on the developed ports of the east coast since 1824. when the Congress first began appropriating money for dredging and port improvements under the act of May 1824 (4 Stat. 32).

This 156 years of Federal largess resulted in such lasting improvements to navigation as the locks connecting the Great Lakes, the St. Lawrence Seaway, the Inland Waterway, and major ports up and down the east coast and in the Chesapeake Bay. These huge centers of commerce daily handle ships of tens of thousands of tons deadweight and drafts of up to 45 feet. Yet when the Corps began its dredging projects in the 18th and 19th centuries the average depth of ports on the east coast was about 18 feet.

So, Mr. President, I am arguing the spirit of the Constitution. In the West, and to a lesser extent on the gulf coast, development has been later than that in the East. But here we are during the 97th Congress, faced with the prospect of shutting the door on the progress of underdeveloped ports and waterways such as the Columbia/Snake system and places like Coos Bay, Oreg., and Eureka, Calif., in the name of theoretical purity.

Lest anyone think I am overstating my case a bit. I ask unanimous consent to print in the RECORD a letter I received recently from the Pacific Coast Congress of Harbormasters and Port Managers.

There being no objection, the letter was ordered to be printed in the RECORD. as follows:

PACIFIC COAST CONGRESS OF HAR-BORMASTERS AND PORT MANAGERS. INC.

Hon. MARK HATFIELD,

Washington, D.C.

DEAR SENATOR HATFIELD: This is in regard to Senate Bills 809 and 810 which would impose waterway user fees. We know that you are concerned about the effects these fees could have but we want to point out some specific problems that would be brought about at the shoal-draft coastal ports.

The original bills did not address the

shoal-draft coastal ports particularly, but we have just learned that the Administration has proposed a revision to S. 810 that contains a new section, apparently aimed pri-marily at shallow-draft fishing and recreational ports and harbors of refuge, which account for an estimated \$50 million per year in Corps of Engineers' O&M costs. This new section provides that, after October 1, 1981, the Corps will continue to provide construc-tion, rehabilitation and O&M at such facilities only if "an appropriate non-Federal public body shall agree with the Secretary (of the Army) to reimburse the Federal government for Federal expenditures by the for such work." The non-Federal entities, in turn, are authorized to collect fees from project users for the recovery of their obligations. Very little commercial traffic travels on the affected projects and, presumably, the user fees would be collected from commercial fishing and recreational interests.

If S. 810 were to become law with the foregoing section intact it would be an absolute disaster to the fishing industry. As you know, the fishing industry is in real trouble these days. The salmon fishermen are already working under severe quota limitations and now Indian lawsuits have been filed that would cut back the ocean quotas even further. The tuna and crab fisheries are sometimes things. The offshore trawl fishery is struggling to establish itself in the face of rising costs and competition from imported

While the fishing industry as a whole cannot stand any significant increase in costs from user fees, the segmented, port by port fees that are proposed would be unconscionable. If each port has to collect a toll, or fee, for the use of its channel the administrative costs of the ports will go way up, the highly mobile fishing vessels will move to ports with lower fees, putting an undue strain on their facilities and leaving other ports and private investors with underused facilities. This will result in bankruptcies and default on bonds, etc. as well as unemployment and greater demand for social services.

If there must be a waterway user fee for the shallow-draft coastal ports we feel that the only way that it can be done is on the basis of the following criteria. Any legislation should:

(1) Consider the national interest in the navigation system. Capital investments in the nation's waterway system are not local in their benefits. They are universal in promoting the prosperity of the nation. The federal cost recovery objectives should be discounted a minimum 30 percent as a national interest factor.

(2) Collect the remaining percentage on a uniform national basis so as to avoid unproductive administrative costs at each port and also avoid local economic dislocations. A surcharge on, or a re-allocation of, import duties on fish should be considered as a source of revenue. Any fee imposed on the direct users will result in an increase in the cost of domestically produced fish and make imports more competitive.

(3) If it is determined that a portion of the fees must be collected from the direct users they should be phased in gradually over several years so as to give public and private investors in waterway associated projects time to adjust, and

(4) Keep the present system of operations, maintenance and construction by the Corps of Engineers which is based on an equitable cost-benefit ratio.

We have been working closely with the Washington Public Ports Association and the Port of Portland on these matters. They will be contacting you with suggestions regarding the deep draft and inland waterways. At this time we simply want to alert you of the pre-carious position of the shallow-draft coastal ports and solicit your cooperation in seeing that they are treated fairly.

Your understanding and cooperation is very much appreciated.

Very truly yours,

ROBERT C. PETERSEN, President

Mr. HATFIELD. Mr. President, my concern for this issue goes deeper than how the administration proposal would affect Oregon. I am certain that any proposal which shifts the funding responsibilities for port and waterway development to the individual bodies would balkanize the Nation, economically. There is ample precedent for my fear in U.S. history. Indeed, one reason that the Continental Congress placed the responsibility for U.S. waterborne transporta-tion and U.S. commerce in the hands of the Federal Government was the experience our young Nation had with hostile, debilitating economic warfare which the various States' ports engaged in under the Articles of Confederation.

If we are able to remain true to the concept of federalism, then the first principle we must-accept is that the United States is a single economic entity. If we succeed, we do so as a nation and if we fail, we do so as one people. No nation which has radical economic disparity among regions can survive indefinitely as a single nation. Resentment builds, and people chaff at real or imagined favoritism which is displayed by the Central Government.

I am not suggesting that we are now or will ever come to this point in our history. But, by carrying this argument to its logical, albeit absurd, limits, I would like to highlight the strains that the administration's proposal put on the system. These strains are real, and can be enumerated. Recently, a number of members of the Oregon and Washington congressional delegations wrote to the President, and did explain what some of those strains are, from the perspective of the Pacific Northwest region. I ask unanimous consent that a copy of that letter be printed in the RECORD at this

There being no objection, the letter was ordered to be printed in the RECORD. as follows:

HOUSE OF REPRESENTATIVES. Washington, D.C., June 18, 1981. Hon. RONALD REAGAN,

President of the United States, The White House, Washington, D.C.

DEAR PRESIDENT REAGAN: As Members of the Pacific Northwest Congressional delegation, we are writing to urge you and your Administration to reconsider proposals for

full cost recovery waterway user taxes.

We recognize the objective you have of raising additional revenues in a time of refiscal responsibility. But we submit legislation affecting major transportation systems also must take into account a broader range of objectives, including im-proving the overall transportation system and our position in world markets.

While these increased taxes will raise additional revenues, they will do so at a significant cost:

Development of mature, energy-efficient waterway systems will be retarded;

Cargo movements will be diverted to foreign ports, hurting regional economies that rely on water-borne commerce;

Inflation will be fueled as the price of domestic goods and imports transported by waterway will be pushed higher; and

Exports, especially bulk commodities such as grain and coal, will be reduced because higher transportation costs make them less competitive in world markets, thus adversely affecting U.S. balance of payments.

In light of these impacts, we urge you to defer your proposals until a thorough analysis of the full repercussions for increasing waterway user taxes has been completed. Congress, in enacting user fees for the inland waterways in 1978 with the passage of P.L. 95-502, was unsure of the effects such taxes would have on the nation's transportation system and therefore mandated a com-prehensive study of their impact. The Departments of Commerce and Transportation and other agencies are in the final stages of three years of work on this study which is scheduled to be delivered to Congress by September 30. We hope you will delay any consideration of your proposals until the study has been submitted, reviewed and

commented upon by affected parties.

The Members of the Pacific Northwest
Congressional delegation feel strongly that the waterway user tax issue must be seen in a broader perspective than simply balancing the budget or philosophically requiring

full cost recovery from users.

Increasing waterway user taxes also must be seen as having a definite and adverse be seen as having a definite and adverse impact on the development of an important mode of transportation, on regional econ-omies, on the national economy, on export expansions, national defense, and, ultimately, on relations with our major international trading partners.

Moreover, federal assistance is afforded to major transportation systems in the United States-and should be because it enbances the productive capacity of the na-tion. Water transportation, which through inherent efficiencies, serves as a counterbalance to hold down rates in other transportation modes. It should not be singled out for a policy of full cost recovery until national transportation objectives have been

Coming from the Pacific Northwest, our concern is chiefly with the Columbia/Snake River System, one of the nation's emerging waterway systems which in a very real sense is becoming the "Northwest Passage" we have sought for decades.

established.

There are 19 port districts on the naviga-ble shallow-draft portion of the Columbia/ Snake System. The largest is the Port of Portland, the West Coast's largest export port in terms of tonnage. The reason is because it is one of the finest transportation hubs, served by major Interstate highways, three railroads and the Columbia/Snake waterway system.

Northwest ports are representative of the divergent navigation needs of ports throughout the country. These ports include small and large ports; river and coastal ports; deep-draft and shallow-draft ports; ports which accommodate foreign exports and imports, as well as coast-wide and inland domestic trade, including breakbulk, con-tainers, wheat, automobiles, bulks, agricultural products and forest products.

The Port of Portland projects the com-bined effect of shallow-draft and deep-draft charges would reach as high as \$23,750 for a 50,000-ton ship loaded with grain for export. Adding new construction costs of enlarging the Bonneville Lock and deepening the mouth of the Columbia would bring the total fees for that same grain ship up to \$63.750.

Under S 809/HR 2959 and S 810/HR 2962, the Columbia/Snake system is subject to fees for both shallow and deep draft. The Port of Portland estimates a loss of 4 to 5 million tons of oceangoing cargo from Columbia/ Snake River ports if these proposals are enacted. That loss would include containers, wood products, automobiles, dry bulks and grain. Products bound for export could easily be diverted by land transportation modes to Canadian ports which are free of taxes or

The dropoff in cargoes would mean a \$750 million loss to the Pacific Northwest economy, and potentially 15,000 fewer jobs. For a region already reeling with double-digit unemployment because of what high interest rates have done to the housing and timber industries, this additional blow would

Possibilities for future investment also would be diminished. The Port of Portland alone is planning to invest an additional sign million to expand facilities. Five port districts on the upper Columbia are working toward navigation capabilities to improve their local economies. The Pacific Northwest,

which is capital short because of restricted markets for goods and desperately needs to diversify, will be denied its best option for

long-term growth. Excessive waterway user fees will have a negative impact on the national economy and will result in inflation, reduced balance of payments and severe economic disloca-

Waterway transportation is in competition with truck and rail transportation and serves to hold down costs. If waterway rates are raised to cover user taxes, rail and truck rates can be expected to increase as well.

Beyond that, exporters will be forced to absorb waterway user costs if they are to remain competitive in world markets. Since 43 per cent of American exports are farm products, the burden will fall on the already beleaguered U.S. farmer.

Other low-value, high-tonnage bulk com-modities also will feel the pinch—including coal, sand and gravel, fuels and fertilizers.

The American consumer won't escape, either. About 85 per cent of the cargo moving in U.S. waterway systems is bulk raw materials or energy products used in the manufacture of consumer products.

Economic dislocations will occur because as cargo movements are diverted or discouraged, considerable public investment in existing waterway and port facilities will be used less and have less value in generating eco-

nomic activity and jobs.

Mr. President, few issues are simple. We appreciate your efforts to find a more equitable way to finance the operation, maintenance and construction of waterway facilities. All we ask is that you not move ahead on these proposals until your Administration has examined the broad ramifications of increased waterway user taxes. Together let us seek our shared goal of revitalizing Amer-

ica's economy.

With warm regards, Sincerely,

MARK HATFIELD, U.S. Senator.

RON WYDEN. LARRY CRAIG. JIM WEAVER, MIKE LOWRY, LES AUCOIN. DON BONKER. TOM FOLEY, Members of Congress.

Mr. HATFIELD. Mr. President, as the chairman of the Senate Appropriations Committee, I am acutely aware of the dismal state of the Nation's finances. We face an accumulated debt of nearly a trillion dollars, and nondiscretionary appropriations increases which are helping to keep our budget in deficit year after year. We are trying to find ways to reduce discretionary Federal spending, and this was a major force behind S. 809 and S. 810.

As a member of the Republican majority, I am willing to accept the administration concept that every user of services should pay for the cost of those services, where the costs are easily identifiable. So, I do not intend to keep the burden of building and maintaining the Nation's ports and waterways on the Treasury. Heretofore, all maintenance dredging and new construction has come from the general fund. Administration has identified the ports and barge operators, and others who operate on the waterways as the users of the waterways. I would like to carry this concept a bit further, and say that the ultimate user of the waterways and ports is the com-

merce which is moved through the system, and not those who provide the services along its route. In this bill, a tonnage charge would be imposed on all commerce which moves into or out of the United States.

I would prefer to make the connections among the weight of the cargo, the resultant draft of the cargo carrier, and the extent to which it uses the improvements on the natural environment very clear, by imposing a flat tonnage fee on all commerce. However, such a flat fee would be approximately 34 cents per ton, and I have been convinced that some low cost but essential cargoes could not absorb such a fee and remain competitive, so the bill provides that the Secretary of the Treasury prepare a sliding scale of charges based on value and weight. This rate schedule would be revised every 3 years, in order to keep pace with the changing economy.

At this point, I ask unanimous consent that a table demonstrating how I reached the 34-cent figure, based on estimates of incoming and outgoing U.S. commerce, and cost estimates of necessary navigation maintenance and improvements over the next 10 years be printed in the RECORD.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

10-yr plan

10-yr plan

 $A+C+D+E=\times \times =5.2$ F = 15

10-yr average user fee per ton uniformly applied equals 34 cents.

Mr. HATFIELD. Mr. President, the revenues from these tonnage charges would be combined with current waterway user charges and held in a waterways trust fund for use on a national scale. From this fund, the Corps of Engineers would be able to take operations and maintenance money without going through the authorization and appropriations process. Any new construction would also come from the trust fund, but would be subject to the authorization and appropriations processes.

Like others, I consider the deepwater ports, that is over 45 feet, to be a special case. These ports, nominally 55 feet, are a relatively special purpose installation. Useful for a few heavy, bulky commodities such as oil and coal, these ports represent a step into a new generation of equipment and demands. They will be expensive. Therefore, this bill meets the administration literally halfway, with a 50-50 funding proposal. Half the costs of

construction would come from the fund, and the port would be required to come up with the other half.

Federal control is maintained over the ports which want to use Federal funding. but if a port decides to go it alone, it need only comply with the permit process before going to construction. A Federal authorization for a navigation project is unnecessary. Also, the bill provides for some liberalization in the methods the port uses to acquire its funds for construction.

Mr. President, this bill has been put together with the consultation of most of those involved. While it does not represent a consensus, it does indicate the concern that all who are knowledgeable in the field have regarding the administration concept and the direction they would like to see this issue take in the future. It is too late to turn back the clock to precolonial times and expect the system to work. I hope this bill represents a compromise between the President's philosophy and the reality of the situation.

At this point I would like to introduce S. 1586, the Waterways Transportation Development Act of 1981, and ask unanimous consent that it be printed in the

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1586

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Waterways Transportation Development and Improvement Act of 1981"

TITLE I—FINDINGS, DECLARATION OF PURPOSES AND DEFINITIONS

FINDINGS

SEC. 101. The Congress finds and declares that:

(a) It is in the national interest to maintain and develop a viable marine transpor-tation system within the United States, in-cluding a network of commercial deep-draft seaports, inland shallow-draft ports and a multipurpose domestic waterway system adequate to accommodate the needs of the foreign and domestic commerce, promote economic stability and provide for the national security of the United States

(b) Development and maintenance of the national system of transportation necessary to promote and accommodate foreign and domestic waterborne commerce has been accomplished through a productive partner-ship of the Federal Government, State and local public ports and municipalities, in which the Federal Government has developed and maintained the navigability of ports and waterways and facilitated maritime commerce, while inland river ports and deep-draft seaports have provided the necessary landside port facilities and other navigational improvements necessary to accommodate foreign and domestic waterborne commerce.

(c) Each of the deep-draft ports, inland river ports and waterways regions has its own concerns, problems and opportunities, which affect the flow of international and

interstate commerce.

(d) Ports and waterways in the United States are significant generators of national and regional revenue, providing economic stability and growth. Domestic and foreign shippers, producers, consumers and receivers of international commerce have been wellserved by the nation's competitive seaport system

(e) There has been a serious delay in the authorization of new deep-draft and inland shallow-draft navigation channel projects by the Congress, and that there is a backlog of economically justified navigation projects which, if implemnted, would enhance the overall efficiency of the nation's transportation system.

DECLARATION OF PURPOSES

SEC. 102. It is the purpose of this Act to:

(a) Provide a national policy that recognizes the significant role and importance of waterborne commerce to the economic wellbeing of the United States.

(b) Establish a procedure to facilitate the orderly authorization of necessary maintenance, operation and construction projects for deep-draft and inland shallow-draft navi-

gational improvements.

- (c) Provide the means to finance the maintenance, operation and construction of navi-gation projects to promote the efficient movement of domestic and foreign waterborne commerce.
- (d) Provide for the recovery of certain costs and expenditures of the U.S. Army Corps of Engineers for the operation, maintenance and construction of deep-draft and inland shallow-draft navigation projects.
- (e) Provide the authorization necessary for local and state port authorities to raise revenues as appropriate and necessary to invest in new construction for waterways development projects.

DEFINITIONS

SEC. 103. As used in this Act, the term (a) "Commercial navigation" shall refer those waterways and those navigational improvements that are used by common contract or other carriers for hire and owners or operators of private cargo vessels.

(b) "Inland shallow-draft" refers to any

improved waterway operated and maintained by the United States, the improvement to which are primarily for the use of commercial navigation, other than ocean-going ves-sels, and does not include the Great Lakes, their interconnecting channels and the Saint Lawrence Seaway.

(c) "Deep-draft channels of ocean or Great Lakes ports of the United States" shall mean waterway channels or ocean or Great Lakes ports of the United States of a fedauthorized depth of more than fourteen feet other than those administered by the Saint Lawrence Seaway Development

Corporation.

Corporation.

(d) "Port use charge" refers to the charge that is assessed and collected by the Customs Service, as a charge upon international cargo at the time of entry into or exit from the United States. The customs surcharge may be assessed against the tonnage of the cargo. cargo.

- (e) "New construction" refers to projects requiring congressional authorization. purpose of determining the nonfederal public body's share of the cost of new con struction, the cost of new construction shall include those components of the project that are the responsibility of the local as-surer (i.e., spoils disposal sites, berth-to-channel dredging, rights of way, etc.)
- (f) "Directly allocated and attributable to commercial navigation" shall refer to the cost allocation of a project assigned to commercial navigation for cost recovery purposes. (1) For projects authorized only for navigation, 90 percent of all costs less any specifically assigned costs for other purposes specincary assigned costs for other purposes are to be assigned to commercial waterway transportation; (2) For multiple-purpose projects for which costs have been assigned to navigation, costs assigned to commercial waterway transportation will be in accord with that assignment; (3) For all other multiple-purpose projects providing navigation benefits but for which there have been no

cost assignments, costs assigned to commercial waterway transportation will consist of all specific navigation costs, plus 10 percent of joint costs. Expenditures on channel improvements for the Mississippi River and Tributaries Project will be considered maintenance.

TITLE II-COST RECOVERY OPERATION AND MAINTENANCE

SEC. 201. (a) In order to recover all costs associated with operation and maintenance expenditures of the U.S. Army Corps of Engineers directly allocated and attributable to commercial navigation, for all deep-draft and inland shallow-draft projects authorized by Congress, there shall be imposed on all international commerce commodity specific tonnage charges of such values as are determined by the Secretary of the Treasury imposed upon the commerce at the time of entry into or exit from the United States.

(b) As soon as possible after the date of enactment of this Act, the Secretary of the Treasury shall promulgate a rate system sufficient to cover the costs enumerated in Sec. 201. (a). Every three years thereafter, the relative values of the tonnage charges and the structure of the system of charges shall be reviewed and revised if necessary

The charge collected under this section shall be collected by the Customs Service, at the same time and in a manner consistent with customs collections authorized

by law.

(d) The charge collected under the provisions of this section shall be deposited in the Inland Waterways Trust Fund established by Section 203 of the "Inland Waterways Revenue Act of 1978" (Public Law 95-502). The revenues collected under the provisions of the "Inland Waterways Revenue Act of 1978" shall continue to be deposited in the Inland Waterways Trust Fund as provided by law.

(e) Effective upon passage of this Act and hereafter, the "Inland Waterways Trust Fund" established by Section 203 of the "In-land Waterways Revenue Act of 1978" shall be known as the "Waterways Trust Fund."

- (f) The Secretary of the Army (hereinafter referred to as Secretary), acting through the Chief of Engineers, may utilize funds deposited in the Waterways Trust Fund, for all operation and maintenance costs incurred for deep-draft and inland shallow-draft waterways of the United States and no further authorization for these purposes is necessary in order to expand these funds.
- (g) The Secretary, acting through the Chief of Engineers, shall also utilize funds deposited in the Inland Waterways Trust Fund for the Federal share of new construction subject to the congressional authorization and appropriations process.

NEW CONSTRUCTION

SEC. 202. (a) The Secretary, acting through the Chief of Engineers, shall biennially recommend to the Congress that new construction projects be authorized for deep-draft and inland shallow-draft waterways, upon completion of the necessary engineering and environmental studies and cost estimates. Projects with a depth greater than 13.5 meters shall be authorized only after agreement from a nonfederal public body to pay and reimburse the Federal Government 50 percent of the project construction costs and expenditures that are directly allocated and attributable to commercial navigation. Prior to the initiation of construction, such nonfederal public body shall provide to the Secretary evidence that it has established mechanism that will assure payment. Public works owned by the United States for purposes of this Act and connected with ports and waterways shall not be considered new construction with a depth greater than 13.5 meters. Such projects shall not be subject to the 50 percent nonfederal share requirement, nor shall they require a local sponsor.

SEC. 203. Agreements with nonfederal public bodies to carry out obligations required by this Act may relate the timing and extent of such obligations to projects or to separable units, features, or segments of such projects as the Chief of Engineers determines to be reasonable and otherwise within the requirements of this Act and the authorizations for the improvements concerned. Such agreements may reflect that they do not obligate future State legislative appropriations for their performance or payment when obligating future appropriations or other funds would be inconsistent with State constitutional limitations.

SEC. 204. The Secretary, acting through the Chief of Engineers, shall determine project construction costs and expenditures that are directly allocated and attributable to commercial navigation after consultations with the local sponsor nonfederal public body and after conducting public hearings and permitting not less than forty-five days for public

SEC. 205. (a) The requirement in this Act for nonfederal reimbursement to the Federal Government for new construction expenditures by the Corps for improvements for deepdraft channels or ocean or Great Lakes ports or inland shallow-draft waterways applies to any construction, rehabilitation, or alteration project for which initial construction funds are provided to the Corps on or after the beginning of the first fiscal year after the date of enactment of this bill.

(b) The entire amount of the new construction expenditures to be reimbursed pursuant to the requirements of this Act, includ-ing interest once construction is completed and the project becomes available for use, shall be reimbursed within the life of the project but in no event to exceed fifty years after the date the project becomes available for use, as determined by the Chief of Engineers. The interest rate used for purposes of computing interest shall be the discount

TITLE III-LOCAL COST SHARING

SEC. 301. (1) Any nonfederal public body that signs an agreement under the terms of Section 202 of this Act is authorized to recover all or a portion of the public body's share of the cost of the work to be performed through its existing funding sources authorized by its own enabling authorization, and all or part through the collection of fees from commercial vessels utilizing such projects. SEC. 302. (1) The consent of the Congress

is hereby given to any port authority in the United States to impose and collect a seaport user fee in the form of a duty of tonnage or ad valorem dute for the purposes and in the manner provided in this section. Such seaport user fee may be imposed only upon vessels or cargo engaged in foreign commerce which utilizes the facilities or services of such port.

- (2) For the purposes of this Act, to utilize the facilities or services of such port means
- (a) cross the duly established harbor line of the port;
- (b) otherwise employ or benefit from serv-
- ices available in or provided by the port;
 (c) in the case of river ports or harbors located adjacent to a navigable waterway, the Secretary shall determine whether a port or ports shall have the authority to impose and collect a seaport user fee.
- (3) The user fee will be imposed upon all such vessels in a nondiscriminatory fashion regardless of the type of vessel, public or private berth destination, the type of international cargo handles, the type of berthing, bunkering, or lightering operation contemplated, or the type of facilities of services to be used
- (4) All revenues generated by such a user fee will be placed in a separate, interest-

bearing escrow account for the benefit of the port and obligated or expended only in accordance with the provisions of this Act.

(5) The Secretary, in consultation with the Secretaries of State, Commerce, Transportation, Treasury, Energy, and Agriculture, the Attorney General of the United States, and the Director of the Office of Management and Budget, may promulgate, and may from time to time revise, regulations and guidelines to govern the programs of non-federal fee collection that may be under-taken pursuant to the authority of this section.

SEC. 303. Whenever a nonfederal public body agrees in writing with the Secretary to pay for its share of the cost of a new construction and the project is subsequently authorized, the Secretary shall direct such study and estimates and reviews as are necessary, and will seek completion of such reports, and commencement of construction within three years of their initiation.

SEC. 305. Payments by a nonfederal public body under the terms of this title shall be made to the Secretary, who shall deposit such payments in the general fund of the Treasury.

SEC. 306. Once a new construction project is completed and becomes available for use, its annual operation and maintenance costs shall be recovered and paid for under the provisions of Section 201 of this Act.

TITLE IV-PROJECT AUTHORIZATIONS

Sec. 401. Nonfederal public bodies are authorized to develop new construction projects independently, without congressional authorization, if they agree to pay 100 percent of the costs of the new construction. Such projects must, however, meet all required statutory and regulatory provisions applicable to projects funded under the provisions of this Act.

TITLE V-REPORTS TO CONGRESS

SEC. 501. The Secretary shall prepare a report to be submitted annually to Congress, on or before March 1, listing all pending studies of navigation projects and all constructon projects in progress.

SEC. 502. The Secretary shall review and study the authorization process for navigation projects to identify and recommend procedures to improve response time and reviews necessary by the various federal agencies in all federally required permits for such projects. This study shall be submitted to Congress on or before September 30, 1981. and shall be prepared in consultation with the Secretaries of Commerce, Interior and Transportation.

Sec. 503. The Secretary shall report to Congress on or before September 30, 1982, and annually before the start of each fiscal year thereafter, on the actual and anticipated receipts of the United States pursuant to Section 201 of this Act and on the actual and anticipated operation and maintenance expenditures of the U.S. Army Corps of Engineers directly allocated and attributable to commercial navigation.

By Mr. THURMOND:

S. 1590. A bill to amend title 10, United States Code, to provide for legal assistance to members of the Armed Forces and their dependents, and for other purposes; to the Committee on Armed Services.

LEGAL ASSISTANCE TO MEMBERS OF THE ARMED FORCES

Mr. THURMOND. Mr. President, I am pleased to introduce legislation today which would provide a statutory basis for legal assistance for members of the Armed Forces and their dependents.

Mr. President, it is presently the policy of the Armed Forces to provide such assistance. To the extent that resources are available, this policy is provided for in the regulatory provisions of the respective services.

However, this authority needs to be strengthened by establishing it on a statutory basis. While even this step would not provide an unqualified entitlement to legal services, it would indicate the support of the Congress for this program in periods when various military benefits are being curtailed or eliminated.

Mr. President, at the center of this effort is the encouragement of the preventive legal services which can often result in an overall reduction in the need military-supplied legal support. Whereas preventive legal service may be provided by one attorney, if the service-person is court-martialed, then a minimum of four attorneys are required. The success of these programs is attested by the fact they have been in existence for over 35 years.

Mr. President, in conclusion, I wish to state this legislation has enjoyed the past support of the Defense Department. and the budget impact has been determined to be zero, both by DOD and the Congressional Budget Office

It is also widely supported by numerous military organizations, as well as the American Bar and the Federal Bar Associations.

Mr. President, I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1590

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That it is the intent of the Congress that Armed Forces personnel have legal assistance made available to them in connection with their personal legal affairs.

SEC. 2. (a) Chapter 53 of title 10, United States Code, is amended by adding at the end of such chapter the following new sec-

"§ 1041. Legal Assistance

"(a) Under such regulations as may be prescribed by the Secretary concerned, members of the armed forces on active duty shall be provided legal assistance in connection with their personal affairs and, subject to the availability of resources, legal assistance may be provided to dependents of active duty members and to members entitled to retired or retainer pay, or equivalent pay, and their dependents."

"(b) The Judge Advocates General, as defined in section 801(1) of this title, are responsible for the establishment and supervision of legal assistance programs under such regulations as may be prescribed by the Secretary concerned.

"(c) Nothing contained in this section shall be construed as authority for the rep-resentation in court of Armed Forces personnel or their dependents who can otherwise afford legal fees for such representation without undue hardship."

(b) The table of sections at the beginning of such chapter is amended by adding at the end thereof the following new item: "1041. Legal assistance.".

By Mr. HOLLINGS:

S. 1591. A bill to eliminate certain provisions of the Federal Food, Drug, and Cosmetic Act relating to colored oleomargarine; to the Committee on Labor and Human Resources.

LABELING AND NOTIFICATION OF MARGARINE

• Mr. HOLLINGS. Mr. President, today, I am introducing a bill to simplify the Food, Drug and Cosmetic Act by improving its requirements for the labeling and notification of margarine. My bill brings section 407 of the Food, Drug and Cosmetic Act into line with the regulatory policies developed by the Food and Drug Administration (FDA) in recent years, and makes enforcement and compliance with the notification requirement easier.

This legislation is not going to promote margarine, to mandate the use of margarine, or to cause any decrease in con-sumer protection. Instead, it will enhance consumer protection by modernizing the overly complicated and special requirements for margarine in section 407 of the act.

This bill amends section 407 in three respects. First, in recent years FDA has sought to remove the requirements for labeling the product name on the inner wrapper and make FDA's regular requirements for inner unit labeling also applicable to margarine. The FDA has permitted omission of the ingredients provided a disclaimer statement appears on the inner wrapper and on the outer carton. This legislation would repeal that requirement and leave it up to the FDA to regulate the labeling of margarine inner wrappers. The FDA will continue to have the authority to determine what, if anything, is necessary for consumer information and protection on margarine inner unit wrappers or on the subunits of any packaged food.

Second, the legislation would remove the requirement that the product name on the outer package be in type as large as any other on the package. Through its regulatory process, FDA can determine what should be labeled and how. All other foods are covered by the requirements in section 403 that packaged foods label the product name conspicuously and accurately. Thus, this legislation brings margarine in this respect into line with other foods.

Third, present law requires that an eating place do two things to notify patrons when it is serving margarine. It must post a sign on the wall or make a statement in the menu, and it must identify each serving by appropriate labeling or by a triangular shape. FDA has given a low priority to enforcement of this provision and FDA takes the position that menus, labeling, or other restaurant customer notification regarding margarine use can more effectively be enforced by State and local inspection agencies. Food service establishment inspections are conducted by these levels of government now, thus their handling of this responsibility is much more cost effective. Therefore, this legislation will remove the notification process to be followed in restaurants possessing colored margarine and leave enforcement up to State and local inspection agencies.

Mr. President, the status of margarine is vastly different now from what it was when section 407 of the Food, Drug, and Cosmetic Act was enacted some 31 years ago. Margarine has become the leading table spread, used by most American families. This legislation will provide better consumer protection by making the law easier to comply with and it will simplify in one respect the burden of regulation on our expanding and important eating-out industry.

I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

8. 1591

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 407(b) of the Federal Food, Drug, and Cosmetic Act is amended—

(1) by inserting "and" after the comma at

- the end of clause (2);
 (2) by striking out "(A) the world 'oleomargarine' or 'margarine' in type or lettering at least as large as any other type or lettering on such label, and (B)" in clause
- (3) by striking out the comma and "and" at the end of clause (3); and

(4) by striking out clause (4)

- (b) Subsections (c) and (d) of section 407 of such Act are repealed.
- (c) Subsection (e) of section 407 of such Act is redesignated as subsection (c).

By Mr. SYMMS:

S. 1592. A bill to provide protection from requirements and prohibitions imposed upon citizens of the United States by foreign nations concerning the disclosure of confidential business information, and for other purposes; to the Committee on the Judiciary.

PROTECTION OF CONFIDENTIAL BUSINESS INFORMATION ACT OF 1981

. Mr. SYMMS. Mr. President, I have today introduced the Protection of Confidential Business Information Act of 1981. The purpose of the bill is to reassert the right of the United States to regulate American business.

Over the past several years, some of our major trading partners have objected to assertions of jurisdiction by the United States over anticompetitive acts abroad which have direct effect in this country. In recent months, the United Kingdom and France have enacted legislation which exceeds this bill in forbidding companies subject to the laws of those countries to comply with orders of American courts. The specific purpose of that legislation is to frustrate the administration of American laws and policies.

Mr. President, while many Members of the Senate may disagree with this or that aspect of U.S. antitrust enforcement, I doubt that any of us would disagree with the proposition that a conspiracy in the United Kingdom or in France to restrain trade in the United States must be subject to our laws. The direct effects test applied by our courts is reasonable, and is fully consistent with international law and comity.

But my purpose here is not to defend the application and enforcment of U.S. antitrust laws. It is rather to protest another trend which is becoming dangerously prevalent among our trading partners. That is the tendency to enact openly extraterritorial legislation which

is aimed at piercing the corporate veil of American business operating abroad.

Mr. President, no objectively verifiable evidence supports the claim that U.S. multinational enterprises are not, by and large, responsible participants in the countries in which they do business. When an American business incorporates a subsidiary overseas, that company is without question subject to the laws, regulations, and policies of the nation in which it operates. But the U.S. parent does not-nor should it-thereby subject itself to the foreign legal system.

Many American companies do business in the European Communities. Those companies make an important contribution both to the balance of payments of the United States and to the economic health of Europe. They provide jobs, generate capital, and increase output on both sides of the Atlantic.

Those companies benefit the economy of this country in numerous ways. They create and develop markets for American goods. They sponsor important technological innovation. And they further the integration of U.S. trading interests into the increasingly complex and interdependent system of international com-

Now, however, EC institutions are considering legislation which would regulate not the European subsidiaries of U.S. businesses, but would penalize the parent companies themselves. The EC is proposing to require that extensive confidential business information be disclosed publicly and prematurely by the parent in exchange for the subsidiary's right to continue to do business in the Communities.

There are four proposals currently under active consideration in the EC that would have direct and severe effects on U.S. business: The fifth, seventh, and ninth directives on company law, and the so-called Vredeling proposal. These initiatives have a single common denominator: Each one claims for European institutions the absolute right directly to regulate and to interfere with the behavior of foreign companies.

Mr. President, let me give the Senate just two examples of the extraterritorial reach contained in these legislative proposals. The draft ninth directive on company law would require that a parent corporation's business decision be taken in the best interests of its subsidiaries in Europe, regardless of the overall interests of the enterprise as a whole. If a decision is deemed harmful to a European subsidiary, irrespective of its benefit to the corporate parent, each and every member of the parent's board would be jointly and severally liablewith unlimited liability—to creditors and minority shareholders for any injury they might suffer.

The avowed purpose of this startling initiative is to force groups of companies away from the traditional forms of organization and into the so-called control contract. This is a notion known only to German law. There is no evidence to suggest that it is better in any measurable respect than forms of group organization practiced here or in any

other country. And yet the communities' institutions want to force American companies to adopt this structure as part of the cost of doing business in Europe.

Of course this is inconsistent with every fundamental principle of corporate law and of commonsense. But it is more than this: It is also inconsistent with the basic rules of international law, economics, and comity. A company director in New York cannot be held personally liable under the laws of Italy or Denmark for a business decision taken in the United States which is law-

ful and proper here.

Here is another example. Under the so-called Vredeling proposal, an American company contemplating a decision which might affect the interests of workers in Europe would be required to negotiate in advance with European trade unions before taking the step. Imagine a company based in the United States but with a factory in France. Under the proposal, the decision to develop a new product in Bayonne, N.J., instead of Bayonne, France, would require prior negotiation with French trade unions, since it affects their interests. This is a suggestion so radical and unnecessary that it can scarcely avoid leading to acrimony and to the deterioration of friendly trade and investment relations.

In its January 12, 1981, issue, Business Week summed up the meaning of the Vredeling proposal. It described the proposal's purpose as "to strengthen the hand of Europe's trade unions, already strident, aggressive participants in the affairs of companies based in the EC."

The magazine correctly warned that-

The magazine correctly warned that unions and the political leaders who back them should face the fact that investment does not flow freely into a country when it cannot flow freely out."

Mr. President, the European institutions are trying to compel U.S. companies to make public and ultimately to subject to European control their every moveworse, their every contemplated move. If American business is to be regulated in this way, it is this Congress which should say so. So extraordinary a change in the ways in which our companies operate worldwide should not be made at the order of foreign governments.

It is ironic, Mr. President, that the legal system which is proposing to legislate "transparency" for U.S. companies is itself one of the most opaque in the free world. American businessmen are continuously thwarted in their efforts to learn the status of these legislative proposals. Drafts and working papers are shrouded in secrecy. Critical decisions are being made without any public debate and without benefit of the views of those who will be most deeply affected.

The bill that I have introduced today would provide a shield for American enterprise against intrusive foreign regulation. It would tell U.S. businesses that they need not make disclosures abroad that are not required by our laws at

Mr. President, allowing foreign governments to regulate U.S. business directly is a dangerous inroad into our national sovereignty. At the same time, my bill in no way derogates from the sovereignty of foreign nations. It does not affect their right or their ability to legislate for businesses-including United States-owned businesses-oper-

ating within their borders.

My bill allows the Attorney General to order that confidential information demanded to be disclosed by foreign governments not be disclosed. It allows the Attorney General to require that demands for disclosure of confidential information be reported to him, so that he can assess the claimed public need for the information.

Mr. President, my bill is not an invitation to trench warfare across the battleground of international investment policy, whose casualties would be the working men and women of Europe and of the United States. Rather, it should be understood as an invitation to our trading partners to make peace, to abjure the extraterritorial reach of their legislation, and to work together with our Government toward the creation of a reasonable, responsible investment policy in an atmosphere of international trust and respect.

> By Mr. GORTON (for himself, Mr. Stevens, Mr. Kasten, and Mr. INOUVE):

S. 1593. A bill to revise regulation of international liner shipping operating in the U.S. foreign commerce; to the Committee on Commerce, Science, and Transportation.

SHIPPING ACT OF 1981

Mr. GORTON. Mr. President, the bill I am introducing will revise the Shipping Act of 1916 to clarify the purposes of United States regulation of international liner shipping in the U.S. foreign trade. This bill simplifies the process by which liner conference activities are sanctioned in the U.S. foreign trade and attempts to strengthen the conference system as a method of insuring stability in that

Similar legislation was introduced last Congress in both the Senate and the House but was not enacted. I believe it is essential that we now proceed to enact legislation to revise the regulatory policies in the Shipping Act of 1916. It cannot be underestimated that this will be a necessary part of any new approach to revitalizing the maritime industry, as Secretary Lewis has noted in the letter I am submitting for the RECORD.

Perhaps not enough people are aware that the merchant marine of the United States faces serious problems and is now at one of its historic low points in the percentage of the cargoes that it carries. Past Government solutions have not been notably successful in arresting this downward trend. It is no longer sufficient to pass slogans about the importance of the merchant marine for national security to trigger a commitment of unlimited dollars. We must do better with changes and promotional activities that do not directly create expenditures from the Federal Government. In this vein, the administration is now undertaking a

comprehensive review of maritime

Nevertheless, it has seemed more and more apparent to me that maritime regulatory reform is needed now. The process of beginning to discuss regulatory changes should not await a thorough determination of maritime policy by the administration in promotional and other areas. Regulatory reforms can also go forward without concern for direct fiscal impact. The measures taken in this bill can bring immediate benefits to not only U.S.-flag carriers but also to foreignflag carriers serving the U.S. foreign trade. U.S. exporters and importers, who rely on efficient and regular services and stable rates, will also benefit.

Before describing the bill, I would like to emphasize that it is intended as a serious vehicle for discussion. Hearings before the Merchant Marine Subcommittee will be scheduled for the week of September 14 through 18. I intend to be receptive to all comments from U.S. and foreign maritime interests and from our importers and exporters. I understand that a bill is being introduced in the House of Representatives tomorrow that. though more modest in scope, is similarly aimed. I am hopeful that a cooperative climate will lead to consensus between the House and the Senate, producing the best maritime regulatory bill possible.

The Shipping Act of 1916 was originally designed to recognize the validity of the conference system and to insulate it from the antitrust laws of the United States. But that policy has, for all practical purposes, been stood on its head by a series of decisions of the Supreme Court of the United States in the course of the last 15 years. The Court has expanded the exposure of the liner shipping industry to charges of violating the antitrust laws. This has limited the flexibility of the conference system and. not at all incidentally, has simply outraged our international trading partners, who do not in any respect agree with either the extraterritorial application of our antitrust laws or with the theory of our antitrust laws as they relate to international commerce.

The motivation for any legislation to revise the Shipping Act must focus on the need to restore the intent of Congress in this area. I believe, however, that the Congress should, in undertaking this task, go much further and recodify the entire Shipping Act. We need a simplified, more efficient, responsive, and effective regulatory scheme for international liner shipping in our foreign trade. We need to reduce Government regulation where it represents a wasteful interference in commercial maritime transactions. We need to inject commercia? standards and market mechanisms into every facet of our liner shipping policy to the extent that they will work as well or better than direct regulation. And we need precisely to define this policy. Ir this manner, the revised law itself can outline in a clear, single voice this Nation's maritime regulatory policy.

This bill sets forth a declaration of policy to aid in its future interpretation. These policy objectives focus on facilitating U.S. foreign commerce by encouraging a competitive and efficient ocean transportation system through commercial means and with a minimum of government involvement. Many of the changes to be accomplished by this bill can be understood best by referring to this policy statement.

It is questionable that the FMC's activity to date has contributed significantly to an effective international transportation system. For this reason, and consistent with the President's goal to reduce unnecessary Federal regulation, this bill allows commercial standards and practices to govern in many areas where the FMC now has considerable discretion. Fundamental to the policies stated in the bill is the recognition that the conference system is an acceptable method of commercial operation in international shipping. It will be the policy of the United States to permit cooperation among carriers and the bill will permit them to rationalize their services. This policy would permit carriers to offer the highest quality of service to shippers and consignees at the lowest possible stable freight rates. At the same time the bill reaffirms the duty of the liner carrier to act as a common carrier responsive to the needs of exporters and importers in the waterborne commerce of the United States. It therefore reaffirms strong protection of shippers against discriminatory, prejudicial, unfair, or deceptive practices. The bill also seeks evenhanded regulation of U.S.- and foreign-flag carriers as well as evenhanded enforcement.

At the bill's core is a grant of complete antitrust immunity to conference activities. This is not only consistent with international shipping practice but would also remove a constant irritant between the United States and our foreign trading partners. It would restore the pre-Carnation case view that agreements for economic cooperation among carriers are considered to be subject exclusively to the Shipping Act, and not to other antitrust laws.

A full appreciation of this clarification requires an understanding of the chilling effect that antitrust laws have had on international liner shipping operations. Application of the antitrust laws has brought uncertainty to many operator decisions. Because they are subject to criminal penalties and treble damages. they are often afraid of their own shadows. They are reluctant to cooperate in ways which would be protected even by the limited antitrust exemption offered by the FMC for fear that the margins of that exemption are unclear and that the Justice Department might still attack them.

In short, they are afraid to act in exactly the manner that the Shipping Act contemplates they should be able to act. For these reasons, the advantages of a conference in assuring stability and efficiency have not been fully achieved. This bill would permit the kind of rationalizing efficiencies that conferences are designed to accomplish.

Clear antitruct immunity is also a ma-

jor step in revitalizing our maritime industry because it removes a significant handicap created by uneven enforcement. U.S.-flag carriers domiciled in this country are disadvantaged in meeting foreign-flag competition by strong domestic enforcement of antitrust laws which seldom can be effectively enforced against carriers domiciled overseas. Foreign carriers can make arrangements or concessions to improve their competitive position, often by providing shippers outside of the United States with benefits on routes other than those to or from the United States.

Antitrust laws inhibiting rationalization of sailings or the formation of joint services by U.S.-flag carriers affect their ability to meet the service frequency of foreign consortia of liner operators which can form such alliances. Potential pricing and cost benefits through the economics of rationalized or joint services are not readily available to U.S.-flag carriers. Antitrust immunity may go far in permitting U.S. carriers to compete on equal terms with their foreign competitors.

The bill thus overrules the Carnation and Sabre decisions and insures that violators of the Shipping Act will be subject only to civil penalties provided in the new Shipping Act itself. My bill thus strips away the most rigorous layer of regulation—the antitrust laws—and the most severe penalty—treble damages.

The bill also provides for several new applications of the antitrust immunity. Conferences will be granted antitrust immunity to enter into intermodal transportation arrangements with air, motor, and rail carriers for the transportation of cargo under intermodal throughrates. Increasingly, in an an era of advancing intermodal technology, liners have published their own intermodal tariffs for point-to-point rather than merely port-to-port services.

Similarly, conferences have filed agreements and tariffs setting intermodal through-rates. The FMC has exercised its jurisdiction over oceanborne foreign commerce to approve such intermodal arrangements. Yet the Department of Justice is currently challenging the Commission's statutory authority to extend antitrust immunity to these arrangements. Because conference authority to set intermodal through-rates has been in doubt, there has been an increasing diversion of cargo from and to the United States through Canadian ports by foreign-flag carriers.

This cargo has been attracted by lower through freight rates covering the combined inland and ocean movements. These rates have not been subject to the tariff filing requirements imposed on both U.S.-flag and foreign-flag carriers on shipments loaded and discharged at U.S. ports. U.S. shippers strongly favor these single factor point-to-point rates covering combined inland and ocean movements. U.S. carriers are most competitive in high technology services that facilitate intermodal transportation. My bill clearly grants conferences antitrust immunity to fix uniform rates and conditions for intermodal transportation.

I believe this is consistent with the underlying conclusion that conferences are the best means of achieving trade stability in our foreign commerce. To deny the conference system this flexibility would be to freeze them into the transportation methods of yesterday and to deprive an increasingly large share of our cargoes from stable transportation service through U.S. ports.

I also propose to offer antitrust immunity for the formation of shippers' councils. This will allow U.S. exporters and importers to form councils for mutual consultation with carrier conferences on services and general rates. The intent is to permit shippers to cooperate in assuring a more responsive attitude by carriers and conferences. I do intend to listen closely to conflicting views on whether this proposal is in the public interest. Many point to the European model as an effective vehicle for constructive cooperation. Others question its value. Many shippers oppose the organizations or are ambivalent. It is difficult to tell what these councils will look like or how they will act, so I hope to hear more specific content.

The general direction of my bill on conference organization will be that so long as it does not discriminate against or act detrimentally to our foreign commerce, conferences can structure themselves as their members choose. Thus, for example, I believe closed conferences should be permitted. I expect to hear debate on this issue, and, partly because of that, my inclination is that Government should not dictate a single solution.

The same attitude applies to whether or not the law should mandate that every conference permit its carriers to exercise independent rate action. This highly controversial issue is complicated and divisive. If conferences are the best means of achieving long-term trade stability, independent action may weaken the conference and serve purposes inconsistent with the bill. I also wonder whether such action could be used to discriminate among sh'ppers or to avoid loyalty contract restrictions and obligations. U.S.-flag carriers are strongly divided along east-west versus northsouth trade route lines.

I therefore question the wisdom of legislating a uniform requirement that does not satisfy the interests of all trades and conferences. This issue seems to me to be one for negotiation within a conference among its members.

The approval process I propose departs from last year's Senate and House proposals in the choice of substantive standards for approval but is consistent with the 1916 act. Last year's Senate declaration of policy is too flexible, directionless, and amorphous to give sound guidance or to insure predictable results. The House proposal also lacked clarity. It called for disapproval of those agreements that violate any provision of the bill. This is too open-ended, especially since most of the proscriptions in the bill address conduct, leaving this a mere requirement that the agreement be procedurally correct. I would recommend retention of the two original criteria

from section 15 before it was amended in 1961 to include the public interest test. That is, an agreement could be disapproved only if it is: First, unjustly discriminatory or unfair between carriers, shippers, exporters or ports or between exporters from the United States and their foreign competitors, or second, detrimental to the commerce of the United States. Without the vague public interest test, the Svenska standard would have no application, yet the criteria would be relatively clear. The process would be similar to that currently in operation but with time limits to insure that the Federal Maritime Commission consider all agreements expeditiously. The burden of proof would also clearly lie with the person opposing an agreement.

On most other issues, my bill follows last year's House bill because I believe it incorporated changes necessary to simplify the legislative language, to reduce Government participation in decisions which industry can fairly make, and by introducing requirements that make commercial sense. I will discuss some of these points briefly.

Tariff filing requirements are retained. Liner operators will still be prevented from charging less than the published rates in their tariffs, in order to insure they act as common carriers without discrimination among shippers. This fair competition mandate applies reciprocally both to carriers and to shippers and supports the theory of the conference system that a common tariff can neutralize, to a large extent, the prospect of predatory economic competition between serving a given trade and thus insure stable rates.

Loyalty contracts could include dual rates or a series of rate spreads providing lower rates in turn for shipper loyalty, limited to an aggregate 15 percent differential. This can be an important tool for achieving trade stability. The bill avoids the need to submit each loyalty contract for Commission approval.

Independent neutral-body policing would also be required since it can be an effective companion to FMC policing and thus would reduce the need to have a large force of Government personnel. Moreover, a neutral body is less likely to be stymied by foreign blocking statutes because it is created through commercial negotiation of carriers from the interested nations. I am open to the suggestion that independents also should be required to engage a neutral body and that there should be a common neutral body for all in a trade. I am not yet convinced that this is necessary, though, so my bill extends the requirement only to conference members.

With respect to regulations affecting freight forwarders, the bill eliminates licensing requirements, while retaining certain safeguards to see that freight forwarders are economically stable and will not act as conduits for illegal rebates.

The bill would include the controlled carrier provisions adopted by Congress in 1978, a clear list of prohibited activities, and a clearly defined set of guidelines and requirements for Commission proceedings leading to damage awards

or penalties. Further provisions authorize the Commission to identify certain types of agreement for exemption from the requirements of the act. This provision permits flexibility to reduce unnecessary burdens such as may now exist for ports or terminal operators.

Finally, a few comments on what my bill does not contain. It does not contain language calling for substantial carriage of cargo on U.S.-flag vessels. While I am sympathetic to this goal, it is patently inconsistent with the concept of regulatory policy in international commerce. It is worth noting again that the clear antitrust immunity in this bill will remove a handicap to U.S.-flag carriers and this should help revitalize the U.S.-flag fleet. The bill should not become a vehicle for affirmative promotion. Our trade relies on a fleet of vessels flying under many different flags. The bill also does include criteria for negotiating intergovernmental maritime agreements. These are not within the province of our regulatory policy or the FMC. A solution to this issue should await an administration position on bilaterals.

I am hopeful this bill, if enacted, will stimulate the liner shipping industry as well as our import-export trade. I believe it will harmonize our laws with those of our trading partners within the framework of our broader commercial policies. I also believe it would be a significant step in our broader effort to redefine our

Nation's maritime policy.

Mr. President, I ask unanimous consent that the text of my bill, and the letter I referred to from Secretary of Transportation Drew Lewis, be printed in the RECORD.

There being no objection, the bill and the letter from Secretary of Transportation Drew Lewis, be printed in the RECORD, as follows:

S. 1593

Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the Shipping Act of 1981.

SEC. 2. DECLARATION OF POLICY.

The objectives of United States regulation of international liner shipping are:

(1) to develop and maintain an efficient ocean transportation system through commercial means, with a minimum government involvement, in order to serve the needs of United States foreign commerce;

(2) to foster reliable and responsible service by ocean common carriers and confer-

- (3) to assure ocean transportation rates and practices for United States exporters and importers that are internationally competitive, and which are not unjustly discriminatory;
 (4) to harmonize United States shipping
- practices with those of its major trading partners:

(5) to permit cooperation among carriers and rationalization of services; and

(6) to facilitate efficient and timely regu lation by a single Federal agency of the various aspects of international liner shipping responsive to the growth of ocean commerce and international developments affecting that commerce.

SEC. 3. DEFINITIONS. As used in this Act-

(1) "agreement" means understandings, arrangements and associations, written or oral, and any modification or cancellation (2) "antitrust laws" means the Act of July 2, 1890 (ch. 647, 26 Stat. 209), as amended; the Act of October 15, 1914 (ch. 323, 38 Stat. 730), as amended; the Federal Trade Commission Act (38 Stat. 717), as amended; sections 73 and 74 of the Act of August 27, 1894 (28 Stat. 570), as amended; the Act of June 19, 1936 (ch. 592, 49 Stat. 1526), as amended; the Antitrust Civil Process Act (76 Stat. 548), as amended; and amendments and Acts supplementary thereto:

(3) "bulk cargo" means-

(A) cargo that is loaded and carried in bulk without mark or count: and

(B) cargo commonly termed "neo-bulk", such as forest products in an unfinished or semifinished state, which requires specialized handling and is moved in lot sizes which range from being too large for containers up to, and including, shipload lot sizes;
(4) "Commission" means the Federal Mari-

time Commission;

(5) "common carrier" means a person, whether or not actually operating a vessel, who holds himself out to engage in transportation by water for hire as a public employment and undertakes to carry for ship-

pers indifferently;
(6) "conference" means an association of ocean common carriers which provides ocean transportation on a particular route or routes and which operates within the frame-

work of an agreement establishing rates and any other conditions of service;

(7) "controlled carrier" means any ocean common carrier that is, or whose operating assets are, directly or indirectly owned or controlled by the government under whose registry the vessels of such carrier operate. Ownership or control by a government shall be deemed to exist with respect to any carrier if-

(A) a majority portion of the interest in the carrier is owned or controlled in any manner by that government, by any agency thereof, or by any public or private person controlled by that government; or

(B) that government has the right to appoint or disapprove the appointment of a majority of the directors, the chief operating officer or the chief executive officer of the

- carrier;
 (8) "deferred rebate" means a return, by an ocean common carrier, of any portion of the freight money to any shipper as a consideration for that shipper giving all, or any portion, of his shipments to that or any other ocean common carrier, or for any other purpose, the payment of which is deferred beyond the completion of the service for which it is paid, and is made only if, during both the period for which computed and the period of deferment, the shipper has complied with the terms of the rebate agreement or arrangement:
- (9) "fighting ship" means a vessel used in particular trade by an ocean common carrier or group of such carriers for the purpose of excluding, preventing, or reducing com-petition by driving another ocean common carrier out of such trade;
 (10) "loyalty contract" means a contract

with an ocean common carrier or conference by which a contract shipper obtains lower rates by committing all or a fixed portion of its cargo to such carrier or conference;

- (11) "non-vessel-operating common carrier means a common carrier by water that does not operate the vessels by which the ocean transportation service is provided. A non-vessel-operating common carrier is a shipper in his relationship with ocean common carriers:
- (12) "ocean common carrier" means a vessel-operating common carrier, except ferry boats and ocean tramps, engaged in the transportation by water of passengers or cargo between the United States and a foreign country, whether in the import or export trade:

- (13) "other person subject to this Act" means any person engaged in the business of consolidating, freight forwarding, or furnishing wharfage, dock, warehouse, or other terminal facilities in connection with an ocean common carrier:
- (14) "ocean freight forwarder" means a person in the United States who-

(A) dispatches shipments via ocean common carriers; and

(B) processes the documentation or performs related activities incident to such shipments:

(15) "person" includes individuals, corpo-rations, partnerships, and associations, existing under or authorized by the laws of the United States, or of any State, Territory, District, or possession thereof, or of any for-

eign country;
(16) "rates" means charges, classifications, rules, or regulations that have a direct impact on a shipper's ocean transportation

costs:

(17) "shipper" means an owner or person for whose account the ocean transportation of cargo is provided or the person to whom

delivery is to be made;
(18) "shippers' council" means an association of shippers or their agents, other than ocean freight forwarders and non-vessel-

operating common carriers;
(19) "surcharge" means any temporary (19) "surcharge" means any temporary change in rates that is necessary to cover a sudden or extraordinary change incurred by an ocean common carrier or conference with respect to its costs or revenues;

(20) "tariff" means any schedule of rates pertaining to ocean transportation, includ-

- ing any supplement, amendment or reissue; (21) "through intermodal rate" means the single amount charged by an ocean common carrier in connection with through transportation;
- "through transportation" (22) transportation by two or more carriers at least one of which is an ocean common carrier, between a United States point or port and a foreign point or port.
 (23) "United States" means the several
- States, the District of Columbia, the Com-monwealth of Puerto Rico, the Commonwealth of the Northern Marianas, and all other United States territories and posses-
 - SEC. 4. AUTHORIZED ACTIVITIES.
- (a) CONFERENCE ACTIVITIES .- Ocean common carriers or other persons subject to this Act may agree to-
- (1) discuss, fix, regulate, and agree upon rates, surcharges, accommodations and other conditions of services;
- (2) pool or apportion earnings, losses, or
- (3) allot ports or restrict or otherwise regulate the number and character of sailings between ports:
- (4) limit or regulate the volume or character of cargo or passenger traffic to be carried:
- (5) engage in exclusive, preferential, or cooperative working arrangements;
- (6) enter into other agreements to control, regulate, or prevent competition among themselves; and

(7) limit, in the case of conferences, mem-

bership.

- (b) INTERMODAL ACTIVITIES .mon carriers or other persons subject to this Act may agree with each other or with any combination of air carriers, rail carriers, motor carriers, or other common carriers by water to-
- establish through transportation (1) routes for the movement of cargo; and
- (2) establish through intermodal rates, or concur in tariffs.
- (c) SHIPPERS' COUNCIL ACTIVITIES.—Shippers who are members of a shippers' council organized or existing under the laws of the United States may-
 - (1) mutually consult and exchange infor-

mation or views regarding general rate levels, rules, practices, or services;

- (2) agree upon common positions; and (3) consult and negotiate with any ocean common carrier or conference regarding conference regarding
- general rate levels, rules, practices, or serv-
 - SEC. 5. AGREEMENTS.
- (a) IN GENERAL.—No concerted activity authorized by section 4 shall be permitted under this Act except pursuant to an agreement that has become effective under section 6.
- (b) FILING REQUIREMENTS .- A true copy of every agreement entered into with respect to any activity described in section 4 shall be filed with the Commission. In the case of oral agreements, complete memoranda specifying in detail the substance of such agreements shall be filed. Within ten working days of receipt, the Commission shall transmit a notice of filing to the Federal Register for publication.
- (c) Conference Agreements.—Every conference must-
- (1) provide that any limitation on membership is based on commercially reasonable
- (2) permit any member to withdraw from membership upon reasonable notice without penalty;
- (3) engage the services of an independent neutral body to police fully the obligations of the conference and its members;
- (4) provide the right of independent action
- (A) in any agreement between carriers not members of the same conference, for each carrier, and, in any agreement between conferences serving different trades that would otherwise be naturally competitive, for each conference; or
- (B) in any intermodal agreement, for air carriers, rail carriers, motor carriers, or com-mon carriers by water not subject to this Act to establish their portion of through intermodal rates or to establish rules and regulations that apply exclusively to the services performed by such carriers.
- (5) provide for a consultation process designed to insure-
 - (A) commercial resolution of disputes;
- (B) cooperation in preventing malpractice; (C) procedures for promptly and fairly considering shippers' requests and com-
- plaints; and
- (D) regular and orderly communication and exchange of information with shippers and shippers' councils in their trade.
- (d) SHIPPERS' COUNCIL AGREEMENTS .-(d) SHIPPERS' COUNCIL Every shippers' council must-
- (1) limit membership to those shippers that have a direct financial interest in the export or import of the commodities covered
- by the agreement;
 (2) provide that membership is voluntary; provide that the members have the right to act independently with any carrier
- or conference; (4) provide for a consultation process designed to insure—
- (A) commercial resolution of disputes;
- (B) cooperation in preventing malpractice;
- (C) regular and orderly communication and exchange of information with conferences in their trade.
 - SEC. 6. ACTION ON AGREEMENTS.
- (a) REJECTION BY THE COMMISSION.-Any agreement that does not conform to the re quirements of section 5 shall be rejected by the Commission.
- (b) STANDARDS.—The Commission shall by order, after notice and hearing, disapprove or modify any agreement that it finds—
- (1) to be unjustly discriminatory or unfair as between carriers, shippers, exporters, importers, or ports, or between exporters from the United States and their foreign competitors; or

- (2) to operate to the detriment of the commerce of the United States.
- The Commission shall approve all other agreements.
- (c) BURDEN OF PROOF .- The burden of proof in any proceeding under this section shall be on the party opposing the agreement.
- (d) DURATION OF EFFECTIVENESS.—Agree-ments that are approved shall remain in effect until withdrawn, cancelled, or modified. The Commission shall not on its own motion limit the duration of an agreement's effectiveness.
- (e) FINAL DECISION-TIME.-The Commission shall issue a final decision on any agree ment within 180 days after filing with the Commission. For good cause the Commission may extend the time period once for not more than 90 days.
- (f) DELAY.—If a final decision is not issued within the 180 day period referred to in subsection (b), or by the end of any extension period, the agreement shall go into effect as filed. If the Commission determines that it is unable to issue a final order within such period or extension due to willful delays directly attributable to either a proponent or a complainant, the Commission may disapprove the agreement, or permit it to become effective, solely on the basis of such delay.
- (g) COMPLIANCE WITH SUBPOENA OR DIS-COVERY .- In any proceeding under this section, the Commission may disapprove any agreement for failure of a proponent of the agreement to comply with any subpoena or discovery order lawfully issued by the Commission
 - SEC. 7. LOYALTY CONTRACTS.
- (a) CONTRACT REQUIREMENTS .- Any conference or ocean common carrier engaged in foreign commerce may utilize loyalty contracts, if each such contract meets the following requirements:
- (1) The contract is available to all shippers on equal terms and conditions.
- (2) The contract shipper is permitted prompt release from the contract with re-spect to any shipment or shipments for which the contracting carrier or conference of carriers cannot provide space requested on
- reasonable notice by the shipper.

 (3) The contract provides that whenever a rate for the carriage of goods under the contract becomes effective, insofar as it is under the control of the carrier or conference, the
- (A) may not be increased on less than days' notice, except upon agreement of the applicable shipper; and
- (B) may be increased on not less than 30 days' notice if the increase is to a level no higher than that from which the particular rate was reduced within 180 days immediately preceding the filing of the increase, or if the increase is a surcharge.
- The contract covers only those goods of the contract shipper as to the shipment of which it has the legal right at the time of shipment to select the carrier. It shall be deemed a breach of the contract if, before the time of shipment and with the intent to avoid its obligation under the contract, the contract shipper divests itself, or with the same intent permits itself to be divested, of the legal right to select the carrier and the shipment is carried by a carrier which is not a party to the contract. In any dispute under this paragraph the burden of proof shall be on the contract shipper.
- (5) The contract shipper is not required to divert shipments of goods from natural routings not served by the carrier or conference where direct carriage is available.
- (6) The damages recoverable for breach by either party are limited to actual damages to be determined after breach in accordance with the principles of contract law. The con-tract may specify, however, that in the case of a breach by a contract shipper the dam-

- ages may be an amount not exceeding the freight charges computed at the contract rate on the particular shipment, less the cost of handling.
- (7) The contract shipper is permitted to terminate at some time without penalty upon 90 days' notice.
- (8) The carrier or conference is permitted on 90 days' notice to terminate the contract rate system in whole or with respect to any
- commodity without penalty.

 (9) The contract provides for a spread or series of spreads, to be commercially determined, between tariff rates and rates charged contract shippers that shall not exceed an aggregate of 15 per centum.
 - (10) The centract excludes bulk cargo.
- (b) TREATMENT OF CONTRACT NOT IN CON-FORMITY.—The utilization of a loyalty contract that is not in conformity with one or more of the requirements set forth in subsection (a) shall be treated as a violation of this Act
 - SEC. 8. EXEMPTION FROM ANTITRUST LAWS. (a) The antitrust laws shall not apply to:
- (1) Any agreement or activity described in section 4;
- (2) any loyalty contract that conforms with the requirements of section 7, or any activity pursuant to that loyalty contract;
- (3) any agreement or activity that relates solely to transportation services between foreign countries;
- (4) any agreement or activity that relates to shippers' councils operating exclusively outside the United States; and
- (5) any agreement or activity to provide furnish wharfage, dock, warehouse, or other terminal facilities exclusively outside the United States.
- (b) This Act shall not be construed to extend antitrust immunity to air carriers, rail carriers, motor carriers, or common carriers by water not subject to this Act. Sec. 9, Tariffs.
- (a) In General .- (1) Except with regard to bulk cargo, every ocean common carrier shall file with the Commission, and keep open to public inspection, tariffs showing all its rates between all points on its own route and on any through transportation route which has been established. Such tariffs shall plainly indicate the places between which cargo will be carried, list each classification of cargo in use, state separately each additional charge, privilege, or facility under the control of the carrier or conference and any rules or regulations that in any way change, affect, or determine any part or the aggregate of such rates or charges, and include sample copies of any loyalty contract, bill of lading, contract of affreightment, or other document evidencing the transportation agreement.
- (2) Copies of such tariffs shall be made available to any person and a reasonable charge may be assessed for them.
- (b) INITIAL RATES AND RATE CHANGES .- No initial rates or increases in existing rates shall become effective earlier than 30 days after filing with the Commission. Any change in the rates that results in a described cost to the shipper may become effective upon publication and filing with the Commission. The Commission, for good cause, may allow rate increases or surcharges to become effective in less than 30 days.
- (c) REFUND OF CHARGES .- The Commis-(c) REFUND OF CHARGES.—The Commission may permit an ocean common carrier or conference to refund a portion of freight charges collected from a shipper or waive the collection of a portion of the charges from a shipper where it appears that there is an error in a tariff of a clerical or administrative nature due to inadvertence in failing to file a new tariff and that such refund will not result in discrimination among shippers, ports, or carriers. The application for refund must be filed with the Commission within 180 days from the date of shipment.

SEC. 10. CONTROLLED CARRIERS.

(a) CONTROLLED CARRIER RATES.-No controlled carrier subject to this section shall maintain rates in its tariffs filed with the Commission that are below a level that is tust and reasonable. The Commission may, at any time after notice and hearing, disapprove any rate which the controlled carrier has failed to demonstrate to be just and reasonable. In any proceeding under this subsection, the burden of proof shall be on the controlled carrier to demonstrate that its rate is just and reasonable. Rates filed by a controlled carrier that have been rejected, suspended, or disapproved by the Commission are void, and their use is unlawful.

(b) RATE STANDARDS .- For the purpose of this section, in determining whether rates by a controlled carrier are just and reasonable, the Commission may take into account appropriate factors including, but not limited

to, whether-

(1) the rates which have been filed are below a level which is fully compensatory to the controlled carrier based upon that Carrier's actual costs or upon its constructive costs, which are hereby defined as the costs of another carrier, other than a controlled carrier, operating similar vessels and equipment in the same or a similar trade;

(2) the rates are the same as or similar to those filed or assessed by other carriers in

the same trade:

(3) the rates are required to assure movement of particular cargo in the trade; or

(4) the rates are required to maintain acceptable continuity, level, or quality of common carrier service to or from affected ports.

- (c) EFFECTIVE DATE OF RATES.—The rates of controlled carriers shall not, without special permission of the Commission, become effective sooner than the thirtieth day after the date of filing with the Commission. After the date of the enactment of this section, each controlled carrier shall, upon the request of the Commission, file, within 20 days of request, with respect to its existing or pro-posed rates, a statement of justification that sufficiently details the controlled carrier's need and purpose for such rates, upon which the Commission may reasonably base its de-
- termination of the lawfulness thereof.

 (a) DISAPPROVAL OF RATES.—Whenever the Commission is of the opinion that the rates, filed by a controlled carrier may be unjust and unreasonable, the Commission may issue an order to the controlled carrier to show cause why such rates should not be disapproved. Pending a determination as to their lawfulness in such a proceeding, the Commission may suspend such rates at any time before their effective date. In the case of rates that have already become effective, the Commission may, upon the issuance of an order to show cause, suspend such rates on not less than 60 days' notice to the controlled carrier. No period of suspension under this subsection may be greater than 180 days. Whenever the Commission has suspended any under this subsection, the carrier may file new rates to take effect immediately during the suspension period in lieu of the suspended rates; except that the Commission may reject such new rates if it is of the opinion that they are unjust and unreasonable
- (e) PRESIDENTIAL REVIEW.—Concurrently with the publication thereof, the Commission shall transmit to the President any order of suspension or final order of disapproval of rates of a controlled carrier subject to this section. Within ten days after the receipt or the effective date of such Commission order, whichever is later, the President may request the Commission in writing to effect of the Commission's order if he finds that such stay is required for rea-sons of national defense or foreign policy which reasons shall be specified in the report. Notwithstanding any other provision of law, the Commission shall immediately

grant such request by the issuance of an order in which the President's request shall be described. During any such stay, the President shall, whenever practicable, attempt to resolve the matter in controversy by negotiation with representatives of the

applicable foreign governments.

(f) Exceptions.—The provisions of this

section shall not apply to-

(1) any controlled carrier of a state whose vessels are entitled by a treaty of the United States to receive national or mostfavored-nation treatment:

- (2) any controlled carrier of a state which, on the effective date of this section, has subscribed to the statement of shipping policy contained in note 1 to annex A of the Code of Liberalization of Current Invisible Operations, adopted by the Council of the Organization for Economic Cooperation and Development;
- (3) rates of any controlled carrier in any particular trade which are covered by an agreement effective under section 6, other than an agreement in which all of the members are controlled carriers not otherwise excluded from the provisions of this subsection;
- (4) rates governing the transportation of cargo by a controlled carrier between the country by whose government it is owned or controlled, as defined herein and the United States;

(5) a trade served exclusively by controlled carriers: or

(6) any controlled carrier registered in a state which, on the effective date of this Act, is among those designated a beneficiary developing country for purposes of the generalized system of preferences, provided for in title V of the Trade Act of 1974 (88 Stat. 2066, 19 U.S.C. 2461 et seq.), and set forth in general headnote 3(c) of the Tariff Schedules of United States Annotated (1978), and which has vessels registered within its jurisdiction that are privately owned and not

operated by a controlled carrier.
SEC. 11. OCEAN FREIGHT FORWARDERS AND NON-VESSEL-OPERATING COMMON CARRIERS.

- (a) Bonding Requirement.-No person may act as an ocean freight forwarder or nonvessel-operating common carrier unless that person has furnished a bond approved by the Commission of no less than \$150,000 that is issued by a surety company found acceptable the United States Department of the Treasury.
- (b) Exception.—A person whose primary business is the sale of merchandise may forward shipments of such merchandise for his own account without a bond.
- (c) COMPENSATION OF FORWARDERS BY CAR-
- (1) An ocean common carrier shall compensate an ocean freight forwarder in connection with any cargo shipment dispatched on behalf of others only when the ocean freight forwarder has certified in writing that it has performed the following services:
- (A) engaged, reserved or contracted directly with the carrier or its agent for space aboard a vessel or confirmed the availability of such space; and
- prepared and processed the ocean bill of lading, the dock receipt, or other similar documents with respect to such cargo.
- (2) An ocean common carrier shall not pay compensation for services described in paragraph (1) more than once on the same cargo shipment.
- (3) An ocean common carrier shall not pay compensation as provided in this subsection to its agents or any other ocean common carrier or its agents.
- (4) No compensation shall be paid to an ocean freight forwarder except in accordance with the tariff provisions contained in section 9(a): and no such forwarder is entitled to receive compensation from a common carrier with respect to any shipment in which

the forwarder has a direct or indirect beneficial interest.

SEC. 12. PROHIBITED ACTS.

(a) By Ocean Common Carriers.-No ocean carrier may-

(1) rebate, refund, or remit in any manner, or by any device, any portion of its rates except in accordance with a tariff that is on file with the Commission;

(2) extend or deny to any person any privilege, concession, equipment or facility, except in accordance with such tariffs:

(3) allow any person to obtain transporta-on by water for cargo or any service in connection therewith at less than the applicable rates by any means;

(4) charge rates which are determined to be so unreasonably high or low as to be detrimental to the commerce of the United

(5) charge rates which are unduly prejudicial to United States exporters ar compared with their foreign competitors;

continue to impose any surcharge after the increase in costs or loss of revenues that were the subject of the surcharge have been recovered.

- (7) retaliate against any shipper by refusing, or threatening to refuse, space accommodations when such are available, or resort to other discriminatory or unfair methods, because such shipper has patron-ized any other carrier or has filed a complaint charging unfair treatment, or for any other reason:
- (8) make any unfair or unjustly discriminatory contract with any shipper based on the volume of freight offered, or unfairly treat or unjustly discriminate against any shipper in the matter of-

- (B) cargo space accommodations or other facilities, due regard being had for the proper loading of the vessel and the available ton-
- (C) the loading and landing of freight in proper condition, or

(D) the adjustment and settlement of claims:

(9) use any fighting ship or engage in any practices designed to reduce or eliminate the participation of non-conference carriers;

(10) offer or pay any deferred rebates; or (11) demand, charge, or collect any rate or charge which is determined by the Commission to be unjustly discriminatory between

shippers or ports.

(b) By Shippers, Ocean Freight Forward-ERS OR NON-VESSEL-OPERATING COMMON CAR-RIERS .- No shipper, ocean freight forwarder, or non-vessel-operating common carrier may obtain or attempt to obtain transportation from an ocean common carrier at rates that are less than those specified in such carriers' tariffs on file with the Commission.

(c) By OTHER PERSONS .- It shall be unlawful for any ocean common carrier, shipper, or other person subject to this Act-

- (1) to operate under any agreement described in section 4 that has not become effective under section 6, has been rejected, suspended, or disapproved, or to operate except in accordance with any modification made by the Commission to the agreement;
- (2) knowingly to disclose, offer, solicit, or receive any information concerning the nature, kind, quantity, destination, consignee, or routing of any property tendered or delivered to an ocean common carrier or other person subject to this Act without the consent by such shipper or consignee if that information-
- (A) may be used to the detriment or prejudice of such shipper or consignee;
- (B) may improperly disclose its business transactions to a competitor; or
- (C) may be used to the detriment or prejudice of any carrier.

Nothing in paragraph (2) shall be construed to prevent providing such information, in response to any legal process, to the Government of the United States or any State, or to any independent neutral body operating within the scope of its authority to fulfill the policing obligations of the parties to an

agreement approved under this Act.
Sec. 13. Complaints, Investigations and

REPARATIONS.

(a) FILING OF COMPLAINTS.—Any ocean common carrier, shipper, or other person subject to this Act may file with the Com-mission a sworn complaint alleging a violation of this Act and may seek reparation for any injury caused to the complainant by that violation.

(b) Satisfaction or Investigation of Com-PLAINTS.—The Commission shall furnish a copy of a complaint filed pursuant to subsection (a) of this section to the person named therein, who shall, within a reasonable time specified by the Commission, satisfy the complaint or answer it in writing. If the complaint is not satisfied, the Commission shall investigate it in such manner and by such means, and make such order as it deems proper.

COMMISSION INVESTIGATIONS.—The (c) Commission, upon its own motion, may in like manner and, with the same powers, investigate any violation of this Act.

(d) REPORTS OF INVESTIGATION .- The Commission shall enter a written report of every investigation made under this Act in which a hearing was held, which states its conclusions, decisions, findings of fact, and order. A copy of such report shall be furnished to all parties. The Commission shall publish such reports for public information and such authorized publications shall be competent evidence of such reports in all courts of the United States, and of each of the States, territories, districts, and possessions thereof.

(e) REPARATIONS .--After notice and hearing of any complaint filed pursuant to sub-section (a) of this section within one year, the Commission may when appropriate direct the payment of reparations to the complainant for actual injury caused by a viola-

tion of this Act.

SEC. 14. SUBPOENAS AND DISCOVERY.

(a) IN GENERAL.—In investigations and adjudicatory proceedings under this Act-

 depositions, written interrogatories, and discovery procedures may be utilized by any party under rules and regulations isby the Commission which rules and regulations, to the extent practicable. shall be in conformity with the rules applicable in civil proceedings in the district courts of the United States; and

(2) the Commission may by subpoena compel the attendance of witnesses and the production of books, papers, documents, and

other evidence.

(b) WITNESS FEES .--Witnesses shall, unless otherwise prohibited by law, be entitled to the same fees and mileage as in the courts of the United States.

(c) SUSPENSION OF TARIFFS.—After notice and opportunity for hearing, the Commission may suspend any or all tariffs of any ocean common carrier, or the right of a conference member to utilize conference tariffs, if the carrier or conference fails to supply information authorized to be obtained under subsection (a). Any suspension ordered pursuant to this subsection shall be immediately submitted to the President who may disapprove it if he finds such disapproval is required for national defense or foreign policy reasons.

(d) CIVIL PENALTY.—Any ocean common carrier who accepts or handles cargo for carriage under tariffs which have been suspended pursuant to this section shall be subject to a civil penalty of not more than \$50,000

for each shipment.

(e) Assistance of Secretary of State in Obtaining Information.—If, in defense of

its failure to comply with a subpoena or discovery order issued under this section, an ocean common carrier alleges that documents or information located in a foreign country cannot be produced because of the laws of that country, the Commission shall immediately notify the Secretary of State of such failure to comply and of the allegation relating to foreign laws. Upon receiving notification, the Secretary of State shall promptly consult with the government of the nation within which the documents or information are alleged to be located for the purpose of assisting the Commission in obtaining the documents or information sought.

SEC. 15. PENALTIES.

(a) ASSESSMENT OF PENALTY.-If the Commission finds, after notice and opportunity for hearing, that any shipper, shippers' council, ocean common carrier, conference, ocean freight forwarder, or other person subject to this Act has violated any provision of this Act, or any regulation issued thereunder, such person is liable to the United States for a civil penalty. The amount of the civil penalty, unless otherwise provided in this Act, may not exceed \$5,000 for each violation unless the violation was willfully and knowingly committed, in which case the amount of the civil penalty may not exceed \$25,000 for each violation. Each day of a continuing violation shall constitute a separate offense. The amount of each civil penalty shall be assessed by the Commission, by written notice. In determining the amount of such penalty, the Commission shall take into account the nature, circumstances, extent, and gravity of the violation committed and, with respect to the violator, degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.

(b) TARIFF SUSPENSION FOR REBATING .- (1) For any violation of section 12(a) (1), (2), and (3), the Commission may suspend any or all tariffs of any ocean common carriers, or the member's right to use conference tariffs, for a period not to exceed 12 months. Any suspension ordered pursuant to this subsection shall be immediately submitted to the President who may disapprove it if he finds such disapproval is required for national defense or foreign policy reasons.

(2) Any ocean common carrier who accepts handles cargo for carriage under tariffs which have been suspended pursuant to this subsection shall be subject to a civil penalty of not more than \$50,000 for each shipment.

(c) REVIEW OF CIVIL PENALTY.—Any person against whom a civil penalty is assessed under subsection (a) of this section may obtain review thereof under chapter 158 of

title 28, United States Code.

- (d) ACTION UPON FAILURE TO PAY ASSESS-MENT.—If any person fails to pay an assessment of a civil penalty after it has become final and an unappealable order, or after the appropriate court has entered final judgment in favor of the Commission, the Commission shall refer the matter to the Attorney General of the United States, who shall recover the amount assessed in any States. In such action, the validity and appropriateness of the final order imposing the civil penalty shall not be subject to
- (e) COMPROMISE OR OTHER ACTION BY COM-MISSION.—The Commission may compromise, modify, or remit, with or without conditions, any civil penalty which is subject to assessment under this section.
- (f) LIMITATIONS .- (1) No fine or other punishment shall be assessed on any person for criminal conspiracy after August 29, 1972, to violate any provision of this Act or to defraud the Commission by concealment of any such violation.
 - (2) Any formal proceeding to assess any

penalty under this section shall be com-menced within five years from the date when the violation occurred.

SEC. 16. COMMISSION ORDERS.

(a) In GENERAL.—Orders of the Commission relating to any violation of this Act or to any regulation issued thereunder shall be made only after opportunity for hearing and upon complaint or on its own motion. Each order of the Commission shall continue in force for the period of time specified in the order, or until suspended, modified, or set aside by the Commission or a court of competent jurisdiction.

(b) REVERSAL OR SUSPENSION OF ORDERS. The Commission may reverse, suspend, or modify any order made by it, and upon application of any party to a proceeding may grant a rehearing of the same or any matter determined therein. No rehearing shall, except by special order of the Commission, operate as a stay of such order.

(c) ENFORCEMENT OF NONREPARATION OR--In case of violation of any order of the Commission or for failure to comply with a Commission subpoena, the Commis sion, or any party injured by such violation. or the Attorney General may seek enforce-ment by any United States district court having jurisdiction over the parties. If after hearing, the court determines that the order was properly made and duly ordered, it shall enforce the order by an appropriate injunction or other process, mandatory or other-

(d) ENFORCEMENT OF REPARATION ORDERS (1) In case of violation of any order of the Commission for the payment of reparation, the person to whom such award was made seek enforcement of such order in any United States district court having jurisdic-

tion of the parties.

- (2) In any United States district court the findings and order of the Commission shall be prima facie evidence of the facts therein stated, and the petitioner shall not be liable for costs, nor for the costs of any subsequent stage of the proceedings, unless they accrue upon his appeal. A petitioner in a United States district court who prevails shall be allowed a reasonable attorney's fee to be assessed and collected as part of the costs of the suit
- (3) All parties in whose favor the Commission has made an award of reparation by a single order may be joined as plaintiffs, and all other parties in such order may be joined as defendants, in a single suit in any district in which any one such plaintiff could maintain a suit against any one such defendant. Service of process against such defendant not found in that district may be made in any district in which is located any office of. or point to call on a regular route operated by, such defendant. Judgment may be entered in favor of any plaintiff against the defendant liable to that plaintiff.

(e) STATUTE OF LIMITATIONS.-Any action seeking enforcement of a Commission order shall be filed within one year from the date of the order.

(f) REPRESENTATION IN COURT.-Attorneys employed by the Commission shall, if the Commission so directs, appear for and represent the Commission in any case before a court of the United States or a State of the United States.

Sec. 17. EXEMPTIONS.

The Commission, upon application or on its own motion, may by order or rule exempt for the future any specified activity or class of agreements between ocean common carriers or other persons subject to this Act from any requirement of this Act, if it finds that such exemption will not substantially impair effective regulation by the Commission, be unjustly discriminatory, or be detrimental to commerce. The Commission may attach conditions to any such exemption and may, by order, revoke any such exemption. No order or rule of exemption or revocation of exemption shall be issued unless opportunity for hearing has been afforded interested persons.
SEC. 18. REGULATIONS

The Commission shall make such rules and regulations as may be necessary to carry out the provisions of this Act.

SEC. 19. REPEALS AND CONFORMING AMEND-MENTS.

(a) REPEALS.—The laws specified in the following table are repealed:

Shipping Act, 1916: 46 U.S.C. 813 46 U.S.C. 813a 14b ----- 46 U.S.C. 817(b) 18(b) 18(c) _____ 46 U.S.C. 817(c) 46 U.S.C. 825 26 ---46 U.S.C. 841a 43 Merchant Marine Act, 1920: 46 U.S.C. 812 Merchant Marine Act, 1936: 46 U.S.C. 1122(e) 212(e) _____ ----- 46 U.S.C. 1124

(b) CONFORMING AMENDMENTS .-

The Shipping Act, 1916, is amended by redesignating section 3, and all references thereto, as section 4 and inserting the following new section after section 2:

SEC. 3. Commencing with the date of enactment of this section, the provisions of sections 4, 14, 15, 16, 17, 18, 20, 21, 22, 23, 24, 25, 27, 29, 30, 31, 32, 33, 34, 35, and 44 of this Act shall be deemed to apply only to commerce related to transportation by water of passengers or property on the high seas or the Great Lakes on regular routes from port to port between one State, Territory, District, or possession of the United States and any other State, Territory, District, or possession of the United States or between places in the same Territory, District, or possession."

(c) EFFECT ON CERTAIN AGREEMENTS AND CONTRACTS.-All agreements, contracts, and modifications previously approved by the Commission will continue in force and effect as if approved under the provisions of this Act, and all new agreements, contracts, and all modifications to existing, pending, or new contracts or agreements shall be considered under the provisions of this Act.

THE SECRETARY OF TRANSPORTATION, Washington, D.C., July 17, 1981. Hon. SLADE GORTON,

Chairman, Subcommittee on Merchant Marine and Tourism, Committee on Commerce, Science, and Transportation, U.S. Senate, Washington, D.C.

DEAR SLADE: Thank you for your letter of June 26 outlining your plans for legislative action in the maritime area. I, too, am anxious to begin work in the formulation of maritime policy from the transportation perspective, and I appreciate your expression of support and cooperation.

I agree with you that legislation to revise the regulatory policies in the Shipping Act, 1916, will be necessary as part of any new approach to revitalizing the maritime industry. My staff and I are prepared to work with you to develop regulatory reform legislation and I will be pleased to testify at your hearings.

With regard to legislation dealing with the promotional aspects of maritime policy, I prefer to wait until the Maritime Administration has been transferred to the Department of Transportation and we have had a chance to carefully consider the complex issues involved in developing a promotional

Again, let me say that I appreciate your statements of support. I have the highest hopes that our cooperative efforts will lead to success in developing a rational maritime policy.
Sincerely,

By Mr. SYMMS:

S. 1594. A bill to amend the Internal Revenue Code of 1954 to apply the civil fraud penalty only to that portion of an underpayment which is attributable to fraud; to the Committee on Finance.

CIVIL FRAUD IN TAX RETURNS

• Mr. SYMMS. Mr. President, today I am introducing a proposal for a change in our Internal Revenue laws in reference to the way the law deals with the subject of civil fraud. This bill would change the penalty for civil fraud from the present 50 percent of the taxpayer's total deficiency to 100 percent of his deficiency resulting from fraud.

Our Supreme Court has stated that the civil fraud penalty is an aid in the collection of the tax for the purpose of preventing fraud in the preparation of returns and the payment of the tax. A finding of civil fraud is not a criminal action but it is a procedure which results in the imposition of a civil penalty.

This proposal which I am introducing makes no change in the law in reference to criminal fraud, which is an action to punish for a criminal offense.

Our sense of justice requires that penalties which are imposed bear a relation to the magnitude of the violation. This is a good American principle which causes us to take a look at the present law relating to the civil fraud penalty.

At the present time the civil fraud penalty is measured by the total deficiency of the taxpayer. It is not measured by the extent of the civil fraud charged. Many illustrations can be cited which point up this inequity. Take the case of taxpayer A whose legal counsel and accountant advise him that he should claim a particular transaction as a capital gain and not ordinary income.

He makes a full disclosure and there is no fraud involved. He submits his claim to the IRS. Let us assume that the IRS decided that the transaction resulted in ordinary income, which resulted in a deficiency of \$2,000. Let us further assume that this same taxpayer failed to report interest income which resulted in a \$100 deficiency. Failure to report income is clearly a case of fraud. Under the present law this taxpayer A would have to pay a civil fraud penalty of 50 percent of \$2,000 plus \$100, or \$1,050.

Let us take another case which we refer to as taxpayer B. Taxpayer B happens to have no nonfraudulent items which are challenged by the IRS, but taxpayer B does fail to report interest income which resulted in a \$300 deficiency and this of course constitutes fraud. It is a violation three times the magnitude of taxpayer A yet taxpayer B's civil fraud penalty is 50 percent of \$300, or only \$150, as compared to taxpayer A who is guilty of a lesser fraud violation but must pay a civil fraud penalty of \$1,050.

There are many cases that could be cited which illustrate how the present law for the imposition of the civil fraud penalty works. Take the case of a taxpayer whose return contained an unintentional accounting error which when audited resulted in a \$1,200 deficiency, and that this same taxpayer had a de-

ficiency of \$400 resulting from a fraudulent omission of income. His neighbor's tax return contains no accounting errors but the neighbor is assessed a deficiency of \$1,000 for fraudulently omitting to report certain income. We will assume that the two taxpayers are in the same tax bracket. The first taxpayer will have to pay a \$800 civil fraud penalty while his neighbor's civil fraud penalty will only be \$500 for failing to report 2½ times as much income as his neighbor failed to report.

It is important in the administraton of our tax laws, where we rely upon the voluntary reporting of income, that the Government strive to the utmost to be fair. This means that the civil fraud penalty should be determined on the amount of civil fraud involved and not as a result of other items which are not

in the least tainted with fraud.

Mr. President, the tax section of the American Bar Association over a period of many years has urged that the fraud penalty be based only on the portion of the deficiency resulting from fraud rather than on the total deficiency for the return involved. Last May during the testimony of the American Bar Association I brought up the matter of the civil fraud penalty. The position of the Bar Association was clearly stated in a subsequent letter of Mr. Harvie Branscomb, Jr., chairman of the section of taxation, addressed to the distinguished chairman of the Committee on Finance. Mr. Dole. Mr. President, I shall ask that Mr. Branscomb's letter be printed in full at the conclusion of my remarks.

Mr. President, this measure should be enacted because it is fair and just and in the interest of good tax administration. I urge an early hearing by the Committee on Finance and that early and favorable action be taken by the committee and by the Senate to the end that this matter may be corrected.

Mr. President, a detailed question and answer statement which fully illustrates the problem that we face in reference to the civil fraud penalty, has been prepared by one of our former members, Carl T. Curtis. He serves on the committee on implementing recommendations of the section of taxation of the American Bar Association. I ask unanimous consent that Mr. Branscomb's letter and the statement prepared by Carl T. Curtis be printed at this point in the

There being no objection, the material was ordered to be printed in the RECORD, as follows:

AMERICAN BAR ASSOCIATION. Washington, D.C., May 19, 1981. Subject: Revision of Internal Revenue Code Pertaining to Fraud and Negligence

Penalties. Senator ROBERT J. DOLE.

U.S. Senate,

Washington, D.C.

DEAR SENATOR DOLE: During the course of testimony before the Senate Finance Committee on May 18, 1981, we were asked by Senator Symms whether an amendment to the provisions of the Internal Revenue Code relating to computation of fraud penalties was desirable.

The American Bar Association has determined that the provisions pertaining to the computation of the fraud and negligence penalties should be revised. Enclosed are our recommendations 1971-7, 1976-5 and 1969-2

to this effect.

Under our recommendations, the penalty would be based upon the underpayment of tax which is due to fraud or negligence, in lieu of the entire tax deficiency, as at present. We are aware of instances in which the item involving negligence was very small in a corporate tax return involving a great deal of income, and in which the negligence penalty was not imposed because the penalty would have been so far out of line with the offense. Our recommendations would make penalty more closely related to the

You will observe that the American Bar Association does not make a recommendation with respect to the rate which should be used in computing fraud and negligence penalties, if the statute is rewritten as we suggest. The officers of the Section recognize that the revision of the rate used in com-puting the penalty would certainly be an appropriate item for consideration by your committee

The Section of Taxation recognizes the importance of appropriate provisions to assure compliance with our tax laws and was gratified to hear of the interest of your committee in improving the effectiveness and fairness of the provisions for penalties for fraud and negligence.

Sincerely yours, HARVIE BRANSCOMB, Jr.

WHY THE CIVIL FRAUD PENALTY SHOULD BE CHANGED

This statement was prepared by Carl T. Curtis of the Nelson & Harding law firm, 1101 Connecticut Avenue, NW, Suite 800, Washington, D.C. 20036, in support of a request for hearings before the Committee on Finance and the Committee on Ways & Means and for presentation at the hearings of said committees

1. Q. What is civil fraud?

A. A finding of civil fraud is not a criminal action but it is a procedure which results in the imposition of a civil penalty. The civil fraud penalty has been described by the Supreme Court of the United States as an aid in the collection of the tax for the purpose of preventing fraud in the prepara-tion of returns and the payment of the tax. The civil fraud penalty for the most part is measured by the tax involved?
2. Q. How does civil fraud differ from crim-

inal fraud?

A. An action in criminal fraud is an action to punish for a criminal offense. A criminal penalty may be imposed only after charges are brought and a guilty plea is en-tered or a trial is held and a conviction of a misdemeanor or a felony and is measured by the degree of the offense.

3. Q. What is the penalty for criminal fraud?

A. The penalty for criminal fraud is a fine or imprisonment.

4. Q. What is the penalty for civil fraud?
A. The penalty is 50 percent of the amount of the tax owing or, in other words, 5. Q. For purposes of figuring the civil fraud, what constitutes a deficiency?

A. When a taxpayer's return is audited, any additional amounts found due constitute a deficiency.

6. What Find of items could be included in the makeup of a deficiency that would have no connection with fraud and would not be tainted with fraud in any way?

A. A taxpayer may make a full disclosure of all his income. His legal counsel and his accountant may well advise him that a particular transaction ought to be claimed as a capital gain and not as ordinary income. The Internal Revenue Service may determine that the particular transaction constitutes ordinary income and thus there is a deficiency in the payment. There isn't the slightest taint of fraud and the facts were fully disclosed and the taxpayer exercised his right to ask for such a determination.

Another example of a deficiency item which may have no fraud implication at all: A taxpayer knows that he has paid out certain sizable sums for business travel, entertainment and expenses. He claims them in his return. Upon audit, he does not have sufficient records to justify these expenses and they are disallowed. This adds materially to

his tax and it is a deficiency.

Another example of a deficiency item that need not be tainted with fraud could relate to stock options. In many instances there is no tax due when the stock option is exercised, but the tax is due when the stock is eventually sold. There are situations where a tax is due when the stock option is exercised. A taxpayer may disclose every detail of the transaction in his return and exercise his lawful right and ask for a determination of no tax due. The Internal Revenue Service may find that the tax is due upon the exercise of the option and the amount of the tax involved becomes a defi-

An example which relates to consolidated returns is discussed in the answer to Question 10.

7. Q. Is the penalty for civil fraud applied uniformly between taxpayers?

A. No. Two taxpayers may have the same amount of income and each be found to have been fraudulent in reference to items of equal amount and these two taxpayers received vastly different penalties.

8. Q. What are some examples that show

that fraud penalty is not applied uniformly.

A. Taxpayer "A" could not substantiate from records certain items of expense claimed and because he claimed a particular transaction as a capital gain instead of ordinary income he was assessed a deficiency of \$2,000. It is also found that taxpayer "A" failed to include in his return some interest that he received which resulted in a \$300 deficiency and the failure to include it was held to be fraudulent. The total amount of his income subject to tax including the deficiency items is \$10,000. Taxpayer "A" would have a penalty of 50% of \$2,000+300 or \$1,150.

Taxpayer "B" likewise has \$10,000 in in-

There are no non-fraudulent items questioned in his return but he, likewise, received some interest income which he did not report. The failure to report resulted in a \$300 deficiency and is determined to be fraudulent. Taxpayer "B" would be subject to a civil fraud penalty of \$150.

In the above two examples both taxpayers had the same income and were charged with fraudulently omitting the same amount from their returns, yet "A" has a penalty of \$1,150 and "B" has a penalty of only \$150.

9. Q. Can you give some other illustrations?

A. The accountant for taxpayer M made out M's tax return and made an accounting error which was audited resulting in a deficiency of \$4,000. It was also found that taxpayer M had outside earnings which he failed to report and which resulted ficiency and this failure was held to be fraudulent. M's civil fraud penalty would be 50 percent of \$4,000 plus \$400 or \$2,200. Tax-payer O has the same amount of income as taxpayer M but there were no errors in his return, but he, too, had received outside earnings which, he did not report which resulted in a \$400 deficiency and this was held to be fraudulent. Taxpayer O's civil fraud penalty was \$200.

Taxpayer X has a \$10,000 deficiency, \$500 of which results from a fraudulent omission from income and \$9,500 from an honestly held belief that a particular gift was a non-taxable gift, X will pay a \$5,000 fraud penalty; if Y on the other hand, has a \$3,000 deficiency, all of which results from a similar fraudulent omission, Y will pay a penalty of only \$1,500 under existing law.

10. Q. Do the problems in reference to the civil fraud penalty involve corporations as well as individuals?

A. Yes. The same civil fraud penalty sta-tute applies to all taxpayers. The problems illustrated by the foregoing examples could apply to a corporate taxpayer just as they are shown to apply to an individual taxpayer. There is an additional problem for corporations in reference to consolidated returns.

A consolidated return is a return where a parent corporation and its subsidiaries meet certain requirements and file a consolidated return for the entire corporate group. When this is done the problem relating civil fraud penalty may become much great-er. The following two examples, which have been provided to this writer, will illustrate how the law works in reference to a consolidated return.

EXAMPLE I

Corporation A is engaged in international operations. It has no subsidiaries and files a separate corporation income tax return. Officers of Corporation A paid officials of Country X \$100,000 in bribes in 1977. These illegal payments were deducted by Corporation A on its 1977 return. On audit, the Service disallowed the deduction in reliance upon section 162(c)(2) of the Code, resulting in a deficiency in tax of \$50,000. In addition, the Service determined that, the civil fraud penalty was applicable (\$6653(b)). Therefore, Corporation A's deficiency and penalty were as follows:

Deficiency	\$50, 000 25, 000
Total	\$75,000

EXAMPLE II

An affiliated group consisting of Corporation P (common parent) and controlled sub-sidiary corporations C, D, E, and F has elected to file a consolidated return. Officers of Corporation C paid officials of Country X \$100,000 in bribes in 1977. These illegal payments were reflected on the books of Corporation C as an expense and were deducted on the 1977 consolidated return filed by the affiliated group. On audit, the Service determined a total deficiency in tax on the part of the affiliated group in the amount of \$15,000,000. Of this total deficiency, \$50,000 was attributable to Corporation C resulting from the disallowance of the \$100,000 in illegal payments. The balance of the deficiency (\$14,500,000) resulted from adjustments to standard items attributable to Corporations D, E, F and P. In addition, the Service determined that the civil fraud penalty (§ 6653 (b)) was applicable. Under current Service policy, the civil fraud penalty is applied to the entire consolidated deficiency as follows: Deficiency _____ \$15,000,000 50% Civil Fraud Penalty_____ 7,500,000

_ \$22,500,000

Thus, as a result of being a member of an affiliated group joining in an election to file a consolidated return, the illegal payments made by one corporation resulted in a geometric escalation of the civil fraud penalty (i.e., by \$7,475,000).

11. Q. Can illustrations be cited showing how an individual with very moderate income might be adversely affected by the present application of the civil fraud penaltv?

A. Yes. The examples cited in answer to question No. 8 involving two taxpayers, each of whom has an income of \$10,000, certainly are examples of taxpayers who are not in the high income bracket.

Many other examples could be cited. Take

the case of a farmer who suffered a bad year due to loss of crops from drought and storms. After deducting his items of expense, his tax return shows he owes no tax. However, one of the deductions that he claimed was for improvements that he made which he listed as an expense, but upon audit of his return, this particular deduction was denied and the transaction held to be a capital ex-penditure resulting in a deficiency of \$1,000. Let us assume that he made a full disclosure of the transaction which the IRS held to be a capital expenditure instead of an ordinary expense. The taxpayer failed to re-port cash income from outside earnings and that this failure resulted in a deficiency of \$100 and was held to be fraudulent. amount of his civil penalty would be 50 per-cent of \$1,000 plus \$100 or \$550. This is more than five times the amount of the item

tainted with fraud.
12. Q. What is the answer to the taxpayer who says, "I pay my taxes and I fully report my income. I do not want the civil fraud penalty changed or lessened and have my taxes increased because somebody else

is not paying his full share?

A. The civil fraud penalty should not repealed. We should not make a change in reference to the civil fraud penalty that would encourage wrong-doing, and certainly where the facts warrant it, the criminal penalty should be imposed. It must be recognized, however, that our laws should treat all taxpayers equally and that the amount of the civil fraud penalty should reflect the magnitude of the fraud. Taxpayers who may be held to have frauduently failed to report the same amount of income should not receive vastly different treatment in the imposition of the civil fraud penalty because of circumstances in connection with their tax returns which have no relation to fraud.

13. Q. Is the present law in the best interest of the United States government and is it good tax administration?

A. No. The following comments from reputable tax lawyers illustrate the need for a change in the civil fraud penalty.

An authority on tax law from up-state New York writes as follows:

. . a penalty that operates in this manner impedes the settlement of tax cases. For instance, if a substantial deficiency has been proposed against a taxpayer, and only a small portion of it is attributable to fraud, and the balance of the deficiency is due to legal or technical adjustments that are susceptible to settlement, the taxpayer cannot settle the case without paying the fraud penalty on the total amount of the settlement deficiency. It has been my experience in this situation that the Agent or Appellate Conferee will not drop the fraud penalty, nor should he, since the taxpayer would not be penalized for a fraudulent transaction. Thus, both the Agent and the taxpayer's representative are faced with the dilemma of either compromising the nonfraudulent adjustment to take into account the amount of the fraud penalty on

the entire deficiency, or going to trial."

A tax lawyer in Massachusetts with experience in handling the government's side

of civil fraud cases, says:

"In my judgement, present law works against the government's own interest in tax fraud cases. When I prosecuted criminal tax fraud cases as an assistant United States Attorney, I recall several defendants who wanted to plead guilty, but upon learning that the 50 percent fraud penalty would subsequently be applied to the entire civil deficiency for the year to which they desired to plead guilty, put the government to the expense of a trial."

A Missouri lawyer with long experience has

this observation:

"If the proposed provision (see the answer to question 14) was passed, I believe the In-

ternal Revenue Service and the courts would be more inclined to assert and find fraud in such circumstances. The way it presently stands courts are reluctant to find fraud on a large deficiency while the fraud item was minor. It falls somewhat in the category of a statute which would provide for the death penalty in stealing \$10.00. While such a penalty may inhibit some from stealing \$10.00 it would also discourage juries from

finding thieves guilty of the minor offense."

14. Q. What is proposed in the way of change in reference to the civil fraud penalty?

A. The civil fraud penalty should be computed on the basis of the amount of the items that are tainted with fraud and it should not be computed on the total deficiency because that is placing a penalty upon the taxpayer who by happenstance has had included in his deficiency regular standard items which are not in any way tainted with fraud.

15. Q. What has the Tax Section of the American Bar Association recommended in reference to the civil fraud penalty?

A. Since 1971 the Tax Section of the American Bar Association has continued to recommend that the Congress change the present statute so that the civil fraud penalty will be applied only to those items that are de-termined to be fraudulent. The Bar Association recommendation is as follows:

Section 6653. The fifty percent fraud penalty should be based on only the portion of a deficiency resulting from fraud rather than on the total tax deficiency for the year. The taxpayer should, however, have the burden of proving the absence of fraud with respect to other items or adjustment if the Service

proves fraud with respect to any one item.

16. Q. Does this Bill S. , as the American Bar Association has recommended, apply the fraud penalty on only that portion of the

deficiency resulting from fraud?

A. This measure does provide as the American Bar Association recommended that the 50% fraud penalty should be based on only the portion of the deficiency resulting from fraud rather than on the total tax deficiency for the year. However, this proposal goes further and increases the civil fraud penalty percentage from 50% to 100%.

> By Mr. INOUYE (for himself and Mr. STEVENS):

S. 1595. A bill to provide for the designation of income tax payments to the U.S. Olympic Development Fund; to the Committee on Finance.

U.S. OLYMPIC DEVELOPMENT FUND CHECKOFF ACT OF 1981

• Mr. INOUYE. Mr. President, today Senator Stevens and I are reintroducing legislation that, if enacted, provides for a \$1 checkoff on future Federal income tax forms. The money collected would be used to enhance amateur sports for the citizens of this country by providing grants to existing programs and to create more innovative programs. The money would also be used to broaden and increase physical fitness opportunities for the handicapped, women, and minorities, as determined by a standing committee comprised of their representative from special interest organizations across the Nation.

There is a great need for the development of new athletic facilities in the United States. As of now, we have no speed skating or ice hockey rinks that meet international standards. We have no cyclist training facilities and only one bobsled course. Furthermore, only one official 400-meter track exists in the entire western Hemisphere.

Under our proposal, the money would be collected by means of a voluntary \$1 checkoff on income tax forms, similar to the Presidential campaign fund checkoff. Money raised would be directly transferred to the U.S. Olympic Committee, which would be responsible for appropriating funds to various sports. Approximately half of the revenues would be used as grants to the 32 sports governing bodies in the United States that coordinate efforts in each amateur sport. In addition, about a quarter of the funds would be earmarked toward improving amateur athletic facilities, 20 percent for enhancing training programs, and 5 percent for furthering sports medicine. Any surplus of funds would be used to rent school athletic facilities for summertime use by area residents.

The U.S. Olympic Committee would submit an annual report to the President's Council on Physical Fitness and Sports, with a breakdown of the previous year's expenditures and recommendations. The Council would then submit its own report to Congress, discussing the committee's report, and evaluating the effectiveness and usefulness of the program.

We would like to stress that through this method, Government can provide a vehicle through which the public can mandate whatever funds and support it feels our amateur athletic system war-

We feel that the time has come for this Congress to embrace its commitment to amateur athletics by initiating this long overdue effort to rejuvenate our sports facilities and programs. Other countries have done this, including the Soviet Union and the lesser developed nations. Now it is our turn.

In a recent letter, F. Don. Miller, the executive director of the U.S. Olympic Committee wrote that-

As a result of our nonparticipation in the 1980 Olympic Games in Moscow, public contributions were severely curtailed, leaving us with a deficit of nearly \$1.5 million. This, coupled with the increased budgetary requirements necessary to field what we know will be the best Olympic team in our history for the 1984 games in Los Angeles, requires that every effort must be made to seek new sources of income.

We urge our colleagues to give this important legislation their serious and favorable attention. Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1595

Be it enacted by the Senate and House of Revresentatives of the United States of America in Congress assembled, That this Act may be cited as the "United States Olympic Development Fund Checkoff Act of 1981".

SEC. 2. (a) With respect to each taxpayer's return for the taxable year of the tax imposed by chapter 1 of the Internal Revenue Code of 1954, such taxpayer may designate that either-

(1) \$1 of any overpayment of such tax for such taxable year, or

- (2) \$1 of any contribution which the taxpayer forwards in money with such return, be available to the United States Olympic Development Fund established by section 3 of
- (b) In the case of a joint return of husband and wife, each spouse may designate that \$1 be available to the fund under subsection (a).
- (c) Space shall be made available for the designations referred to in subsection (a) on the first page of the tax return forms for such tax.
- (d) For purposes of the Internal Revenue Code of 1954, any overpayment of tax designated under subsection (a) shall be treated as being refunded to the taxpayer as of the date prescribed for filing the return of such tax (disregarding any extension) or, if later, the date the return is filed.
- (e) This section shall apply to taxable years ending after the date of enactment of this Act.

SEC. 3. (a) There is hereby established on the books of the Treasury of the United States a special fund to be known as the "United States Olympic Development Fund". There is appropriated to the fund for each fiscal year, out of amounts in the general fund of the Treasury not otherwise appropriated, an amount equal to the amount designated during such fiscal year to be available to the fund under section 2 of this Act. The amounts appropriated by this subsection shall be transferred monthly to the fund by the Secretary of the Treasury.

- (b) The Secretary of the Treasury shall pay to the United States Olympic Committee each fiscal year an amount equal to the amounts transferred to the United States Olympic Development Fund under subsection (a) during that fiscal year.
- (c) The United States Olympic Committee shall use such funds to carry out a program for the expansion and improvement of amateur athletics in the United States so that all Americans (including women, minorities, the aged and the handicapped) are able to participate in athletic endeavors. Such funds shall remain available to the United States Olympic Committee without fiscal year limitation.
- (d) Within 120 days after the close of each fiscal year, the United States Olympic Committee shall submit a report to the President's Council on Physical Fitness and Sports with respect to the expenditure of funds made available under this section. Such report shall include, but not be limited to—
- a listing of the major programs with respect to which funds were expended during such fiscal year,
- (2) the amount of money, and percentage of total money available, expended on each such program during such fiscal year, and
- (3) any recommendations the United States Olympic Committee may have with respect to future expenditures of such funds.
- (e) Within 120 days after receipt of the report submitted under subsection (d), the President's Council on Physical Fitness and Sports shall prepare and submit to the Congress an evaluation of the effectiveness of the expenditure of funds by the United States Olympic Committee for the fiscal year covered by such report. Such report shall include recommendations deemed necessary by the Council with respect to the expenditures of funds by the United States Olympic Committee, including its recommendations with respect to the continuance, modification or discontinuance of the providing of funds to the United States Olympic Committee under this section.

By Mr. MATHIAS (by request): S. 1596. A bill to amend the act relating to the Commission of Fine Arts to provide for private donations; to the Committee on Rules and Administration.

PRIVATE DONATIONS TO COMMISSION OF FINE ARTS

• Mr. MATHIAS. Mr. President, I am introducing today a bill to authorize the Commission of Fine Arts, located here in the District of Columbia, to accept private donations of money to finance its activities. I ask unanimous consent that a letter from the Chairman of the Commission requesting this legislation and the rationale for it be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the Record, as follows:

THE COMMISSION OF FINE ARTS, Washington, D.C., May 15, 1981.

Hon. George Bush, President, U.S. Senate, Washington, D.C.

Washington, D.C.
DEAR MR. PRESIDENT: The Commission of Fine Arts would like to submit the attached draft legislative proposal for consideration. The purpose of the legislation is to provide the Commission authority to accept private donations of money to finance the activities of the Commission.

As you know, other government entities have been given similar authority which allows them to accomplish their public goals in a more effective manner by utilizing resources from the private sector. While the Commission of Fine Arts does not administer any grant programs directly related to the private sector and in fact administers programs affecting design and development of private projects within the National Capital, the ability of the Commission to receive such gifts is consistent with the Administration's desire to lessen the financial burden of government on the general public without compromising the Commission's effectiveness.

The Office of Management and Budget has advised that there is no objection from the standpoint of the Administration's program to the presentation of this legislative proposal to the Congress, and that its enactment would be consistent with the Administration's objectives.

Sincerely,

J. CARTER BROWN, Chairman.

By Mr. DOLE:

S. 1597. A bill to establish a Corporation for Prison Industries; to the Committee on the Judiciary.

CORPORATION FOR PRISON INDUSTRIES ACT OF 1981

Mr. DOLE. Mr. President, there has been an alarming increase in the incidence of violent crime in recent years. The Attorney General has expressed the administration's commitment to reducing and preventing this serious problem. The Members of the 97th Congress have made a strong effort to implement this policy-a number of legislative measures are already under consideration. The Senator from Kansas has sponsored a number of bills which will define new Federal criminal offenses, provide more severe penalties for certain existing criminal offenses, and reform certain procedural statutes.

Any truly effective program must also contain long-range initiatives which will reduce the motivation of individuals to commit violent crime and reduce the cost to society of penalizing and rehabilitating criminals. One such initiative is S. 186, which would provide funds for new prison construction. However, our efforts to reform our correctional system should not stop there.

Section 827 of the Justice System Improvement Act, Public Law 96-157. established congressional recognition of first, the desired linkage between public and private sector industry; second. the need to broaden the available market for the distribution and sale of prison-made goods and services; third, the need to insure that inmate workers in prison industries are not exploited: and fourth, the desire for prison industries to produce operating revenues sufficient to reduce the burden of costs to the taxpayer, provide wages and benefits to prison workers, and provide job training which will assist inmates in finding employment after their release.

The Senator from Kansas is proud to introduce a bill today to establish a Corporation for Prison Industries. This Corporation will be chartered as a nongovernment, nonprofit corporation which will continue the work begun by the Law Enforcement Assistance Administration to certify State prison industry projects. The Corporation will be responsible for administering a program of technical and financial assistance to State prison industry and private industry programs by utilizing a revolving fund account obtained from the private sector and from congressional appropriations administered by the Secretary of the Treasury. These prison industry projects will be exempted from Federal laws which constrain the interstate sale of prison-made goods and constrain the sale of prison-made goods to the Federal Government.

LEAA developed the first such prison industry program in 1975 in Connecticut when it initiated the free venture program as a model. Free venture was based on the belief that prisons could operate profitmaking business ventures which would provide inmates with realistic work habits and job skills. By 1978, LEAA had funded programs in six additional States, that is, Minnesota, Illinois, South Carolina, Iowa, Colorado, and Washington.

LEAA conducted a study of the seven prison industry programs and has documented the following favorable results:

First. Payment of the prevailing wage rate to inmates enables them to become taxpayers, and to contribute to the support of their families, their victims, and the correctional institutions in which they are housed;

Second. The operating costs for participating prison industries have been reduced;

Third. Participating institutions have reported more tranquil behavior and fewer disciplinary problems; A provisionally certified program has been established in the Kansas State Penitentiary. Last year, inmates paid the State of Kansas \$60,000 to defray the costs of their room and board, saved an average of \$2,500 per inmate for their own use, and provided sufficient financial assistance to their families so that some families were able to leave the public welfare rolls. There were no violence, work disruptions, or escape attempts at the prison industry plant which is located 40 miles from the penitentiary. One inmate said; "With the money I've got in my savings account, I can't afford to escape."

As a result of LEAA's certification, the Arizona Department of Corrections will now permit the Arizona corrections enterprises firm to operate a meat processing plant for the slaughter of pigs for pork. In Minnesota, the Control Data Corp. will operate a computer rotation memory disk driver assembly facility in the Stillwater prison.

The development of the Prison Industries Corporation will expand upon the fine effort made by the LEAA and will go far toward accomplishing the goals of our correctional institutions, insuring that criminals are rehabilitated so that they may one day reenter our society, and shifting the costs of crime away from the innocent taxpayers, victims, and families.

I recommend this legislation to my distinguished colleagues and urge their support of it.●

ADDITIONAL COSPONSORS

S. 464

At the request of Mr. Durenberger, the Senator from Rhode Island (Mr. Chafee) was added as a cosponsor of S. 464, a bill to amend the Internal Revenue Code of 1954 to adjust provisions governing private foundations.

S. 501

At the request of Mr. Moynihan, the Senator from New Jersey (Mr. Bradley) was added as a cosponsor of S. 501, a bill to amend the Internal Revenue Code of 1954 with respect to the amount which certain private foundations are required to distribute.

S. 604

At the request of Mr. Mathias, the Senator from Vermont (Mr. Leahy) was added as a cosponsor of S. 604, a bill to amend the Communications Act of 1934 to provide that telephone receivers may not be sold in interstate commerce unless they are manufactured in a manner which permits their use by persons with hearing impairments.

S. 895

At the request of Mr. Mathias, the Senator from Illinois (Mr. Dixon) was added as a cosponsor of S. 895, a bill to amend the Voting Rights Act of 1965 to extend certain provisions for an additional 10 years, to extend certain other provisions for an additional 7 years, and for other purposes.

S. 1215

At the request of Mr. Kasten, the Senator from Minnesota (Mr. Durenberger), and the Senator from Texas (Mr. Bentsen) were added as cosponsors of S. 1215, a bill to clarify the circumstances under which territorial provisions in licenses to distribute and sell trademarked mait beverage products are lawful under the antitrust laws.

S. 1448

At the request of Mr. MATHIAS, the Senator from Connecticut (Mr. Weicker), the Senator from Alabama (Mr. Denton), the Senator from South Carolina (Mr. Hollings), and the Senator from North Carolina (Mr. East) were added as cosponsors of S. 1448, a bill to provide for the issuance of a postage stamp to commemorate the '0th anniversary of the founding of the Girl Scouts of the United States of America.

S. 1450

At the request of Mr. Cannon, the Senator from Virginia (Mr. Warner), the Senator from Wisconsin (Mr. Kasten), the Senator from Nebraska (Mr. Exon), the Senator from Tennessee (Mr. Saster), the Senator from Arizona (Mr. DeConcini), and the Senator from Michigan (Mr. Riegle) were added as cosponsors of S. 1450, a bill to provide for the continued deregulation of the Nation's airlines, and for other purposes.

At the request of Mr. HATFIELD, the Senator from Utah (Mr. GARN), and the Senator from Rhode Island (Mr. PELL) were added as cosponsors of S. 1515, a bill to repeal Federal provisions of law establishing agricultural programs concerning the marketing of and price support for tobacco; to prohibit compacts among States for regulating tobacco production and commerce; to amend the Tobacco Inspection Act and the United States Warehouse Act to provide for the assessment of certain fees to cover the costs of inspecting, licensing, and other activities carried out under those acts; and to amend the Internal Revenue Code of 1954 to increase the tax on cigars and cigarettes.

SENATE JOINT RESOLUTION 76

At the request of Mr. RANDOLPH, the Senator from Colorado (Mr. HART) was added as a cosponsor of Senate Joint Resolution 76, a joint resolution providing for the commemoration of the 100th anniversary of the birth of Franklin Delano Roosevelt.

SENATE JOINT RESOLUTION 101

At the request of Mr. Dole, the Senator from Texas (Mr. Tower), and the Senator from Rhode Island (Mr. Chafee) were added as cosponsors of Senate Joint Resolution 101, a joint resolution designating "National High School Activities Week."

SENATE RESOLUTION 155

At the request of Mr. MOYNIHAN, the Senator from Idaho (Mr. SYMMS), the Senator from Oregon (Mr. HATFIELD), the Senator from Indiana (Mr. LUGAR), the Senator from New Mexico (Mr. SCHMITT), the Senator from Oregon (Mr.

PACKWOOD), the Senator from Utah (Mr. GARN), the Senator from Tennessee (Mr. BAKER), the Senator from New Mexico (Mr. LOMENICI), the Senator from Idaho (Mr. McClure), the Senator from Wisconsin (Mr. KASTEN), the Senator from New Jersey (Mr. BRADLEY), the Senator from Rhode Island (Mr. Pell), the Senator from New Jersey (Mr. WILLIAMS), the Senator from Massachusetts (Mr. Tsongas), the Senator from Michigan (Mr. RIEGLE), the Senator from Nevada (Mr. Cannon), the Senator from South Carolina (Mr. Hollings), the Senator from Kentucky (Mr. Huddleston), the Senator from Michigan (Mr. Levin), the Senator from Hawaii (Mr. MATSUNAGA), the Senator from Ohio (Mr. METZEN-BAUM), the Senator from Montana (Mr. MELCHER), the Senator from California (Mr. HAYAKAWA), the Senator from Maryland (Mr. Sarbanes), and the Sen-ator from New York (Mr. D'AMATO) were added as cosponsors of Senate Resolution 155, a resolution saluting the 50th anniversary of Radio City Music Hall.

AMENDMENTS SUBMITTED FOR PRINTING

PRICE SUPPORT AND PRODUCTION INCENTIVES FOR FARMERS

AMENDMENT NOS, 528 AND 529

(Ordered to be printed and to lie on the table.)

Mr. EAGLETON submitted two amendments intended to be proposed by him to the bill (S. 884) to revise and extend programs to provide price support and production incentives for farmers to assure an abundance of food and fiber, and for other purposes.

TOBACCO PROGRAM ADJUSTMENTS

Mr. EAGLETON. Mr. President, today I am submitting two amendments to S. 884, the 1981 farm bill. The first will stimulate the export of American to-bacco by providing the Secretary of Agriculture the authority to adjust the price support for grades of tobacco that are noncompetitive in the world market and save the Government substantial outlays that are likely to occur in the future unless price support changes are made. The second amendment will cut the cost of production for many farmers by removing tobacco allotments from the control of nonfarming corporations and nonproducers and turning them over to the tobacco producers who have been leasing those allotments.

This legislation comes at an important time. Those of us who are interested in the future of American agriculture must examine ways to strengthen Federal farm programs in a manner that meets the fiscal stringencies of the day. It is with that spirit that I subject these amendments which I believe should be made a part of the omnibus farm legislation, S. 884, which the Congress will consider in the near future.

Mr. President, I would like to share my views on this legislation in considerable detail. My first amendment will provide the Secretary of Agriculture with the authority to adjust price supports on grades of tobacco that are noncompetitive in the world market. The Secretary would not, though, have authority to reduce the support levels below the cost of production.

There are two ways to effectively measure the impact of our ability to compete. One is through changes in our share of the world market; the other is through growth in imports here at home.

Mr. President, I ask unanimous consent that a table showing exports and U.S. market share of unmanufactured flue-cured tobacco be entered in the Record at this point.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

TABLE 1.—EXPÔRTS AND U.S. MARKET SHARE OF UNMANU-FACTURED TOBACCO, FLUE CURED

[In millions of pounds]

	World total	United States	States as percent of total
Average: 1955-59 1960-64 1966 1967 1968 1969 1970 1971 1971 1972 1973 1974 1975 1976 1977 1977 1978	683 7772 710 750 845 797 831 1, 046 1, 088 1, 232 1, 199 1, 198 1, 229 1, 399 1, 306	413 397 423 427 444 430 368 342 425 418 441 391 391 399 412 455 371	60 52 60 57 56 51 46 41 41 41 38 36 33 32 34 35 34

Source: U.S. De, artment of Agriculture.

Mr. EAGLETON. Mr. President, as we can see from examining this table, the U.S. share of the world market has slipped from 60 percent in the late 1950's to 28 percent in 1979. Our slippage, by the way, came when the world market for tobacco was doubling from 683 million pounds to 1,306 million pounds.

Almost as dramatic as the slippage in our export market has been the increase in imports. In 1969, we imported 159.1 million pounds of tobacco. In 1979, 10 years later, imports almost doubled to 313.6 million pounds. Mr. President, I ask unanimous consent that a table depicting U.S. imports of unmanufactured tobacco be entered into the Record at this point.

There being no objection, the table was ordered to be printed in the RECORD at this point:

TABLE 2.—U.S. IMPORTS OF UNMANUFACTURED TOBACCO FOR CONSUMPTION, AND GENERAL, PRINCIPAL CATEGORIES AND COUNTRIES OF ORIGIN
[In millions of pounds]

A SHEET WAS DEED	1969	1970	1971	1972	1973	1974	1975	1976	1977	1978	1979

1 Revised; classification change in January 1977 shifted most imports from cigar tobacco to other tobacco category affecting scrap category. Source: "Tobacco Situation," March 1970 through March 1980.

Mr. EAGLETON. Mr. President, we must acknowledge that our lack of competitiveness is caused by Government policy—the franchising of the right to grow tobacco through allotments and high price supports which discourages maximum exports while encouraging imports. To quote from a letter I received from Everett Rank, Administrator of the Agricultural Stabilization and Conservation Service:

U.S. prices to a large extent are determined by the legislated support formula. So long as U.S. tobacco remains out of line price wise with foreign tobacco of comparable quality, our share of world exports can be expected to continue to decline and pressure from imports to increase.

Our inability to meet the tests of the world market are contributing to a crisis that will lead to massive Federal costs for the tobacco program. As of December 31, 1980, over 595 million pounds of tobacco were in quasi-Government stocks at flue-cured tobacco stabilization corporation facilities in the flue-cured region. These stocks involved Federal Government outlays of \$981 million, including \$786 million in principal, the remainder being in interest and insurance costs. These outlavs involve loans that previously we could anticipate would be repaid.

Unfortunately, the Department of Agriculture no longer is convinced that these loans will be repaid. In testimony before the U.S. International Trade Commission on June 23, an Associate Administrator of the Agricultural Stabilization and Conservation Service (ASCS)

said that the Federal Government would lose \$123 million on the 1975–80 crops of flue-cured tobacco because of imports. The administration further claimed that it could lose about \$100–\$150 million on the 1981–85 flue-cured crops. These losses assume an important displacement factor of 38 percent which indicates that eventual total losses to the Federal Government could run three times or over \$750 million

My second amendment is aimed specifically at cutting the cost of production for many farmers. As my colleagues know, the key to the tobacco program is the allotment system. These allotments, which are based on the historical production patterns of the 1930's, were established to stabilize production and consequently to stabilize prices for farmers producing tobacco.

Since the 1930's, ownership patterns of farmland have changed dramatically. Much land which has a tobacco allotment no longer is owned by tobacco producers or any type of farmer. Doctors, lawyers, other professionals with rural residences, and major corporations including Weyerhauser, International Paper, Carolina Power & Light, and Texas Gulf, for example, control thousands of acres of farmland with tobacco allotments on them. These individuals and corporations in turn lease their allotments to tobacco farmers at rates as high as \$1,000 per acre.

So what had begun as a program to protect the income of tobacco producers has also led indirectly and, I believe, unintentionally to a program which is driving up the cost of producing tobacco for many farmers.

My second amendment addresses this issue directly. It returns the allotments now controlled by the nonfarmer to the tobacco producers who are currently leasing the land from nonfarmers. At the same time, the amendment reserves 10 percent of the allotments which would be reallocated under the amendment for new tobacco farms. The amendment will not affect family farm corporations nor family farmers who earn more than 50 percent of their income from farm sources and who have elected to lease their tobacco allotment. They will be able to maintain their allotment so if they should decide to return to tobacco production in the future, their allotment will still be in their control.

Simply put, this amendment returns the program and the program's benefits to the tobacco producers for whom it was established.

Mr. President, the tobacco farmer is the loser with continuation of the status quo. Unless program changes are made, the Secretary has no choice but to try to control program costs by limiting production. And as the number of allotments allowed to produce are decreased, the cost of leasing those allotments from nonproducers is likely to increase.

It is clear to me that changes are necessary. Our farmers will benefit from these changes as will our exports.

I thank the Chair and ask unanimous consent that the amendments be printed in the RECORD.

There being no objection, the amend-

ments were ordered to be printed in the RECORD, as follows:

AMENDMENT No. 528

On page 235, between lines 17 and 18, insert the collowing new section:

AUTHORITY OF SECRETARY OF AGRICULTURE TO ADJUST THE PRICE SUPPORT OF CERTAIN KINDS AND TYPES OF TOBACCO

SEC. 1112. The Agricultural Act of 1949 is amended by adding after section 106 the fol-

lowing new section:

"SEC. 106A. Notwithstanding any other provision of law, whenever the Secretary de-termines that a kind, type or grade of tobacco for which marketing quotas are in effect or have not been disapproved by producers will be in excess domestic supply or will be noncompetitive in the world market if the price support level for any crop of such kind, type or grade of tobacco is established in accordance with section 106 of this Act, the Secretary may establish the price support level for such crop of such kind, type or grade of tobacco for that crop year without regard to the provisions of section 106, except that the Secretary may not establish a price support level under this section for any crop of any kind, type or grade of tobacco below the level of the adjusted cost of production. The adjusted cost of production shall be determined on the basis of such information as the Secretary finds necessary or appropriate for the purpose and shall not include (1) costs of purchasing or leasing land, (2) costs of leasing marketing quotas or (3) management costs.

AMENDMENT No. 529

On page 235, between lines 17 and 18, insert the following new section:

PROHIBITION AGAINST CORPORATE OWNERSHIP OF TOBACCO ACREAGE ALLOTMENTS

Sec. . (a) The Agricultural Adjustment Act of 1938 is amended by adding after section 320 the following new section:

"PROHIBITION AGAINST CORPORATE CONTROL OF ACREAGE ALLOTMENTS; RESTRICTIONS ON SALE AND LEASE OF ALLOTMENTS

"Sec. 320A. (a) (1) The Congress finds that the legislative findings expressed in section 311 of this Act are still valid and reaffirms

such findings.

"(2) The Congress further finds that there has been a proliferation of nonproducer ownership of tobacco acreage allotments and that the high cost to the lessees of such allotments has contributed to high production costs for producers and made certain kinds and types of tobacco produced in the United

States noncompetitive in the world markets.

"(3) The Congress further finds that in order to carry out the original purpose of the program provided for in this part it is necessary to make farms owned or controlled by corporations ineligible for tobacco farm acreage allotments under this Act and to provide for the making of tobacco acreage allotments to certain producers who have been leasing tobacco acreage allotments.

"(b) (1) Notwithstanding any other provision of law and subject to the provisions of paragraph (4), beginning with the 1982 crop of tobacco (A) no tobacco acreage altotment may be made for any land owned or controlled by a corporation, and (B) no tobacco marketing quota, tobacco acreage poundage, or tobacco poundage marketing quota may be allotted or assigned to any such land or any corporation.

"(2) Subject to the provisions of paragraph (4), effective beginning with the 1982 crop of tobacco, the Secretary shall allot to each producer who leased a tobacco acreage allotment for the 1981 crop of tobacco from a corporation a tobacco acreage allotment equal to 90 percent of the allotment so leased by such producer.

"(3) Subject to the provisions of paragraph (4), an acreage equal to 10 percent of total acreage allother is small or containing in 1981 by corporations shall be reserved by the Secretary for allocation to new farms. Any such acreage not needed under this paragraph for new farms may be used by the Secretary to make adjustments in allotments to correct inequities that may result in the making of allotments under paragraph (2).

"(4) In any case in which an acreage allotment referred to in paragraph (1) was leased before July 1, 1981, by a corporation and was leased for one or more crop years beyond the 1981 crop year, the provisions of paragraphs (1), (2), and (3) shall not operate with respect to such acreage allotment until the end of the crop year covered by the lease.

"(5) An acreage allotment made under paragraph (1) to any producer may not be leased or transferred by such producer and shall be lost if not planted for production by such producer for two consecutive crop years.

"(c) The tobacco farm acreage allotment of any farm owned or controlled by any person, other than a corporation, who derives more than one-half of such person's income from nonfarming sources, as determined by the Secretary, and who has not planted such allotment in two of any three consecutive crop years beginning with the 1980 crop year shall lost such allotment. Acreage lost by producers under this subsection shall be reallocated to the producers to whom it was most recently leased or, if not leased within the three previous crop years, be reallocated among producers in such manner as the Secretary determines equitable, except that 10 per centum of the acreage shall be reserved for allocation to new farms. The provisions of paragraph (5) shall apply in the case of tobacco acreage allotments reallo-cated under this subsection.

"(d) The Secretary shall prescribe such regulations as he considers necessary for carrying out the provisions of this section.

"(e) As used in this section, the term 'corporation' means a corporation, partnership, association, or other business entity, but such term does not mean a business entity composed of one or more individuals who are engaged in farming and who produce tobacco on the tobacco acreage allotments controlled by the business entity."

SENATE CONCURRENT RESOLUTION 29—CONCURRENT RESOLUTION D'SAPPOVING CERTAIN COAST AL ZONE MANAGEMENT REGULA-TIONS

Mr. HOLLINGS (for himself and Mr. WEICKER) submitted the following concurrent resolution; which was referred to the Committee on Commerce, Science, and Transportation:

S. CON. RES. 29

Resolved by the Senate (the House of Representatives concurring), That the Congress disapproves the final rule promulgated by the Secretary of Commerce dealing with the matter of the Federal consistency provisions of section 307(c)(1) of the Coastal Zone Management Act of 1972, as amended (16 U.S.C. 1456), which final rule was submitted to the Congress on July 14, 1981.

• Mr. HOLLINGS. Mr. President. I am today submitting a concurrent resolution to disapprove the final regulations recently promulgated by the Secretary of Commerce pertaining to certain Federal consistency provisions of the Coastal Zone Management Act of 1972, as amended. The Federal consistency provisions are the very heart of the Coastal Zone Management Act, and the embodiment of the rights of the coastal States

to have some control over Federal actions in their coastal jurisdictions. It is through the Federal consistency provisions, under section 30% of this act that we have returned authority to the States, and this is exactly the purpose for which these provisions were intended.

the new regulations, which were published in the Federal Register on July 14, 1981, fly in the face of the intent of the law and the legislative history governing the proper interpretation of the provisions. According to the new regulations, the administration will no longer consider activities routinely taken in preparation for an offshore oil lease sale to be activities which directly affect the coastal zone. This action, if permitted to stand, will make it unnecessary for the Federal Government to conform its prelease offshore oil drilling activities to the legitimate concerns of State governments as laid out in their respective coastal zone management programs. In fact, just the opposite was intended by section 307(c)(1), as is clear from the legislative history.

The process that brought about these regulations is a study in deep bias against the rights of coastal States. Some 71 comments were received by the administration as the regulations were con-

sidered.
Fully 51 of these were negative, and included the protests of 16 coastal States and 12 local governments, not to mention the negative comments from affected interest group. Almost all of the favorable responses emanated from members of the oil industry. The resulting regulations do not speak, then, of an objective, evenhanded public process being followed, and the regulations cannot be seen as good and reasonable pub-

lic policy. Extensive hearings were held last year on amendments to the Coastal Zone Management Act. We considered the complaint of the oil companies that compliance with Federal consistency requirements delayed leasing activities. We found no evidence to support this contention, and it is a matter of public record on the hearing transcript before the Committee on Commerce, Science, and Transportation. We found instead that Federal consistency provisions were working well throughout the country and fostering healthy Federal-State cooperation, which is what was intended. Potential problems were identified and worked out ahead of time, in a reasonable fashion. And we did not see the delays that are now being perpetrated as a result of the lawsuits being filed over this matter.

The State of California recently sued the Federal Government over the new regulations. On July 27, 1981, the U.S. district court upheld California's position under the Federal consistency provis'ons. The State of North Carolina has sued the Department of the Interior in a similar dispute regarding lease sale No. 56, and was joined last week by my own State of South Carolina.

This is indeed a ludicrous situation. Here we have the very provisions that are responsible for returning Federal authority to the coastal States—the very essence of States rights—being fought

and subverted by the very individual in the administration who is most closely identified with the Sage Brush Rebellion involving issues of State authority over the Federal Government, Secretary of the Interior James Watt

the Interior James Watt.

Not only is Secretary Watt seeking to undermine and gut States' rights by his pressure to rewrite the Federal consistency regulations, and his refusal to cooperate with coastal States on lease sale activities, but he is actually causing a greater delay by trampling on the authority of the States and inviting these lawsuits. This position is philosophically contrary to the oft-repeated position of this administration to return authority to the States.

The concurrent resolution which I am submitting today is intended to maintain the integrity of the Coastal Zone Management Act and the rights of the coastal States thereunder. I urge my colleagues to join me in this effort to maintain a voice for coastal State and local governments in issues that vitally affect their interests and to provide for a balanced and necessary offshore oil leasing program that is not wracked by further unwarranted delay.

NOTICES OF HEARINGS

SELECT COMMITTEE ON INDIAN AFFAIRS

Mr. COHEN. Mr. President, I would like to announce for the information of the Senate and the public, the scheduling of a public field hearing before the Select Committee on Indian Affairs, chaired by Senator John Melcher.

The hearing is scheduled for August 19, 1981, beginning at 2 p.m. in the Post Office Building, room 210, 215 First Avenue North, Great Falls, Mont. 59401. Testimony is invited regarding the irregularity in the movement of oil from the Blackfeet Indian Reservation.

For further information regarding the hearing, you may wish to contact Max Richtman of the committee staff on 224–2251. Those wishing to testify or who wish to submit a written statement for the hearing record should write to the Select Committee on Indian Affairs, U.S. Senate, Washington, D.C. 20510.

ADDITIONAL STATEMENTS

TRIBUTE TO SENATOR ROTH

Mr. BIDEN. Mr. President, although I disagree with the basic premise underlying so-called supplyside economics, to-day's historic passage of the tax bill conference report does not diminish my admiration for the central role played in this victory by the senior Senator from my State of Delaware, BILL ROTH.

Senator ROTH has been the prime

Senator Roth has been the prime mover behind this tax bill, showing great determination in promoting his economic theory. The senior Senator from Delaware richly deserves congratulations for succeeding in his long fight.

Although I still do not agree with the economic premise on which this tax bill is based, it is my sincere hope that it succeeds as intended so that all Americans may benefit.

MR. McNAMARA AND THE FOREIGN AID QUAGMIRE

• Mr. MOYNIHAN. Mr. President, on July 29, 1981, there appeared a piece by Roger Cochetti in the Washington Star entitled "Mr. McNamara and the Foreign Aid Quagmire." Its subject was the constituency of foreign aid, and how in the past decade public support for American aid abroad has fallen.

The constituency of foreign aid, as Mr. Cochetti notes, has always included disparate groups frequently working at cross purposes with one another. The result has been that support for American participation in multilateral lending institutions like the World Bank continues to decline.

The fall of public and congressional support for the World Bank is something that Robert McNamara can well attest. Indeed, in reviewing Bob McNamara's tenure as President of the World Bank, from which he retired on June 30, 1981, it sometimes seems as if he has been a constituency of one.

He has had to struggle against overwhelming odds. In the United States, he has faced opposition from a wide array of political and economic groups with little inclination to taking the long and broader view of things—little inclination to understanding, we might say, the objective requirements of enlightened selfinterest.

Of the three constituencies for foreign aid identified by Mr. Cochetti, only one—the constituency of compassion—regularly identifies itself with and supports the activities of the multilateral lending agencies. The support of the other constituencies—of conflict and of commerce—has at best been episodic. It threatens now to vanish altogether.

The challenge that Bob McNamara faced in attempting to garner continued American support for the activities of the International Bank of Reconstruction and Development—the full name of the World Bank—was as nothing compared with the pressing problems of world poverty and underdevelopment that the Bank has daily had to address under his leadership.

The scope of the developing world's economic and political difficulties is staggering. There have been, it is true, some success stories. A host of "newly industrializing countries" or NIC's have shown the extraordinary results that a commitment to private enterprise can bring.

The combined GNP of the NIC's is now five times greater than what it was in 1950; and it is not a coincidence that they have been able to grow so quickly and so successfully because of their close ties to the industrial democracies.

But much of their growth would have been far more difficult had it not been for the constructive activities of the World Bank.

Elsewhere the situation of the poorest countries became worse during the 1970's—a fact due largely to the tremendous burdens they had to bear from multiple oil shocks. In much of the Fourth World growth rates slowed down to a mere trickle. Yet without the World Bank and its soft-loan arm—the Inter-

national Development Association—the fate of the poorest of mankind would have been far worse.

Under Bob McNamara's guidance the World Bank increasingly came round to the view that the commitment to economic development requires the world reduction of poverty, and he devoted his efforts and the efforts of his organization to that end.

But it is a great mistake to see the driving passion behind this aspiration to have been basically redistributive. In the great age of optimism about the possibilities of economic development that existed in the 1950's and 1960's, it was thought that economic development was a matter of creating the economic infrastructure—the roads, the dams, the communications facilities—that would make possible the "take-off" into economic growth. Bob McNamara changed our view of this matter.

He saw, I think correctly, that investment in economic infrastructure was a necessary but not sufficient condition of economic development.

Equally important were the investments in human development, which contributed not only to the immediate relief of man's estate but which also turned out to be surprisingly productive.

The World Bank still contributes to both and still thinks both are necessary; yet as a financial institution the Bank, under Mr. McNamara's leadership, saw that it could serve the traditional goal of economic development by devoting many of its activities to human development.

The new direction Robert MtNamara gave the Bank has proven to be surprisingly successful. The rates of return on primary education expenditure, the Bank's "World Development Report" for 1980 noted, have been as high as 27 percent for the low-income countries and those with low literacy rates.

In certain sectors, like farming, the Bank has found that education and productivity have a close relationship with one another.

Farmers with at least 4 years of primary education tend to produce about 13 percent more than farmers with no education at all. The appalling conditions of human ignorance and disease that exist in so many of the world's poorest countries do not make a fertile ground for economic growth.

While others before Mr. McNamara saw an unceasing conflict between equity and efficiency, he saw that securing the former was in many instances an indispensable way station to the achievement of the latter. This was a remarkable thought—one that our experience tends increasingly to bear out.

Bob McNamara and I came to Washington together in 1961; and I have consequently had the opportunity in the past two decades to observe his work. Perhaps what is most remarkable about his career of public service—from his arrival at the Department of Defense to his long years of service on the World Bank—was the benetrating honesty and intelligence that he brought to all his

He has that rarest of things in our town—an open mind, and he has not been afraid to change it. At the World Bank, his compassion for the world's poor was unlimited, yet he retained in an arena where rhetorit and exaggeration abound his intelligence, his sobriety, and his commonsense.

The departure of Mr. McNamara from the World Bank is not a time for celebration; we will miss him too dearly for that. And the problems of the world's poor are too pressing and too awesome for us to entertain much hope that the work of his successor, Mr. A. W. Clausen, will be anything but a fierce battle to hold back the relentless tide of human misery in the world, or that the result will be anything but a slight aggregate improvement to the human condition.

Yet success in political life is not measured—should not be, at least—by impossible yardsticks that are good for nothing but condemnation. Reckoned by a different yardstick—that of the possible—Bob McNamara's contribution was profound.

It will be felt by many who do not know his name and never will, and it will be felt when he and I have long gone from this Earth. Few men deserve such praise. But then of few men can it truly be said that the world would have been a far worse place without their presence. It can be said of Bob McNamara.

Mr. President, I ask that Mr. Cochetti's article be printed in the RECORD.

The article follows:

[From the Washington Star, July 29, 1981]
MR. McNamara and the Foreign-Am
Quagmire

(By Roger Cochetti)

The recent retirement of World Bank President Robert McNamara raises numerous questions about the viability of U.S. participation in the bank in particular, and the future of America's foreign aid effort more generally

generally.

As Mr. McNamara points out, the U.S. foreign aid effort has been declining by almost any measure, and the prospects are that it will continue to do so. To the extent that a diminished U.S. effort to promote economic growth in developing nations damages our foreign relations, our own economic prospects, and our nation's sense of moral direction, it is important to understand why the decline takes place at all.

President Reagan has proposed that the Congress provide about \$1.7 billion in U.S. contributions to multilateral development efforts and \$2 billion in bilateral development assistance for the coming fiscal year, as well as about \$1.2 billion in food aid. (These gross figures, before receipts are factored in, compare with about \$4.3 billion in security assistance and about \$13 billion in military sales trust fund authorities).

While these amounts are modest compared with the needs or the relative efforts of other industrial countries, even they are likely to be substantially reduced by the time of final Congressional action. Thus, Mr. McNamara's frustration is understandable.

In fact, however, given the state of public support for foreign assistance, it is mildly surprising that even these amounts continue to be approved. For the fact is that foreign assistance, unlike any other federal program of its size lacks a strong and coherent behavior

assistance, unlike any other federal program of its size, lacks a strong and coherent lobby. Many politicians mistake the absence of a coherent foreign-aid lobby for the absence of a constituency for aid. Nothing could be further from the truth. The constituency is large, and it is growing.

large, and it is growing.

But its growth has, in some respects, been one of its weaknesses. The aid constituency is, in fact, three separate—and quite different—constituencies, each at odds with the other over the purpose and direction of American foreign assistance, and each skentical of the other's motives.

The constituency of conflict is perhaps the oldest and yet least organized of the three. It is made up of politicians, diplomats, commentators, academics, and citizens who view foreign aid as a means through which we can manage our conflict with the Soviets. This constituency is related to the larger constituency for military spending and it has quietly grown since the taking of the American hostages in Iran in 1979. It will support increases in military assistance and aid to countries that face a Soviet-inspired threat.

The constituency of compassion, similarly, has roots that go back to World War II. Made up largely of religious, civic, labor, and environmental groups, it is large and only partially organized. Such foreign aid supporters view the programs as a means through which America helps the poor, the starving, and the disadvantaged in other countries. They will support humanitarian assistance that is directed towards the genuinely needy.

that is directed towards the genuinely needy. The constituency of commerce grows out of America's rapidly increasing economic ties with the developing world. This group consists largely of agricultural, manufacturing, and financial concerns, and it sees foreign assistance as a means through which the government can stimulate exports markets and improve investment climates. It is well organized, and will back aid that complements the private sector and is targeted towards countries with a near-term potential for growth.

In addition to these three main constituencies, there are many organizations and individuals with a specific concern for an issue, a nation, or a program

WHY THEY FAIL

One might ask, as I am sure Mr. McNamara has, why with all this support, foreign aid programs are constantly on the verge of extinction? The answer is in two parts: First, no single constituency either has the clout, or is prepared to use it if they do, to sell the entire program to the public and the Congress. And second, not all foreign aid programs are in such deep trouble, only those that do not have a strong and coherent constituency behind them (military assistance, food aid, and refugee assistance do not face serious problems, for example).

Thus, Mr. McNamara's disappointment on leaving office is well founded. It will be a major challenge to his successor, to the Reagan administration, and to all concerned with the future of the developing nations to bring this nation out of the quagmire.

IMPACT OF FEDERAL WORKERS' COMPENSATION ACT ON AGRICULTURAL EXPORTS

Mr. JEPSEN. Mr. President, the Federal Workers' Compensation Act has a big impact on our agricultural exports.

While the program worked reasonably well into the early seventies, it has now soared out of control. Increased cost in the program means increased costs in marketing and exporting agricultural commodities.

Mr. C. H. Fields recently wrote an article which appeared in the July 27, 1981, issue of the Farm Bureau News dealing with this problem. Mr. President, I ask that this article be reprinted in

the Record in full so that my colleagues might have a chance to understand the implications of the Federal compensation law.

The article follows:

AGRICULTURE WAS A VITAL STAKE IN REFORM OF FEDERAL MARITIME WORKERS' COMP. LAW

(By C. H. Fields)

For many years Farm Bureau has resisted efforts by the union movement to federalize the state workers' compensation program. It prefers to leave this protection for workers injured on jobs to the individual states. In terms of political philosophy, we knew we were on solid ground. Now, we can point to the only workers' compensation program operated and controlled by the federal government and prove how right we were in actual practice.

Back in 1927, the Congress enacted the Longshoremen's and Harbor Workers' Compensation Act and assigned its administration to the Department of Labor. It was designed to provide equitable compensation for work-related injuries to certain employees in maritime activities who could not be covered by state compensation laws, because of employment involving navigable waters, which are not under the jurisdiction of any one state. Similarly, the employees of the District of Columbia, which is not a state, were brought under the same Act.

1972 AMENDMENTS

It worked reasonably well until 1972 when Congress adopted a series of amendments to the Act. This action was taken supposedly for the purpose of increasing benefits to adequate levels, extending coverage to over-thewater workers who also work on land, improving administration, eliminating "third party" suits based on the admiralty doctrine of "unseaworthiness," prohibiting indemnification agreements between the owners of vessels and employers and creating a model and uniform compensation act that states could emulate.

But, let's look at what really happened! The Act's jurisdiction has been extended steadily landward, through interpretations of the Labor Department and several court rulings, to include workers already covered under state laws and working at jobs remote from navigable waters and maritime activity. In addition, the 1972 amendments established a benefits structure that caused benefits to soar. The program moved into life insurance, pension and other supplemental income provisions, creating distortions and abuse of the law, plus incentives to stay off the job. Benefits are ordered to be paid even in cases where employees continue to work at full wages or more. Death benefits must be paid whether or not the death is jobrelated.

Employee utilization of the program increased 185 percent in the first five years after the 1972 amendments were added. The soaring costs of the program are borne entirely by employers of the ever-widening jurisdiction of the Act. In New York, the current cost per covered employee is \$21.000, or about 75 percent of the wage cost. Compare that cost in New York to state coverage for a nonlongshoremen freight handling worker at \$3.370, \$1.042 for a police officer, \$1.254 for a fireman. Employer rates under the federal act for U.S. stevedores at Atlantic and Great Lakes ports vary from \$25 to \$87 per \$100 of payroll, while the Canadian rates are only \$2.50 to \$13.

AGRICULTURE'S INTEREST

Are you asking yourself, "What does all this have to do with farmers and agriculture?" Well, this federal workers' compensation act has a direct impact on agricultural exports and on the operations of aquacultural producers. Farm Bureau made it clear that agriculture has a vital stake in the reform of the Act in a July 20 statement presented to the

Senate Labor Committee.

"This Act is being interpreted by the Department of Labor to cover workers engaged in the cultivation and harvesting of shelifish, particularly the operations on the West Coast, where the tideland areas are very wide and the breeding and cultivation of shellifish has become an important segment of the food industry . . The exorbitant cost of double coverage under the Act as well as under a state act, and the difficulty of finding insurance carriers willing to oner coverage under the federal act are the basis for this concern."

IMPACT ON EXPORTS

The Longshoremen's Act also constitutes an important cost factor in the export marketing of agricultural commodities, such as grains. Costs are incurred when exporting companies or cooperatives employ the services of stevedoring companies to load the grain or other agricultural commodities onto ships in ocean ports or onto barges on the nation's navigable rivers. These costs usually are borne by producers in the form of lower prices for their commodities.

The Act cost is a proven culprit in the current weakened position U.S. producers have in foreign markets for agricultural products. The cost for workers compensation under the federal Act can run as high as 25 percent of the wholesale price of commodities, such as apples, that require careful handling. The exorbitant U.S. cost of coverage under the Act has created a bonanza for the neighboring ports of Canada, where compensation costs are only a small fraction of U.S. costs.

NICKLES-NUNN-ERLENBORN BILLS

Following several years of clamoring for reform by the maritime and insurance industries, Congress appears to be moving with legislation to reform the Act.

S. 1182, whose chief cosponsors are Sen. Nickles (R., Okla.) and Sen. Nunn (D., Ga.), and H.R. 25, introduced by Rep. Erlenborn (R., Ill.) are bills to clarify the Act's jurisdiction, exempt from coverage any workers that can be covered by a state act and bring benefits back in line with similar state laws. Farm Bureau strongly supports enactment

Farm Bureau strongly supports enactment of this legislation. However, it has called for clarifying language in the exemption section to cover nonvessel structures used by the shellfish producers on the West Coast.

Markup on the Senate bill is expected soon after Congress returns from its August recess. A Senate Labor Subcommittee, chaired by Sen. Nickles, has concluded public hearings on the legislation.

Besides Farm Bureau, some 55 other groups and companies are committed to achieving major reform of the Longshore Act. They represent a broad range of employer interests in agriculture, shipbuilding and maritime industries, stevedoring companies, insurance carriers and others.

We can all say a prayer of thanks that we have been able to prevent Congress from federalizing all state workers' compensation laws. The Longshore Act is so bad that even the Washington, D.C., City Council has voted to pull out of the federal program and to enact its own workers' compensation law.

KENT ISLAND'S 350TH ANNIVERSARY

• Mr. SARBANFS. Mr. President. in 2 weeks the Kent Island Heritage Society will commemorate an event of significant importance for the State of Maryland: The 350th anniversary of the first English settlement within the boundaries of the State of Maryland. In celebration of this occasion the Kent Island Heritage Society will sponsor a celebration on August 14, 15, and 16.

Not only is this event of historical im-

Not only is this event of historical importance to the State of Maryland, but the settlement of Kent Island is of nationwide importance. After the establishment of the Jamestown Colony in 1607 and the Plymouth Colony in 1620, the Kent Island settlement marks one of the earliest permanent settlements in the original 13 colonies.

The Kent Island Heritage Society has established, through historical research, many "firsts" for Kent Island in Maryland's history including among others, the First English settlement established by William Claiborne; the first boatyard and consequently the first boat, a pinnace "The Longtayle"; the first church and the first courthouse.

The citizens of Maryland take great pride in the fact that our State was one of the Original Thirteen Colonies and that the shores of the Chesapeake Bay served as the first settlement for some of the very early colonialists, including William Claiborne, who established a settlement on Kent Island in August 1631.

A very fine article appeared in the Bay Times of April 22, 1981, recounting the founding of Maryland's first Anglican congregation, the Christ Episcopal Church, on Kent Island in April 1631 and some of the history of this important community. I ask that it be reprinted at this point in the Record.

The article follows:

CELEBRATION TO COMMEMORATE 350 TOUGH YEARS ON KENT ISLAND

Maryland's first Christian congregation, Christ Episcopal Church on Kent Island, celebrates its 350th anniversary, Saturday, April 25.

An ecumenical Service of Thanksgiving, for which the 102nd Archbishop of Canterbury, the Most Rev. and Right Hon. Robert A. K. Runcie, will give the sermon, will be the chief attraction.

A trumpet fanfare at 11:30 a.m. will herald the processional as Archbishop Runcle is greeted at the entrance to a tent tabernacle by the Rt. Rev. John M. Allin, presiding bishop of the United States, and the Rt. Rev. W. Moultrie Moore, Jr., bishop of the Episcopal Diocese of Easton.

Participating in the service will be Bishop Frederick Wertz, the Washington area, the United Methodist Church; the Most Rev. Thomas J. Mardaga, bishop of the Roman Catholic Diocese of Wilmington; and the Rev. Dr. Paul M. Orso, president, Maryland Synod, Lutheran Church of America.

Traditional hymns such as "Praise to the Lord" and "O God Our Help in Ages Past" will be led by a 100-voice choir, accompanied by a ten-member brass ensemble and two organists. Choir members have been drawn from the Salisbury Choral Society, and churches of the Diocese of Easton. Dr. Ray Zeigler, professor of church music at Salisbury State College, will direct the choir.

All 2,200 seats for the service have been reserved, largely for parishes of the diocese on a pro rata member basis, according to the Rev. Robert A. Gourlay, rector of Christ Church.

The huge tent which will house the service is being set up in a rolling field at Love Point, overlooking Chesapeake Bay. The site is within view of Broad Creek, where the congregation's first church was built in 1652.

An official state historical marker designating "the first Christian congregation in Maryland" is located on Route 8, near a narrow oyster shell road that leads to the grove

of huge oak trees that once surrounded the old church, which was rebuilt in 1712 and 1826.

The congregation had started at the south end of Kent Island. William Claiborne brought an Anglican priest from Jamestown, Va. to his settlement there in 1631-32.

Later, the Broad Creek site had become more central to the population of early colonists who came to services by boat. It was here, for the same reason, that the Anglican priest Claiborne brought with him in 1631, the Rev. Mr. Richard James, conducted the first religious service ever held in Maryland. The date was nearly three years before Maryland was officially settled in 1634 with the landing of Lord Baltimore's colonists at St. Clements, or St. Mary's.

The 350 years since the congregation was founded have been marked by fluctuations, according to parish history. There have been rapid alternations of vacancy, and short-time ministers. There also have been times of growth and prosperity as exists now.

From 1714 to the Revolutionary War, the population had concentrated around Broad Creek, the only harbor on the western side of the island and a key point on the line of traffic between North and South. Church attendance increased. By 1748, the congregation much exceeded the capacity of the church building. An ell was added.

church building. An ell was added.

The Revolutionary War reduced Christ
Church to a handfull of the faithful. By
1810, the church building was unuseable to
the extent that cattle were stabled in it.

In 1825, a young man named Mathias Harris, recently licensed as a lay reader, undertook the seemingly hopeless task of restoring life to the parish. He tutored students in a borrowed classroom to raise money, and aroused enough interest to support a subscription for restoration of the dilapidated old building. This was accomplished in 1826.

Mr. Gourlay said that "looking back on the history of the parish, we can give thanks that there was a continuity. Even during the times when the church was without a rector, and parishioners were few, there was always a vestry of the parish that continued to exist, people who could provide a basis for resurgence to develop and enlarge upon."

Christ Church's present communicant strength of 197 reflects the active growth of

Christ Church's present communicant strength of 197 reflects the active growth of the Kent Island area in recent years. Watermen and farmers still live on the island, but the population now reflects the island's popularity as a bedroom community for persons working across the Chesapeake Bay and for retirees.

As the late Dr. Clarence P. Gould, once president of Washington College, concluded in a history of Christ Church Parish compiled in 1959:

"The spirit of Anthony Workman, the innkeeper at Broad Creek and benefactor of Christ Church, can see across the fields from his shady window many more, and incomparably finer rooms for night-bound travelers than he could ever offer; and he can go out to the road and in single day count more passersby than he ever saw at Broad Creek during his entire mortal life. What will be the effect of all this on the oldest settlement and the oldest church—in fact the oldest organization of any sort whatsoever—on the soil of Maryland? No one can dictate to fortune, neither can anyone predict it. But the future looks bright."

GREAT PLAINS CONSERVATION PROGRAM—25 YEARS OF PRO-TECTING AMERICA'S FARMLAND

 Mr. DOLE. Mr. President, August marks the 25th anniversary of the Great Plains conservation program designed to assist in maintaining the soil and water resource base in the 10 Great Plains States. The Great Plains program is a shining example of cooperation between Federal, State, and local agencies in addressing a growing and continuing threat to our Nation's economy—the alarming rate of soil erosion and moisture depletion in our Nation's (and the world's) breadbasket.

Through the efforts of the USDA's Soil Conservation Service, State governments, and local conservation districts, the Great Plains program helps farmers, ranchers, and others, install conservation plans for their operating units through a program of scheduled technical assistance and long-term contractual cost sharing to bring improved economic and social stability to the Great Plains area.

The program works by: First, accelerating the conversion to less intensive use of cropland not suited for continuous cropping; second, preventing deterioration of crop and grazing land; third, promoting economic use of land; fourth, controlling or abating agricultural-related pollution by helping establish conservation systems to develop and maintain optimum agricultural stability and an improved environment for all the people.

ACCOMPLISHMENTS OF THE GREAT PLAINS PROGRAM

By 1980 farmers and ranchers in the Great Plains States had signed more than 58,000 program contracts covering more than 110 million acres. With SCS assistance, they had established more than 5 million acres of permanent vegetative cover, planted 64,000 acres of windbreaks, installed 98,000 miles of terraces, and installed 13,000 miles of livestock water pieplines. SCS work in the Great Plains has also included assisting landowners with increased irrigation efficiency, brush management, planned grazing systems, water disposal, and critical area treatment.

Mr. President, the successes of the Great Plains conservation program are so significant, that in drafting the 1981 farm bill the Senate Agriculture Committee included a program, the special areas conservation program, modeled after it. The special areas program extends to a national basis the Great Plains approach of targeting resources to the problem areas most in need of assistance.

THE CHALLENGE FACING CONSERVATION PROGRAMS

Mr. President, as we celebrate the anniversary of the Great Plains program, it is appropriate that we not only take a moment to reflect upon the program's many successes, but more importantly, that we look ahead to the behemoth task which lies before us.

Each year the American continent loses more than 6 billion tons of soil—enough to cover my entire home State of Kansas to a depth of three-quarters of an inch. Nationwide, America's farmlands are losing 5 to 9 tons of topsoil per acre per year. That is double the rate considered acceptable—and in some places, the erosion rate is 10 or 20 times as high.

Additionally, a council on environmental quality study reported this year that about 225 million acres of arid western land, an area about the size of the original 13 States, are undergoing severe desertification, that is, loss of underground water and high erosion that gradually makes the land unsuitable for cultivation.

MEETING THE CHALLENGE

Mr. President, clearly, the desertification and soil erosion rates confronting the farmland of our great Nation can no longer be tolerated. These losses pose a most serious threat to our Nation's economy and environmental well being. Although programs, such as Great Plains conservation, are making strides in protecting our most precious natural resource, our job is far from complete. If the United States is to remain the greatest agricultural producer in the world, we must place, protecting our great wealth of fertile, productive land at the forefront of our national attention.

A TRIBUTE TO ANDY

• Mr. EAGLETON. Mr. President, those of us who serve in the Senate tend to take the smooth operation of the institution for granted. When on rare occasions we do think about the daily operations of the Senate, we too often do so only to complain about the cost and the number of people involved. Too often, we overlook the extraordinary dedication and ability of our professional and clerical people who keep the Senate business moving in a timely way.

Harold Anderson, who recently retired as staff printer for the Governmental Affairs Committee, was such a person. Andy, as he was known to his friends and colleagues, came to Washington 25 years ago, after 4 years in the Army and 10 years as printer in Coral Gables, Fla. After brief stints working with the New York Times and Washington Post, Andy joined the Govern-ment Printing Office in 1956. While working at GPO for the next 19 years, he was detailed to the Supreme Court for 2 years and for the House Education and Labor Committee a year. Ten years ago, Andy was detailed to Senator Ribicoff's Subcommittee on Reorganization of the Government Operations Committee. When Senator Ribicoff became chairman of the full Government Operations Committee in 1975, Andy became the committee's printer.

Information is the lifeblood of the Senate, and Andy was a master at making it flow. No deadline or emergency was too unreasonable; he was available at any hour when committee staff people needed a committee print or a report prepared. His trademarks were impeccable work with extraordinary turnaround time, and unfailing good humor and cooperation.

Andy retired earlier this summer, and both committee members and staff who worked with him were grateful for the experience. He was always a consummate professional, and a constant reminder of the dedication and ability which many Senate staff people bring to their work.

THE NEW FEDERALISM WILL NEED INNOVATIVE PROBLEM-SOLVING TECHNIQUES

August 3, 1981

• Mr. DURENBERGER. Mr. President, for several months now political leaders from every level of government have been preoccupied with one concern: Redefining federalism. The goal is to shift power from Washington to governments closer to the people; the methods we have been discussing are threefold: Enacting block grants, lifting Federal regulations, and freeing resources from Federal taxation. The result will be a new order of federalism, with a different division of responsibilities between the States and the National Government, and more clearly articulated "spheres of influence" for each level.

Clearly, this reordering must be a top priority. Too much power is concentrated in Washington, but more importantly, that power has not been exercised effectively and many of the Nation's social and physical problems have not been resolved. But as we proceed to enact block grants, deregulate State and local governments, trim Federal budgets for grant-in-aid programs, and cut taxes, we must keep one important fact in mind: The new structure of federalism will not be effective automatically; along with the new order we must devise new approaches to resolving community problems.

Simply handing the problems over to "governments closer to people" will not rebuild decaying cities or relieve pressures of rapid population growth. Governors, State legislators, mayors and county officials will not be successful in overcoming the classic urban problems if they rely on "business-as-usual" approaches. And, after a period of time, when the public outcry becomes loud enough, local problems will be redefined as national in scope and legitimate for Federal assistance. If the changes we are designing now are to be lasting, they must be accompanied by innovative problem-solving techniques. As we go about our job of building a new federalism, let us keep in mind that the fundamental purpose is not to shift power from one level of government to another, according to an abstract principle of division of authority, but to offer a structure and some processes for dealing with problems effectively.

In this context, I direct the attention of my colleagues to an experiment in urban problem-solving that is being tested in the capital city of my own State of Minnesota, and in two other cities: Gary, Ind., and Columbus, Ohio.

The process is called negotiated investment strategy (NIS): it was developed by the Kettering Foundation and is being tested under the foundation's direction.

Basically, NIS is a way to establish coherent policies and allocate resources in local communities. It starts from a "bottoms up" approach: The focal point is the community with the problem. Federal and State officials, business and civic leaders are brought to the community where they negotiate agreements and commit resources to projects.

The NIS model, as developed and tested by Kettering, has some special characteristics. First, as I just indicated, it requires the participation of leaders who have the authority to commit resources. This ingredient seems self-evident, but lack of clout has been a barrier to problem-solving on too many occasions. All of us are familiar with the Federal regional official who attends local meetings and makes promises only to be overridden by a superior in the Washington office.

Second, NIS requires a new way of thinking about the resolution of community problems: As an investment, with long-term payoff, not a short-term, stop gap patching job. Kettering has found that when NIS participants think in terms of investments, their policy focus broadens and they consider a whole range of powers and management tools available to them: Regulation and deregulation, mandated standards and the relaxation of standards, self-help incentives, legal advocacy and taxation or tax expenditures.

Third, NIS, as the name implies, revolves around negotiations. These negotiations are formal, conducted, with the assistance of a professional mediator. Negotiating sessions result in consensus on priorities and commitments to follow through. Formal, written, binding agreements are drawn up and signed by the

participants.

Finally, NIS involves the general public. The citizens have the opportunity to review the formal agreements and monitor subsequent performance.

NIS experiments have been underway for about 18 months. By the end of the first year, all three cities had reached agreement on priorities and commitments. and action on projects was beginning. In my own State, the city of St. Paul committed to three projects: Redevelopment of an older, underused warehouse district into a combination of residential neighborhoods, businesses, and entertainment facilities; development of a 250-acre energy park; and comprehensive development of the 17.5 miles of riverfront which winds through the city.

The negotiated investment strategy projects have not been completed, but the Kettering Foundation has already begun an evaluation. The experiments serve as a reminder that restructuring Federal-State-local relations will not neces-sarily resolve the housing, transportation, education, and other problems facing our communities. In addition to redesigning the framework for intergovernmental relations, we need to pay attention to new techniques for resolving issues within that framework. And, we must broaden the public decisionmaking system to include leaders from the private sector, not only the corporations with the money to invest but the nonprofits who, in so many cases, offer the social services we all rely on.

I ask that the attached documents be printed in the RECORD.

The material follows:

FEDERALISM: BACKGROUND PAPER No. 1A Federalism: Definition and Interpretations—"... the history and concept of Fed-

eralism is a tangled mess of definitions, which mess is at once a function of founder, jurist, journalist, politician and political scientist."—Martin Landau

DEFINITION AND ROOTS

The term federal(ism) is derived from two Latin words, "foedue," meaning covenant, and "fides," meaning trust and faith.

Historically, the term "federal" and its derivatives have been used to express both a broad social concept as well as a particular mode of political and governmental organization.

In the broad social sense, these terms imply mutual recognition, obligation, commitment, cooperation, consistency, and reciprocity among individuals or entities.

In the more specific political and structural sense, the term federal has come to mean: "... a mode of organization uniting separate policies in an overarching political system to allow each to maintain its fundamental political integrity."—Daniel Elazar

The antecedents of modern "federal" relationships can be traced back to the 13th century B.C. attempts by the Israelites to unite tribes in an effort to maintain national unity. Subsequent developments stemmed from the defense-related alliances or "civil unions" established by Greek city-states (e.g., the Achaean League, 281-146 B.C.), the medieval leagues of Europe (e.g., the Helvetic League of Swiss Cantons, 1291-2) and the hierarchial corporate states and mercantile societies of the feudal German Empire which were based on contract relationships and related political mechanisms.

Where a single, strong sense of nationality existed, the central unit had greater powers and authority; where stronger, more diverse identities existed among constituent units, power, authority and independence were re-

tained more fully in those units.

Although each of these eras and examples exhibited major differences in form and in the way in which power and authority were legitimized and established, each incorporated some expression of the dual theory of unity and separate identity of the constituent units.

MOTIVES FOR FEDERATION

The general historical motivation for establishing these relationships are still applicable today and include some combination of shared interest in:

the expansion of social/political/economic influence;

(2) the control or protection against internal, domestic upheaval;

(3) the defense or protection against the threat of outside force or influence.

Prior to the American Revolution and formulation of the U.S. Constitution, most "federations" or "federal" systems exhibited several key limiting characteristics:

- central units were limited to acting only on the constituent units, not on individuals in society;
- (2) central units dealt almost exclusively with issues external to the constituent units;
- (3) constituent units were equally represented in the central unit.

These limitations generally reflected conceptual and practical difficulties in establishing a workable system of dual, institutional sovereignty, where historically sovereignty had been vested indivisably in the person of the monarchist head of state.

CLASSICAL DEFINITION OF THE "FEDERALISM"

Definitional terminology during the U.S. Constitutional Convention was somewhat confused, as it is today. In the Constitutional debates, the term "federal" represented a system in which the states maintained a more dominant, independent status. The competing concept was one of a "national"

or "unitary" system in which states were subordinated to varying degrees to the national government.

tional government.

The compromise arrived at in the Convention was described by Madison in Federalist 39: "The proposed Constitution . . . is, in its strictness, neither national nor a tederal constitution; but a composition of both." (i.e. a compound system)

Following the development of the Constitution, the concept of "federalism" has become synonymous with the concept of American "dual federalism," denoting: "... a form of government in which two or more states constitute a political unity while they remain independent as to the control of their internal affairs. The similarity of this definition to 'dual federalism' is patent. Dual federalism specifies a fixed relationship between two domains of independent authority in the same territorial unit, each of which possesses an exclusive jurisdiction neither of which is subordinate to the other and neither of which can be stripped of its authority by the other. This is the classical concept, and it locks two states into a 'mutually exclusive, reciprocal limiting' relationship."—Martin Landau

The basic imperatives in this classical concept of "federalism" are a division of authority/power and the independence of par-

ticipant units.

Despite the succinctness of this definition and its relative stability as an analytical tool and/or hypothesis in the academic community, it may be of limited value. This definition remains a theoretical concept that bears little relationship to the actual current practice of "federalism" in the U.S. and elsewhere and its Constitutional basis has been debated since 1787.

SOME CURRENT INTERPRETATIONS

Interpreters and historians are widely split in their view of the "federal" concept and its evolution and practice. Many attempts have been made to distinguish between and justify various interpretations of the "federal" principle(s) in theory and practice. In general terms, three basic outlooks are still prevalent among academics, politicians and administrators:

I. FEDERALISM AS A STEADY-STATE END IN ITSELF—CONSTITUTIONAL DUAL FEDERALISM

Some observers are adamant that the classical "dual federalism" was, in fact, practiced at least through the Civil War, if not up to the Depression. During this time it is felt that state and federal roles and responsibilities seldom conflicted or overlapped until the national government began to preemptively assume historically state and local functions. This view implies that basic Constitutional principles of limited government and limited federal power have been severely violated, and, since the problems which gave rise to centralized national powers (Depression, World Wars and gross social inequities) may no longer exist, that the centralizing process should be drastically reversed. Implied in this view is the need to return to a relatively highly structured system of exclusive state and national roles based on a strict interpretation of both Constitutional intent and historical practice.

Alternatives to this view share a common premise that the Constitution, if relevant and clear at all, is not and was never meant to be proscriptive, but is open-ended and permissive in character. These interpretations suggest that the primary concern of the Founding Fathers was with establishing a practical, representative governmental structure. In this context, "dual federalism" is viewed only as a mode to achieve this end, of secondary importance in the debates and of limited relevance now since the Constitution is admittedly vague and obscure on the assignment of specific responsibilities among levels of government.

II. FEDERALISM AS SHARING

One alternative view holds that pure "dual federalism" never in fact was practiced; that almost from the outset, relations between the U.S. national and state governments were characterized by cooperation, sharing and overlap to various degrees.

This view implies that a return to a strict 'dual' system is not warranted historically, either through Constitutional language or past practice. Rather, federalism is best characterized as a matrix of shared responsibilities and not a hierarchial system. This view does allow, however, for some sorting out of roles and responsibilities without the necessity of totally reversing the highly cooperative and collaborative nature of present intergovernmental relationships.

III. FEDERALISM AS A DYNAMIC PROCESS

A second alternative view suggests that even if the Constitution and earlier governmental relationships were based on a clear model of "dual federalism," conditions which characterized that earlier political setting (a remote, agrarian society with little need for governmental intervention, generally), have changed so drastically and irreversibly that the relevance of the classical model today has been lost.

Consequently, a wholesale return to the "dual federalism" model is highly inappropriate to our present needs and circumstances that while sorting roles and responsibilities may be possible, no static relationships or divisions of power are likely to survive or remain effective. The emphasis implied is one of improving policy-making and administrative processes.

. . . every realist should see that federalism is a wonderfully loose garment that allows the American system to seem properly dressed no matter what hodge-podge of arrangements the governmental a into."—Frank Trippett apparatus is pushed

"Federalism . . . its future rests with those who can resist the urge to tidy the matter."-Rufus Davis

One of the factors that has given rise to these differing views is our somewhat contradictory adherence to an evolutionary mode of analysis while at the same time, as a society, we maintain a loyalty to an enduring but questionable mechanical mode.

AGREED ON NEED TO REVIEW FEDERAL AND CONSTITUTIONAL PRINCIPLES

Despite these divergent interpretations, the ineffectiveness, inefficiency and lack of accountability of our present federal system are acknowledged by virtually all observers. Academics, politicians and administrators at all levels are increasingly demanding a fundamental review of the basic principles underlying our federal system.

"The understanding of and commitment to federal principles in both their social and political aspects have undergone substantial erosion in the twentieth century."-Daniel

PROSPECTUS: SYMPOSIUM ON U.S. FEDERALISM INTRODUCTION AND PURPOSE

The current budget and tax debates in Congress and emerging shifts in the philosophy of government evidenced in the 1980 election have seriously called into question the principles and practices of our federal, state and local intergovernmental system.

Over the past twenty years, a largely unrestrained federal government has exploded into over 500 assistance programs and 1,200 regulatory mandates that have been directed at or imposed upon every unit of state and local government and much of the private sector. At each level we have badly blurred public and private roles and the division of authority and responsibility between levels of government. The result has been increased ineffectiveness, inefficiency and a loss of accountability which frustrates the ability of both the public and private sector in meeting critical local and national goals.

Although detailed analysis of the intergovernmental system has proceeded along a number of fronts in recent years, it has been handicapped by divergent and largely unresolved practical and philosophical perspectives tailored to narrow and diverse audi-

It has now become critically important to undertake a broad-ranging review of our federal, state and local system, its basic principles, its evolution, current conditions and most importantly, the prospects for constructive change. Such a background is fundamental if we are to give proper consideration to the myriad proposals now being made to address these problems.

The three day symposium outlined below is intended to engage a wide audience in an attempt to promote a broader understanding of and commitment to the basic principles of American governance that have been so badly eroded in recent years.

The primary premise of the symposium is that no single philosophy or perspective, past or present, is likely to provide a fully acceptable frame of reference; historical principles, past experience and current visions all provide necessary insights which need to be articulated and discussed.

TIME AND LOCATION

The symposium is tentatively planned for mid-to-late August, to be held at the Spring Hill Conference Center or a similar facility.

FORMAT AND SCHEDULE

A three day retreat is proposed, structured around:

(1) Short formal panel presentations by a range of expert scholars and commentators, based on previously prepared and distributed background papers, etc.;

(2) Moderated discussions among panelists and a core group of intergovernmental professionals:

(3) Open discussion and question sessions involving the entire audience of symposium participants and observers.

PARTICIPANTS

Participants are expected to include:

(1) 10-15 panelists and speakers, including the foremost academic scholars, Congressmen, governors, state legislators, mayors, county officials, administrators and journal-

(2) 20-30 participant professionals forming a core discussion group, including key Congressional staff members, federal agency officials, state and local government representatives, public interest group representatives, public policy organization spokesmen,

(3) 50-150 local and midwest participants from government, business, industry and the general public, forming a daily audience.

ORGANIZATION AND CONTENT

It is anticipated that the daily panel ses-

sions will include discussions of:

(1) The Constitutional Basis of "Federal-(i.e., Founders' motives and principles; governmental purpose; division of powers; interpretations and current relevance, etc.);

(2) Cross-national Experiences in Federal-(i.e., History, principles and practice in selected countries: Canada, West Germany, Australia, India, etc.; relevance to the U.S.);

(3) American Federalism Over the Past

Twenty Years, (i.e., motives, philosophies, successes and failures of federalism under the New Deal, "Creative Federalism" of Johnson/Kennedy, "New Federalism" of Nixon. "Cooperative Federalism" of Carter);

(4) Overview of Current Federalism: Issues and Problems, (i.e., intergovernmental over-load and loss of restraint; fiscal, regulatory judicial dimensions; current analyses and prescriptions, etc.);

A. Specific Issues: Fiscal Federalism and the Regulatory Environment, i.e., balancing revenues and needs; equalization and disparities; objectives and mechanisms of distribution; alternatives to public service delivery; regulation, enforcement and account-ability; current budget and regulation);

B. Specific Issues: The Courts and Federalism, (i.e., judicial activism; grant law and national purposes; trends and major prece-

dents, etc.);
C. Specific Issues: State, Regional and Local Relationships, i.e., State constitutions and statutory requirements; constraints and problems; capability and capacity; case studies in accommodation, including the Twin Cities, etc.);
(5) The Future of Federalism, (i.e., gov-

ernmental purpose and sorting out roles; decision criteria; devolution vs. decongestion; private role; transition and support, etc.).

THE SERIOUS PROBLEMS OF THE GOVERNMENT'S RENTAL BUSINESS

• Mr. MOYNIHAN. Mr. President, the week of July 12, the Scripps-Howard newspaper chain published a six-part series on waste in the Federal Government's rental of office space. The series, by Mr. Gene Goldenberg, fastidiously and cogently documents questionable practices in the General Services Administration's Public Buildings Service, and explains the inherent wastefulness of disproportionate reliance on renting to accommodate Federal employees.

Mr. Goldenberg reported instances of rented offices remaining unoccupied for years while full rent was paid on them, of extensive and expensive improvements to rented buildings paid for with Government moneys, and of lucrative Government leases being awarded with little or no-or artificially restricted-competitive bidding.

Mr. President, although much of the detail in Mr. Goldenberg's articles is original, the essential problems he points out will not surprise those in this body who have followed hearings and reports of the Committee on Environment and Public Works. For several years, other members of the committee and I have been railing about the scandalous waste of tax dollars consumed in rental of Federal office space.

It was in response to a most peculiar lease proposal of the GSA—one having to do with the offices of one of our most important intelligence agencies—that I proposed, and the committee agreed to, a moratorium on leasing and other authorizations under the public buildings program. In investigative hearings in 1979, our committee singled out the leasing program for criticism, for many of the same reasons highlighted by Mr. Goldenberg. We sent a number of pro-posed leases back to GSA for review by the agency's Inspector General, who told us that leasing activities were one of his

highest investigative priorities.

Finally, we proposed in the 96th Congress and again this year, legislation to reform the leasing practices of the GSA and gradually reduce the Government's disproportionate reliance on rented office quarters. In that legislation, we were twice joined by overwhelming majorities of the Senate.

As I have said before in this Chamber, the public buildings program is among the most mundane, albeit essential, affairs of government. Its oversight and reform are not the sort of endeavors one undertakes with the expectation of garnering votes or publicity. Yet it is the sort of business that the American people ought to know about, and we are in the debt of the Scripps-Howard chain and Mr. Goldenberg for bringing the serious problems of the Government's rental business to the attention of the public.

I ask that articles be printed in the RECORD.

The articles follow:

[From the Pittsburgh Press, July 12, 1981] WHITE HOUSE GARAGE MODEL OF U.S. WASTE

(By Gene Goldenberg)

Washington.—Ronald Reagan launch his war on government waste right in his own garage.

The General Services Administration, the federal government's giant housekeeping agency, is spending \$239,000 a year to rent a run-down, 60-year-old garage for the presi-dential motor pool and State Department

That's nearly \$400 a month for each of the 50 vehicles kept in the four-story building a mile from the White House. A parking space in commercial garages a block from the White House goes for less than \$100 a month.

The White House garage is just one example, and a small one at that, of waste and mismanagement which led to the investigation of the largest rental program in the world—the leasing of offices, computer cen-ters, laboratories, garages and storage space by Uncle Sam.

The federal government this year will spend \$680 million to rent 90 million square feet all over the country-equal to all the office buildings in midtown Manhattanshelter 420,000 employees, half the federal work force, who cannot squeeze into buildings the government owns.

There are two basic problems in all this renting. First, much of the money is wasted—GSA auditors estimate \$100 million or more

this year alone. That's money "thrown down the drain,"

says Howard Davis, GSA's chief auditor.
Secondly, even the rent spent efficiently is partly wasted because the government is partly wasted because the government could save much of it by building or buying

its buildings. Yet, the leasing of space has continued to grow over 15 years of Congress and presi-

dents unwilling to put up money to build anything.

It looks better in a budget to show \$1.5 million to rent a building each year rather than \$15 million to build it, though the cost to lease that building over a typical 20-

year period may top \$30 million.

"All the government has left in the end is a drawer full of rent stubs," said Sen. Daniel Moynihan, D-N.Y., a key sponsor of legislation to curb the leasing spiral, which is accelerating with inflation, tight com-mercial rental markets and mushrooming utility and tax rates.

The government's annual rent will top \$1 billion within the three years, even with

expected decreases in the total amount of space leased. The rent is projected to exceed \$3 billion 10 years from now.

A two-month Scripps-Howard probe dug up previously secret government reports using the Freedom of Information Act, examined GSA computer files and interviewed dozens of specialists in and out of government. It found that:

GSA officials don't know for sure how much leased space they control at any given

Millions are spent each year to rent empty offices

Millions more taxpayer dollars go to improve, renovate and repair privately owned buildings, in some cases doubling a property's value, with no attempt to negotiate better rent rates or guarantees of lease renewals.

Not surprisingly, landlords presented with ch government generosity often respond by raising the rent sharply at their first

opportunity.

Despite competitive bid laws, hundreds of leases are signed each year after the gov-ernment has negotiated on a "sole source" basis with only one potential landlord. And improvements to rented buildings almost always are done by the owner at government expense-often with no effort even to check cost figures or obtain comparable prices.

Taxpayers often pay for electricity and other utilities used by private tenants of buildings in which the government rents

GSA officials routinely agree to rent in-creases based on unaudited claims of rising expenses by private landlords.

Supposedly "firm" long-term leases signed by the government often contain clauses letting landlords cancel after a few months and then demand higher rents.

Investigators in the 2-year-old inspector general's office at GSA say they are certain at least some of the waste goes to criminal fraud. But they admit they are only starting to turn full attention to the rental program because their earlier efforts focused on other abuses at GSA.

A lawyer with the joint GSA-Justice Department task force that uncovered bribery and fraud in other GSA programs predicts it will be difficult to prove fraud in the leasing program.

Proving that anyone did anything criminal may be impossible since GSA's leasing practices are so confusing and poorly drawn that someone who wants to fudge a leasing contract can justify just about anything he does," the lawyer explains.

GSA officials, faced with adverse publicity in earlier scandals and trying to avoid similar problems in the leasing area, have responded with constantly changing rules and egulations that only confused the rental situation more.

"The leasing program . . . has deteriorated to the point where it is one of the most serious problems facing the administrator of GSA," concluded a committee of top GSA officials last December in an internal report to former Administrator Rowland Freeman.

Despite a doubling of the amount of space leased by the government over 15 years, there has been little comparable increase in the manpower and resources of the rental pro-gram. Today, only 121 leasing specialists nationwide are asked to solicit offers of space. negotiate and administer more than 5,440 leases, leading in some instances to individual caseloads of 50 or more leases.

These \$25,000-per-year leasing specialists are not given adequate training and they often find themselves across the table from high-powered teams of lawyers, real estate specialists and accountants negotiating leases worth tens of millions.

"We frequently feel outgunned," admits Kenneth Perrin, chief of the leasing unit in the Washington area.

Says former GSA Administrator Jay Solomon: "It is incredible that we have GS-12s the leasing specialists) making major decisions on multimillion-dollar deals.'

Morale is so poor that a third of the leasing specialists quit each year, further contribut ing to the lack of experienced government negotiators. In some situations, major leases are arranged by trainees. Clarence Lee, who heads one of GSA's 11 regional offices, says his corps of 14 leasing specialists has turned over completely in 18 months.

Clearly, not all the problems are in GSA. The agencies that GSA rents space for often make costly demands, changing office leasing plans in midstream or refusing to accept space GSA has rented.

GSA officials complain that Congress and the White House have added uncounted millions to the rental costs with "social programs" and by acting too slowly in approving specific lease acquisitions.

The "social programs" include renting more expensive downtown space to revitalize inner cities, requiring facilities for handicapped people in leased buildings, small-business subcontracting, special consideration for historic buildings and a certification by building owners that they are not polluting the air or water.

Specialists say such requirements often add \$1 to \$2 per square foot in rent costs.

Public Works committees of the House and Senate, to which GSA submits any leasing action above \$500,000, have historically been slow to give a go-ahead. Time is money, especially in commercial real estate markets where rents are skyrocketing.

Just last month, the GSA leased a new building here for \$14.60 a square foot plus electricity. That building, with 262,500 square feet, had been offered during construction for \$11.50 a square foot plus electricity but GSA could not accept because it had to get congressional authorization. The delay will cost the taxpayers \$8 million over the 10-year

"The cost of delay is enormous. The economics of time are the most expensive thing we're involved in," agrees the new GSA ad-ministrator, Gerald Carmen.

Congressional experts, particularly in the Senate, counter that GSA has traditionally waited until the last minute to ask for rental authorization and too often has failed to document adequately the need for new space.

"Every time we examined one of their requests it fell apart in our hands," claims Steven Swain, a Senate Public Works Com-

Things got so bad the Senate panel at one point refused to approve anything but "emergency" requests from GSA. And then when several of these "emergencies" came up bogus, the committee last year washed its hands of the rental approvals altogether.

GSA sidestepped the Senate committee's boycott by arguing that the Senate's ap-propriating of funds for leasing constituted an effective authorization to enter rental agreements. The House committee still insists on approving each large rental action.

"It's pork barrel stuff, pure and simple," says one top GSA official who asked not to be identified. "Since there is no new money for federal building construction, the House members want to have a say in where the space is leased."

Congressional efforts to curb leasing costs with new buildings have been stymied by a dispute between the House and Senate over how the new projects should be approved. Neither is the Reagan administration overly warm at this point to a new public works program that might hinder the president's efforts to balance the budget.

Most GSA officials, however, are enthusiastic about such a program. Says A. R. Marschall, GSA's former commissioner of public buildings and the man in charge of

both owned and leased government space until his resignation this month:

We're putting the money in the wrong place. We should be building more buildings and leasing less'

RENTING EMPTY OFFICES COSTS UNITED STATES MILLIONS

(By Gene Goldenberg)

WASHINGTON .- Each year, the federal government squanders several millions of taxpayers dollars renting offices that no one

The offices are supposed to be used by some of the 420,000 federal workers for whom, allegedly, there is no room in build-

ings owned by the government.

But because of confusion, mismanagement and other bureaucratic bungling by the General Services Administration, which runs the federal government's massive rental program, the taxpayers end up paying rent on acres of vacant floor space every year.

No one knows precisely how much unoccupied space the government is renting at any one time, largely because GSA's recordkeeping apparatus repeatedly has falled, for various reasons, to keep track of the problem. However, an internal investigation by GSA's Office of Inspector General identified at least 1.5 million square feet of unoccupied space in 77 private buildings across the country.

Some of these rented office buildings stood vacant for as long as two years. GSA investigators estimate the cost of renting those empty offices exceeds \$10 million a year.

In some cases, GSA officials add, unused offices have been rented even while there was vacant space in nearby federal office buildings.

"GSA cannot effectively manage leased or government-owned buildings because it has no way of knowing how much space is under its control, how much is assigned or how much is available for occupancy," spector general's internal report concluded.

That report, which had never been made public, is just one of the many internal documents obtained during a two-month Scripps-Howard News Service investigation of GSA's troubled rental program-a program so permeated by mismanagement and potential fraud that GSA's own auditors estimate \$100 million in rental payments will be wasted this year alone.

Perhaps nowhere is the waste so obvious as when GSA pays rent for unoccupied space. The reasons for this squander vary: incompetent GSA employees, convoluted procedures and faulty record-keeping, delays in renovations that are needed before space can be occupied, disputes with the federal agencies which are supposed to use the rented offices.

There is nothing more ridiculous than the specter of the federal government pay-ing rent for offices it does not or cannot use," says a top GSA official who spent several years trying to reform the rental program before quitting in disgust.

The situation has become so muddled that GSA last year asked Congress for permission to renew a lease on three floors of expensive York City office space so that 350 federal workers would not be evicted. It turned out, however, that no one was in danger of being thrown into the street because no one but cockroaches had been occupying the three floors for almost two years while the taxpayers forked out more than \$500,000 in rental payments.

GSA's explanation for that particular snafu: The GSA employee who prepared the request for congressional approval "believed" the space was occupied.

Even when a leased building is being used by federal workers, it often is so under-utilized that much of the rent effectively is being paid for empty space. In one case, a building near Baltimore rented to house almost 1,000 National Aeronautics and Space Administration employees actually was used by fewer than 220 workers for over five years. GSA investigators estimate the cost to the taxpayers for leasing that unused space exceeded \$1.1 million.

Quite often, GSA is not solely to blame

for the rented space going empty.

Other federal agencies usually have their own strong ideas about where their offices should be and have been known to take pro-tests all the way to the White House when told to move as part of GSA's plans for more efficient space management.

But critics charge that GSA, which has the authority to dictate space use within the framework of requests made by other agencies, too often is unwilling to tell other

federal agencies what to do.
"GSA is an agency that does nothing but roll over to the rest of the federal bureaursays Bob Peck, who has investigated leasing program for the Senate Public Works officials confirm that assertion.
"If we don't take care of the needs of

our clients (other federal agencies), then there is little reason for our existence," says Jack Galuardi, deputy commissioner of the GSA's Public Buildings Service, which runs the leasing program. "They're the ones we're trying to satisfy out there.

When GSA tried to relocate employees of several federal agencies as part of a plan to consolidate certain Labor Department functions at one rented building in downtown Washington, for example, all mayhem broke loose. Officials of four different agencies vehemently protested the move-some taking their appeals to the White House.

As a result, several floors of the building were vacant for more than two years at an ultimate cost to the taxpayers of \$2.5 mil-

And then there are times no one wants the space GSA arranges, such as when GSA contracted to lease a building that was to be built by a private developer in a run-down section of southwest Washington close to railroad tracks, ghetto neighborhoods and several industrial facilities.

The Securities and Exchange Commission, which had asked for a new headquarters building, refused to move in. GSA then tried to persuade the Agency for International Development and segments of the Treasury Department to take the building, but they also balked.

Even GSA's own employees refused to move into the building, inauspiciously located at a place called Buzzard's Point.

Finally, after GSA had paid \$5.4 million in rent, elements of the FBI and the Defense Department (whose employees, one wag noted, are used to taking orders) occupied the facility.

Because of such problems, dozens of federal agencies have from time to time asked Congress for permission to do their own leasing. While Congress has gone along with those requests in selected instances, so far only the Defense Department, CIA and Agri-Department have been culture granted broad authority to rent their own space.

Some agencies have taken matters into their own hands, however. In Amarillo, Texas, officials of the Bureau of Reclamation simply went out and leased their own space after years of trying to get GSA to correct alleged fire safety "and other building de-ficiencies" in a 60-year-old converted hotel known as Herrins Plaza. The space GSA had rented for bureau workers has been vacant for two years at a cost of over \$200,000.

GSA officials have finally given up trying to get the old hotel's owner to make the necessary repairs and are moving out the remainder of the federal tenants. GSA estimates it will cost up to \$10 million to can-

cel the remainder of the lease, which runs until 1989.

"For all practical purposes, there are no controls over what goes on in the leasing program," charges Bertrand Berube, GSA's director of acquisition policy and a man who has butted heads with his GSA superiors many times over his proposals to reform the rental program.

"The taxpayers would be better served if we decided not to clean a few tollets in federal buildings and (use the money to) put some good people in charge of arranging a \$40 million lease."

[From the Pittsburgh Press, July 14, 1981] U.S. PAYS REMODELING BILL, LANDLORD PROFITS

(By Gene Goldenberg)

WASHINGTON .- Over the past 11 years, the federal government has spent more than \$7 million remodeling and improving four office buildings near Baltimore's Friendship International Airport.

These expenditures, which have included installation of sophisticated electronic equipment and computers, were judged in the national interest because the buildings are used as offices for the Pentagon's super-

sleuth National Security Agency.

The problem with this expensive and continuing alteration is that the buildings are not owned by the federal government. They are rented for \$8 million a year from a group of private developers, three of whom convicted along with former Maryland Gov. Marvin Mandel on mail fraud and racketeering charges.

Services Administration. The General manager of the federal government's mas-sive rental program, certainly can't be held responsible for the developers—all law-abid-ing citizens when the leasing deals were first arranged-subsequently landing in jail.

But the fact that the government rents rather than owns facilities occupied by its hush-hush intelligence agency symptomatic of the problems besetting GSA's leasing program.

And when GSA pours millions of dollars into highly specialized improvements of privately owned buildings, the landlord has the government over a barrel when it comes time to renegotiate or renew the lease.

The government is placed in a very poor negotiating position because the lessor knows that he can demand and receive an exorbitant rental as the government would incur higher cost by moving to another leased location and installing the special-purpose features again," states an internal report by GSA's Office of Inspector General.

A two-month Scripps-Howard News Service investigation of GSA's \$680 million annual rental program found that such major taxpayer-financed improvements of privately owned office buildings is just one way the government wastes what GSA auditors estimate is \$100 million a year renting space.

Not only does the government end up paying higher rents as a result of renovation projects, which in some cases have doubled the value of rented buildings, but the taxpayers are left with nothing but expenses when the offices finally are vacated by government workers.

GSA this year has budgeted \$180 million for alteration and improvements of both leased and government-owned buildings. But even GSA officials cannot pinpoint the amount spent on rented properties since the agency pays for these improvements out of a variety of line-item budget accounts.

But the congressional General Accounting Office, in a survey of four of GSA's 11 re-gional offices, identified \$18 million in alterations for only 21 rented buildings over a 30-month period. That money went for everything from computer facilities and pistol ranges to repair of sidewalks and fences.

Among the problems noted by GAO and GSA's own investigators:

Owners of the private buildings almost always are permitted to contract for the alter-ation work on a sole-source basis, with little effort ever made even to determine whether the cost of the work is reasonable.

The same GSA officials who contract with owners for the work also approve payments and inspect the final product. In many cases, final inspections are not even made and cost figures are approved after the work is done.

Major and costly alterations are performed at taxpayer expense with no effort to obtain lease-renewal guarantees or to negotiate for rent reductions as a result of improvements made to the owner's property.

The government frequently pays rent

while renovations are under way and the

buildings are not usable.

The Bureau of Alcohol, Tobacco and Fire-arms' laboratory is a good example. When that agency had to move its lab from a downtown Washington building because its activities posed a danger to other workers, GSA leased a building in suburban Rock-ville, Md., and then spent \$2.55 million to convert it into a lab facility.

The total alterations—plus \$407,000 in rent paid while the building was being renovated—almost doubled the appraised value of the building. GAO determined later it would have been cheaper in the long run to construct its own building, or else contract for the private construction of a building

tailored to the government's needs.

When GSA put \$600,000 into alterations of a building it rents in San Francisco, cost estimates were prepared after the work al-ready had been performed by the owner. GSA officials later admitted that the contracting officer simply accepted all the owner's cost figures, including such specific items as "plants—\$76,055."

And despite the fact that the government's lease on a building in suburban Virginia had only a few months to run, GSA officials approved a \$161,000 installation of computer equipment for the Patent Office, which occupied the space. When the lease came up for renewal, the building owner demanded and got almost a 50 percent increase in rent.

"One of the largest problems we've found is that alterations are done without any effort to predetermine the prices," says Fred Wendehack, chief of inspections in the GSA

Inspector General's Office.

He adds that the major alterations performed on buildings with short-term lease "raise serious questions about whether the

government should be renting that space to begin with."

The GAO repeatedly has criticized GSA for failing to consider the alternative of government construction of a building before embarking on major alteration of private properties. GSA officials, many of whom would prefer to be constructing federal buildings, counter that since Congress and the White House have been increasingly reluctant to appropriate funds for construction, there is no alternative but to lease and renovate.

But GSA's inability to use government construction as an alternative to renting puts the giant federal housekeeping agency in an untenable position when bargaining with landlords over rent, particularly in places like Washington and Los Angeles where rental markets are very tight.

"They know we will have to rent from them, so they can demand and get much higher rents than if we had some other way of obtaining the space," complains one GSA leasing specialist.

Shortly after he took office, the new GSA administrator, Gerald Carmen, learned of a lease his agency had just signed for an eight-story building here. Carmen recalls that his first question was how much it would have

cost for the government to build or purchase a similar structure.

The answer, according to GSA officials: about \$25 million for a building with an expected life span of 30 years compared with the \$40 million to rent it for 10 years.

One of the ways GSA has tried to cut the price tag of alterations to rented properties is to amortize the costs of improvements over the term of the lease. For example, the \$239,000 a year GSA pays to rent a 60year-old garage for the White House motor pool includes \$200,000 in amortized costs the landlord will incur to fix longstanding fire safety problems and to install a new car elevator.

Critics charge, however, that such tactics are nothing but bookkeeping flimflammery. Just like the rental costs themselves, which look far more favorable on a annualized basis in the budget figures than up-front construction funding, the amortizel lease payments are seen as a way of hiding the costs of improvements to rental properties.

[From the Pittsburgh Press, July 15, 1981] U.S. MAKES OFFER LANDLORDS CAN'T REFUSE

(By Gene Goldenberg)

WASHINGTON.-When federal officials in Dallas were forced to vacate a federal build-ing there because of bacterial contamination of the air conditioning system, thought they had found a perfect solution.

Across the street, a private developer was just completing a new building known as Main Tower. It contained the needed space. the General Services Administration, which manages the federal government's massive rental program, arranged in early 1975 to lease most of the building for 10 years at a total cost of over \$20 million.

Everyone was happy. The government had new offices for some 1,500 federal workers. and the building's owner, B. W. Morris, a Cincinnati-based developer, was temporarily able to stave off financial problems caused by the until-then lack of tenants for his new building.

The catch was that no other landlord got to bid on the largest rental GSA had ever arranged in Dallas, and there was space available in other private buildings at comparable or lower rates. And nobody can explain why GSA agreed to pay Morris a rent 25 percent higher than he had been asking only months earlier.

The Main Tower case is typical of the noncompetitive bidding that permeates GSA's rental program—a program so fraught with mismanagement and potential fraud that GSA's own auditors estimate \$100 million of the \$680 million spent this year on leasing will be wasted.

A two-month Scripps-Howard News Service investigation of the rental program also found that even when there is competitive bidding for the government's leasing dollars, GSA routinely rejects seemingly attractive bids for arbitrary reasons and signs leasing contracts not necessarily in the government's best interest.

The situation is so bad that the congressional General Accounting Office found there was only one bid considered in 55 percent of the new leasing agreements it studied. In one-third of those "sole-source" negotiations, the government ended up paying a rent that exceeded the appraised fair market rental,

Being the only landlord to bid on a government rental has hidden benefits, since government tenants rarely move once they put hundreds of thousands of dollars—and sometimes millions of dollars—into altering leased space. More than 75 percent of the lease contracts GSA signs today are actually renewals or extensions of existing rental agreements—and 95 percent of those renewals are negotiated with the present landlord after little or no effort to seek competing offers

All of this is possible because, unlike other government procurement activities, there are no regulations covering the leasing process.

Instead, GSA officials operate under often vague and constantly changing "policies" and "recommended procedures" that permit broad discretion in individual cases.

Private landlords who want to rent space the government don't submit sealed bids. Instead, they make offers that are then evaluated based on the government's needs. If GSA leasing officials think an offer fits the bill, this leads to negotiations for a final

"For all practical purposes, there are no real controls over the leasing process," says Bertrand Berube, GSA's director of acquisition policy. "The leasing specialists can just about do whatever they want free of any fear that they will be punished."

Documentation of leasing deals costing the

taxpayers tens of millions of dollars is often so poor that it is impossible to determine why decisions were made. In the Main Tower case, for example, Dallas GSA officials could not explain why they never obeyed an order to seek additional competition for this lease.

"It was an emergency situation and we had to get people out of the federal building because of the air conditioning con-tamination," explains the assistant regional GSA administrator, Donald Weingarten, who was not in Dallas when the Main Tower lease was signed.

"Unfortunately, we have a history of not documenting why decisions were made in such panic situations."

For his part, the building's owners says wish I'd known I was the only one bidding for that lease." Morris claims that GSA's refusal to pay for rising utility rates forced him to declare the building bankrupt in 1979. He sold it to two California couples last year and, in concert with the new owners, is asking the U.S. Court of Claims to order GSA to make good his alleged losses

GSA officials frequently find themselves in a bind when federal agencies requesting rented offices attach stipulations regarding location, size or specialized needs that only one building or one developer can fulfill.

The landlord for an Austin, Texas, building rented by GSA to house an Internal Revenue Service data processing center, for example, was the only one to get a shot at a subsequent \$11 million lease for space rented to the Veterans Administration be-cause the VA insisted on being next door to the IRS. Ironically, in a series of unexplained transactions that raised eyebrows at GSA, the Austin IRS-VA complex later was sold to the Teamsters' Central States Pension Fund, the subject of a long-standing IRS investigation.

In another case, GSA officials rejected 14 offers because the tenant agency had insisted that each floor of the rented building contain 14,000 square feet, although no reason was ever given for this request. The eventual landlord charged a rent far higher than many of the unsuccessful bidders.

When the office rental market is tight, as it is here in Washington where 30 percent of GSA's rented space is located, even the best efforts to seek competition fall short. Despite advertising and solicitation for bids on two recent leases here, including one that will cost the taxpayers more than \$40 million over the next 10 years, only one bid was received in each case.

GSA officials complain that some private building owners don't want to rent to the government because of the red tape and delays involved. Many developers agree.

"Our members usually will rent to GSA only as a last resort," says Lisa Boyd of the Building Owners and Managers Association,

the lobby for commercial real estate interests here.

But when GSA officials tried to eliminate some of that red tape through a "fast track" program for smaller leases, the effort met with disaster. Not only did it take just as long to arrange the leases, but competition was even more sparse because GSA leasing officials ignored some of the usual requirements for bid solicitations.

In Albuquerque, N.M., for example, GSA investigators found that eight of the smaller "fast track" leases were arranged with no effort to seek competition. Similar instances were found in several other cities.

GSA officials also say they must seek longterm, fixed-price leases, and that discourages competition because landlords are leery of being caught short in rapidly escalating rental markets.

This situation, according to investigators, has led to leases that unnecessarily favor the landlord and limits efforts to audit claims of higher operating costs when they are submitted to GSA for payment.

Frequently, supposedly "firm" 10-year leases contain a clause permitting landlords to cancel after only a few months. In Dallas, one building owner exercised that right and then raised the government's rent 134 percent at an additional cost to the taxpayers of \$1.8 million

At the same time many landlords try to make up for below-market governments rentals by socking it to GSA for claims of higher quality, tax and janitorial costs. GSA auditors, who only recently have systematically begun examining such "escalation" claims, have found numerous cases of government overpayments totaling millions of dollars that were approved without question.

In one claim, a Kansas City landlord asked that the rent be hiked \$8.3 million over five years to cover higher operating costs. But when auditors checked his figures, they rejected over \$4 million of that amount and found that the government already had paid the landlord almost \$2 million more than he was entitled to under the lease.

Most of that overpayment can't be recov-

ered, say the auditors.

"We've been pushing to audit more of these escalation claims, but we've met with great resistance within GSA," says William Fleming, who heads the team of auditors responsible for the leasing program.

Despite the complaints of some private developers, many others have found it highly profitable to deal with the government.

"Why shouldn't they?" asks one top GSA official. "We give them everything they want."

[From the Pittsburgh Press, July 16, 1981] SHREWED HANDFULL RAKES IN U.S. RENTALS

(By Gene Goldenberg)

Washington.—Most taxpayers never heard of Dr. Laszlo Tauber.

But at the General Services Administration, the federal government's huge housekeeping agency, mentioning his name causes folks to sit up and pay attention.

Tauber, an Arlington, Va., surgeon and self-made real estate millionaire, is king of the hill in renting office space to the federal government.

He owns or controls almost 3.5 million square feet of office leased to the GSA—the equivalent of the commercial office space in downtown Miami, and just under 4 percent of the 90 million square feet of offices the government rents.

He is among a handful of private developers who repeatedly have underbid the competition—or obtained leases without competition—to become major landlords for the 420,000 federal workers housed in rental offices around the country.

The landlords include Washington-area developers such as Tauber, the Charles E. Smith Companies and the Donohoe Construction Co., as well as individuals and companies such as Franklin Haney of Chattanooga, Tenn., and Atlanta; and the Trammell Crow Co. of Dallas.

They also include foreign governments and labor unions

The government of Kuwait owns one of the largest buildings leased by the GSA here, and the Teamsters Union Central States Pension Fund owns a large complex of offices in Austin, Texas, rented for the Internal Revenue Service and the Veterans' Administration.

How these rental kings have been so successful was part of a two-month Scripps-Howard News Service investigation of GSA's massive rental program, which is so fraught with mismanagement and potential fraud that GSA's own auditors estimate that \$100 million of the \$680 million the government will spend on renting offices this year will be wasted.

The picture that emerges is one of shrewd businessmen intimately familiar with the inner workings of the GSA, usually because they have hired former top GSA officials to arrange their deals.

More often than not, these successful landlords have put together competition-beating development deals by obtaining land or existing buildings at bargain-basement prices and then using government leases as collateral to finance their projects at belowmarket interest rates.

Despite charges from their competition that political connections are the key to success, intensive investigations of several large landlords by the GSA's inspector general have revealed no illegalities.

"Knowing the right people hasn't hurt some of these guys, but neither has it been the reason they got the contracts," explains one federal investigator.

Still, controversy surrounds some of these rental kings. Haney's deals with the government have been questioned because he is a former candidate for governor of Tennessee and a major Democratic fund-raiser.

Haney almost always gained control of rented by the government in the Southeast, including buildings in Atlanta; Memphis, Tenn.; Chattanooga; Birmingham, Ala.; and Tampa and Fort Lauderdale, Fla.

But an inspector general's investigation of Haney's government leases found that:

His low bid for the rental of an IRS service center in Memphis came only after GSA officials leaked the original low bid, which was submitted by Tauber, to the news media. But everyone, including Tauber, had a chance to resubmit bids.

Haney almost always gained control of properties after the GSA had advertised its space needs, and he usually did it by buying inexpensive options on undeveloped land or on buildings in financial trouble that could later be purchased at below-market prices.

In one case, he took an option to purchase a building he intended to rent to GSA 25 days after he submitted his leasing bid to the government.

Haney made excellent and legal use of a former top GSA official, Theodore Sachs, whom Haney hired to help arrange the government rental deals.

There is no evidence that Haney had any "inside" information. In short, Haney—who declined to be interviewed about his GSA leases—made offers too good for the government to refuse.

"He is simply an extremely sharp businessman," says Loretta Brooks, a GSA leasing official who negotiated two of Haney's leases. "Once, when the comveting developers complained about favoritism, I invited them all into my office and laid out the bids on the table, and they just walked away shaking their heads."

of the Memphis IRS project by Haney's "friends" at GSA, has used many of the same sharp practices.

"Money talks," he said in an interview,
"and I get my money to talk by buying the
least expensive land for my buildings."

That's how Tauber became the low bidder for one of the most controversial rental deals ever arranged by the GSA. A new office building Tauber built at a place named Buzzard's Point remained empty for almost two years, at a cost to the taxpayers of \$5.4 million, because no one wanted to work in that rundown section of southwest Washington. The GSA finally convinced two agencies to move in.

Tauber had bought the land for a fraction of the price that a plot in downtown Washington would have cost. And, as he has done with most of his government leasing projects, he constructed a no-frills building at a low price.

As a result, Tauber was able to beat out competitors who offered space in more desirable but far more expensive downtown locations.

The surgeon turned real estate developer also lacks little when it comes to driving a hard bargain with pliant GSA officials.

When the GSA became unhappy with janitorial services at a huge building Tauber owns in Rockville, Md., he offered to reduce the rent if the government would pay for cleaning and utility costs. The GSA, which rents the building for a major contingent of Health and Human Services Department workers, quickly agreed.

The catch, according to the congressional General Acounting Office, was that Tauber knocked only \$993,000 off the annual rent, when GSA officials knew the cleaning and utility bills were more than \$1.7 million a year.

The GAO estimates that the deal will cost taxpayers more than \$9 million over the remainder of the 20-year lease.

Despite such successes, Tauber echoes the complaints of many private developers who contend that it is difficult to deal with GSA red tape and bureaucratic delays. He says he no longer is interested in renting to the government.

"If you make money off of them, you're accused of improper practices," he says. "And if you lose money or get into a dispute with them, then you can't get them out of your building."

Still, the Building Owners and Managers Association, the lobbying group for commercial real estate developers, has adamantly opposed congressional proposals to mandate less government leasing of space and more construction of federal buildings.

"The developers don't want to rent to the government when office space is tight and private tenants are willing to pay more, but they certainly want us around when there are plenty of 'Offices for Rent' signs in town," says a top GSA official.

[From the Pittsburgh Press, July 17, 1981] U.S. RENTAL REFORM PUT OVER PORK BARREL

(By Gene Goldenberg)

Washington.—On Capitol Hill, an often angry dispute over a popular species of "pork barrel" has caused an impasse in the 2-year-old effort to reform the federal government's wasteful and mismanaged rental program.

wasteful and mismanaged rental program.

Every congressman knows that "pork barrel" is the time-honored system of rewarding selected legislators with federal buildings in their home district.

And every congressman who knows anything about the General Service Administration's soon-to-be \$1 billion-a-year program of leasing space for federal workers agrees

that GSA should be building more offices and renting less

The only hitch to this patronage-larded scheme is that key members of the Senate and House can't agree on the process by which Congress should approve the new federal buildings.

So bitter is the dispute that efforts last December to iron out differences between Senate and House versions of a leasing reform bill disintegrated into public namecalling between angry legislators and brought the death of the proposed legislation.

Now, the battle lines have been redrawn with the passage in May of a new, somewhat watered-down Senate bill. This time, however, there is a new combatant—the Reagan administration with its own prescription

for curing the leasing disease.
Whatever happens in Congress, President Reagan's new GSA administrator, Gerald Carmen, has pledged to clean up the waste and abuse that permeates the massive leasing program. And as a result of questions raised during a two-month Scripps-Howard News Service investigation of GSA renting practices Carmen has started his own inquiry.

He has asked GSA's chief auditor, Howard Davia, to come up with a plan for proper management of the rental program. Davia estimates that \$100 million of the \$680 million GSA will spend on leasing this year will be wasted.

There is a broad consensus on the need to reshape the leasing program. Key members of the Senate and House public works committees, which oversee GSA, agree that:

Dozens of new federal buildings are needed to reverse the trend that in the last 20 years has seen the proportion of federal workers in leased office space rise from less than 18 percent to more than 50 percent.

Congress and successive administrations have spent less than \$100 million on new federal buildings in the past five years and there is no money for new construction in the fiscal 1982 budget.

GSA must develop a long-range "master plan" and annual programs to implement it so that within 10 years at least 60 percent of all federal workers are housed in governmentowned buildings.

Rented space should not be used-as it now is-for major government computer operations. sensitive national security functions, federal courts or whenever a private building requires costly structural or me-chanical alterations to meet government needs.

And no funds should be spent for major renovation of rented offices without spe-

cific approval from Congress.

Leased space should be acquired through competitive, sealed bids rather than the present system of negotiating with selected landlords that has led to an absence of com-petition in the awarding of multimillion-dollar rental contracts.

GSA must begin to maintain detailed records on the space it manages, both in leased and government-owned buildings, and report regularly to Congress on operating costs. the amount of vacant space and plans to fill those empty offices.

"It's probably stupid for us to legislate that GSA report to us on the vacant space they are renting, but it's also stupid for them not to have had this information when we asked for it in the past," explains Robert Peck, an aide to Sen. Daniel Moynihan, D-N.Y.

The stumbling block is that Senate forces, led by Moynihan and Alan Simpson, R-Wyo., want to change the way Congress approves new federal buildings and major leasing actions—a change that is adamantly opposed by House leaders.

Under a 1959 law, GSA must submit proposals for new buildings or major leasing ac-tivities to the House and Senate public works

committees for approval. These projects need not be submitted to the full House and Senate, but once authorized by the two com-mittees they may be included in the annual public works appropriations bill.

The 1959 law also allows the two committees to request GSA to study the need for a federal building in a specific city and report back. Those requests have inevitably formed the basis for most of the new federal buildings approved by Congress in recent

That's where the "pork barrel" comes in.
"The House committee has ordered up projects that are near and dear to it, usually by members high in seniority," Simpson said. "It's a ghastly way to do business.

So the Senate wants all of GSA's building and leasing plans to be included in an annual authorization bill that would have to be passed by the full House and Senate. The projects in such a bill would be based solely on the priorities set by GSA in its carefully justified "master plan." This would reduce the ability of individual members to include unneeded "pork barrel" projects, claim Senate proponents.
"Nonsense," counters Rep. Elliott Levitas,

D-Ga., a leader of the House committee forces. "If there were an annual bill on the floor, members would load it up with costly pet building and leasing projects in their home districts. The work would be coming out between your toes and your ears."
As if the "pork" dispute was not enough

the Reagan administration has opposed a plan, which is backed by both the House and Senate, to permit GSA to borrow from the treasury the funds needed for the planned new program of building construction. This so-called time financing plan would require GSA to repay the treasury with interest over 30 years.

Under pressure from the White House Office of Management and Budget, which op-poses any new borrowing authority, the Sen-ate struck the "time financing" plan from plan from its bill this year. But House and Senate leaders, as well as GSA officials, fear that Congress and the White House will be reluctant to come up with the new construction money without this provision.

"I don't believe in the tooth fairy," says a former GSA public building commissioner,

A. R. Marschall.

GSA estimates it will take a five-year, \$5.7 billion construction program to eventually bring the proportion of federal workers in leased space below 40 percent. The Congressional Budget Office believes it would cost more in the vicinity of \$2.5 billion. Either figure is high in the present era of budget con-

Everyone agrees, however, that the long term savings in reduced rental costs would more than pay for that construction.

As an example, the GSA "master plan" calls for a new \$160 million federal building in San Francisco. At projected rental rates, it would cost \$26.8 million a year-or \$804 million over 30 years—to rent the same amount of space. That's a savings of at least \$644 million by

constructing just one building instead of leasing, an official noted.

To put that argument across, both the House and Senate reform bills would bring "truth in budgeting" by requiring GSA to include the total projected cost of leasing rather than the annual rent tab it submits in its yearly budget.

"We want everyone to know what they're approving," said one House staffer. "The fiscal 1982 budget request for GSA rentals is about \$750 million, but that really translates into long-term government obligations of more than \$4 billion over the full term of all those leases."

But even if Congress approves a major new federal building construction program. Car-men cautions that "this may not be the time for a new building program in the midst of an inflationary spiral.

Whatever happens in Congress, Carmen has pledged to clean up the abuses and waste that

permeate the leasing program.
"I'm dealing with the future, not the past," he says. "It took GSA 21 years to get where we are today and I don't expect to solve our problems in the next month or even the next year."

ARRESTS OF HUMAN RIGHTS AC-TIVISTS IN CZECHOSLOVAKIA

Mr. KENNEDY. Mr. President, during the past 3 months, Czechoslovak police have arrested 26 Czech and Slovak human rights activists on charges of largescale subversion. According to Amnesty International, the Helsinki Commission, and others, however, these activists were arrested simply for trying to peacefully exercise their human rights and civil liberties.

Although 18 of these activists have now been released, 10 remain under investigation and may still be tried by the authorities. Eight activists are still under arrest, and their trials can be expected very soon; if convicted they face prison sentences of up to 10 years.

This new wave of arrests can only recall the repression of the 1968 Prague spring. It represents a Government effort to completely suppress the char-ter 77 human rights movement in Czechoslovakia.

Mr. President, these arrests clearly violate Czechoslovakia's obligation to respect human rights under the Helsinki accords. On the eve of the trials of these human rights advocates, I call upon the Czechoslovak Government to immediately release those still under arrest, and to halt the persecution of the other activists still under investigation. I ask that the names of those Czechoslovak activists still in detention, as well as those who have been released but are still under investigation, be printed at this point in the RECORD, along with the section on Czechoslovakia in the "Amnesty International Report 1980" which cites those human rights activists currently in prison.

The material is as follows:

Those still under arrest: Jaromir Horec—poet. Eva Kanturkova-novelist. Karel Kyncl-former journalist. Dr. Jan Mlynarik—Slovak historian. Jan Ruml-worker. Jan Rumi—worker.
Jiri Rumi—former journalist.
Dr. Jirina Siklova—sociologist.
Dr. Milan Simecka—historian. Those who have been released but are still under investigation: Dr. Jiri Hajek—former foreign minister.

Ivan Havel-engineer.

Olga Havlova. Karel Holomek-engineer.

Dr. Josef Jablonicky—historian. Dr. Zdenek Jicinsky—professor.

Mojmire Klansky. Miroslav Kusy—Charter 77 Spokesman (Slovakia).

Dr. Jaroslav Meznik. Jiri Muller-former student leader.

CZECHOSLOVAKIA

The main concerns of Amnesty Interna-tional were: imprisonment of people for expressing opinions disapproved of by the authorities: poor prison conditions for those convicted of political offenses: harassment and ill-treatment of dissenters by the police:

the death penalty.

International interest in human rights in Czechoslovakia centered on the persecution and imprisonment of members of the Committee for the Defense of Unjustly Persecuted. Vybor na obranu nespravedlive stihanyeh (VONS), which was established in April 1978 to monitor violations of human rights in Czechoslovakia. VONS is the most active section of the Czechoslovak unofficial human rights movement. Chapter 77.

On 29 May 1979 the State Security Police arrested 10 VONS members suspected of ac-tions hostile to the interest of the state. On 30 July Amnesty International informed the Czechoslovak President that it had adopted the 10 in pre-trial detention as prisoners of conscience and asked him to order that judicial proceedings against them be discontinued. On 11 September the Office of the Federal Procurator ruled that the cases of four of the accused. Jarmila Belikova, Dr. Ladislav Lis, Vaclav Maly and Dr. Jiri Nemec be removed from the indictment of the other six. The four were released on 22 December, but criminal proceedings against them were still continuing in April 1980.

The trial of the other six VONS members was held on 22 and 23 October 1979 before the Prague Municipal Court. The prosecution charged that the accused had prepared statements about people whom they considered to be "unjustly persecuted" and had circulated this information in Czechoslovakia as well as abroad with the intention that it be used against the Republic. On 23 October the court found all six defendants guilty of subversion "in collusion with foreign powers" and "on a large scale" (Article 98, part 1 and 2, sub-section (a) and (b) of the penal code) and sentenced Petr Uhl, an engineer, to five years' imprisonment: Vaclav Havel, a playwright, to four and a half years; Dr. Vaclav Benda, a philosopher and mathematician, to four years and Otta Bednarova and Jiri Dienstbier, both journalists, to three years. Dana Nemcova, a psychologist, was given a two-year sentence suspended for five years.

Amnesty International delegated an Austrian lawyer, Henry Goldmann, to observe the trial and the appeal hearing. He was excluded from both proceedings. On 20 December, he was detained for four and a half hours and expelled from the country for "interfering in Czechoslovakia's internal affairs". On 7 January 1980 Amnesty International protested to the Minister of Justice against the exclusion, detention and expul-

sion of its representative.

In a letter to the judicial authorities on 2 November 1979 and in an internationally distributed document about the trial, Amnesty International detailed the inadequacies of the proceedings: the trial was not public; it was hasty (each of the two days' proceedings lasted from 10 to 11 hours); no one was allowed to take notes of the proceedings; no defence witnesses were called and the defendants were frequently interrupted and were thus unable to present a proper defense.

Another VONS member, Albert Cerny, former actor who had been arrested on 26 March 1979 on charges of subversion (Article 98, part 1 of the penal code) was sentenced by the Regional Court in Brno on 27 November 1979 to three and a half years' imprison-ment for participation in VONS and for pos-sessing and disseminating "anti-state" texts.

Other cases of people sentenced to terms of imprisonment for exercising their right to freedom of expression and adopted as pris-oners of conscience by Amnesty Internation-al during the year include Professor Jaroslav Sabata, a psychologist and Charter 77 spokesman, serving a nine months' prison sentence who had 18 months added to his sentence. He was first sentenced in 1972 to six and a half years' imprisonment for subversion and

was released in December 1976 on three years' probation. In May 1979 the District Court of Prague 6 ordered that the 18 months remaining from his first sentence be added to the second nine months' sentence. An Amnesty International observer was refused a visa. Jan Zmatlik, a sociologist and Charter 77 signatory, who had been in pre-trial detention since August 1978, was convicted in July 1979 by the Prague Municipal Court of producing and attempting to disseminate "anti-state" materials and sentenced to three and a half years' imprisonment for "making preparations for the subversion of the Republic" (Article 7, part 1, and Article 98, part 1 of the penal code). In October 1979 his sentence was reduced to two and a half years' on appeal. Dr. Jaromir Savrda, a writer, was found guilty in August 1979 by the District Court in Ostrava of duplicating and circulating copies of the samizdat (unofficial) literary journal Petlice (Padlock) and sentenced to wo and a half years' imprisonment for incitement (Article 100), after 11 months in pre-trial detention. Dr. Josef Danisz, a lawyer who defended many Charter 77 signatories, was convicted in January 1980 by the District Court in Hradec-Kralove of "insulting a public official" (Article 156, part 2) and "insulting a state organ" (Article 154, part 2) and sentenced to 10 months' imprisonment. The court also disbarred him for two years. In September 1979, acting as defense lawyer for Professor Jaroslav Sabata, he criticized the Chairman of the Court for his conduct of a trial in 1978 and complained about the brutal treatment of another Charter 77 signatory by the police. The persecution of Dr. Danisz goes back to the autumn of 1975 when he complained to the authorities that a public official had threatened him with assault. In March 1979, the Association of Prague Lawyers expelled him for unprofessional conduct. etr Cibulka, a worker and Charter 77 signatory serving a two-year sentence, went on hunger strike because of unacceptable working conditions in prison and repeated physical attacks on him by nonpolitical prisoners. For this he was tried in January 1980 by the Plazen Municipal Court and sentenced to a further six months' for "frustrating the pur-pose of custody". The Procurator appealed against the verdict and called for a five-year sentence. In March 1980 the appeal court quashed the six-month sentence and imposed a one-year sentence.

Widespread harassment of Roman Catholic priests and laity was reported in the second part of 1979. According to incomplete reports, by the end of December 1979 at least 20 people had had their homes searched, at t 40 had been questioned by the police and in Moravia and Slovakia alone at least 10 were detained for up to 48 hours. During house searches police seized large quantities of religious literature, pictures and photographs and printing and copying equipment. Eleven people were charged and six of them remanded in custody: Josef Adamek, a retired printer, Jiri Kaplan, an engineer, Jan Krumphoic and Josef Vicek, both workers and two Jesuit priests, Frantisek Lizna and Rudolf Smahel. The remaining five, Josef Brtnik, Svatopluk, Krumpholc, Tomas Kvapil, Dr. Mecislav Razik and the well-known theologian, Dr. Josef Zverina, were released from detention but the authorities continue to

investigate their cases.

Jiri Kaplan and Dr. Josef Zverina were charged with "obstructing the state supervision of churches and religious societies" (Article 176) and the remaining nine with "illicit trading" (Article 118). The six who were remanded in custody have been adopted by Amnesty International as prisoners of conscience. Jiri Kaplan was released from custody at the end of December 1979 and the remaining five early in January 1980. At the time of writing Amnesty International had not learned that criminal proceedings against any of the 11 have been dropped.

On 16 November 1979 the police searched the homes of five Slovak Roman Catholic priests and a number of Roman Catholic laity in Presov in Slovakia. Criminal proceedwere initiated against the 65-year-old Jesuit priest, Oskar Formanek, accused of saving mass in private houses, of condemning communist atheism, of having loaned religious books and of having been in contact with religious bodies in the West. It is alleged that he was interrogated on 12 occasions and that he had to be taken to hospital. His condition has been described as serious. His trial was to be held on 12 January 1980 in Presov but it has been postponed twice.

During the year prison conditions continued to fall below internationally accepted

standards.

Petr Cibulka has been continually beaten up by fellow prisoners and forced to carry out work for which he is not physically fit. In May 1979 he was punished by being transferred to an underground cell and put on half rations. Amnesty International appealed to the authorities on his behalf in May and July 1979, and in September 1979 when reports about his ill-treatment per-sisted, urged the Minister of Justice to see that he was treated humanely. In February 1980 it learned that he had again been placed in an underground cell, that his food ra-tion had been cut and that the beatings by non-political prisoners were still happening.

During the year under review many people holding views disapproved of by the authorities were persecuted in ways which did not involve imprisonment. Many dissenters were repeatedly detained, mostly for up to 48 hours, and summoned for questioning by the police: their homes were searched, in some cases without a police warrant, and they were brutally treated by the police.

On 30 October 1979 State Security Police took Jiri Legerski, a former miner and a Roman Catholic, who is suffering from a malignant cancer, from the hospital Opava. They searched his home twice and took him twice to the police station for interrogation in connection with criminal proceedings instituted against a group of Roman Catholics accused of disseminating religious literature. When he refused to answer any further questions, he was taken back to the hospital, completely exhausted. in the middle of the night.

On 4 November Ivan Kyncl was beaten up by the police for refusing to be photo-graphed and fingerprinted during a 48-hour detention. He was one of nine people who had been arrested on 2 November on suspicion that they were preparing an act of terrorism. All nine were released without

charge after 48 hours.

On 25 January 1980, after police had broken up a private performance in the flat of their friend, Rudolph Battek and Ivan Kyncl were handcuffed and taken separately to a remote village some 60 kilometres from Prague and abandoned there after questioning.

Two people known to the authorities for their dissenting views were forcibly confined in psychiatric institutions. Tomas Liska, a student was confined to the psychiatric hospital in Prague-Bohnice on 23 August. On 31 August he was transferred to another psychiatric clinic in Prague from which he was released on 3 September. Tomas Liska and two friends had been arrested on 20 August in Poland when they tried to join Polish human rights activists in a hungerto protest against the detention 11 VONS members in Czechoslovakia, They were escorted to Prague and Tomas Liska's two associates were released on 23 August. Professor Julius Tomin, one of the dissenters subjected to continuous harassment, was arrested on 5 October 1979 in northern Bohemia and taken to the psychiatric clinic in Horni Berkovice, where he was given injections against his will. He was released on 8 October.

During the year Amnesty International learned of the execution of two Czechoslovak citizens convicted of murder. One of them was Robert Bares, whose death sentence in September 1978 provoked strong protests in Czechoslovakia as well as abroad. In April 1980 Amnesty International had

38 cases under adoption and investigation.

LEGAL SERVICES CORPORATION

• Mr. MATHIAS. Mr. President, last week the House and Senate conferees on the budget reconciliation measure decided to take the question of funding for the Legal Services Corporation out of the budget bill and leave it to the normal authorization and appropriation process. I urge all my colleagues to join me in supporting this important task now before us.

During the first 6 months of this Congress, we have devoted most of our energies to executing the mandate the people voted in 1980 for substantial cutbacks in the Federal budget and the public sector of the economy. Everyone realizes that these new policies, whatever their long-range beneficial consequences for the economy, are going to make many aspects of life more difficult in the short run for the poor in our country.

For this reason, it is critical that the Legal Services Corporation be preserved intact and be given the strong vote of conflidence it deserves from this body. As the impact of budget cuts begins to be felt, at the local level, the need for insuring continued access to our country's system of justice for low-income individuals and families will become more and more pressing.

On June 18, the House passed a Legal Services reauthorization measure for fiscal years 1982 and 1983, agreeing to a \$241 million funding level. Last week, the House also agreed to the same funding level in the appropriations bill for the Corporation. On July 29, the Senate Labor and Human Resources Committee filed its report on the reauthorization bill it approved earlier this summer, S. 1533, authorizing a spending ceiling of \$100 million for the Corporation.

I was a cosponsor of the original Legal Services reauthorization bill in the Senate, S. 939, which would maintain the Corporation's current \$321.3 million funding level through next year. I regret that the Labor and Human Services Committee has reduced this figure by over two-thirds in its authorization bill. However, I am also cosponsoring the committee bill, in anticipation of an effort on the floor to raise the funding level in S. 1533 to at least the Houseapproved figure, which I will vigorously support. The majority leader has indicated that this measure will be scheduled for action in the Senate this year.

Although the prospects for reauthorizing the Legal Services Corporation are looking bright, we should not fool ourselves that this will be more than a partial answer to the need for legal services for the poor. Especially in view of the probable reduction in the current funding level of the Corporation (\$321.3 mil-

lion), it is imperative that the voluntary efforts of the private bar in this area be redoubled to compensate for the budget cuts and resulting reduced resources for local legal assistance offices.

Both the House and Senate Legal Services authorization bills this year contain a provision instructing the Corporation to devote greater attention to ways of involving private attorneys in legal assistance programs on this basis.

In this connection, I was pleased to note the recent creation of the Maryland Volunteer Lawyers Service, a statewide coordinating office for organizing voluntary legal services to the poor by the private bar. The primary purpose of the service will be to establish a referral procedure that will insure that law firms and individual attorneys, who wish to volunteer some of their time and expertise to providing legal assistance to the poor, will be able to spend their time in the most productive way with the most needy clients. In addition, the service will offer educational programs and distribute literature as well as develop a library in the areas of law that volunteer attorneys are most likely to become involved in.

The Maryland Volunteer Lawyers Service was established on July 1, with the support of the American Bar Association, the Legal Aid Bureau, the Legal Services Corporation, the Maryland Bar Association, the Maryland Bar Foundation, and the Maryland Judicial Conference. I have been proud of what Maryland's Legal Aid Bureau has been able to accomplish with the help of the Legal Services Corporation, and I am confident that the Volunteer Lawyers Service will also become an exemplar for similar initiatives in other States. The time has come for shoring up our legal services and reaffirming our commitment to equal justice under law.

ANNIVERSARY OF BOLIVIAN INDEPENDENCE

• Mr KENNEDY, Mr. President, last July 17 marked 1 full year of military rule in Bolivia under Gen. Garcia Meza. The military coup of last summer brought to an abrunt halt the promising progress of the Bolivian people toward democracy in their nation and toward breaking the past cycles of authoritarian rule and repeated military interventions into their political life.

One year ago Bolivia was at a crucial juncture: 80 percent of the eligible voters had just participated in national elections, and a new coalition government was preparing to take office. when the three-man military junta staged a coup against the interim government. Leading public figures were immediately removed through murders, arrests, or exile. All political and union activity was prohibited. Journalists were exiled, and press freedom was dramatically cur-

In the year since the coup, independent international observers have documented a sharp decline in the Bolivian economy, widespread corruption reaching to the highest levels of government,

and chronic, repeated abuses of human rights. According to the Washington Office on Latin America,

At least 2,500 people have been arrested since the coup. There are numerous testimonies of torture from union leaders, journalists and priests, themselves victims of persecution, beatings and torture.

Bolivia's military leaders have not only suppressed basic human rights and political and economic freedoms; they have engaged in extensive corruption including the reported trafficking of drugs within this hemisphere. There is, therefore, no justification whatsoever for the United States to improve relations with the Bolivian military regime. I call upon the administration to press for an end of the drug traffic and an end to the violations of basic rights in Bolivia.

Mr. President, on August 6 Bolivia will observe the 156th anniversary of its independence from Spain-an anniversary of which all Bolivians are rightly proud. But as long as human rights abuses continue, and the popular will is thwarted by the Bolivian military, this anniversary can only reinforce the determination of the Bolivian people to achieve true independence-independence from repression and authoritarian rule. I request that a summary of events in Bolivia since the 1980 coup, prepared by the Washington Office on Latin America, be printed at this point in the RECORD.

The summary is as follows:

BOLIVIA: ONE YEAR AFTER THE COUP

On July 17, 1980, the military forces of Bolivia staged a coup which prevented president-elect Hernan Siles Zuazo from taking office and brought the government of Luis Garcia Meza to power. The first year of rule under the Garcia Meza regime has been characterized by human rights violations, severe economic difficulties, corruption, disunity, and lack of support. The consequences for Bolivia have been the following:

VIOLATION OF HUMAN RIGHTS

A. The Right to Life.—Military occupation of the mines and the continuing repression by security and paramilitary forces led to the deaths of scores of citizens subsequent to the July 17 coup. Prominent political leader Marcelo Quiroga Santa Cruz was killed the day of the coup. The invasion of the mining district of Caracoles in August of last year resulted in an Amnesty International report of a total of 900 miners who were arrested, killed, or had to flee the area. Eight top political leaders of the UDP coalition (winner of the last three elections in Boliva, and all belonging to the MIR party) were assassinated on January 15 of this

B. Freedom and Security of the Person. At least 25,000 people have been arrested since the coup. There are numerous testimonies of torture from union leaders, journalists and priests, themselves victims of persecution, beatings, and torture.

C. Freedom of the Press.-Forty Bolivian journalists have been arrested and sent into exile since the coup. Ten foreign correspondents were either arrested, expelled, or had to flee the country. The Catholic news-paper, Presencia, was closed for a week, and 27 radio stations were shut down, several of them destroyed.

D. Freedom of Association.—Union and political activity has been declared illegal. Union leaders have been killed, wounded, and expelled, as have been political leaders of all ideological positions, from leftist to centrist to rightist.

ECONOMIC CHAOS

The enormous foreign debt of 3.5 billion dollars inherited by Garcia Meza has been complicated by rising innation rates which have reached 60% and by an inability to formulate a responsible and coherent economic policy. The National Conederation of Private Businessmen, usually a supporter of military governments, especially criticized the regime for "the lack of clear objectives and strategles" to confront the serious economic crisis affecting the country. Compounding the economic difficulties has been the failure of the government to receive help from the multilateral development banks and the International Monetary Fund, which refused the final installment of a 5 part stand-by loan last December and since then has not granted any new stand-by facilities.

OFFICIAL CORRUPTION

Official government involvement in the cocaine traffic is notorious and amply documented, such as in the "60 Minutes" report, "Minister of Cocaine", which displayed documents from the files of the Bolivian Interior Ministry linking key members of the government with the cocaine traffic. Despite the change of several of these ministers, military involvement in the international drug traffic continues. Recently, the three members of the ruling junta were implicated in the lilicit export of precious stones mined on state owned land for the personal economic benefit of the junta.

The United States has held firm in denying recognition and economic and military aid to the present regime. All indications are that it will continue to do so until the present military rulers demonstrate that they can come to grip with the fundamental problems besetting the country and the regime.

MARYLAND STATE FAIR'S CENTEN-NIAL CELEBRATION

• Mr. SARBANES. Mr. President, when the Senate reconvenes after Labor Day, the 100th Maryland State Fair will be history. This centennial celebration of fun, education, entertainment, and competition has 10 full days of agricultural events, home arts exhibits, and spectator events, including a week-long horse show, farm queen contest, 4–H Animal World, horse pulling contest, and a truly fabulous flower show. There will be special ceremonies and events celebrating the Maryland State Fair's 100th anniversary of promoting Maryland Agriculture.

One hundred years ago the Maryland Journal of Towson, near Timonium, where the fair is held in Baltimore County, recorded the excitement and expectations preceding the first fair.

They were all-agog concerning the approaching opening of an Agricultural Fair at Timonium—the girls are reserving their brightest ribbons and their sweetest smiles to be admired at Timonium; matrons are patting their choices butter and reserving their most toothsome preserves for exhibition at the Fair; the gray beards are fattenup their best herds of cattle for similar purpose; while the lads are grooming their Rosinantes and preparing to bet their bottom dollar on their "bobtail nags" while somebody will bet on the gray.

This agricultural fair did open on September 9 on a crisp and perfect autumn day—1879 as fair president Samuel Brady ran up an American flag that dated back to 1856, one that had flown over the quarters of the Jacksonian Democratic Association in Washington, D.C.

Mr. President, Paul E. Carre, editor of the Maryland State Fair and Agricultural Society, has prepared a centennial survey of the development of the Maryland State Fair and its growth over the past 100 years. I ask that Mr. Carre's article, "The New Timonium," be printed in the Record at this point.

The article follows:

THE "NEW TIMONIUM"

General Manager, Howard M. Mosner of the Fair, buoyed by the financial resources provided by the State for expansion, said in 1976 "this is the beginning of a 'new Timonjum'."

Fairgoers who come to the Fair in 1981, its centennial year, will see proof of Mr. Mosner's prediction.

A new livestock pavilion provides 1,200 stalls, a 200 by 60 ft. show ring, a "milking parlor", extensive cattle washing areas, and lounges for exhibitors.

The horse show program also has a new home, which includes a 500 seat amphitheater, a 250' x 125' show ring, a fenced warm-up area and three barns with stalls for 160 horses.

160 horses.

A new Exhibition Hall containing 38,400 square feet for commercial exhibits was completed in time for the 1979 fair. This building has been a tremendous asset for the fair as well as during the "off season" when many and varied events are scheduled.

The need for a better facility for the 4-H-FFA and the Home Arts departments has long been recognized. In 1981 a new building will be ready for these exhibitors and will greatly enhance the many interesting exhibits and displays developed by these participants.

Completing the capital improvements program is the refurbishing of the Swine, Sheep and Goat barn. Additional pens will be provided for the exhibitors and this building's appearance will be modernized to conform with the other new structures.

In addition to the exhibits of livestock, farm and garden products, household manufactures, 4-H projects, and commercial exhibits, there are the offerings of the family-oriented midway and the entertainments provided by shows in the grandstand in the evenings.

WHAT IS THE FAIR LIKE IN ITS CENTENNIAL YEAR OF 1981?

The fair today presents a mixture of the "old" and the "new".

There have been many changes over the years.

The size of the Fairgrounds has grown to 100 acres; the old cowbarn has become the Cow Palace with mechanical ventilation; the carriages and hitching posts have given way to parking lots with attendants; and, the train, the wagon and the carriage have been replaced by the truck and automobile. The tents, the farm wagon and the Inn—where people stayed during the fair are gone. Timonium Mansions and the Inn have been replaced by auto dealerships and a bank. Gingham, calico and overalls have yielded to polyester and jeans; wells replaced by drinking fountains and "W.C.s" by indoor plumbing.

But much remains of the "old": the features of the racing, the agricultural exhibits, the projects of the 4-H, the articles of the household arts and many activities of the midway.

This mixture of the "old" and the new is the charm of the modern agricultural fair.

In 1980, the Fair offered \$150,000 in premiums and awards. Some 6,000 exhibitors entered 17,000 exhibits—nearly a half-million Fairgoers had the opportunity during the eleven day show to view these exhibits.

The fairground at Timonium has become an important community center, serving and promoting the interests of many groups, especially those of agriculture and animal husbandry, throughout the State of Maryland and beyond its borders.

Fairgoers, approximately a half-million, now come to the annual event.

Many of these fairgoers set aside on their calendars, a family day at the Fair—a kind of holiday—a "last fling" as it were, which separates the more relaxed pursuits of summertime from the more demanding ones of autumn.

On this day, the fairgoers may choose to watch the races—even risk a bet; sample the food and play the games on the Midway; and view the thousands of exhibits which come from the farms, gardens, pastures, orchards and households that have been prepared and brought to the Fair by individuals, families and groups devoted to agriculture.

In providing an annual opportunity for the showing of these agricultural exhibits, the Fair is demonstrating its main purpose—its goal—the continuing improvement of agriculture in the State of Maryland.

These annual shows are the Commencement Exercises of loosely federated units—be they farm families, or such groups as the Farm Bureau, the Grange, the 4-H, the Central Beekeepers Association, the Extension Services, the Maryland Department of Agriculture. Instead of diplomas, the rewards are premiums and ribbons—but more important than these tangible signs is the admiration of the quality of the exhibits, and a recognition of their importance in efforts to improve agriculture.

As further evidence of the Fairground as an important community center, Management is the host for the meetings and activities of many groups—some agricultural, others representative of various group interests.

In addition to the Annual Show, devoted to promoting the efforts of those engaged in Agriculture and Animal Husbandry, the Management of the Fair tries to serve the interest of many other groups by allowing them to use the facilities of the Fairgrounds for their meetings, shows and contests. During 1980, from March through December, 72 Organizations held affairs on the Timonium grounds, representing the varied economic and social interest of the Community.

Mr. Grove Miller, President of the Board and Mr. Max Mosner, General Manager—on behalf of the Board of Directors of the Maryland State Fair invite you to respond to its call—the same call coming down from our colonial ancestors at fair time—"Heigh-Ho, Come to the Fair" especially this year its Centennial Anniversary.

BUILDING CONSENSUS ON NATION-AL FOREST MANAGEMENT

 Mr. HATFIELD. Mr. President, many of my colleagues are aware of the critical impact Federal land management has on life in the so-called public land States of the West. Decisions on the use of Federal land resources affect nearly every aspect of life in Western communities, including the economy, recreation, esthetics, wildlife, water quality, supply of lumber, essential minerals, and energy. Too often in the past, management decis'ons have been left to the managers alone. With the growing public interest in land management, however, there has been a notable effort on the part of those interested in and affected by land use decisions to get involved in the process. Congress has recognized this in recent

legislation, including the Forest and Rangeland Renewable Resources Planning Act, the National Forest Management Act, the Federal Land Policy and Management Act, and other laws which mandate public involvement in Federal

land planning.

The essential question remains: How do the management agencies carry out the laws? We all know that formal public meetings can be conducted in which the public has the opportunity to participate, and that these often result in frustration on the part of all those involved, even with a good faith effort on the part of the agency. This is often due to a complex decisionmaking process, a failure to understand the terms involved, and a feeling of polarization on the part of many interested groups and citizens. I know from my own efforts to resolve roadless area and wilderness issues of the wide gulf which separates many groups advocating additional wilderness areas and those which represent the forest products industry.

Clearly, innovative approaches are needed. I am pleased to note that region 6 of the Forest Service, which includes Oregon and Washington, is trying some new, unconventional approaches to resolving land management issues and to deal with the present polarization. The method being utilized is consensus-

building workshops.

The Forest Service is bringing together groups of their own employees with representatives of wilderness and timber industry groups, encouraging these individuals to look beyond their own particular positions, to learn more about those people they have recognized only as adversaries, to understand the other point of view, and to propose positive, creative solutions to land management conflicts.

Obviously, this is a major undertaking which requires true commitment and patience on the part of all those involved if it is to produce any meaningful results. I am aware of two recent all-weekend sessions conducted on the Willamette National Forest which appear to hold some real promise. This is particularly significant since the Willamette is the Nation's top timber producing forest of the 155 national forests. It also contains areas of magnificent beauty which offer excellent recreational opportunities and wilderness experiences. The conflicts on this forest have been great, both in num-ber and in intensity. The fact that those involved in these conflicts have been willing to spend their own time in group sessions to open up lines of communication with the "other side" is testimony to their commitment to wise national forest

Mr. President, I believe that this effort warrants special recognition and I wish to offer my thanks to those who have participated. As one who has been deeply involved in national forest management issues. I also wish to state that any concensus achieved by such groups should get very serious consideration by the top levels of the Forest Service and the Congress. I want to encourage those who have been involved thus far on the Willamette National Forest to continue their involvement, and to urge other national

forest managers and those of the Bureau of Land Management to look at this creative approach.

Special recognition is due Mr. Dick Worthington, the Regional Forester for region six; Mr. Mike Kerrick, the Supervisor of the Willamette National Forest, and Mr. Bob Chadwick, who has organized and led the sessions. Mr. Chadwick is a former Forest Supervisor who currently serves on Mr. Worthington's staff. It is often difficult to set aside the traditional methods of problem solving which one has practiced all of one's life, but I believe these times demand that we utilize new techniques which offer true opportunities for public involvement in critical issues. My own staff has participated in some of the meetings and I have received very positive reports. I wish to lend my strong support to the efforts I have outlined.

MAYOR YOUNG RECEIVES SPINGARN AWARD

(By request of Mr. ROBERT C. BYRD the following statement was ordered to be printed in the RECORD:)

 Mr. RIEGLE. Mr. President, recently, the mayor of Detroit, Coleman A. Young, received the NAACP's coveted Spingarn Award—the highest honor the association can bestow.

Mayor Young joins such great Americans as Dr. Martin Luther King, Jr., Rosa Parks, Supreme Court Justice Thurgood Marshall, and George Washington Carver in receiving the award.

Mayor Coleman Young is many things: An outstanding civil leader, a fighter, a compassionate man—a man who has always been willing to lead the battle for civil rights and equality for all

And in some of those battles, he has paid the price for speaking out against the tide. Regardless of this price, Coleman Young fights for what he believes in, with the best interests of the people foremost in his mind. He has been and will continue to be the most able spokesman and leader for the citizens of Detroit.

Coleman Young has been at the forefront of the effort to lead the great ren aissance of the city of Detroit and its

people.

Mr. President, on June 30, 1981, at the NAACP National Convention in Denver, Colo., the Honorable Damon Keith, U.S. circuit court judge, presented the Spingarn Award to Mayor Coleman Young. Judge Keith's introduction of the mayor was as inspiring as the life and example of Coleman Young, and I ask that the introduction be printed in the RECORD at this time.

The introduction follows:

PRESENTATION OF THE 66TH NAACP SPINGARN MEDAL TO MAYOR COLEMAN A. YOUNG OF THE CITY OF DETROIT

Ladies and Gentlemen: This is a great day for the NAACP and black people in America. We are, this evening, honoring Coleman Alexander Young with the highest and most prestigious award that black people can bestow upon a fellow black American. It is the Nobel Peace Prize or the Pulitzer Award. It is the highest award that we, as a struggling

people, can bestow upon one who has done so much to lift aspirations and hopes of 25 million black Americans.

Three of the past recipients of this award provide ample evidence of the significance and the esteem in which the Spingarn Medal is held.

Dr. Martin Luther King, Jr.—a prophet who with "we shall overcome someday" moved an entire Nation, and with his eloquent words "I've been to the Mountain Top" is one of the previous Spingarn medalists.

Justice Thurgood Marshall.—The lone black voice on the Nation's highest court has kept the commitment of the Constitution and those four words inscribed on the U.S. Supreme Court "Equal Justice Under Law."

Justice Marshall has truly been a foot soldier for the Constitution and a drum major for justice. Thurgood is a prior recipient

of the Spingarn Award.

Rosa Parks.—Who by her refusal to get up out of a seat on a bus on a cold December day in 1955 in Montgomery, Ala., turned the entire Nation around to the injustice that was being inflicted upon black people in the South. She is now known, and properly so, as the mother of the civil rights amendment. Rosa Parks is also a recipient of the Spingarn Award.

Other Spingarn Medalists have been no less luminary:

Paul Robeson, W. E. B. DuBois, George Washington Carver, A. Phillip Randolph, Charles Hamilton Houston, John H. Johnson, Mary McLeod Bethune, and Roy Wilkins. I submit to you that the 66th Spingarn

I submit to you that the 66th Spingarn Medalist, Coleman A. Young, is in keeping with this high measure of excellence, self-lessness and commitment that the NAACP measures before it bestows this great and magnificent award. Coleman Young, in my judgment, has a Ph. D. with high honors from the university hard knocks and good common sense. Coleman Young is a political genius and has one of the most disciplined and brilliant minds to be found in America today.

He will not permit anything or anybody to interfere with what he thinks is best for his beloved Detroit and what is best for black people in America. As indicated just a minute ago, he is by all accounts a brilliant politician who has put together in Detroit a coalition of black and white. corporate and labor business people who are working together for the benefit of the people, white and black, rich and poor, of the city of Detroit.

His long career, and his tribulations in many ways are a microcosm of the black experience. His life mirrors the indomitable spirit of black people in America as they have struggled and continue to struggle for complete equality of opportunity. Because Coleman A. Young would not compromise his principles, he has in his long career been unemployed, blacklisted, maligned, discriminated against and persecuted. Coleman A. Young, the first black mayor of the city of Detroit, once summed up his life in a single sentence:

"Let's just say I've had some peaks and valleys, baby."

But no matter what adversity he has encountered, he has never once wavered in his commitment to the principles that we who are assembled here hold so dear.

Coleman Young is a man who has always "sailed against the wind." He has never listened when he has been told that there are things that he could not accomplish or things that he could not do.

As a political activist in the 1950's, Coleman Young did not listen when he was told that if he did not buckle under to the House Un-American Activities Committee he would be destroyed, that his career would be

ruined and that he would go to jall. In spite of the very real risks that he faced during his interrogation by the committee, he refused to be intimidated. When asked at one point by Congressman Charles Potter of Michigan what he knew about the Communist Party, Young answered, "You have me mixed up with a stool pidgeon, sir."

Coleman Young did not listen when in 1973 he was told that he could not be elected the first black Mayor of Detroit. It so happened that the law in the State of Michigan prohibited a state senator from running for Mayor at the time that Coleman launched his campaign.

But those who didn't know before soon found out that Coleman A. Young is a fighter. He initiated a lawsuit that eventually struck down the statute which would have kept him off the ballot.

Mayor Young assumed his office at a time when Detroit was at what then appeared to be its lowest point in history. Financially and spiritually the people of Detroit were exhausted. Crime was rampant; the financial base of the city was deteriorating; racial po-larization was widespread. There seemed to be little hope for progress in this city which, with its majority black population, in many ways symbolizes the hopes and frustrations of all black Americans. But those pessimists who said that Detroit had no future had not counted on the charisma, the ingenuity, the resourcefulness and the leadership of Coleman A. Young. There is now hope and progress in Detroit because Coleman Young, largely through the strength of his personality and example, has forged a coalition between the black and white communities, and between working people and the business community, to rebuild that city.

He has challenged the people of his city and the people of America, in Coleman's own words, to "step up and pay the price of the ticket to ride the freedom train of progress and equality."

It is a tribute to the Mayor's influence and powers of persuasion that just a week ago today the people of the city of Detroit, with one of the highest unemployment rates in the country, voted themselves an income tax increase at the Mayor's behest.

City revenues were desperately low, but when Mayor Young began his campaign for the tax increase, the popular perception was that such a thing could never pass. Yet, once again, the mayor would not listen when he was told that something could not be done.

So great is the confidence of the citizens of Detroit in their Mayor that he alone was able to convince them to impose upon themselves the sacrifice of a substantial tax increase.

We in the Judiciary are, of course, removed from the political arena, but even I can tell you that the Detroit man in the street won't hesitate to let you know that Coleman Young is: Strong enough, successful enough, smart enough, effective enough, and when he has to be, mean enough to be the great leader that he is and the great man that we honor this evening.

So I submit to you that no one who received this award has brought more unselfishness, more commitment to the cause of black people in every way.

Coleman, our honoree this evening, can hold his head high knowing full well that his entire life has been lived in such a manner as to reflect credit to his people and to the NAACP and to all that this organization stands for. In doing so, this great man has used his life to do something which outlives life itself. Many people in Detroit believe that they can sleep easier knowing that Coleman A. Young is working to address the concerns of black people in America. They believe that intuitively and instinctively he will come up with the right answer.

They may be correct about Coleman's politics, but more importantly for me as a judge, I believe that he is the type of human being that every black American can be proud of because he is totally committed to the cause of freedom, equality, fair play and yes, he is determined to make America live up to its commitment to all Americans.

In many ways, he challenges America to be true to its cause. In the Declaration of Independence it says:

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unallenable rights, that among these are life, liberty and the pursuit of happiness."

Ladies and gentlemen, freedom fighters all, lovers of liberty, justice and equality, please stand up and let us salute and join together in presenting Coleman Alexander Young, a great man and a great leader, with the NAACP's highest honor, the Spingarn Medal.

FREE ENTERPRISE WITHOUT POVERTY

• Mr. MOYNIHAN. Mr. President, nearly every day in committee and on the floor, my colleagues in the Senate discuss problems of the economy. In the course of this ongoing, important debate, we have come to realize that we need to revitalize all segments of our Nation's economic life. And, we can all agree that a primary goal of this revitalization is full employment.

But how can we have a renewed economy which provides economic security for all our citizens?

Dr. Leonard Greene, an economist and mathematician, has considered this question and proposed an answer in his new book, "Free Enterprise Without Poverty," Dr. Greene says that millions of people who are dependent on Government and private sector benefit programs are weighing down the productive potential of our economy. In his research, he has concluded that the welfare system acts as a disincentive to work.

Moreover, Government bureaucracy created to administer Federal benefit programs and industries established to profit from private social benefit programs work together to expand the system.

Dr. Greene has proposed a comprehensive plan for welfare reform that includes a work incentive, promotes the integrity of the family, offers uniform benefits, is integrated into our tax system, and is easy to administer. His proposal is called the graduated income supplement.

Outlined simply, every person in the Nation will receive a taxable income supplement of equal size. The supplement will be applied to the individual's income tax bill, reducing taxes owed by the amount of the supplement. If the amount of taxes owed is less than the supplement, the taxpayer will receive the difference as a cash refund.

A family with no income will receive the full amount of the supplement in cash payments. Because the supplement is taxable income, the net value is greater for those with lower incomes.

Dr. Greene's book outlines a step-bystep plan to reform the existing government "dependency system." The reforms adhere to the following principles:

First. Scattered, duplicatory, and contradictory programs should be consoli-

Second. Benefits should be paid in cash instead of services.

Third. Cash benefits should be subject to taxes in order to recoup part of the payments as recipients move up the economic ladder.

Fourth. The reforms should not increase the Federal Government's welfare budget. (This goal realistically can be achieved by substituting the income supplement for existing programs, by taxing cash benefits, and by saving money through increased efficiency.)

Mr. President and my colleagues, I have found Dr. Leonard Greene's book, "Free Enterprise Without Poverty," to be a thoughtful and thought-provoking analysis of the problems of our welfare system. I urge each and every one of you to study Dr. Greene's proposals carefully. The American nation and its people at all economic levels will be the beneficiaries.

THE TRUTH RESPECTING THE HIGHLY PRAISED AND CONSTITUTIONALLY DEVIOUS VOTING RIGHTS ACT

• Mr. EAST. Mr. President, I would like to share with my colleagues an important article on the Voting Rights Act recently written by Senator Sam Ervin of North Carolina. During his long and distinguished career in the Senate, Senator Ervin was widely recognized as one of this Nation's foremost constitutional authorities, and I daresay his contributions to the principles of limited Government have been exceeded only by his reverence for our Constitution.

When the Voting Rights Act was first considered by this body, it was Senator Ervin, swimming almost alone against the tide of public opinion, who led the opposition.

What the opponents lacked in numbers they more than made up in weighty disputation, thanks primarily to the brilliance of Senator Ervin and the shimmering power of his reasoning.

Now, some 15 years later, Senator Ervin is once again imploring Members to examine the provisions of this act closely and objectively against the constitutional standards of federalism and fairness.

Mr. President, I urge my fellow Senators to study Senator Ervin's analysis of this act and to weight his arguments carefully, not with a view toward the next election but the next generation, not toward the immediate political needs of the hour but the long-range goals of constitutional Government.

Since its adoption in 1965, the Voting Rights Act has undergone a major metamorphosis, in part because of the 1970 and 1975 amendments, but mainly because of Supreme Court interpretations of its key provisions. Thus the many constitutional objections to the act raised by Senator Ervin in 1965 take on an added significance today, as his article makes clear.

Mr. President, I ask that Senator Ervin's article on the Voting Rights Act be printed in the RECORD.

The article follows:

THE TRUTH RESPECTING THE HIGHLY PRAISED AND CONSTITUTIONALLY LE-IOUS VOING RIGHTS ACT

(Statement of Sam J. Ervin, Jr. of Morganton, N.C., a former Justice of the North Carolina Supreme Court and a former United States Senator from North Carolina, July 1981.)

THE VOTING RIGHTS ACT

Mark Twain is reputed to have expressed this admonition: Truth is precious, use it sparingly. I will ignore the admonition, and tell the truth concerning the highly praised and constitutionally devious Voting Rights Act.

The Voting Rights Act was enacted by Congress in 1965 as legislation it deemed appropriate to enforce the Fifteenth Amendment. Subsequent to 1965, Congress amended the Act in comparatively minor respects and continued it in force .t is scheduled to expire soon, however, unless Congress extends it again. Hence, the current clamor in some quarters for its extension.

I will endeavor to explain in simple language why the Voting Rights Act, which applies primarily to six Southern states in their entirety, and to 40 counties in a seventh Southern state, is repugnant to the system of government the Constitution was orgained to establish. The major provisions of the Act were originally embodied in Public Law 89–110 and are now codified in sections 1973b, 1973c, 1973e and 19731 of Title 42 of the United States Code.

In explaining the Act, I will hold to a minimum the multitude of judicial decisions which corroborate what I say in respect to the constitutional provisions and principles I cite.

THE CONSTITUTION

As William Ewart Gladstone, the British statesman, affirmed, the Constitution is the most wonderful work ever struck off at a given time by the brain and purpose of man. It delegates to the federal government enumerated powers to enable it to act as the national government for all the states and all the people. It confers upon the states or reserves to them or the people all other powers. It undertakes to ensure liberty by forbidding governmental tyranny.

forbidding governmental tyranny.

The Constitution consists of words inscribed on paper. If it is to be an effective instrument of government instead of a worthless scrap of paper, two things are indispensable. The provisions of the Constitution must be permanent in meaning until they are changed by a duly adopted amendment, and the words of the Constitution must be interpreted and applied to mean what they say. (Marbury v. Madison. 1 Cranch 137, 2 L.Ed. 60; Gibbons v. Ogden,

9 Wheat 1, 6 L.Ed. 23.)

The great and wise men who framed and ratified the Constitution knew this to be true. In consequence, they inserted in Article VI, clause 3 of the Constitution this specific provision: "The Senators and Representatives * * * and the members of the several state legislatures, and all executive and judicial officers both of the United States and of the several states, shall be bound by oath or affirmation to support this Constitution."

Chief Justice John Marshall, America's greatest jurist of all time, rightly ruled in Marbury v. Madison, 1 Cranch 137, 2 L.Ed. 60. that a Supreme Court Justice who does not conform his official action to the Constitution makes his oath to support it worse than a solemn mockery.

Before discussing the repugnancy of the Voting Rights Act to the Constitution, I

deem it appropriate to make observations respecting other relevant matters.

THE THIRTEENTH, FOURTEENTH, AND FIFTEENTH AMENDMENTS

After it ratified the Thirteenth Amendment, which prohibits slavery, i.e., the forced labor of one man for another against his will, the nation undertook to confer upon the recently emancipated blacks equality of legal rights with white people. To this end, Congress enacted the Civil Rights Act of 1863, which specifies, in essence, that they are entitled to enjoy virtually the same rights as those enjoyed by white people under state laws.

knowledgeable constitutional scholars doubted whether the Thirteenth Amendment sufficed to vest in Congress power to enact the Civil Rights Act. To remove this doubt and the possibility that a subsequent Congress might repeal it, the nation added to the Constitution the Fourteenth Amendment, which includes the equal protection clause. This clause undoubtedly gave the blacks legal equality with white people under state law by decreeing, in substance, that state laws must treat in like manner all persons in like circumstances. Subsequent decisions of the Supreme Court adjudged that the due process clause of the Fifth Amendment imposes a similar requirement on acts of Congress.

The Fourteenth Amendment also made the recently emanicipated blacks citizens by providing that "all persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States and of the state wherein they

reside."

To make secure to blacks possessing the qualifications prescribed by law the right to vote, the nation added to the Constitution the Fifteenth Amendment which specifies that "the right of citizens of the United States to vote shall not be denied or abridged by the United States or any state on account of race, color, or previous condition of servitude," and which confers on Congress the power to enforce that declaration by appropriate legislation.

The Supreme Court had these constitutional and legislative actions in mind when it made this comment in the Civil Rights Cases of 1883, 109 U.S. 3, 27 L.Ed. 835: "When a man has emerged from slavery, and by the aid of beneficient legislation has shaken off the inseparable concomitants of that state, there must be some stage in the progress of his elevation when he takes the rank of mere citizen, and ceases to be a special favorite of the laws, and when his rights, as a citizen or a man, are to be protected in the ordinary modes by which other men's rights are protected."

OBJECTIVE OF ADVOCATES OF VOTING RIGHTS ACT

The Voting Rights Act was the brainchild of impatient and zealous men who spurned this comment. They were bent on abolishing literacy tests in Southern States employing them as qualifications for voting, and thus securing to blacks residing in those states the power to vote irrespective of their ability to read and write, anything in the Constitution to the contrary notwithstanding.

To be sure, these impatient and zealous men professed that they merely desired to prevent these Southern States denying of abridging the rights of blacks residing in them to vote on account of their race or color.

If this had been their objective, there would have been no reason for them to persuade Congress to enact the Voting Rights Act.

OTHER FEDERAL LAWS

This is true because at the time of its enactment the United States Code was replete with federal statutes sufficient to prevent and punish any denial or abridgement by any of these Southern States of the right of any literate black to vote on account of his race or color.

Some of these statutes provided for the imposition of criminal penalties upon offending state or local officers. Others subjected them to liability for civil damages to the aggrieved persons. And others authorized the Department of Justice and agrieved individuals or groups to prosecute equitable proceedings triable by federal judges sitting without juries, and to obtain in such proceedings judicial decrees compelling recalcitrant states and their officers under threat of punishment for contempt to register literate blacks and permit them

By means of these equitable proceedings, the Department of Justice or the aggrieved individuals or groups could have obtained States or subdivisions of Southern States the residing in recalcitrant areas in Southern States the right to vote. They could have accomplished this purpose with dispatch because federal district judges sitting without juries or special masters appointed by them could have administered literacy tests to multitudes of blacks speedily either singly or en masse, and thereby established in short order the facts necessary to support decrees enforcing the rights of literate blacks to vote.

To be sure, the criminal prosecutions, civil actions, and equitable proceedings authorized by the federal statutes were triable in federal district courts in accordance with procedures and rules of evidence conforming to constitutional principles governing the administration of civil and criminal justice. Hence, it was incumbent upon the Department of Justice or the aggrieved individuals or groups to establish in them by credible evidence the literacy of blacks allegedly denied the right to vote in violation of the Fifteenth amendment.

RELUCTANCE OF ADVOCATES OF VOTING RIGHTS
ACT TO INVOKE OTHER FEDERAL LAWS

For these reasons, politically-minded Attorneys General and advocates of the Voting Rights Act were reluctant to invoke these federal laws. They found it more profitable politically to agitate for the enactment of the Voting Rights Act before the nation-wide news media and in Congress than to assume the burden of establishing the truth of their allegations against the South by constitutional procedures and rules in the judicial calm of courts of justice. Besides, advocates of the Voting Rights Act also found it financially profitable to agitate in this manner because the agitation induced benevolently-minded citizens to make contributions to the causes they espoused.

I interrogated all of the occupants of the office of Attorney General during my 20 years in the Senate in various hearings concerning the rejuctance of the Department of Justice to invoke existing federal statutes to enforce the Fifteenth Amendment. They invariably gave excuses rather than justifications for the Pepartment's rejuctance. They confessed that the Department had not sought criminal prosecutions of any Southern State or local officer for alleredly denying literate blacks the right to vote Guring their tenures. They explained the Department's inaction in this respect by asserting that Southern juries would not convict state or local officers in such prosecutions.

Since the Department of Justice had not instituted any criminal prosecutions of this nature against Southern State or local officers during their tenures their assertion was simply an unsupported attack upon the interrity of Southern people.

I suggested that they harbored prejudices against Southerners akin to those they professed to be desirous of eradicating from

Southern minds, and reminded them that the equitable proceedings authorized by existing federal laws were triable by federal district judges without Southern juries. They then asserted that the statutes authorizing civil actions and equitable proceedings were substantially ineffective—an assertion which my long experience as a trial lawyer and trial and appellate judge disabled me to accept. I was convinced that a competent lawyer could have obtained a decree in an authorized equitable proceeding securing the right to vote to any literate black.

The assertion of the Attorneys General to the contrary was disproved in a number of equitable proceedings which the Department of Justice prosecuted to successful conclusion in recalcitrant areas in Alabama, Louisiana, and Mississippi.

ILLITERACY

I digress to observe that although it is undoubtedly more prevalent in the South than it is in other regions, illiteracy is not exclusively a Southern problem, or exclusively the product of Southern discrimination against blacks in education.

blacks in education.

The validity of this observation was revealed in a Senate hearing. Attorney General Robert F. Kennedy twitted me with the fact that the census of 1960 disclosed that my home State, North Carolina, numbered about 30 thousand illiterate blacks among the people inhabiting it. He charged that this fact, standing alone, conclusively proved that North Carolina discriminated against blacks in education.

I thereupon scrutinized the census of 1960 for myself, and discovered to my surprise and to Attorney General Kennedy's consternation that it revealed that his home state, Massachusetts, was the domicile of about 60 thousand illiterate whites. I hastened to assure Kennedy that I did not accept this fact as proof that Massachusetts discriminated against whites in education.

I also digress to express my abiding conviction that it is reprehensible for any state, or any public officer, willfully to deny or abridge the right of any qualified person of any race to vote for any reason.

THE VOTING RIGHTS ACT IS A BILL OF ATTAINDER

Article I, Section IX. Clause 3 of the Constitution expressly forbids Congress to practice what may well be described as the most contemptible of all tyrannies. It forbids Congress to pass any bill of attainder.

A bill of attainder is a legislative act which declares a person guilty of a past offense and inflicts punishment upon him for it without a judicial trial.

To constitute a bill of attainder under Article I, Section IX. clause 3 of the Constitution, an act of Congress must have these characteristics: (1) It must apply either to named persons or to a class or group of ascertainable persons; (2) it must declare by legislative flat that the named persons or the class or group of ascertainable persons are guilty of a past offense; and (3) it must inflict punishment on the persons named or the class or group of ascertainable persons for the offense without a judicial trial.

The Supreme Court has adjudged that various classes or groups, such as persons who supported the Confederacy during the Civil War, or members of the Communist Party, constitute ascertainable persons within the purview of bills of attainder. These adjudications compel the conclusion that legislators, executive officers, or citizens of a particular state are ascertainable persons within the purview of bills of attainder.

The punishment inflicted by a bill of attainder need not be a fine, or imprisonment, or a death sentence. It may consist of the denial of the right to engage in a profession, trade, or business, or the deprivation or suspension of constitutional, political, or legal powers and rights.

The Voting Rights Act is clearly a bill of attainder. It applies to the states and subdivisions of states it covers, and to ascertainable classes or groups of their officers and citizens; it declares them guilty of past offenses, i.e., denying or abridging the rights of black citizens to vote in violation of the Fifteenth Amendment; and it punishes them for the alleged past offenses by the deprivation or suspension of various constitutional and political powers vested in them by the Constitution.

LITERACY TESTS AS QUALIFICATIONS FOR VOTING

The Constitution provides that electors of the United States House of Representatives "in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislature" (Article I, Section II); that the presidential and vice presidential electors of each State shall be appointed "in such manner as the legislature thereof may direct" (Article II, Section II, Clause 3); and that the electors of United States Senators "in each State shall have the qualifications requisite for electors of the most numerous branch of the State legislature" (Seventeenth Amendment).

The Tenth Amendment reserves to the States the power to prescribe the qualifications for voting in state and local elections. As the Supreme Court and State and in-

As the Supreme Court and State and inferior federal courts have rightly adjudged in cases past numbering, these four constitutional provisions empower a State to establish and employ literacy tests as qualifications for voting in all Federal, State and local elections within its borders.

The power of a State to prescribe qualifications for voting in all elections is subject to five narrow limitations specified by the Constitution itself. A State cannot make race (Fifteenth Amendment), sex (Nineteenth Amendment), the age of persons eighteen years or over (Twenty Sixth Amendment), or the payment of a poll or other tax (Twenty Fourth Amendment) a qualification for voting. Moreover, qualifications for voting established and employed by a State must apply in like manner to all persons of all races similarly situated (Equal Protection Clause of the Fourteenth Amendment).

INDISPENSABLE CONSTITUTIONAL PRINCIPLES

The Constitution establishes certain fundamental principles which must control the official actions of Congress, the President and the Supreme Court if the United States is to endure as a federal system of government, and the United States, the States, and the people are to be ruled by the Constitution and equal, impartial, and uniform laws conforming to that instrument. Insofar as they are presently germane, these principles are as follows:

1. As the Supreme Court so well declares in Texas v. White, 67 Wall. 700, 19 L.Ed. 227, "the preservation of the States, and the maintenance of their governments, are as much within the design and care of the Constitution as the preservation of the Union and the maintenance of the National Government. The Constitution, in all its provisions, looks to an indestructible Union, composed of indestructible States."

2. To this end, our system of government is based on dual sovereignties, state and federal, each of which is supreme within its own sphere. Under it, the States possess all the attributes of sovereignty, except as to the powers granted to the federal government by the Constitution, or denied to the States by that instrument. (72 Am. Jur. 2d. States, Territories, and Dependencies, Section 16)

3. The Constitution consists of harmonious provisions of equal dignity. None of them may be so interpreted, applied, or enforced as to nullify or suspend any others.

 Neither the Congress nor the President nor the Supreme Court has power to nullify or suspend any provision of the Constitution. As the Supreme Court rightly ruled in its most courageous and intelligent decision of all time, Ex Parte Milligan, 4 Wall. 2, 18 L.Ed. 281, "The Constitution of the United States is a law for rulers and people, equally in war and in peace, and covers with the shield of its protection all classes of men, at all times, and under all circumstances. No doctrine, involving more pernicious consequences, was ever invented by the wit of man than that any of its provisions can be suspended during any of the great exigencies of government. Such a doctrine leads directly to anarchy or despotism, but the theory of necessity on which it is based is false; for the government, within the Constitution, has all the powers granted to it which are necessary to preserve its existence, as has been happly proved by the result of the great effort to throw off its just authority."

throw off its just authority."

5. Under the Constitution, the United States is a union of political equals, and all the States stand on an equal footing in respect to the constitutional powers they possess. As the Supreme Court rightly adjudged in Coyle v. Smith, 221 U.S. 559, 55 L.Ed. 853, "The constitutional equality of the States is essential to the harmonious operation of the scheme upon which the Republic was organized. When that equality disappears we may remain a free people, but the Union will not be the Union of the Constitution."

tion."

6. The Fifth and Sixth Amendments as well as Articles I and III of the Constitution plainly forbid the federal government to punish any person for any offense unless his guilt is established in a fair trial in a

his guilt is established in a fair trial in a court of justice.

7. The Constitution and federal statutes conforming to it establish appropriate sanctions to remedy or punish state or local legislative or administrative action which denies or abridges the right of United States citizens to vote on acount of race or color. If the action is based on state law, the law is void, and the judiclary is empowered by Arti-

cle III and the Supremacy Clause of the Constitution to so adjudge and restrain its execution. If the action is based on misconduct of state or local officials, the judiciary is empowered by federal statutes to punish or restrain the misconduct, and to enforce the right to vote by suitable rulings. The Constitution clearly forbids the Congress, the President, or the federal judiciary to undertake to remedy or punish it by nullifying or suspending the power vested by it in state or local officials to establish and employ literacy tests as qualifications for

voting.

The Voting Rights Act treats with contempt all of these fundamental and indispensable constitutional principles.

THE ARTIFICIAL FORMULA OF THE VOTING RIGHTS ACT

The advocates of the Voting Rights Act were pragmatic politicians. As such, they knew that they could not induce Congress to approve its drastic provisions unless the legislation embodying them plainly exempted from its coverage virtually all sections of the nation outside the areas of the South targeted by them.

Hence, they cleverly contrived an artificial legal formula to trigger the Voting Rights Act into automatic operation without a judicial trial in the areas of the South targeted by them, and to exclude from its coverage virtually all areas of the nation outside the targeted areas.

They were able to do this by differences in voting patterns in the South and other sections. At the time of the passage of the Voting Rights Act, the Democratic Party dominated the South, while the Democratic and Republican parties had substantially equal strength in virtually all other sections. Hence, there was low registering and voting in presi-

dential elections in the South because all federal officers except the President and all state and local officers were chosen for all practical purposes in primaries and the ultimate choice of the presidential candidate was a foregone conclusion; whereas there was high registering and voting in presidential elections in other sections of the nation because the choice of their voters for President as well as for other federal and state and local officers were determined in them.

For this reason, the advocates of the Voting Rights Act devised the artificial formula embodied in Section 1973b(b) of Title 42 of the United States Code which automatically applies the major provisions of the Act to the areas in the South targeted by them and excludes virtually all other sections of the land from them.

The provisions creating the artificial formula specify that the Voting Rights Act automatically applies in any State or in any subdivision of a State (1) which the Attorney General determines employed a literacy test as a qualification for voting on November 1, 1964, and with respect to which (2) the Director of the Census determines that less than 50 percent of the persons of voting age residing in it were registered on November 1, 1964, or less than 50 percent of such persons voted in the presidential election of 1964.

These determinations are made by the Attorney General and the Director of the Census without a hearing, and are not subject to review in any court of justice. Moreover, they totally ignore the race of the persons of voting age who were registered on November 1, 1964, and the race of the persons of voting age who voted in the presidential election of 1964. As a consequence, the formula applies to any State or subdivision of any State embraced within the determination if less than 50 percent of the persons of voting age of all races residing in it were registered on November 1, 1964, or voted in the presidential election of November 1964, even though all its black residents of voting age were registered at the specified time and all of them voted in the specified presidential election.

Nevertheless, the formula creates, in substance, a conclusive presumption that States or subdivisions of States embraced within the determinations denied or abridged the right of black citizens to vote on account of race or color in violation of the Fifteenth Amendment; and on that basis alone punishes such States and subdivision of States and their officers and citizens by the deprivation or suspension of the constitutional powers and rights previously enumerated in the manner hereafter stated.

UNCONSTITUTIONALITY OF FORMULA

The formula created by the Voting Rights Act is unconstitutional as well as artificial. It violates the due process clause of the Fifth Amendment in two ways. First, the Act creates a conclusive presumption; and second, the factual determinations of the Attorney General and the Director of the Census have no rational connection with the ultimate fact presumed, i.e., that the States or subdivisions of States embraced within the determinations denied the rights of black citizens to vote on account of race or color in violation of the Fifteenth Amendment.

CONSTITUTIONAL INFIRMITIES OF THE VOTING

As originally enacted in 1965, the Voting Rights Act condemns the areas in the South targeted by it, namely, the entire States of Alabama, Georgia, Louisiana, Mississippi, South Carolina, and Virginia, and 40 of North Carolina's 100 counties. At the same time the Act repudiates the doctrine of the constitutional equality of the States by exempting from its crucial provisions the 21 other States employing literacy tests as

qualifications for voting in their entirety with the exception of the State of Alaska and about five counties in three other States. Alaska and these five counties were impaled by the formula, notwithstanding few blacks, if any, resided in them, and they had never violated the Fifteenth Amendment as to any of them.

When it subsequently amended the Act by extending its coverage on the basis of registration and voting in the presidential election of 1968, Congress continued in force the Act's original condemnation and punishment of the six Southern States and the 40 North Carolina counties. This amendment may have ensnared a few isolated counties in Northern or Western States, which, like Alaska and the five counties previously condemned, had few black residents, if any, and had never violated the Fifteenth Amendment as to any of them.

For reasons already detailed, the Voting Rights Act treats with contempt the constitutional prohibition of congressional bills of attainder, the due process clause of the Fifth Amendment, and the doctrine of the constitutional equality of the States. In addition, the Act is repugnant to the other fundamental and indispensable constitutional principles which have been previously enumerated.

The provisions of the Act, now codified as Section 1973b(a) is based on the unconstitutional assumption that the Fifteenth Amendment takes precedence over the four provisions of the Constitution plainly vest-ing in the States the power to employ literacy tests as qualifications for voting, and empowers Congress, a creature of the Constitution, to nullify or suspend these four provisions by an irrefutable bill of attainder. On the basis of this unconstitutional assumption, the Voting Rights Act punishes any State or subdivision condemned by its formula by the deprivation or suspension of its constitutional power to employ literacy tests as qualifications for voting, and decrees that such deprivation or suspension remains in effect until a specific federal court, i.e., the District Court of the District of Columbia, "in an action for a declaratory judgment brought by such State or subdivision against the United States has deter-mined that" no literacy test "has been used during the ten years preceding the filing of the action for the purpose or with the effect of denying or abridging the right to vote on account of race or color."

The Supreme Court ruled in Gaston County v. United States, 395 U.S. 285, 23 L.Ed.2d 309, that a state or subdivision condemned by the formula of the Voting Rights Act has the burden of proving in an action for a declaratory judgment under Section 1973b(a) that it has not violated that section during the prescribed period. The same decision makes it virtually impossible for a condemned Southern State or subdivision to carry this burden of proof successfully by concluding that such State or subdivision produced the illiteracy of its black citizens by prior discrimination against them in education.

The provision of the Voting Rights Act now codified as Section 1973c suspends the power of any State or political subdivision condemned by the formula to exercise its power under the Constitution of the United States or its own Constitution to make any change in its voting laws in effect on November 1, 1968, without securing in advance either (1) a ruling of the United States District Court of the District of Columbia in an action brought by it against the United States for a declaratory judgment, or (2) a ruling of the Attorney General, that the change "will not have the effect of denying or abridging the right to vote on account of race or color." This provision of the Voting Rights Act robs a condemned State or

subdivision of the power to legislate in an area vital to its practical operation without the prior approval of the United States District Court of the District of Columbia or that of the Attorney General.

Even apart from the constitutional evil it does, the Voting Rights Act is grossly unfair to many of the areas of the South it condemns. While the officers in some of these areas discriminated against blacks in voting, the officers in many others administered literacy tests with impartiality as required by the Fifteenth Amendment. The Voting Rights Act condemns the recalcitrant and law-abiding States and officers in like manner, and inflicts identical punishment upon them and the areas for which they act.

The Voting Rights Act, I submit, is subject to a constitutional informity additional to those already discussed.

The Act denies each condemned State or subdivision access to any court to contest the constitutionality of its original condemnation and punishment. It vests exclusive jurisdiction of subsequent actions for declaratory decrees under Sections 1973b(a) and 1973c of Title 42 of the United States Code in the United States District Court for the District of Columbia, a court sitting in Washington, D.C., 200 miles from the capital of the nearest condemned Southern State and 1000 miles or more from some of the others. (42 U.S.C. 1973b(b)) As a consequence, a State or subdivision con-demned by the Act has the herculean, if not the impossible task and expense, of presenting its case to this court by securing the appearance of witnesses essential to its exoneration at hearings conducted hundreds of miles from their places of abode. The task is aggravated by the provision of 42 U.S.C. Sec. 1973(1)(d) which denies the condemned State or subdivision subpoenas to compel the attendance of any witnesses residing more than 100 miles from Washington without the consent of the court.

I submit that the venue and rules established by the Voting Rights Act in actions for declaratory judgments under Sections 1973b(a) and 1973c deny the condemned State or subdivision a fair trial, and for that reason offend the due process clause of the Fifth Amendment, which mandates that all trials in federal district courts must be fair.

They undoubtedly disgrace the Congress of a nation whose Declaration of Independence assigned as one of the reasons for the severance of its political bonds to England that King George transported Americans "beyond seas" to try to them "for pretended offences."

THE VOTING RIGHTS ACT AND THE SUPREME COURT

Chief Justice Harlan F. Stone declared that "where the courts deal, as ours do, with great public questions, the only protection against unwise decisions, and even judicial usurpation, is careful scrutiny of their action, and fearless comment upon it."

Despite its manifold arbitrary provisions and constitutional infirmities, the Supreme Court ruled in South Carolina v. Katzenbach, 383 U.S. 301, 15 L.Ed.2d 769, that the Voting Rights Act constitutes appropriate legislation to enforce the Fifteenth Amendment within the purview of its second section.

I have carefully scrutinized that ruling on many occasions, and will make some fearless and truthful comments upon it. The decision in South Carolina v. Katzenbach is as bizarre as the Voting Rights Act itself.

In the opinion underlying the decision, the Supreme Court rejects all the constitutional complaints against the Voting Rights Act by assertions which are neither constitutionally permissible nor intellectually satisfying. The assertions are quite intriguing.

The Supreme Court conceded, in essence, that the Voting Rights Act is a bill of attainder and violates the due process clause. It asserts, however, that this fact is wholly immaterial. The immateriality, the Supreme Court says, arises out of the circumstances that States of the Union are not persons in the context of the prohibition of congressional bills of attainder under Ariticle I, Section IX, Clause 3 of the Constitution, or the due process clause of the Fifth Amendment. (383 U.S. 301, 323-324, 15 L.Ed.2d 769, 784)

Diligent research reveals no authoritative precedent supporting this assertion. To be sure, there are some cases in which courts have made careless statements that states are not persons. These are cases in which the courts were construing laws imposing liabilities and conferring legal rights on individuals and organizations under the designation of "persons" and they were merely adjudging in them that the laws did not apply to States.

The Supreme Court's assertion of the inapplicability of the constitutional prohibition of congressional bills of attainder and the due process clause to the Voting Rights Act is something which Alice In Wonderland would have described as an impossible and unbelievable thing. This is so because if it were sound law instead of a judicial aberration, it would mean that Congress, a creature of the Constitution, has the arbitrary and autocratic power under the Constitution to destroy the federal system of government ordained by the Constitution by nullifying or suspending governmental powers conferred upon, or reserved to, the States as indestructible members of an indestructible union by the Constitution without notice, hearing, or proof by passing irrefutable bills of attainder alleging that the States had been guilty of wrong-doing in exercising their governmental powers. Every syllable in the Constitution refutes this fantasy.

The assertion is incompatible with sound Supreme Court decisions defining and explaining what States are in a constitutional sense, and the plain language in which constitutional prohibition of congressional bills of attainder and the due process clause are expressed.

Since it handed down its decision in *Chisholm* v. *Georgia*, 2 Dall. 419, 1 L.Ed. 440, in 1792, the Supreme Court has consistently and rightly held that a State is an artificial or corporate person which has the capacity to sue to vindicate its constitutional powers or protect its proprietary interests.

Other Supreme Court decisions consistently and rightly hold that a State is far more than a mere geographical spot on the nation's map. They adjudge that a State is a political community of free citizens; that it is composed of the becole residing within its borders; that in the nature of things it necessarily acts through legislative, executive, and judicial officers, who are natural persons; and that it acts through such officers to exercise the governmental powers which it and its citizens, who are natural persons, possess in their sovereign, corporate, and collective capacities.

Article I, Section IX, Clause 3 of the Constitution declares in plain words that "no bill of attainder * • * shall be passed", and the Fifth Amendment decrees in plain words that "no person * • * shall be deprived of life, liberty, or property without due process of law."

These provisions are absolute, and subject to no exceptions. Since they have no power to amend or distort them while professing to construe them. Supreme Court Justices cannot adjudge that they do not extend their protections to States, or subdivisions of States, or their officers or citizens without converting their oaths to support the Con-

stitution in Chief Justice Marshall's unhappy phrase into worse than solemn mockeries. And that is exactly what they did in South Carolina v. Katzenbach.

The Supreme Court declares in South Carolina v. Katzenbach that a State has no standing as a parent of its citizens to invoke the constitutional prohibition of congressional bills of attainder or the due process clause. What relevancy this declaration had I cannot imagine. South Carolina was not suing as the parent of its citizens. It was suing in its own right to protect its own constitutional powers against congressional nullifications or suspension, and to protect its own right to exercise those powers in the only way it could, i.e., through its officers. To circumvent the invalidation of the Vot-

To circumvent the invalidation of the Voting Rights Act by the doctrine of the constitutional equality of the States, the Supreme Court assigns to this doctrine in South Carolina v. Katzenbach a new meaning, which is alien to the objective of the doctrine and makes it virtually impotent as a protection to States. In so doing, the Supreme Court declares that the doctrine protects a State only at the precise moment of its admission to statehood, and that thereafter Congress can reduce it to the status of a second class State with constitutional powers inferior to those of other States by passing a bill of attainde? (383 U.S. 301, 328-329, 15 L.Ed. 2d 769, 787).

The assertions which the Supreme Court makes to avoid invalidating the Voting Rights Act under the due process clause of the Fifth Amendment are also intriguing, but constitutionally impermissible and intellectually unsatisfying. They are, in substance, that the due process clause permits Congress to create conclusive and irrational presumptions in all its enactments except those relating directly to criminal prosecu-(383 U.S. 301, 328-329, 330-331, 15 L. Ed.2d 769, 788), and that the constitutional objections to the jurisdiction the Act vests in the United States District Court for the District of Columbia is without substance because Article III, Section 1 of the Con-stitution empowers Congress to establish inferior federal courts and to define or limit their jurisdiction (383 U.S. 301, 331, 15 L. Ed.2d 769, 788-789). This constitutional provision does confer upon Congress power to create inferior federal courts and to define or limit their jurisdiction, but it does not authorize Congress to limit the jurisdiction of such courts or to prescribe precedures or rules of evidence which limit their exercise of such jurisdiction in ways which deny litigants a fair trial as guaranteed by the due process clause.

As interpreted and applied in Gaston County v. United States, the Voting Rights Act condemns a State of wrongdoing by a conclusive, irrational and unconstitutional presumption, and on that basis robs the State of its constitutional power, and simultaneously establishes a rule of evidence which precludes it from afterwards resuming its constitutional powers unless it rebuts the conclusive, irrational, and unconstitutional presumption.

SUMMATION

The Voting Rights Act and South Carolina v. Katzenbach treat with contempt the undeniable truth that apart from the faithful observation of the Constitution by Congress, the President, and the Supreme Court, America has no protection against anarchy, and Americans have no protection against tyranny.

What has been said proves that the Voting Rights Act commits these linguistic mayhems on the Constitution:

 It robs the States its irrational formula condemns of constitutional powers it permits their sister States to retain and exercise.

2. It robs the States its irrational formula condemns, and their citizens of essential protections which the Constitution makes inviolate when they are invoked by others, including those who commit treason against the united States, and those who seek to decrey the United States by violence or other unlawful means.

3. It robs the States condemned by its irrational formula of sovereignty essential to their proper functioning under the Constitution.

What has been said also reveals that the decision in South Carolina v. Katzenbach is repugnant to multitudes of sound Supreme Court decisions. Notable among them are the cases I have cited and the additional unanswerable ruling in Ashton v. Cameron County Water improvement District, 298 U.S. 513, 531, 80 L.Ed. 1309, 1314.

The Voting Rights Act was not necessary to punish violators of the Fifteenth Amendment, or to secure to any qualified black the right to vote in any area of the nation. Other federal laws conforming to the Constitution were adequate to accomplish these beneficient purposes.

As the Supreme Court has rightly adjudged, a literacy test meeting constitutional limitations affords a State constitutional means for securing an informed electorate. (Lassiter v. Northampton County Board of Elections, 360 U.S. 45, 3 L.Ed.2d 1072)

Americans who cherish the belief that illiterate persons ought to be allowed to vote have a constitutional and intellectually honest way to seek the consummation of their belief. They may advocate a constitutional amendment to outlaw literacy tests.

amendment to outlaw literacy tests.

Instead of doing this, advocates of the Voting Rights Act sought to nullify the use of literacy tests in the States targeted by them by suspending powers plainly secured to those States by the Constitution, and by converting them from indestructible members of an indestructible Union and their officers and citizens from free persons to constitutional and legal parials.

I do not condemn advocates of the Voting Rights Act who are justifiably ignorant of the Constitution. But I can find nothing to say in extenuation of the action of supporters of the Act who are either contemptuous of its impact upon constitutional principles and protections, or are too lazy to ascertain what its impact on such principles and protections is.

I cannot accept as a justification for the Act the claim of its advocates that it has secured the power to vote to untold thousands of blacks in the Southern States impaneled by its irrational formula. Constitutional evil cannot be condoned because those responsible for it are actuated by motives they deem righteous.

The Act has undoubtedly secured the power to vote to many liliterate blacks. The claim of its advocates that it has also secured the power to vote to all the literate blacks registered in the condemned States after its enactment is certainly overbroad and insupportable. Most of them would have been registered in the absence of the Act because discrimination against literate blacks in voting has been virtually abandoned in Georgia, North Carolina, South Carolina, and Virginia, and has substantially decreased in Alabama, Louisiana, and Mississippi.

When one seeks an explanation for the enactment of the Voting Rights Act and the adjudication that it is a constitutionally appropriate means for the enforcement of the Fifteenth Amendment, he is compelled by intellectual integrity to reach this sad conclusion: Congress enacted the Voting Rights Act and the Supreme Court approved its action because they were determined to arrogate to themselves the arbitrary and autocratic power to secure to blacks residing in the States condemned by the irrational formula the power to vote irrespective of their ability to read or write, all the provisions

and principles of the Constitution to the contrary notwithstanding. The Voting Rights Act evokes the recol-

The Voting Rights Act evokes the recollection of a relevant comment Pope Julius III made to a Portuguese Monk centuries ago. The Pope said: "Learn, my son, with how little wisdom the world is governed."

Congress will allow the Act to expire unless a majority of its members wish to demonstrate that their oaths to support the Constitution are worse than solemn mockeries.

CONGRESS MUST DEFEND THE SOCIAL SECURITY SYSTEM

• Mr. SARBANES. Mr. President, the Congress must reject the unwarranted cuts in our social security system proposed by the administration. It must reassure current beneficiaries, those about to retire, and younger members of our society contributing to the system that commitments made by our Government to them with regard to their benefits will be upheld. The social security system, established in 1935, is our country's basic program in assisting retirees and families to retain economic independence after retirement, disability, or death. Over 35 million beneficiaries receive and rely on monthly social security pay-ments; for many it is their sole source of income.

The administration's announcement of \$88 billion in cuts in social security benefits over the next 5 years has caused deep concern, fear, and anxiety among all Americans. Millions, young and old, would be adversely affected and would find what they thought they could count on in social security benefits for their families in case of disability, retirement, or death greatly reduced or taken away.

The first step in social security benefit reductions was taken in February 1981, when the administration's budget recommended the termination of the social security minimum benefit for those currently receiving the benefit and those who would be eligible in the future. This recommendation, which unfortunately has been passed by both the House and the Senate, strikes many of those least able to afford any reduction in their already low income. Fifty percent of the 3 million elderly who receive the benefit are already below the poverty line. Several efforts were made in the Congress to maintain the minimum benefit for those currently receiving it and relying on it. An amendment to accomplish this objective, which I cosponsored, failed on July 21, 1981, by a 45-to-52 vote.

The second step to reduce social security benefits came when the administration announced on May 12, 1981 deep and wide-ranging social security benefits cuts totaling \$88 billion which would affect those currently receiving benefits and those who will be receiving benefits in the future. The administration claimed that the social security benefit reduction of \$68 billion is needed because we will have the greatest bankruptcy in history on November 3, 1982, when the old age and survivors trust fund will experience a slight shortfall of funds. This statement was clearly an example of rhetorical overkill unrelated to the realities of the situation. It was irresponsible and needlessly alarmed millions of people. In fact

many experts believe that transfer of funds among the three social security trust funds (two of which project surpluses) would solve the short-term cash flow problem.

One of the most unwarranted and patently unfair proposals by the administration is to immediately and drastically reduce the social security benefit for people who retire at age 62 from 80 percent of full benefits to 55 percent of full benefits. What this would mean is that a worker retiring under the current social security law who is entitled to \$240 a month, would receive only \$165 a month under the administration's plan. Currently, 70 percent of people retiring take their benefits before age 65, many for reasons of ill health, unemployment, or obsolete skills. Workers currently deciding to take their social security benefits before age 65 are already accepting reduced benefits which remain at the lower level the entire time they are receiving them. The administration's recommendation to abruptly and unjustly penalize those retiring before age 65 by reducing their benefits an even greater amount, from 80 to 55 percent of full benefits, will result in no retiree at age 62, no matter how much paid into social security, receiving a benefit even as high as the poverty level.

Many well-respected economists and experts in social security matters have written articles regarding the administration's recent proposals and the current financial health of the social security system indicating that the actual financial outlook does not warrant the drastic and frightening recommendations being put forth by the administration. I recommend the following thoughtful articles on social security to my colleagues and ask that they be printed in full: "The Current Status of our Social Security Program" by Sylvia Porter, Evening Sun, July 24, 1981; "The Social Security Scare" by Clayton Fritchey, Washington Post, July 27, 1981.

The material follows:

THE CURRENT STATUS OF OUR SOCIAL SECURITY PROGRAM (By Sylvia Porter)

Are we, the American public, being brainwashed into accepting a dismantling of our Social Security program? Or has justified concern over improving the bottom-line figures of the national budget driven the politicians into forgetting that "politics is people"?

Why else would we seriously listen to proposed cutbacks in promised Social Security benefits amounting to twice as much as needed to assure the financial stability of the entire Social Security system on into the long-range future?

Why else would almost all of the 3,400 employees of the Memorial Hospital Medical Center in Long Beach, Calif., endorse a plan to leave Social Security and join a private program providing benefits that lets workers pocket 6.65 percent of their wages previously earmarked for Social Security—but that could not possibly give them equal protection?

Under the Reagan administration's own economic assumptions, Social Security expenditures from 1982 to 1986 will run \$11 billion over income. But the cuts originally proposed by the administration came to an estimated total of about \$82 billion in that span.

span.
"Cold and outrageous," were the words

used by Rep. Claude Pepper (D-Fla.), chairman of the House Select Committee on Aging, to describe proposals he denounced as beyond any rational or reasonable limits.

There is no reason to panic over the short-term financing problem the system faces between now and the time the tax hike scheduled in the law for 1986 begins to produce more revenue. I'll repeat this and repeat this, because your panic makes no sense at all. The shortfall is temporary, caused entirely by economic conditions that won't last, and can easily be met by borrowing from the other two Social Security trust funds, both of which are in good shape.

There are many ways, too, to meet the temporary shortfall other than by cutting benefits (although I agree some benefits should be and almost surely will be reduced). You may be hearing more of one idea, strongly endorsed by Rep. Millicent Fenwick (R-N.J.), a member of the Select Committee on Aging. This program would increase SS taxes and would simultaneously reduce income taxes paid by workers by permitting them to deduct Social Security taxes from gross income, just as they now deduct state and local taxes, Employers have that option now; they can deduct the employer's share of Social Security taxes from income taxes as a business expense. Employees not only pay Social Security taxes, but also pay the income taxes on the Social Security deductions.

It wasn't until hit by an uproar of protest over the impact of the SS cuts the administration had proposed that President Reagan backed down and indicated a great willingness to negotiate any or all of them. Under some of the proposed SS cuts:

All 37.5 million people currently receiving Social Security benefits would lose about \$100 next year as the result of a proposed three-month delay in the annual cost-of-living adjustment.

More than 7 million workers and their spouses retiring before age 65 during the next five years would have their benefits cut by one-third.

More than 1.26 million workers, the majority age 50 or over, who otherwise would have been able to collect disability benefits over the next five years, would not be able to qualify for those benefits.

to qualify for those benefits.

The cuts would hit particularly hard at those who take their SS benefits before age 65—and that would include men and women in ill health or out of work because they couldn't find jobs.

No age 62 retiree, single or married, no matter how much he or she had contributed to SS, could receive a benefit even as high as the official poverty line.

THE SOCIAL SECURITY SCARE (By Clayton Fritchey)

It is time for those who know better to stop frightening millions of Social Security beneficiaries with scare talk about the system's going broke.

Social Security does warrant attention. There are a number of changes and refinements that could bolster it, but it is irresponsible to yell "fire" in order to win support for hacking at the system's problems, all of which can be constructively resolved with little or no harm to the retirees.

Despite all the dire warnings that retirement funds may run out in the next year or so, there is no real danger that payments will be cut off. Congress would not dare let that happen. Nevertheless, many retirees and near-retirees have been needlessly upset.

Sen. Daniel P. Moynihan (D-N.Y.) accuses the Republicans of conducting "a campaign of terrorism" by exaggerating the situation to frighten Congress into taking extreme

President Reagan, in turn, accused House Democrats, who have been fighting to preserve the minimum benefit, of "opportunistic political maneuvering, especially designed to play on the fears of many Americans."

Speaker Thomas P. O'Neill's prompt rejoinder was that Reagan was "distorting the issue." It is unconscionable, he said, to "exploit fears," about the condition of the system "so as to make deep cuts in benefit levels."

That there is widespread uneasiness has just been confirmed by a national CBS-New York Times poll that shows 54 percent of the American people today doubt the Social Security system will have the money to pay the full benefits they are entitled to. Moreover, even among those already receiving benefits, 37 percent fear the system will not be able to cover its obligations and 26 percent believe their own benefits will not continue because of a fund shortage.

At the same time, however, the polls again demonstrated how strongly the people support Social Security. Even if a tax increase becomes necessary, 66 percent said, they would favor it. Only 27 percent were opposed. Congress showed it is well aware of this sentiment when the Senate voted unanimously to reject a package of benefit slashes sought by the administration and the House later voted 405 to 13 against the administration's proposed cuts in minimum benefits.

The continuing popularity of Social Security is remarkable, considering all the attacks that have been made on it over the years, especially charges that it is a "ripoff" and doesn't deliver as well as European retirement systems.

Actually, the U.S. worker, compared with workers in other leading industrial countries, has a much lighter Social Security tax burden. The employee payroll tax is now 6.65 percent in the United States, compared with 12.04 percent in France, 16.4 in Germany and 23.42 in the Netherlands.

As for benefits, figures for 1979 show a typical U.S. \$15,000-a-year worker, with a dependent wife, gets \$8,780 annually. In France, it was \$6,629 for a couple, and in Germany a retiree got \$7,352, but nothing more for a dependent wife. In most of these countries, retirees got some additional benefits, but even so, the U.S. system is a comparative bargin.

Stanford Ross, former commissioner of Social Security, says he found in Europe a greater sense of "solidarity" between the elderly and young workers than he perceives in the United States. In West Germany and Sweden especially, he says, young workers "identify with the need to support the elderly and the handicapped," and the elderly are "concerned about the burdens placed on the young."

Doubts about the future of Social Security have been largely inspired by emphasis on the supposed threat of a shrinking work force and an expanding army of retirees. Today, for every person over 65, there are three between 18 and 64. In the next century, it is projected to be 1 for every 2. Thus, it is argued, we will end up with too few workers supporting too many retirees. Actually, the current ratio is considerably less than 3 to 1, for it treats all those between 18 and 65 as "wage earners," whereas millions of youngsters are now unemployed or still in school. It also doesn't allow for the fact that many elect to retire before they are 65.

The upshot is that the future change in the ratio will not be as dramatic as pictured. Also, a dwindling work force can easily be augmented by immigration, plus the addition to the work force of millions of currently underemployed women, plus the availability of many retirees who would welcome the opportunity to work under well-paid, full-employment conditions. So, in the decades ahead, there should be enough workers to support the retirees comfortably.

ARMS CONTROL POLICY

• Mr. DURENBERGER. Mr. President, ever since President Carter requested that the SALT II treaty be withheld from consideration, and particularly since the election of President Reagan, there has been considerable curiosity about the future of arms control. Unfortunately, many pundits took President Reagan's criticisms of the SALT II treaty-criticisms which were echoed in the Senate—as a sign that this administration is somehow opposed to arms control or that it somehow lacks the imagination and courage to venture into new and pressing issues of security policy. This is particularly ironic, since it was President Carter and not President Reagan who ultimately recognized that any arms control agreement entered into by the United States must enjoy the essential confidence of the American people if it is to be successful, and it was President Carter and not President Reagan who therefore overturned several years of rhetoric and withdrew the SALT II treaty.

Nonetheless, there has been extensive interest in the position which the Reagan administration holds about the arms control process in general and strategic nuclear arms limitations in particular. I am therefore extremely encouraged that Secretary of State Haig has outlined a comprehensive, articulate, and bold statement of this country's policy under President Reagan.

Three points stand out in an analysis of this statement. First, Secretary Haig clearly points out that this administration, like its predecessors, remains fundamentally and inalterably committed to strategic nuclear arms control as an essential element of our overall security policy. Like every American President since Harry Truman, President Reagan recognizes that nuclear weaponry represents a threat to our very survival as a species, and that our supreme national interest therefore lies in preventing the use of nuclear weapons by any nation. In other words, Secretary Haig has underscored the fundamental continuity of long-standing American policy.

Second, however, Secretary Haig has clearly and concisely articulated the basic premises and principles which must underly our approach to arms control. In this regard, Secretary Haig has made a signal contribution to our understanding of arms control and national security policy. He has cut a Gordion knot which has plagued analysts for many years by defining the leading priority of arms control under the Reagan administration. I refer, of course, to his statement that "the paramount aim of arms control must be to reduce the risk of war." It is this aim-"crisis stability" in the jargon—which must override such other worthy aims as "arms race stability"-economic savings-or "damage limitations." For without a world which is safe from the threat of nuclear war, all other security goals pale into insignificance.

Just as important as a clear statement of the fundamental goal of this administration is the recognition that we must avoid simplistic or one-sided assessments of the overall military balance between the United States and the Soviet Union. A partial examination of this area can lead to the conclusion that the United States is either decisively stronger or decisively weaker than the Soviet Union. Such conclusions, while comforting to those who offer them, can undermine our conduct of arms control negotiations. Simple "bean counting" will not suffice when considering strategic nuclear weapons. Instead, as Secretary Haig points out, "balance is more than a matter of numbers."

Third, having laid the conceptual groundwork for an approach to arms control talks, Secretary Haig has pro-posed some innovative and important ideas. Chief among these are his explicit recognition that arms control must deal with allied security policy, and that negotiations on theater nuclear forces and other weaponry in Europe are inextricably linked with our approach to SALT. This is a point which has been tacitly recognized by many people, but which bears repetition, particularly when our allies are undertaking an improvement in their military capability. I am par-ticularly encouraged, therefore, Secretary Haig has announced that he will soon undertake negotiations on theater nuclear forces, that he has proposed the adoption of the French proposal at Madrid, and that he suggests that we consider some new solutions to new and complex problems.

Mr. President, I ask that the full text of Secretary Haig's speech be introduced into the RECORD.

The speech follows: ARMS CONTROL FOR THE 1980s: AN AMERICAN

POLICY
(Address by Secretary Haig before the Foreign
Policy Association in New York on July 14,
1981)

I do want to say I'm verv, very pleased to have an opportunity to talk again before the Foreign Policy Association. I've always believed that an effective policy abroad must be the product of support for that policy here at home. And this Association and its activities have clearly made a major contribution to that requirement here in America. It has always sharpened the issues for the American people and enabled them to decide for themselves on these fundamental issue. And it is just such an issue that I would like to discuss today, and that is the vitally important issue of the future of arms control in this decade of the 1990s facing Americans. There is hardly a subject which enjoys or is a focus of greater international attention, especially recently, among our allies in Western Europe, and with good cause.

This is true because we are living in an age when man has conceived the means of his own destruction. The supreme interest of the United States has been to avoid the extremes of either nuclear catastrophe or nuclear blackmail. Beginning with the Baruch Plan, every President has sought international agreement to control nuclear weapons and to prevent their proliferation. But each chief executive has also recognized that our national security and the security of our allies depend on American nuclear forces as

President Reagan stands in this tradition. He understands the dangers of unchecked nuclear arms. He shares the universal aspiration for a more secure and peaceful world. But he also shares the universal disappointment that the arms control process has de-

livered less than it has promised.

One of the President's first acts was to order an intense review of arms control policy, the better to learn the lessons of the past in the hope of achieving more lasting progress for the future. Two fundamental con-clusions have emerged from this review.

First, the search for sound arms control agreements should be an essential element of our program for achieving and maintain-

Second, such agreements can be reached if negotiations among adversaries about their national security interests are not dominated by pious hopes and simplistic solutions.

The task of arms control is enormously complex. It must be related to the nation's security needs and perspectives. Above all, arms control policy must be seen in the light of international realities. As Churchill put You must look at the facts because they look at you." An American arms control policy for this decade must take into account the facts about our security and the lessons that we have learned about what worksand what does not work-in arms control.

Despite the extraordinary efforts at arms control during the 1970s, the world is a less secure place than it was 10 years ago. We began the process with the expectation that it would help to secure the deterrent forces of both the United States and the Soviet Union. But Moscow's strategic buildup has put at risk both our crucial land-based missiles and our bombers. Simultaneously, the Soviets have continued a massive buildup of conventional forces and have used them with increasing boldness. Their armies and those of their surrogates have seized positions that threaten resources and routes critical

to Western security.

We cannot blame our approach to arms control alone for our failure to restrain the growth and use of Soviet power. The Soviet Union did not feel compelled to agree to major limitations and adequate verification part because the United States did not take steps needed to maintain its own strategic and conventional capabilities. Nor did we respond vigorously to the use of Soviet force. The turmoil of the 1960s, Vietnam, and Watergate all contributed to this passivity. As a result, the basis for arms control was undermined. We overestimated the extent to which the Strategic Arms Limitation Talks would help to ease other tensions. We also underestimated the impact that such tensions would have on the arms control process itself.

This experience teaches us that arms control can only be one element in a comprehensive structure of defense and foreign policy designed to reduce the risks of war. It can-not be the political centerpiece or the crucial barometer of U.S.-Soviet relationships, burdening arms control with a crushing political weight. It can hardly address such issues as the Soviet invasion of Afghanistan, the Iran-Iraq war, the Vietnamese invasion of Cambodia -which is the subject of our U.N. conference here this week—the Libyan inva-sion of Chad, or Cuban intervention in Africa and Latin America. Instead, arms control should be an element—a single ele-ment—in a full range of political, economic, and military efforts to promote peace and security.

PRINCIPLES

The lessons of history and the facts of international life provide the basis for a realistic set of principles to guide a more effective approach to arms control. All of our princi-ples are derived from a recognition that the paramount aim of arms control must be to reduce the risks of war. We owe it to ourselves and to our posterity to follow principles wedded exclusively to that aim.

Our first principle is that our arms con-trol efforts will be an instrument of, not a replacement for, a coherent allied security

policy. Arms control proposals should be designed in the context of the security situation we face, our military needs, and our defense strategy. Arms control should complement military programs in meeting these needs. Close consultation with our allies is an essential part of this process, both to protect their interests and to strengthen the Western position in negotiations with the Soviet Union.

If conversely, we make our defense programs dependent on progress in arms con-trol, then we will give the Soviets a veto over our defenses and remove their incentive to negotiate fair arrangements. Should we expect Moscow to respect parity if we demonstrate that we are not prepared to sacrifice to sustain it? Can we expect the Soviets to agree to limitations if they realize that, in the absence of agreement, we shall not match their efforts? In the crucial relationship between arms and arms control, we must not put the cart before the horse. There is little prospect of agreements with the Soviet Union will help solve such a basic security problem as the vulnerability of our land-based missiles until we demonstrate that we have the will and the capacity to solve them without arms control, should that be necessary.

Our second principle is that we will seek arms control agreements that truly enhance security. We will work for agreements that make world peace more secure by reinforcing deterrence. On occasion it has been urged that we accept defective agreements in order "to keep the arms control process alive." But we are seeking much more than agreements for their own sake. We will design our pro-posals not simply in the interest of a speedy negotiation but so that they will result in agreements which genuinely enhance the security of both sides.

That is the greatest measure of the worth of arms control, not the money saved nor the arms eliminated. Indeed, valuable agree-ments can be envisioned that do not save money and that do not eliminate arms. The vital task is to limit and to reduce arms in a way that renders the use of the remaining arms less likely.

Just as arms control could not aim simply at reducing numbers, so it should not try simply to restrict the advance of technology. Some technological advances make everyone safer. Reconnaissance satellites, for instance. discourage surprise attacks by increasing warning and make verification of agreements possible. Submarines and other means of giving mobility to strategic systems enhance their survivability, reduce the advantage of preemptive strikes, and thus help to preserve the peace. Our proposals will take account of both the positive and the negative effects of advancing technology.

Whether a particular weapons system, and therefore a particular agreement, undermines or supports deterrence may change with the development of other weapons systems. At one time, fixed intercontinental ballistic missiles (ICBMs) were a highly stable form of strategic weapons deployments, but technological change has altered that. We need to design arms control treaties so that they can adapt flexibly to long-term changes. A treaty that, for example, had the effect of locking us into fixed ICBM deployments would actually detract from the ob-

jectives of arms control.

Our third principle is that we will seek arms control bearing in mind the whole context of Soviet conduct worldwide. Escalation of a crisis produced by Soviet aggression could lead to a nuclear war, particularly if we allowed an imbalance of forces to provide an incentive for a Soviet first strike. Ameri-

can foreign policy and defense policy, of which arms control is one element, must deter aggression, contain crisis, reduce sources of conflict, and achieve a more stable military balance—all for the purpose of

securing the peace. These tasks cannot be undertaken successfully in isolation one from the other.

Soviet international conduct directly affects the prospects for success in arms con-trol. Recognition of this reality is essential for a healthy arms control process in the long run. Such "linkage" is not the creation of U.S. policy: It is a fact of life. A policy of pretending that there is no linkage promotes reverse linkage. It ends up by saying that in order to preserve arms control, we have to tolerate Soviet aggression. This Administration will never accept such an appalling conclusion.

Our fourth principle is that we will seek balanced arms control agreements. Balanced agreements are necessary for a relationship based on reciprocity and essential to maintaining the security of both sides. The Soviet Union must be more willing in the future to accept genuine parity for arms control to move ahead. Each agreement must be balanced in itself and contribute to an overall

Quantitative parity is important, but balance is more than a matter of numbers. One cannot always count different weapons systems as if they were equivalent. What matters is the capacity of either side to make decisive gains through military operations or threat of military operations. Agreements that do not effectively reduce the incentives to use force, especially in crisis situations, do nothing at all to enhance security.

Our fifth principle is that we will seek arms controls that include effective means of verification and mechanisms for securing compliance. Unverifiable agreements only increase uncertainty, tensions, and risks. The critical obstacle in virtually every area of arms control in the 1970s was Soviet unwillingness to accept the verification measures needed for more ambitious limitations. As much as any other single factor, whether the Soviets are forthcoming on this question will determine the degree of progress in arms control in the 1980s.

Failure of the entire arms control process in the long run can be avoided only if compliance issues are clearly resolved. For example, there have been extremely disturbing reports of the use of chemical weapons by the Soviets or their proxies in Afghanistan and in Southeast Asia. With full Western support the United Nations is now investigating the issue of chemical weapons. Similarly, in the spring of 1979, there was an extraordinary outbreak of anthrax in the Soviet city of Sverdlovsk. Despite continued probing, we still await a serious Soviet explanation as to whether it was linked to activities prohibited under the biological weapons convention.

Our sixth principle is that our strategy must consider the totality of the various arms control processes and various weapons systems, not only those that are being spe-cifically negotiated. Each U.S. weapons system must be understood not merely in connection with a corresponding Soviet system, but in relation to our whole strategy for deterring the Soviets from exploiting mili-tary force in general. In developing our theater nuclear arms control proposals, for example, we should consider the relationship of theater nuclear forces to NATO's overall strategy for deterring war in Europe. cannot overlook the fact that our European strategy has always compensated for short-falls in conventional capability through a greater reliance on theater and strategic nuclear forces. If we are to rely less on the nuclear elements in the future, the conven-tional elements will have to be strengthened.

PROSPECTS

What then are the prospects for arms control in the 1980s? We could achieve quick agreements and an appearance of progress if we pursued negotiation for its own sake or for the political symbolism of continuing the

process. But we are committed to serious arms control that truly strengthens interna-tional security. That is why our approach must be prudent, paced, and measured.

With a clear sense of direction and a dedication to the serious objectives of arms control, this Administration will strive to make arms control succeed. We will put our principals into action. We will conduct negotiations based on close consultation with our allies, guided by the understanding that our objective is enhanced security for all of our allies, not just for the United States. We will work with the Congress to insure that our arms control proposals reflect the desires of our people, and that, once agreements are negotiated, they will be ratified and their implementation fully supported. We will comply with agreements we make, and we will demand that others do likewise.

By the end of the year, the United States will be embarked upon a new arms control endeavor of fundamental importance, one designed to reduce the Soviet nuclear threat to our European allies. The impetus for these negotiations dates back to the mid-1970s when the Soviets began producing and deploying a whole new generation of nuclear systems designed not to threaten the United States-for their range was too short-but to threaten our European allies. These new weapons, and in particular the nearly 3,000mile range SS-20 missile, were not just mod-ernized replacements for older systems. Because of their much greater range, their mobility, and above all their multiplication of warheads on each missile, these new systems presented the alliance with a threat of a new order of magnitude.

The pace of the Soviet buildup is increasing. Since the beginning of last year, the Soviets have more than doubled their SS-20 force. Already 750 warheads have been de-ployed on SS-20 launchers. The Soviet Union has continued to deploy the long-range Backfire bomber and a whole array of new medium- and short-range nuclear missiles and nuclear-capable aircraft. This comprehensive Soviet arms buildup is in no sense a reaction to NATO's defense program. Indeed, NATO did very little as this alarming build-

up progressed.

In December 1979 the alliance finally responded in two ways. First, it agreed to deploy 464 new U.S. ground-launched cruise missiles in Europe and to replace 108 medium-range Pershing ballistic missiles already located there with modernized versions of greater range. Second, the alliance agreed United States should pursue the negotiated limits on U.S. and Soviet systems in this category.

This two-track decision represents explicit recognition that arms control cannot succeed unless it is matched by a clear determination to take the defense measures necessary to restore a secure balance. On taking office, as one of its first foreign policy initiatives, this Administration announced its commitment to both tracks of the alliance decision-deployments and arms control. Last May, in Rome, we secured unanimous alliance endorsement of our decision to move ahead on both tracks and of our plan for doing so.

Since than I have begun discussions in Washington with the Soviet Ambassador on this issue. When I meet with Soviet Foreign Minister Gromyko at the United Nations this September, I will seek agreement to start the U.S.-Soviet negotiations on these weapons systems by the end of this year. We would like to see the U.S. and Soviet negotiators meet to begin formal talks between mid-November and mid-December of this year. We intend to appoint a senior U.S. official with the rank of Ambassador as our representative at these talks.

Extensive preliminary preparations for this entirely new area of arms control are already underway in Washington and in consultation

with our NATO allies in Brussels. Senior U.S. and European officials will continue to consult after the beginning of U.S.-Soviet exchanges. We and our allies recognize that progress can only come through complex, extensive and intensive negotiations.

We approach these negotiations with a clear sense of purpose. We want equal, verifiable limits on the lowest possible level on U.S. and Soviet theater nuclear forces. Such limits would reduce the threat to our allies and bring to Europe the security undermined today by the Soviet buildup. We regard the threat to our allies as a threat to ourselves, and we will, therefore, spare no effort to succeed.

We are proceeding with these negotiations to limit the theater threat within the framework of SALT-the Strategic Arms Limitation Talks designed to limit the nuclear threat to the United States and to the Soviet Union. In this area, too, we have initiated intense preparations. These preparations must take into account the decisions we will take shortly on modernizing our intercontinental ballistic missiles and our strategic bombers.

In the course of 10 years of SALT negotiations, conceptual questions have arisen which must be addressed. For instance, how have improvements in monitoring capabilities, on the one hand, and new possibilities for deception and concealment, on the other, affected our ability to verify agreements and to improve verification? Which systems are to be included in a SALT negotiation, and which should be discussed in other forums? How can we compare and limit the diverse U.S. and Soviet military arsenals in the light of new systems and new technologies emerging on both sides?

In each of these areas there are serious and pressing questions which must be answered to insure the progress of SALT in the 1980s and beyond. Only in this way can SALT become again a dynamic process that will promote greater security in the U.S.-Soviet relationship. We are determined to solve these problems and to do everything necessary to arrive at balanced reductions in

strategic arsenals on both sides.

We should be prepared to pursue innova-tive arms control ideas. For example, negotiated confidence-building measures in Europe could provide a valuable means to reduce uncertainty about the character and purpose of the other side's military activities. While measures of this sort will not lessen the imperative of maintaining a military balance in Europe, they can reduce the dangers of miscalculation and surprise.

We are eager to pursue such steps in the framework of a European disarmament conference based on an important French proposal now being considered at the Madrid meeting of the Conference on Security and Cooperation in Europe. We call upon the Soviets to accept this proposal, which could cover Soviet territory to the Urals. As we proceed in Madrid, we will do so on the basis of a firm alliance solidarity, which is the key to bringing the Soviets to accept serious and effective arms control measures.

Our efforts to control existing nuclear arsenals will be accompanied by new at-tempts to prevent the spread of nuclear weapons. The Reagan Administration is developing more vigorous policies for inhibit-ing nuclear proliferation. We expect the help of others in this undertaking, and we intend to be a more forthcoming partner to those who share responsibility for nonproliferation practices. Proliferation complicates the task of arms control: It increases the risk of preemptive and accidental war, it detracts from the maintenance of balance of conventional forces, and it brings weapons of unparalleled destructiveness to volatile and developing regions. No shortterm gain in export revenue or regional prestige can be worth such risks.

It may be argued that the "genie is out of the bottle," that technology is already out of control. But technology can also be tapped for the answers. Our policies can diminish the insecurities that motivate proliferation. Responsible export practices can reduce dangers. And international norms can increase the cost of nuclear violations. With effort we can help to assure that nuclear plowshares are not transformed into nuclear swords.

In sum, the United States has a broad agenda of specific arms control efforts and negotiations already underway or soon to be launched. The charge that we are not interested in arms control or that we have cut off communications with the Soviets on

these issues is simply not true.

The approach I have discussed today stands in a long and distinguished American tradition. We are confident that it is a serious and realistic approach to the enduring problems of arms control. The United States wants a more secure and a more peaceful world. And we know that balanced, verifiable arms control can contribute to that objec-

We are also confident that the Soviet leaders will realize the seriousness of our intent. They should soon tire of the proposals that to freeze NATO's modernization of theater nuclear weapons before it has even begun, while reserving for themselves the advantages of hundreds of SS-20s already deployed. They should see that the propaganda campaign intended to intimidate our allies and frustrate NATO's modernization program cannot and must not succeed. Arms control requires confidence, but it also requires patience.

Americans dream of a peaceful world, and we are willing to work long and hard to create it. This Administration is confident that its stance of patient optimism on arms control expresses the deepest hopes and the clearest thoughts of the American people.

It is one of the paradoxes of our time that the prospects for arms control depend upon the prospects for a halance of arms. We the achievement of a balance of arms. We seek to negotiate a balance at less dangerous levels but meanwhile we must maintain our strength. Let us take to heart John F. Kennedy's reminder that negotiations "are not a substitute for strength—they are an instrument for the translation of strength into survival and peace."

UNITED STATES, IN CHANGE, IS BACKING LOANS TO FOUR LATIN LANDS

• Mr. MOYNIHAN. Mr. President, the New York Times recently carried a report that the Reagan administration has reversed a standing U.S. human rights policy by instructing American delegates to international development banks to vote in favor of loans to Argentina. Chile, Paraguay, and Uruguay. Since 1977 the United States has opposed all such loans to Chile, and has abstained on international loan proposals for Uruguay, Paraguay and Argentina, because of persistent human rights violations by the governments of those countries. The recent change in policy follows a State Department determination that, in the words of the Department spokesman, "there have been significant improvements in the human rights situation in those countries." Would that this were true.

Consider the case of Argentina. In the center of Buenos Aires, across the way from the offices of the president of the country, there is an open square called the "Plaza de Mayo." Every Thursday

afternoon a group of women assembles there and stands silently facing the

president's quarters.

They are seeking information about sons and daughters and other relations who have disappeared since the military took power in Argentina in 1975. Amnesty International estimates that there are between 15,000 and 20,000 of what are known in Spanish as los desaparecidos-people who have simply disappeared after being arrested by the mili-tary or the police. The majority of los desaparecidos are presumed to be dead. Some are probably alive, but their whereabouts are unknown by their families.

Officials in the Government of Argentina, including Roberto Eduardo Viola, the new President, have on various oc-casions promised to provide the mothers of the Plaza de Mayo with the accounting they seek. This accounting has not yet been provided. Worse, meetings of the mothers have been disrupted by security forces and individual members have been subjected to a wide range of harassment and abuse-arrests, detentions, housebreaking, thefts of records and papers, accusations of subversive intent.

On June 25, along with 13 other Americans long concerned about the human rights situation in Argentina, I became a charter member of an informal group known as the U.S. Friends of the Mothers of the Plaza de Mayo. The group was formed to serve three purposes:

First. To attempt to protect the mothers against harassment and reprisal by publicizing attacks against them and by pursuing such legal remedies as may be available in national and international bodies.

Second. To support their demands for an accounting of what has happened to their children and to persist in this demand until a full accounting is provided.

Third. To demonstrate support by U.S. citizens for the restoration of the rule of law and human rights in Argentina.

The names of the Friends follow:

Senator Daniel Patrick Moynihan. Senator Edward M. Kennedy.

Representative Millicent Fenwick.

Representative Don Bonker.

Vincent McGhee, President of Amnesty International USA.

John J. O'Callaghan, President of the Jesuit Conference of America.

Patricia Derian, former Assistant Secretary of State for Human Rights and Humanitarian Affairs

Chauncey Alexander, Executive Director of National Association of Social Workers.

Orville Schell, attorney (former President of the Association of the Bar of the City of New York).

Robert L. Bernstein, Chairman and President of the Random House (and Chairman of U.S. Helsinki Watch Committee).

Adrian DeWind, attorney (former President of the Association of the Bar of the City of New York).

Marvin Frankel, attorney (former Federal District Judge and Chairman of the Committee on International Human Rights of the Association of the Bar of the City of New York)

M. William Howard, President of the National Council of Churches of Christ in the USA.

Rose Styron, a writer.

We are committed to the goal of the Mothers of the Plaza de Mayo: We too insist that the Government of Argentina explain what has happened to los desaparecidos.

Mr. President, there is a postscript to the founding of the Friends organization that is significant in light of the news about the administration's finding of an improvement in the human rights situation in Argentina.

Two women who have been prominent in the Mothers of the Plaza de Mayo attended the meeting in New York City on June 25 at which the founding of the U.S. Friends group was announced. Mrs. Hebe de Bonasini and Mrs. Adela de Antokoletz were there and they expressed appreciation for our support. They then embarked upon a 2-week tour of the United States, during which time they spoke to a good many Americans and generally solicited support for their cause. Mrs. de Bonasini and Mrs. de Antokoletz also gathered written information about human rights standards and American views on Argentina.

The two women returned home Buenos Aires 2 weeks ago, on the day before the New York Times reported the Reagan administration decision that the human rights situation had improved "significantly." They were met at the airport and immediately taken into custody by Air Force policemen. Mrs. de Bonasini and Mrs. de Antokoletz were kept in detention for 2 hours, subjected to verbal and psychological abuse, and then released. The booklets and papers they had accumulated during their stay in the United States were confiscated.

Mr. President, I remain unconvinced that the human rights situation in Argentina has improved significantly, the Reagan administration's recent determination notwithstanding. Fifteen thousand desaparecidos remain unaccounted for. The Mothers of the Plaza de Mayo, peaceful protestors with a legitimate complaint, continue to be harassed in callous and lawless fashion. We should not act as if we are unaware. We dare not leave the impression that we do not care. While I, too. desire better relations between Argentina and the States, I do not believe that this is possible until the government of Argentina explains what has happened to los desaparecidos.

I ask that the New York Times article on the administration's decision be printed in the RECORD.

The article follows:

U.S., IN CHANGE, IS BACKING LOANS TO 4 LATIN LANDS

(By Judith Miller)

Washington.-The Reagan Administration has ordered American delegates to interna-tional development banks to support loans to Chile, Argentina, Paraguay and Uruguay.

The order, which reverses the Carter Administration's policy of not voting for such loans on human rights grounds, was based on a State Department determination that 'there have been significant improvements in the human rights situation in those countries," according to a department sporesman.

The decision has drawn criticism on Capitol Hill from human rights activists, including Representative Tom Harkin, Democrat of Iowa.

CONGRESS WAS TOLD ON JULY 1

"That is simply not true," asserted Mr. Harkin, the primary author of a 1977 law that instructs the Government to oppose loans by international banks to countries that engage in "a consistent pattern of gross violations of human rights." He said, "This decision quite clearly violates the spirit and letter of the law.'

Negative votes by the United States did not block development bank loans. A State Department official today described them as

symbolic.

Congress was informed of the Reagan Administration's action in a private letter dated July 1 from W. Dennis Tho nas. Assistant Secretary of the Treasury for Legislative Affairs, to Representative Jerry M. Patterson, chairman of a banking subcommittee that oversees the international development banks.

"The Department of State has reviewed the current human rights situation in Argentina Chile, Paraguay and Uruguay," it said, "and has determined that the human rights legislation enacted in 1977 does not require U.S. opposition to loans to those countries."

Since 1977, the United States has opposed all loans to Chile and has abstained on international loan proposals for Uruguay, Paraguay and Argentina. The State Department said the Carter Administration voted no or abstained on 122 loans to 16 countries.

Judith Jamison, public affairs adviser to the State Department's Bureau of Human Rights, noted, however, that "the previous Administration never formally designated any countries as falling within the definition" of the 1977 law.

According to the Treasury Department letter, delegates to the International Bank for Reconstruction and Development, the International Finance Corporation and the Inter-American Development Bank have been instructed to support \$483.8 million in loans to the four countries this month. The Inter-American Development Bank today approved a \$126 million loan to finance highway construction in Chile.

In denouncing the decision, Mr. Harkin said that the human rights records of all four countries had repeatedly been criticized. In May, Amnesty International, a Londonbased group that monitors human rights violations, issued a statement concluding that there had been a "marked deterioration" in the human rights situation in Chile last year. Mr. Harkin said that this year there had been a "wave of new arrests in Chile, more than 200." and that Chile had refused to prosecute people indicted by an American court in connection with the assassinations of Orlando Letelier in 1976 in Washington.

The State Department spokesman replied that "there have been no disappearances in Chile since 1977" and "almost all political prisoners had been released by early 1978. The official statement said that although the Administration regretted Chile's failure to prosecute in the Letelier case, "We believe our voting policy should reflect the actual human rights situation in the country."

Mr. Harkin said that Argentina had not explained the disappearance of 10,000 to 15.000 people and that it continued to hold about 1,000 people. 900 of them under decrees that require neither formal charges nor a fixed term of imprisonment. Torture continues. Mr. Harkin charged.

The State Department asserted that "the level of violence in Argentina to which terrorist activity was a major contributing factor peaked in the years 1976-78." The statement added that there were "44 credibly documented disappearances" in 1979, 12 last year and "no confirmed disappearances since last August." While the number of prisoners being held under special decrees is about 900, the statement says, this is a decline from 8,000 and "releases continue."

INTELLIGENCE MERITS AS MUCH PROTECTION AS SOYBEANS

Mr. HOLLINGS. Mr. President, a former Soviet intelligence official is on record as saying: "We were always taught that our highest priority was to put out the eyes of the enemy by disrupting his intelligence service."

Sad to report, certain American actions condoned over the past several years have given the Soviets inestimable help in disrupting our intelligence operations. Chief among these has been the public disclosure of intelligence officers' identities. As Jack Maury pointed out on July 31 in the Washington Star:

Nothing is more disruptive or demoralizing to a clandestine organization than the constant exposure, or threat of exposure, of its undercover operatives.

The results have been, literally, lethal. Agents such as Dick Welsh in Athens and others have been murdered. Many others have found their ability to continue working made impossible by disclosure. The credibility of our intelligence organization has suffered, and its ability to elicit the cooperation of other nations' intelligence services has been seriously compromised. So has CIA morale.

As the leading country in the free world, the United States must always have an effective intelligence organization. We live in the real world, where life is hard and choices are sometimes difficult. The challenges to freedom are everywhere, and in this era of terrorism and revolution, national security requires a strong and confident Central Intelligence Agency.

Happily our court system is moving against the excesses of recent years, and hopefully this belated action will finally put an end to this wholesale crime—and I use the term advisedly.

Mr. President, Jack Maury's column merits wide reader attention, and I hope my colleagues will take a couple of minutes to look it over. For that reason, I ask that the piece be printed in today's edition of the Record.

The column follows:

INTELLIGENCE MERITS AS MUCH PROTECTION AS SOY BEANS

(By Jack Maury)

In the recent Supreme Court case involving the State Department's revocation of the passport of Philip Agee, the Chief Justice, speaking for the majority, held that Agee's disclosure of details of our foreign intelligence operations was "clearly not protected by the Constitution." Despite several high court decisions that First Amendment rights are not absolute where national security is involved, a noisy claque of civil libertarians persists in the contention that legal restraint on the deliberate exposure of our undercover intelligence personnel would, in the words of one leading national daily, "leave constitutional freedoms in shreds."

During a stopover in Athens in late 1975, I paid a visit to my old friend and successor as CIA station chief there, Dick Welch. Dick's position had been just publicized in the Athens Daily News, based on revelations in Counterspy, a journal published in the United States by a group including CIA's first publicly identified defector, the same Philip Agee. Less than a month later, Welch was assassinated on the steps of his Athens

home as he and his wife were returning from an American Embassy Christmas party.

In the five years since then, Congress has still not passed any legislation dealing with this problem of "naming names" of undercover personnel. Louis Wolf, a current leader in this endeavor, claims to have exposed the identities of over 2,000 covert American intelligence personnel around the world. Last the home of one of these, in Jamaica, was sprayed by machine fire within 48 hours after his name was revealed, and early this year two American labor officials involved in a project that Agee had some time before claimed was a CIA operation were murdered in El Salvador. Other victims of such allegations-whether true or false-have been harassed and their professional effectiveness has been irreparably damaged. Which brings to mind the words of a former senior Soviet intelligence officer: "We were always taught that our highest priority was to put out the eyes of the enemy by disrupting his intelligence service.

Whatever the motives of those engaged in this "naming names" activity, any old intelligence hand knows that nothing is more disruptive or demoralizing to a clandestine organization than the constant exposure, or threat of exposure, of its undercover operatives.

These people have special problems and pressures. They work very much alone, usually far from home in alien cultures and often hostile environments where a single misstep could damage the national interest or have fatal consequences for themselves, their families, or their collaborators. Clearly, we cannot offer them public acclaim for a job well done, nor can we adequately reward them materially lest unexplained affluence attract suspicion. But we can show appreciation for their services by giving them the protection they need to do their tob. And how can we expect to get the often invaluable collaboration of friendly foreign intelligence services, or private institutions, businessman and others who might be willing secretly to help us if we are unable or unwilling to protect the identities of our covert personnel?

It is ironic that we have laws providing clear-cut criminal penalties for the unauth-orized disclosure of such government information as future crop estimates from the Department of Agriculture, identities of recipients of federal welfare, income tax information, selective service records, applicants for Land Bank loans, formulas for insecticides, etc., but no effective protection for some of our most sensitive intelligence sources, methods, and identities.

Legislation has recently been introduced to deal with this problem. It is being opposed on two grounds. First, it is said that such legislation would violate First Amendment rights of free speech and press. The answer is that there is no case law to support this contention. In such cases as those of former CIA employees Marchetti and Snepp, the courts have held that First Amendment rights are not absolute, and that the Government can take appropriate action to protect its sensitive secrets. The second objection is that such laws would have a "chilling effect" on public disclosure and discussion of intelligence matters. In fact, the legislation in question would in no way hamper legitimate discussion and criticism of intelligence activities. Its application is strictly limited to those who expose the identities of covert personnel with intent to "impair or impede intelligence operations.

A wise veteran of White House councils once said that the greatest danger to peace in our time might be an ill-informed American President. Cerainly in today's world we are, without good intelligence, a blind man stumbling through an uncharted minefield. Our great technical systems can tell us much

of hostile capabilities but little of intentions, and here human sources are more important than ever. But we will not have the human sources we need so long as our laws give better protection to statistics on soy bean crops than to the lives of people like Dick Welch.

THE ECONOMIC RECOVERY TAX

Mr. BAKER. Mr. President, I wish to take this moment once again to commend the distinguished chairman of the Finance Committee, Senator Dole, for his leadership and effective management of the Economic Recovery Tax Act of 1981.

His resolve and determination provided for efficient Senate action on the largest comprehensive tax measure in history, a measure which will be one of the cornerstones to restoring our Nation's economic strength.

Chairman Dole played a crucial role during the budget reconciliation process, and I am sure that I join with all of my colleagues in extending to him our deposit theories.

deepest thanks and gratitude.

Mr. President, by the same token, may I extend my congratulations to the distinguished ranking minority member of the Finance Committee, Senator Long, who was for so long the chairman of the Finance Committee, and who has once again brought to this measure the full flavor of bipartisan cooperation. I am especially grateful to Senator Long for his guidance and counsel based on his long experience in this field in bringing this matter to a successful and prompt conclusion.

Mr. President, I should be remiss if I did not once again express my gratitude, and I believe I speak for every Senator, to the distinguished professional staff of the Finance Committee, the bipartisan staff. They are truly extraordinary in their ability, especially the majority staff director, Robert Lighthizer, and his counterpart, Mike Stern, who has also contributed significantly in this respect.

Mr. President, I wish to congratulate all Senators for their participation, all of those who favored and those who opposed this measure. I believe it is a mark of accomplishment for the Senate that this difficult piece of legislation was transacted and brought to final passage as we have now done in what I believe to be virtually record time.

SENATOR HARRISON WILLIAMS

Mr. BAKER. Mr. President, it is with a note of frustration that I rise to speak of an article which appeared in today's New York Post. The article alleges that I, along with the Senate Ethics Committee chairman, Senator Wallop, have quote "decide to begin proceedings to expel" Senator Harrison Williams of New Jersey.

Mr. President, I want to clearly state that this story is totally inaccurate in every respect. Aside from several reports that I have received from the committee for scheduling considerations, I have neither discussed privately nor publicly the allegations against Senator

It is imperative, Mr. President, that the public record on this important matter be absolutely clear. I have not had such conversations nor has the chairman of the committee, Senator WALLOP.

ADJOURNMENT OF THE SENATE AND HOUSE UNTIL SEPTEMBER 9,

Mr. BAKER. Mr. President, I am happy that we have reached the place where I can offer the following resolu-

Mr. President, I send to the desk a concurrent resolution and ask its immediate consideration.

The PRESIDING OFFICER. The clerk will state the resolution by title.

The legislative clerk read as follows: A concurrent resolution (S. Con. Res. 27) providing for an adjournment of the Senate from August 3, 1981 to September 9, 1981, and an adjournment of the House from August 4, 1981, to September 9, 1981.

The Senate proceeded to consider the concurrent resolution.

Mr. BAKER. Mr. President, before the Chair puts the question, I would point out that I will shortly send a second concurrent resolution to the desk, Senate Concurrent Resolution 28, which will provide for the adjournment of the Senate from August 3 until September 9 and of the adjournment of the House from Wednesday, August 5 until September 9.

The reason for agreeing to both of these resolutions is to give the House maximum flexibility in accommodating to their requirements at the same time.

The PRESIDING OFFICER. The question is on agreeing to Senate Concurrent Resolution 27.

The resolution (S. Con. Res. 27) was agreed to as follows:

Resolved by the Senate (the House of Representatives concurring), That when the Senate adjourns on Monday, August 3, 1981, it stand adjourned until 12:00 o'clock noon on Wednesday, September 9, 1981, and that when the House adjourns on Tuesday, August 4, 1981, it stand adjourned until 12:00 o'clock noon on Wednesday, September 9, 1981.

ADJOURNMENT OF THE SENATE AND HOUSE UNTIL SEPTEMBER 9,

Mr. BAKER. Mr. President, I send to the desk another resolution, Senate Concurrent Resolution 28.

The PRESIDING OFFICER. The clerk will state the resolution by title.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 28) providing for an adjournment of the Senate from August 3, 1981 to September 9, 1981, and an adjournment of the House from August 5, 1981 to September 9, 1981.

The Senate proceeded to consider the concurrent resolution.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (S. Con. Res. 28) was agreed to as follows:

Resolved by the Senate (the House of Representatives concurring). That when the

Senate adjourns on Monday, August 3, 1981, it stand adjourned until 12:00 o'clock noon on Wednesday, September 9, 1981, and that when the House adjourns on Wednesday, August 5, 1981, it stand adjourned until 12:00 o'clock noon on Wednesday, September 9,

DIRECTING THE CLERK OF THE HOUSE OF REPRESENTATIVES TO MAKE CORRECTIONS IN THE EN-ROLLMENT OF H.R. 4242.

Mr. BAKER. Mr. President, I now send to the desk on behalf of the distinguished chairman of the Committee on Finance (Mr. Dole) a concurrent resolution (S. Con. Res. 30) and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk

will state the resolution by title. The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 30) directing the Clerk of the House of Representatives to make corrections in the enrollment of H.R. 4242.

The Senate proceeded to consider the concurrent resolution.

Mr. BAKER, Mr. President, before the Chair puts the question on this, I might say it is the usual resolution for the correction of technical errors in the justpassed conference report. It has been cleared with the minority, and has attached to it the substance of the changes that are to be made.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (S. Con. Res. 30) was agreed to as follows:

Resolved by the Senate (the House of Representatives concurring), That in the That in the enrollment of the bill (H.R. 4242), to amend the Internal Revenue Code of 1954 to encourage economic growth through reductions in individual income tax rates, the expensing of depreciable property, incentives for small businesses, and incentives for savings, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) In the table of contents, in the item relating to section 102, strike out ", decrease in holding period".

(2) In the table of contents, in the item relating to section 601, strike out "\$22,500" and insert in lieu thereof "\$2,500".

(3) In the table of contents, after the item relating to section 823, insert the following: SUBTITLE D-OTHER PROVISIONS

Sec. 831. Technical amendments relating to dispositions of investment in United States real property. Sec. 832. Modification of foreign investment

company provisions.

(4) In the section heading to section 102 of the bill, strike out ", DECREASE IN HOLDING

(5) In section 209(c)(1)(B) of the bill, strike out "subparagraph (B)" and insert in lieu thereof "subparagraph (B)(i)

In paragraph (2) of section 313(b) of the bill, strike out "Sections 219(c)(2)" and insert in lieu thereof "Sections 219(d)(2) (as amended by section 311(a) of this Act)".

(7) In section 305(e)(3)(A) of the Internal Revenue Code of 1954, as added by section 321(a) of the bill, strike out "tangible personal depreciable property" and insert in lieu thereof "tangible property described in section 1245(a)(3) (other than subparagraphs (C) and (D) thereof)".

(8) In subparagraph (B) of section 2032A

(e) (7) of the Internal Revenue Code of 1954, as added by section 421(f)(1) of the bill—
(A) strike out "average net share rental"

place it appears and insert in lieu thereof "average annual net share rental".

(B) strike out "average gross cash rental" and insert in lieu thereof "average annual gross cash rental".

(9) In paragraph (5) of section 509(a), strike out "section 6601(b)" and insert in lieu thereof "section 6601".

(10) Amend the title so as to read: "A bill to amend the Internal Revenue Code of 1954 to encourage economic growth through reduction of the tax rates for individual taxpayers, acceleration of capital cost recovery of investment in plant, equipment, and real property, and incentives for savings, and for other purposes."

Mr. BAKER. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. STFNNIS. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

ORDER OF BUSINESS

Mr. BAKER. Mr. President, while I ascertain whether the Senate has any further business to come before it, I will shortly suggest the absence of a quorum, but before I do so may I inquire is there a convening hour for Thursday of this week, for the recess over of the Senate until Thursday of this week?

The PRESIDING OFFICER. The Senator is correct. It is 12 noon.

Mr. BAKER. I thank the Chair.

Mr. President, the concurrent resolution provides for the convening of the Senate at noon on the 9th of September; is that correct?

The PRESIDING OFFICER. The Senator is correct.

Mr. BAKER. Is there an order for the convening of the Senate on the 10th day of September?

The PRESIDING OFFICER. There is not an order.

Mr. BAKER. I will not make that request at this time, Mr. President.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BAKER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER FOR THE RECOGNITION OF SENATOR BAKER AND SENATOR ROBERT C. BYRD ON WEDNESDAY, SEPTEMBER 9, 1981

Mr. BAKER. Mr. President, I ask unanimous consent that on Wednesday, September 9, when the Senate reconvenes, that after the two leaders are recnized under the standing order, the Senator from West Virginia (Mr. ROBERT C. Byrn) and the Senator from Tennessee (Mr. Baker) be recognized on special orders for not to exceed 15 minutes.

objection, it is so ordered.

ADJOURNMENT UNTIL WEDNESDAY, SEPTEMBER 9, 1981

Mr. BAKER, Mr. President, I know of no further business to come before the Senate, and I now ask unanimous consent that the Senate stand in recess No. 28, the Senate will stand in adjourn-

House of Representatives agrees to either 1981, at 12 noon. Senate Concurrent Resolution No. 27 or No. 28, as adopted by the Senate.

There being no objection, the Senate, at 3:16 p.m., recessed until August 6, 1981, at 12 noon, provided, that if the House of Representatives agrees to either Senate Concurrent Resolution No. 27 or

The PRESIDING OFFICER. Without until Thursday next unless and until the ment until Wednesday, September 9,

CONFIRMATION

Executive nomination confirmed by the Senate August 3, 1981:

DEPARTMENT OF DEFENSE

Richard N. Perle, of Maryland, to be an Assistant Secretary of Defense, vice Gerald Paul Dineen, resigned.

HOUSE OF REPRESENTATIVES-Monday, August 3, 1981

CONFERENCE REPORT ON H.R. 4242

Pursuant to the order of Friday, July 31, 1981, Mr. Rostenkowski submitted the following conference report and statement on the bill (H.R. 4242) to amend the Internal Revenue Code of 1954 to encourage economic growth through reductions in individual income tax rates, the expensing of depreciable property, incentives for small businesses, and incentives for savings, and for other purposes:

CONFERENCE REPORT (H. REPT. No. 97-215)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4242) to amend the Internal Revenue Code of 1954 to encourage economic growth through reductions in individual income tax rates, the expensing of depreciable property, incentives for small businesses, and incentives for savings, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows: That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS; AMENDMENT OF 1954 CODE.

(a) SHORT TITLE.—This Act may be cited as the "Economic Recovery Tax Act of 1981".

(b) Table of Contents.—

Sec. 1. Short title; table of contents; amendment of 1954 Code.

TITLE I—INDIVIDUAL INCOME TAX PROVISIONS

Subtitle A-Tax Reductions

Sec. 101. Rate cuts; rate reduction credit. Sec. 102. 20-percent maximum rate on net capital gain for portion of 1981, decrease in holding period.

Sec. 103. Deduction for two-earner married couples.

Sec. 104. Adjustment to prevent inflationcaused tax increase.

Subtitle B-Income Earned Abroad

Sec. 111. Partial exclusion for earned income from sources without the United States and foreign housing costs.

Sec. 112. Repeal of deduction for certain expenses of living abroad.

Sec. 113. Employees living in camps.

Sec. 114. Reports by Secretary.

Sec. 115. Effective date.

Subtitle C-Miscellaneous Provisions

Sec. 127. State legislators travel expenses away from home.

Sec. 128. Rates of tax for principal campaign committees.

TITLE II—BUSINESS INCENTIVE PROVISIONS

Subtitle A—Cost Recovery Provisions

Sec. 201. Accelerated cost recovery system. Sec. 202. Election to expense certain depre-

ciable business assets.

Sec. 203. Amendments related to depreciation.

Sec. 204. Recapture on disposition of recovery property.

Sec. 205. Minimum tax treatment.

Sec. 206. Earnings and profits.

Sec. 207. Extension of carryover period for net operating losses and certain credits.

Sec. 208. Carryover of recovery attribute in section 381 transactions.

Sec. 209. Effective dates.

Subtitle B—Investment Tax Credit Provisions

Sec. 211. Modification of investment tax credit to reflect accelerated

cost recovery.

Sec. 212. Increase in investment tax credit
for qualified rehabilitation expenditures.

Sec. 213. Investment credit for used property; increase in dollar limit.

Sec. 214. Investment tax credit allowed for certain rehabilitated buildings leased to tax-exempt organizations or to governmental units.

Subtitle C—Incentives for Research and Experimentation

Sec. 221. Credit for increasing research activities.

Sec. 222. Charitable contributions of scientific property used for research.

Sec. 223. Suspension of regulations relating to allocation under section 861 of research and experimental expenditures.

Subtitle D-Small Business Provisions

Sec. 231. Reduction in corporate rate tax.

Sec. 232. Increase in accumulated earnings credit.

Sec. 233. Subchapter S shareholders.

Sec. 234. Treatment of trusts as subchapter S shareholders.

Sec. 235. Simplification of LIFO by use of Government indexes to be provided by regulations.

Sec. 236. Three-year averaging permitted for increases in inventory value.

Sec. 237. Election by small business to use one inventory pool when LIFO is elected. Subtitle E-Savings and Loan Associations

Sec. 241. Reorganizations involving financially troubled thrift institutions.

Sec. 242. Limitations on carryovers of financial institutions.

Sec. 243. Reserves for losses on loans. Sec. 244. FSLIC financial assistance.

Sec. 245. Mutual savings banks with capital stock.

Sec. 246. Effective dates.

Subtitle F-Stock Options, Etc.

Sec. 251. Stock options.

Sec. 252. Property transferred to employees subject to certain restrictions.

Subtitle G-Miscellaneous Provisions

Sec. 261. Adjustments to new jobs credit.

Sec. 262. Section 189 made inapplicable to low-income housing.

Sec. 263. Increase in deduction allowable to a corporation in any taxable year for charitable contributions.

Sec. 264. Amortization of low-income housing.

Sec. 265. Deductibility of gifts by employers to employees.

Sec. 266. Deduction for motor carrier operating authority.

Sec. 267. Limitation on additions to bank loss reserves.

TITLE III—SAVINGS PROVISIONS

Subtitle A-Interest Exclusion

Sec. 301. Exclusion of interest on certain savings certificates.

Sec. 302. Partial exclusion of interest.

Subtitle B—Retirement Savings Provisions

Sec. 311. Retirement savings.

Sec. 312. Increase in amount of self-employed retirement plan deduction.

Sec. 313. Rollovers under bond purchase plans.

Sec. 314. Miscellaneous provisions.

Subtitle C—Reinvestment of Dividends in Public Utilities

Sec. 321. Encouragement of reinvestment of dividends in the stock of public utilities.

Subtitle D—Employee Stock Ownership Provisions

Sec. 331. Payroll-based credit for establishing employee stock ownership plan.

Sec. 332. Termination of the portion of the investment credit attributable to employee plan percentage.

Sec. 333. Tax treatment of contributions attributable to principal and interest payments in connection with an employee stock ownership plan.

Sec. 334. Cash distributions from an employee stock ownership plan.

Sec. 335. Put option for stock bonus plans.

Sec. 336. Put option requirements for banks; put option period.

Sec. 337. Distribution of employer securi-

Sec. 337. Distribution of employer securities from a tax credit employee stock ownership plan in the case of a sale of employer

[☐] This symbol represents the time of day during the House proceedings, e.g., ☐ 1407 is 2:07 p.m.

[•] This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

assets or stock.

Sec. 338. Pass through of voting rights on employer securities.

Sec. 339. Effective date.

TITLE IV-ESTATE AND GIFT TAX **PROVISIONS**

Subtitle A-Increase in Unified Credit; Rate Reduction; Unlimited Marital Deduction

Sec. 401. Increase in unified credit.

Sec. 402. Reduction in maximum rates of tax.

Sec. 403. Unlimited marital deduction.

Subtitle B-Other Estate Tax Provisions

Sec. 421. Valuation of certain farm, etc., real property.

Sec. 422. Coordination of extensions of time for payment of estate tax where estate consists largely of interest in closely held business.

Sec. 423. Treatment of certain contributions of works of art, etc.

Sec. 424. Gifts made within 3 years of decendent's death not included in gross estate.

Sec. 425. Basis of certain appreciated property transferred to decedent by gift within one year of death.

Sec. 426. Disclaimers.

Sec. 427. Repeal of deduction for bequests, etc., to certain minor children.

Sec. 428. Postponement of generation-skipping tax effective date.

Sec. 429. Credit against estate tax for transfer to Smithsonian.

Subtitle C-Other Gift Tax Provisions

Sec. 441. Increase in annual gift tax exclusion; unlimited exclusion for certain transfers.

Sec. 442. Time for payment of gift taxes. TITLE V-TAX STRADDLES

Sec. 501. Postponement of recognition of losses, etc.

Sec. 502. Capitalization of certain interest and carrying charges in the case of straddles.

Sec. 503. Regulated futures contracts marked to market.

Sec. 504. Carryback of losses from regulated futures contracts to offer prior gains from such contracts.

Sec. 505. Certain governmental obligations issued at discount treated as capital assets.

Sec. 506. Prompt identification of securities by dealers in securities.

Sec. 507. Treatment of gain or loss from certain terminations.

Sec. 508. Effective dates.

Sec. 509. Election for extension of time for payment and application of section 1256 for the taxable year including June 23, 1981.

TITLE VI-ENERGY PROVISIONS

Subtitle A-Changes in Windfall Profit Tax Sec. 601. \$22,500 royalty credit for 1981; exemption for 1982 and thereaf-

in tax imposed on Sec. 602. Reduction newly discovered oil.

Sec. 603. Exempt independent producer

stripper well oil.
Sec. 604. Exemption from windfall profit tax of oil produced from interests held by or for the benefit of residential child care agencies

Subtitle B-Miscellaneous Provision

Sec. 611. Application of credit for producing natural gas from a nonconventional source with the Natural Gas Policy Act of 1978.

TITLE VII-ADMINISTRATIVE PROVISIONS

Subtitle A-Prohibition of Disclosure of **Audit Methods**

Sec. 701. Prohibition of disclosure of methods for selection of tax returns for audits

Subtitle B-Changes in Interest Rate for Overpayments and Underpayments

Sec. 711. Changes in rate of interest for overpayments and underpayments.

Subtitle C-Changes in Certain Penalties and in Requirements Relating to Returns

Sec. 721. Changes in penalties for false information with respect to withholding.

Sec. 722. Additions to tax in the case of valuation overstatements, increase in negligence penalty.

Sec. 723. Changes in requirements relating to information returns.

Sec. 724. Penalty for overstated deposit claims.

Sec. 725. Declaration of estimated tax not required in certain cases.

Subtitle D-Cash Management

Sec. 731. Cash management.

Subtitle E-Financing of Railroad Retirement System

Sec. 741. Increases in employer and employee taxes.

Sec. 742. Advance transfer of amounts payable under social security financial interchange.

Sec. 743. Amendments to section 3231 clarifying definition of compensation.

Subtitle F-Filing Fees

Sec. 751. Fees for filing petitions.

TITLE VIII-MISCELLANEOUS PROVISIONS

Subtitle A-Extensions

Sec. 801. Fringe benefits.

Sec. 802. Exclusion for prepaid legal services 3 vears.

Subtitle B-Tax-Exemption Obligations Sec. 811. Tax-exempt financing for vehicles

used for mass commuting. Sec. 812. Obligations of certain volunteer fire departments.

Subtitle C-Excise Taxes

Sec. 821. Extension of telephone excise tax. Sec. 822. Exclusion of certain services from Federal Unemployment Tax Act.

Sec. 823. Private foundation distributions.

(c) AMENDMENT OF 1954 CODE.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1954.

TITLE I-INDIVIDUAL INCOME TAX **PROVISIONS**

Subtitle A-Tax Reductions

SEC. 101. RATE CUTS: RATE REDUCTION CREDIT.

(a) RATE REDUCTION.—Section 1 (relating to tax imposed) is amended to read as follows:

"SECTION 1. TAX IMPOSED.

"(a) MARRIED INDIVIDUALS FILING JOINT RETURNS AND SURVIVING SPOUSES .- There is hereby imposed on the taxable income of every married individual (as defined in section 143) who makes a single return jointly with his spouse under section 6013, and every surviving spouse (as defined in section 2(a)), a tax determined in accordance with the following tables:

"(1) FOR TAXABLE YEARS BEGINNING IN

"If taxable income is: The tax is: Not over \$3,400 .. No tax. Over \$3,400 but not over 12% of the excess over \$3,400. \$5,500. Over \$5,500 but not over \$252, plus 14% \$7,600. excess over \$5,500. Over \$7,600 but not over \$546, plus 16% of the ss over \$7,600. \$11,900. Over \$11,900 over \$16,000. Over \$16,000 but not \$1,234, plus 19% of the excess over \$11,900 but not \$2.013, plus 22% of the over \$20,200. excess over \$16,000 Over \$20,200 over \$24,600. but not \$2,937, plus 25% of the excess over \$20,200. Over \$24,600 over \$29,900. but not \$4,037, plus 29% of the excess over \$24,600. Over \$29,900 over \$35,200. \$5,574, plus 33% of the but excess over \$29 900 Over \$35,200 but \$7,323, plus 39% of the over \$45,800 excess over \$35,200. but not \$11,457, plus 44% of the Over \$45,800 excess over \$45,800. but not \$17,705, plus 49% of the over \$60,000. Over \$60,000 over \$85,600 excess over \$60,000. \$30,249, plus 50% of the Over \$85,600... excess over \$85,600.

"(2) FOR TAXABLE YEARS BEGINNING IN 1983.-

RATE REDUCTION .-

(1) In general.-Section 6428 (relating to refund of 1974 individual income taxes) is amended to read as follows:

"SEC. 6428. 1981 RATE REDUCTION TAX CREDIT.

"(a) ALLOWANCE OF CREDIT.—There shall be allowed as a credit against the tax imposed by section 1, or against a tax imposed in lieu of the tax imposed by section 1, for any taxable year beginning in 1981, an amount equal to the product of—

"(1) 1.25 percent, multiplied by

"(2) the amount of tax imposed by section 1 (or in lieu thereof) for such taxable year. "(b) SPECIAL RULES FOR APPLICATION OF THIS SECTION.-

"(1) APPLICATION WITH OTHER CREDITS.—In determining any credit allowed under subpart A of part IV of subchapter A of chapter 1 (other than under sections 31, 39, and 43), the tax imposed by chapter 1 shall (before any other reductions) be reduced by the credit allowed under subsection (a).

"(2) CREDIT TREATED AS SUBPART A CREDIT. For purposes of this title, the credit allowed under subsection (a) shall be treated as a credit allowed under subpart A of part IV of subchapter A of chapter 1.

'(c) Tables To Reflect Credit.

"(1) Section 3 tables.—The tables prescribed by the Secretary under section 3 shall reflect the credit allowed under subsection (a).

'(2) OTHER TABLES.—In order to reflect the amount of the credit under subsection (a) for different levels of tax or taxable income, the Secretary may-

'(A) modify the tables under section 1, or "(B) prescribe such other tables as he determines necessary."

(2) CONFORMING AMENDMENTS.

(A) The table of sections for subchapter B of chapter 65 is amended by striking out the item relating to section 6428 and inserting in lieu thereof the following new item:

"Sec. 6428. 1981 rate reduction tax credit."

(B) Paragraph (1) of section 3(a) (relating to imposition of tax table tax) is amended by inserting "and which shall be in such form as he determines appropriate" after 'Secretary"

(C) Subsection (a) of section 3 (relating to tax tables for individuals) is amended by adding at the end thereof the following new

paragraph:

the

the

excess over \$10,600.

excess over \$13,250.

excess over \$15,900.

excess over \$21,200

but not \$13,639, plus 48% of the

\$8,007, plus 44% of the

s over \$28,300.

"(5) SECTION MAY BE APPLIED ON THE BASIS OF TAXABLE INCOME.—The Secretary may provide that this section shall be applied for any taxable year on the basis of taxable income in lieu of tax table income.'

(c) REPEAL OF MAXIMUM TAX ON PERSONAL SERVICE INCOME.

(1) IN GENERAL.—Part VI of subchapter Q of chapter 1 (relating to maximum rate on personal service income) is repealed.

(2) CONFORMING AMENDMENTS.

(A) Paragraph (1) of section 3(b) (relating to tax tables for individuals) is amended to read as follows:

'(1) an individual to whom section 1301 (relating to income averaging) applies for the taxable year,"

(B) Subsection (b) of section 1304 (relating to special rules for income averaging) is

(i) by inserting "and" at the end of paragraph (1),

(ii) by striking out ", and" at the end of paragraph (2) and inserting in lieu thereof a period, and

(iii) by striking out paragraph (3).

(C) The table of parts for subchapter Q of chapter 1 is amended by striking out the item relating to part VI.

(d) Conforming Amendments .-

ALTERNATIVE MINIMUM TAX.-Paragraph (1) of section 55(a) (relating to alternative minimum tax) is amended-

(A) by striking out all that follows \$60,000" in subparagraph (B) and inserting in lieu thereof ", exceeds", and
(B) by striking out subparagraph (C).

(2) PERSONAL HOLDING COMPANY TAX.—Section 541 (relating to personal holding company tax) is amended by striking out percent" and inserting in lieu thereof "50 percent".

(3) AMENDMENT TO SECTION 21.—Section 21 (relating to effect of changes in rates during taxable year) is amended by striking out subsections (d), (e), and (f) and inserting in

lieu thereof the following:

"(d) Section Not To Apply to Section 1 RATE CHANGES MADE BY ECONOMIC RECOVERY TAX ACT OF 1981.—This section shall not apply to any change in rates under section 1 attributable to the amendments made by section 1010 of the Economic Recovery Tax Act of 1981 or subsection (f) of section 1 (relating to adjustments in tax tables so that inflation will not result in tax increases)."

(e) WITHHOLDING TABLES .-

(1) DETERMINATION OF WITHHOLDING.—Section 3402(a) (relating to requirement of withholding income tax at source) is amended to read as follows:

(a) REQUIREMENT OF WITHHOLDING .-"(1) In general.-Except as otherwise provided in this section, every employer making payment of wages shall deduct and withhold upon such wages a tax determined in accordance with tables or computational procedures prescribed by the Secretary. Any tables or procedures prescribed under this paragraph shall-

"(A) apply with respect to the amount of wages paid during such periods as the Secre-

tary may prescribe, and

"(B) be in such form, and provide for such amounts to be deducted and withheld, as the Secretary determines to be most appropriate to carry out the purposes of this chapter and to reflect the provisions of chapter 1 applicable to such periods.

"(2) Amount of wages.-For purposes of applying tables or procedures prescribed under paragraph (1), the term 'the amount of wages' means the amount by which the wages exceed the number of withholding exemptions claimed multiplied by the amount of one such exemption. The amount of each withholding exemption shall be equal to the

amount of one personal exemption provided in section 151(b), prorated to the payroll period. The maximum number of withholding exemptions permitted shall be calculated in accordance with regulations prescribed by the Secretary under this section, taking into account any reduction in withholding to which an employee is entitled under this section.

"(3) CHANGES MADE BY SECTION 101 OF THE ECONOMIC RECOVERY TAX ACT OF 1981.—Not-withstanding the provisions of this subsection, the Secretary shall modify the tables and procedures under paragraph (1) to reflect

"(A) the amendments made by section 101(b) of the Economic Recovery Tax Act of 1981, and such modification shall take effect on October 1, 1981, as if such amendments made a 5-percent reduction effective on such date, and

"(B) the amendments made by section 101(a) of such Act, and such modifications

shall take effect-

"(i) on July 1, 1982, as if the reductions in the rate of tax under section 1 (as amended by such section) were attributable to a 10percent reduction effective on such date,

"(ii) on July 1, 1983, as if such reductions were attributable to a 10-percent reduction effective on such date."

- (2) Wages Paid for Period Less than 1 Week.—Section 3402(b) (relating to the percentage method of withholding) is amended-
- (A) by striking out paragraph (1), and redesignating paragraphs (2) through (5) as paragraphs (1) through (4), respectively;

(B) by striking out paragraph (3), as redesignated by subparagraph (A), and inserting in lieu thereof the following:

'(3) In any case in which the period, or the time described in paragraph (2), in respect of any wages is less than one week, the Secretary, under regulations prescribed by him, may authorize an employer to compute the tax to be deducted and withheld as if the aggregate of the wages paid to the employee during the calendar week were paid for a weekly payroll period."

(3) ZERO BRACKET AMOUNT.—Paragraph (1)(G) of section 3402(f) (relating to withholding exemptions) is amended by inserting "(or more than one exemption if so prescribed by the Secretary)" after "one ex-

emption"

(4) CHANGES IN WITHHOLDING.—Section 3402(i) (relating to additional withholding) is amended to read as follows:

"(i) Changes in Withholding.

"(1) In GENERAL.—The Secretary may by regulations provide for increases or de-creases in the amount of withholding otherwise required under this section in cases where the employee requests such changes.

"(2) TREATMENT AS TAX.-Any increased withholding under paragraph (1) shall for all purposes be considered tax required to be deducted and withheld under this chapter.

(5) WITHHOLDING ALLOWANCES.—Subsection (m) of section 3402 (relating to withholding allowances based on itemized deductions) is amended to read as follows:

"(m) WITHHOLDING ALLOWANCES.—Under regulations prescribed by the Secretary, an employee shall be entitled to additional withholding allowances or additional reductions in withholding under this subsection. determining the number of additional withholding allowances or the amount of additional reductions in withholding under

this subsection, the employee may take into account (to the extent and in the manner

provided by such regulations)-

(1) estimated itemized deductions allowable under chapter 1 (other than the deductions referred to in section 151 and other than the deductions required to be taken into account in determining adjusted gross income under section 62) (other than paragraph (13) thereof).

'(2) estimated tax credits allowable under

chapter 1, and

"(3) such additional deductions and other items as may be specified by the Secretary in regulations."

(f) EFFECTIVE DATES.

(1) In general.—The amendments made by subsections (a), (c), and (d) shall apply to taxable years beginning after December 31,

WITHHOLDING AMENDMENTS.-The amendments made by subsection (e) shall apply to remuneration paid after September 30, 1981; except that the amendment made by subsection (e)(5) shall apply to remuneration paid after December 31, 1981.

SEC. 102. 20-PERCENT MAXIMUM RATE ON NET CAP-ITAL GAIN FOR PORTION OF 1981, DE-CREASE IN HOLDING PERIOD.

- (a) In General.-If for any taxable year ending after June 9, 1981, and beginning before January 1, 1982, a taxpayer other than a corporation has qualified net capital gain, then the tax imposed under section 1 of the Internal Revenue Code of 1954 for such taxable year shall be equal to the lesser of-
- (1) the tax imposed under such section determined without regard to this subsection,

(2) the sum of-

- (A) the tax imposed under such section on the excess of-
- (i) the taxable income of the taxpayer,
- (ii) 40 percent of the qualified net capital
- gain of the taxpayer, and
 (B) 20 percent of the qualified net capital

(b) APPLICATION WITH ALTERNATIVE MINI-MUM TAX.

(1) In general.-If subsection (a) applies to any taxpayer for any taxable year, then the amount determined under section 55(a)(1) of the Internal Revenue Code of 1954 for such taxable year shall be equal to the lesser of-

(A) the amount determined under such section 55(a)(1) determined without regard to this subsection, or

(B) the sum of-

(i) the amount which would be determined under such section 55(a)(1) if the alternative minimum taxable income was the excess of-

(I) the alternative minimum taxable income (within the meaning of section 55(b)(1) of such Code) of the taxpayer, over

(II) the qualified net capital gain of the taxpayer, and

(ii) 20 percent of the qualified net capital

(2) No credits allowable.—For purposes of section 55(c) of such Code, no credit allowable under subpart A of part IV of subchapter A of chapter 1 of such Code (other than section 33(a) of such Code) shall be allowable against the amount described in paragraph (1)(B)(ii).

(c) QUALIFIED NET CAPITAL GAIN.

(1) In general.—For purposes of this section, the term "qualified net capital gain" means the lesser of-

(A) the net capital gain for the taxable

(B) the net capital gain for the taxable year taking into account only gain or loss from sales or exchanges occurring after June 9, 1981.

(2) NET CAPITAL GAIN.-For purposes of this subsection, the term "net capital gain" has the meaning given such term by section 1222(11) of the Internal Revenue Code of 1954

(d) SPECIAL RULE FOR PASS-THRU ENTI-TIES

- (1) In general.—In applying subsections (a), (b), and (c) with respect to any pass-thru entity, the determination of when a sale or exchange has occurred shall be made at the entity level.
- (2) PASS-THRU ENTITY DEFINED.—For purposes of paragraph (1), the term "pass-thru entity" means
 - (A) a regulated investment company,
 - (B) a real estate investment trust,
 - (C) an electing small business corporation,

(D) a partnership,

(E) an estate or trust, and

(F) a common trust fund.

SEC. 103. DEDUCTION FOR TWO-EARNER MARRIED COUPLES.

(a) IN GENERAL.—Part VII of subchapter B of chapter 1 (relating to additional itemized deductions for individuals) is amended by redesignating section 221 as section 222 and by inserting after section 220 the following new section:

"SEC. 221. DEDUCTION FOR TWO-EARNER MARRIED COUPLES.

"(a) DEDUCTION ALLOWED .-

"(1) In general.—In the case of a joint return under section 6013 for the taxable year, there shall be allowed as a deduction an amount equal to 10 percent of the lesser

"(A) \$30,000, or

"(B) the qualified earned income of the spouse with the lower qualified earned income for such taxable year.

"(2) SPECIAL RULE FOR 1982.—In the case of a taxable year beginning during 1982, paragraph (1) shall be applied by substituting '5 percent' for '10 percent'.

"(b) QUALIFIED EARNED INCOME DEFINED .-"(1) In general.-For purposes of this section, the term 'qualified earned income' means an amount equal to the excess of

"(A) the earned income of the spouse for the taxable year, over

"(B) an amount equal to the sum of the deductions described in paragraphs (1), (2), (7), (9), (10), and (15) of section 62 to the extent such deductions are properly allocable to or chargeable against earned income described in subparagraph (A).

The amount of qualified earned income shall be determined without regard to any community property laws.

"(2) EARNED INCOME.—For purposes of paragraph (1), the term 'earned income' means income which is earned income within the meaning of section 911(d)(2) or 401(c)(2)(C), except that-

"(A) such term shall not include any amount

"(i) not includible in gross income

"(ii) received as a pension or annuity, "(iii) paid or distributed out of an individ-

ual retirement plan (within the meaning of section 7701(a)(37)).

"(iv) received as deferred compensation, or "(v) received for services performed by an individual in the employ of his spouse (within the meaning of section 3121(b)(3)(A)), and

"(B) section 911(d)(2)(B) shall be applied without regard to the phrase 'not in excess

of 30 percent of his share of net profits of such trade or business'

(c) DEDUCTION DISALLOWED FOR INDIVID-UAL CLAIMING BENEFITS OF SECTION 911 OR 931.-No deduction shall be allowed under this section for any taxable year if either spouse claims the benefits of section 911 or 931 for such taxable year."

(b) DEDUCTION ALLOWED IN COMPUTING AD-JUSTED GROSS INCOME.—Section 62 (defining adjusted gross income), as amended by section 112(b)(2) of this Act, is amended by inserting after paragraph (15) the following new paragraph:

"(16) DEDUCTION FOR TWO-EARNER MARRIED COUPLES.—The deduction allowed by section

(c) Other Conforming Amendments.—
(1) Subsection (a) of section 85 (relating to unemployment compensation) is amended by striking out "and without regard to sec-tion 105(d)" and inserting in lieu thereof ". section 105(d), and section 221"

(2) Subsection (d)(3) of section 105 (relating to amounts received under accident and health plans) is amended by inserting "and the first section 221" after "subsection"

place it appears.

(3) The table of sections for such part VII is amended by striking out the item relating to section 221 and inserting in lieu thereof the following new items:

"Sec. 221. Deduction for two-earner married couples.

"Sec. 222. Cross references."

(d) Effective Dates.-The amendments made by this section shall apply to taxable years beginning after December 31, 1981. SEC. 104. ADJUSTMENT TO PREVENT INFLATION-CAUSED TAX INCREASE.

(a) ADJUSTMENTS TO INDIVIDUAL INCOME Tax Brackets.-Section 1 (relating to tax imposed) is amended by adding at the end

thereof the following new subsection: "(f) ADJUSTMENTS IN TAX TABLES SO THAT INFLATION WILL NOT RESULT IN TAX IN-

CREASES.

- "(1) In general.—Not later than December 15 of 1984 and each subsequent calendar year, the Secretary shall prescribe tables which shall apply in lieu of the tables contained in paragraph (3) of subsections (a), (b), (c), (d), and (e) with respect to taxable years beginning in the succeeding calendar
- "(2) METHOD OF PRESCRIBING TABLES.—The table which under paragraph (1) is to apply in lieu of the table contained in paragraph (3) of subsection (a), (b), (c), (d), or (e), as the case may be, with respect to taxable years beginning in any calendar year shall be prescribed-

"(A) by increasing-

"(i) the maximum dollar amount on which no tax is imposed under such table, and

"(ii) the minimum and maximum dollar amounts for each rate bracket for which a tax is imposed under such table, by the costof-living adjustment for such calendar year,

"(B) by not changing the rate applicable to any rate bracket as adjusted under sub-

paragraph (A)(ii), and

"(C) by adjusting the amounts setting forth the tax to the extent necessary to reflect the adjustments in the rate brackets.

If any increase determined under subparagraph (A) is not a multiple of \$10, such increase shall be rounded to the nearest multiple of \$10 (or if such increase is a multiple of \$5, such increase shall be increased to the next highest multiple of \$10).

"(3) Cost-of-living adjustment.-For purposes of paragraph (2), the cost-of-living ad-

justment for any calendar year is the percentage (if any) by which-

"(A) the CPI for the preceding calendar year, exceeds

"(B) the CPI for the calendar year 1983.

"(4) CPI FOR ANY CALENDAR YEAR.-For purposes of paragraph (3), the CPI for any calendar year is the average of the Consumer Price Index as of the close of the 12-month period ending on September 30 of such calendar year.

(5) Consumer price index.—For purposes of paragraph (4), the term 'Consumer Price Index' means the last Consumer Price Index for all-urban consumers published by the

Department of Labor."

OF (b) DEFINITION ZERO AMOUNT.-Subsection (d) of section 63 (defining zero bracket amount) is amended to read as follows:

"(d) ZERO BRACKET AMOUNT.-For purposes of this subtitle, the term 'zero bracket

amount' means-

"(1) in the case of an individual to whom subsection (a), (b), (c), or (d) of section 1 applies the maximum amount of taxable income on which no tax is imposed by the applicable subsection of section 1, or

"(2) zero in any other case."

(c) PERSONAL EXEMPTIONS .-

(1) GENERAL RULE.—Section 151 (relating to allowance of deductions for personal exemptions) is amended by striking out \$1,000" each place it appears and inserting in lieu thereof "the exemption amount"

(2) EXEMPTION AMOUNT.—Section 151 is amended by adding at the end thereof the

following new subsection:

- "(f) Exemption Amount.-For purposes of this section, the term 'exemption amount' means, with respect to any taxable year, \$1,000 increased by an amount equal to \$1,000 multiplied by the cost-of-living adjustment (as defined in section 1(f)(3)) for the calendar year in which the taxable year begins. If the amount determined under the preceding sentence is not a multiple of \$10. such amount shall be rounded to the nearest multiple of \$10 (or if such amount is a multiple of \$5, such amount shall be increased to the next highest multiple of \$10).
- (d) RETURN REQUIREMENTS .-

(1) AMENDMENTS TO SECTION 6012.-

(A) Clause (i) of section 6012(a)(1)(A) is amended by striking out "\$3,300" and inserting in lieu thereof "the sum of the ex-emption amount plus the zero bracket amount applicable to such an individual'

(B) Clause (ii) of section 6012(a)(i)(A) is amended by striking out "\$4,400" and in-serting in lieu thereof "the sum of the exemption amount plus the zero bracket amount applicable to such an individual".

(C) Clause (iii) of section 6012(a)(1)(A) is amended by striking out "\$5,400" and in-serting in lieu thereof "the sum of twice the exemption amount plus the zero bracket amount applicable to a joint return"

(D) Paragraph (1) of section 6012(a) is amended by striking out "\$1,000" each place it appears and inserting in lieu thereof "the

exemption amount".

(E) Paragraph (1) of section 6012(a) is amended by adding at the end thereof the following new subparagraph:

"(D) For purposes of this paragraph-

"(i) The term 'zero bracket amount' has the meaning given to such term by section

'(ii) The term 'exemption amount' has the meaning given to such term by section 151(f)."

- (2) AMENDMENTS TO SECTION 6013.—Subparagraph (A) of section 6013(b)(3) is amended-
- (A) by striking out "\$1,000" each place it appears and inserting in lieu thereof "the exemption amount".
- (B) by striking out "\$2,000" each place it appears and inserting in lieu thereof "twice the exemption amount", and
- (C) by adding at the end thereof the following new sentence: "For purposes of this subparagraph, the term 'exemption amount' has the meaning given to such term by section 151(f)."
- (e) Effective Date.-The amendments made by this section shall apply to taxable years beginning after December 31, 1984.

Subtitle B-Income Earned Abroad

- SEC. 111. PARTIAL EXCLUSION FOR EARNED INCOME FROM SOURCES WITHOUT THE UNITED STATES AND FOREIGN HOUSING COSTS.
- (a) In General.-Section 911 (relating to income earned by individuals in certain camps) is amended to read as follows:
- "SEC. 911. CITIZENS OR RESIDENTS OF THE UNITED STATES LIVING ABROAD.
- "(a) Exclusion From Gross Income.-At the election of a qualified individual (made separately with respect to paragraphs (1) and (2)), there shall be excluded from the gross income of such individual, and exempt from taxation under this subtitle, for any taxable year-
- "(1) the foreign earned income of such individual, and
- (2) the housing cost amount of such individual.
- "(b) Foreign Earned Income .-
- "(1) DEFINITION.—For purposes of this section-
- "(A) In general.-The term 'foreign earned income' with respect to any individual means the amount received by such individual from sources within a foreign country or countries which constitute earned income attributable to services performed by such individual during the period described in subparagraph (A) or (B) of subsection (d)(1), whichever is applicable.
- "(B) CERTAIN AMOUNTS NOT INCLUDED IN FOREIGN EARNED INCOME.—The foreign earned income for an individual shall not include amounts
 - "(i) received as a pension or annuity,
- "(ii) paid by the United States or an agency thereof to an employee of the United States or an agency thereof,
- "(iii) included in gross income by reason of section 402(b) (relating to taxability of beneficiary of nonexempt trust) or section 403(c) (relating to taxability of beneficiary under a nonqualified annuity), or
- "(iv) received after the close of the taxable year following the taxable year in which the services to which the amounts are attributable are performed.
- "(2) LIMITATION ON FOREIGN INCOME.-
- "(A) In GENERAL.-The foreign earned income of an individual which may be excluded under subsection (a)(1) for any taxable year shall not exceed the amount of foreign earned income computed on a daily basis at the annual rate set forth in the fol-lowing table for each day of the taxable year within the applicable period described in subparagraph (A) or (B) of subsection (d)(1):

"In the case of taxable years beginning in:	annual rate is:
1982	\$75,000
1983	80,000
1984	85,000
1985	90,000
1986 and thereafter	95,000

"(B) ATTRIBUTION TO YEAR IN WHICH SERV-ICES ARE PERFORMED.-For purposes of applysubparagraph (A), amounts received shall be considered received in the taxable year in which the services to which the amounts are attributable are performed.

"(C) TREATMENT OF COMMUNITY INCOME. In applying subparagraph (A) with respect to amounts received from services per-formed by a husband or wife which are community income under community property laws applicable to such income, the aggregate amount which may be excludable from the gross income of such husband and wife under subsection (a)(1) for any taxable year shall equal the amount which would be so excludable if such amounts did not constitute community income.

(c) Housing Cost Amount.—For purposes of this section-

"(1) In general.—The term 'housing cost amount' means an amount equal to the excess of-

"(A) the housing expenses of an individual

for the taxable year, over

'(B) an amount equal to the product of-"(i) 16 percent of the salary (computed on a daily basis) of an employee of the United States who is compensated at a rate equal to the annual rate paid for step 1 of grade GS-14. multiplied by

"(ii) the number of days of such taxable year within the applicable period described in subparagraph (A) or (B) of subsection

"(2) Housing expenses.-

"(A) In GENERAL .- The term 'housing expenses' means the reasonable expenses paid or incurred during the taxable year by or on behalf of an individual for housing for the individual (and, if they reside with him, for his spouse and dependents) in a foreign country. The term-

"(i) includes expenses attributable to the housing (such as utilities and insurance),

"(ii) does not include interest and taxes of the kind deductible under section 163 or 164 or any amount allowable as a deduction under section 216(a).

Housing expenses shall not be treated as reasonable to the extent such expenses are lavish or extravagant under the circum-

"(B) SECOND FOREIGN HOUSEHOLD.

"(i) In general.-Except as provided in clause (ii), only housing expenses incurred with respect to that abode which bears the closest relationship to the tax home of the individual shall be taken into account under paragraph (1).

"(ii) SEPARATE HOUSEHOLD FOR SPOUSE AND DEPENDENTS.-If an individual maintains a separate abode outside the United States for his spouse and dependents and they do not reside with him because of living conditions which are dangerous, unhealthful, or otherwise adverse, then-

"(I) the words 'if they reside with him' in subparagraph (A) shall be disregarded, and

"(II) the housing expenses incurred with respect to such abode shall be taken into account under paragraph (1).

"(3) SPECIAL RULES WHERE HOUSING EX-PENSES NOT PROVIDED BY EMPLOYER.

"(A) In general.-To the extent the housing cost amount of any individual for any taxable year is not attributable to employer provided amounts, such amount shall be treated as a deduction allowable in computing adjusted gross income to the extent of the limitation of subparagraph (B).

"(B) LIMITATION.—For purposes of sub-paragraph (A), the limitation of this sub-

paragraph is the excess of-

"(i) the foreign earned income of the individual for the taxable year, over

"(ii) the amount of such income excluded from gross income under subsection (a)(1) for the taxable year.

"(C) 1-YEAR CARRYOVER OF HOUSING AMOUNTS NOT ALLOWED BY REASON OF SUB-PARAGRAPH (B) .-

(i) In general.—The amount not allowable as a deduction for any taxable year under subparagraph (A) by reason of the limitation of subparagraph (B) shall be treated as a deduction allowable in computing adjusted gross income for the succeeding taxable year (and only for the succeeding taxable year) to the extent of the limitation of clause (ii) for such succeeding taxable year.

"(ii) LIMITATION.—For purposes of clause (i), the limitation of this clause for any taxable year is the excess of-

"(I) the limitation of subparagraph (B)

for such taxable year, over

"(II) amounts treated as a deduction under subparagraph (A) for such taxable

"(D) EMPLOYER PROVIDED AMOUNTS .- For purposes of this paragraph, the term 'employer provided amounts' means any amount paid or incurred on behalf of the individual by the individual's employer which is foreign earned income included in the individual's gross income for the taxable year (without regard to this section).

"(E) FOREIGN EARNED INCOME. poses of this paragraph, an individual's foreign earned income for any taxable year shall be determined without regard to the limitation of subparagraph (A) of subsec-

tion (b)(2).

"(d) DEFINITIONS AND SPECIAL RULES.-For

purposes of this section-

QUALIFIED INDIVIDUAL.-The term 'qualified individual' means an individual whose tax home is in a foreign country and

"(A) a citizen of the United States and establishes to the satisfaction of the Secretary that he has been a bona fide resident of a foreign country or countries for an uninterrupted period which includes an entire taxable year, or

"(B) a citizen or resident of the United States and who, during any period of 12 consecutive months, is present in a foreign country or countries during at least 330 full days in such period.

(2) EARNED INCOME.-

"(A) In general.-The term 'earned income' means wages, salaries, or professional fees, and other amounts received as compensation for personal services actually rendered, but does not include that part of the compensation derived by the taxpayer for personal services rendered by him to a corporation which represents a distribution of earnings or profits rather than a reasonable allowance as compensation for the personal services actually rendered.

"(B) TAXPAYER ENGAGED IN TRADE OR BUSI-NESS.-In the case of a taxpayer engaged in a trade or business in which both personal services and capital are material incomeproducing factors, under regulations prescribed by the Secretary, a reasonable allowance as compensation for the personal services rendered by the taxpayer, not in excess of 30 percent of his share of the net profits of such trade or business, shall be consid-

ered as earned income.
"(3) Tax home.—The term 'tax home' means, with respect to any individual, such individual's home for purposes of section 162(a)(2) (relating to traveling expenses while away from home). An individual shall not be treated as having a tax home in a foreign country for any period for which his abode is within the United States.

"(4) Waiver of Period of Stay in Foreign country.-Notwithstanding paragraph (1),

an individual who-

"(A) is a bona fide resident of, or is present in, a foreign country for any period, "(B) leaves such foreign country after August 31, 1978-

'(i) during any period during which the Secretary determines, after consultation with the Secretary of State or his delegate, that individuals were required to leave such foreign country because of war, civil unrest, or similar adverse conditions in such foreign country which precluded the normal conduct of business by such individuals, and

"(ii) before meeting the requirements of

such paragraph (1), and

"(C) establishes to the satisfaction of the Secretary that such individual could reasonably have been expected to have met such requirements but for the conditions referred to in clause (i) of subparagraph (B),

shall be treated as a qualified individual with respect to the period described in subparagraph (A) during which he was a bona fide resident of, or was present in, the foreign country, and in applying subsections (b)(2)(A) and (c)(1)(B)(ii) with respect to such individual, only the days within such period shall be taken into account.

"(5) TEST OF BONA FIDE RESIDENCE.-

"(A) an individual who has earned income from sources within a foreign country submits a statement to the authorities of that country that he is not a resident of that country, and

"(B) such individual is held not subject as a resident of that country to the income tax of that country by its authorities with re-

spect to such earnings.

then such individual shall not be considered a bona fide resident of that country for purposes of paragraph (1)(A).

"(6) DENIAL OF DOUBLE BENEFITS.—No deduction or exclusion from gross income under this subtitle or credit against the tax imposed by this chapter (including any credit or deduction for the amount of taxes paid or accrued to a foreign country or possession of the United States) shall be allowed to the extent such deduction, exclusion, or credit is properly allocable to or chargeable against amounts excluded from gross income under subsection (a).

'(7) REGULATIONS.—The Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this section, including regulations

providing rules-

(A) for cases where a husband and wife each have earned income from sources outside the United States, and

"(B) for married individuals filing separate returns.

"(e) ELECTION .-

"(1) In GENERAL.—An election under subsection (a) shall apply to the taxable year for which made and to all subsequent taxable years unless revoked under paragraph

"(2) REVOCATION.—A taxpayer may revoke an election made under paragraph (1) for any taxable year after the taxable year for which such election was made. Except with the consent of the Secretary, any taxpayer who makes such a revocation for any taxable year may not make another election under this section for any subsequent taxable year before the 6th taxable year after the taxable year for which such revocation was made.

"(f) Cross References .-

"For administrative and penal provisions relating to the exclusions provided for in this section, see sections 6001, 6011, 6012(c), and the other provisions of subtitle F.

(b) Conforming Amendments.

(1) The table of sections for subpart B of part III of subchapter N of chapter 1 is amended by striking out the item relating to section 911 and inserting in lieu thereof the following:

"Sec. 911. Citizens or residents of the United States living abroad.'

(2) Section 43(c)(1)(C)(i) is amended by striking out "relating to income earned by individuals in certain camps outside the United States" and inserting in lieu thereof "relating to citizens or residents of the United States living abroad".

(3) Sections 1302(b)(2)(A)(i), 1304(b)(1), 1402(a)(8), 6012(c), and 6091(b)(1)(B)(iii) are each amended by striking out "relating to income earned by employees in certain camps" and inserting in lieu thereof "relating to citizens or residents of the United

States living abroad"

37(e)(9)(B), 63(e)(2), (4) Sections 105(h)(3)(B)(v), 410(b)(3)(C), 879(a)(1), 1303(c)(2), and 1304(c)(3) are each amended by striking out "section 911(b)" each place it appears and inserting in lieu thereof "section 911(d)(2)

(5) Paragraph (11) of section 1402(a) is

amended to read as follows:

"(11) in the case of an individual described in section 911(d)(1)(B), the exclusion from gross income provided by section 911(a)(1) shall not apply; and"

SEC. 112. REPEAL OF DEDUCTION FOR CERTAIN EX-PENSES OF LIVING ABROAD.

(a) In General.-Section 913 (relating to deduction for certain expenses of living abroad) is hereby repealed.

(b) CONFORMING AMENDMENTS .-

(1) The table of sections for subpart B of part III of subchapter N of chapter 1 is amended by striking out the item relating to section 913.

(2) Section 62 (relating to definition of adjusted gross income) is amended by striking out paragraph (14) and redesignating paragraphs (15) and (16) as paragraphs (14) and (15), respectively.

(3) Subparagraph (C) of section 43(c)(1)

(relating to earned income) is amended—
(A) by striking out "913," in the caption thereof.

(B) by striking out clause (ii), and

(C) by redesignating clause (iii) as clause

(4) Subsection (k) of section 1034 (relating to rollover of gain on sale of principal residence) is amended by striking out "section 913(j)(1)(B)" and inserting in lieu thereof "section 911(d)(3)"

(5) Section 3401 (relating to the definition of wages) is amended by striking out para-graph (18) and redesignating paragraphs

(19) and (20) as paragraphs (18) and (19), respectively.

(6) Subparagraph (B) of section 6091(b)(1) (relating to place for filing returns and other documents) is amended by striking out "section 913 (relating to deduction for certain expenses of living abroad)"

SEC. 113. EMPLOYEES LIVING IN CAMPS.

Section 119 (relating to meals or lodging furnished for the convenience of the employer) is amended by adding at the end thereof the following new subsection:

"(c) EMPLOYEES LIVING IN CERTAIN CAMPS.

'(1) In general.-In the case of an individual who is furnished lodging in a camp located in a foreign country by or on behalf of his employer, such camp shall be considered to be part of the business premises of the employer.

"(2) CAMP.-For purposes of this section, a camp constitutes lodging which is-

"(A) provided by or on behalf of the employer for the convenience of the employer because the place at which such individual renders services is in a remote area where satisfactory housing is not available on the open market,

"(B) located, as near as practicable, in the vicinity of the place at which such individ-

ual renders services, and

"(C) furnished in a common area (or enclave) which is not available to the public and which normally accommodates 10 or more employees."

SEC. 114. REPORTS BY SECRETARY.

Section 208 of the Foreign Earned Income Act of 1978 is amended to read as follows: "SEC. 268, REPORTS BY SECRETARY.

"(a) GENERAL RULE.—As soon as practicable after the date of the enactment of the Economic Recovery Tax Act of 1981, and as soon as practicable after the close of each fourth calendar year thereafter, the Secretary of the Treasury shall transmit a report to the Committee on Ways and Means of the House of Representatives and to the Committee on Finance of the Senate on the operation and effects of sections 911 and 912 of the Internal Revenue Code of 1954.

"(b) Information From Federal Agen-cies.—Each agency of the Federal Governwhich pays allowances excludable from gross income under section 912 of such Code shall furnish to the Secretary of the Treasury such information as he determines to be necessary to carry out his responsibility under subsection (a).

SEC. 115. EFFECTIVE DATE.

The amendments made by this subtitle (other than section 114) shall apply with respect to taxable years beginning after December 31, 1981.

Subtitle C-Miscellaneous Provisions

SEC. 121. DEDUCTION FOR CHARITABLE CONTRIBU-TIONS TO BE ALLOWED FOR INDIVID-UALS WHO DO NOT ITEMIZE DEDUC-TIONS.

(a) In General.-Section 170 (relating to charitable, etc., contributions and gifts) is amended by redesignating subsections (i) and (j) as subsections (j) and (k), respectively, and by inserting after subsection (h) the following new subsection:

"(i) Rule for Nonitemization of Deduc-TIONS

"(1) In general.—In the case of an individual who does not itemize his deductions for the taxable year, the applicable percentage of the amount allowable under subsection (a) for the taxable year shall be taken into account as a direct charitable deduction under section 63.

"(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage shall be determined under the following table:

"For taxable years beginning in—	The applicable percentage is—
1982, 1983 or 1984	25
1985	50
1986 or thereafter	100.

"(3) LIMITATION FOR TAXABLE YEARS BEGIN-NING BEFORE 1985.-In the case of a taxable year beginning before 1985, the portion of the amount allowable under subsection (a) to which the applicable percentage shall be applied-

"(A) shall not exceed \$100 for taxable years beginning in 1982 or 1983, and

"(B) shall not exceed \$300 for taxable years beginning in 1984.

In the case of a married individual filing a separate return, the limit under subparagraph (A) shall be \$50, and the limit under subparagraph (B) shall be \$150.

"(4) TERMINATION.—The provisions of this subsection shall not apply to contributions made after December 31, 1986."

(b) DEFINITION OF TAXABLE INCOME.-(1) In general.—Paragraph (1) of section 63(b) (relating to individuals) is amended-

(A) by striking out "and" at the end of subparagraph (A), and

(B) by inserting after subparagraph (B) the following new subparagraph:

"(C) the direct charitable deduction, and". (2) DIRECT CHARITABLE DEDUCTION DE-FINED.—Section 63 (defining taxable income)

is amended by adding at the end thereof the following new subsection:

(i) DIRECT CHARITABLE DEDUCTION.-For purposes of this section, the term 'direct charitable deduction' means that portion of the amount allowable under section 170(a) which is taken as a direct charitable deduction for the taxable year under section 170(i)."

(c) Conforming Amendments.

(1) Paragraph (1) of section 57(b) (relating to adjusted itemized deductions) is amended by inserting "without regard to paragraph (3) thereof" after "section 63(f)".

(2) Subsection (f) of section 63 (relating to

itemized deductions) is amended-

(A) by striking out "and" at the end of paragraph (1),

(B) by striking out the period at the end of paragraph (2) and inserting in lieu there-of ", and", and f", and", and
(C) by adding at the end thereof the fol-

lowing new paragraph: '(3) the direct charitable deduction.'

(3) Subparagraph (A) of section 3(a)(4) (relating to imposition of tax table tax) is amended to read as follows:

"(A) reduced by the sum of-

"(i) the excess itemized deductions, and

"(ii) the direct charitable deduction, and". EFFECTIVE DATE.—The amendments (d) made by this section shall apply to contributions made after December 31, 1981, in taxable years beginning after such date.

SEC. 122. 18-MONTH PERIODS FOR ROLLOVER OF PRINCIPAL RESIDENCE INCREASED TO 2 YEARS.

(a) In General.-Section 1034 (relating to rollover of gain on sale of principal residence) is amended by striking out "18 months" each place it appears and inserting in lieu thereof "2 years". (b) Conforming Amendments.-

(1) Paragraph (4) of section 1034(c) is amended by striking out "18-month" and inserting in lieu thereof "2-year"

(2) Paragraph (5) of section 1034(c) is

hereby repealed.

(c) Effective Date.-The amendments made by this section shall apply to old residences (within the meaning of section 1034 of the Internal Revenue Code of 1954) sold or exchanged-

(1) after July 20, 1981, or (2) on or before such date, if the rollover period under such section (determined without regard to the amendments made by this section) expires on or after such date.

SEC. 123. ONE-TIME EXCLUSION OF GAIN IN-**CREASED TO \$125,00**

(a) In General.—Paragraph (1) of section 121(b) (relating to one-time exclusion of gain from sale of principal residence by individual who has attained age 55) is amended by striking out "\$100,000 (\$50,000" and inserting in lieu thereof "\$125,000 (\$62,500"

(b) EFFECTIVE DATE.-The amendment made by this section shall apply to resiexchanged dences sold or

July 20, 1981.

SEC. 124. INCREASES IN CREDIT ALLOWABLE FOR EXPENSES FOR HOUSEHOLD AND DE PENDENT CARE SERVICES NECES SARY FOR GAINFUL EMPLOYMENT. NECES.

(a) INCREASE IN PERCENTAGE OF EXPENSES ALLOWED AS CREDIT.-Subsection (a) of section 44A (relating to expenses for household and dependent care services necessary for gainful employment) is amended to read as

"(a) ALLOWANCE OF CREDIT.-

"(1) In GENERAL.—In the case of an individual who maintains a household which includes as a member one or more qualifying individuals (as defined in subsection (c)(1)), there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the applicable percentage of the employment-related expenses (as defined in subsection (c)(2)) paid by such individual during the the taxable year.

"(2) APPLICABLE PERCENTAGE DEFINED.—For purposes of paragraph (1), the term 'appli-cable percentage' means 30 percent reduced (but not below 20 percent) by 1 percentage point for each \$2,000 (or fraction thereof) by which the taxpayer's adjusted gross income for the taxable year exceeds \$10,000."

(b) INCREASES IN DOLLAR LIMITS ON AMOUNT CREDITABLE.

(1) IN GENERAL.—Subsection (d) of section 44A (relating to dollar limit on amount creditable) is amended-

(A) by striking out "\$2,000" and inserting in lieu thereof "\$2,400", and

(B) by striking out "\$4,000" and inserting in lieu thereof "\$4,800".

(2) Conforming amendments.—Paragraph (2) of section 44A(e) (relating to earned income limitation) is amended-

(A) by striking out "\$166" and inserting in

lieu thereof "\$200", and
(B) by striking out "\$333" and inserting in lieu thereof "\$400".

(c) CREDIT ALLOWED FOR CERTAIN SERVICES OUTSIDE THE TAXPAYER'S HOUSEHOLD.—Subparagraph (B) of section 44A(c)(2) is amended to read as follows:

"(B) Exception.-Employment-related expenses described in subparagraph (A) which are incurred for services outside the taxpayer's household shall be taken into account only if incurred for the care of-

"(i) a qualifying individual described in

paragraph (1)(A), or

"(ii) a qualifying individual (not described paragraph (1)(A)) who regularly spends at least 8 hours each day in the taxpayer's household."

(d) DAY CARE CENTERS MUST MEET STATE LAW REQUIREMENTS.-Paragraph (2) of section 44A(c) (defining employment-related expenses) is amended by adding at the end thereof the following new subparagraphs:

"(C) DEPENDENT CARE CENTERS.-Employment-related expenses described in subparagraph (A) which are incurred for services provided outside the taxpayer's household by a dependent care center (as defined in subparagraph (D)) shall be taken into account only if-

"(i) such center complies with all applicable laws and regulations of a State or unit of

local government, and

"(ii) the requirements of subparagraph

(B) are met.

(D) DEPENDENT CARE CENTER DEFINED .- For purposes of this paragraph, the term 'dependent care center' means any facility

"(i) provides care for more than six individuals (other than individuals who reside

at the facility), and
"(ii) receives a fee, payment, or grant for providing services for any of the individuals (regardless of whether such facility is operated for profit).'

(e) Exclusion of Dependent Care Assist-ANCE FROM THE INCOME OF EMPLOYEES

(1) IN GENERAL.—Part III of subchapter B of chapter 1 (as amended by section 301) is amended by redesignating section 129 section 130 and inserting after section 128 the following new section:

"SEC. 129. DEPENDENT CARE ASSISTANCE PRO-GRAMS.

"(a) In GENERAL.-Gross income of an employee does not include amounts paid or incurred by the employer for dependent care assistance provided to such employee if the assistance is furnished pursuant to a program which is described in subsection (d).

(b) EARNED INCOME LIMITATION.

"(1) In GENERAL.—The amount excluded from the income of an employee under subsection (a) for any taxable year shall not exceed-

'(A) in the case of an employee who is not married at the close of such taxable year, the earned income of such employee for

such taxable year, or

"(B) in the case of an employee who is married at the close of such taxable year, the lesser of-

"(i) the earned income of such employee for such taxable year, or "(ii) the earned income of the spouse of

such employee for such taxable year.

"(2) SPECIAL RULE FOR CERTAIN SPOUSES. For purposes of paragraph (1), the provisions of section 44A(e)(2) shall apply in determining the earned income of a spouse who is a student or incapable of caring for

"(c) PAYMENTS TO RELATED INDIVIDUALS.— No amount paid or incurred during the taxable year of an employee by an employer in providing dependent care assistance to such employee shall be excluded under subsection (a) if such amount was paid or incurred to an individual-

(1) with respect to whom, for such taxable year, a deduction is allowable under section 151(e) (relating to personal exemptions for dependents) to such employee or

the spouse of such employee, or

"(2) who is a child of such employee (within the meaning of section 151(e)(3)) under the age of 19 at the close of such taxable year.

"(d) DEPENDENT CARE ASSISTANCE PRO-GRAM.

"(1) In general.-For purposes of this section a dependent care assistance program is a separate written plan of an employer for the exclusive benefit of his employees to provide such employees with dependent care assistance which meets the requirements of paragraphs (2) through (6) of this subsection.

"(2) ELIGIBILITY.—The program shall benefit employees who qualify under a classification set up by the employer and found by the Secretary not to be discriminatory in favor of employees who are officers, owners, or highly compensated, or their dependents. For purposes of this paragraph, there shall be excluded from consideration employees not included in the program who are included in a unit of employees covered by an agreement which the Secretary of Labor finds to be a collective bargaining agreement between employee representatives and one or more employers, if there is evidence that dependent care benefits were the subject of good faith bargaining between such employee representatives and such employer or employers.

"(3) PRINCIPAL SHAREHOLDERS OR OWNERS. Not more than 25 percent of the amounts paid or incurred by the employer for dependent care assistance during the year may be provided for the class of individuals who are shareholders or owners (or their spouses or dependents), each of whom (on any day of the year) owns more than 5 percent of the stock or of the capital or profits interest

in the employer.

'(4) No funding required.-A program referred to in the paragraph (1) is not required to be funded.

"(5) NOTIFICATION OF ELIGIBLE EMPLOY--Reasonable notification of the availability and terms of the program shall be provided to eligible employees.

"(6) STATEMENT OF EXPENSES.-The plan shall furnish to an employee, on or before January 31, a written statement showing the amounts paid or expenses incurred by the employer in providing dependent care assistance to such employee during the previous calendar year.

"(e) DEFINITIONS AND SPECIAL RULES.—FOR

purposes of this section-

"(1) DEPENDENT CARE ASSISTANCE.-The term 'dependent care assistance' means the payment of, or provision of, those services which if paid for by the employee would be considered employment-related expenses under section 44A(c)(2) (relating to expenses for household and dependent care services necessary for gainful employment).

"(2) EARNED INCOME.—The term 'earned income' shall have the meaning given such term in section 43(c)(2), but such term shall not include any amounts paid or incurred by an employer for dependent care assistance

to an employee.

'(3) EMPLOYEE.-The term 'employee' includes, for any year, an individual who is an employee within the meaning of section 401(c)(1) (relating to self-employed individuals).

"(4) EMPLOYER.—An individual who owns the entire interest in an unincorporated trade or business shall be treated as his own employer. A partnership shall be treated as the employer of each partner who is an employee within the meaning of paragraph (3).

(5) ATTRIBUTION RULES.

"(A) OWNERSHIP OF STOCK.—Ownership of stock in a corporation shall be determined in accordance with the rules provided under subsections (d) and (e) of section 1563 (without regard to section 1563(e)(3)(C)).

"(B) INTEREST IN UNINCORPORATED TRADE OR BUSINESS.—The interest of an employee in a trade or business which is not incorporated shall be determined in accordance with regulations prescribed by the Secretary, which shall be based on principles similar to the principles which apply in the case of subparagraph (A).

(6) UTILIZATION TEST NOT APPLICABLE.dependent care assistance program shall not be held or considered to fail to meet any requirements of subsection (d) merely because of utilization rates for the different types of assistance made available under the pro-

gram.

- "(7) DISALLOWANCE OF EXCLUDED AMOUNTS AS CREDIT OR DEDUCTION .- No deduction or credit shall be allowed under any other section of this chapter for any amount excluded from income by reason of this section.
 - (2) EXCLUSION FROM WAGES .-
- (A) EMPLOYMENT TAXES AND COLLECTION OF INCOME TAX.—Subtitle C is amended striking out "section 127" in section in section 3121(a)(18) (relating to the Federal Insurance Contributions Act), section 3306(b)(13) (relating to the Federal Unemployment Tax Act), and section 3401(a)(19) (relating to collection of income at source on wages) and inserting in lieu thereof "section 127 or
- (B) Social Security Act.—Subsection (q) of section 209 of the Social Security Act (defining wages) is amended by striking out "section 127" and inserting in lieu thereof "section 127 or 129"

(f) EFFECTIVE DATE.

- (1) Except as provided in paragraph (2), the amendments made by this section shall apply to taxable years beginning after December 31, 1981.
- (2) The amendments made by subsection (e)(2) shall apply to remuneration paid after December 31, 1981.
- SEC. 125. DEDUCTION FOR ADOPTION EXPENSES PAID BY AN INDIVIDUAL.
- (a) In GENERAL.—Part VII of subchapter B of chapter 1 (relating to additional itemized deductions for individuals), as amended by section 103, is amended by redesignating section 222 as section 223 and by inserting after section 221 the following new section: "SEC. 222. ADOPTION EXPENSES.
- "(a) ALLOWANCE OF DEDUCTION.—In the case of an individual, there shall be allowed as a deduction for the taxable year the amount of the qualified adoption expenses paid or incurred by the taxpayer during such taxable year.

(b) LIMITATIONS.

"(1) MAXIMUM DOLLAR AMOUNT.-The aggregate amount of adoption expenses which may be taken into account under subsection (a) with respect to the adoption of a child shall not exceed \$1,500.

"(2) DENIAL OF DOUBLE BENEFIT .-

- "(A) In general.-No deduction shall be allowable under subsection (a) for any expense for which a deduction or credit is allowable under any other provision of this chapter.
- '(B) GRANTS .- No deduction shall be allowable under subsection (a) for any expenses paid from any funds received under any Federal, State, or local program.

(c) Definitions.—For purposes of this

section-

"(1) QUALIFIED ADOPTION EXPENSES .- The term 'qualified adoption expenses' means reasonable and necessary adoption fees, court costs, attorney fees, and other ex-

penses which are directly related to the legal adoption of a child with special needs by the taxpayer and which are not incurred in violation of State or Federal law.

"(2) CHILD WITH SPECIAL NEEDS.—The term 'child with special needs' means a child with respect to whom adoption assistance payments are made under section 473 of the Social Security Act.'

(b) Conforming Amendment.—The table of sections for such part VII is amended by striking out the item relating to section 222 and inserting in lieu thereof the following:

"Sec. 222. Adoption expenses. "Sec. 223. Cross references."

(c) Effective Date.-The amendments made by this section shall apply to taxable years beginning after December 31, 1980.

SEC. 126. MAXIMUM RATE OF IMPUTED INTEREST FOR SALE OF LAND BETWEEN RELAT-ED PERSONS.

(a) GENERAL RULE.—Section 483 (relating to interest on certain deferred payments) is amended by adding at the end thereof the following new subsection:

"(g) MAXIMUM RATE OF INTEREST ON CER-TAIN TRANSFERS OF LAND BETWEEN RELATED

PARTIES.

'(1) In general .- In the case of any qualified sale, the maximum interest rate used in determining the total unstated interest rate under the regulations under subsection (b) shall not exceed 7 percent, compounded semiannually.

(2) QUALIFIED SALE.—For purposes of this subsection, the term 'qualified sale' means any sale or exchange of land by an individual to a member of such individual's family (within the meaning of section (267(c)(4)).

"(3) \$500,000 LIMITATION.—Paragraph (1) shall not apply to any qualified sale between individuals made during any calendar year to the extent that the sales price for such sale (when added to the aggregate sales price for prior qualified sales between such individuals during the calendar year) exceeds \$500,000.

"(4) NONRESIDENT ALIEN INDIVIDUALS. This section shall not apply to any sale or exchange if any party to such sale or exchange is a nonresident alien individual."

(b) Effective Date.-The amendment made by subsection (a) shall apply to payments made after June 30, 1981, pursuant to sales or exchanges after such date.

SEC. 127. STATE LEGISLATORS TRAVEL EXPENSES

AWAY FROM HOME.

(a) In GENERAL.—Section 162 (relating to trade or business expenses) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

"(h) STATE LEGISLATORS' TRAVEL EXPENSES

AWAY FROM HOME .-

"(1) In general.-For purposes of subsection (a), in the case of any individual who is a State legislator at any time during the taxable year and who makes an election under this subsection for the taxable year-

"(A) the place of residence of such individual within the legislative district which he

represented shall be considered his home,
"(B) he shall be deemed to have expended for living expenses (in connection with his trade or business as a legislator) an amount to the sum of the amounts deter mined by multiplying each legislative day of such individual during the taxable year by the greater of-

"(i) the amount generally allowable with respect to such day to employees of the State of which he is a legislator for per diem while away from home, to the extent such

amount does not exceed 110 percent of the amount described in clause (ii) with respect to such day, or

(ii) the amount generally allowable with respect to such day to employees of the executive branch of the Federal Government for per diem while away from home but serving in the United States, and

"(C) he shall be deemed to be away from home in the pursuit of a trade or business

on each legislative day.

"(2) LEGISLATIVE DAYS.—For purposes of paragraph (1), a legislative day during any taxable year for any individual shall be any day during such year on which-

(A) the legislature was in session (including any day in which the legislature was not in session for a period of 4 consecutive days

"(B) the legislature was not in session but the physical presence of the individual was formally recorded at a meeting of a committee of such legislature.

"(3) ELECTION.—An election under this subsection for any taxable year shall be made at such time and in such manner as the Secretary shall by regulations prescribe.

- (4) SECTION NOT TO APPLY TO LEGISLATORS WHO RESIDE NEAR CAPITOL.-For taxable years beginning after December 31, 1980, this subsection shall not apply to any legislator whose place of residence within the legislative district which he represents is 50 or fewer miles from the capitol building of the State
- (b) The amendment made by subsection (a) shall apply to taxable years beginning on or after January 1, 1976.

SEC. 128. RATES OF TAX FOR PRINCIPAL CAMPAIGN COMMITTEES.

- (a) In General.-Section 527 (relating to political organizations) is amended by adding at the end thereof the following new subsection:
- "(h) SPECIAL RULE FOR PRINCIPAL CAM-PAIGN COMMITTEES,-
- "(1) In general.—In the case of a political organization which is a principal campaign committee, paragraph (1) of subsection (b) shall be applied by substituting 'the appropriate rates' for 'the highest rate'.
- (2) PRINCIPAL CAMPAIGN COMMITTEE DE-

FINED.

- "(A) In general.-For purposes of this subsection, the term 'principal campaign committee' means the political committee designated by a candidate for Congress as his principal campaign committee for purposes of-
- "(i) section 302(e) of the Federal Election Campaign Act of 1971 (2 U.S.C. 432(e)), and

"(ii) this subsection.

- "(B) DESIGNATION.-A candidate may have only 1 designation in effect under subparagraph (A)(ii) at any time and such designa-
- "(i) shall be made at such time and in such manner as the Secretary may prescribe by regulations, and

'(ii) once made, may be revoked only with

the consent of the Secretary.".

EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1981.

TITLE II-BUSINESS INCENTIVE PROVISIONS

Subtitle A-Cost Recovery Provisions SEC. 201. ACCELERATED COST RECOVERY SYSTEM.

(a) In GENERAL.-Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by inserting after section 167 the following new section:

"SEC. 168. ACCELERATED COST RECOVERY SYSTEM.

"(a) ALLOWANCE OF DEDUCTION.—There shall be allowed as a deduction for any taxable year the amount determined under this section with respect to recovery property.

"(b) AMOUNT OF DEDUCTION.-

"(1) IN GENERAL.—Except as otherwise provided in this section, the amount of the deduction allowable by subsection (a) for any taxable year shall be the aggregate amount determined by applying to the unadjusted basis of recovery property the applicable percentage determined in accordance with the following tables:

"(A) For Property placed in service after DECEMBER 31, 1980, AND BEFORE JANUARY 1, 1985.—

"(B) FOR PROPERTY PLACED IN SERVICE IN 1985.—

	The applicable percentage for the class of property is:			
"If the recovery year is:	3-year	5-year	10- year	15-year public utility
0	29 47 24	18 33 25 16 8	9 19 16 16 14 12 10 8 6 6 4 2	6 12 12 11 10 9 8 7 6 5 4 4 4 3 2

"(C) FOR PROPERTY PLACED IN SERVICE AFTER DECEMBER 31, 1985.—

	The applicable percentage for the class of property is:			
"If the recovery year is:	3-year	5-year	10- year	15-year public utility
6	33 45 22	20 32 24 16 8	10 18 16 14 12 10 8 6 4	7 12 12 11 10 9 8 7 6 5
2 3 4			•••••••	3 3 2

"(2) 15-YEAR REAL PROPERTY .-

"(A) In general.—In the case of 15-year real property, the applicable percentage

shall be determined in accordance with a table prescribed by the Secretary. In prescribing such table, the Secretary shall—

"(i) assign to the property a 15-year recovery period, and

"(ii) assign percentages generally determined in accordance with use of the 175 percent declining balance method (200 percent declining balance method in the case of low-income housing), switching to the method described in section 167(b)(1) at a time to maximize the deduction allowable under subsection (a).

For purposes of this subparagraph, the applicable percentage in the taxable year in which the property is placed in service shall be determined on the basis of the number of months in such year during which the property was in service. For purposes of this subparagraph, the term 'low-income housing' means property described in clause (i), (ii), (iii), or (iy) of section 1250(a)(1)(B).

"(B) SPECIAL RULE FOR YEAR OF DISPOSI-TION.—In the case of a disposition of 15-year real property, the deduction allowable under subsection (a) for the taxable year in which the disposition occurs shall reflect only the months during such year the property was in service.

"(3) ELECTION OF DIFFERENT RECOVERY PER-CENTAGE.—

"(A) In general.—Except as provided in subsection (f)(2), in lieu of any applicable percentage under paragraphs (1) and (2), the taxpayer may elect, with respect to one or more classes of recovery property placed in service during the taxable year, the applicable percentage determined by use of the straight line method over the recovery period elected by the taxpayer in accordance with the following table:

"(B) OPERATING RULES.—

"(i) In general.—Except as provided in clause (ii), the taxpayer may elect under subparagraph (A) only a single percentage for property in any class of recovery property placed in service during the taxable year. The percentage so elected shall apply to all property in such class placed in service during such taxable year and shall apply throughout the recovery period elected for such property.

"(ii) REAL PROPERTY.—In the case of 15year real property the taxpayer shall make the election under subparagraph (A) on a

property-by-property basis.

"(iii) Convention.—Under regulations prescribed by the Secretary, the half-year convention shall apply to any election with respect to any recovery property (other than 15-year real property) with respect to which an election is made under this paragraph.

"(c) RECOVERY PROPERTY.—For purposes of this fitle—

"(1) RECOVERY PROPERTY DEFINED.—Except as provided in subsection (e), the term 'recovery property' means tangible property of a character subject to the allowance for depreciation—

"(A) used in a trade or business, or

"(B) held for the production of income.

"(2) Classes of recovery property.—Each item of recovery property shall be assigned to one of the following classes of property:

"(A) 3-YEAR PROPERTY.—The term '3-year property' means section 1245 class property—

"(i) with a present class life of 4 years or less; or

"(ii) used in connection with research and experimentation.

"(B) 5-YEAR PROPERTY.—The term '5-year property' means recovery property which is section 1245 class property and which is not 3-year property, 10-year property, or 15-year public utility property.

"(C) 10-YEAR PROPERTY.—The term '10-year property' means—

"(i) public utility property (other than section 1250 class property or 3-year property) with a present class life of more than 18 years but not more than 25 years; and

"(ii) section 1250 class property with a present class life of 12.5 years or less.

"(D) 15-YEAR REAL PROPERTY.—The term '15-year real property' means section 1250 class property which does not have a present class life of 12.5 years or less.

"(E) 15-YEAR PUBLIC UTILITY PROPERTY.— The term '15-year public utility property' means public utility property (other than section 1250 class property or 3-year property) with a present class life of more than 25 years.

"(d) Unadjusted Basis; Adjustments.-

"(1) UNADJUSTED BASIS DEFINED.—

"(A) In general.—For purposes of this section, the term 'unadjusted basis' means the excess of—

"(i) the basis of the property determined under part II of subchapter O of chapter 1 for purposes of determining gain (determined without regard to the adjustments described in paragraph (2) or (3) of section 1016(a)), over

"(ii) the sum of-

"(I) that portion of the basis for which the taxpayer properly elects amortization (including the deduction allowed under section 167(k)) in lieu of depreciation, and

"(II) that portion of the basis which the taxpayer properly elects to treat as an expense under section 179.

"(B) Time for taking basis into account.-

"(i) IN GENERAL.—The unadjusted basis of property shall be first taken into account under subsection (b) for the taxable year in which the property is placed in service.

"(ii) REDETERMINATIONS.—The Secretary shall by regulation provide for the method of determining the deduction allowable under subsection (a) for any taxable year (and succeeding taxable years) in which the basis is redetermined (including any reduction under section 1017).

"(2) DISPOSITIONS.-

"(A) Mass asset accounts.—In lieu of recognizing gain or loss under this chapter, a taxpayer who maintains one or more mass asset accounts of recovery property may, under regulations prescribed by the Secretary, elect to include in income all proceeds realized on the disposition of such property.

"(B) ADJUSTMENT TO BASIS.—Except as provided under regulations prescribed by the Secretary under subsection (f)(7), if any recovery property (other than 15-year real property or property with respect to which an election under subparagraph (A) is made) is disposed of, the unadjusted basis of such property shall cease to be taken into account in determining any recovery deduction allowable under subsection (a) as of the

beginning of the taxable year in which such disposition occurs.

"(C) DISPOSITION INCLIDES PETIPEMENT -For purposes of this subparagraph, the term 'disposition' includes retirement.

"(e) PROPERTY EXCLUDED FROM APPLICA-TION OF SECTION.-For purposes of this sec-

"(1) PROPERTY PLACED IN SERVICE BEFORE JANUARY 1, 1981.-The term 'recovery property' does not include property placed in service by the taxpayer before January 1,

"(2) CERTAIN METHODS OF DEPRECIATION .-The term 'recovery property' does not include property if-

"(A) the taxpayer elects to exclude such property from the application of this section, and

"(B) for the first taxable year for which a deduction would (but for this election) be allowable under this section with respect to such property in the hands of the taxpayer, the property is properly depreciated under the unit-of-production method or any method of depreciation not expressed in a term of years (other than the retirement-replacement-betterment method).

"(3) SPECIAL RULE FOR CERTAIN PUBLIC UTIL-

ITY PROPERTY.

"(A) In GENERAL.-The term property' does not include public utility property (within the meaning of section 167(1)(3)(A)) if the taxpayer does not use a normalization method of accounting.

"(B) USE OF NORMALIZATION METHOD DE-FINED.-For purposes of subparagraph (A), in order to use a normalization method of accounting with respect to any public utility

"(i) the taxpayer must, in computing its tax expense for purposes of establishing its cost of service for ratemaking purposes and reflecting operating results in its regulated books of account, use a method of depreciation with respect to such property that is the same as, and a depreciation period for such property that is no shorter than, the method and period used to compute its depreciation expense for such purposes; and

(ii) if the amount allowable as a deduction under this section with respect to such property differs from the amount that would be allowable as a deduction under section 167 (determined without regard to section 167(1)) using the method (including the period, first and last year convention, and salvage value) used to compute regulated tax expense under subparagraph (B)(i), the taxpayer must make adjustments to a reserve to reflect the deferral of taxes resulting from such difference.

(C) PUBLIC UTILITY PROPERTY WHICH IS NOT RECOVERY PROPERTY .- In the case of public utility property which, by reason of this paragraph, is not treated as recovery property, the allowance for depreciation under section 167(a) shall be an amount computed using the method and period referred to in subparagraph (B)(i).

"(4) CERTAIN TRANSACTIONS IN PROPERTY PLACED IN SERVICE BEFORE 1986 .-

(A) SECTION 1245 CLASS PROPERTY.-The term 'recovery property' does not include section 1245 class property acquired by the taxpayer after December 31, 1980, if-

"(i) the property was owned or used at any time during 1980 by the taxpayer or a

related person,

"(ii) the property is acquired from a person who owned such property at any time during 1980, and, as part of the transaction, the user of such property does not change.

"(iii) the taxpayer leases such property to a person (or a person related to such person) who owned or used such property at any time during 1980, or

(iv) the property is acquired in a transaction as part of which the user of such property does not change and the property is not recovery property in the hands of the person from which the property is so ac-

quired by reason of clause (ii) or (iii).

For purposes of this subparagraph and subparagraph (B), property shall not be treated as owned before it is placed in service. For purposes of this subparagraph, whether the user of property changes as part of a transaction shall be determined in accordance with regulations prescribed by the Secre-

"(B) SECTION 1250 CLASS PROPERTY.—The term 'recovery property' does not include section 1250 class property acquired by the taxpayer after December 31, 1980, if-

(i) such property was owned by the taxpayer or by a related person at any time during 1980:

"(ii) the taxpayer leases such property to a person (or a person related to such person) who owned such property at any time during 1980; or

'(iii) such property is acquired in an exchange described in section 1031, 1033, 1038, or 1039 to the extent that the basis of such property includes an amount representing the adjusted basis of other property owned by the taxpayer or a related person during

"(C) CERTAIN NONRECOGNITION TRANSAC-TIONS.-The term 'recovery property' does not include property placed in service by the transferor or distributor before January 1. 1981, which is acquired by the taxpayer after December 31, 1980, in a transaction described in section 332, 351, 361, 371(a), 374(a), 721, or 731 (or such property acquired from the transferee or acquiring corporation in a transaction described in such section), to the extent that the basis of the property is determined by reference to the basis of the property in the hands of the transferor or distributor. In the case of property to which this subparagraph applies, rules similar to the rules described in section 381(c)(6) shall apply.

(D) RELATED PERSON DEFINED.—Except as provided in subparagraph (E), for purposes of this paragraph a person (hereinafter referred to as the related person) is related to any person if-

"(i) the related person bears a relationship to such person specified in section 267(b) or

section 707(b)(1), or

"(ii) the related person and such person are engaged in trades or businesses under common control (within the meaning of subsections (a) and (b) of section 52).

For purposes of clause (i), in applying section 267(b) and section 707(b)(1) '10 percent' shall be substituted for '50 percent'. The determination of whether a person is related to another person shall be made as of the time the taxpayer acquires the property involved.

"(E) LIQUIDATION OF SUBSIDIARY, ETC.-For purposes of this paragraph, a corporation is not a related person to the taxpayer

"(i) if such corporation is a distributing corporation in a transaction to which section 334(b)(2)(B) applies and the stock of such corporation referred to in such subparagraph (B) was acquired by the taxpayer by purchase after December 31, 1980, or

(ii) if such corporation is liquidated in a liquidation to which section 331(a) applies

and the taxpayer (or a related person) by himself or together with 1 or more other persons acquires the stock of the liquidated corporation by purchase (meeting the reguirements of section 334(b)(2)(B)) after December 31, 1980.

'(F) ANTIAVOIDANCE RULE.-The term 'recovery property' does not include property acquired by the taxpayer after December 31, 1980, which, under regulations prescribed by the Secretary, is acquired in a transaction one of the principal purposes of which is to avoid the principles of paragraph (1) and this paragraph.

(G) REDUCTION IN UNADJUSTED BASIS.-In the case of an acquisition of property described in subparagraph (B) or (C), the unadjusted basis of the property under subsection (d) shall be reduced to the extent that such property acquired is not recovery prop-

"(H) SPECIAL RULES FOR PROPERTY PLACED IN SERVICE BEFORE CERTAIN PERCENTAGES TAKE EFFECT.—Under regulations prescribed by

the Secretary.

"(i) rules similar to the rules of this paragraph shall be applied in determining whether the tables contained in subparagraph (B) or (C) of subsection (b)(1) apply with respect to recovery property, and

"(ii) if the tables contained in subparagraph (B) or (C) of subsection (b)(1) do not apply to such property by reason of clause (i), the deduction allowable under subsection (a) shall be computed-

"(I) In the case of a transaction described in subparagraph (C), under rules similar to the rules described in section 381(c)(6); and

"(II) in the case of a transaction otherwise described in this paragraph, under the recovery period and method (including rates prescribed under subsection (b)(1)) used by the person from whom the taxpayer acquired such property (or, where such person had no recovery method and period for such property, under the recovery period and method (including rates prescribed under subsection (b)(1)) used by the person which transferred such property to such person).

"(f) SPECIAL RULES FOR APPLICATION OF THIS SECTION.-For purposes of this section-

"(1) COMPONENTS OF SECTION 1250 CLASS PROPERTY.

"(A) In general.—Except as otherwise provided in this paragraph-

"(i) the deduction allowable under subsection (a) with respect to any component (which is section 1250 class property) of a building shall be computed in the same manner as the deduction allowable with respect to such building, and

"(ii) the recovery period for such component shall begin on the later of-

"(I) the date such component is placed in service, or

'(II) the date on which the building is placed in service.

"(B) TRANSITIONAL RULE.-In the case of any building placed in service by the taxpayer before January 1, 1981, for purposes of applying subparagraph (A) to components of such buildings placed in service after December 31, 1980, the deduction allowable under subsection (a) with respect to such components shall be computed in the same manner as the deduction allowable with respect to the first such component placed in service after December 31, 1980. For purposes of the preceding sentence, the method of computing the deduction allow-able with respect to such first component shall be determined as if it were a separate building.

"(C) EXCEPTION FOR SUBSTANTIAL IMPROVE-

"(i) In general.-For purposes of this paragraph, a substantial improvement shall be treated as a separate building.

"(ii) SUBSTANTIAL IMPROVEMENT.-For purposes of clause (i), the term 'substantial improvement' means the improvements added to capital account with respect to any building during any 24-month period, but only if the sum of the amounts added to such account during such period equals or exceeds 25 percent of the adjusted basis of the building (determined without regard to the adjustments provided in paragraphs (2) and (3) of section 1016(a)) as of the first day of such period.

"(iii) IMPROVEMENTS MUST BE MADE AFTER BUILDING IN SERVICE FOR 3 YEARS.-For purposes of this paragraph, the term 'substantial improvement' shall not include any improvement made before the date 3 years after the building was placed in service.

(2) RECOVERY PROPERTY USED PREDOMI-NANTLY OUTSIDE THE UNITED STATES.

"(A) In general.—Except as provided in subparagraphs (B) and (C), in the case of recovery property which, during the taxable year, is used predominantly outside the United States, the recovery deduction for the taxable year shall be, in lieu of the amount determined under subsection (b), the amount determined by applying to the unadjusted basis of such property the applicable percentage determined under tables prescribed by the Secretary. For purposes of the preceding sentence, in prescribing such tables, the Secretary shall-

'(i) assign the property described in this subparagraph to classes in accordance with the present class life (or 12 years in the case of personal property with no present class

life) of such property; and

"(ii) assign percentages (taking into account the half-year convention) determined in accordance with use of the method of depreciation described in section 167(b)(2), switching to the method described in section 167(b)(1) at a time to maximize the deduction allowable under subsection (a).

"(B) REAL PROPERTY.

"(i) In general.-Except as provided in subparagraph (C), in the case of 15-year real property which, during the taxable year, is predominantly used outside the United States, the recovery deduction for the taxable year shall be, in lieu of the amount determined under subsection (b), the amount determined by applying to the unadjusted basis of such property the applicable percentage determined under tables prescribed by the Secretary. For purposes of the preceding sentence in prescribing such tables, the Secretary shall-

"(I) assign to the property described in this subparagraph a 35-year recovery

period; and

'(II) assign percentages (taking into account the last sentence of subsection (b)(2)(A)) determined in accordance with use of the method of depreciation described in section 167(j)(1)(B), switching to the method described in section 167(b)(1) at a time to maximize the deduction allowable under subsection (a).

"(ii) SPECIAL RULE FOR DISPOSITION.—In the case of a disposition of 15-year real property described in clause (i), subsection (b)(2)(B) shall apply.

"(C) ELECTION OF DIFFERENT RECOVERY PER-CENTAGE.

"(i) GENERAL RULE.—The taxpayer may elect, with respect to one or more classes of recovery property described in this paragraph, to determine the applicable percentage under this paragraph by use of the straight-line method over the recovery period determined in accordance with the following table:

The taxpayer may elect a recovery period of:
The present class life, 5 or 12 years.
The present class life, 12 or 25 years.
The present class life, 25 or 35 years.
5 or 45 years.
The present class life, 35 or 45 years.
life, 5 or 12 The present c life, 12 or 25 The present c life, 25 or 35 5 or 45 years The present c

"(ii) OPERATING RULES .-

"(I) PERIOD ELECTED BY TAXPAYER.—Except as provided in subclause (II), the taxpayer may elect under clause (i) for any taxable year only a single recovery period for recovery property described in this paragraph which is placed in service during such taxable year, which has the same present class life, and which is in the same class under subsection (c)(2). The period so elected shall not be shorter than such present class life.

"(II) REAL PROPERTY.-In the case of 15year real property, the election under clause (i) shall be made on a property-by-property

"(D) DETERMINATION OF PROPERTY USED PREDOMINANTLY OUTSIDE THE STATES.—For purposes of this paragraph, under regulations prescribed by the Secretary, rules similar to the rules under section 48(a)(2) (including the exceptions under subparagraph (B)) shall be applied in determining whether property is used predominantly outside the United States.

(E) Convention.-Under regulations prescribed by the Secretary, the half-year convention shall apply for purposes of any determination under subparagraph (C) (other than any determination with respect to 15-

year real property).

(3) RRB REPLACEMENT PROPERTY.

(A) In general .- In the case of RRB replacement property placed in service before January 1, 1985, the recovery deduction for the taxable year shall be, in lieu of the amount determined under subsection (b), the amount determined by applying to the unadjusted basis of such property the applicable percentage determined under tables prescribed by the Secretary. For purposes of the preceding sentence, in prescribing such

tables, the Secretary shall—
"(i) use the recovery period determined in accordance with the following table:

"If the year property is placed in service is:	The recovery period is:
1981	1
1982	2
1983	3
1984	4

"(ii) assign percentages determined in accordance with use of the method of depreciation described in section 167(b)(2), switching to the method described in section 167(b)(3) at a time to maximize the deduction allowable under subsection (a) (taking into account the half-year conven-

"(B) RRB REPLACEMENT PROPERTY DE-FINED.—For purposes of this section, the term 'RRB replacement property' means replacement track material (including rail, ties, other track material, and ballast) installed by a railroad (including a railroad switching or terminal company) if-

'(i) the replacement is made pursuant to a

scheduled program for replacement,

'(ii) the replacement is made pursuant to observations by maintenance-of-way personnel or specific track material needing replacement,

"(iii) the replacement is made pursuant to the detection by a rail-test car of specific track material needing replacement, or

"(iv) the replacement is made as a result

Replacements made as a result of a casualty shall be RRB replacement property only to the extent that, in the case of each casualty, the replacement cost with respect to the replacement track material exceeds \$50,000.

"(4) MANNER AND TIME FOR MAKING ELEC-TIONS.

"(A) In general.—Any election under this section shall be made for the taxable year in which the property is placed in service.

'(B) Made on return.-Any election under this section shall be made on the taxpayer's return of the tax imposed by this chapter for the taxable year concerned.

"(C) REVOCATION ONLY WITH CONSENT .-Any election under this section, once made, may be revoked only with the consent of

the Secretary.

"(5) SHORT TAXABLE YEARS.—In the case of a taxable year that is less than 12 months, the amount of the deduction under this section shall be an amount which bears the same relationship to the amount of the de-duction, determined without regard to this paragraph, as the number of months in the short taxable year bears to 12. In such case, the amount of the deduction for subsequent taxable years shall be appropriately adjusted in accordance with regulations prescribed by the Secretary. The determination of when a taxable year begins shall be made in accordance with regulations prescribed by the Secretary. This paragraph shall not apply to any deduction with respect to any property for the first taxable year of the lessor for which an election under paragraph (8) is in effect with respect to such property.

"(6) LEASEHOLD IMPROVEMENTS.-For purposes of determining whether a leasehold improvement which is recovery property shall be amortized over the term of the lease, the recovery period (taking into account any election under paragraph (2)(C) of this subsection or under subsection (b)(3) with respect to such property) of such property shall be taken into account in lieu of its

useful life.

"(7) SPECIAL RULE FOR ACQUISITIONS AND DISPOSITIONS IN NONRECOGNITION TRANSAC-TIONS.-Notwithstanding any other provision of this section, the deduction allowed under this section in the taxable year in which recovery property is acquired or is disposed of in a transaction in which gain or loss is not recognized in whole or in part shall be determined in accordance with regulations prescribed by the Secretary.

"(8) SPECIAL RULE FOR LEASES.

"(A) In general.-In the case of an agreement with respect to qualified leased property, if all of the parties to the agreement characterize such agreement as a lease and elect to have the provisions of this para-graph apply with respect to such agreement, and if the requirements of subparagraph (B) are met, then, for purposes of this subtitle.

"(i) such agreement shall be treated as a lease entered into by the parties (and any party which is a corporation described in subparagraph (B)(i)(I) shall be deemed to have entered into the lease in the course of carrying on a trade or business), and

"(ii) the lessor shall be treated as the owner of the property and the lessee shall

be treated as the lessee of the property.

"(B) Certain requirements must be met.—The requirements of this subparagraph are met if-

(i) the lessor is-

"(I) a corporation (other than an electing business corporation (within the meaning of section 1371(b)) or a personal holding company (within the meaning of section 542(a))).

"(II) a partnership all of the partners of which are corporations described in sub-

clause (I), or

"(III) a grantor trust with respect to which the grantor and all beneficiaries of the trust are described in subclause (I) or

"(ii) the minimum investment of the

lessor—
"(I) at the time the property is first placed in service under the lease, and

"(II) at all times during the term of the

is not less than 10 percent of the adjusted

basis of such property, and "(iii) the term of the lease (including any

extensions) does not exceed the greater of—
"(I) 90 percent of the useful life of such property for purposes of section 167, or

"(II) 150 percent of the present class life

of such property.

"(C) No other factors taken into account.—If the requirements of subparagraphs (A) and (B) are met with respect to any transaction described in subparagraph (A), no other factors shall be taken into account in making a determination as to whether subparagraph (A) (i) or (ii) applies with respect to such transaction.

"(D) QUALIFIED LEASED PROPERTY DE-FINED.—For purposes of subparagraph (A), the term 'qualified leased property' means recovery property (other than a qualified rehabilitated building within the meaning

of section 48(g)(1)) which is-

"(i) new section 38 property (as defined in section 48(b)) of the lessor which is leased within 3 months after such property was placed in service and which, if acquired by the lessee, would have been new section 38 property of the lessee,

"(ii) property

"(I) which was new section 38 property of the lessee.

"(II) which was leased within 3 months after such property was placed in service by the lessee, and
"(III) with respect to which the adjusted

basis of the lessor does not exceed the adjusted basis of the lessee at the time of the lease, or

"(iii) property which is a qualified mass commuting vehicle (as defined in section 103(b)(9)) and which is financed in whole or in part by obligations the interest on which excludable from income under section 103(a).

For purposes of this title (other than this subparagraph), any property described in clause (i) or (ii) to which subparagraph (A) applies shall be deemed originally placed in service not earlier than the date such property is used under the lease. In the case of

property placed in service after December 31, 1980, and before the date of the enactment of this subparagraph, this subparagraph shall be applied by submitting 'the date of the enactment of this subparagraph' for 'such property was placed in service'.

(E) MINIMUM INVESTMENT -

"(i) In general.-For purposes of subparagraph (A), the term 'minimum investment' means the amount the lessor has at risk with respect to the property (other than financing from the lessee or a related party of the lessee).

"(ii) SPECIAL RULE FOR PURCHASE REQUIRE-MENT.-For purposes of clause (i), an agreement between the lessor and lessee requiring either or both parties to purchase or sell the qualified leased property at some price (whether or not fixed in the agreement) at the end of the lease term shall not affect the amount the lessor is treated as having at risk with respect to the property.

"(F) CHARACTERIZATION BY PARTIES.-For purposes of this paragraph, any determination as to whether a person is a lessor or lessee or property is leased shall be made on the basis of the characterization of such person or property under the agreement de-

scribed in subparagraph (A).

"(G) REGULATIONS.-The Secretary shall prescribe such regulations as may be necessary to carry out the purposes of this paragraph, including (but not limited to) regulations consistent with such purposes which limit the aggregate amount of (and timing of) deductions and credits in respect of qualified leased property to the aggregate amount (and the timing) allowable without regard to this paragraph.

(H) CROSS REFERENCE.

"For special recapture in cases where lessee ac-

quires qualified leased property, see section 1245.

"(9) SALVAGE VALUE.—No salvage value shall be taken into account in determining the deduction allowable under subsection

"(10) TRANSFEREE BOUND BY TRANSFEROR'S PERIOD AND METHOD IN CERTAIN CASES

"(A) In general.-In the case of recovery property transferred in a transaction de scribed in subparagraph (B), the transferee shall be treated as the transferor for purposes of computing the deduction allowable under subsection (a) with respect to so much of the basis in the hands of the transferee as does not exceed the adjusted basis in the hands of the transferor.

"(B) Transfers covered.-The transactions described in this subparagraph are

"(i) a transaction described in section 332 (other than a transaction with respect to which the basis is determined under section 334(b)(2)), 351, 361, 371(a), 374(a), 721, or

"(ii) an acquisition (other than described in clause (i)) from a related person (as defined in subparagraph (D) of subsection (e)(4)); and

"(iii) an acquisition followed by a leaseback to the person from whom the property is acquired.

"(C) PROPERTY REACQUIRED BY THE TAXPAY-ER.-Under regulations prescribed by the Secretary, recovery property which is disposed of and then reacquired by the taxpayer shall be treated for purposes of comput-ing the deduction allowable under subsection (a) as if such property had not been disposed of.

"(D) Exception.—This paragraph shall not apply to any transaction to which subsection (e)(4) applies.

"(11) SPECIAL RULES FOR COOPERATIVES .the case of a cooperative organization described in section 1381(a), the Secretary may by regulations provide-

"(A) for allowing allocation units to make separate elections under this section with respect to recovery property, and

"(B) for the allocation of the deduction allowable under subsection (a) among alloca-

tion units.

"(g) DEFINITIONS.-For purposes of this section-

"(1) Public utility property.—The term 'public utility property' means property described in section 167(1)(3)(A).

"(2) PRESENT CLASS LIFE.—The term present class life means the class life (if any) which would be applicable with respect to any property as of January 1, 1981, under subsection (m) of section 167 (determined without regard to paragraph (4) thereof and as if the taxpayer had made an election under such subsection).

"(3) SECTION 1245 CLASS PROPERTY.-The 'section 1245 class property' means tangible property described in section 1245(a)(3) other than subparagraphs (C) and (D).

"(4) SECTION 1250 CLASS PROPERTY.-The term 'section 1250 class property' means property described in section 1250(c) and property described in section 1245(a)(3)(C).

"(5) RESEARCH AND EXPERIMENTATION.—The term 'research and experimentation' has the same meaning as the term research or experimental has under section 174.

"(6) RRB PROPERTY DEFINED .- For purposes of this section, the term 'RRB property' means property which under the taxpayer's method of depreciation before January 1, 1981, would have been depreciated using retirement-replacement-betterment method.

"(7) MANUFACTURED HOMES.-The term 'manufactured home' has the same meaning as in section 603(6) of the Housing and Community Development Act of 1974, which is 1250 class property used as a dwelling unit.

"(8) QUALIFIED COAL UTILIZATION PROPER-

"(A) In general.-The term 'qualified coal utilization property' means that portion of the unadjusted basis of coal utilization property which bears the same ratio (but not greater than 1) to such unadjusted basis

"(i) the Btu's of energy produced by the powerplant or major fuel-burning installation before the conversion or replacement involving coal utilization property, bears to

"(ii) the Btu's of energy produced by such powerplant or installation after such conversion or replacement.

"(B) In GENERAL.—The term 'coal utilization property' means-

"(i) a boiler or burner-

"(I) the primary fuel for which is coal (including lignite), and

"(II) which replaces an existing boiler or burner which is part of a powerplant or major fuel-burning installation and the primary fuel for which is oil or natural gas or any product thereof, and

"(ii) equipment for converting an existing boiler or burner described in clause (i)(II) to a boiler or burner the primary fuel for which will be coal.

"(C) POWERPLANT AND MAJOR FUEL-BURNING INSTALLATION.-The terms 'powerplant' and 'major fuel-burning installation' have the meanings given such terms by paragraphs (7) and (10) of section 103(a) of the Powerplant and Industrial Fuel Use Act of 1978,

"(D) Existing Boiler or Burner.—The term 'existing boiler or burner' means a boiler or burner which was placed in service

before January 1, 1981.

'(E) REPLACEMENT OF EXISTING BOILER OR BURNER.-A boiler or burner shall be treated as replacing a boiler or burner if the taxpayer certifies that the boiler or burner which is to be replaced-

"(i) was used during calendar year 1980 for more than 2,000 hours of full load peak

use (or equivalent thereof), and

"(ii) will not be used for more than 2,000 hours of such use during any 12-month period after the boiler or burner which is to replace such boiler or burner is placed in

"(h) SPECIAL RULES FOR RECOVERY PROPER-TY CLASSES.—For purposes of this section—
"(1) CERTAIN HORSES.—The term '3-year

property' includes-

"(A) any race horse which is more than 2 years old at the time such horse is placed in service; or

"(B) any other horse which is more than 12 years old at such time.

"(2) RAILROAD TANK CARS .- The term '10-

year property' includes railroad tank cars.
"(3) MANUFACTURED HOMES.—The term '10property' includes manufactured vear homes.

'(4) QUALIFIED COAL UTILIZATION PROPER-TY.—The term '10-year property' includes qualified coal utilization property which is not 3-year property, 5-year property, or 10year property (determined without regard to this paragraph).

(5) APPLICATION WITH OTHER CLASSES .-Any property which is treated as included in a class or property by reason of this subsection shall not be treated as property includ-

ed in any other class. "(i) Cross Reference.

"For special rules with respect to certain gain derived from disposition of recovery property, see sections 1245 and 1250."

(b) SINGLE PURPOSE AGRICULTURAL OR HOR-TICULTURAL STRUCTURES AND PETROLEUM PRODUCT STORAGE FACILITIES TREATED AS SEC-TION 1245 PROPERTY.-Paragraph (3) of section 1245(a) (defining section 1245 property) is amended by striking out "or" at the end of subparagraph (C), by striking out the period at the end of subparagraph (D), and by adding at the end thereof the following new subparagraphs:

'(E) a single purpose agricultural or horticultural structure (as defined in section

48(p)), or

"(F) a storage facility used in connection with the distribution of petroleum or any primary product of petroleum.'

(c) Repeal of Section 263(e).—Subsection (e) of section 263 is hereby repealed.

(d) CLERICAL AMENDMENT.—The table of sections for part VI of subchapter B of chapter 1 is amended by inserting after the item relating to section 167 the following new item:

"Sec. 168. Accelerated cost recovery system."

SEC. 202. ELECTION TO EXPENSE CERTAIN DEPRE-CIABLE BUSINESS ASSETS.

(a) In General.—Section 179 (relating to additional first-year depreciation allowance for small business) is amended to read as follows:

"SEC. 179. ELECTION TO EXPENSE CERTAIN DEPRE-CIABLE BUSINESS ASSETS.

"(a) TREATMENT AS EXPENSES.—A taxpayer may elect to treat the cost of any section 179 property as an expense which is not chargeable to capital account. Any cost so treated shall be allowed as a deduction for

the taxable year in which the section 179 property is placed in service.

"(b) DOLLAR LIMITATION.

"(1) IN GENERAL.—The aggregate cost which may be taken into account under subsection (a) for any taxable year shall not exceed the following applicable amount:

"If the taxable year begins in:	applicable amount is
1981	\$0
1982	\$5,000
1983	\$5,000
1984	\$7,500
1985	\$7,500
1986 or thereafter	\$10,000.

"(2) MARRIED INDIVIDUALS FILING SEPARATE-LY.—In the case of a husband and wife filing separate returns for a taxable year, the applicable amount under paragraph (1) shall be equal to 50 percent of the amount otherwise determined under paragraph (1).

(c) ELECTION.

"(1) In GENERAL.—An election under this section for any taxable year shall-

'(A) specify the items of section 179 property to which the election applies and the portion of the cost of each of such items which is to be taken into account under subsection (a), and

"(B) be made on the taxpayer's return of the tax imposed by this chapter for the tax-

able year.

Such election shall be made in such manner as the Secretary may by regulations pre-

(2) ELECTION IRREVOCABLE.—Any election made under this section, and any specification contained in any such election, may not be revoked except with the consent of the Secretary.

"(d) DEFINITIONS AND SPECIAL RULES.—
"(1) SECTION 179 PROPERTY.—For purposes of this section, the term 'section 179 property' means any recovery property which is section 38 property and which is acquired by purchase for use in a trade or business.

"(2) Purchase defined.—For purposes of paragraph (1), the term 'purchase' means

any acquisition of property, but only if—
"(A) the property is not acquired from a person whose relationship to the person acquiring it would result in the disallowance of losses under section 267 or 707(b) (but, in applying section 267 (b) and (c) for purposes this section, paragraph (4) of section 267(c) shall be treated as providing that the family of an individual shall include only his spouse, ancestors, and lineal descend-

(B) the property is not acquired by one component member of a controlled group from another component member of the

same controlled group, and
"(C) the basis of the property in the hands of the person acquiring it is not de-

termined-(i) in whole or in part by reference to the adjusted basis of such property in the hands of the person from whom acquired, or

"(ii) under section 1014(a) (relating to property acquired from a decedent).

(3) Cost.-For purposes of this section, the cost of property does not include so much of the basis of such property as is determined by reference to the basis of other property held at any time by the person ac-

quiring such property.

"(4) Section not to apply to estates and TRUSTS.-This section shall not apply to es-

tates and trusts.

"(5) SECTION NOT TO APPLY TO CERTAIN NON-CORPORATE LESSORS.-This section shall not apply to any section 179 property purchased by any person described in section 46(e)(3) unless the credit under section 38 is allowable with respect to such person for such property (determined without regard to this

"(6) DOLLAR LIMITATION OF CONTROLLED group.-For purposes of subsection (b) of

this section-

"(A) all component members of a controlled group shall be treated as one taxpay-

er, and "(B) the Secretary shall apportion the dollar limitation contained in subsection (b)(1) among the component members of such controlled group in such manner as he

shall by regulations prescribe.

"(7) CONTROLLED GROUP DEFINED .- For purposes of paragraphs (2) and (6), the term 'controlled group' has the meaning assigned to it by section 1563(a), except that, for such purposes, the phrase 'more than 50 percent' shall be substituted for the phrase at least 80 percent' each place it appears in section 1563(a)(1).

(8) DOLLAR LIMITATION IN CASE OF PART-NERSHIPS.-In the case of a partnership, the dollar limitation contained in subsection (b)(1) shall apply with respect to the partnership and with respect to each partner.

"(9) COORDINATION WITH SECTION 38.-No credit shall be allowed under section 38 with respect to any amount for which a deduction is allowed under subsection (a).

(b) RECAPTURE RULE.—Subsection (a) of section 1245 (relating to gains from dispositions from certain depreciable property) is amended-

(1) by striking out "169, 184" each place it appears in paragraph (2) and inserting in lieu thereof "169, 179, 184", (2) by striking out "section 190" in para-

graph (2) and inserting in lieu thereof "sec-

tion 179, 190", and
(3) by striking out "169, 185" in paragraphs (2)(D) and (3)(D) and inserting in

lieu thereof "169, 179, 185"

(c) Installment Sales.—Section 453 (relating to the installment method) is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) Application With Section 179.—
"(1) In general.—In the case of an install-

ment sale of section 179 property, subsection (a) shall not apply, and for purposes of this title, all payments to be received shall be deemed received in the year of disposi-

"(2) Limitation.—Paragraph (1) shall apply only to the extent of the amount allowed as a deduction under section 179 with respect to the section 179 property."

(d) TECHNICAL AMENDMENTS

(1) Paragraph (1) of section 263(a) (relating to capital expenditures) is amended-

(A) by striking "or" at the end of subpara-

(B) by striking out the period at the end of subparagraph (G) and inserting in lieu thereof a semicolon and "or", and

(C) by adding at the end thereof the following new subparagraph:

"(H) expenditures for which a deduction

is allowed under section 179." (2) Subparagraph (A) of section 1033(g)(3)

(relating to condemnation of real property held for productive use in trade or business or for investment) is amended by striking out "(relating to additional first-year depreciation allowance for small business)" and inserting in lieu thereof "(relating to election to expense certain depreciable business

(3) The table of sections for part VI of subchapter B of chapter 1 is amended by striking out the item relating to section 179 and inserting in lieu thereof the following:

"Sec. 179. Election to expense certain depreciable business assets.'

SEC. 203. AMENDMENTS RELATED TO DEPRECIA-TION.

(a) RECOVERY DEDUCTION TREATED AS DE-PRECIATION.—Subsection (a) of section 167 (relating to depreciation) is amended by adding at the end thereof the following new sentence: "In the case of recovery property (within the meaning of section 168), the deduction allowable under section 168 shall be deemed to constitute the reasonable allowance provided by this section, except with respect to that portion of the basis of such property to which subsection (k) applies.'

(b) TERMINATION OF CLASS LIFE SYSTEM. Subsection (m) of section 167 (relating to class lives) is amended by adding at the end

thereof the following new paragraph:
"(4) TERMINATION.—This subsection shall not apply with respect to recovery property (within the meaning of section 168) placed in service after December 31, 1980."

RETIREMENT-REPLACEMENT-BETTER-MENT METHOD OF DEPRECIATION.

(1) REPEAL OF SECTION 167(r).—Section 167 (relating to depreciation) is amended by striking out subsection (r) and redesignating subsection (s) as subsection (r).

(2) Change in method of accounting.— Sections 446 and 481 of the Internal Revenue Code of 1954 shall not apply to the change in the method of depreciation to comply with the provisions of this subsec-

(3) TRANSITIONAL RULE.—The adjusted basis of RRB property (as defined in section 168(g)(6) of such Code) as of December 31, 1980, shall be depreciated using a useful life of no less than 5 years and no more than 50 years and a method described in section 167(b) of such Code, including the method described in section 167(b)(2) of such Code, switching to the method described in section 167(b)(3) of such Code at a time to maximize the deduction.

(d) AGREEMENT AS TO USEFUL LIFE ON WHICH DEPRECIATION RATE IS BASED.—Subsection (d) of section 167 is amended by adding at the end thereof the following: "This subsection shall not apply with respect to recovery property defined in section 168."

(e) CONFORMING AMENDMENT.—The Secretary of Health and Human Services is not required to apply any provision of the Internal Revenue Code of 1954, as amended, in calculating depreciation (for the purpose of determining any cost under a program administered by the Secretary), unless a provision of law requires so expressly.

SEC. 204. RECAPTURE ON DISPOSITION OF RECOV-ERY PROPERTY

(a) GENERAL RULE.—Paragraph (1) of section 1245(a) (relating to ordinary income) is amended by inserting after "December 31, 1962," the following "or section 1245 recovery property is disposed of after December 31, 1980."

(b) RECOMPUTED BASIS.—Paragraph (2) of section 1245(a) (relating to recomputed basis) is amended-

(1) by striking out "or" at the end of sub-

paragraph (C), (2) by inserting ", or" at the end of sub-

paragraph (D), and
(3) by inserting immediately after sub-paragraph (D) the following new subpara-

"(E) with respect to any section 1245 recovery property, the adjusted basis of such property recomputed by adding thereto all adjustments attributable to periods which a deduction is allowed under section 168(a) (as added by the Economic Recovery Tax Act of 1981) with respect to such propertv

(c) Section 1245 Recovery Property De-FINED.—Subsection (a) of section 1245 is amended by adding at the end thereof the

following new paragraph:

"(5) SECTION 1245 RECOVERY PROPERTY .-For purposes of this section, the term 'section 1245 recovery property' means recovery property (within the meaning of section 168) other than-

"(A) 15-year real property which is residential rental property (as defined in section 167(j)(2)(B)),

"(B) 15-year real property which is described in section 168(f)(2),

"(C) 15-year real property with respect to which an election under subsection (b)(3) of section 168 to use a different recovery percentage is in effect, and

"(D) 15-year real property which is described in clause (i), (ii), (iii), or (iv) of sec-

tion 1250(a)(1)(B).

If only a portion of a building (or other structure) is section 1245 recovery property, gain from any disposition of such building (or other structure) shall be allocated first to the portion of the building (or other structure) which is section 1245 recovery property (to the extent of the amount which may be treated as ordinary income under this section) and then to the portion of the building or other structure which is not section 1245 recovery property.'

(d) QUALIFIED LEASED PROPERTY.-Subsection (a) of section 1245 (relating to recomputed basis) is amended by adding at the end thereof the following new paragraph:

"(6) SPECIAL RULE FOR QUALIFIED LEASED

PROPERTY.-In any case in which-

"(A) the lessor of qualified leased proper-(within the meaning of 168(f)(8)(D)) is treated as the owner of such property for purposes of this subtitle under section 168(f)(8), and

"(B) the lessee acquires such property, the recomputed basis of the lessee under this subsection shall be determined by taking into account any adjustments which would be taken into account in determining the recomputed basis of the lessor.

(e) APPLICATION WITH SECTION 1250.—Subsection (d) of section 1250 (relating to exceptions and limitations) is amended by adding at the end thereof the following new

paragraph:

"(11) SECTION 1245 RECOVERY PROPERTY.-Subsection (a) shall not apply to the disposition of property which is section 1245 recovery property 1245(a)(5))." (as defined in section

SEC. 205. MINIMUM TAX TREATMENT.

(a) In General.—Subsection (a) of section 57 (defining items of tax preference) is amended by inserting immediately after paragraph (11) the following new paragraph:

"(12) ACCELERATED COST RECOVERY DEDUC-

"(A) In general.-With respect to each recovery property (other than 15-year real property) which is subject to a lease, the amount (if any) by which the deduction allowed under section 168(a) for the taxable year exceeds the deduction which would have been allowable for the taxable year had the property been depreciated using the straight-line method (with a half-year con-

vention and without regard to salvage value) and a recovery period determined in accordance with the following table:

The recovery period "In the case of: 3-year property..... 5 years. 5-year property...... 8 years. 10-year property..... 15 years. 15-year public utility 22 years. property.

"(B) 15-YEAR REAL PROPERTY.-With respect to each recovery property which is 15-year real property, the amount (if any) by which the deduction allowed under section 168(a) for the taxable year exceeds the deduction which would have been allowable for the taxable year had the property been depreciated using a 15-year period and the straightline method (without regard to salvage value).

"(C) PARAGRAPHS (2) AND (3) SHALL NOT APPLY.-Paragraphs (2) and (3) shall not

apply to recovery property.

"(D) DEFINITIONS.-For purposes of this paragraph, the terms '3-year property', year property', '10-year property', '15-year public utility property', '15-year real property', and 'recovery property', shall have the same meanings given such terms under section 168.'

(b) CONFORMING AMENDMENT.—The next to the last sentence of section 57(a) is amended by striking out "and (11)" and inserting in lieu thereof ", (11), and (12)".

SEC. 206. EARNINGS AND PROFITS.

(a) In General.-Subsection (k) of section 312 (relating to earnings and profits) is amended by redesignating paragraph (3) as paragraph (4) and by inserting after paragraph (2) the following new paragraph:

(3) EXCEPTION FOR RECOVERY AND SECTION

179 PROPERTY. "(A) RECOVERY PROPERTY.-Except as provided in subparagraphs (B) and (C), in the case of recovery property (within the meaning of section 168), the adjustment to earnings and profits for depreciation for any taxable year shall be the amount determined under the straight-line method (using a half year convention in the case of property other than the 15-year real property and without regard to salvage value) and using a recovery period determined in ac-

The applicable "In the case of: recovery period is: 3-year property...... 5 years. 5-year property..... 12 years. 10-year property...... 25 years. 15-year real property.. 35 years. 15-year public utility 35 years. property.

cordance with the following table:

For purposes of this subparagraph, no adjustment shall be allowed in the year of disposition (except with respect to 15-year real property), and rules similar to the rules under the last sentence of section 168(b)(2)(A) and section 168(b)(2)(B) shall apply.

"(B) TREATMENT OF AMOUNTS DEDUCTIBLE UNDER SECTION 179.—For purposes of computing the earnings and profits of a corporation, any amount deductible under section 179 shall be allowed as a deduction ratably over the period of 5 years (beginning with

the year for which such amount is deductible under section 179).

"(C) FLEXIBILITY.—In any case where a different recovery percentage is elected under section 168(b)(3) or (f)(2)(C) based on a recovery period longer than the recovery period provided in subparagraph (A), the adjustment to earnings and profits shall be based on such longer period under rules similar to those provided in subparagraph (A)."

(b) Foreign Corporations.—Paragraph (4) of section 312(k), as redesignated by subsection (a), is amended—

(1) by striking out "paragraph (1)" and inserting in lieu thereof "paragraphs (1) and (3)", and

(2) by adding at the end thereof the following new sentence: "In determining the earnings and profits of such corporation in the case of recovery property (within the meaning of section 168), the rules of section 168(f)(2) shall apply."

(c) Conforming Amendment.—Subsection (a) of section 964 (relating to miscellaneous provisions involving controlled foreign corporations) is amended by striking out "section 312(k)(3)" and inserting in lieu thereof "section 312(k)(4)".

SEC. 207. EXTENSION OF CARRYOVER PERIOD FOR NET OPERATING LOSSES AND CER-TAIN CREDITS.

(a) NET OPERATING LOSS .-

(1) In general.—Subparagraph (B) of section 172(b)(1) (relating to net operating loss carryovers) is amended by striking out "7" and inserting in lieu thereof "15".

(2) CONFORMING AMENDMENTS .-

- (A) Subparagraph (C) of section 172(b)(1) is amended—
- (i) by inserting "and before January 1, 1976," after "1955,", and
- (ii) by striking out the last sentence thereof.
- (B)(i) Subparagraph (E)(i)(II) of section 172(b)(1) is amended by striking out "8" and inserting in lieu thereof "15".

(ii) Clause (ii) of section 172(b)(1)(E) is

amended to read as follows:

"(ii) In the case of any net operating loss for a taxable year which is not a REIT year, such loss shall not be carried back to any taxable year which is a REIT year."

(C) Paragraph (3) of section 172(g) (relating to certain regulated transportation cor-

porations) is amended—

(i) by inserting "and" at the end of subparagraph (A),

(ii) by striking out "; and" at the end of subparagraph (B) and inserting in lieu thereof a period, and

(iii) by striking out subparagraph (C).

(b) Certain Losses of Life Insurance Companies.—Paragraph (1) of section 812(b) (relating to operations loss carrybacks and carryovers of life insurance companies) and paragraph (1) of section 825(d) (relating to unused loss carrybacks and carryovers of mutual life insurance companies) are each amended by striking out "7" and inserting in lieu thereof "15".

(c) CARRYOVER OF TAX CREDITS .-

(1) INVESTMENT CREDIT AND WIN CREDIT.—Paragraph (1) of section 46(b) (relating to carryback and carryovers of unused investment credits) and paragraph (1) of section 50A(b) (relating to carryback and carryover of unused work incentive program credit) are each amended by adding at the end thereof the following new sentence: "In the case of an unused credit for an unused credit year ending after December 31, 1973, this paragraph shall be applied by substituting '15' for '7' in subparagraph (B), and by

substituting '18' for '10', and '17' for '9' in the second sentence."

(2) New employee credit.—Paragraph (1) of section 53(c) (relating to carrybacks and carryovers of new employee credit) is amended—

(A) by striking out "7" in subparagraph (B) and inserting in lieu thereof "15",

(B) by striking out "10" and inserting in lieu thereof "18", and

(C) by striking out "9" and inserting in lieu thereof "17".

(3) ALCOHOL FUELS CREDIT.—Subparagraph (A) of section 44E(e)(2) (relating to carry-over of unused credit) is amended—

(A) by striking out "7" each place it appears and inserting in lieu thereof "15", and (B) by striking out "6" and inserting in lieu thereof "14".

SEC. 208. CARRYOVER OF RECOVERY ATTRIBUTE IN SECTION 381 TRANSACTIONS.

Subsection (c) of section 381 is amended by adding at the end thereof the following

new paragraph:

"(28) METHOD OF COMPUTING RECOVERY ALLOWANCE FOR RECOVERY PROPERTY.—The acquiring corporation shall be treated as the distributor or transferor corporation for purposes of computing the deduction allowable under section 168(a) on property acquired in a distribution or transfer with respect to so much of the basis in the hands of the acquiring corporation as does not exceed the adjusted basis in the hands of the distributor or transferor corporation."

SEC. 209. EFFECTIVE DATES.

(a) GENERAL RULE.—Except as otherwise provided in this section, the amendments made by this subtitle shall apply to property placed in service after December 31, 1980, in taxable years ending after such date.

(b) Special Rule for RRB Property.— The amendment made by subsection (c) of section 203 shall take effect on January 1, 1981, and shall apply with respect to taxable years ending after such date.

(c) Special Rule for Carryovers.-

(1)(A) Except as provided in subparagraph (B), the amendments made by subsections (a) and (b) of section 207 shall apply to net operating losses in taxable years ending after December 31, 1975.

(B) The amendments made by subparagraph (B) of section 207(a)(2) shall take effect as if they had been included in the amendments made by section 1(a) of Public Law 96-595; except that the amendments made by such subparagraph shall apply only to net operating losses in taxable years ending after December 31, 1972.

(2)(A) The amendments made by subsection (c)(1) of section 207 shall apply to unused credit years ending after December

31, 1973.

(B) The amendment made by subsection (c)(2) of section 207 shall apply to unused credit years beginning after December 31, 1976.

(C) The amendments made by subsection (c)(3) of section 207 shall apply to unused credit years ending after September 30, 1980

(d) Special Rule for Public Utilities.—
(1) Transitional rule for normalization requirements.—If, by the terms of the applicable rate order last entered before the date of the enactment of this Act by a regulatory commission having appropriate jurisdiction, a regulated public utility would (but for this provision) fall to meet the requirements of section 168(e)(3) of the Internal Revenue Code of 1954 with respect to property because, for an accounting period ending after December 31, 1980, such public

utility used a method of accounting other than a normalization method of accounting, such regulated public utility shall not fail to meet such requirements if, by the terms of its first rate order determining cost of service with respect to such property which becomes effective after the date of the enactment of this Act and on or before January 1, 1983, such regulated public utility uses a normalization method of accounting. This provision shall not apply to any rate order which, under the rules in effect before the date of the enactment of this Act, required a regulated public utility to use a method of accounting with respect to the deduction allowable by section 167 which, under section 167(1), it was not permitted to use.

- (2) TRANSITIONAL RULE FOR REQUIREMENTS of section 46(f) .- If, by the terms of the applicable rate order last entered before the date of the enactment of this Act by a regulatory commission having appropriate jurisdiction, a regulated public utility would (but for this provision) fail to meet the requirements of paragraph (1) or (2) of section 46(f) of the Internal Revenue Code of 1954 with respect to property for an accounting period ending after December 31, 1980, such regulated public utility shall not fail to meet such requirements if, by the terms of its first rate order determining cost of service with respect to such property which becomes effective after the date of the enactment of this Act and on or before January 1, 1983, such regulated public utility meets such requirements. This provision shall not apply to any rate order which, under the rules in effect before the date of the enactment of this Act, was inconsistent with the requirements of paragraph (1) or (2) of section 46(f) of such Code (whichever would have been applicable).
- (3) CLARIFICATION.—Subparagraph (C) of section 167(1)(3) is amended by inserting "and which is placed in service before January 1, 1981" immediately before the period at the end thereof.
- (4) AUTHORITY TO PRESCRIBE INTERIM REGULATIONS WITH RESPECT TO NORMALIZATION.—Until Congress acts further, the Secretary of the Treasury or his delegate may prescribe such interim regulations as may be necessary or appropriate to determine whether the requirements of section 168(e)(3)(B) of the Internal Revenue Code of 1954 have been met with respect to property placed in service after December 31, 1980.

Subtitle B—Investment Tax Credit Provisions

SEC. 211. MODIFICATION OF INVESTMENT TAX CREDIT TO REFLECT ACCELERATED COST RECOVERY.

(a) APPLICABLE PERCENTAGE.-

(1) In general.—Subsection (c) of section 46 (relating to qualified investment) is amended by adding at the end thereof the following new paragraph:

"(7) APPLICABLE PERCENTAGE FOR RECOVERY PROPERTY.—Notwithstanding paragraph (2), the applicable percentage for purposes of paragraph (1) shall be—

"(A) in the case of 15-year public utility, 10-year, or 5-year property (within the meaning of section 168(c)), 100 percent, and

"(B) in the case of 3-year property (within the meaning of section 168(c)), 60 percent. For purposes of subparagraph (A), RRB replacement property (within the meaning of section 168(f)(3)(B)) shall be treated as 5-year property."

- (2) Subsection (a) of section 48 (defining section 38 property) is amended by striking out paragraph (9).
- (b) REVISION OF PROGRESS EXPENDITURE RULES.
- (1) In general.—Paragraph (1) of section 46(d) (defining qualified progress expenditures) is amended to read as follows:

"(1) INCREASE IN QUALIFIED INVESTMENT.

"(A) In general.-In the case of any taxpayer who has made an election under paragraph (6), the amount of the qualified investment of such taxpayer for the taxable year (determined under subsection (c) without regard to this subsection) shall be increased by an amount equal to the aggregate of the applicable percentage of each qualified progress expenditure for the taxable year with respect to progress expenditure property.

"(B) APPLICABLE PERCENTAGE.-

- "(i) RECOVERY PROPERTY.—For purposes of subparagraph (A), the applicable percentage for recovery property (within the meaning of section 168) shall be determined under subsection (c)(7) based on a reasonable expectation of what the character of the property will be when it is placed in service.
- "(ii) NONRECOVERY PROPERTY.-For poses of subparagraph (A), the applicable percentage for property which is not recovery property (within the meaning of section 168) shall be determined under subsection (c)(2) based on a reasonable expectation of what the useful life of the property will be when it is placed in service.
- "(iii) APPLICATION ON BASIS OF FACTS known.-Clauses (i) and (ii) shall be applied on the basis of the facts known at the close of the taxable year of the taxpayer in which the expenditure is made."
- (2) Conforming amendment.—Clause (ii) of section 46(d)(2)(A) (defining progress expenditure property) is amended by striking out "having a useful life of 7 years or more"
- (c) Petroleum Product Storage Facili-TIES.-Paragraph (1) of section 48(a) (defining section 38 property) is amended-
- (1) by striking out the period at the end of subparagraph (F) and inserting in lieu
- thereof ", or"; and
 (2) by inserting immediately after subparagraph (F) the following new subparagraph:
- (G) a storage facility used in connection with the distribution of petroleum or any primary product of petroleum."
- (d) TECHNICAL AMENDMENT RELATING TO Noncorporate Lessons.-Paragraph (3) of section 46(e) (relating to limitations on noncorporate lessors) is amended by adding at the end thereof the following new sentence: "For purposes of subparagraph (B), in the case of any recovery property (within the meaning of section 168), the useful life shall be the present class life for such property (as defined in section 168(g)(2))."
 - (e) Conforming Amendments.
- (1) The heading and so much of paragraph (2) of section 46(c) as precedes the table is amended to read as follows:
- "(2) APPLICABLE PERCENTAGE IN CERTAIN cases.-Except as provided in paragraphs (3), (6), and (7), the applicable percentage for purposes of paragraph (1) for any property shall be determined under the following table:
- (2) Subparagraph (A) of section 46(c)(6) (relating to special rules for commuter highway vehicles) is amended to read as follows:
- "(A) In general.—Notwithstanding paragraph (2) or (3), in the case of a commuter highway vehicle the useful life of which is 3

years or more, or which is recovery property (within the meaning of section 168), the applicable percentage for purposes of paragraph (1) shall be 100 percent."

(3) Subparagraph (C) of section 48(1)(2) (defining energy property) is amended by inserting before the period at the end thereof "or which is recovery property (within the meaning of section 168)".

(4) The second sentence of section 48(a)(1) (defining section 38 property) is amended by striking out "includes only property" and inserting in lieu thereof "includes only recovery property (within the meaning of section 168 without regard to any useful life) and any other property"

(f) APPLICATION OF AT RISK RULES TO IN-ESTMENT CREDIT.-

(1) In general.—Subsection (c) of section 46 (relating to qualified investment) amended by adding at the end thereof the following new paragraphs:

(8) LIMITATION TO AMOUNT AT RISK .-

"(A) In general .- In the case of new or used section 38 property which-

"(i) is placed in service during the taxable year by a taxpayer described in section 465(a)(1), and

"(ii) is used in connection with an activity with respect to which any loss is subject to limitation under section 465,

the basis of such property for purposes of paragraph (1) shall not exceed the amount the taxpayer is at risk with respect to such property as of the close of such taxable year.

(B) AMOUNT AT RISK .-

"(i) In general.-Except as provided in clause (ii), the term 'at risk' has the same meaning given such term by section 465(b) (without regard to paragraph (5) thereof).

"(ii) CERTAIN FINANCING.-In the case of a taxpayer who at all times is at risk (determined without regard to this clause) in an amount equal to at least 20 percent of the (determined under section 168(d)(1)(A)(i)) of property described in subparagraph (A) and who acquired such property from a person who is not a related person, such taxpayer shall for purposes of this paragraph be considered at risk with respect to any amount borrowed in connection with such property (other than convertible debt) to the extent that such amount-

"(I) is borrowed from a qualified person,

"(II) represents a loan from any Federal, State, or local government or instrumentality thereof, or is guaranteed by, any Federal, State, or local government.

"(C) SPECIAL RULE FOR PARTNERSHIPS AND SUBCHAPTER S CORPORATIONS.-In the case of any partnership or electing small business corporation (within the meaning of section 1371(b)), any amount treated as at risk under subparagraph (B)(ii) shall be allocated among the partners or shareholders (and treated as an amount at risk with respect to such persons) in the same manner as the credit allowable by section 38.

"(D) QUALIFIED PERSON.—For purposes of this paragraph, the term 'qualified person'

means any person-

"(i) which-

"(I) is an institution described in clause (i), (ii), or (iii) of subparagraph (A) or subparagraph (B) of section 128(c)(2) or an insurance company to which subchapter L applies, or

'(II) is a pension trust qualified under section 401(a) or a person not described in subclause (I) and which is actively and regularly engaged in the business of lending money.

"(ii) which is not a related person with respect to the taxpayer,

"(iii) which is not a person who receives a fee with respect to the taxpayer's investment in property described in subparagraph (A) or a related person to such person, and

"(iv) which is not a person from which the taxpayer acquired the property described in subparagraph (A) or a related person to such person.

"(E) RELATED PERSON.—For purposes of this paragraph, the term 'related person' has the same meaning as such term is used in section 168(e)(4), except that in applying section 168(e)(4)(D)(i) in the case person described in subparagraph (D)(i)(II) this paragraph, sections 267(b) and 707(b)(1) shall be applied by substituting '0 percent' for '50 percent'.

"(F) SPECIAL RULE FOR CERTAIN ENERGY

PROPERTY .-

"(i) IN GENERAL.—The provisions of sub-paragraph (A) shall not apply to amounts borrowed with respect to qualified energy property (other than amounts described in subparagraph (B)).

"(ii) QUALIFIED ENERGY PROPERTY.-The term 'qualified energy property' means energy property to which (but for this subparagraph) subparagraph (A) applies and-

"(I) which is described in clause (iii), "(II) with respect to which the energy percentage determined under section 46(a)(2)(C) at the time such property is placed in service is greater than zero.

'(III) with respect to which the taxpayer, as of the close of the taxable year in which the property is placed in service, is at risk (within the meaning of section 465(b) without regard to paragraph (5) thereof) in an amount equal to at least 25 percent of the

basis of the property, and "(IV) with respect to which any nonrecourse financing (other than financing described in section 46(c)(8)(B)(ii)) in connection with such property consists of a level

payment loan.

For purposes of subclause (II), the energy percentage for property described in clause (iii)(V) shall be treated as being greater than zero during any period the energy percentage for property described in section 48(1)(14) is greater than zero.

"(iii) PROPERTY TO WHICH THIS SUBPARA-GRAPH APPLIES.—Energy property is described in this clause if such property is—

'(I) described in clause (ii), (iv), or (vii) or section 48(1)(2),

(II) described in section 48(1)(15),

"(III) described in section 48(1)(3)(A)(iii) (but only to the extent such property is used for converting an alternate substance into alcohol for fuel purposes),

"(IV) described in clause (i) of section 48(1)(2)(A) (but only to the extent such property is also described in section 48(1)(3)(A) (viii) or (ix)), or

"(V) property comprising a system for using the same energy source for the sequential generation of electrical power, mechanical shaft power, or both, in combination with steam, heat, or other forms of useful energy.

"(iv) LEVEL PAYMENT LOAN DEFINED .- The term 'level payment loan' means a loan in which each installment is substantially equal, a portion of each installment is attributable to the repayment of principal, and that portion is increased commensurate with decreases in the portion of the payment attributable to interest.

"(9) SUBSEQUENT INCREASES IN THE TAXPAY-ER'S AMOUNT AT RISK WITH RESPECT TO THE

PROPERTY .-

"(A) In general.—If, at the close of a taxable year subsequent to the year in which property was placed in service, the amount which the taxpayer has at risk with respect to such property has increased (as determined under subparagraph (B)), such increase shall be taken into account as additional qualified investment in such property in accordance with subparagraph (C).

"(B) Increases to be taken into account.—For purposes of subparagraphs (A) and (C), the amount which a taxpayer has at risk with respect to the property shall be treated as increased by the sum of the cash and the fair market value of property (other than property with respect to which the taxpayer is not at risk) used during the taxable year to reduce the principal sum of any amount with respect to which the taxpayer is not at risk.

"(C) MANNER IN WHICH TAKEN INTO AC-COUNT .- For purposes of determining the amount of credit allowed under section 38 and the amount of credit subject to the early disposition rules under section 47, an increase in a taxpayer's qualified investment in property (determined under subparagraph (B)) shall be deemed to be additional qualified investment made by the taxpayer in the year in which the property referred to in subparagraph (A) was first placed in service. However, the credit determined by taking into account the increase in qualified investment under this paragraph shall be considered a credit earned in the taxable year of such increase."

(2) RECAPTURE.—Section 47 (relating to certain dispositions of section 38 property), is amended by adding at the end thereof the

following new subsection:

"(d) PROPERTY CEASING TO BE AT RISK .-

"(1) In general.—If the taxpayer ceases to any extent to be at risk (within the meaning of section 46(c)(8)(B)) with respect to any amount in connection with section 38 property, then the tax under this chapter for such taxable year shall be increased by an amount equal to the aggregate decrease in credits allowed under section 38 for all prior taxable years which would have resulted from substituting, in determining qualified investment, the amount determined under section 46(c)(8) with respect to such property if, on the date the property was placed in service, the taxpayer had not been at risk with respect to the amount he ceased to be at risk to.

"(2) CERTAIN TRANSFERS NOT TREATED AS CEASING TO BE AT RISK.—If, after the 12-month period after the date on which a tax-payer borrows an amount from a qualified person (within the meaning of section 48(c)(8)(D)) with respect to which such tax-payer is considered at risk under section 48(c)(8)(B), the qualified person transfers or agrees to transfer any evidence of such indebtedness to a person who is not a qualified person, then, for purposes of paragraph (1), the taxpayer shall not be treated as ceasing to be at risk with respect to such amount.

"(3) SPECIAL RULES FOR CERTAIN ENERGY PROPERTY.—

"(A) IN GENERAL.—In the case of the second taxable year following the taxable year in which any qualified energy property (within the meaning of section 46(c)(8)(E)) is placed in service by the taxpayer and any succeeding taxable year, the taxpayer, for purposes of paragraph (1), shall be treated as ceasing to be at risk with respect to such property for such taxable year in an amount equal to the credit recapture amount (if any).

"(B) CREDIT RECAPTURE AMOUNT.—For purposes of this paragraph, the term 'credit recapture amount' means an amount equal to the excess (if any) of—

"(i) the total amount of principal to be paid as of the close of any taxable year under a nonrecourse level payment loan (as defined in section 46(c)(8)(F)(iv) other than a loan described in section 46(c)(8)(B)(ii)) with respect to such property, over

"(ii) the sum of-

"(I) the amount of principal actually paid as of the close of such taxable year, plus

"(II) the sum of the credit recapture amounts with respect to such property for

all preceding taxable years.

"(C) SPECIAL RULES FOR DETERMINING PRIN-CIPAL TO BE PAID.—For purposes of subparagraph (B)(i), in determining the amount of the principal to be paid under a level payment loan, such determination shall be made as if such loan was to be fully repaid by the end of a period equal to the earlier of—

"(i) the present class life (as defined in section 188(g)(2)) of the property or, if the property has no present class life, a similar period determined by the Secretary. or

"(ii) the period at the end of which full repayment is to occur under the terms of the loan.

"(D) Special rule for certain cumulative deficiencies.—If the excess of—

"(i) the amount of the total scheduled principal payments under a loan described in subparagraph (B)(i) as of the close of the taxable year, over

"(ii) the total principal actually paid under such loan as of the close of such tax-

able year.

is equal to or greater than the amount of such total scheduled payments for the 5-taxable year period ending with such taxable year, then, notwithstanding subparagraph (B), the credit recapture amount for such taxable year shall be equal to the principal remaining to be paid as of the close of such taxable year over the sum of the credit recapture amounts with respect to such property for all preceding taxable years.

"(E) SPECIAL RULE FOR CERTAIN DISPOSI-TIONS.—

"(i) In general.—If any property which is held by the taxpayer and to which this paragraph applies is disposed of by the taxpayer, then for purposes of paragraph (1) and notwithstanding subparagraph (B), the credit recapture amount for the taxpayer shall be an amount equal to the unpaid principal on the loan described in subparagraph (B)(i) as of the date of disposition;

"(ii) Assumptions, etc.—Any amount of the loan described in subparagraph (B)(i) which is assumed or taken subject to by any person shall be treated for purposes of clause (i) as not reducing unpaid principal

with respect to such loan.

"(F) APPLICATION WITH SUBSECTION (a).—
The amount of any increase in tax under subsection (a) with respect to any property to which this paragraph applies shall be determined by reducing the qualified investment with respect to such property by the aggregate credit recapture amounts for all taxable years under this paragraph.

"(G) ADDITIONAL INTEREST.—In the case of any increase in tax under paragraph (1) by reason of the application of this paragraph, there shall be added to such tax interest on such tax (determined under section 6621) as if the increase in tax under paragraph (1) was for the taxable year in which the prop-

erty was placed in service."
(g) Amendment of Recapture Rules.—

(1) In general.—Subsection (a) of section 47 (relating to certain dispositions, etc., of section 38 property) is amended by redesignating paragraphs (5), (6), and (7) as paragraphs (6), (7), and (8), respectively, and by inserting after paragraph (4) the following new paragraph:

"(5) Special rules for recovery property.—

"(A) General rule.—If, during any taxable year, section 38 recovery property is disposed of, or otherwise ceases to be section 38 property with respect to the taxpayer before the close of the recapture period, then, except as provided in subparagraph (D), the tax under this chapter for such taxable year shall be increased by the recapture percentage of the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted solely from reducing to zero the qualified investment taken into account with respect to such property.

"(B) RECAPTURE PERCENTAGE.—For purposes of subparagraph (A), the recapture percentage shall be determined in accordance with the following table:

	The recap percentag	
"If the recovery property ceases to be section 38 property within	For 15- year, 10- year, and 5-year property	For 3- year property
One full year after placed in service	100	100
One full year after the close of the period described in clause (i)	80	66
One full year after the close of the period described in clause (ii)	60	33
One full year after the close of the period described in clause (iii)	40	0
One full year after the close of the period described in clause (iv)	20	0

"(C) PROPERTY CEASES TO BE PROGRESS EXPENDITURE PROPERTY.—If, during any taxable year, any recovery property taken into account in determining qualified investment under section 46(d)(1) ceases to be progress expenditure property (as determined under paragraph (3)) or becomes, with respect to the taxpayer, recovery property of a character other than that expected in determining the applicable percentage under section 46(d)(1)(B)(i), then the tax under this chapter for such taxable year shall be adjusted in accordance with regulations prescribed by the Secretary.

"(D) LIMITATION.—The tax for the taxable year shall be increased under subparagraph (A) only with respect to the credits allowed under section 38 which were used to reduce tax liability. In the case of credits not so used to reduce tax liability, the carrybacks and carryovers under section 46(b) shall be appropriately adjusted.

"(E) DEFINITIONS AND SPECIAL RULES .-

"(i) Section 38 Recovery Property.—For purposes of this paragraph, the term 'section 38 recovery property' means any section 38 property which is recovery property (within the meaning of section 168).

"(ii) RECAPTURE PERIOD.—For purposes of this paragraph, the term 'recapture period' means, with respect to any recovery property, the period consisting of the first full year after the property is placed in service and the 4 succeeding full years (the 2 succeeding full years in the case of 3-year property).

"(iii) CLASSIFICATION OF PROPERTY.-For purposes of this paragraph, property shall be classifed as provided in section 168(c).

"(iv) Paragraph (1) NOT TO APPLY.-Paragraph (1) shall not apply with respect to any recovery property."

(2) TECHNICAL AMENDMENTS.

(A) Subparagraph (D) of section 47(a)(3)

is amended to read as follows:

"(D) Coordination with paragraphs (1) AND (5) .- If, after property is placed in service, there is a disposition or other cessation described in paragraph (1), or a disposition, cessation, or change in expected use described in paragraph (5), then paragraph (1) or (5), as the case may be, shall be applied as if any credit, which was allowable by reason of section 46(d) and which has not been required to be recaptured before such disposition, cessation, or change in use were allowable for the taxable year the property was placed in service."

(B) Paragraph (6) of section 47(a) (as redesignated by paragraph (1) of this subsection) is amended by striking out "paragraph (1) or (3)" and inserting in lieu thereof "paragraph (1), (3), or (5)".

(C) Subparagraph (B) of section 47(a)(7)

(as redesignated by paragraph (1)) is amended by striking out "paragraph (5)" and inserting in lieu thereof "paragraph (6)"

(h) TREATMENT OF CERTAIN LEASED ROLLING STOCK.—Clause (ii) of section 48(a)(2)(B) is

amended to read as follows:

'(ii) rolling stock which is used within and without the United States and which is-

"(I) of a domestic railroad corporation providing transportation subject to subchapter I of chapter 105 of title 49, or

"(II) of a United States person (other than a corporation described in subclause (I)) but only if the rolling stock is not leased to one or more foreign persons for periods aggregating more than 12 months in any 24month period:

(i) EFFECTIVE DATE.-

(1) In general.-Except as provided in this subsection, the amendments made by this section shall apply to property placed in service after December 31, 1980.

(2) PROGRESS EXPENDITURES.—The amendments made by subsection (b) shall apply to progress expenditures made after December

31, 1980

- (3) PETROLEUM STORAGE FACILITIES.—The amendments made by subsection (c) shall apply to periods after December 31, 1980, under rules similar to the rules under section 48(m).
- (4) NONCORPORATE LESSORS.—The amendments made by subsection (d) shall apply to leases entered into after June 25, 1981

(5) AT RISK RULES.

(A) In general.—The amendment made by subsection (f) shall not apply to-

(i) property placed in service by the tax-

payer on or before February 18, 1981, and (ii) property placed in service by the taxpayer after February 18, 1981, where such property is acquired by the taxpayer pursuant to a binding contract entered into on or before that date.

- (B) BINDING CONTRACT.—For purposes of subparagraph (A)(ii), property acquired pursuant to a binding contract shall, under regulations prescribed by the Secretary, include property acquired in a manner so that it would have qualified as pretermination property under section 49(b) (as in effect before its repeal by the Revenue Act of 1978).
- (6) LEASED ROLLING STOCK.—The amendment made by subsection (h) shall apply to taxable years beginning after December 31,

SEC. 212. INCREASE IN INVESTMENT TAX CREDIT FOR QUALIFIED REHABILITATION EX-PENDITURES.

(a) INCREASE IN AMOUNT OF CREDIT.

(1) In general.-Subparagraph (A) of section 46(a)(2) (relating to amount of investment tax credit) is amended by striking out "and" at the end of clause (ii), by striking out the period at the end of clause (iii), by inserting in lieu thereof ", and", and by adding at the end thereof the following new clause:

"(iv) in the case of that portion of the basis of any property which is attributable to qualified rehabilitation expenditures, the

rehabilitation percentage."

(2) REHABILITATION PERCENTAGE DEFINED .-Paragraph (2) of section 46(a) is amended by adding at the end thereof the following new subparagraph:

"(F) REHABILITATION PERCENTAGE.-For

purposes of this paragraph-

"(i) IN GENERAL.

"In the case of qualified rehabilitation expenditures with respect to a:	rehabilita- tion percent- age is:
30-year building	15
40-year building	20
Certified historic structure	25.

"(ii) REGULAR AND ENERGY PERCENTAGES NOT TO APPLY.-The regular percentage and the energy percentage shall not apply to that portion of the basis of any property which is attributable to qualified rehabilitation expenditures.

"(iii) DEFINITIONS .-

"(I) 30-YEAR BUILDING.—The term '30-year building' means a qualified rehabilitated building other than a 40-year building and other than a certified historic structure.

(II) 40-YEAR BUILDING .- The term '40-year building' means any building (other than a certified historic structure) which would meet the requirements of section 48(g)(1)(B) if '40' were substituted for '30' section each place it appears in subparagraph (B) thereof.

"(III) CERTIFIED HISTORIC STRUCTURE.— The term 'certified historic structure' has the meaning given to such term by section

48(g)(3)."

CONFORMING AMENDMENT.—Section 48(o) (defining certain credits) is amended by adding at the end thereof the following new paragraph:

"(8) REHABILITATION INVESTMENT CREDIT The term 'rehabilitation investment credit' means that portion of the credit allowable by section 38 which is attributable to the re-

habilitation percentage."

(b) QUALIFIED REHABILITATED BUILDINGS AND EXPENDITURES.—Subsection (g) of section 48 (relating to special rules for qualified rehabilitated buildings) is amended to read as follows:

"(g) SPECIAL RULES FOR QUALIFIED REHA-BILITATED BUILDINGS.—For purposes of this

"(1) QUALIFIED REHABILITATED BUILDING DE-FINED.

"(A) In general.-The term 'qualified rehabilitated building' means any building (and its structural components)

(i) which has been substantially rehabili-

"(ii) which was placed in service before the beginning of the rehabilitation, and "(iii) 75 percent or more of the existing

external walls of which are retained in place

as external walls in the rehabilitation proc-

"(B) 30 YEARS MUST HAVE ELAPSED SINCE construction.—In the case of a building other than a certified historic structure, a building shall not be a qualified rehabilitated building unless there is a period of at least 30 years between the date the physical work on the rehabilitation began and the date the building was first placed in service.

"(C) SUBSTANTIALLY REHABILITATED DE-

FINED.

"(i) In general.-For purposes of subparagraph (A)(i), a building shall be treated as having been substantially rehabilitated only if the qualified rehabilitation expenditures during the 24-month period ending on the last day of the taxable year exceed the greater of-

"(I) the adjusted basis of such property,

"(II) \$5,000.

The adjusted basis of the property shall be determined as of the beginning of the first day of such 24-month period, or of the holding period of the property (within the meaning of section 1250(e)), whichever is later

"(ii) SPECIAL RULE FOR PHASED REHABILITA-TION.—In the case of any rehabilitation which may reasonably be expected to be completed in phases set forth in architectural plans and specifications completed before the rehabilitation begins, clause (i) shall be applied by substituting '60-month period' for '24-month period'.

"(iii) Lessees.-The Secretary shall prescribe by regulation rules for applying this

provision to lessees.

(D) RECONSTRUCTION.—Rehabilitation includes reconstruction.

"(2) QUALIFIED REHABILITATION EXPENDI-TURE DEFINED .-

"(A) In general.—The term 'qualified rehabilitation expenditure' means any amount properly chargeable to capital account which is incurred after December 31,

"(i) for property (or additions or improvements to property) which have a recovery period (within the meaning of section 168) of 15 years, and

'(ii) in connection with the rehabilitation of a qualified rehabilitated building.

"(B) CERTAIN EXPENDITURES NOT INCLUD--The term 'qualified rehabilitation expenditure' does not include-

"(i) Accelerated methods of depreciation MAY NOT BE USED .- Any expenditures with respect to which an election has not been made under section 168(b)(3) (to use the straight-line method of depreciation).

(ii) Cost of acquisition.—The cost of acquiring any building or interest therein.

"(iii) ENLARGEMENTS.-Any expenditure attributable to the enlargement of an existing building.

"(iv) CERTIFIED HISTORIC STRUCTURE, ETC.-Any expenditure attributable to the rehabilitation of a certified historic structure or a building in a registered historic district, unless the rehabilitation is a certified rehabilitation (within the meaning of subparagraph (C)). The preceding sentence shall not apply to a building in a registered historic district if-

"(I) such building was not a certified his-

toric structure.

"(II) the Secretary of the Interior certified to the Secretary that such building is not of historic significance to the district,

'(III) if the certification referred to in subclause (II) occurs after the beginning of the rehabilitation of such building, the taxpayer certifies to the Secretary that, at the beginning of such rehabilitation, he in good faith was not aware of the requirements of subclause (II).

"(v) EXPENDITURES OF LESSEE.—Any expenditure of a lessee of a building if, on the date the rehabilitation is completed, the remaining term of the lease (determined without regard to any renewal periods) is less

than 15 years.

"(C) CERTIFIED REHABILITATION .- For purposes of subparagraph (B), the term 'certified rehabilitation' means any rehabilitation of a certified historic structure which the Secretary of the Interior has certified to the Secretary as being consistent with the historic character of such property or the district in which such property is located.

"(3) CERTIFIED HISTORIC STRUCTURE DE-

"(A) In general.-The term 'certified historic structure' means any building (and its structural components) which-

(i) is listed in the National Register, or "(ii) is located in a registered historic dis-

trict and is certified by the Secretary of the Interior to the Secretary as being of historic significance to the district.

(B) REGISTERED HISTORIC DISTRICT.—The term 'registered historic district' means

"(i) any district listed in the National Register, and

"(ii) any district-

"(I) which is designated under a statute of the appropriate State or local government. if such statute is certified by the Secretary of the Interior to the Secretary as containing criteria which will substantially achieve the purpose of preserving and rehabilitating buildings of historic significance to the district, and

"(II) which is certified by the Secretary of the Interior to the Secretary as meeting substantially all of the requirements for the listing of districts in the National Register.

"(4) PROPERTY TREATED AS NEW SECTION 38 PROPERTY.-Property which is treated as sec-38 property by reason of subsection (a)(1)(E) shall be treated as new section 38 property.

"(5) ADJUSTMENT TO BASIS.-

"(A) In general.-For purposes of this subtitle, if a credit is allowed under this section for any qualified rehabilitation expenditure in connection with a qualified rehabilitated building other than a certified historic structure, the increase in basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(B) CERTAIN DISPOSITIONS.—If during any taxable year there is a recapture amount determined with respect to any qualified rehabilitated building the basis of which was reduced under subparagraph (A), the basis of such building (immediately before the event resulting in such recapture) shall be increased by an amount equal to such recapture amount. For purposes of the preceding sentence, the term 'recapture amount' means any increase in tax (or adjustment in carrybacks or carryovers) determined under section 47(a)(5)."

(c) LODGING TO QUALIFY.-Paragraph (3) of section 48(a) (relating to property used for lodging) is amended-

(1) by striking out "and" at the end of subparagraph (B)

(2) by striking out the period at the end of subparagraph (C) and inserting in lieu

thereof ", and", and
(3) by adding at the end thereof the following new subparagraph:

"(D) a certified historic structure to the extent of that portion of the basis which is attributable to qualified rehabilitation ex-

(d) REPEAL OF CERTAIN PROVISIONS RELAT-ING TO HISTORIC STRUCTURES

(1) In general.-Section 191 (relating to amortization of certain rehabilitation ex-penditures for certified historic structures) and subsections (n) and (o) of section 167 (relating to depreciation) are hereby re-

(2) CONFORMING AMENDMENTS.

(A) Paragraph (8) of section 48(a) (relating to amortized property) is amended by striking out "188, or 191" and inserting in lieu thereof "or 188".

(B) Paragraph (2) of section 57(a) (relating to items of tax preference) is amended

by striking out "or 191"

(C) Section 280B (relating to demolition of certain historic structures) is amended-

(i) by striking out "section 191(d)(1)" in subsection (a), and inserting in lieu thereof "48(g)(3)(A)", and

(ii) by striking out "section 191(d)(2)" in subsection (b) and inserting in lieu thereof section 48(g)(3)(B)"

(D) Subsection (f) of section 642 (relating to special rules for credits and deductions) is amended by striking out "188, and 191" and inserting in lieu thereof "and 188".

Subparagraph (B) of section 1082(a)(2) (relating to basis for determining gains or loss) is amended by striking out 188, or 191" and inserting in lieu thereof

or 188"

(F) Paragraph (2) of section 1245(a) (relating to gain from dispositions of certain depreciable property) and paragraph (4) of section 1250(b) (relating to gain from dispositions of certain depreciable realty) are each amended by inserting "(as in effect before its repeal by the Economic Recovery Tax Act of 1981)" after "191" each place it appears

(G) Subsection (a) of section 1016 (relating to adjustments to basis) is amended-

(i) by striking out "and" at the end of paragraph (22),

(ii) by striking out the period at the end of paragraph (23) and inserting in lieu thereof , and", and

(iii) by adding at the end thereof the fol-

lowing new paragraph:

"(24) to the extent provided in section 48(g)(5), in the case of expenditures with respect to which a credit has been allowed under section 38.

(e) EFFECTIVE DATES .-

(1) In GENERAL.-Except as provided in paragraph (2), the amendments made by this section shall apply to expenditures incurred after December 31, 1981, in taxable years ending after such date.

(2) TRANSITIONAL RULE.—The amendments made by this section shall not apply with respect to any rehabilitation of a building if-

(A) the physical work on such rehabilitation began before January 1, 1982, and

(B) such building meets the requirements of paragraph (1) of section 48(g) of the Internal Revenue Code of 1954 (as in effect on the day before the date of enactment of this Act) but does not meet the requirements of such paragraph (1) (as amended by this

SEC. 213. INVESTMENT CREDIT FOR USED PROPER-TY; INCREASE IN DOLLAR LIMIT.

(a) In GENERAL.—Paragraph (2) of section 48(c) (relating to used section 38 property) is amended by amending subparagraphs (A), (B), and (C) to read as follows:

(2) DOLLAR LIMITATION.—

"(A) In general.—The cost of used section 38 property taken into account under section 46(c)(1)(B) for any taxable year shall not exceed \$150,000 (\$125,000 for taxable years beginning in 1981, 1982, 1983, or 1984). If such cost exceeds \$150,000 (or \$125,000 as the case may be), the taxpayer shall select (at such time and in such manner as the Secretary shall by regulations prescribe) the items to be taken into account, but only to the extent of an aggregate cost of \$150,000 (or \$125,000). Such a selection, once made, may be changed only in the manner, and to the extent, provided by such regulations.

"(B) MARRIED INDIVIDUALS.—In the case of husband or wife who files a separate return, the limitation under subparagraph (A) shall be \$75,000 (\$62,500 for taxable years beginning in 1981, 1982, 1983, or 1984). This subparagraph shall not apply if the spouse of the taxpayer has no used section 38 property which may be taken into account as qualified investment for the taxable year of such spouse which ends within or with the taxpayer's taxable year.

"(C) CONTROLLED GROUPS.—In the case of a controlled group, the amount specified under subparagraph (A) shall be reduced for each component member of the group by apportioning such amount among the component members of such group in accordance with their respective amounts of used section 38 property which may be taken into account.'

(b) Effective Date.-The amendment made by this section shall apply to property placed in service after December 31, 1980.

SEC. 214. INVESTMENT TAX CREDIT ALLOWED FOR CERTAIN REHABILITATED BUILDINGS LEASED TO TAX-EXEMPT ORGANIZA-TIONS OR TO GOVERNMENTAL UNITS.

(a) USE BY TAX-EXEMPT ORGANIZATIONS .-Paragraph (4) of section 48(a) (relating to property used by certain tax-exempt organiis amended by adding at the end thereof the following new sentence: "If any qualified rehabilitated building is used by the tax-exempt organization pursuant to a lease, this paragraph shall not apply to that portion of the basis of such building which is attributable to qualified rehabilitation expenditures.

(b) Use by Governmental Units .- Paragraph (5) of section 48(a) (relating to governmental units) is amended by adding at the end thereof the following new sentence: "If any qualified rehabilitated building is used by the governmental unit pursuant to a lease, this paragraph shall not apply to that portion of the basis of such building which is attributable to qualified rehabilitation expenditures."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to uses after July 29, 1980, in taxable years ending after such date.

Subtitle C-Incentives for Research and Experimentation

SEC. 221. CREDIT FOR INCREASING RESEARCH AC-TIVITIES.

(a) GENERAL RULE.—Subpart A of part IV of subchapter A of chapter 1 (relating to credits allowable) is amended by inserting after section 44E the following new section: "SEC. 44F. CREDIT FOR INCREASING RESEARCH AC-TIVITIES.

"(a) GENERAL RULE.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 25 percent of the excess (if any) of-

"(1) the qualified research expenses for the taxable year, over

"(2) the base period research expenses.

"(b) QUALIFIED RESEARCH EXPENSES.—For purposes of this section—

"(1) QUALIFIED RESEARCH EXPENSES.—The term 'qualified research expenses' means the sum of the following amounts which are paid or incurred by the taxpayer during the taxable year in carrying on any trade or business of the taxpayer—

"(A) in-house research expenses, and

"(B) contract research expenses.

"(2) In-house research expenses.—

"(A) In general.—The term 'in-house research expenses' means—

"(i) any wages paid or incurred to an employee for qualified services performed by such employee,

"(ii) any amount paid or incurred for supplies used in the conduct of qualified research, and

"(iii) any amount paid or incurred to another person for the right to use personal property in the conduct of qualified research.

"(B) QUALIFIED SERVICES.—The term 'qualified services' means services consisting of—

"(i) engaging in qualified research, or

"(ii) engaging in the direct supervision or direct support of research activities which constitute qualified research.

If substantially all of the services performed by an individual for the taxpayer during the taxable year consists of services meeting the requirements of clause (i) or (ii), the term 'qualified services' means all of the services performed by such individual for the taxpayer during the taxable year.

"(C) Supplies.—The term 'supplies' means any tangible property other than—

"(i) land or improvements to land, and

"(ii) property of a character subject to the allowance for depreciation.

"(D) WAGES .-

"(i) In GENERAL.—The term 'wages' has the meaning given such term by section 3401(a).

"(ii) Self-employed individuals and owner-employees.—In the case of an employee (within the meaning of section 401(c)(1)), the term 'wages' includes the earned income (as defined in section 401(c)(2)) of such employee.

"(iii) Exclusion for wages to which new Jobs or win credit applies.—The term 'wages' shall not include any amount taken into account in computing the credit under section 40 or 44B.

"(3) CONTRACT RESEARCH EXPENSES.—

"(A) In general.—The term 'contract research expenses' means 65 percent of any amount paid or incurred by the taxpayer to any person (other than an employee of the taxpayer) for qualified research.

"(B) PREPAID AMOUNTS.—If any contract research expenses paid or incurred during any taxable year are attributable to qualified research to be conducted after the close of such taxable year, such amount shall be treated as paid or incurred during the period during which the qualified research is conducted.

"(c) Base Period Research Expenses.— For purposes of this section—

"(1) In general.—The term 'base period research expenses' means the average of the qualified research expenses for each year in the base period.

"(2) BASE PERIOD .-

"(A) In GENERAL.—For purposes of this subsection, the term 'base period' means the 3 taxable years immediately preceding the taxable year for which the determination is being made (hereinafter in this subsection referred to as the 'determination year').

"(B) Transitional Rules.—Subparagraph (A) shall be applied—

"(i) by substituting 'first taxable year' for '3 taxable years' in the case of the first determination year ending after June 30, 1981, and

"(ii) by substituting '2' for '3' in the case of the second determination year ending after June 30, 1981.

"(3) MINIMUM BASE PERIOD RESEARCH EX-PENSES.—In no event shall the base period research expenses be less than 50 percent of the qualified research expenses for the determination year.

"(d) QUALIFIED RESEARCH.—For purposes of this section the term 'qualified research' has the same meaning as the term research or experimental has under section 174, except that such term shall not include—

"(1) qualified research conducted outside

the United States,

"(2) qualified research in the social sci-

ences or humanities, and

"(3) qualified research to the extent funded by any grant, contract, or otherwise by another person (or any governmental entity).

"(e) CREDIT AVAILABLE WITH RESPECT TO CERTAIN BASIC RESEARCH BY COLLEGES, UNI-VERSITIES, AND CERTAIN RESEARCH ORGANIZA-TIONS.—

"(1) In general.—65 percent of any amount paid or incurred by a corporation (as such term is defined in section 170(e)(4)(D)) to any qualified organization for basic research to be performed by such organization shall be treated as contract research expenses. The preceding sentence shall apply only if the amount is paid or incurred pursuant to a written research agreement between the corporation and the qualified organization.

"(2) QUALIFIED ORGANIZATION.—For purposes of this subsection, the term 'qualified

organization' means-

"(A) any educational organization which is described in section 170(b)(1)(A)(ii) and which is an institution of higher education (as defined in section 3304(f)), and

"(B) any other organization which—
"(i) is described in section 501(c)(3) and exempt from tax under section 501(a).

"(ii) is organized and operated primarily to conduct scientific research, and

"(iii) is not a private foundation.
"(3) Basic research.—The term 'basic research' means any original investigation for the advancement of scientific knowledge not having a specific commercial objective,

except that such term shall not include—
"(A) basic research conducted outside the
United States, and

"(B) basic research in the social sciences or humanities.

"(4) SPECIAL RULES FOR GRANTS TO CERTAIN

"(A) In general.—For purposes of this subsection, a qualified fund shall be treated as a qualified organization and the requirements of paragraph (1) that the basic research be performed by the qualified organization shall not apply.

"(B) QUALIFIED FUND.—For purposes of subparagraph (A), the term 'qualified fund' means any organization which—

"(i) is described in section 501(c)(3) and exempt from tax under section 501(a) and is not a private foundation,

"(ii) is established and maintained by an organization established before July 10, 1981, which meets the requirements of clause (f).

"(iii) is organized and operated exclusively for purposes of making grants pursuant to

written research agreements to organizations described in paragraph (2)(A) for purposes of basic research, and

"(iv) makes an election under this paragraph.

"(C) EFFECT OF ELECTION .-

"(1) IN GENERAL.—Any organization which makes an election under this paragraph shall be treated as a private foundation for purposes of this title (other than section 4940, relating to excise tax based on investment income).

"(ii) ELECTION REVOCABLE ONLY WITH CON-SENT.—An election under this paragraph, once made, may be revoked only with the consent of the Secretary.

"(f) SPECIAL RULES.—For purposes of this section—

"(1) AGGREGATION OF EXPENDITURES.-

"(A) CONTROLLED GROUP OF CORPORA-TIONS.—In determining the amount of the credit under this section—

"(i) all members of the same controlled group of corporations shall be treated as a

single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such member shall be its proportionate share of the increase in qualified research expenses giving rise to the credit.

"(B) COMMON CONTROL.—Under regulations prescribed by the Secretary, in determining the amount of the credit under this section—

"(i) all trades or businesses (whether or not incorporated) which are under common control shall be treated as a single taxpayer, and

"(ii) the credit (if any) allowable by this section to each such person shall be its proportionate share of the increase in qualified research expenses giving rise to the credit. The regulations prescribed under this subparagraph shall be based on principles similar to the principles which apply in the case of subparagraph (A).

"(2) ALLOCATIONS .-

"(A) PASSTHROUGH IN THE CASE OF SUBCHAP-TER S CORPORATIONS, ETC.—Under regulations prescribed by the Secretary, rules similar to the rules of subsections (d) and (e) of section 52 shall apply.

"(B) ALLOCATION IN THE CASE OF PARTNER-SHIPS.—In the case of partnerships, the credit shall be allocated among partners under regulations prescribed by the Secretary.

"(3) ADJUSTMENTS FOR CERTAIN ACQUISITIONS, ETC.—Under regulations prescribed by

the Secretary—

"(A) Acquisitions.—If, after June 30, 1980, a taxpayer acquires the major portion of a trade or business of another person (hereinafter in this paragraph referred to as the 'predecessor') or the major portion of a separate unit of a trade or business of a predecessor, then, for purposes of applying this section for any taxable year ending after such acquisition, the amount of qualified research expenses paid or incurred by the taxpayer during periods before such acquisition shall be increased by so much of such expenses paid or incurred by the predecessor with respect to the acquired trade or business as is attributable to the portion of such trade or business or separate unit acquired by the taxpayer.

"(B) DISPOSITIONS.—If, after June 30,

"(i) a taxpayer disposes of the major portion of any trade or business or the major portion of a separate unit of a trade or business in a transaction to which subparagraph (A) applies, and "(ii) the taxpayer furnished the acquiring person such information as is necessary for the application of subparagraph (A),

then, for purposes of applying this section for any taxable year ending after such disposition, the amount of qualified research expenses paid or incurred by the taxpayer during periods before such disposition shall be decreased by so much of such expenses as is attributable to the portion of such trade or business or separate unit disposed

of by the taxpayer.

(C) INCREASE IN BASE PERIOD.—If during any of the 3 taxable years following the taxable year in which a disposition to which subparagraph (B) applies occurs, the disposing taxpayer (or a person with whom the taxpayer is required to aggregate expenditures under paragraph (1)) reimburses the acquiring person (or a person required to so aggregate expenditures with such person) for research on behalf of the taxpayer, then the amount of qualified research expenses of the taxpayer for the base period for such taxable year shall be increased by the lesser

"(i) the amount of the decrease under subparagraph (B) which is allocable to such base period, or

"(ii) the product of the number of years in the base period, multiplied by the amount of the reimbursement described in this subparagraph.

"(4) SHORT TAXABLE YEARS.—In the case of any short taxable year, qualified research expenses shall be annualized in such circumstances and under such methods as the Secretary may prescribe by regulation.

"(5) CONTROLLED GROUP OF CORPORATIONS. The term 'controlled group of corporations' has the same meaning given to such term by

section 1563(a), except that-

"(A) 'more than 50 percent' shall be substituted for 'at least 80 percent' each place it appears in section 1563(a)(1), and

(B) the determination shall be made without regard to subsections (a)(4) and (e)(3)(C) of section 1563.

"(g) LIMITATION BASED ON AMOUNT OF

"(1) LIABILITY FOR TAX .-

- "(A) In general.-Except as provided in subparagraph (B), the credit allowed by subsection (a) for any taxable year shall not exceed the amount of the tax imposed by this chapter reduced by the sum of the credits allowable under a section of this part having a lower number or letter designation than this section, other than the credits allowable by sections 31, 39, and 43. For purposes of the preceding sentence, the term 'tax imposed by this chapter' shall not in-clude any tax treated as not imposed by this chapter under the last sentence of section
- "(B) SPECIAL RULE FOR PASSTHROUGH OF CREDIT.-In the case of an individual who

"(i) owns an interest in an unincorporated

trade or business

'(ii) is a partner in a partnership,

"(iii) is a beneficiary of an estate or trust,

"(iv) is a shareholder in an electing small business corporation (within the meaning of section 1371(b)),

the credit allowed by subsection (a) for any taxable year shall not exceed the lesser of the amount determined under subpara-graph (A) for the taxable year or an amount (separately computed with respect to such person's interest in such trade or business or entity) equal to the amount of tax attributable to that portion of a person's taxable income which is allocable or apportionable to the person's interest in such trade or business or entity.

"(2) CARRYBACK AND CARRYOVER OF UNUSED CREDIT

"(A) ALLOWANCE OF CREDIT.—If the amount of the credit determined under this section for any taxable year exceeds the limitation provided by paragraph (1) for such taxable year (hereinafter in this paragraph referred to as the 'unused credit year'), such excess shall be-

"(i) a research credit carryback to each of the 3 taxable years preceding the unused

credit year, and

'(ii) a research credit carryover to each of the 15 taxable years following the unused

credit year, and shall be added to the amount allowable as a credit by this section for such years. If any portion of such excess is a carryback to a taxable year beginning before July 1, 1981, this section shall be deemed to have been in effect for such taxable year for purposes of allowing such carryback as a credit under this section. The entire amount of the unused credit for an unused credit year shall be carried to the earliest of the 18 taxable years to which (by reason of clauses (i) and (ii)) such credit may be carried, and then to each of the other 17 taxable years to the extent that, because of the limitation contained in subparagraph (B), such unused credit may not be added for a prior taxable year to which such unused credit may be carried.

"(B) LIMITATION.-The amount of the unused credit which may be added under subparagraph (A) for any preceding or succeeding taxable year shall not exceed the amount by which the limitation provided by paragraph (1) for such taxable year exceeds

the sum of-

(i) the credit allowable under this section

for such taxable year, and

"(ii) the amounts which, by reason of this paragraph, are added to the amount allowable for such taxable year and which are attributable to taxable years preceding the unused credit year.'

(b) Technical Amendments Related to Carryover and Carryback of Credits.—

(1) CARRYOVER OF CREDIT.

(A) Subparagraph (A) of section 55(c)(4) (relating to carryover and carryback of certain credits) is amended by striking out "section 44E(e)(1)" and inserting in lieu thereof section 44F(g)(1), 44E(e)(1)

(B) Subsection (c) of section 381 (relating to items of the distributor or transferor corporation) is amended by adding at the end thereof the following new paragraph:

(28) CREDIT UNDER SECTION 44F .- The acquiring corporation shall take into account (to the extent proper to carry out the purposes of this section and section 44F, and under such regulations as may be prescribed by the Secretary) the items required to be taken into account for purposes of section 44F in respect of the distributor or transferor corporation.

(C) Section 383 (relating to special limitations on unused investment credits, work incentive program credits, new employee credits, alcohol fuel credits, foreign taxes, and capital losses), as in effect for taxable years

beginning after June 30, 1982, is amended—
(i) by inserting "to any unused credit of

the corporation under section 44F(g)(2)," after "44E(e)(2),", and
(ii) by inserting "RESEARCH CREDITS," after "ALCOHOL FUEL CREDITS," in the section head-

(D) Section 383 (as in effect on the day before the date of the enactment of the Tax Reform Act of 1976) is amended-

- (i) by inserting "to any unused credit of the corporation which could otherwise be carried forward under section 44F(g)(2),'
- after "44E(e)(2),", and

 (ii) by inserting "RESEARCH CREDITS," after ALCOHOL FUEL CREDITS," in the section head-
- (E) The table of sections for part V of subchapter C of chapter 1 is amended by inserting "alcohol fuel credits, research credits," after "new employee credits," in the item relating to section 383.

(2) CARRYBACK OF CREDIT .-

- Subparagraph (C) of section 6511(d)(4) (defining credit carryback) is amended by striking out "and new employee credit carryback" and inserting in lieu thereof "new employee credit carryback, and research credit carryback".
- (B) Section 6411 (relating to quick refunds in respect of tentative carryback adjustments) is amended-
- (i) by striking out "or unused new employee credit" each place it appears and inserting in lieu thereof "unused new employee credit, or unused research credit";
- (ii) by inserting "by a research credit carryback provided in section 44F(g)(2)," after '53(b)," in the first sentence of subsection
- (iii) by striking out "or a new employee credit carryback from" each place it appears and inserting in lieu thereof "a new employee credit carryback, or a research credit carryback from"; and
- (iv) by striking out "work incentive program carryback)" and inserting in lieu thereof "work incentive program carryback, or, in the case of a research credit carryback, to an investment credit carryback, a work incentive program carryback, or a new employee credit carryback)".
- (c) OTHER TECHNICAL AND CLERICAL AMEND-
- (1) Subsection (b) of section 6096 (relating to designation of income tax payments to Presidential Election Campaign Fund) is amended by striking out "and 44E" and inserting in lieu thereof "44E, and 44F"
- (2) The table of sections for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 44E the following new item:

"Sec. 44F. Credit for increasing research activities."

(d) EFFECTIVE DATE .-

(1) In general.-The amendments made by this section shall apply to amounts paid or incurred after June 30, 1981, and before January 1, 1986.

(2) TRANSITIONAL RULE.-

- (A) In general.-If, with respect to the first taxable year to which the amendments made by this section apply and which ends in 1981 or 1982, the taxpayer may only take into account qualified research expenses paid or incurred during a portion of such taxable year, the amount of the qualified research expenses taken into account for the base period of such taxable year shall be the amount which bears the same ratio to the total qualified research expenses for such base period as the number of months in such portion of such taxable year bears to the total number of months in such taxable year. A similar rule shall apply in the case of a taxpayer's first taxable year ending after December 31, 1985.
- (B) DEFINITIONS.—For purposes of the preceding sentence, the terms "qualified research expenses" and "base period" have the meanings given to such terms by section

44F of the Internal Revenue Code of 1954 (as added by this section).

SEC. 222. CHARITABLE CONTRIBUTIONS OF SCIEN-PROPERTY SEARCH.

(a) In General.—Subsection (e) of section 170 (relating to deductions for charitable, etc., contributions and gifts) is amended by adding at the end thereof the following new paragraph:

"(4) SPECIAL RULE FOR CONTRIBUTIONS OF SCIENTIFIC PROPERTY USED FOR RESEARCH.

"(A) LIMIT ON REDUCTION.—In the case of a qualified research contribution, the reduction under paragraph (1)(A) shall be no greater than the amount determined under paragraph (3)(B).

(B) QUALIFIED RESEARCH CONTRIBUTIONS .-For purposes of this paragraph, the term 'qualified research contribution' means a charitable contribution by a corporation of tangible personal property described in paragraph (1) of section 1221, but only if—

(i) the contribution is to an educational organization which is described in subsection (b)(1)(A)(ii) of this section and which is an institution of higher education (as defined in section 3304(f)),

'(ii) the property is constructed by the

"(iii) the contribution is made not later than 2 years after the date the construction of the property is substantially completed,

(iv) the original use of the property is by

the donee.

'(v) the property is scientific equipment or apparatus substantially all of the use of which by the donee is for research or experimentation (within the meaning of section 174), or for research training, in the United States in physical or biological sciences

'(vi) the property is not transferred by the donee in exchange for money, other

property, or services, and

"(vii) the taxpayer receives from the donee a written statement representing that its use and disposition of the property will be in accordance with the provisions of clauses (v) and (vi).

- "(C) CONSTRUCTION OF PROPERTY BY TAX-PAYER .- For purposes of this paragraph, property shall be treated as constructed by the taxpayer only if the cost of the parts used in the construction of such property (other than parts manufactured by the taxpayer or a related person) do not exceed 50 percent of the taxpayer's basis in such prop-
- "(D) Corporation.-For purposes of this paragraph, the term 'corporation' shall not include
- '(i) an electing small business corporation (as defined in section 1371(b)).

"(ii) a personal holding company (as defined in section 542), and

"(iii) a service organization (as defined in

section 414(m)(3))."

(b) Effective Date.-The amendment made by subsection (a) shall apply to charitable contributions made after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 223. SUSPENSION OF REGULATIONS RELATING TO ALLOCATION UNDER SECTION 861 OF RESEARCH AND EXPERIMENTAL

EXPENDITURES.

(a) 2-YEAR SUSPENSION.—In the case of the taxpayer's first 2 taxable years beginning within 2 years after the date of the enactment of this Act, all research and experi-mental expenditures (within the meaning of section 174 of the Internal Revenue Code of 1954) which are paid or incurred in such year for research activities conducted in the United States shall be allocated or apportioned to sources within the United States.

(b) STUDY .-

In general.-The Secretary of the Treasury shall conduct a study with respect to the impact which section 1.861-8 of the Internal Revenue Service Regulations would have (A) on research and experimental activities conducted in the United States and (B) on the availability of the foreign tax credit.

(2) REPORT.-Not later than the date 6 months after the date of the enactment of this Act, the Secretary of the Treasury shall submit to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate a report on the study conducted under paragraph (1) (together with such recommendations as he may deem advisable).

Subtitle D-Small Business Provisions SEC. 231. REDUCTION IN CORPORATE TAX RATES.

(a) In General.-Subsection (b) of section 11 (relating to amount of corporate tax) is amended-

(1) by striking out "17 percent" in paragraph (1) and inserting in lieu thereof "15 percent" (16 percent for taxable years be-

ginning in 1982)", and
(2) by striking out "20 percent" in paragraph (2) and inserting in lieu thereof "18 percent (19 percent for taxable years beginning in 1982)"

(b) CONFORMING AMENDMENTS.

(1) Paragraph (2) of section 821(a) (relating to imposition of tax on mutual insurance companies to which part II applies) is amended to read as follows:

(2) CAP ON TAX WHERE INCOME IS LESS THAN \$12,000.-The tax imposed by paragraph (1) on so much of the mutual insurance company taxable income as does not exceed \$12,000 shall not exceed 32 percent (30 percent for taxable years beginning after December 31, 1982) of the amount by which such income exceeds \$6,000.

(2) Subparagraph (B) of section 821(c)(1) (relating to imposition of alternative tax for certain small companies) is amended to read

as follows:

(B) CAP WHERE INCOME IS LESS THAN \$6,000.—The tax imposed by subparagraph (A) on so much of the taxable investment income as does not exceed \$6,000 shall not exceed 32 percent (30 percent for taxable years beginning after December 31, 1982) of the amount by which such income exceeds \$3.000."

(3) The amendments made by paragraphs (1) and (2) shall apply to taxable years beginning after December 31, 1978; except that for purposes of applying sections 821(a)(2) and 821(c)(1)(B) of the Internal Revenue Code of 1954 (as amended by this subsection) to taxable years beginning before January 1, 1982, the percentage referred to in such section shall be deemed to be 34 percent.

(c) EFFECTIVE DATE.-The amendments made by subsection (a) shall apply to taxable years beginning after December 31,

SEC. 232. INCREASE IN ACCUMULATED EARNINGS CREDIT.

(a) INCREASE IN CREDIT FOR CERTAIN COR-PORATIONS.—Paragraph (2) of section 535(c) (relating to accumulated earnings credit) is amended to read as follows:

"(2) MINIMUM CREDIT .-

"(A) In GENERAL.—The credit allowable under paragraph (1) shall in no case be less than the amount by which \$250,000 exceeds the accumulated earnings and profits of the corporation at the close of the preceding taxable year.

- (B) CERTAIN SERVICE CORPORATIONS.-In the case of a corporation the principal function of which is the performance of services in the field of health, law, engineering, architecture, accounting, actuarial science, performing arts, or consulting, subparagraph (A) shall be applied by substituting \$150,000' for '\$250,000'."
 - (b) CONFORMING AMENDMENTS.

(1) Paragraph (3) of section 535(c) is amended by striking out "\$150,000" and inserting in lieu thereof "\$250,000"

(2) Sections 243(b)(3)(C)(i) (relating to qualifying dividends for purposes of dividends received deduction) and 1551(a) (relating to disallowance of surtax exemption and accumulated earnings credit) are each amended by striking out "\$150,000"

(3) Section 1561(a)(2) (relating to limitations on certain multiple tax benefits in the case of certain controlled corporations) is amended by striking out "\$150,000" and inserting in lieu thereof "\$250,000 (\$150,000 if any component member is a corporation described in section 535(c)(2)(B))"

(c) Effective Date.-The amendments made by this section shall apply to taxable years beginning after December 31, 1981.

SEC. 233. SUBCHAPTER S SHAREHOLDERS.

(a) INCREASE IN NUMBER OF SHAREHOLD-ERS.-Section 1371(a) (defining small business corporation) is amended by striking out "15 shareholders" in paragraph (1) and inserting in lieu thereof "25 shareholders"

(b) Effective Date.-The amendment made by this section shall apply with respect to taxable years beginning after December 31, 1981.

SEC. 234. TREATMENT OF TRUSTS AS SUBCHAPTER S SHAREHOLDERS

(a) In General.—Subsection (e) of section 1371 (relating to certain trusts permitted as shareholders) is amended to read as follows:

"(e) CERTAIN TRUSTS PERMITTED AS SHARE-HOLDERS .-

"(1) In general.-For purposes of subsection (a), the following trusts may be shareholders:

"(A) A trust all of which is treated (under subpart E of part I of subchapter J of this chapter) as owned by an individual who is a citizen or resident of the United States.

"(B) A trust which was described in sub paragraph (A) immediately before the death of the deemed owner and which continues in existence after such death, but only for the 60-day period beginning on the day of the deemed owner's death. If a trust is described in the preceding sentence and if the entire corpus of the trust is includible in the gross estate of the deemed owner, the preceding sentence shall be applied by substituting '2-year period' for '60-day period'.

"(C) A trust with respect to stock transferred to it pursuant to the terms of a will, but only for the 60-day period beginning on the day on which such stock is transferred

"(D) A trust created primarily to exercise the voting power of stock transferred to it.

"(2) TREATMENT AS SHAREHOLDERS.-For purposes of subsection (a)-

"(A) In the case of a trust described in subparagraph (A) of paragraph (1), the deemed owner shall be treated as the share-

"(B) In the case of a trust described in subparagraph (B) of paragraph (1), the estate of the deemed owner shall be treated as the shareholder.

"(C) In the case of a trust described in subparagraph (C) of paragraph (1), the

estate of the testator shall be treated as the shareholder.

"(D) In the case of a trust described in subparagraph (D) of paragraph (1), each beneficiary of the trust shall be treated as a shareholder."

(b) QUALIFIED SUBCHAPTER S TRUSTS.—Section 1371 is amended by adding at the end thereof the following new subsection:

"(g) Special Rule for Qualified Subchapter S Trust.—

"(1) In general.—In the case of a qualified subchapter S trust with respect to which a beneficiary makes an election under paragraph (2)—

"(A) such trust shall be treated as a trust described in subsection (e)(1)(A), and

"(B) for purposes of section 678(a), the beneficiary of such trust shall be treated as the owner of that portion of the trust which consists of stock in an electing small business corporation with respect to which the election under paragraph (2) is made.

"(2) ELECTION.-

"(A) In general.—A beneficiary of a qualified subchapter S trust (or his legal representative) may elect to have this subsection apply.

"(B) MANNER AND TIME OF ELECTION.—An election under this paragraph shall be made—

"(i) separately with respect to each electing small business corporation the stock of which is held by the trust,

"(ii) separately with respect to each successive income beneficiary of the trust, and "(iii) in such manner and form, and at such time, as the Secretary may prescribe.

"(C) ELECTION IRREVOCABLE.—An election under this paragraph, once made, may be revoked only with the consent of the Secretary

"(D) Grace Period.—An election under this paragraph shall be effective up to 60 days before the date of the election.

"(3) QUALIFIED SUBCHAPTER S TRUST.—For purposes of this subsection, the term 'qualified subchapter S trust' means a trust—

"(A) which owns stock in 1 or more electing small business corporations,

"(B) all of the income of which is distributed currently to one individual who is a citizen or resident of the United States, and

"(C) the terms of which require that—
"(i) at any time, there shall be only one income beneficiary of the trust,

"(ii) any corpus distributed during the term of the trust may be distributed only to the current income beneficiary thereof,

"(iii) each income interest in the trust shall terminate on the earlier of the death of the income beneficiary or the termination of the trust, and

"(iv) upon the termination of the trust during the life of an income beneficiary, the trust shall distribute all of its assets to such income beneficiary.

"(4) TRUST CEASING TO BE QUALIFIED.—If a qualified subchapter S trust ceases to meet any requirement under paragraph (3), the provisions of this subsection shall not apply to such trust as of the date it ceases to meet such requirements."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1981.

SEC. 235. SIMPLIFICATION OF LIFO BY USE OF GOV-ERNMENT INDEXES TO BE PROVIDED BY REGULATIONS.

Section 472 is amended by adding at the end thereof the following new subsection:

"(f) Use of Government Price Indexes in Pricing Inventory.—The Secretary shall prescribe regulations permitting the use of suitable published governmental indexes in such manner and circumstances as determined by the Secretary for purposes of the method described in subsection (b)."

SEC. 236. 3-YEAR AVERAGING PERMITTED FOR IN-CREASES IN INVENTORY VALUE.

(a) GENERAL RULE.—Subsection (d) of section 472 is amended to read as follows:

"(d) 3-Year Averaging for Increases in Inventory Value.—The beginning inventory for the first taxable year for which the method described in subsection (b) is used shall be valued at cost. Any change in the inventory amount resulting from the application of the preceding sentence shall be taken into account ratably in each of the 3 taxable years beginning with the first taxable year for which the method described in subsection (b) is first used."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1981

SEC. 237. ELECTION BY SMALL BUSINESS TO USE ONE INVENTORY POOL WHEN LIFO IS ELECTED.

(a) In GENERAL.—Subpart D of part II of subchapter E of chapter 1 (relating to inventories) is amended by adding at the end thereof the following new section:

"SEC. 474. ELECTION BY CERTAIN SMALL BUSI-NESSES TO USE ONE INVENTORY POOL.

"(a) In General.—A taxpayer which is an eligible small business and which uses the dollar-value method of pricing inventories under the method provided by section 472(b) may elect to use one inventory pool for any trade or business of such taxpayer.

"(b) ELIGIBLE SMALL BUSINESS DEFINED.— For purposes of this section, a taxpayer is an eligible small business for any taxable year if the average annual gross receipts of the taxpayer do not exceed \$2,000,000 for the 3-taxable-year period ending with the taxable year.

"(c) Special Rules.—For purposes of this section—

"(1) CONTROLLED GROUPS .-

"(A) In general.—In the case of a taxpayer which is a member of a controlled group, all persons which are component members of such group at any time during the calendar year shall be treated as one taxpayer for such year for purposes of determining the gross receipts of the taxpayer.

"(B) CONTROLLED GROUP DEFINED.—For purposes of subparagraph (A), persons shall be treated as being members of a controlled group if such persons would be treated as a single employer under the regulations prescribed under section 52(b).

"(2) ELECTION.-

"(A) IN GENERAL.—The election under this section may be made without the consent of the Secretary and shall be made at such time and in such manner as the Secretary may by regulations prescribe.

"(B) PERIOD TO WHICH ELECTION APPLIES.— The election under this section shall apply— "(i) to the taxable year for which it is

made, and
"(ii) to all subsequent taxable years for
which the taxpayer is an eligible small busi-

unless the taxpayer secures the consent of the Secretary to the revocation of such elec-

"(3) Transitional rules.—In the case of a taxpayer who changes the number of inventory pools maintained by him in a taxable year by reason of an election (or cessation thereof) under this section—

"(A) the inventory pools combined or separated shall be combined or separated in the manner provided by regulations under section 472:

"(B) the aggregate dollar value of the taxpayer's inventory as of the beginning of the first taxable year—

"(i) for which an election under this sec-

tion is in effect, or

"(ii) after such election ceases to apply, shall be the same as the aggregate dollar value as of the close of the taxable year preceding the taxable year described in clause (1) or (ii) (as the case may be), and

"(C) the first taxable year for which an election under this section is in effect or after such election ceases to apply (as the case may be) shall be treated as a new base year in accordance with procedures provided by regulations under section 472."

(b) CLERICAL AMENDMENT.—The table of sections for such subpart D is amended by adding at the end thereof the following new item:

"Sec. 474. Election by certain small businesses to use one inventory pool."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1981.

SEC. 238. STUDY OF ACCOUNTING METHODS FOR IN-VENTORY.

(a) STUDY.—The Secretary of the Treasury shall conduct a full and complete study of methods of tax accounting for inventory with a view toward the development of simplified methods. Such study shall include (but shall not be limited to) an examination of the last-in first-out method and the cash receipts and disbursements method.

(b) Report.—Not later than December 31, 1982, the Secretary of the Treasury shall submit to the Committee on Ways and Means of the House of Representatives and to the Committee on Finance of the Senate a report on the study conducted under subsection (a), together with such recommendations as he deems appropriate.

Subtitle E—Savings and Loan Associations

SEC. 241. REORGANIZATIONS INVOLVING FINAN-CIALLY TROUBLED THRIFT INSTITU-TIONS.

AMENDMENT OF SECTION 368(a)(3)(D).—Section 368(a)(3)(D) (relating to agency receivership proceedings which involve financial institutions) is amended to read as follows:

"(D) Agency proceedings which involve financial institutions.—

"(i) For purpose of subparagraphs (A) and (B)—

"(I) In the case of a receivership, foreclosure, or similar proceeding before a Federal or State agency involving a financial institution to which section 585 applies, the agency shall be treated as a court, and

"(II) In the case of a financial institution to which section 593 applies, the term 'title 11 or similar case' means only a case in which the Board (which will be treated as the court in such case) makes the certification described in clause (ii).

"(ii) A transaction otherwise meeting the requirements of subparagraph (G) of paragraph (1), in which the transferor corporation is a financial institution to which section 593 applies, will not be disqualified as a reorganization if no stock or securities of the corporation to which the assets are transferred (transferee) are received or distributed, but only if all of the following contributed, but only if all of the following con-

ditions are met:
"(I) the requirements of subparagraphs
(A) and (B) of section 354(b)(1) are met with
respect to the acquisition of the assets,

"(II) substantially all of the liabilities of the transferor immediately before the transfer become, as a result of the transfer,

liabilities of the transferee, and

"(III) the Board certifies that the grounds set forth in section 1464(d)(6)(A) (i), (ii), or (iii) of title 12, United States Code, exist with respect to the transferor or will exist in the near future in the absence of action by the Board.

"(iii) For purposes of this subparagraph, the 'Board' means the Federal Home Loan Bank Board or the Federal Savings and Loan Insurance Corporation or, if neither has supervisory authority with respect to the transferor, the equivalent State authority."

SEC. 242. LIMITATIONS ON CARRYOVERS OF FINAN-CIAL INSTITUTIONS.

Section 382(b)(7) (relating to reduction of net operating loss carryovers in title 11 or similar cases), as added by section 2(d) of Public Law 96-589, is amended to read as follows:

"(7) SPECIAL RULE FOR REORGANIZATIONS IN TITLE 11 OR SIMILAR CASES.—FOR DUPPOSES OF

this subsection-

"(A) a creditor who receives stock in a reorganization in a title 11 or similar case (within the meaning of section 368(a)(3)(A)) shall be treated as a stockholder immediately before the reorganization and

"(B) in a transaction qualifying under sec-

tion 368(a)(3)(D)(ii)-

"(i) a depositor in the transferor shall be treated as a stockholder immediately before the reorganization of the loss corporation,

"(ii) deposits in the transferor which become, as a result of the transfer, deposits in the transferee shall be treated as stock of the acquiring corporation owned as a result of owning stock of the loss corporation, and

"(iii) the fair market value of the outstanding stock of the acquiring corporation shall include the amount of deposits in the acquiring corporation immediately after the reorganization.

SEC. 243. RESERVES FOR LOSSES ON LOANS.

Paragraph (1) of section 593(e) (relating to distributions to shareholders of a domestic building and loan association) is amended by striking out "applies." in the last sentence thereof and substituting therefor the following: "applies, or to any distribution to the Federal Savings and Loan Insurance Corporation in redemption of an interest in an association, if such interest was originally received by the Federal Savings and Loan Insurance Corporation in exchange for financial assistance pursuant to section 406(f) of the National Housing Act (12 U.S.C. sec. 1729(f))."

SEC. 244. FSLIC FINANCIAL ASSISTANCE.

(a) In GENERAL.—Part II of subchapter H of subtitle A of chapter 1 is amended by adding at the end thereof the following new section:

"SEC. 597. FSLIC FINANCIAL ASSISTANCE.

"(a) Exclusion From Gross Income.—Gross income of a domestic building and loan association does not include any amount of money or other property received from the Federal Savings and Loan Insurance Corporation pursuant to section 406(f) of the National Housing Act (12 U.S.C. sec. 1729(f)), regardless of whether any note or other instrument is issued in exchange therefor.

"(b) No REDUCTION IN BASIS OF ASSETS.— No reduction in the basis of assets of a domestic building and loan association shall be made on account of money or other proper-

ty received under the circumstances referred to in subsection (a)." (b) CLERICAL AMENDMENT.—The table of sections for part II of subchapter H of chapter 1 is amended by inserting after the item relating to section 596 the following:

"Sec. 597. FSLIC financial assistance."

SEC. 245. MUTUAL SAVINGS BANKS WITH CAPITAL STOCK.

(a) In General.—Section 591 (relating to dividends paid on deposits) is amended—

(1) by inserting "(a) In GENERAL.—" before "In", and

(2) by adding at the end thereof the following new subsection:

"(b) MUTUAL SAVINGS BANK TO INCLUDE CERTAIN BANKS WITH CAPITAL STOCK.—For purposes of this part, the term 'mutual savings bank' includes any bank—

"(1) which has capital stock represented

by shares, and

"(2) which is subject to, and operates under, Federal or State laws relating to mutual savings bank."

(b) PERCENTAGE OF TAXABLE INCOME METHOD.—

(1) Subparagraph (B) of section 593(b)(2) (relating to reduction of applicable percentage in certain cases) is amended by inserting "which is not described in section 591(b)" after "mutual savings bank" each place it appears.

(2) Subparagraph (C) of section 593(b)(2) is amended by inserting "which are not described in section 591(b)" after "mutual sav-

ings banks".

(c) CONFORMING AMENDMENTS.-

(1) Sections 593(a) (relating to reserves for losses on loans) is amended by striking out "not having capital stock represented by shares".

(2) Paragraph (1) of section 593(e) (relating to distributions to shareholders) is amended by inserting "or an institution that is treated as a mutual savings bank under section 591(b)" after "association" each place it appears.

SEC. 246. EFFECTIVE DATES.

(a) The amendment made by sections 241 and 242 shall apply to any transfer made on or after January 1, 1981.

(b) The amendment made by section 243 shall apply to any distribution made on or

after January 1, 1981.

(c) The amendment made by section 244 shall apply to any payment made on or after January 1, 1981.

(d) The amendment made by section 245 shall apply with respect to taxable years ending after the date of the enactment of this Act.

Subtitle F—Stock Options, etc. SEC, 251, STOCK OPTIONS.

(a) In GENERAL.—Part II of subchapter D of chapter 1 (relating to certain stock options) is amended by adding after section 422 the following new section:

"SEC. 422A. INCENTIVE STOCK OPTIONS.

"(a) In General.—Section 421(a) shall apply with respect to the transfer of a share of stock to an individual pursuant to his exercise of an incentive stock option if—

"(1) no disposition of such share is made by him within 2 years from the date of the granting of the option nor within 1 year after the transfer of such share to him, and

"(2) at all times during the period beginning on the date of the granting of the option and ending on the day 3 months before the date of such exercise, such individual was an employee of either the corporation granting such option, a parent or subsidiary corporation of such corporation, or a corporation or a parent or subsidiary corporation of such corporation of such corporation or assum-

ing a stock option in a transaction to which section 425(a) applies.

"(b) Incentive Stock Option.—For purposes of this part, the term 'incentive stock option' means an option granted to an individual for any reason connected with his employment by a corporation, if granted by the employer corporation or its parent or subsidiary corporation, to purchase stock of any of such corporations, but only if—

"(1) the option is granted pursuant to a plan which includes the aggregate number of shares which may be issued under options and the employees (or class of employees) eligible to receive options, and which is approved by the stockholders of the granting corporation within 12 months before or after the date such plan is adopted;

"(2) such option is granted within 10 years from the date such plan is adopted, or the date such plan is approved by the stockholders, whichever is earlier;

"(3) such option by its terms is not exercisable after the expiration of ten years from the date such option is granted;

"(4) the option price is not less than the fair market value of the stock at the time such option is granted;

"(5) such option by its terms is not transferable by such individual otherwise than by will or the laws of descent and distribution, and is exercisable, during his lifetime, only by him;

"(6) such individual, at the time the option is granted, does not own stock possessing more than 10 percent of the total combined voting power of all classes of stock of the employer corporation or of its parent or subsidiary corporation;

"(7) such option by its terms is not exercisable while there is outstanding (within the meaning of subsection (c)(7)) any incentive stock option which was granted, before the granting of such option, to such individual to purchase stock in his employer corporation or in a corporation which (at the time of the granting of such option) is a parent or subsidiary corporation of the employer corporation, or in a predecessor corporation of any of such corporations; and

"(8) in the case of an option granted after December 31, 1980, under the terms of the plan the aggregate fair market value (determined as of the time the option is granted) of the stock for which any employee may be granted options in any calendar year (under all such plans of his employer corporation and its parent and subsidiary corporation) shall not exceed \$100,000 plus any unused limit carryover to such year.

"(c) SPECIAL RULES .-

"(1) EXERCISE OF OPTION WHEN PRICE IS LESS THAN VALUE OF STOCK.—If a share of stock is transferred pursuant to the exercise by an individual of an option which would fail to qualify as an incentive stock option under subsection (b) because there was a failure in an attempt, made in good faith, to meet the requirement of subsection (b)(4), the requirement of subsection (b)(4) shall be considered to have been met.

"(2) Certain disqualifying dispositions where amount realized is less than value at exercise.—If—

"(A) an individual who has acquired a share of stock by the exercise of an incentive stock option makes a disposition of such share within the 2-year period described in subsection (a)(1), and

"(B) such disposition is a sale or exchange with respect to which a loss (if sustained) would be recognized to such individual.

then the amount which is includible in the gross income of such individual, and the which is deductible from amount income of his employer corporation, as compensation attributable to the exercise of such option shall not exceed the excess (if any) of the amount realized on such sale or exchange over the adjusted basis of such share.

'(3) CERTAIN TRANSFERS BY INSOLVENT INDI-VIDUALS.-If an insolvent individual holds a share of stock acquired pursuant to his exercise of an incentive stock option, and if such share is transferred to a trustee, receiver, or other similar fiduciary in any proceeding under title 11 or any other similar insolvency proceeding, neither such transfer, nor any other transfer of such share for the benefit of his creditors in such proceeding, shall constitute a disposition of such share for purposes of subsection (a)(1).

"(4) CARRYOVER OF UNUSED LIMIT."
(A) IN GENERAL.—If—

"(i) \$100,000 exceeds,

"(ii) the aggregate fair market value (determined as of the time the option is granted) of the stock for which an employee was granted options in any calendar year after 1980 (under all plans described in subsection (b) of his employer corporation and its parent and subsidiary corporations),

one-half of such excess shall be unused limit carry-over to each of the 3 succeeding calen-

dar years.

"(B) AMOUNT CARRIED TO EACH YEAR.-The amount of the unused limit carryover from any calendar year which may be taken into account in any succeeding calendar year shall be the amount of such carryover reduced by the amount of such carryover which was used in prior calendar years.

"(C) Special Rules .- For purposes of sub-

paragraph (B)-

"(i) the amount of options granted during any calendar year shall be treated as first using up the \$100,000 limitation of subsection (b)(8), and

"(ii) then shall be treated as using up unused limit carryovers to such year in the order of the calendar years in which the

carryovers arose.

(5) PERMISSIBLE PROVISIONS.—An option which meets the requirements of subsection (b) shall be treated as an incentive stock option even if

(A) the employee may pay for the stock with stock of the corporation granting the

option.

(B) the employee has a right to receive property at the time of exercise of the

"(C) the option is subject to any condition not inconsistent with the provisions of subsection (b).

Subparagraph (B) shall apply to a transfer of property (other than cash) only if section 83 applies to the property so transferred.

(6) COORDINATION WITH SECTIONS 422 AND 424.—Sections 422 and 424 shall not apply

to an incentive stock option.

For purpose '(7) OPTIONS OUTSTANDING. of subsection (b)(7), any incentive stock option shall be treated as outstanding until such option is exercised in full or expires by

reason of lapse of time.

"(8) 10-PERCENT SHAREHOLDER RULE.-Subsection (b)(6) shall not apply if at the time such option is granted the option price is at least 110 percent of the fair market value of the stock subject to the option and such option by its terms is not exercisable after the expiration of 5 years from the date such option is granted.

'(9) SPECIAL RULE WHEN DISABLED .- For purposes of subsection (a)(2), in the case of

an employee who is disabled (within the meaning of section 105(d)(4)), the 3-month period of subsection (a)(2) shall be 1 year.

TECHNICAL AND CONFORMING AMEND-

(1) Section 421 (relating to general rules

in the case of stock options) is amended—
(A) by inserting "422A(a)," after "422(a)," in subsections (a), (b), and (c)(1)(A), and
(B) by inserting "422A(a)(1)," after "sec-

tion 422(a)(1)," in subsection (b).

(2) Section 425(d) (relating to attribution of stock ownership) is amended by inserting '422A(b)(6)," after "422(b)(7),"

(3) Section 425(g) (relating to special rules) is amended by inserting "422A(a)(2),"

after "422(a)(2)."

(4) Section 425(h)(3)(B) (relating to definition of modification) is amended by inserting "422A(b)(5)," after "422(b)(6),

(5) Section 6039 (relating to information required in connection with certain options)

is amended-

(A) by inserting ", an incentive stock option," after "qualified stock option" in subsection (a)(1),

(B) by inserting "incentive stock option," after "qualified stock option," in subsection (b)(1), and

(C) by adding at the end of subsection (c) the following new paragraph:

'(4) The term 'incentive stock option', see

section 422A(b).

(6) The table of sections for part II of subchapter D of chapter 1 is amended by inserting after the item relating to section 422 the following new item:

'Sec. 422A. Incentive stock options."

(c) EFFECTIVE DATES AND TRANSITIONAL RULES

(1) OPTIONS TO WHICH SECTION APPLIES

(A) In GENERAL.—Except as provided in subparagraph (B), the amendments made by this section shall apply with respect to options granted on or after January 1, 1976, and exercised on or after January 1, 1981, or outstanding on such date.

(B) ELECTION AND DESIGNATION OF OP-TIONS.—In the case of an option granted before January 1, 1980, the amendments made by this section shall apply only if the corporation granting such option elects (in the manner and at the time prescribed by the Secretary of the Treasury or his delegate) to have the amendments made by this section apply to such option. The aggregate fair market value (determined at the time the option is granted) of the stock for which any employee was granted options (under all plans of his employer corporation and its parent and subsidiary corporations) to which the amendments made by this section apply by reason of this subparagraph shall not exceed \$50,000 per calendar year and shall not exceed \$200,000 in the aggregate.

(2) Changes in terms of options.-In the case of an option granted on or after January 1, 1976, and outstanding on the date of the enactment of this Act, paragraph (1) of section 425(h) of the Internal Revenue Code of 1954 shall not apply to any change in the terms of such option (or the terms of the plan under which granted, including shareholder approval) made within 1 year after such date of enactment to permit such option to qualify as a incentive stock option.

SEC. 252. PROPERTY TRANSFERRED TO EMPLOY-EES SUBJECT TO CERTAIN RESTRIC-TIONS.

(a) GENERAL RULE.—Subsection (c) of section 83 (relating to special rules) is amended by adding at the end thereof the following new paragraph:

"(3) SALES WHICH MAY GIVE RISE TO SUIT UNDER SECTION 16(b) OF THE SECURITIES AND EXCHANGE ACT OF 1934.—So long as the sale of property at a profit could subject a person to suit under section 16(b) of the Securities and Exhange Act of 1934, such person's rights in such property are

"(A) subject to a substantial risk of for-

feiture, and

"(B) not transferable."

(b) SPECIAL RULE FOR CERTAIN ACCOUNTING Rules.—For purposes of section 83 of the Internal Revenue Code of 1954, property is subject to substantial risk of forfeiture and is not transferable so long as such property is subject to a restriction on transfer to comply with the "Pooling-of-Interests Accounting" rules set forth in Accounting Series Release Numbered 130 ((10/5/72) 37 FR 20937; 17 CFR 211.130) and Accounting Series Release Numbered 135 ((1/18/73) 38 FR 1734; 17 CFR 211.135).

(c) EFFECTIVE DATE.—The amendment made by subsection (a) and the provisions of subsection (b) shall apply to taxable years

ending after December 31, 1981.

Subtitle G-Miscellaneous Provisions SEC. 261. ADJUSTMENTS TO NEW JOBS CREDIT.

(a) EXTENSION.—Paragraph (4) of section 51(c) (defining wages) is amended to read as follows:

"(4) TERMINATION.—The term 'wages' shall not include any amount paid or incurred to an individual who begins work for the employer after December 31, 1982."

(b) Individuals Qualifying as Members OF A TARGETED GROUP .-

(1) In general.—Paragraph (1) of section 51(d) (defining members of targeted groups) is amended by striking out "or" at the end of subparagraph (F), by striking out the period at the end of subparagraph (G) and inserting in lieu thereof a comma, and by adding at the end thereof the following new subparagraphs:

"(H) an eligible work incentive employee,

"(I) an involuntarily terminated CETA employee,"

(2) DEFINITIONS.-

(A) In general.—Subsection (d) of section 51 is amended by redesignating paragraphs (9), (10), (11), and (12) as paragraphs (11), (12), (13), and (14,) respectively, and by inserting after paragraph (8) the following new paragraph:

(9) ELIGIBLE WORK INCENTIVE EMPLOY-EES .- The term 'eligible work incentive employee' means an individual who has been certified by the designated local agency as-

"(A) being eligible for financial assistance under part A of title IV of the Social Security Act and as having continually received such financial assistance during the 90-day period which immendately precedes the date on which such individual is hired by the employer, or

(B) having been placed in employment under a work incentive program established under section 432(b)(1) of the Social Securi-

ty Act.

"(10) INVOLUNTARILY TERMINATED CETA EM-PLOYEE.—The term 'involuntarily terminated CETA employee' means an individual who is certified by the designated local agency as having been involuntarily terminated after December 31, 1980, from employment financed in whole or in part under a program under part D of title I! or title VI of the Comprehensive Employment and Training Act.'

(B) CONFORMING AMENDMENTS .-

(i) Subsection (a) of section 50B (relating to definitions and special rules) is amended by adding at the end thereof the following new paragraph:

"(5) TERMINATION .- The term 'work incentive program expenses; shall not include any amount paid or incurred in any taxable year beginning after December 31, 1981.'

(ii) subsection (c) of section 51 (defining wages) is amended by striking out paragraph (3) and redesignating paragraph (4)

as paragraph (3).

(iii) Paragraphs (3)(A)(ii), (4)(C), (7)(B) of section 51(d) are each amended by striking out "paragraph (9)" and inserting in lieu therof "paragraph (11)".

(3) REMOVAL OF AGE LIMITATION ON VIETNAM veterans .-- Paragraph (4) of section 51(d) (relating to Vietnam veterans) is amended-

(A) by inserting "and" at the end of subparagraph (B),

(B) by striking out ", and" at the end of subparagraph (C) and inserting in lieu thereof a period, and

(C) by striking out subparagraph (D).

(4) Youths participating in qualified co-OPERATIVE EDUCATION PROGRAMS MUST BE ECO-NOMICALLY DISADVANTAGED. Subparagraph (A) of section 51(d)(8) is amended by striking out "and" at the end of clause (ii), by striking out the period at the end of clause (iii) and inserting in lieu thereof ", and", and by adding at the end thereof the following new clause:

"(iv) being a member of an economically disadvantaged family (as determined under paragraph (11)."

(c) CERTIFICATIONS .-

(1) CERTIFICATIONS MUST BE MADE BEFORE EMPLOYEE BEGINS WORK, ETC.—Subsection (d) of section 51 is amended by adding at the end thereof the following new paragraph:

"(15) Special rules for certifications.

- "(A) In general.-An individual shall not be treated as a member of a targeted group unless, before the day on which such individual begins work for the employer, the employer-
- "(i) has received a certification from a designated local agency that such individual is a member of a targeted group, or
- "(ii) has requested in writing such certification from the designated local agency.

"(B) INCORRECT CERTIFICATIONS.—If-

"(i) an individual has been certified as a member of a targeted group, and

'(ii) such certification is incorrect because it was based on false information provided by such individual.

the certification shall be revoked and wages paid by the employer after the date on which notice of revocation is received by the employer shall not be treated as qualified wages.

(2) CERTIFICATION OF ECONOMICALLY DISAD-VANTAGED FAMILIES .- Paragraph (11) of section 51(d) (as redesignated by subsection (b)(2)(A)) is amended to read as follows:

"(11) MEMBERS OF ECONOMICALLY DISADVAN-TAGED FAMILIES.—An individual is a member of an economically disadvantaged family if the designated local agency determines that such individual was a member of a family which had an income during the 6 months immediately preceding the month in which such determination occurs, which, on an annual basis, would be 70 percent or less of the Bureau of Labor Statistics lower living standard. Any such determination shall be valid for the 45-day period beginning on the date such determination is made.

(d) ELIGIBILITY.—Section 51 is amended by adding at the end thereof the following new subsection:

"(i) CERTAIN INDIVIDUALS INELIGIBLE.—

"(1) RELATED INDIVIDUALS.—No wages shall be taken into account under subsection (a) with respect to an individual who—

"(A) bears any of the relationships described in paragraphs (1) through (8) of section 152(a) to the taxpayer, or, if the taxpayer is a corporation, to an individual who owns, directly or indirectly, more than 50 percent in value of the outstanding stock of the corporation (determined with the application of section 267(c)),

"(B) if the taxpayer is an estate or trust, is a grantor, beneficiary, or fiduciary of the estate or trust, or is an individual who bears any of the relationships described in paragraphs (1) through (8) of section 152(a) to a grantor, beneficiary, or fiduciary of the

estate or trust, or

"(C) is a dependent (described in section 152(a)(9)) of the taxpayer, or, if the taxpay er is a corporation, of an individual described in subparagraph (A), or, if the taxpayer is an estate or trust, of a grantor, beneficiary, or fiduciary of the estate or trust.

"(2) NONQUALIFYING REHIRES.—No wages shall be taken into account under subsection (a) with respect to any individual if, prior to the hiring date of such individual, such individual had been employed by the employer at any time during which he was not a member of a targeted group.'

(e) REPEAL OF PROVISION LIMITING FIRST-YEAR WAGES TO 30 PERCENT OF FUTA

WAGES.

(1) Subsection (e) of section 51 is hereby repealed

(2) Subsection (f) of section 51 is amended-

(A) by striking out paragraph (3), and

(B) by striking out "any year" in paragraphs (1) and (2) and inserting in lieu thereof "any taxable year"

(f) ADMINISTRATION, AUTHORIZATION OF AP-PROPRIATIONS.

(1) ADMINISTRATION .-

(a) DESIGNATED LOCAL AGENCY.-Paragraph (14) of section 51(d) (as redesignated by subsection (b)(2)(A) is amended to read as follows

(14) DESIGNATED LOCAL AGENCY.—The term 'designated local agency' means a State employment security agency established in accordance with the Act of June 6, 1933, as amended (29 U.S.C. 49-49n)."

(B) Notification.—Subsection (g) of section 51 (relating to notification of employers) is amended by striking out "Secretary of Labor" each place it appears in the heading and text and inserting in lieu thereof "United States Employment Service"

(2) AUTHORIZATION OF APPROPRIATIONS. There is authorized to be appropriated for fiscal year 1982 the sum of \$30,000,000 to carry out the functions described by the amendments made by paragraph (1), except that, of the amounts appropriated pursuant to this paragraph-

(A) \$5,000,000 shall be used to test whether individuals certified as members of targeted groups under section 51 of such Code are eligible for such certification (including the use of statistical sampling techniques). and

(B) the remainder shall be distributed under performance standards prescribed by the Secretary of Labor.

(g) EFFECTIVE DATES.

(1) AMENDMENTS RELATING TO MEMBERS OF TARGETED GROUPS .-

(A) In general.—Except as provided in subparagraphs (B), (C), and (D), the amendments made by subsections (b), (c)(2), and (d) shall apply to wages paid or incurred with respect to individuals first beginning

work for an employer after the date of the enactment of this Act in taxable years ending after such date.

- (B) ELICIBLE WORK INCENTIVE EMPLOYEES. The amendments made by subsection (b)(2)(A) to the extent relating to the designation of eligible work incentive employees (within the meaning of section 51(d)(9) of the Internal Revenue Code of 1954) as members of a targeted group and subsection (b)(2)(B)(ii) shall apply to taxable years beginning after December 31, 1981. In the case of an eligible work incentive employee, subsections (a) and (b) of section 51 of such Code shall be applied for taxable years beginning after December 31, 1981, as if such employees had been members of a targeted group for taxable years beginning before January 1, 1982.
- (C) COOPERATIVE EDUCATION PROGRAM PAR-TICIPANTS.-The amendments made by subsection (b)(4) shall apply to wages paid or incurred after December 31, 1981, in taxable years ending after such date.
- DESIGNATED LOCAL AGENCY.-The amendments made by subsection (f)(1) shall take effect on the date 60 days after the date of the enactment of this Act.
- (2) CERTIFICATIONS.-
- (A) In general.—The amendment made by subsection (c)(1) shall apply to all individuals whether such individuals began work for their employer before, on, or after the date of the enactment of this Act.
- (B) SPECIAL RULE FOR INDIVIDUALS WHO BEGAN WORK FOR THE EMPLOYER BEFORE 45TH DAY BEFORE DATE OF ENACTMENT.-In the case of any individual (other than an individual described in section 51(d)(8) of the Internal Revenue Code of 1954) who began work for the employer before the date 45 days before the date of the enactment of this Act, paragraph (15) of section 51(d) of the Internal Revenue Code of 1954 (as added by subsection (c)(1)) shall be applied by substituting "July 23, 1981," for the day on which such individual begins work for the employer.
- (C) INDIVIDUALS WHO BEGIN WORK FOR EM-PLOYER WITHIN 45 DAYS BEFORE OR AFTER DATE OF ENACTMENT.-In the case of any individual (other than an individual described in section 51(d)(8) of the Internal Revenue Code of 1954) who begins work for the employer during the 90-day period beginning with the date 45 days before the date of the enactment of this Act, and in the case of an individual described in section 51(d)(8) of such Code who begins work before the end of such 90-day period, paragraph (15) of section 51(d) of such Code (as added by subsection (c)(1)) shall be applied by substituting the last day of the 90-day period beginning with the date 45 days before the date of the enactment of this Act" for the day on which such individual begins work for the employ-
- (3) LIMITATION ON QUALIFIED FIRST-YEAR WAGES .- The amendment made by subsection (e) shall apply to taxable years beginning after December 31, 1981.
- SEC. 262. SECTION 189 MADE INAPPLICABLE TO LOW-INCOME HOUSING.
- (a) In GENERAL.—The table contained in subsection (b) of section 189 (relating to amortization of real property construction period, interest, and taxes) is amended by striking out the column relating to "Lowincome housing"
- (b) CONFORMING AMENDMENT.—Subsection (d) of section 189 (relating to certain residential property excluded) is amended to

"(d) CERTAIN PROPERTY EXCLUDED .- This section shall not apply to any

(1) low-income housing, or

"(2) real property acquired, constructed, or carried if such property is not, and cannot reasonably expected to be, held in a trade or business, or in an activity conducted for profit."

(c) Effective Date.-The amendments made by this section shall apply to taxable years beginning after December 31, 1981.

SEC. 263. INCREASE IN DEDUCTION ALLOWABLE TO A CORPORATION IN ANY TAXABLE YEAR FOR CHARITABLE CONTRIBU-TIONS.

(a) In General.—Paragraph (2) of section 170(b) (relating to percentage limitations) is amended by striking out "5 percent" and inserting in lieu thereof "10 percent".

(b) Effective Date.—The amendment

made by this section shall apply to taxable years beginning after December 31, 1981.

SEC. 264. AMORTIZATION OF LOW-INCOME HOUS-

(a) In General.—Paragraph (2) of section 167(k) (relating to rehabilitation of lowincome rental housing) is amended by strik-ing out "The" in subparagraph (A) and inserting in lieu thereof "Except as provided in subparagraph (B), the", by redesignating subparagraph (B) as subparagraph (C) and by inserting after subparagraph (A) the following:

"(B) The aggregate amount of rehabilitation expenditures paid or incurred by the taxpayer with respect to any dwelling unit in any low-income rental housing which may be taken into account under paragraph (1) may exceed \$20,000, but shall not exceed \$40,000, if the rehabilitation is conducted pursuant to a program certified by the Secretary of Housing and Urban Development. or his delegate, or by the government of a State or political subdivision of the United States and if:

"(i) the certification of development costs

is required:

"(ii) the tenants occupy units in the property as their principal residence and the program provides for sale of the units to tenants demonstrating home ownership re-

sponsibility; and

'(iii) the leasing and sale of such units are pursuant to a program in which the sum of the taxable income, if any, from leasing of each such unit, for the entire period of such leasing, and the amount realized from sale or other disposition of a unit, if sold, normally does not exceed the excess of the taxpayer's cost basis for such unit of property, before adjustment under section 1016 for deductions under section 167, over the net tax benefits realized by the taxpayer, consisting of the tax benefits from such deductions under section 167 minus the tax incurred on such taxable income from leasing, if any.

EFFECTIVE DATE.—The amendments (h) made by this section shall apply with respect to rehabilitation expenditures incurred after December 31, 1980.

SEC. 265. DEDUCTIBILITY OF GIFTS BY EMPLOYERS TO EMPLOYEES.

(a) In General.—Subparagraph (C) of section 274(b)(1) (relating to limitation on deductibility of gifts) is amended to read as follows:

(C) an item of tangible personal property which is awarded to an employee by reason of length of service, productivity, or safety achievement, but only to the extent that

'(i) the cost of such item to the taxpayer

does not exceed \$400, or

"(ii) such item is a qualified plan award.".

(b) QUALIFIED PLAN AWARD DEFINED .- Subsection (b) of section 274 is amended by adding at the end thereof the following new paragraph:

"(3) QUALIFIED PLAN AWARD.—For purposes

of this subsection-

"(A) In general.—The term 'qualified plan award' means an item which is awarded as part of a permanent, written plan or program of the taxpayer which does not discriminate in favor of officers, shareholders, or highly compensated employees as to eligibility or benefits

(B) AVERAGE AMOUNT OF AWARDS.—An item shall not be treated as a qualified plan award for any taxable year if the average cost of all items awarded under all plans described in subparagraph (A) of the taxpayer during the taxable year exceeds \$400.

"(C) MAXIMUM AMOUNT PER ITEM.—An item shall not be treated as a qualified plan award under this paragraph to the extent that the cost of such item exceeds \$1,600.".

EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending on or after the date of the enactment of this Act.

SEC. 266. DEDUCTION FOR MOTOR CARRIER OPER-ATING AUTHORITY

(a) GENERAL RULE.-For purposes of chapter 1 of the Internal Revenue Code of 1954, in computing the taxable income of a taxpayer who, on July 1, 1980, held one or more motor carrier operating authorities, an amount equal to the aggregate adjusted basis of all motor carrier operating authorities held by the taxpayer on July 1, 1980, or acquired subsequent thereto pursuant to a binding contract in effect on July 1, 1980, shall be allowed as a deduction ratably over period of 60 months. Such 60-month period shall begin with the month of July 1980 (or if later, the month in which acquired), or at the election of the taxpayer, the first month of the taxpayer's first taxable year beginning after July 1, 1980.
(b) Definition of Motor Carrier Operat-

ING AUTHORITY.—For purposes of this section, the term "motor carrier operating authority" means a certificate or permit held by a motor common or contract carrier of property and issued pursuant to subchapter II of chapter 109 of title 49 of the United

States Code

(c) SPECIAL RULES .-

(1) ADJUSTED BASIS .- For purposes of the Internal Revenue Code of 1954, proper adjustments shall be made in the adjusted basis of any motor carrier operating authority held by the taxpayer on July 1, 1980, for the amounts allowable as a deduction under this section.

(2) CERTAIN STOCK ACQUISITIONS.

(A) In general.—Under regulations prescribed by the Secretary of the Treasury or his delegate, and at the election of the holder of the authority, in any case in which a corporation

(i) on or before July 1, 1980 (or after such date pursuant to a binding contract in effect on such date), acquired stock in a corpora-tion which held, directly or indirectly, any motor carrier operating authority at the

time of such acquisition, and

(ii) would have been able to allocate to the basis of such authority that portion of the acquiring corporation's cost basis in such stock attributable to such authority if the acquiring corporation had received such authority in the liquidation of the acquired corporation immediately following such acquisition and such allocation would have been proper under section 334(b)(2) of such Code

the holder of the authority may, for purposes of this section, allocate a portion of the basis of the acquiring corporation in the stock of the acquired corporation to the basis of such authority in such manner as the Secretary may prescribe in such regulations

(b) ADJUSTMENT TO BASIS.-Under regulations prescribed by the Secretary of the Treasury or his delegate, proper adjustment shall be made to the basis of the stock or other assets in the manner provided by such regulations to take into account any allocation under subparagraph (A).

(d) Effective Date.-The provisions of this section shall apply to taxable years

ending after June 30, 1980.

SEC. 267. LIMITATION ON ADDITIONS TO BANK LOSS RESERVES.

(a) GENERAL RULE.

(1) The first sentence after subparagraph (B) of paragraph (2) of section 585(b) is amended by striking out "but before 1982; and 0.6 percent for taxable years beginning after 1981" and inserting in lieu thereof "but before 1982; 1.0 percent for taxable years beginning in 1982; and 0.6 percent for taxable years beginning after 1982."

(2) The last sentence of paragraph (2) of section 585(b) is amended by striking out but before 1982, the last taxable year beginning before 1982, and for taxable years beginning after 1981, the last taxable year beginning before 1982" and inserting in lieu thereof "but before 1983, the last taxable year beginning before 1976, and for taxable years beginning after 1982, the last taxable year beginning before 1983"

EFFECTIVE DATE.-The amendment made by subsection (a) shall apply to taxable years beginning after 1981.

TITLE III—SAVINGS PROVISIONS

Subtitle A-Interest Exclusion

SEC. 301. EXCLUSION OF INTEREST ON CERTAIN SAVINGS CERTIFICATES.

(a) GENERAL RULE.—Part III of subchapter B of chapter 1 (relating to items specifically excluded from gross income) is amended by redesignating section 128 as section 129 and by inserting after section 127 the following new section:

"SEC. 128. INTEREST ON CERTAIN SAVINGS CERTIF-ICATES.

"(a) IN GENERAL -Gross income does not include any amount received by any individual during the taxable year as interest on a depository institution tax-exempt savings certificate.

"(b) MAXIMUM DOLLAR AMOUNT.-

"(1) In GENERAL.—The aggregate amount excludable under subsection (a) for any taxable year shall not exceed the excess of-

"(A) \$1,000 (\$2,000 in the case of a joint return under section 6013), over

"(B) the aggregate amount received by the taxpayer which was excludable under

subsection (a) for any prior taxable year.

"(2) Special Rule.—For purposes of paragraph (1)(B), one-half of the amount ex-cluded under subsection (a) on any joint return shall be treated as received by each spouse

"(c) DEPOSITORY INSTITUTION TAX-EXEMPT SAVINGS CERTIFICATE.—For purposes of this section-

'(1) In general.-The term 'depository institution tax-exempt savings certificate' means any certificate-

"(A) which is issued by a qualified savings institution after September 30, 1981, and before January 1, 1983,

(B) which has a maturity of 1 year,

"(C) which has an investment yield equal to 70 percent of the average investment yield for the most recent auction (before the week in which the certificate is issued) of United States Treasury bills with maturities of 52 weeks, and

"(D) which is made available in denomina-

tions of \$500.

"(2) QUALIFIED INSTITUTION.—The term 'qualified institution' means

'(A)(i) a bank (as defined in section 581), "(ii) a mutual savings bank, cooperative bank, domestic building and loan association, or other savings institution chartered and supervised as a savings and loan or similar institution under Federal or State law,

"(iii) a credit union,

the deposits or accounts of which are insured under Federal or State law or are protected or guaranteed under State law, or

"(B) an industrial loan association or bank chartered and supervised under Federal or State law in a manner similar to a savings and loan institution.

The term "qualified institution" does not include any foreign branch or international banking facility of an institution described in the preceding sentence and such a branch or facility shall not be taken into account under subsection (d).
"(d) Institutions Required to Provide

RESIDENTIAL PROPERTY FINANCING.

"(1) In general.-If a qualified savings institution (other than an institution described in subsection (c)(2)(A)(iii)) issues any depository institution tax-exempt savings certificate during any calendar quarter, the amount of the qualified residential financing provided by such institution shall during the succeeding calendar quarter not be less than the lesser of-

(A) 75 percent of the face amount of depository institution tax-exempt savings certificates issued during the calendar quarter,

or "(B) 75 percent of the qualified net savings for the calendar quarter.

The aggregate amount of qualified taxexempt savings certificates issued by any institution described in subsection (c)(2)(A)(iii) which are outstanding at the close of any calendar quarter may not exceed the limitation determined under paragraph (4) with respect to such institution for such quarter.

"(2) PENALTY FOR FAILURE TO MEET REQUIRE-MENTS.-If, as of the close of any calendar quarter, a qualified institution has not met the requirements of paragraph (1) with respect to the preceding calendar quarter, such institution may not issue any certificates until it meets such requirements.

"(3) QUALIFIED RESIDENTIAL FINANCING. The term 'qualified residential financing' in-

cludes, and is limited to—
"(A) any loan secured by a lien on a single-family or multifamily residence,

"(B) any secured or unsecured qualified home improvement loan (within the meaning of section 103A(1)(6) without regard to the \$15,000 limit),

"(C) any mortgage (within the meaning of section 103A(1)(1)) on a single family or multifamily residence which is insured or guaranteed by the Federal, State, or local government or any instrumentality thereof,

"(D) any loan to acquire a mobile home, any construction loan for the construction or rehabilitation of a single-family

or multifamily residence,

"(F) the purchase of mortgages secured by single-family or multifamily residences on the secondary market but only to the extent

the amount of such purchases exceed the amount of sales of such mortgages by an institution

"(G) the purchase of securities issued or guaranteed by the Federal National Mortgage Association, the Government National Mortgage Association, or the Federal Home Loan Mortgage Corporation, or securities issued by any other person if such securities are secured by mortgages originated by a qualified institution, but only to the extent the amount of such purchases exceed the amount of sales of such securities by an institution, and

'(H) any loan for agricultural purposes. For purposes of this paragraph, the term single-family residence' includes 2-, 3-, and 4-family residences, and the term 'residence' includes stock in a cooperative housing corporation (as defined in section 216(b)).

'(4) LIMITATION FOR CREDIT UNIONS.-For purposes of paragraph (1), the limitation determined under this paragraph with respect to any institution described in subsection (c)(2)(A)(iii) for any calendar quarter is the sum of-

"(A) the aggregate of the amounts described in subparagraph (A) of paragraph (5) with respect to such institution as of September 30, 1981, plus

'(B) 10 percent of the excess of-

"(i) the aggregate of such amounts as of the close of such calendar quarter, over

"(ii) the amount referred to in subparagraph (A).

(5) QUALIFIED NET SAVINGS.-The term 'qualified net savings' means, with respect to any qualified institution, the excess of-

"(A) the amounts paid into passbook savings account, 6-month money market certifi-30-month small-saver certificates, time deposits with a face amount of less than \$100,000, and depository institution tax-exempt savings certificates issued by such institution, over

"(B) the amounts withdrawn or redeemed in connection with the accounts and certificates described in subparagraph (A).

"(6) CONSOLIDATED GROUPS.-For purposes of this subsection, all members of the same affiliated group (as defined in section 1504) which file a consolidated return for the taxable year shall be treated as 1 corporation.

"(e) PENALTY FOR EARLY WITHDRAWALS.

"(1) In GENERAL.—If any portion of a depository institution tax-exempt savings certificate is redeemed before the date on which it matures-

'(A) subsection (a) shall not apply to any interest on such certificate for the taxable year of redemption and any subsequent taxable year, and

"(B) there shall be included in gross income for the taxable year of redemption the amount of any interest on such certificate excluded under subsection (a) for any preceding taxable year.

"(2) CERTIFICATE PLEDGED AS COLLATERAL. For purposes of paragraph (1), if the taxpayer uses any depository institution taxexempt savings certificate (or portion thereof) as collateral or security for a loan, the taxpayer shall be treated as having redeemed such certificate.

(f) OTHER SPECIAL RULES .-

"(1) COORDINATION WITH SECTION 116 .-Section 116 shall not apply to the interest on any depository institution tax-exempt savings certificate.

"(2) ESTATES AND TRUSTS.
"(A) IN GENERAL.—Except as provided in subparagraph (B), the exclusion provided by this section shall not apply to estates and

"(B) CERTIFICATES ACQUIRED BY ESTATE FROM DECEDENT.-In the case of a depository institution tax-exempt savings certificate acquired by an estate by reason of the death of the decedent-

"(i) subparagraph (A) shall not apply, and "(ii) subsection (b) shall be applied as if

the estate were the decedent.' (b) CONFORMING AMENDMENTS.

(1) The table of sections for part III of subchapter B of chapter 1 is amended by striking out the item relating to section 128 and inserting in lieu thereof the following new items

"Sec. 128. Interest on certain savings certificates.

'Sec. 129. Cross references to other Acts."

(2) Section 265 (relating to expenses and interest relating to tax-exempt income) is amended by inserting ", or to purchase or carry any certificate to the extent the interest on such certificate is excludable under section 128" after "116".

(3) Paragraph (2) of section 584(c) (relating to income of participants in common trust funds), as in effect for taxable years beginning in 1981, is amended by inserting "or 128" after "116".

(4) Paragraph (7) of section 643(a) (defining distributable net income), as in effect for taxable years beginning in 1981, is amended by inserting "or section 128 (relating to interest on certain savings certificates)" after "received)".

(5) Section 702(a)(5) (relating to income and credits of partners), as in effect for taxable years beginning in 1981, is amended by

inserting "or 128" after "116".

(6) Each of the following provisions, as in effect for taxable years beginning after December 31, 1981, are amended by inserting "or interest" after "dividends" each place it appears in the caption or text:

(A) section 584(c)(2).

(B) section 643(a)(7), (C) section 702(a)(5).

(c) STUDY.—The Secretary of the Treasury or his delegate shall conduct a study of the exemption from income of interest earned on depository institution tax-exempt savings certificates established by this section to determine the exemption's effectiveness generating additional savings. Such report shall be submitted to the Congress before June 1, 1983.

(d) EFFECTIVE DATES .-

(1) In general.-Except as provided in paragraph (2), the amendments made by this section shall apply to taxable years ending after September 30, 1981.

CONFORMING AMENDMENTS .amendments made by subsection (b)(6) shall apply to taxable years beginning after December 31, 1981.

SEC. 302. PARTIAL EXCLUSION OF INTEREST

(a) Amount of Exclusion.—Section 128 (relating to the interest on certain savings certificates) is amended to read as follows: "SEC. 128. PARTIAL EXCLUSION OF INTEREST.

"(a) In General.-Gross income does not include the amounts received during the taxable year by an individual as interest.

"(b) MAXIMUM DOLLAR AMOUNT.-The aggregate amount excludable under subsection (a) for any taxable year shall not exceed 15 percent of the lesser of—

"(1) \$3,000 (\$6,000 in the case of a joint

return under section 6013), or

"(2) the excess of the amount of interest received by the taxpayer during such taxable year (less the amount of any deduction under section 62(12)) over the amount of qualified interest expenses of such taxpayer for the taxable year.

"(c) Definitions.—For purposes of this section-

"(1) INTEREST DEFINED.—The term 'interest' means

"(A) interest on deposits with a bank (as

defined in section 581).

'(B) amounts (whether or not designated as interest) paid, in respect of deposits, investment certificates, or withdrawable or repurchasable shares, by-

"(i) an institution which is—
"(I) a mutual savings bank, cooperative bank, domestic building and loan association, or credit union, or

'(II) any other savings or thrift institution which is chartered and supervised under Federal or State law.

the deposits or accounts in which are insured under Federal or State law or which are protected and guaranteed under State

'(ii) an industrial loan association or bank chartered and supervised under Federal or State law in a manner similar to a savings and loan institution.

'(C) interest on-

"(i) evidences of indebtedness (including bonds, debentures, notes, and certificates) issued by a domestic corporation in registered form, and

'(ii) to the extent provided in regulations prescribed by the Secretary, other evidences of indebtedness issued by a domestic corporation of a type offered by corporations to the public.

(D) interest on obligations of the United States, a State, or a political subdivision of a State (not excluded from gross income of the taxpayer under any other provision of

"(E) interest attributable to participation shares in a trust established and maintained by a corporation established pursuant to Federal law, and

"(F) interest paid by an insurance company under an agreement to pay interest on-

(i) prepaid premiums,

"(ii) life insurance policy proceeds which are left on deposit with such company by a

beneficiary, and "(iii) under regulations prescribed by the Secretary, policyholder dividends left on de-

posit with such company.

"(2) QUALIFIED INTEREST EXPENSE DE-FINED.-The term 'qualified interest expense' means an amount equal to the excess of-

"(A) the amount of the deduction allowed the taxpayer under section 163(a) (relating to interest) for the taxable year, over

"(B) the amount of such deduction allowed with respect to interest paid or accrued on indebtedness incurred in-

"(i) acquiring, constructing, reconstructing, or rehabilitating property which is primarily used by the taxpayer as a dwelling unit (as defined in section 280A(f)(1)), or

"(ii) the taxpayer's conduct of a trade or business.

(b) REPEAL OF PARTIAL EXCLUSION OF IN-

(1) In general.—Subsection (c) of section 404 of the Crude Oil Windfall Profit Tax Act of 1980 is amended by striking out "1983" and inserting in lieu thereof "1982".

CONFORMING AMENDMENT.—Section 116(a) (relating to partial exclusion of dividends) is amended to read as follows:

"(a) Exclusion From Gross Income. '(1) In general.-Gross income does not include amounts received by an individual

as dividends from domestic corporations.

"(2) MAXIMUM DOLLAR AMOUNT.-The aggregate amount excluded under subsection (a) for any taxable year shall not exceed \$100 (\$200 in the case of a joint return under section 6013).

(c) CONFORMING AMENDMENTS.—
(1) The table of sections for part III of subchapter B of chapter 1, as amended by section 301(b)(1), is amended by striking out the item relating to section 128 and inserting in lieu thereof the following new item:

"Sec. 128. Partial exclusion of interest."

(2) Section 265 (relating to expenses and interest relating to tax-exempt income), as amended by section 301(b)(2), is amended by striking out "or to purchase or carry any certificate to the extent the interest on such certificate is excludable under section 128" and inserting in lieu thereof "or to purchase or carry obligations or shares, or to make other deposits or investments, the interest on which is described in section 128(c)(1) to the extent such interest is excludable from gross income under section 128"

(3) Section 46(c)(8) (relating to limitation to amount at risk) is amended by striking out "clause (i), (ii), or (iii) of subparagraph subparagraph (B) of section or 128(c)(2)" and inserting in lieu thereof "subparagraph (A) or (B) of section 128(c)(1)'

(4) Subsection (b) of section 854 is amended to read as follows:

"(b) OTHER DIVIDENDS AND TAXABLE INTER-

"(1) DEDUCTION UNDER SECTION 243.-In the case of a dividend received from a regulated investment company (other than a dividend to which subsection (a) applies)-

'(A) if such investment company meets the requirements of section 852(a) for the taxable year during which it paid such divi-

"(B) the aggregate dividends received by such company during such taxable year are

less than 75 percent of its gross income. then, in computing the deduction under section 243, there shall be taken into account only that portion of the dividend which bears the same ratio to the amount of such dividend as the aggregate dividends received by such company during such taxable year bear to its gross income for such taxable

"(2) EXCLUSION UNDER SECTIONS 116 AND 128.—For purposes of sections 116 and 128, in the case of any dividend (other than a dividend described in subsection (a)) re-ceived from a regulated investment company which meets the requirements of section 852 for the taxable year in which it paid the

'(A) the entire amount of such dividend shall be treated as a dividend if the aggregate dividends received by such company during the taxable year equal or exceed 75 percent of its gross income,

"(B) the entire amount of such dividend shall be treated as interest if the aggregate interest received by such company during the taxable year equals or exceeds 75 per-

cent of its gross income, or

"(C) if subparagraphs (A) and (B) do not apply, a portion of such dividend shall be treated as a dividend (and a portion of such dividend shall be treated as interest) based on the portion of the company's gross income which consists of aggregate divi-dends or aggregate interest, as the case may be. For purposes of the preceding sentence, gross income and aggregate interest received shall each be reduced by so much of the deduction allowable by section 163 for the taxable year as does not exceed aggregate interest received for the taxable year.

"(3) NOTICE TO SHAREHOLDERS.—The amount of any distribution by a regulated investment company which may be taken into account as a dividend for purposes of the exclusion under section 116 and the deduction under section 243 or as interest for purposes of section 128 shall not exceed the amount so designated by the company in a written notice to its shareholders mailed not later than 45 days after the close of its taxable year.
"(4) DEFINITIONS.—For purposes of this sub-

section-

"(A) The term 'gross income' does not include gain from the sale or other disposition of stock or securities.

"(B) The term 'aggregate dividends received' includes only dividends received from domestic corporations other than dividends described in section 116(b)(2) (relating to dividends excluded from gross income). In determining the amount of any dividend for purposes of this subparagraph, the rules provided in section 116(c)(2) (relating to certain distributions) shall apply.

The term 'aggregate interest received' includes only interest described in

section 128(c)(1).'

(5) Subsection (c) of section 857 is amended to read as follows:

"(c) LIMITATIONS APPLICABLE TO DIVIDENDS RECEIVED FROM REAL ESTATE INVESTMENT TRUSTS.

"(1) In general.—For purposes of section 116 (relating to an exclusion for dividends received by individuals) and section 243 (relating to deductions for dividends received by corporations), a dividend received from a real estate investment trust which meets the requirements of this part shall not be considered as a dividend.

"(2) TREATMENT FOR SECTION 128.—In the case of a dividend (other than a capital gain dividend, as defined in subsection (b)(3)(C)) received from a real estate investment trust which meets the requirements of this part for the taxable year in which it paid the div-

"(A) such dividend shall be treated as interest if the aggregate interest received by the real estate investment trust for the taxable year equals or exceeds 75 percent of its gross income, or

'(B) if subparagraph (A) does not apply, the portion of such dividend which bears the same ratio to the amount of such dividend as the aggregate interest received bears to gross income shall be treated as in-

"(3) ADJUSTMENTS TO GROSS INCOME AND AG-GREGATE INTEREST RECEIVED .- For purposes of paragraph (2)-

"(A) gross income does not include the net capital gain.

"(B) gross income and aggregate interest received shall each be reduced by so much of the deduction allowable by section 163 for the taxable year (other than for interest on mortgages on real property owned by the real estate investment trust) as does not exceed aggregate interest received by the taxable year, and

'(C) gross income shall be reduced by the sum of the taxes imposed by paragraphs (4),

(5), and (6) of section 857(b).

"(4) AGGREGATE INTEREST RECEIVED .- For purposes of this subsection, the term 'aggregate interest received' means only interest described in section 128(c)(1).

"(5) NOTICE TO SHAREHOLDERS.—The amount of any distribution by a real estate investment trust which may be taken into account as interest for purposes of the exclusion under section 128 shall not exceed

the amount so designated by the trust in a written notice to its shareholders mailed not later than 45 days after the close of its taxable year.'

(d) EFFECTIVE DATES .-

(1) IN GENERAL.—The amendments made by subsections (a) and (c) shall apply to taxable years beginning after December 31, 1984

(2) DIVIDEND EXCLUSION.—The amendment made by subsection (b)(2) shall apply to taxable years beginning after December 31, 1981

Subtitle B-Retirement Savings Provisions SEC. 311. RETIREMENT SAVINGS.

(a) GENERAL RULE.—Section 219 (relating to deduction for retirement savings) is amended to read as follows:

"SEC. 219. RETIREMENT SAVINGS.

"(a) ALLOWANCE OF DEDUCTION.-In the case of an individual, there shall be allowed as a deduction an amount equal to the qualified retirement contributions of the in-

dividual for the taxable year.

"(b) MAXIMUM AMOUNT OF DEDUCTION.

"(1) In general.-The amount allowable as a deduction under subsection (a) to any individual for any taxable year shall not exceed the lesser of-

(A) \$2,000, or

"(B) an amount equal to the compensation includible in the individual's gross income for such taxable year.

"(2) SPECIAL RULES FOR EMPLOYER CONTRI-BUTIONS UNDER SIMPLIFIED EMPLOYEE PEN-

"(A) LIMITATION.—If there is an employer contribution on behalf of the employee to a simplified employee pension, an employee shall be allowed as a deduction under subsection (a) (in addition to the amount allowable under paragraph (1) an amount equal to the lesser of-

"(i) 15 percent of the compensation from such employer includible in the employee's gross income for the taxable year (determined without regard to the employer contribution to the simplified employee pen-

sion), or

"(ii) the amount contributed by such employer to the simplified employee pension and included in gross income (but not in

excess of \$7,500).

"(B) CERTAIN LIMITATIONS DO NOT APPLY TO EMPLOYER CONTRIBUTION.—Paragraph (1) of this subsection and paragraph (1) of subsection (d) shall not apply with respect to the employer contribution to a simplified em-

ployee pension.

"(C) SPECIAL RULE FOR APPLYING SUBPARA-GRAPH (A) (ii) .- In the case of an employee who is an officer, shareholder, or owner-employee described in section 408(k)(3), the \$7,500 amount specified in subparagraph (A)(ii) shall be reduced by the amount of tax taken into account with respect to such individual under subparagraph (D) of section 408(k)(3).

"(3) Special rule for individual retire-MENT PLANS .- If the individual has prid any qualified voluntary employee contributions for the taxable year, the amount of the qualified retirement contributions (other than employer contributions to a simplified employee pension) which are paid for the taxable year to an individual retirement plan and which are allowable as a deduction under subsection (a) for such taxable year shall not exceed-

"(A) the amount determined under para-

graph (1) for such taxable year, reduced by "(B) the amount of the qualified voluntary employee contributions for the taxable (4) CERTAIN DIVORCED INDIVIDUALS .-

"(A) In GENERAL.-In the case of an individual to whom this paragraph applies, the limitation of paragraph (1) shall not be less than the lesser of-'(i) \$1.125, or

"(ii) the sum of the amount referred to in paragraph (1)(B) and any qualifying alimony received by the individual during the

taxable year.

(B) QUALIFYING ALIMONY.-For purposes of this paragraph, the term 'qualifying alimony' means amounts includible in the individual's gross income under paragraph (1) of section 71(a) (relating to decree of divorce or separate maintenance).

"(C) Individuals to Whom Section AP-PLIES.—This section shall apply to an indi-

vidual if-

(i) an individual retirement plan was established for the benefit of the individual at least 5 years before the beginning of the calendar year in which the decree of divorce or

separate maintenance was issued, and "(ii) for at least 3 of the former spouse's most recent 5 taxable years ending before the taxable year in which the decree was issued, such former spouse was allowed a deduction under subsection (c) (or the corresponding provisions of prior law) for contributions to such individual retirement plan.

"(c) SPECIAL RULES FOR CERTAIN MARRIED

INDIVIDUALS .-

(1) In general .- In the case of any individual with respect to whom a deduction is otherwise allowable under subsection (a)-

"(A) who files a joint return under section

6013 for a taxable year, and

(B) whose spouse has no compensation (determined without regard to section 911) for such taxable year,

there shall be allowed as a deduction any amount paid in cash for the taxable year by or on behalf of the individual to an individual retirement plan established for the benefit of his spouse.

"(2) LIMITATION.—The amount allowable as a deduction under paragraph (1) shall

not exceed the excess of-

'(A) the lesser of-

"(i) \$2,250, or

"(ii) an amount equal to the compensation includible in the individual's gross income for the taxable year, over

"(B) the amount allowed as a deduction under subsection (a) for the taxable year.

In no event shall the amount allowable as a deduction under paragraph (1) exceed

\$2,000.
"(d) OTHER LIMITATIONS AND RESTRIC-TIONS.

"(1) INDIVIDUALS WHO HAVE ATTAINED AGE 701/2.-No deduction shall be allowed under this section with respect to any qualified retirement contribution which is made for a taxable year of an individual if such individual has attained age 701/2 before the close of such taxable year.

"(2) RECONTRIBUTED AMOUNTS.-No deduction shall be allowed under this section with respect to a rollover contribution described in section 402(a)(5), 402(a)(7), 403(a)(4), 403(b)(8), 408(d)(3), or 409(b)(3)(C).

"(3) Amounts contributed under endow-

MENT CONTRACT.-In the case of an endowment contract described in section 408(b), no deduction shall be allowed under this section for that portion of the amounts paid under the contract for the taxable year which is properly allocable, under regula-tions prescribed by the Secretary, to the cost of life insurance.

"(e) DEFINITION OF RETIREMENT SAVINGS CONTRIBUTIONS, ETC.-For purposes of this

section-

"(1) QUALIFIED RETIREMENT CONTRIBU-The term 'qualified retirement con-TION.tribution' means

"(A) any qualified voluntary employee contribution paid in cash by the individual

for the taxable year, and

"(B) any amount paid in cash for the taxable year by or on behalf of such individual for his benefit to an individual retirement plan.

For purposes of the preceding sentence, the term 'individual retirement plan' includes a retirement bond described in section 409 only if the bond is not redeemed within 12 months of its issuance.

"(2) QUALIFIED VOLUNTARY EMPLOYEE CON-TRIBUTION .-

"(A) In general.-The term 'qualified voluntary employee contribution' means any voluntary contribution-

"(i) which is made by an individual as an employee under a qualified employer plan or government plan, which plan allows an employee to make contributions which may be treated as qualified voluntary employee contributions under this section, and

"(ii) with respect to which the individual has not designated such contribution as a contribution which should not be taken into

account under this section.

"(B) VOLUNTARY CONTRIBUTION.-For purposes of subparagraph (A), the term 'voluntary contribution' means any contribution which is not a mandatory contribution (within the meaning of section 411(c)(2)(C)),

'(C) DESIGNATION .- For purposes of determining whether or not an individual has made a designation described in subparagraph (A)(ii) with respect to any contribution during any calendar year under a qualified employer plan or government plan, such individual shall be treated as having made such designation if he notifies the plan administrator of such plan, not later than the earlier of-

"(i) April 15 of the succeeding calendar vear, or

"(ii) the time prescribed by the plan administrator.

that the individual does not want such contribution taken into account under this section. Any designation or notification referred to in the preceding sentence shall be made in such manner as the Secretary shall by regulations prescribe and, after the last date on which such designation or notification may be made, shall be irrevocable for such taxable year.

"(3) QUALIFIED EMPLOYER PLAN.-The term 'qualified employer plan' means-

"(A) a plan described in section 401(a) which includes a trust exempt from tax under section 501(a),

"(B) an annuity plan described in section 403(a).

(C) a qualified bond purchase plan described in section 405(a),

"(D) a simplified employee pension (within the meaning of section 408(k)), and '(E) a plan under which amounts are contributed by an individual's employer for an

annuity contract described in section 403(b). "(4) GOVERNMENT PLAN.-The term 'government plan' means any plan, whether or not qualified, established and maintained for its employees by the United States, by a State or political subdivision thereof, or by an agency or instrumentality of any of the

"(5) PAYMENTS FOR CERTAIN PLANS.-The term 'amounts paid to an individual retirement plan' includes amounts paid for an individual retirement annuity or a retirement bond.

"(f) OTHER DEFINITIONS AND SPECIAL RULES -

"(1) COMPENSATION.—For purposes of this section, the term 'compensation' includes earned income as defined in section 401(c)(2).

"(2) Married individuals.—The maximum deduction under subsections (b) and (c) shall be computed separately for each individual, and this section shall be applied without regard to any community property laws.

"(3) TIME WHEN CONTRIBUTIONS DEEMED MADE.—

"(A) Individual retirement plans.—For purposes of this section, a taxpayer shall be deemed to have made a contribution to an individual retirement plan on the last day of the preceding taxable year if the contribution is made on account of such taxable year and is made not later than the time prescribed by law for filing the return for such taxable year (including extensions thereof).

"(B) QUALIFIED EMPLOYER OR GOVERNMENT PLANS.—For purposes of this section, if a qualified employer or government plan elects to have the provisions of this subparagraph apply, a taxpayer shall be deemed to have made a voluntary contribution to such plan on the last day of the preceding calendar year (if, without regard to this paragraph, such contribution may be made on such date) if the contribution is made by April 15 of the calendar year or such earlier time as is provided by the plan administrator.

administrator.

"(4) Reports.—The Secretary shall prescribe regulations which prescribe the time and the manner in which reports to the Secretary and plan participants shall be made by the plan administrator of a qualified employer or government plan receiving qualified voluntary employee contributions.

"(5) EMPLOYER PAYMENTS.—For purposes of this title, any amount paid by an employer to an individual retirement plan shall be treated as payment of compensation to the employee (other than a self-employed individual who is an employee within the meaning of section 401(c)(1)) includible in his gross income in the taxable year for which the amount was contributed, whether or not a deduction for such payment is allowable under this section to the employee.

(6) "Excess contributions treated as contribution made during subsequent year for which there is an unused limitation.—

"(A) In general.—If for the taxable year the maximum amount allowable as a deduction under this section for contributions to an individual retirement plan exceeds the amount contributed, then the taxpayer shall be treated as having made an additional contribution for the taxable year in an amount equal to the lesser of—

"(i) the amount of such excess, or

"(ii) the amount of the excess contributions for such taxable year (determined under section 4973(b)(2) without regard to subparagraph (C) thereof).

"(B) AMOUNT CONTRIBUTED.—For purposes of this paragraph, the amount contributed—"(i) shall be determined without regard to this paragraph, and

"(ii) shall not include any rollover contri-

"(C) SPECIAL RULE WHERE EXCESS DEDUC-TION WAS ALLOWED FOR CLOSED YEAR.—Proper reduction shall be made in the amount allowable as a deduction by reason of this paragraph for any amount allowed as a deduction under this section for a prior taxable year for which the period for assessing deficiency has expired if the amount so allowed exceeds the amount which should have been allowed for such prior taxable year.

"(g) CROSS REFERENCE.-

"For failure to provide required reports, see section 6652(h)."

(b) TREATMENT OF DISTRIBUTIONS FROM EMPLOYER PLAN TO WHICH EMPLOYEE MADE DEDUCTIBLE CONTRIBUTIONS.—

(1) In general.—Section 72 (relating to annuities; certain proceeds of endowment and life insurance contracts) is amended by redesignating subsection (o) as subsection (p) and by inserting after subsection (n) the following new subsection:

"(0) SPECIAL RULES FOR DISTRIBUTIONS FROM QUALIFIED PLANS TO WHICH EMPLOYEE MADE DEDUCTIBLE CONTRIBUTIONS.—

"(1) TREATMENT OF CONTRIBUTIONS.—For purposes of this section and sections 402, 403, and 405, notwithstanding section 414(h), any deductible employee contribution made to a qualified employer plan or government plan shall be treated as an amount contributed by the employer which is not includible in the gross income of the employee.

"(2) Additional Tax if amount received

BEFORE AGE 591/2.-If-

"(A) any accumulated deductible employee contributions are received from a qualified employer plan or government plan to which the employee made one or more deductible employee contributions,

"(B) such amount is received by the employee before the employee attains the age

of 591/2, and

"(C) such amount is not attributable to such employee's becoming disabled (within the meaning of subsection (m)(7)),

then the employee's tax under this chapter for the taxable year in which such amount is received shall be increased by an amount equal to 10 percent of the amount so received to the extent that such amount is includible in gross income. For purposes of this title, any tax imposed by this paragraph shall be treated as a tax imposed by subsection (m)(5)(B).

"(3) AMOUNTS CONSTRUCTIVELY RECEIVED.—
"(A) IN GENERAL.—For purposes of this subsection, rules similar to the rules provided by subsection (m) (4) and (8) shall apply.

"(B) Purchase of Life insurance.—To the extent any amount of accumulated deductible employee contributions of an employee are applied to the purchase of life insurance contracts, such amount shall be treated as distributed to the employee in the year so applied.

"(4) SPECIAL RULE FOR TREATMENT OF ROLLover amounts.—For purposes of sections 402(a)(5), 402(a)(7), 403(a)(4), 408(d)(3), and 409(b)(3)(C), the Secretary shall prescribe regulations providing for such allocations of amounts attributable to accumulated deductible employee contributions, and for such other rules, as may be necessary to insure that such accumulated deductible employee contributions do not become eligible for additional tax benefits (or freed from limitations) through the use of rollovers.

"(5) DEFINITIONS AND SPECIAL RULES.—For purposes of this subsection—

"(A) DEDUCTIBLE EMPLOYEE CONTRIBU-TIONS.—The term 'deductible employee contribution' means any qualified voluntary employee contribution (as defined in section 219(e)(2)) made after December 31, 1981, in a taxable year beginning after such date and allowable as a deduction under section 219(a) for such taxable year.

"(B) ACCUMULATED DEDUCTIBLE EMPLOYEE CONTRIBUTIONS.—The term 'accumulated deductible employee contributions' means the deductible employee contributions—

"(i) increased by the amount of income and gain allocable to such contributions,

and

"(ii) reduced by the sum of the amount of loss and expense allocable to such contributions and the amounts distributed with respect to the employee which are attributable to such contributions (or income or gain allocable to such contributions).

"(C) QUALIFIED EMPLOYER PLAN.—The term 'qualified employer plan' has the meaning given to such term by section 219(e)(3).

"(D) GOVERNMENT PLAN.—The term 'government plan' has the meaning given such term by section 219(e)(4).

"(6) Ordering rules.—Unless the plan specifies otherwise, any distribution from such plan shall not be treated as being made from the accumulated deductible employee contributions until all other amounts to the credit of the employee have been distribut-

ed."

(2) 10-YEAR AVERAGING AND CAPITAL GAINS NOT TO APPLY.—Subparagraph (A) of section 402(e)(4) (defining lump sum distribution) is amended by adding at the end thereof the following new sentence: "For purposes of this section and section 403, the balance to the credit of the employee does not include the accumulated deductible employee contributions under the plan (within the meaning of section 72(e)(5))."

(3) CONFORMING AMENDMENTS RELATING TO ROLLOVER DISTRIBUTIONS.—

(A) Paragraph (5) of section 402(a) (relating to rollover amounts) is amended—

(i) by inserting "(other than accumulated deductible employee contributions within the meaning of section 72(0)(5))" after "contributions" in subparagraph (B),

(ii) by striking out "or" at the end of subparagraph (D)(i)(I).

(iii) by striking out the period at the end of subparagraph (D)(i)(II) and inserting in lieu thereof ", or", and

lieu thereof ", or", and
(iv) by inserting at the end of subparagraph (D) the following new subclause:

"(III) which constitute a distribution of accumulated deductible employee contributions (within the meaning of section 72(0)(5))."

(B) Paragraph (8) of section 403(b) (relating to rollover amounts) is amended by inserting ", or 1 or more distributions of accumulated deductible employee contributions (within the meaning of section 72(o)(5))" after "subsection (a)" in subparagraph (B)(i).

(c) Unrealized Appreciation of Employer Securities.—

(1) Paragraph (1) of section 402(a) (relating to taxability of beneficiary of exempt trust) is amended by striking out in the second sentence thereof "by the employee" and inserting in lieu thereof "by the employee (other than deductible employee contributions within the meaning of section 72(a)(5))."

(2) Subparagraph (J) of section 402(e) (relating to tax on lump sum distribution) is amended by adding at the end thereof the following new sentence: "This subparagraph shall not apply to distributions of accumulated deductible employee contributions (within the meaning of section 77(o)(5))."

(d) ESTATE AND GIFT TAX EXCLUSION.—

(1) ESTATE TAX.—Subsection (c) of section 2039 (relating to exemption of annuities

under certain trusts and plans) is amended by adding at the end thereof the following new sentence: "For purposes of this subsection, any deductible employee contributions (within the meaning of paragraph (5) of section 72(0)) shall be considered as made by a person other than the decedent."

(2) GIFT TAX.—Subsection (b) of section 2517 (relating to transfers attributable to employee contributions) is amended by adding at the end thereof the following new sentence: "For purposes of this subsection, deductible employee contributions (within the meaning of paragraph (5) of section 72(o)) shall be considered as made by a person other than the employee.'

(e) Repeal of Section 220.—Section 220 (relating to deduction for retirement savings for certain married individuals) is hereby re-

pealed.

(f) PENALTIES FOR FAILURE TO PROVIDE NECESSARY REPORTS.—Section 6652 amended by redesignating subsection (h) as subsection (i) and inserting after subsection

(g) the following new subsection:

- "(h) INFORMATION REQUIRED IN CONNEC-TION WITH DEDUCTIBLE EMPLOYEE CONTRIBU-TIONS.—In the case of failure to make a report required by section 219(f)(4) which contains the information required by such section on the date prescribed therefor (determined with regard to any extension of time for filing), there shall be paid (on notice and demand by the Secretary and in the same manner as tax) by the person failing so to file, an amount equal to \$25 for each participant with respect to whom there was a failure to file such information, multiplied by the number of years during which such failure continues, but the total amount imposed under this subsection on any person for failure to file shall not exceed \$10,000."
- (g) AMENDMENTS RELATING TO INCREASE IN IRA LIMITATIONS.
- (1) The following provisions are each amended by striking out "\$1,500" each place it appears and inserting in lieu thereof
- (A) Section 408(a)(1) (defining individual retirement account).
- (B) Section 408(b) (defining individual retirement annuity).
- (C) Section 408(j) (relating to increase in maximum limitations for simplified employ-
- (D) Section 409(a)(4) (defining retirement bond).
- (2) Subparagraph (A) of section 408(d)(5) is amended by striking out "\$1,750" and inserting in lieu thereof "\$2.250"
- (3) Subparagraph (A) of section 409(b)(3) (relating to redemption within 12 months) is amended by adding the following sentence at the end thereof: "The preceding sentence shall not apply to the extent that the bond was purchased with a rollover contribution described in subparagraph (C) of this paragraph or in section 402(a)(5), 402(a)(7),
- 403(a)(4), 403(b)(8), 405(b)(3), or 408(d)(3)."
 (4)(A) Paragraph (2) of section 415(a) is amended to read as follows:
- "(2) Section applies to certain annuities AND ACCOUNTS .- In the case of-
- "(A) an employee annuity plan described in section 403(a). "(B) an annuity contract described in sec-
- tion 403(b).
- (C) a simplified employee pension described in section 408(k), or
- "(D) a plan described in section 405(a) such a contract, plan, or pension shall not be considered to be described in section 403(a), 403(b), 405(a), or 408(k), as the case

may be, unless it satisfies the requirements of subparagraph (A) or subparagraph (B) of paragraph (1), whichever is appropriate, and has not been disqualified under subsection (g). In the case of an annuity contract described in section 403(b), the preceding sentence shall apply only to the portion of the annuity contract which exceeds the limitation of subsection (b) or the limitation of subsection (c), whichever is appropriate, and the amount of the contribution for such portion shall reduce the exclusion allowance as provided in section 403(b)(2)."

(B) The last sentence of paragraph (2) of section 415(c) is amended to read as follows: For the purposes of this paragraph, employee contributions under subparagraph (B) are determined without regard to any rollover contributions (as defined in sections 402(a)(5), 403(a)(4), 403(b)(8), 405(d)(3), 408(d)(3), and 409(b)(3)(C)) without regard to employee contributions to a simplified employee pension allowable as a deduction under section 219(a), and without regard to deductible employee contributions within the meaning of section 72(0)(5).'

(C) Paragraph (5) of section 415(e) is

amended to read as follows:

- "(5) SPECIAL RULES FOR SECTIONS 403(b) AND 408.-For purposes of this section, any annuity contract described in section 403(b) (except in the case of a participant who has elected under subsection (c)(4)(D) to have the provisions of subsection (c)(4)(C) apply) for the benefit of a participant shall be treated as a defined contribution plan maintained by each employer with respect to which the participant has the control required under subsection (b) or (c) of section 414 (as modified by subsection (h)). For purposes of this section, any contribution by an employer to a simplified employee pension for an individual for a taxable year shall be treated as an employer contribution to a defined contribution plan for such individual for such year. In the case of any annuity described in section 403(b), the contract amount of the contribution disqualified by reason of subsection (g) shall reduce the exclusion allowance as provided in section 403(b)(2).'
- (h) AMENDMENTS CONFORMING TO THE REPEAL OF SECTION 220.
- (1) Paragraph (10) of section 62 (defining adjusted gross income) is amended by striking out "and the deduction allowed by section 220 (relating to retirement savings for certain married individuals)"
- (2) Paragraphs (4) and (5) of section 408(d) (relating to tax treatment of distributions) are each amended by striking out "section 219 or 220" each place it appears and inserting in lieu thereof "section 219"

(3) Subsection (a) of section 415 is amend-

ed by striking out paragraph (3).

(4) Subsection (e) of section 2039 (relating to exclusion of individual retirement accounts, etc.) is amended by striking out "section 219 or 220" each place it appears and inserting in lieu thereof "section 219"

(5) Subsection (d) of section 2503

hereby repealed.

Subparagraph (D) of 3401(a)(12) is amended by striking out "section 219(a) or 220(a)" and inserting in lieu thereof "section 219(a)".

(7) Subsection (b) of section 4973 is amended by striking out "section 219 or each place it appears and inserting in lieu thereof "section 219".

(8) Subsection (d) of section 6047 is amended by striking out "section 219(a) or 220(a)" and inserting in lieu thereof "section 219(a)".

- (9) Subsection (a) of section 4973 is amended by striking out the last sentence and inserting in lieu thereof the following: "The tax imposed by this subsection shall be paid by such individual."
- (10) Subparagraph (C) of section 4973(b)(2) is amended by striking out "sections 219(c)(5) and 220(c)(6)" and inserting in lieu thereof "section 219(f)(6)".
- (11) The table of sections for part VII of subchapter B of chapter 1 is amended by striking out the item relating to section 220.

(i) EFFECTIVE DATES .-

(1) In general.-Except as provided in this subsection, the amendments made by this section shall apply to taxable years beginning after December 31, 1981.

(2) Transitional Rule.—For purposes of the Internal Revenue Code of 1954, any amount allowed as a deduction under section 220 of such Code (as in effect before its repeal by this Act) shall be treated as if it were allowed by section 219 of such Code.

(3) CERTAIN BOND ROLLOVER PROVISIONS. The amendment made by subsection (g)(3) shall apply to taxable years beginning after December 31, 1974.

(4) Section 415 AMENDMENTS.—The amendments made by subsections (g)(4) and (h)(3) shall apply to years after December 31, 1981.

SEC. 312. INCREASE IN AMOUNT OF SELF-EM-PLOYED RETIREMENT PLAN DEDUCTION.

- (a) In General.—Subsection (e) of section 404 (relating to special limitations for selfemployed individuals) is amended by striking out "\$7,500" in paragraphs (1) and (2) and inserting in lieu thereof "\$15,000".
- (b) MAXIMUM AMOUNT OF COMPENSATION TAKEN INTO ACCOUNT.
- (1) In general.—Paragraph (17) of section 401(a) (relating to maximum amount of compensation which may be taken into account) is amended by striking out all after 'only" and inserting in lieu thereof "if-
- "(A) the annual compensation of each employee taken into account under the plan does not exceed the first \$200,000 of compensation, and

"(B) in the case of-

"(i) a defined contribution plan with respect to which compensation in excess of \$100,000 is taken into account, contributions on behalf of each employee (other than an employee within the meaning of section 401(c)(1)) to the plan or plans are at a rate (expressed as a percentage of compensation) not less than 7.5 percent, or

"(ii) a defined benefit plan with respect to which compensation in excess of \$100,000 is taken into account, the annual benefit accrual for each employee (other than an emplovee within the meaning of section 401(c)(1)) is a percentage of compensation which is not less than one-half of the applicable percentage provided by subsection (j)(3).

(2) SIMPLIFIED EMPLOYEE PENSIONS.—Subparagraph (C) of section 408(k)(3) (relating to uniform relationships of contributions) is amended to read as follows:

"(C) CONTRIBUTIONS MUST BEAR A UNIFORM RELATIONSHIP TO TOTAL COMPENSATION.—For purposes of subparagraph (A), employer contributions to simplified employee pensions shall be considered discriminatory

"(i) contributions thereto bear a uniform relationship to the total compensation (not in excess of the first \$200,000) of each employee maintaining a simplified employee pension, and

"(ii) if compensation in excess of \$100,000 is taken into account under a simplified employee pension for an employee, contributions to a simplified employee pension on behalf of each employee for whom a contribution is required are at a rate (expressed as a percentage of compensation) not less than 7.5 percent."

(c) CONFORMING AMENDMENTS .-

(1) Subparagraphs (A) and (C) of section 219(b)(2), as amended by section 311(a), are each amended by striking out "\$7,500" and inserting in lieu thereof "\$15,000"

(2) Subsection (e) of section 401 is amended by striking out "for all such years exceeds \$7,500" and inserting in lieu thereof "for such taxable year exceeds \$15,000".

(3) Subparagraph (A) of section 401(j)(2) (relating to benefit plans for self-employed individuals and shareholder-employees) is amended by striking out "\$50,000" and in-

serting in lieu thereof "\$100,000".

(4) Paragraph (3) of section 401(j) is amended by adding at the end thereof the following new sentence: "For purposes of this paragraph, a change in the annual compensation taken into account under subparagraph (A) of subsection (j)(2) shall be treated as beginning a new period of plan participation."

(5) Subsections (d)(5) and (j) of section 408 are each amended by striking out and inserting in lieu thereof

"\$15,000".

(6) Subparagraph (B) of section 1379(b)(1) (relating to certain qualified pension, etc., plans) is amended by striking out "\$7,500" and inserting in lieu thereof "\$15,000"

(d) Loans to Participants.—Subsection (m) of section 72 (relating to special rules) is

amended-

(1) by adding at the end of paragraph (6) the following new sentence: "For purposes of the preceding sentence, the term 'owneremployee' shall except in applying paragraph (5), include an employee within the meaning of section 401(c)(1).", and

(2) by adding at the end thereof the fol-

lowing new paragraph:

"(8) LOANS TO OWNER-EMPLOYEES.-If, during any taxable year, an owner-employee receives, directly or indirectly, any amount as a loan from a trust described in section 401(a) which is exempt from tax under section 501(a), such amount shall be treated as having been received by such owner-employee as a distribution from such trust.'

(e) Correction of Excess Contribution

PERMITTED WITHOUT PENALTY .-

(1) Subsection (m) of section 72 (relating to special rules applicable to employee annuities and distributions under employee plans) (as amended by subsection (d)) is amended by adding at the end thereof the following new paragraph:

"(9) RETURN OF EXCESS CONTRIBUTIONS

BEFORE DUE DATE OF RETURN.-

"(A) In general.-If an excess contribution is distributed in a qualified distribution-

"(i) such distribution of such excess contribution shall not be included in gross income, and

"(ii) this section (other than this paragraph) shall be applied as if such excess contribution and such distribution had not been made.

(B) Excess contribution.—For purposes of this paragraph, the term 'excess contribution' means any contribution to a qualified trust described in section 401(a) or under a plan described in section 403(a) or 405(a) made on behalf of an employee (within the meaning of section 401(c)) for

any taxable year to the extent such contribution exceeds the amount allowable as a deduction under section 404(a).

"(C) QUALIFIED DISTRIBUTION. 'qualified distribution' means any distribution of an excess contribution which meets requirements similar to the requirements of subparagraphs (A), (B), and (C) of section 408(d)(4). In the case of such a distribution, the rules of the last sentence of section 408(d)(4) shall apply."

(2) Paragraph (4) of section 401(d) (relating to additional requirements for qualification of trusts and plans benefiting owner-employees) is amended by adding at the end thereof the following new sentence: "Subparagraph (B) shall not apply to any distribution to which section 72(m)(9) applies.'

(3) Subsection (b) of section 4972 (defining excess contributions) is amended by adding at the end thereof the following new

paragraph:

Excess contributions BEFORE DUE DATE.-For purposes of this subsection, any contribution which is distributed in a distribution to which section 72(m)(9) applies shall be treated as an amount not contributed."

(f) EFFECTIVE DATE.-

(1) In general.-Except as provided in paragraph (2), the amendments made by this section shall apply to plans which include employees within the meaning of section 401(c)(1) with respect to taxable years beginning after December 31, 1981.

(2) TRANSITIONAL RULE.—The amendments made by subsection (d) shall not apply to any loan from a plan to a self-employed individual who is an employee within the meaning of section 401(c)(1) which is outstanding on December 31, 1981. For purposes of the preceding sentence, any loan which is renegotiated, extended, renewed, or revised after such date shall be treated as a new loan.

SEC. 313. ROLLOVERS UNDER BOND PURCHASE PLANS.

(a) GENERAL RULE.—Subsection (d) of section 405 (relating to taxability of beneficiary of qualified bond purchase plan) is amended by adding at the end thereof the following new paragraph:

(3) ROLLOVER INTO AN INDIVIDUAL RETIRE-

MENT ACCOUNT OR ANNUITY .-

"(A) IN GENERAL.-If-

"(i) any qualified bond is redeemed,
"(ii) any portion of the excess of the proceeds from such redemption over the basis of such bond is transferred to an individual retirement plan which is maintained for the benefit of the individual redeeming such bond, and

"(iii) such transfer is made on or before the 60th day after the day on which the individual received the proceeds of such re-

demption,

then, gross income shall not include the proceeds to the extent so transferred and the transfer shall be treated as a rollover contribution described in section 408(d)(3).

"(B) QUALIFIED BOND.—For purposes of this paragraph, the term 'qualified bond' means any bond described in subsection (b) which is distributed under a qualified bond purchase plan or from a trust described in section 401(a) which is exempt from tax under section 501(a)."

TECHNICAL AMENDMENTS.

(1) The second sentence of paragraph (1) of section 405(d) is amended by striking out "the proceeds" and inserting "except as provided in paragraph (3), the proceeds".

(2) Sections 219(c)(2), 408(a)(1), and

4973(b)(1)(A) are each amended by inserting

"405(d)(3)," after "403(b)(8),".

(3) Subsection (e) of section 2039 amended by inserting "405(d)(3)," after contract described in subsection (c)(3)),"

Effective Date.-The amendments made by this section shall apply to redemptions after the date of the enactment of this Act in taxable years ending after such date. SEC. 314. MISCELLANEOUS PROVISIONS.

(a) REMOVAL OF FIVE-YEAR BAN ON CONTRI-BUTIONS TO OWNER-EMPLOYEE PLANS WHERE PLAN TERMINATES.

(1) In general.—Paragraph (5) of section 401(d) (relating to additional requirements for qualifications of trusts and plans benefiting owner-employees) is amended by adding at the end thereof the following: "Subparagraph (C) shall not apply to a distribution on account of the termination of the plan."

(2) Effective DATE.—The amendment made by paragraph (1) shall apply to distributions after December 31, 1980, in taxable

years beginning after such date.

(b) INVESTMENT BY INDIVIDUAL RETIREMENT ACCOUNTS, ETC., IN COLLECTIBLES TREATED AS DISTRIBUTIONS.

(1) In GENERAL.—Section 408 (relating to individual retirement accounts) is amended by redesignating subsection (n) as subsection (o) and by inserting after subsection (m) the following new subsection:

"(n) INVESTMENT IN COLLECTIBLES TREATED

AS DISTRIBUTIONS.

'(1) In general.—The acquisition by an individual retirement account or by an individually-directed account under a plan described in section 401(a) of any collectible shall be treated (for purposes of this section and section 402) as a distribution from such account in an amount equal to the cost to such account of such collectible.

"(2) Collectible defined.—For purposes of this subsection, the term 'collectible'

"(A) any work of art,

"(B) any rug or antique,

"(C) any metal or gem,

"(D) any stamp or coin,

"(E) any alcoholic beverage, or

"(F) any other tangible personal property specified by the Secretary for purposes of this subsection."

EFFECTIVE DATE.-The amendment made by paragraph (1) shall apply to property acquired after December 31, 1981, in taxable years ending after such date.

(c) TAXABILITY OF DISTRIBUTIONS TO EM-PLOYEES.

(1) CONTRIBUTIONS MADE AVAILABLE.-Paragraph (1) of section 402(a) (relating to taxability of beneficiary of exempt trust) is amended by striking out each place it appears "or made available".

(2) EFFECTIVE DATE.—The amendment made by paragraph (1) shall apply to taxable years beginning after December 31,

Subtitle C-Reinvestment of Dividends in **Public Utilities**

SEC. 321. ENCOURAGEMENT OF REINVESTMENT OF DIVIDENDS IN THE STOCK OF PUBLIC UTILITIES.

(a) AMENDMENT OF SECTION 305.—Section 305 (relating to distributions of stock and stock rights) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) DIVIDEND REINVESTMENT IN STOCK OF PUBLIC UTILITIES.

"(1) In general.-Subsection (b) shall not apply to any qualified reinvested dividend.

"(2) QUALIFIED REINVESTED DIVIDEND DE-FINED.—For purposes of this subsection, the term 'qualified reinvested dividend' means-

(A) a distribution by a qualified public utility of shares of its qualified common stock to an individual with respect to the common or preferred stock of such corporation pursuant to a plan under which shareholders may elect to receive dividends in the form of stock instead of property, but

(B) only if the shareholder elects to have this subsection apply to such shares.

"(3) QUALIFIED PUBLIC UTILITY DEFINED. "(A) In general.-For purposes of this subsection, the term 'qualified public utility' means, for any taxable year of the corporation, a domestic corporation which, for the 10-year period ending on the day before the beginning of the taxable year, acquired public utility recovery property having a cost equal to at least 60 percent of the aggregate cost of all tangible personal depreciable property acquired by the corporation

"(B) Special Rules .- For purposes of sub-

paragraph (A)-

during such period.

"(i) all members of an affiliated group

shall be treated as one corporation,

"(ii) a successor corporation shall take into account the acquisitions of its predecessor, and

"(iii) a new corporation to which clause (ii) does not apply shall substitute its period of existence for the 10-year period set forth in subparagraph (A).

"(C) DEFINITIONS.-For purposes of this

paragraph-

"(i) Affiliated GROUP.-The term 'affiliated group' has the meaning given to such term by subsection (a) of section 1504 (determined without regard to subsection (b) of section 1504).

"(ii) PUBLIC UTILITY RECOVERY PROPERTY. The term 'public utility recovery property' means public utility property (within the meaning of section 167(1)(3)(A)) which is recovery property which is 10-year property or 15-year public utility property (within the meaning of section 168), except that any requirement that the property be placed in service after December 31, 1980, shall not

"(4) QUALIFIED COMMON STOCK DEFINED.

"(A) In general.—For purposes of this subsection, the term 'qualified common stock' means authorized but unissued common stock of the corporation-

"(i) which has been designated by the board of directors of the corporation as issued for purposes of this subsection, but

"(ii) only if the number of shares to be issued to a shareholder was determined by reference to a value which is not less than 95 percent and not more than 105 percent of the stock's fair market value during the period immediately before the distribution (determined under regulations prescribed by

"(B) CERTAIN PURCHASES BY CORPORATION of its own stock.—Except as provided in subparagraph (D), if a corporation has purchased or purchases its common stock within a 2-year period beginning 1 year before the date of the distribution and ending 1 year after such date, such distribution shall be treated as not being a qualified reinvested dividend.

"(C) MEMBERS OF AFFILIATED GROUP .purposes of subparagraph (B), the purchase by any corporation which is a member of the same affiliated group (as defined in paragraph (3)(C)(i)) as the distributing corporation of common stock in any corporation which is a member of such group from group) shall be treated as a purchase by the distributing corporation of its common

"(D) WAIVER OF SUBPARAGRAPH (B) WHERE THERE IS BUSINESS PURPOSE.—Under regulations prescribed by the Secretary, subparagraph (B) shall not apply where the distributing corporation establishes that there was a business purpose for the purchase of the stock and such purchase is not inconsistent with the purposes of this subsection.

(5) SHARE INCLUDES FRACTIONAL SHARE .-For purposes of this subsection, the term 'share' includes a fractional share.

"(6) LIMITATION .-

'(A) In general .- In the case of any individual, the aggregate amount of distribu-tions to which this subsection applies for the taxable year shall not exceed \$750 (\$1,500 in the case of a joint return).

(B) APPLICATION OF CEILING.-If, but for this subparagraph, a share of stock would, by reason of subparagraph (A), be treated as partly within this subsection and partly outside this subsection, such share shall be treated as outside this subsection.

"(7) Basis and Holding Period.-In the case of stock received as a qualified reinvested dividend-

(A) notwithstanding section 307, the basis shall be zero, and

"(B) the holding period shall begin on the date the dividend would (but for this subsec-

tion) be includible in income.

"(8) Election.—An election under this subsection with respect to any share shall be made on the shareholder's return for the taxable year in which the dividend would (but for this subsection) be includible in income. Any such election, once made, shall be revocable only with the consent of the

"(9) DISPOSITIONS WITHIN 1 YEAR OF DIS-TRIBUTION.—Under regulations prescribed by

the Secretary

"(A) DISPOSITION OF OTHER COMMON STOCK.—If-

'(i) a shareholder receives any qualified reinvested dividend from a corporation, and

"(ii) during the period which begins on the record date for the qualified reinvested dividend and ends 1 year after the date of the distribution of such dividend, the shareholder disposes of any common stock of such corporation.

the shareholder shall be treated as having disposed of the stock received as a qualified reinvested dividend (to the extent there remains such stock to which this paragraph has not applied).

"(B) ORDINARY INCOME TREATMENT.-If any stock received as a qualified reinvested dividend is disposed of within 1 year after the date such stock is distributed, such disposition shall be treated as a disposition of property which is not a capital asset.

'(10) NO REDUCTION IN EARNINGS AND PROF-ITS FOR DISTRIBUTION OF QUALIFIED COMMON STOCK .- The earnings and profits of any corporation shall not be reduced by reason of the distribution of any qualified common stock of such corporation pursuant to a plan under which shareholders may elect to receive dividends in the form of stock instead of property.

(11) CERTAIN INDIVIDUALS INELIGIBLE.

"(A) In GENERAL.—This subsection shall not apply to any individual who is-

"(i) a trust or estate, or

"(ii) a nonresident alien individual.

"(B) 5 PERCENT SHAREHOLDERS INELIGIBLE. Any distribution by a corporation to a 5 percent shareholder in such corporation shall

any person (other than a member of such not be treated as a qualified reinvested dividend.

> "(C) 5 PERCENT SHAREHOLDER DEFINED .- For purposes of subparagraph (B), the term '5 percent shareholder' means any individual who, immediately before the distribution, owns (directly or through the application of section 318)

> "(i) stock possessing more than 5 percent of the total combined voting power of the distributing corporation, or

"(ii) more than 5 percent of the total value of all classes of stock of the distributing corporation.

"(12) TERMINATION.—This subsection shall not apply to distributions after December 31, 1985.

(b) AMENDMENT OF SECTION 305(d).-Paragraph (1) of section 305(d) (defining stock) is amended by striking out "this section" and inserting in lieu thereof "this section (other than subsection (e))".

(c) Effective Date.-The amendments made by this section shall apply to distributions after December 31, 1981, in taxable years ending after such date.

Subtitle D-Employee Stock Ownership Provisions

SEC. 331. PAYROLL-BASED CREDIT FOR ESTABLISH-ING EMPLOYEE STOCK OWNERSHIP

(a) In General.—Subpart A of part IV of subchapter A of chapter 1 (relating to credits allowed), as amended by section 221 of this Act, is further amended by inserting immediately after section 44F the following new section:

SEC. 44G. EMPLOYEE STOCK OWNERSHIP CREDIT.

"(a) GENERAL RULE.-

"(1) CREDIT ALLOWED.—In the case of a corporation which elects to have this section apply for the taxable year and which meets the requirements of subsection (c)(1), there is allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the amount of the credit determined under paragraph (2) for such taxable year.

"(2) DETERMINATION OF AMOUNT.-

"(A) In GENERAL.—The amount of the credit determined under this paragraph for the taxable year shall be equal to the lesser

"(i) the aggregate value of employer securities transferred by the corporation for the taxable year to a tax credit employee stock ownership plan maintained by the corporation, or

"(ii) the applicable percentage of the amount of the aggregate compensation (within the meaning of section 415(c)(3)) paid or accrued during the taxable year to all employees under a tax credit employee stock ownership plan.

"(B) APPLICABLE PERCENTAGE.-For poses of applying subparagraph (A)(ii), the applicable percentage shall be determined in accordance with the following table:

"For aggregate compensation paid or accrued during a portion of the taxable year occurring in calendar year:	applica- ble percent- age is:
1983	0.5
1984	0.5
1985	0.75
1986	0.75
1987	0.75
1988 or thereafter	0

"(b) LIMITATION BASED ON AMOUNT OF

(1) LIABILITY FOR TAX.-

"(A) In general.-The credit allowed by subsection (a) for any taxable year shall not exceed an amount equal to the sum of-

'(i) so much of the liability for tax for the taxable year as does not exceed \$25,000, plus "(ii) 90 percent of so much of the liability for tax for the taxable year as exceeds

"(B) LIABILITY FOR TAX DEFINED.-For purposes of this paragraph, the term 'liability for tax' means the tax imposed by this chapter for the taxable year, reduced by the sum of the credits allowed under a section of this subpart having a lower number designation than this section, other than credits allowable by sections 31, 39, and 43. For purposes of the preceding sentence, term 'tax imposed by this chapter' shall not include any tax treated as not imposed by this chapter under the last sentence of section 53(a).

"(C) CONTROLLED GROUPS.—In the case of a controlled group of corporations, \$25,000 amount specified in subparagraph
(A) shall be reduced for each component member of such group by apportioning \$25,000 among the component members of such group in such manner as the Secretary shall by regulations prescribe. For purposes of the preceding sentence, the term 'controlled group of corporations' has the meaning assigned to such term by section 1563(a) (determined without regard to subsections (a)(4) and (e)(3)(C) of such section).

"(2) CARRYBACK AND CARRYOVER OF UNUSED

"(A) ALLOWANCE OF CREDIT.—If the amount of the credit determined under this section for any taxable year exceeds the limitation provided under paragraph (1)(A) for such taxable year (hereinafter in this paragraph referred to as the 'unused credit year'), such excess shall be-

"(i) an employee stock ownership credit carryback to each of the 3 taxable years preceding the unused credit year, and

"(ii) an employee stock ownership credit carryover to each of the 15 taxable years following the unused credit year,

and shall be added to the amount allowable as a credit by this section for such years. If any portion of such excess is a carryback to a taxable year ending before January 1. 1983, this section shall be deemed to have been in effect for such taxable year for purposes of allowing such carryback as a credit under this section. The entire amount of the unused credit for an unused credit year shall be carried to the earliest of the 18 taxable years to which (by reason of clauses (i) and (ii)) such credit may be carried, and then to each of the other 17 taxable years to the extent that, because of the limitation contained in subparagraph (B), such unused credit may not be added for a prior taxable year to which such unused credit may be carried.

"(B) LIMITATION.—The amount of the unused credit which may be added under subparagraph (A) for any preceding or succeeding taxable year shall not exceed the amount by which the limitation provided under paragraph (1)(A) for such taxable year exceeds the sum of-

"(i) the credit allowable under this section

for such taxable year, and "(ii) the amounts which, by reason of this paragraph, are added to the amount allowable for such taxable year and which are attributable to taxable years preceding the unused credit year.

"(3) CERTAIN REGULATED COMPANIES.-No credit shall be allowed under this section to a taxpayer if-

'(A) the taxpayer's cost of service for ratemaking purposes or in its regulated books of account is reduced by reason of any portion of such credit which results from the transfer of employer securities or cash to a tax credit employee stock ownership plan which meets the requirements of section 409A;

"(B) the base to which the taxpayer's rate of return for ratemaking purposes is applied is reduced by reason of any portion of such credit which results from a transfer described in subparagraph (A) to such employ-

ee stock ownership plan; or

"(C) any portion of the amount of such credit which results from a transfer described in subparagraph (A) to such employee stock ownership plan is treated for ratemaking purposes in any way other than as though it had been contributed by the taxpayer's common shareholders.

(c) DEFINITIONS AND SPECIAL RULES.

"(1) REQUIREMENTS FOR CORPORATION .corporation meets the requirements of this paragraph if it-

"(A) establishes a plan-

"(i) which meets the requirements of sec-

tion 409A, and

'(ii) under which no more than one-third of the employer contributions for the taxable year are allocated to the group of employees consisting of-

(I) officers,

"(II) shareholders owning more than 10 percent of the employer's stock (within the meaning of section 415(c)(6)(B)(iv)), or

"(III) employees described in section

415(c)(6)(B)(iii), and

"(B) agrees, as a condition for the allowance of the credit allowed by this subsec-

'(i) to make transfers of employer securities to a tax credit employee stock ownership plan maintained by the corporation having an aggregate value of not more than the applicable percentage for the taxable year (determined under subsection (a)(2)) of the amount of the aggregate compensation (within the meaning of section 415(c)(3)) paid or accrued by the corporation during the taxable year, and

"(ii) to make such transfers at the times prescribed in paragraph (2).

(2) TIMES FOR MAKING TRANSFERS.—The transfers required under paragraph (1)(B) shall be made not later than 30 days after the due date (including extensions) for filing the return for the taxable year.

"(3) ADJUSTMENTS TO CREDIT.—If the credit allowed under this section is reduced by a final determination, the employer may reduce the amount required to be transferred to the tax credit employee stock ownership plan under paragraph (1)(B) for the taxable year in which the final determination occurs or any succeeding taxable year by an amount equal to such reduction to the extent such reduction is not taken into account in any deduction allowed under section 404(i)(2).

"(4) CERTAIN CONTRIBUTIONS OF CASH TREATED AS CONTRIBUTIONS OF EMPLOYER SEcurities.-For purposes of this section, a transfer of cash shall be treated as a transfer of employer securities if the cash is, under the tax credit employee stock ownership plan, used within 30 days to purchase employer securities.

(5) DISALLOWANCE OF DEDUCTION.—Except as provided in section 404(i), no deduction shall be allowed under section 162, 212, or 404 for amounts required to be transferred to a tax credit employee stock ownership plan under this section.

(6) EMPLOYER SECURITIES.—For purposes of this section, the term 'employer securities' has the meaning given such term in section 409A(1).

'(7) VALUE.-For purposes of this section,

the term 'value' means-

(A) in the case of securities listed on a national exchange, the average of closing prices of such securities for the 20 consecutive trading days immediately preceding the date on which the securities are contributed to the plan, or

"(B) in the case of securities not listed on a national exchange, the fair market value as determined in good faith and in accordance with regulations prescribed by the Sec-

retary."

(b) DEDUCTIBILITY OF UNUSED PORTIONS OF THE CREDIT.-Section 404 is amended by adding at the end thereof the following new subsection:

"(i) DEDUCTIBILITY OF UNUSED PORTIONS OF EMPLOYEE STOCK OWNERSHIP CREDIT.

"(1) UNUSED CREDIT CARRYOVERS.-There shall be allowed as a deduction (without regard to any limitations provided under this section) for the last taxable year to which an unused employee stock ownership credit carryover (within the meaning of section 44G(b)(2)(A)) may be carried, an amount equal to the portion of such unused credit carryover which expires at the close of such taxable year.

"(2) REDUCTIONS IN CREDIT.—There shall be allowed as a deduction (subject to the limitations provided under this section) an amount equal to any reduction of the credit allowed under section 44G resulting from a final determination of such credit to the extent such reduction is not taken into account in section 44G(c)(3)."

(c) CONFORMING AMENDENTS .-

(1) Section 409A (relating to qualifications for tax credit employee stock ownership plans) is amended-

(A) by inserting "or 44G(c)(1)(B)" after section 48(n)(1)(A)" in subsection section (b)(1)(A).

(B) by inserting "or the credit allowed under section 44G (relating to the employee stock ownership credit)" after "basic employee plan credit" in subsection (b)(4),

(C) by inserting "or 44G(c)(1)(B)" section 48(n)(1)" in subsection (g),

(D) by inserting "or the credit allowed under section 44G (relating to employee stock ownership credit)" after "employee plan credit" in subsection (g),

(E) by inserting "or 44G(c)(1)(B)" after section 48(n)(1)" in subsection (i)(1)(A),

(F) by inserting "section 44G(c)(1)(B), or after "required under" in subsection (m).

(G) by inserting "or employee stock ownership credit" after "employee plan credit" in subsection (n)(2), and

(H) by adding at the end of subsection (n) the following new paragraph:

"(3) For requirements for allowance of an employee stock ownership credit, see section 44G.

(2) Subsection (c) of section 56 (relating to regular tax deductions defined) is amended by striking out "and 43" and inserting in lieu thereof "43, and 44G".

(3) Subsection (a) of section 6699 (relating to assessable penalties relating to tax credit employee stock ownership plan) is amend-

(A) by inserting "or a credit allowable under section 44G (relating to the employee stock ownership credit)" after "employee

(B) by striking out "section 409A, or" in paragraph (1) and inserting in lieu thereof 'section 409A with respect to a qualified investment made before January 1, 1983,'

(C) by inserting after paragraph (2) the following new paragraphs:

"(3) fails to satisfy any requirement provided under section 409A with respect to a

credit claimed under section 44G in taxable years ending after December 31, 1982, or

"(4) fails to make any contribution which required under section 44G(c)(1)(B) within the period required for making such contribution.".

(4) Paragraph (2) of section 6699 is amended to read as follows:

(2) MAXIMUM AND MINIMUM AMOUNT .-

"(A) The amount determined under paragraph (1) with respect to a failure described in paragraph (1) or (2) of subsection (a)-

'(i) shall not exceed the amount of the employee plan credit claimed by the employer to which such failure relates, and

"(ii) shall not be less than the product of one-half of 1 percent of the amount referred to in subparagraph (A), multiplied by the number of months (or parts thereof) during which such failure continues

"(B) The amount determined under paragraph (1) with respect to a failure described in paragraph (3) or (4) of subsection (a)-

"(i) shall not exceed the amount of the credit claimed by the employer under section 44G to which such failure relates, and

"(ii) shall not be less than the product of one-half of 1 percent of the amount re-ferred to in subparagraph (A), multiplied by the number of months (or parts thereof) during which such failure continues."

(d) TECHNICAL AMENDMENTS RELATED TO CARRYOVER AND CARRYBACK OF CREDITS.—

(1) CARRYOVER OF CREDIT.

(A) Subparagraph (A) of section 55(c)(4) (relating to credits), as amended by this Act, is amended by inserting "44G(b)(1)," before

(B) Subsection (c) of section 381 (relating to items of the distributor or transferor corporation), as amended by this Act, is amended by adding at the end thereof the following new paragraph:

"(29) CREDIT UNDER SECTION 44G.-The acquiring corporation shall take into account (to the extent proper to carry out the purposes of this section and section 44G, and under such regulations as may be prescribed by the Secretary) the items required to be taken into account for purposes of section 44G in respect of the distributor or transferor corporation.'

(C) Section 383 (relating to special limitations on unused investment credits, work incentive program credits, new employee credits, alcohol fuel credits, foreign taxes, and capital losses), as in effect for taxable years beginning with and after the first taxable year to which the amendments made by the Tax Reform Act of 1976 apply, is amended-

(i) by inserting "to any unused credit of

the corporation under section 44G(b)(2)," after "44F(g)(2),", and
(ii) by inserting "EMPLOYEE STOCK OWNER-SHIP CREDITS," after "RESEARCH CREDITS," in the section heading.

(D) Section 383 (as in effect on the day before the date of the enactment of the Tax

Reform Act of 1976) is amended-(i) by inserting "to any unused credit of

the corporation which could otherwise be carried forward under section 44G(b)(2),' after "44F(g)(2),", and

(ii) by inserting "EMPLOYEE STOCK OWNER-SHIP CREDITS," after "RESEARCH CREDITS," in the section heading.

(E) The Table of sections for part V of subchapter C of chapter 1 is amended by in-serting "employee stock ownership credits," after "research credits," in the item relating to section 383.

(2) CARRYBACK OF CREDIT .-

(C) (A) Subparagraph of 6511(d)(4) (defining credit carryback), as amended by this Act, is amended by striking out "and research credit carryback" and inserting in lieu thereof "research credit carryback, and employee stock ownership credit carryback"

(B) Section 6411 (relating to quick refunds in respect of tentative carryback adjust-ments), as amended by this Act, is amend-

(i) by striking out "or unused research each place it appears and inserting in lieu thereof "unused research credit, or unused employee stock ownership credit'

(ii) by inserting "by an employee stock ownership credit carryback provided by section 44G(b)(2)" after "by a research and experimental credit carryback provided in section 44F(g)(2), in the first sentence of subsection (a):

(iii) by striking out "or a research credit carryback from" each place it appears and inserting in lieu thereof "a research credit carryback, or employee stock ownership

credit carryback from"; and
(iv) by striking out "new employee credit carryback)" in the second sentence of subsection (a) and inserting in lieu thereof 'new employee credit carryback, or, in the case of an employee stock ownership credit carryback, to an investment credit carryback, a new employee credit carryback or a research and experimental credit carry-

(e) OTHER TECHNICAL AND CLERICAL AMEND

(1) Subsection (b) of section 6096 (relating to designation of income tax payments to Presidential Election Campaign Fund), as amended by this Act, is amended by striking out "and 44F" and inserting in lieu thereof '44F, and 44G".

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 44F the following new item:

Sec. 44G. Employee stock ownership credit.'

(f) EFFECTIVE DATE .-

(1) The amendments made by subsection (a) shall apply to aggregate compensation (within the meaning of section 415(c)(3) of the Internal Revenue Code of 1954), paid or accrued after December 31, 1982, in taxable years ending after such date.

(2) The amendments made by subsections (b) and (c) shall apply to taxable years ending after December 31, 1982.

SEC. 332. TERMINATION OF THE PORTION OF THE INVESTMENT CREDIT ATTRIBUTABLE TO EMPLOYEE PLAN PERCENTAGE.

(a) In General.-Subparagraph (E) of section 46(a)(2) (relating to employee plan per-

centage) is amended—
(1) by striking out "December 31, 1983" in clauses (i) and (ii) and inserting in lieu thereof "December 31, 1982", (2) by striking out "and" at the end of

clause (i). (3) by striking out the period at the end of clause (ii) and inserting in lieu thereof ",

(4) by inserting after clause (ii) the following new clause:

"(iii) with respect to any period beginning after December 31, 1982, zero."

(b) TECHNICAL AMENDMENT.-Clause (i) of section 48(n)(1)(A) (relating to requirements for allowance of employee plan percentage) is amended by striking out "equal and inserting in lieu thereof "which does not exceed".

(c) EFFECTIVE DATES .-

(1) The amendments made by subsection (a) shall be effective on the date of enactment of this Act.

(2) The amendment made by subsection (b) shall apply to qualified investments made after December 31, 1981.

SEC. 333. TAX TREATMENT OF CONTRIBUTIONS AT-TRIBUTABLE TO PRINCIPAL AND IN-TEREST PAYMENTS IN CONNECTION WITH AN EMPLOYEE STOCK OWNER-SHIP PLAN.

(a) DEDUCTIBILITY.—Section 404(a) (relating to deductions for employer contributions to an employees' trust) is amended by adding at the end thereof the following new paragraph:

"(10) CERTAIN CONTRIBUTIONS TO EMPLOYEE

STOCK OWNERSHIP PLANS .-

"(A) PRINCIPAL PAYMENTS.-Notwithstanding the provisions of paragraphs (3) and (7), if contributions are paid into a trust which forms a part of an employee stock ownership plan (as described in section 4975(e)(7)), and such contributions are, on or before the time prescribed in paragraph (6), applied by the plan to the repayment of the principal of a loan incurred for the purpose of acquiring qualifying employer securities (as described in section 4975(e)(8)), such contributions shall be deductible under this paragraph for the taxable year determined under paragraph (6). The amount deductible under this paragraph shall not, however, exceed 25 percent of the compensation otherwise paid or accrued during the taxable year to the employees under such employee stock ownership plan. amount paid into such trust in any taxable year in excess of the amount deductible under this paragraph shall be deductible in the succeeding taxable years in order of time to the extent of the difference between the amount paid and deductible in each such succeeding year and the maximum amount deductible for such year under the preceding sentence.

"(B) INTEREST PAYMENT.—Notwithstanding the provisions of paragraphs (3) and (7), if contributions are made to an employee stock ownership plan (described in subparagraph (A)) and such contributions are applied by the plan to the repayment of interest on a loan incurred for the purpose of acquiring qualifying employer securities (as described in subparagraph (A)), such contributions shall be deductible for the taxable year with respect to which such contributions are made as determined under paragraph (6).".

(b) Exclusion From Limitation ANNUAL ADDITIONS.

(1) In general.—Section 415(c)(6) (relating to limitations on benefits and contributions made under qualified plans) is amended by adding at the end thereof the following new subparagraph:

"(C) In the case of an employee stock ownership plan (as described in section 4975(e)(7)), under which no more than onethird of the employer contributions for a year which are deductible under paragraph (10) of section 404(a) are allocated to the group of employees consisting of officers, shareholders owning more than 10 percent of the employer's stock (determined under subparagraph (B)(iv)), or employees described in subparagraph (B)(iii), the limitations imposed by this section shall not apply

"(i) forfeitures of employer securities under an employee stock ownership plan (as described in section 4975(e)(7)) if such securities were acquired with the proceeds of a loan (as described in section 404(a)(10)(A)),

"(ii) employer contributions to such an employee stock ownership plan which are deductible under section 404(a)(10)(B) and charged against the participant's account.".

Effective DATE.—The amendment made by this subsection shall apply to years beginning after December 31, 1981.

SEC. 334. CASH DISTRIBUTIONS FROM AN EMPLOY-EE STOCK OWNERSHIP PLAN.

Section 409A(h)(2) (relating to right to demand employer securities) is amended-

(1) by adding at the end thereof the following new sentence: "In the case of an employer whose charter or bylaws restrict the ownership of substantially all outstanding employer securities to employees or to a trust described in section 401(a), a plan which otherwise meets the requirements of this subsection or section 4975(e)(7) shall not be considered to have failed to meet the requirements of section 401(a) merely because it does not permit a participant to exercise the right described in paragraph (1)(A) if such plan provides that participants entitled to a distribution from the plan shall have a right to receive such distribution in cash."; and

(2) by striking out "this section" in the first sentence thereof and inserting in lieu thereof "this subsection"

SEC. 335, PUT OPTION FOR STOCK BONUS PLANS.

Section 401(a)(23) (relating to cash distribution option for stock bonus plans) is amended by striking out "409A(h)(2)" and inserting in lieu thereof "409A(h), except that in applying section 409A(h) for purposes of this paragraph, the term 'employer securities' shall include any securities of the employer held by the plan".

SEC. 336. PUT OPTION REQUIREMENTS FOR BANKS; PUT OPTION PERIOD.

Section 409A(h) (relating to put options for employee stock ownership plans) is amended by adding at the end thereof the

following new paragraphs: '(3) SPECIAL RULE FOR BANKS.—In the case of a plan established and maintained by a bank (as defined in section 581) which is prohibited by law from redeeming or purchasing its own securities, the requirements of paragraph (1)(B) shall not apply if the plan provides that participants entitled to a

distribution from the plan shall have a right to receive a distribution in cash.

(4) Put option period.—An employer shall be deemed to satisfy the requirements of paragraph (1)(B) if it provides a put option for a period of at least 60 days following the date of distribution of stock of the employer and, if the put option is not exercised within such 60-day period, for an additional period of at least 60 days in the following plan year (as provided in regulations promulgated by the Secretary).

SEC. 337. DISTRIBUTION OF EMPLOYER SECURITIES FROM A TAX CREDIT EMPLOYEE STOCK OWNERSHIP PLAN IN THE CASE OF A SALE OF EMPLOYER ASSETS OR STOCK.

(a) In General.—Section 409A(d) (relating to distribution of employer securities) is amended by striking out the last sentence thereof and inserting in lieu thereof the following: "To the extent provided in the plan,

the preceding sentence shall not apply in the case of-

"(1) death, disability, or separation from service;

"(2) a transfer of a participant to the employment of an acquiring employer from the employment of the selling corporation in the case of-

(A) a sale to the acquiring employer of substantially all of the assets used by the selling corporation in a trade or business conducted by the selling corporation, or

'(B) the sale of substantially all of the stock of a subsidiary of the employer, or

"(3) with respect to the stock of a selling corporation, a disposition of such selling corporation's interest in a subsidiary when the participant continues employment with such subsidiary."

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to distributions described in section 409A(d) of the Internal Revenue Code of 1954 (or any corresponding provision of prior law) made after March 29, 1975.

SEC. 338. PASS THROUGH OF VOTING RIGHTS ON EMPLOYER SECURITIES

(a) In GENERAL.—Paragraph (22) of section 401(a) (relating to qualified pension, profitsharing, and stock bonus plans) is amended to read as follows:

'(22) if a defined contribution plan (other than a profit-sharing plan)-

'(A) is established by an employer whose stock is not publicly traded, and

"(B) after acquiring securities of the employer, more than 10 percent of the total assets of the plan are securities of the em-

any trust forming part of such plan shall not constitute a qualified trust under this section unless the plan meets the requirements of subsection (e) of section 409A.

(b) Effective Date.—The amendment made by this section shall apply to acquisitions of securities after December 31, 1979. SEC. 339. EFFECTIVE DATE.

Except as otherwise provided, the amendments made by this subtitle shall apply to taxable years beginning after December 31,

TITLE IV-ESTATE AND GIFT TAX PROVISIONS

Subtitle A-Increase in Unified Credit; Rate Reduction: Unlimited Marital Deduction

SEC. 401. INCREASE IN UNIFIED CREDIT.

(a) CREDIT AGAINST ESTATE TAX .-

(1) In general.—Subsection (a) of section 2010 (relating to unified credit against estate tax) is amended by striking out "\$47,000" and inserting in lieu thereof "\$192,800".

(2) CONFORMING AMENDMENTS.

(A) Subsection (b) of section 2010 is amended to read as follows:

"(b) Phase-in of Credit.-

Subsection (a) shall be applied by substitut-ing for '\$192,800' "In the case of decedents dying in: the amount: \$62,800 79,300 1983 96.300 1984 121,800 1985. 155,800."

(B) Subsection (a) of section 6018 (relating to estate tax returns by executors) is amended-

(i) by striking out "\$175,000" in paragraph (1) and inserting in lieu thereof "\$600,000";

(ii) by striking out paragraph (3) and inserting in lieu thereof the following:

PHASE-IN OF FILING REQUIREMENT AMOUNT.

"In the case of decedents dying in:	Paragraph (1) shall be applied by substituting for '\$600,000' the following amount:
1982	\$225,000
1983	275,000
1984	325,000
1985	400,000
1986	500,000."

(b) CREDIT AGAINST GIFT TAX .-

(1) In general.—Paragraph (1) of section 2505(a) (relating to unified credit against gift tax) is amended by striking out "\$47,000" and inserting in lieu thereof "\$192,800".

(2) Conforming amendment.—Subsection (b) of section 2505 is amended to read as fol-

"(b) PHASE-IN OF CREDIT .-

"In the case of gifts made in:	Subsection (a)(1) shall be applied by substituting for '\$192,800' the following amount:
1982	\$62,800 79,300 96,300 121,800 155,800."

(c) Effective Dates.-The amendments

(1) by subsection (a) shall apply to the estates of decedents dying after December 31, 1981, and

(2) by subsection (b) shall apply to gifts made after such date. SEC. 402. REDUCTION IN MAXIMUM RATES OF TAX.

(a) 50 PERCENT MAXIMUM RATE.—Subsection (c) of section 2001 (relating to rate schedule) is amended by striking out the item beginning "Over \$2,500,000" and all that follows and inserting in lieu thereof the following new item:

... \$1,025,800, plus 50% of "Over \$2.500.000...... the excess \$2,500,000."

(b) Phase-In of 50 Percent Maximum RATE.—Subsection (c) of section 2001 is amended-

(1) by striking out "(c) RATE SCHEDULE.-" and inserting in lieu thereof the following:

"(c) RATE SCHEDULE.—
"(1) IN GENERAL.—", and

(2) by adding at the end thereof the following new paragraph:

(2) PHASE-IN OF 50 PERCENT MAXIMUM

"(A) In general.-In the case of decedents dying, and gifts made, before 1985, there shall be substituted for the last item in the schedule contained in paragraph (1) the items determined under this paragraph

"(B) For 1982.—In the case of decedents dying, and gifts made, in 1982, the substitution under this paragraph shall be as fol-

"Over \$2,500,000 but not \$1,025,800, plus 53% of the excess \$2,500,000. over \$3,000,000. Over \$3,000,000 but not \$1,290,800, plus 57% of over \$3,500,000. the excess over \$3,000,000. Over \$3,500,000 but not \$1,575,800, plus 61% of over \$4,000,000. the excess \$3,500,000. over Over \$4,000,000... \$1,880,800, plus 65% of the excess over \$4,000,000.

"(C) For 1983.-In the case of decedents dying, and gifts made, in 1983, the substitution under this paragraph shall be as fol-

"Over \$2,500,000 but not \$1,025,800, plus 53% of over \$3,000,000. the exover excess Over \$3,000,000 but not \$1,290,800, plus 57% of over over \$3,500,000. the excess \$3,000,000. Over \$3 500 000 \$1,575,800, plus 60% of over excess \$3.500.000.

"(D) For 1984.—In the case of decedents dying, and gifts made, in 1984, the substitution under this paragraph shall be as fol-

'Over \$2,500,000 but not \$1,025,800, plus 53% of over \$3,000,000. the excess \$2,500,000. Over \$3,000,000. \$1,290,800, plus 55% of the excess over \$3,000,000."

(c) ADJUSTMENT IN COMPUTATION OF TAX FOR GIFTS MADE AFTER DECEMBER 31, 1976. Paragraph (2) of section 2001(b) is amended

to read as follows:
"(2) the aggregate amount of tax which would have been payable under chapter 12 with respect to gifts made by the decedent after December 31, 1976, if the rate schedule set forth in subsection (c) (as in effect at the decedent's death) had been applicable at the time of such gifts."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to estates of decedents dying after, and gifts made

after, December 31, 1981.

SEC. 403. UNLIMITED MARITAL DEDUCTION.

(a) ESTATE TAX DEDUCTION.

(1) In GENERAL.—Section 2056 (relating to bequests, etc., to surviving spouses) amended-

(A) by striking out subsection (c) and redesignating subsection (d) as subsection (c);

(B) by striking out "subsections (b) and (c)" in subsection (a) and inserting in lieu thereof "subsection (b)".

(2) CONFORMING AMENDMENTS.

(A) Paragraph (2) of section 2012(b) (relating to credit for gift tax) is amended to read as follows:

(2) if a deduction with respect to such gift is allowed under section 2056(a) (relating to marital deduction), then by the amount of such value, reduced as provided in paragraph (1); and"

(B) Paragraph (5) of section 2602(c) (relating to coordination with estate tax) is amended by striking out subparagraph (A) and redesignating subparagraphs (B) and (C) as subparagraphs (A) and (B), respec-

tively.

(C) Subparagraph (A) of section 691(c)(3) (relating to special rules for generation-skipping transfers) is amended by striking out 'section 2602(c)(5)(C)" and inserting in lieu thereof "section 2602(c)(5)(B)".

(b) GIFT TAX DEDUCTION.

(1) In general.—Subsection (a) of section 2523 (relating to gift to spouse) is amended to read as follows:

(a) ALLOWANCE OF DEDUCTION.—Where a donor who is a citizen or resident transfers during the calendar year by gift an interest in property to a donee who at the time of the gift is the donor's spouse, there shall be allowed as a deduction in computing taxable gifts for the calendar year an amount with respect to such interest equal to its value.

(2) TECHNICAL AMENDMENT.—Section 2523 is amended by striking out subsection (f).

(3) CONFORMING AMENDMENTS

(A) So much of section 6019 (relating to gift tax returns) as follows the heading and precedes subsection (b) is amended to read as follows:

'Any individual who in any calendar year makes any transfer by gift other than-

'(1) a transfer which under subsection (b) or (e) of section 2503 is not to be included in the total amount of gifts for such year, or

"(2) a transfer of an interest with respect to which a deduction is allowed under sec-

tion 2523

shall make a return for such year with respect to the gift tax imposed by subtitle B."

(B) Paragraph (2) of section 2035(b) is amended by inserting "(other than by reason of section 6019(a)(2))" after "section 6019'

(c) ESTATE TAX ON PROPERTY HELD JOINTLY BY HUSBAND AND WIFE.

(1) In general.—Paragraph (2) of section 2040(b) (defining qualified joint interest) is amended to read as follows:

"(2) QUALIFIED JOINT INTEREST DEFINED .-For purposes of paragraph (1), the term 'qualified joint interest' means any interest in property held by the decedent and the decedent's spouse as

"(A) tenants by the entirety, or

"(B) joint tenants with right of survivorship, but only if the decedent and the spouse of the decedent are the only joint

(2) TECHNICAL AMENDMENT.—Subsection (a) of section 2040 is amended by striking out "joint tenants" each place it appears and inserting in lieu thereof "joint tenants with right of survivorship".

(3) CONFORMING AMENDMENTS.

(A) Subsections (c), (d), and (e) of section

2040 are hereby repealed.

(B) Section 2515 (relating to tenancies by the entirety in real property), section 2515A (relating to tenancies by the entirety in personal property), and subsection (c) of section 6019 (relating to gift tax return) are hereby repealed.

(C) The table of sections for subchapter B of chapter 12 (relating to transfers) is amended by striking out the items relating

to sections 2515 and 2515A.

(d) Election To Have Certain Life Inter-ESTS QUALIFY FOR MARITAL DEDUCTION.

(1) ESTATE TAX.—Subsection (b) of section 2056 is amended by adding at the end thereof the following new paragraphs:

"(7) ELECTION WITH RESPECT TO LIFE ESTATE FOR SURVIVING SPOUSE

"(A) In general.—In the case of qualified terminable interest property-

"(i) for purposes of subsection (a), such property shall be treated as passing to the surviving spouse, and

"(ii) for purposes of paragraph (1)(A), no part of such property shall be treated as

passing to any person other than the surviving spouse.

"(B) QUALIFIED TERMINABLE INTEREST PROP-ERTY DEFINED .- For purposes of this paragraph-

'(i) In general.-The term 'qualified terminable interest property' means property-

'(I) which passes from the decedent, "(II) in which the surviving spouse has a qualifying income interest for life, and

"(III) to which an election under this paragraph applies.

"(ii) QUALIFYING INCOME INTEREST FOR LIFE.—The surviving spouse has a qualifying income interest for life if-

"(I) the surviving spouse is entitled to all the income from the property, payable annually or at more frequent intervals, and

"(II) no person has a power to appoint any part of the property to any person other than the surviving spouse.

Subclause (II) shall not apply to a power exercisable only at or after the death of the surviving spouse.

"(iii) PROPERTY INCLUDES INTEREST THERE-IN.-The term 'property' includes an interest in property.

"(iv) Specific portion treated as separate PROPERTY.-A specific portion of property shall be treated as separate property

"(v) Election.-An election under this paragraph with respect to any property shall be made by the executor on the return of tax imposed by section 2001. Such an election, once made, shall be irrevocable.

"(8) SPECIAL RULE FOR CHARITABLE REMAIN-DER TRUSTS .-

(A) In general.-If the surviving spouse of the decedent is the only noncharitable beneficiary of a qualified charitable remainder trust, paragraph (1) shall not apply to any interest in such trust which passes or has passed from the decedent to such surviving spouse.

"(B) Definitions.-For purposes of sub-

paragraph (A)-

NONCHARITABLE BENEFICIARY.—The term 'noncharitable beneficiary' means any beneficiary of the qualified charitable remainder trust other than an organization described in section 170(c).

"(ii) QUALIFIED CHARITABLE REMAINDER TRUST.-The term 'qualified charitable remainder trust' means a charitable remainder annuity trust or charitable remainder unitrust (described in section 664)."

(2) GIFT TAX.—Section 2523 is amended by adding at the end thereof the following new subsections:

"(f) ELECTION WITH RESPECT TO LIFE ESTATE FOR DONEE SPOUSE.

"(1) In general.-In the case of qualified terminable interest property-

"(A) for purposes of subsection (a), such property shall be treated as transferred to

the donee spouse, and "(B) for purposes of subsection (b)(1), no part of such property shall be considered as retained in the donor or transferred to any

person other than the donee spouse. "(2) QUALIFIED TERMINABLE INTEREST PROP-ERTY.-For purposes of this subsection, the term 'qualified terminable interest property'

means any property-"(A) which is transferred by the donor

spouse, "(B) in which the donee spouse has a

qualifying income interest for life, and "(C) to which an election under this sub-

section applies.

"(3) CERTAIN RULES MADE APPLICABLE.—For purposes of this subsection, the rules of clauses (ii), (iii), and (iv) of section 2056(b)(7)(B) shall apply.

"(4) ELECTION.-An election under this subsection with respect to any property shall be made on the return of the tax imposed by section 2501 for the calendar year in which the interest was transferred. Such an election, once made, shall be irrevocable.

"(g) SPECIAL RULE FOR CHARITABLE RE-

MAINDER TRUSTS.

"(1) In general.—If, after the transfer, the donee spouse is the only noncharitable beneficiary (other than the donor) of a qualified remainder trust, subsection (b) shall not apply to the interest in such trust which is transferred to the donee spouse.

"(2) DEFINITIONS.-For purposes of paragraph (1), the term 'noncharitable beneficiary' and 'qualified charitable remainder trust' have the meanings given to such terms by section 2056(b)(8)(B)."

(3) TREATMENT OF SPOUSE.-

(A) INCLUSION IN GROSS ESTATE.

(i) IN GENERAL.—Part III of subchapter A of chapter 11 is amended by redesignating sections 2044 and 2045 as sections 2045 and 2046, respectively, and by inserting after section 2043 the following new section:

"SEC. 2044. CERTAIN PROPERTY FOR WHICH MARITAL DEDUCTION WAS PREVIOUSLY ALLOWED.

"(a) GENERAL RULE.—The value of the gross estate shall include the value of any property to which this section applies in which the decedent had a qualifying income interest for life.

"(b) PROPERTY TO WHICH THIS SECTION APPLIES.-This section applies to any prop-

"(1) a deduction was allowed with respect to the transfer of such property to the dece-

"(A) under section 2056 by reason of sub-

section (b)(7) thereof, or

"(B) under section 2523 by reason of sub-

section (f) thereof, and

"(2) section 2519 (relating to dispositions of certain life estates) did not apply with respect to a disposition by the decedent of part or all of such property."

(ii) The table of sections for part III of subchapter A of chapter 11 is amended by redesignating the items relating to sections 2044 and 2045 as sections 2045 and 2046, respectively, and by inserting after the item relating to section 2043 the following new item:

"Sec. 2044. Certain property for which marital deduction was previously allowed."

(B) GIFT TAX .-

(i) In general.—Subchapter B of chapter (relating to transfers) is amended by adding at the end thereof the following new section:

"SEC. 2519. DISPOSITIONS OF CERTAIN LIFE ES-

"(a) GENERAL RULE.—Any disposition of all or part of a qualifying income interest for life in any property to which this section applies shall be treated as a transfer of such property.

'(b) PROPERTY TO WHICH THIS SUBSECTION APPLIES.-This section applies to any property if a deduction was allowed with respect to the transfer of such property to the donor-

"(1) under section 2056 by reason of subsection (b)(7) thereof, or

"(2) under section 2523 by reason of subsection (f) thereof.

(ii) The table of sections for subchapter B of chapter 11 is amended by adding at the end thereof the following new item:

"Sec. 2519. Dispositions of certain life es-

(4)(A) Subchapter C of chapter 11 is amended by inserting after section 2207 the following new section:

"SEC. 2207A. RIGHT OF RECOVERY IN THE CASE OF CERTAIN MARITAL DEDUCTION PROP-

"(a) RECOVERY WITH RESPECT TO ESTATE

TAX.—
"(1) IN GENERAL.—If any part of the gross estate consists of property the value of which is includible in the gross estate by reason of section 2044 (relating to certain property for which marital deduction was previously allowed), the decedent's estate shall be entitled to recover from the person receiving the property the amount by which-

"(A) the total tax under this chapter which has been paid, exceeds

(B) the total tax under this chapter which would have been payable if the value of such property had not been included in the gross estate.

"(2) DECEDENT MAY OTHERWISE DIRECT BY WILL.-Paragraph (1) shall not apply if the decedent otherwise directs by will.

"(b) RECOVERY WITH RESPECT TO GIFT TAX.—If for any calendar year tax is paid under chapter 12 with respect to any person by reason of property treated as transferred by such person under section 2519, such person shall be entitled to recover from the person receiving the property the amount

by which—
"(1) the total tax for such year under chapter 12, exceeds

"(2) the total tax which would have been payable under such chapter for such year if the value of such property had not been taken into account for purposes of chapter

"(c) More Than One Recipient of Prop-ERTY.-For purposes of this section, if there is more than one person receiving the property, the right of recovery shall be against each such person.

"(d) Taxes and Interest.-In the case of penalties and interest attributable to additional taxes described in subsections (a) and (b), rules similar to subsections (a), (b), and (c) shall apply.'

(B) The table of sections for subchapter C of chapter 11 is amended by inserting after the item relating to section 2207 the following new item:

"Sec. 2207A. Right of recovery in the case of certain marital deduction property.'

(e) EFFECTIVE DATES .-

(1) Except as otherwise provided in this subsection, the amendments made by this section shall apply to the estates of decedents dying after December 31, 1981.

(2) The amendments made by paragraphs (1), (2), and (3)(A) of subsection (b), subparagraphs (B) and (C) of subsection (c)(3), and paragraphs (2) and (3)(B) of subsection (d) shall apply to gifts made after December 31, 1981.

(3) If

(A) the decedent dies after December 31, 1981

(B) by reason of the death of the decedent property passes from the decedent or is acquired from the decedent under a will executed before the date which is 30 days after the date of the enactment of this Act, or a trust created before such date, which contains a formula expressly providing that the spouse is to receive the maximum amount of property qualifying for the marital deduction allowable by Federal law,

(C) the formula referred to in subpara-graph (B) was not amended to refer specifically to an unlimited marital deduction at any time after the date which is 30 days after the date of enactment of this Act, and before the death of the decedent, and

(D) the State does not enact a statute applicable to such estate which construes this type of formula as referring to the marital deduction allowable by Federal law as amended by subsection (a),

then the amendment made by subsection (a) shall not apply to the estate of such dece-

Subtitle B—Other Estate Tax Provisions SEC. 421. VALUATION OF CERTAIN FARM, ETC., REAL PROPERTY.

(a) INCREASE IN LIMITATION.—Paragraph (2) of section 2032A(a) (relating to limitation) is amended to read as follows:

"(2) LIMIT ON AGGREGATE REDUCTION IN FAIR MARKET VALUE.—The aggregate decrease in the value of qualified real property taken into account for purposes of this chapter which results from the application of paragraph (1) with respect to any decedent shall not exceed the applicable limit set forth in the following table:

The "In the case of decedents dying applica ble limit in: 1981 \$600,000 700,000 750,000." 1983 or thereafter.....

(b) DEFINITION OF QUALIFIED REAL PROPER-

(1) REQUIRED USE CAN BE BY MEMBER OF FAMILY.—Paragraph (1) of section 2032A(b) (defining qualified real property) is amended by inserting "by the decedent or a member of the decedent's family" after 'qualified use" each place it appears.

(2) SPECIAL RULES FOR DECEDENTS WHO ARE RETIRED OR DISABLED AND FOR SURVIVING SPOUSES.—Subsection (b) of section 2032A is amended by adding at the end thereof the following new paragraphs:

"(4) DECEDENTS WHO ARE RETIRED OR DIS-ABLED.

"(A) In general.—If, on the date of the decedent's death, the requirements of paragraph (1)(C)(ii) with respect to the decedent for any property are not met, and the decedent-

"(i) was receiving old-age benefits under title II of the Social Security Act for a continuous period ending on such date, or

"(ii) was disabled for a continuous period ending on such date,

then paragraph (1)(C)(ii) shall be applied with respect to such property by substituting 'the date on which the longer of such continuous periods began' for 'the date of the decedent's death' in paragraph (1)(C).

"(B) DISABLED DEFINED.-For purposes of subparagraph (A), an individual shall be disabled if such individual has a mental or physical impairment which renders him unable to materially participate in the operation of the farm or other business.

"(C) COORDINATION WITH RECAPTURE.-For purposes of subsection (c)(6)(B)(i), if the requirements of paragraph (1)(C)(ii) are met with respect to any decedent by reason of subparagraph (A), the period ending on the date on which the continuous period taken into account under subparagraph (A) began shall be treated as the period immediately before the decedent's death.

"(5) SPECIAL. RULES FOR SURVIVING SPOUSES.

'(A) In general.-If property is qualified real property with respect to a decedent (hereinafter in this paragraph referred to as the 'first decedent') and such property was acquired from or passed from the first decedent to the surviving spouse of the first decedent, for purposes of applying this subsection and subsection (c) in the case of the estate of such surviving spouse, active management of the farm or other business by the surviving spouse shall be treated as material participation by such surviving spouse in the operation of such farm or business.

'(B) SPECIAL RULE.-For the purposes of subparagraph (A), the determination of whether property is qualified real property with respect to the first decedent shall be made without regard to subparagraph (D) of paragraph (1) and without regard to whether an election under this section was

made

(c) DISPOSITIONS AND FAILURES TO USE FOR QUALIFIED USE -

(1) 10-YEAR RECAPTURE PERIOD .-

(A) In general.—Paragraph (1) of section 2032A(c) (relating to tax treatment of dispositions and failures to use for qualified use) is amended by striking out "15 years" and inserting in lieu thereof "10 years".

(B) CONFORMING AMENDMENTS.

(i) Subsection (c) of section 2032A is amended by striking out paragraph (3) and redesignating paragraphs (4) through (7) as paragraphs (3) through (6), respectively.

(ii) Subparagraph (A) of paragraph (2) of section 2032A(h) (relating to treatment of replacement property) is amended by striking out all that follows "involuntarily converted" and inserting in lieu thereof the following: "; except that with respect to such qualified replacement property the 10-year period under paragraph (1) of subsection (c) shall be extended by any period, beyond the 2-year period referred to in section 1033(a)(2)(B)(i), during which the qualified heir was allowed to replace the qualified real property."

(iii) Subparagraph (C) of such paragraph (2) is amended by striking out "(7)" and in-

serting in lieu thereof "(6)"

(2) CESSATION OF QUALIFIED USE.

(A) In general.—Subsection (c) of section 2032A is amended by adding at the end thereof the following new paragraph:

'(7) SPECIAL RULES .-

"(A) No TAX IF USE BEGINS WITHIN 2 YEARS.-If the date on which the qualified heir begins to use the qualified real property (hereinafter in this subparagraph referred to as the commencement date) is before the date 2 years after the decedent's death-

"(i) no tax shall be imposed under paragraph (1) by reason of the failure by the qualified heir to so use such property before

the commencement date, and

"(ii) the 10-year period under paragraph (1) shall be extended by the period after the decedent's death and before the commencement date.

(B) ACTIVE MANAGEMENT BY ELIGIBLE QUALIFIED HEIR TREATED AS MATERIAL PARTICI-PATION.-For purposes of paragraph (6)(B)(ii), the active management of a farm or other business by(i) an eligible qualified heir, or

"(ii) a fiduciary of an eligible qualified heir described in clause (ii) or (iii) of subparagraph (C).

shall be treated as material participation by such eligible qualified heir in the operation of such farm or business. In the case of an eligible qualified heir described in clause (ii), (iii), or (iv) of subparagraph (C), the preceding sentence shall apply only during periods during which such heir meets the requirements of such clause.

(C) ELIGIBLE QUALIFIED HEIR.—For purposes of this paragraph, the term 'eligible qualified heir' means a qualified heir who-

"(i) is the surviving spouse of the dece-

"(ii) has not attained the age of 21,

"(iii) is disabled (within the meaning of subsection (b)(4)(B)), or

"(iv) is a student.

"(D) STUDENT,-For purposes of subparagraph (C), an individual shall be treated as a student with respect to periods during any calendar year if (and only if) such individual is a student (within the meaning of section 151(e)(4)) for such calendar year.

(B) CONFORMING AMENDMENTS.

(i) Subsection (e) of section 2032A (relating to definitions and special rules) amended by adding at the end thereof the following new paragraph:

'(12) ACTIVE MANAGEMENT.-The 'active management' means the making of the management decisions of a business (other than the daily operating decisions)."

(ii) Paragraph (6) of section 2032A(c) (as redesignated by paragraph (1)) is amended by striking out "3 years or more" and inserting in lieu thereof "more than 3 years" (d) Exchange of Qualified Real Proper-

(1) IN GENERAL.—Section 2032A (relating to valuation of certain farm, etc., real property) is amended by adding at the end thereof the following new subsection:

"(i) EXCHANGES OF QUALIFIED REAL PROPER-

TY.—
"(1) TREATMENT OF PROPERTY EXCHANGED.—
"200 QUALIFIED EX "(A) EXCHANGES SOLELY FOR QUALIFIED EX-CHANGE PROPERTY.-If an interest in qualified real property is exchanged solely for an interest in qualified exchange property in a transaction which qualifies under section 1031, no tax shall be imposed by subsection (c) by reason of such exchange.

"(B) EXCHANGES WHERE OTHER PROPERTY RECEIVED.—If an interest in qualified real property is exchanged for an interest in qualified exchange property and other property in a transaction which qualifies under section 1031, the amount of the tax imposed by subsection (c) by reason of such exchange shall be the amount of tax which (but for this subparagraph) would have been imposed on such exchange under subsection (c)(1), reduced by an amount

"(i) bears the same ratio to such tax, as "(ii) the fair market value of the other property bears to the fair market value of the qualified real property exchanged.

For purposes of clause (ii) of the preceding sentence, fair market value shall be determined as of the time of the exchange.

"(2) TREATMENT OF QUALIFIED EXCHANGE PROPERTY.-For purposes of subsection (c)-

"(A) any interest in qualified exchange property shall be treated in the same manner as if it were a portion of the interest in qualified real property which was exchanged.

"(B) any tax imposed by subsection (c) by reason of the exchange shall be treated as a tax imposed on a partial disposition, and

(C) paragraph (6) of subsection (c) shall be applied by treating material participation with respect to the exchanged property as material participation with respect to the qualified exchange property.

"(3) QUALIFIED EXCHANGE PROPERTY.-For purposes of this subsection, the term 'qualified exchange property' means real proper-ty which is to be used for the qualified use set forth in subparagraph (A), (B), or (C) of subsection (b)(2) under which the real property exchanged therefor originally qualified under subsection (a)."

(2) CONFORMING AMENDMENTS.

(A) Paragraph (1) of section 2032A(f) (relating to statute of limitations) is amend-

(i) by inserting "or exchange" after "conversion"

(ii) by inserting "or (i)" after "(h)", and

(iii) by inserting "or of the exchange of property" after "replace".

(B) Paragraph (2) of section 6324B(c) (relating to special liens) is amended by insert-"and qualified exchange property (within the meaning of section 2032A(i)(3))" before the period at the end thereof.

(e) ELECTION REQUIREMENT OF SPECIAL RULES FOR INVOLUNTARY CONVERSIONS RE-

PEALED.

(1) In general.-Section 2032A(h) (relating to special rules for involuntary conver-sions of qualified real property) is amended-

(A) by striking out "and the qualified heir makes an election under this subsection" in paragraph (1)(A); and

(B) by striking out paragraph (5).

(2) CONFORMING AMENDMENT.-Paragraph (1) of section 2032A(f) is amended by striking out "to which an election under subsection (h)" and inserting in lieu thereof "to which subsection (h)".

(f) METHOD OF VALUING FARMS .-

(1) Paragraph (7) of section 2032A(e) (relating to method of valuing farms) amended by redesignating subparagraph (B) as subparagraph (C) and by inserting after subparagraph (A) the following new subparagraph:

"(B) VALUE BASED ON NET SHARE RENTAL IN

CERTAIN CASES.

"(i) In general.—If there is no comparable land from which the average annual gross cash rental may be determined but there is comparable land from which the average net share rental may be determined, subparagraph (A)(i) shall be applied by substituting 'average net share rental' for 'average gross cash rental'.

"(ii) NET SHARE RENTAL.-For purposes of this paragraph, the term 'net share rental'

means the excess of-

"(I) the value of the produce received by the lessor of the land on which such produce is grown, over

'(II) the cash operating expenses of growing such produce which, under the lease, are

paid by the lessor."

(C) Subparagraph of 2032A(e)(7) (as redesignated by paragraph (1)) is amended by inserting after "determined" the following: "and that there is no comparable land from which the average net share rental may be determined"

(g) Basis Increase Where Recapture. Subsection (c) of section 1016 (relating to adjustments to basis) is amended to read as

follows:

"(c) Increase in Basis of Property on Which Additional Estate Tax Is Im-

"(1) Tax imposed with respect to entire interest.—If an additional estate tax is im-

posed under section 2032A(c)(1) with respect to any interest in property and the qualified heir makes an election under this subsection with respect to the imposition of such tax, the adjusted basis of such interest shall be increased by an amount equal to the excess of-

"(A) the fair market value of such interest on the date of the decedent's death (or the alternate valuation date under section 2032, if the executor of the decedent's estate elected the application of such section), over

"(B) the value of such interest determined

under section 2032A(a).

"(2) PARTIAL DISPOSITIONS .-

"(A) In general.—In the case of any par-tial disposition for which an election under this subsection is made, the increase in basis under paragraph (1) shall be an amount-

"(i) which bears the same ratio to the increase which would be determined under paragraph (1) (without regard to this paragraph) with respect to the entire interest, as

"(ii) the amount of the tax imposed under section 2032A(c)(1) with respect to such disposition bears to the adjusted tax difference attributable to the entire interest (as determined under section 2032A(c)(2)(B)).

"(B) PARTIAL DISPOSITION.—For purposes of subparagraph (A), the term 'partial disposition' means any disposition or cessation to which subsection (c)(2)(D), (h)(1)(B), or

(i)(1)(B) of section 2032A applies. (3) TIME ADJUSTMENT MADE.—Any increase in basis under this subsection shall be deemed to have occurred immediately before the disposition or cessation resulting in the imposition of the tax under section

2032A(c)(1). "(4) SPECIAL RULE IN THE CASE OF SUBSTI-TUTED PROPERTY.—If the tax under section 2032A(c)(1) is imposed with respect to qualified replacement property (as defined in section 2032A(h)(3)(B)) or qualified exchange property (as defined in section 2032A(i)(3)), the increase in basis under paragraph (1) shall be made by reference to the property involuntarily converted or exchanged (as

the case may be). "(5) ELECTION .-

"(A) In general.-An election under this subsection shall be made at such time and in such manner as the Secretary shall by regulations prescribe. Such an election, once made, shall be irrevocable.

"(B) INTEREST ON RECAPTURED AMOUNT.-If an election is made under this subsection with respect to any additional estate tax imposed under section 2032A(c)(1), for purposes of section 6601 (relating to interest on underpayments), the last date prescribed for payment of such tax shall be deemed to be the last date prescribed for payment of the tax imposed by section 2001 with respect to the estate of the decedent (as determined for purposes of section 6601)."

(h) SPECIAL RULES FOR WOODLANDS.

(1) VALUE OF TIMBER INCLUDED IN VALU-ATION; ACTIVE MANAGEMENT TREATED AS MATE-RIAL PARTICIPATION.—Subsection (e) of section 2032A is amended by adding at the end thereof the following new paragraph:

"(13) SPECIAL RULES FOR WOODLANDS. "(A) In general .- In the case of any quali-

fied woodland with respect to which the executor elects to have this subparagraph apply, trees growing on such woodland shall

not be treated as a crop.

"(B) QUALIFIED WOODLAND.—The term 'qualified woodland' means any real proper-

ty which-

"(i) is used in timber operations, and

"(ii) is an identifiable area of land such as an acre or other area for which records are

operations

"(C) TIMBER OPERATIONS.-The term timber operations' means

'(i) the planting, cultivating, caring for, or cutting of trees, or

"(ii) the preparation (other than milling) of trees for market.

"(D) ELECTION.—An election under sub-paragraph (A) shall be made on the return of the tax imposed by section 2001. Such election shall be made in such manner as the Secretary shall by regulations prescribe. Such an election, once made, shall be irrevo-

(2) RECAPTURE UPON DISPOSITION TIMBER.—Paragraph (2) of section 2032A(c) (relating to amount of additional tax) is amended by adding at the end thereof the following new subparagraph:

"(E) SPECIAL RULE FOR DISPOSITION OF TIMBER.—In the case of qualified woodland which an election under subsection (e)(13)(A) applies, if the qualified heir disposes of (or severs) any standing timber on such qualified woodland-

'(i) such disposition (or severance) shall be treated as a disposition of a portion of the interest of the qualified heir in such

property, and

"(ii) the amount of the additional tax imposed by paragraph (1) with respect to such disposition shall be an amount equal to the

"(I) the amount realized on such disposition (or, in any case other than a sale or exchange at arm's length, the fair market value of the portion of the interest disposed or severed), or

"(II) the amount of additional tax determined under this paragraph (without regard to this subparagraph) if the entire interest the qualified heir in the qualified woodland had been disposed of, less the sum of the amount of the additional tax imposed with respect to all prior transactions involving such woodland to which this subparagraph applied.

For purposes of the preceding sentence, the disposition of a right to sever shall be treated as the disposition of the standing timber. The amount of additional tax imposed under paragraph (1) in any case in which a qualified heir disposes of his entire interest in the qualified woodland shall be reduced by any amount determined under this subparagraph with respect to such woodland."

(i) DEFINITION OF FAMILY MEMBER.-Paragraph (2) of section 2032A(e) (defining member of family) is amended to read as follows:

"(2) Member of family.—The term 'member of the family' means, with respect to any individual, only-

(A) an ancestor of such individual, "(B) the spouse of such individual,

"(C) a lineal descendant of such individual, of such individual's spouse, or of a parent of such individual, or

'(D) the spouse of any lineal descendant described in subparagraph (C).

For purposes of the preceding sentence, a legally adopted child of an individual shall be treated as the child of such individual by blood."

(j) MISCELLANEOUS AMENDMENTS .-

(1) PROPERTY TRANSFERRED TO CERTAIN DIS-CRETIONARY TRUSTS.—Subsection (g) of section 2032A (relating to application of section 2032A and section 6324B to interests in partnerships, corporations, and trusts) amended by adding at the end thereof the following new sentence: "For purposes of the preceding sentence, an interest in a dis-

normally maintained in conducting timber cretionary trust all the beneficiaries of which are qualified heirs shall be treated as a present interest.

> (2) PROPERTY PURCHASED FROM DECEDENT'S ESTATE ELIGIBLE FOR SPECIAL VALUATION.

> (A) In general.—Paragraph (9) of section 2032A(e) is amended by striking out subparagraphs (B) and (C) and inserting in lieu thereof the following:

> "(B) such property is acquired by any person from the estate, or

> "(C) such property is acquired by any person from a trust (to the extent such property is includible in the gross estate of the decedent).'

> (B) Nonrecognition of gain.—The section heading and subsections (a) and (b) of section 1040 are amended to read as follows:

SEC. 1040. TRANSFER OF CERTAIN FARM, ETC., REAL PROPERTY.

"(a) GENERAL RULE.—If the executor of the estate of any decedent transfers to a qualified heir (within the meaning of section 2032A(e)(1)) any property with respect to which an election was made under section 2032A, then gain on such transfer shall be recognized to the estate only to the extent that, on the date of such exchange, the fair market value of such property exceeds the value of such property for purposes of chapter 11 (determined without regard to section 2032A).

"(b) SIMILAR RULE FOR CERTAIN TRUSTS .-To the extent provided in regulations prescribed by the Secretary, a rule similar to the rule provided in subsection (a) shall apply where the trustee of a trust (any portion of which is included in the gross estate of the decedent) transfers property with respect to which an election was made under section 2032A."

(C) CLERICAL AMENDMENT.-The table of sections for part III of subchapter O of chapter 1 is amended by striking out the item relating to section 1040 and inserting in lieu thereof the following:

"Sec. 1040. Transfer of certain farm, etc., real property."

- (3) ELECTION MAY BE MADE ON LATE RE-TURNS.—Paragraph (1) of section 2032A(d) (relating to election) is amended to read as follows:
- "(1) ELECTION.—The election under this section shall be made on the return of the tax imposed by section 2001. Such election shall be made in such manner as the Secretary shall by regulations prescribe. Such an election, once made, shall be irrevocable.'
- (4) TREATMENT OF REPLACEMENT PROPERTY.—Subsection (e) of section 2032A is amended by adding at the end thereof the following new paragraph:

"(14) TREATMENT OF REPLACEMENT PROPERTY ACQUIRED IN SECTION 1031 OR 1033 TRANSAC-

"(A) In general.—In the case of any qualified replacement property, any period during which there was ownership, qualified use, or material participation with respect to the replaced property by the decedent or any member of his family shall be treated as a period during which there was such ownership, use, or material participation (as the case may be) with respect to the qualified replacement property.

"(B) LIMITATION.—Subparagraph (A) shall not apply to the extent that the fair market value of the qualified replacement property (as of the date of its acquisition) exceeds the fair market value of the replaced property (as of the date of its disposition).

"(C) Definitions.—For purposes of this paragraph—

"(i) QUALIFIED REPLACEMENT PROPERTY.— The term 'qualified replacement property' means any real property which is—

"(I) acquired in an exchange which quali-

fies under section 1031, or

"(II) the acquisition of which results in the nonrecognition of gain under section 1033.

Such term shall only include property which is used for the same qualified use as the replaced property was being used before the exchange.

"(ii) REPLACED PROPERTY.—The term 're-

placed property' means-

"(I) the property transferred in the exchange which qualifies under section 1031, or

"(II) the property compulsorily or involuntarily converted (within the meaning of section 1033)."

(k) EFFECTIVE DATES .-

(1) In general.—Except as otherwise provided in this subsection, the amendments made by this section shall apply with respect to the estates of decedents dying after December 31, 1981.

(2) INCREASE IN LIMITATION.—The amendment made by subsection (a) shall apply with respect to the estates of decedents

dying after December 31, 1980.

(3) Subsection (d).—The amendments made by subsection (d) shall apply with respect to exchanges after December 31, 1981.

- (4) Subsection (e).—The amendments made by subsection (e) shall apply with respect to involuntary conversions after December 31, 1981.
- (5) CERTAIN AMENDMENTS MADE RETROACTIVE TO 1976.—

(A) In general.—The amendments made by subsections (b)(1), (c)(2), (j)(1), and (j)(2) shall apply with respect to the estates of decedents dying after December 31, 1976.

(B) Timely election required.—Subparagraph (A) shall only apply in the case of an estate if a timely election under section 2032A was made with respect to such estate. If the time for making an election under section 2032A with respect to any estate would have otherwise expired after July 28, 1980, the time for making such election shall not expire before the date 6 months after the date of the enactment of this Act.

(C) REINSTATEMENT OF ELECTIONS.—If any election under section 2032A was revoked before the date of the enactment of this Act, such election may be reinstated within 6 months after the date of the enactment of

this Act.

(D) STATUTE OF LIMITATIONS.—If on the date of the enactment of this Act (or at any time within 6 months after such date of enactment) the making of a credit or refund of any overpayment of tax resulting from the amendments described in subparagraph (A) is barred by any law or rule of law, such credit or refund shall nevertheless be made if claim therefor is made before the date 6 months after such date of enactment.

SEC. 422. COORDINATION OF EXTENSIONS OF TIME FOR PAYMENT OF ESTATE TAX WHERE ESTATE CONSISTS LARGELY OF INTEREST IN CLOSELY HELD BUSI-NESS.

(a) ELIGIBILITY REQUIREMENTS .-

(1) In GENERAL.—Paragraph (1) of section 6166(a) (relating to alternate extension of time for payment of estate tax where estate consists largely of interest in closely held business) is amended by striking out "65 percent" and inserting in lieu thereof "35 percent".

(2) Interests in 2 or more closely held Businesses.—Subsection (c) of section 6166 (relating to interests in 2 or more closely held businesses) is amended by striking out "more than 20 percent" and inserting in lieu thereof "20 percent or more".

(b) Coordination With Section 303.—

(1) In general.—Subparagraph (A) of section 303(b)(2) (relating to relationship of stock to decedent's estate) is amended by striking out "50 percent" and inserting in lieu thereof "35 percent".

(2) Conforming amendment.—Subparagraph (B) of section 303(b)(2) is amended to

read as follows:

"(B) SPECIAL RULE FOR STOCK IN 2 OR MORE CORPORATIONS.—For purposes of subparagraph (A), stock of 2 or more corporations, with respect to each of which there is included in determining the value of the decedent's gross estate 20 percent or more in value of the outstanding stock, shall be treated as the stock of a single corporation. For purposes of the 20-percent requirement of the preceding sentence, stock which, at the decedent's death, represents the surviving spouse's interest in property held by the decedent and the surviving spouse as community property or as joint tenants, tenants by the entirety, or tenants in common shall be treated as having been included in determining the value of the decedent's gross estate."

(c) Acceleration of Payment.-

(1) AMOUNT OF DISPOSITION.—Subparagraph (A) of section 6166(g)(1) (relating to acceleration of payment in the case of disposition of interest or withdrawal of funds from business) is amended to read as follows:

"(A) If-

"(i)(I) any portion of an interest in a closely held business which qualifies under subsection (a)(1) is distributed, sold, exchanged, or otherwise disposed of, or

"(II) money and other property attributable to such an interest is withdrawn from

such trade or business, and

"(ii) the aggregate of such distributions, sales, exchanges, or other dispositions and withdrawals equals or exceeds 50 percent of the value of such interest,

then the extension of time for payment of tax provided in subsection (a) shall cease to apply, and the unpaid portion of the tax payable in installments shall be paid upon notice and demand from the Secretary."

(2) FAILURE TO MAKE PAYMENTS.—Paragraph (3) of section 6166(g) (relating to failure to pay installments) is amended to read

as follows:

"(3) FAILURE TO MAKE PAYMENT OF PRINCI-PAL OR INTEREST.—

"(A) In general.—Except as provided in subparagraph (B), if any payment of principal or interest under this section is not paid on or before the date fixed for its payment by this section (including any extension of time), the unpaid portion of the tax payable in installments shall be paid upon notice and demand from the Secretary.

"(B) PAYMENT WITHIN 6 MONTHS.—If any payment of principal or interest under this section is not paid on or before the date determined under subparagraph (A) but is

paid within 6 months of such date—
"(i) the provisions of subparagraph (A) shall not apply with respect to such pay-

"(ii) the provisions of section 6601(j) shall not apply with respect to the determination of interest on such payment, and

"(iii) there is imposed a penalty in an amount equal to the product of—

"(I) 5 percent of the amount of such payment, multiplied by

"(II) the number of months (or fractions thereof) after such date and before payment is made.

The penalty imposed under clause (iii) shall be treated in the same manner as a penalty imposed under subchapter B of chapter 68."

- (3) No disqualification in case of subsequent deaths.—Subparagraph (D) of section 6166(g)(1) is amended by adding at the end thereof the following new sentence: "A similar rule shall apply in the case of a series of subsequent transfers of the property by reason of death so long as each transfer is to a member of the family (within the meaning of section 267(c)(4)) of the transferor in such transfer."
- (d) REPEAL OF SECTION 6166A.—Section 6166A (relating to extension of time for payment of estate tax where estate consists largely of interest in a closely held business) is hereby repealed.

(e) TECHNICAL AMENDMENTS .-

- (1) Sections 303(b)(1)C), 2204(c), and 6161(a)(2)(B) are each amended by striking out "or 6166A" each place it appears.
- (2) Paragraph (2) of section 2011(c) is amended by striking out "6161, 6166 or 6166A" and inserting in lieu thereof "6161 or 6166".
- (3) Subsections (a) and (b) of section 2204 are each amended by striking out "6166 or 6166A" and inserting in lieu thereof "or 6166".
- (4) Subsection (b) of section 2621 is amended—
- (A) by striking out "sections 6166 and 6166A (relating to extensions" and inserting in lieu thereof "section 6166 (relating to extension", and
- (B) by striking out "Sections 6166 and 6166A" in the subsection heading and inserting in lieu thereof "Section 6166".
- (5)(A) Subsection (a) of section 6166 is amended by striking out paragraph (4).
- (B) The section heading for section 6166 is amended by striking out "alternate".
- (C) The table of sections for subchapter B of chapter 62 is amended by striking out the items relating to sections 6166 and 6166A and inserting in lieu thereof the following:

"Sec. 6166. Extension of time for payment of estate tax where estate consists largely of interest in closely held business."

(6)(A) Subsections (a), (c)(2), and (e) of section 6324A are each amended by striking out "or 6166A" each place it appears.

(B) Paragraphs (3) and (5) of section 6324A(d) are each amended by striking out "or 6166A(h)".

(C) The section heading for section 6324A is amended by striking out "or 6166a".

- (D) The table of sections for subchapter C of chapter 64 is amended by striking out "or 6166A" in the item relating to section 6324A.
- (7) Subsection (d) of section 6503 is amended by striking out "6163, 6166, or 6166A" and inserting in lieu thereof "6163 or 6166".
- (8) Subsection (a) of section 7403 is amended by striking out "or 6166A(h)".

(f) EFFECTIVE DATE.-

(1) In general.—Except as provided in paragraph (2), the amendments made by this section shall apply to the estates of decedents dying after December 31, 1981.

(2) Acceleration by reason of subsequent death.—The amendment made by

subsection (c)(3) shall apply to transfers after December 31, 1981.

SEC. 423. TREATMENT OF CERTAIN CONTRIBUTIONS OF WORKS OF ART, ETC.

(a) ESTATE Tax.—Subsection (e) of section 2055 (relating to disallowance of deduction in certain cases) is amended by adding at the end thereof the following new paragraph:

'(4) Works of art and their copyrights TREATED AS SEPARATE PROPERTIES IN CERTAIN

"(A) In general.—In the case of a qualified contribution of a work of art, the work of art and the copyright on such work of art shall be treated as separate properties for purposes of paragraph (2).

"(B) Work of art defined.-For purposes of this paragraph, the term 'work of art' means any tangible personal property with respect to which there is a copyright under

- Federal law.
 "(C) QUALIFIED CONTRIBUTION DEFINED.— For purposes of this paragraph, the term 'qualified contribution' means any transfer of property to a qualified organization if the use of the property by the organization is related to the purpose or function constituting the basis for its exemption under section
- "(D) QUALIFIED ORGANIZATION DEFINED .-For purposes of this paragraph, the term 'qualified organization' means any organization described in section 501(c)(3) other than a private foundation (as defined in section 509). For purposes of the preceding sentence, a private operating foundation (as defined in section 4942(j)(3)) shall not be treated as a private foundation."

(b) GIFT Tax.—Subsection (c) of section 2522 is amended by adding at the end there-

of the following new paragraph:

"(3) Rules similar to the rules of section 2055(e)(4) shall apply for purposes of paragraph (2)."

(c) EFFECTIVE DATES .-

- (1) Subsection (a).—The amendment made by subsection (a) shall apply to the estates of decedents dying after December 31,
- Subsection (b).—The amendment (2) made by subsection (b) shall apply to transfers after December 31, 1981.

SEC. 424. GIFTS MADE WITHIN 3 YEARS OF DECE-DENT'S DEATH NOT INCLUDED IN GROSS ESTATE.

(a) GENERAL RULE.—Section 2035 (relating to adjustments for gifts made within 3 years of decedent's death) is amended by adding at the end thereof the following new subsec-

"(d) DECEDENTS DYING AFTER 1981.

"(1) In general.—Except as otherwise provided in this subsection, subsection (a) shall not apply to the estate of a decedent dying

after December 31, 1981.

"(2) EXCEPTIONS FOR CERTAIN TRANSFERS. Paragraph (1) shall not apply to a transfer of an interest in property which is included in the value of the gross estate under section 2036, 2037, 2038, 2041, or 2042 or would have been included under any of such sections if such interest had been retained by the decedent.

"(3) 3-YEAR RULE RETAINED FOR CERTAIN PURPOSES.-Paragraph (1) shall not apply

for purposes of-

(A) section 303(b) (relating to distributions in redemption of stock to pay death

taxes),
"(B) section 2032A (relating to special valuation of certain farm, etc., real proper-

ty),
"(C) section 6166 (relating to extension of time for payment of estate tax where estate

consists largely of interest in closely held business), and

"(D) subchapter C of chapter 64 (relating to lien for taxes).'

(b) Effective Date.-The amendment made by subsection (a) shall apply to the estates of decedents dying after December 31, 1981.

SEC. 425. BASIS OF CERTAIN APPRECIATED PROP-ERTY TRANSFERRED TO DECEDENT BY GIFT WITHIN 1 YEAR OF DEATH.

(a) GENERAL RULE.—Section 1014 (relating to basis of property acquired from a decedent) is amended by adding at the end thereof the following new subsection:

"(e) APPRECIATED PROPERTY ACQUIRED BY DECEDENT BY GIFT WITHIN 1 YEAR OF

DEATH.

"(1) In general.—In the case of a decedent dying after December 31, 1981, if-

'(A) appreciated property was acquired by the decedent by gift during the 1-year period ending on the date of the decedent's death, and

"(B) such property is acquired from the decedent by (or passes from the decedent to) the donor of such property (or the spouse of such donor),

the basis of such property in the hands of such donor (or spouse) shall be the adjusted basis of such property in the hands of the decedent immediately before the death of the decedent.

"(2) DEFINITIONS.-For purposes of paragraph (1)-

"(A) APPRECIATED PROPERTY.—The term appreciated property means any property if the fair market value of such property on the day it was transferred to the decedent by gift exceeds its adjusted basis.

"(B) TREATMENT OF CERTAIN PROPERTY SOLD BY ESTATE.-In the case of any appreciated property described in subparagraph (A) of paragraph (1) sold by the estate of the decedent or by a trust of which the decedent was the grantor, rules similar to the rules of paragraph (1) shall apply to the extent the donor of such property (or the spouse of such donor) is entitled to the proceeds from such sale."

EFFECTIVE DATE.—The amendment (b) made by subsection (a) shall apply to property acquired after the date of the enactment of this Act by decedents dying after December 31, 1981.

SEC. 426. DISCLAIMERS.

(a) In General.—Subsection (c) of section 2518 (relating to disclaimers) is amended by adding at the end thereof the following new

"(3) CERTAIN TRANSFERS TREATED AS DIS-CLAIMERS.—For purposes of subsection (a), a written transfer of the transferor's entire

interest in the property.

'(A) which meets requirements similar to the requirements of paragraphs (2) and (3) of subsection (b), and

"(B) which is to a person or persons who would have received the property had the transferor made a qualified disclaimer (within the meaning of subsection (b)), shall be treated as a qualified disclaimer."

EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to transfers creating an interest in the person disclaiming made after December 31, 1981.

SEC. 427. REPEAL OF DEDUCTION FOR BEQUESTS, ETC., TO CERTAIN MINOR CHILDREN.

(a) In General.-Section 2057 (relating to bequests, etc., to certain minor children) is hereby repealed.

(b) CLERICAL AMENDMENT.—The table of sections for part IV of subchapter A of chapter 11 is amended by striking out the item relating to section 2057.

EFFECTIVE DATE.—The amendments made by this section shall apply to estates of decedents dying after December 31, 1981. SEC. 428. POSTPONEMENT OF GENERATION-SKIP-PING TAX EFFECTIVE DATE.

Section 2006(c) of the Tax Reform Act of 1976 (relating to the effective dates of generation-skipping provisions), as amended by section 702(n)(1) of the Revenue Act of 1978 is amended by striking out "January 1, 1982" in paragraph (2)(B) of such section and inserting in lieu thereof "January 1, 1983".

SEC. 429. CREDIT AGAINST ESTATE TAX FOR TRANS-FER TO SMITHSONIAN

Upon transfer to the Smithsonian Institution, within thirty days following the date of the enactment of this Act, of all right, title, and interests held by the Dorothy Me-Kunhardt trust and the estate of Dorothy Meserve Kunhardt in the collection of approximately seven thousand two hundred and fifty Mathew Brady glass plate negatives and the Alexander Gardner imperial portrait print of Abraham Lincoln, there shall be allowed as a credit, effective as of the date upon which the return was due to be filed, against the tax imposed by section 2001 (relating to the imposition of estate tax) on such estate an amount equal to the lesser of-

(1) such tax,

(2) the fair market value of such negatives and such print, or

(3) \$700,000.

Subtitle C-Other Gift Tax Provisions

SEC. 441. INCREASE IN ANNUAL GIFT TAX EXCLU-SION: UNLIMITED EXCLUSION FOR CERTAIN TRANSFERS.

(a) INCREASE IN ANNUAL EXCLUSION.—Subsection (b) of section 2503 (relating to annual gift tax exclusion) is amended by striking out "\$3,000" and inserting in lieu thereof "\$10,000".

(b) UNLIMITED EXCLUSION FOR CERTAIN Transfers.-Section 2503 (defining taxable gifts) is amended by adding at the end thereof the following new subsection:

"(e) EXCLUSION FOR CERTAIN TRANSFERS FOR EDUCATIONAL EXPENSES OR MEDICAL EX-PENSES.

"(1) In general.—Any qualified transfer shall not be treated as a transfer of property by gift for purposes of this chapter.

"(2) QUALIFIED TRANSFER.—For purposes of this subsection, the term 'qualified transfer' means any amount paid on behalf of an individual-

'(A) as tuition to an educational organization described in section 170(b)(1)(A)(ii) for the education or training of such individual,

"(B) to any person who provides medical care (as defined in section 213(e)) with respect to such individual as payment for such medical care."

(c) Effective Dates .-

(1) In GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to transfers after December 31, 1981.

(2) Transitional rule.—If-

(A) an instrument executed before the date which is 30 days after the date of the enactment of this Act provides for a power of appointment which may be exercised during any period after December 31, 1981,

(B) such power of appointment is expressly defined in terms of, or by reference to, the amount of the gift tax exclusion under section 2503(b) of the Internal Revenue

Code of 1954 (or the corresponding provision of prior law),

(C) the instrument described in subparagraph (A) has not been amended on or after the date which is 30 days after the date of the enactment of this Act, and

(D) the State has not enacted a statute applicable to such gift under which such power of appointment is to be construed as being defined in terms of, or by reference to, the amount of the exclusion under such section 2503(b) after its amendment by subsection (a).

then the amendment made by subsection (a) shall not apply to such gift.

SEC. 442. TIME FOR PAYMENT OF GIFT TAXES.

(a) AMENDMENTS TO SUBCHAPTER A OF CHAPTER 12.—

(1) Section 2501.—Subsection (a) of section 2501 (relating to imposition of gift tax) is amended by striking out "calendar quarter" each place it appears and inserting in lieu thereof "calendar year".

lieu thereof "calendar year".

(2) Section 2502.—Section 2502 (relating to rate of tax) is amended to read as follows:

"SEC. 2502. RATE OF TAX.

"(a) Computation of Tax.—The tax imposed by section 2501 for each calendar year shall be an amount equal to the excess of—

"(1) a tentative tax, computed in accordance with the rate schedule set forth in section 2001(c), on the aggregate sum of the taxable gifts for such calendar year and for each of the preceding calendar periods, over

"(2) a tentative tax, computed in accordance with such rate schedule, on the aggregate sum of the taxable gifts for each of the

preceding calendar periods.

"(b) PRECEDING CALENDAR PERIOD.—Whenever used in this title in connection with the gift tax imposed by this chapter, the term 'preceding calendar period' means—

"(1) calendar years 1932 and 1970 and all calendar years intervening between calendar

year 1932 and calendar year 1970,

"(2) the first calendar quarter of calendar year 1971 and all calendar quarters intervening between such calendar quarter and the first calendar quarter of calendar year 1982, and

"(3) all calendar years after 1981 and before the calendar year for which the tax

is being computed.

For purposes of paragraph (1), the term 'calendar year 1932' includes only that portion of such year after June 6, 1932.

"(c) Tax To Be Paid by Donor.—The tax imposed by section 2501 shall be paid by the donor."

(3) SECTION 2503.-

(A) Subsection (a) of section 2503 is amended to read as follows:

"(a) GENERAL DEFINITION.—The term 'taxable gifts' means the total amount of gifts made during the calendar year, less the deductions provided in subchapter C (section 2522 and following)."

(B) The first sentence of subsection (b) of section 2503 is amended to read as follows: "In the case of gifts (other than gifts of future interests in property) made to any person by the donor during the calendar year, the first \$10,000 of such gifts to such person shall not, for purposes of subsection (a), be included in the total amount of gifts made during such year."

(4) SECTION 2504.—

(A) Subsection (a) of section 2504 is

amended to read as follows:

"(a) In General.—In computing taxable gifts for preceding calendar periods for purposes of computing the tax for any calendar year.—

"(1) there shall be treated as gifts such transfers as were considered to be gifts under the gift tax laws applicable to the calendar period in which the transfers were made

"(2) there shall be allowed such deductions as were provided for under such laws, and

"(3) the specific exemption in the amount (if any) allowable under section 2521 (as in effect before its repeal by the Tax Reform Act of 1976) shall be applied in all computations in respect of preceding calendar periods ending before January 1, 1977, for purposes of computing the tax for any calendar year."

(B) Subsection (b) of section 2504 is amended—

(i) by striking out "preceding calendar years and calendar quarters" and inserting in lieu thereof "preceding calendar periods",

(ii) by striking out "the years and calendar quarters" and inserting in lieu thereof "the periods",

(iii) by striking out "such years and calendar quarters" and inserting in lieu thereof "such preceding calendar periods", and (iv) by striking out "PRECEDING YEARS AND

(iv) by striking out "Preceding Years and QUARTERS" in the subsection heading and inserting in lieu thereof "Preceding Calendar Periods".

(C) Subsection (c) of section 2504 is amended—

(i) by striking out "preceding calendar year or calendar quarter" each place it appears and inserting in lieu thereof "preceding calendar period"

ing calendar period",

(ii) by striking out "under this chapter for any calendar quarter" and inserting in lieu thereof "under this chapter for any calen-

dar year"

(iii) by striking out "section 2502(c)" and inserting in lieu thereof "section 2502(b)", and

(iv) by striking out "Preceding Calendar Years and Quarters" in the subsection heading and inserting in lieu thereof "Preceding Calendar Periods".

(D) The section heading for section 2504 is amended by striking out "PRECEDING YEARS AND QUARTERS" and inserting in lieu thereof "PRECEDING CALENDAR PERIODS".

(E) The table of sections for subchapter A of chapter 12 is amended by striking out "preceding years and quarters" in the item relating to section 2504 and inserting in lieu

thereof "preceding calendar periods".
(5) Section 2505.—

(A) Subsection (a) of section 2505 is amended—

(i) by striking out "each calendar quarter" and inserting in lieu thereof "each calendar year", and

(ii) by striking out "preceding calendar quarters" and inserting in lieu thereof "preceding calendar periods".

(B) Subsection (d) of section 2505 is amended by striking out "calendar quarter" each place it appears and inserting in lieu thereof "calendar year".

(b) Amendments to Subchapter B of Chapter 12.—

(1) Section 2512.—Subsection (b) of section 2512 is amended by striking out "calendar quarter" and inserting in lieu thereof "calendar year".

(2) SECTION 2513.-

(A) Section 2513(a) is amended by striking out "calendar quarter" each place it appears and inserting in lieu thereof "calendar year".

(B) Paragraph (2) of section 2513(b) is amended by striking out "calendar quarter" in the matter preceding subparagraph (A)

and inserting in lieu thereof "calendar year".

(C) Subparagraph (A) of subsection (b)(2) of section 2513 is amended to read as follows:

"(A) The consent may not be signified after the 15th day of April following the close of such year, unless before such 15th day no return has been filed for such year by either spouse, in which case the consent may not be signified after a return for such year is filed by either spouse."

(D) Subparagraph (B) of subsection (b)(2)

of section 2513 is amended—

(i) by striking out "the consent" and in-

serting in lieu thereof "The consent", and
(ii) by striking out "such calendar quar-

(ii) by striking out "such calendar quarter" and inserting in lieu thereof "such year".

(E) Subsection (c) of section 2513 is amended—

(i) by striking out "calendar quarter" and inserting in lieu thereof "calendar year", and

(ii) by striking out "15th day of the second month following the close of such quarter" and inserting in lieu "15th day of April following the close of such year".

(F) Subsection (d) of section 2513 is

amended-

(i) by striking out "any calendar quarter" and inserting in lieu thereof "any calendar year", and

(ii) by striking out "such calendar quarter" and inserting in lieu thereof "such year".

(c) AMENDMENT TO SUBCHAPTER C OF CHAPTER 12.—Section 2522 is amended by striking out "quarter" each place it appears and inserting in lieu thereof "year".

(d) MISCELLANEOUS AMENDMENTS .-

(1) Paragraph (2) of subsection (d) of section 1015 (relating to increased basis for gift tax paid) is amended—

(A) by striking out "calendar quarter (or calendar year if the gift was made before January 1, 1971)" and inserting in lieu thereof "calendar year (or preceding calendar period)", and
(B) by striking out "calendar quarter or

(B) by striking out "calendar quarter or year" each place it appears and inserting in lieu thereof "calendar year or period".

(2) Section 6019 (relating to gift tax returns) is amended by striking out subsection

(3) Subsection (b) of section 6075 (relating to time for filing gift tax returns) is amended to read as follows:

"(b) GIFT TAX RETURNS.-

"(1) GENERAL RULE.—Returns made under section 6019 (relating to gift taxes) shall be filed on or before the 15th day of April following the close of the calendar year.

"(2) EXTENSION WHERE TAXPAYER GRANTED EXTENSION FOR FILING INCOME TAX RETURN.— Any extension of time granted the taxpayer for filing the return of income taxes imposed by subtitle A for any taxable year which is a calendar year shall be deemed to be also an extension of time granted the taxpayer for filing the return under section 6019 for such calendar year.

"(3) COORDINATION WITH DUE DATE FOR ESTATE TAX RETURN.—Notwithstanding paragraphs (1) and (2), the time for filing the return made under section 6019 for the calendar year which includes the date of death of the donor shall not be later than the time (including extensions) for filing the return made under section 6018 (relating to estate tax returns) with respect to such donor."

(4) Paragraph (1) of section 6212(c) (relating to notice of deficiency) is amended by

striking out "calendar quarter" and insert-

ing in lieu thereof "calendar year".

(e) Effective Date.—The amendments made by this section shall apply with respect to gifts made after December 31, 1981,

TITLE V-TAX STRADDLES

SEC. 501. POSTPONEMENT OF RECOGNITION OF LOSSES, ETC.

(a) GENERAL RULE.—Part VII of subchapter O of chapter 1 (relating to wash sales of stock or securities) is amended by adding at the end thereof the following new section: "SEC. 1092, STRADDLES

"(a) RECOGNITION OF LOSS IN CASE OF STRADDLES ETC.

(1) LIMITATION ON RECOGNITION OF LOSS. "(A) In general.-Any loss with respect to 1 or more positions shall be taken into account for any taxable year only to the extent that the amount of such loss exceeds the unrealized gain (if any) with respect to 1 or more positions which-

'(i) were acquired by the taxpayer before the disposition giving rise to such loss,

'(ii) were offsetting positions with respect to the 1 or more positions from which the loss arose, and

"(iii) were not part of an identified straddle as of the close of the taxable year.

"(B) CARRYOVER OF LOSS.—Any loss which may not be taken into account under subparagraph (A) for any taxable year shall, subject to the limitations under subparagraph (A), be treated as sustained in the succeeding taxable year.

"(2) SPECIAL RULE FOR IDENTIFIED STRAD-

"(A) In general.-In the case of any straddle which is an identified straddle as of the close of any taxable year-

"(i) paragraph (1) shall not apply for such

taxable year, and

"(ii) any loss with respect to such straddle shall be treated as sustained not earlier than the day on which all of the positions making up the straddle are disposed of.

"(B) IDENTIFIED STRADDLE.—The identified straddle means any straddle-

"(i) which is clearly identified on the taxpayer's records, before the close of the day on which the straddle is acquired, as an identified straddle,

"(ii) all of the original positions of which (as identified by the taxpayer) are acquired on the same day and with respect to

which-'(I) all of such positions are disposed of on the same day during the taxable year, or

"(II) none of such positions has been disposed of as of the close of the taxable year,

"(iii) which is not part of a larger straddle. "(3) UNREALIZED GAIN.-For purposes of

this subsection-"(A) In GENERAL.-The term 'unrealized means the amount of gain which would be taken into account with respect to any position held by the taxpayer as of the close of the taxable year if such position were sold on the last business day of such taxable year at its fair market value.

"(B) REPORTING OF GAIN.

"(i) In general.-Each taxpayer shall disclose to the Secretary, at such time and in such manner and form as the Secretary may prescribe by regulations-

'(I) each position (whether or not part of a straddle) which is held by such taxpayer as of the close of the taxable year and with respect to which there is unrealized gain,

"(II) the amount of such unrealized gain. "(ii) Reports not required in certain cases.—Clause (i) shall not apply—

"(I) to any position which is part of an identified straddle.

"(II) to any position which, with respect to the taxpayer, is property described in paragraph (1) or (2) of section 1221 or to any position which is part of a hedging transaction (as defined in section 1256(e)). or

"(III) with respect to any taxable year if no loss on a position (including a regulated futures contract) has been sustained during such taxable year or if the only loss sustained on such position is a loss described in subclause (II).

"(b) CHARACTER OF GAIN OR LOSS: WASH SALES.-Under regulations prescribed by the Secretary, in the case of gain or loss with respect to any position of a straddle, rules which are similar to the rules of subsections (a) and (d) of section 1091 and of subsections (b) and (d) of section 1233 and which are consistent with the purposes of this section shall apply.

"(c) STRADDLE DEFINED.—For purposes of this section-

"(1) In GENERAL.-The term 'straddle' means offsetting positions with respect to personal property

(2) Offsetting positions.

"(A) In general.—A taxpayer holds offsetting positions with respect to personal property if there is a substantial diminution of the taxpayer's risk of loss from holding any position with respect to personal property by reason of his holding 1 or more other positions with respect to personal property (whether or not of the same kind).

(B) ONE SIDE LARGER THAN OTHER SIDE.-If 1 or more positions offset only a portion of or more other positions, the Secretary shall by regulations prescribe the method for determining the portion of such other positions which is to be taken into account

for purposes of this section.

"(C) SPECIAL RULE FOR IDENTIFIED STRAD-DLES.—In the case of any position which is not part of an identified straddle (within the meaning of subsection (a)(3)(B)), such position shall not be treated as offsetting with respect to any position which is part of an identified straddle.

"(3) Presumption.—
"(A) In general.—For purposes of paragraph (2), 2 or more positions shall be pre-sumed to be offsetting if—

'(i) the positions are in the same personal property (whether established in such property or a contract for such property),

"(ii) the positions are in the same personal property, even though such property may be in a substantially altered form,

"(iii) the positions are in debt instruments of a similar maturity or other debt instruments described in regulations prescribed by

the Secretary,
"(iv) the positions are sold or marketed as offsetting positions (whether or not such positions are called a straddle, spread, butterfly, or any similar name),

'(v) the aggregate margin requirement for such positions is lower than the sum of the margin requirements for each such position (if held separately), or

"(vi) there are such other factors (or satisfaction of subjective or objective tests) as the Secretary may by regulations prescribe as indicating that such positions are offset-

For purposes of the preceding sentence, 2 or more positions shall be treated as described in clause (i), (ii), (iii), or (vi) only if the value of 1 or more of such positions ordinarily varies inversely with the value of 1 or more other such positions.

"(B) PRESUMPTION MAY BE REBUTTED .- Any presumption established pursuant to subparagraph (A) may be rebutted.

"(d) DEFINITIONS AND SPECIAL RULES .- For

purposes of this section-

"(1) PERSONAL PROPERTY.-The term 'personal property' means any personal property (other than stock) of a type which is actively traded.

"(2) Position .-

"(A) In GENERAL.-The term 'position' means an interest (including a futures or forward contract or option) in personal property

"(B) SPECIAL RULE FOR STOCK OPTIONS. The term 'position' includes any stock option which is a part of a straddle and which is an option to buy or sell stock which is actively traded, but does not include a stock option which-

"(i) is traded on a domestic exchange or on a similar foreign exchange designated by

the Secretary, and

"(ii) is of a type with respect to which the maximum period during which such option may be exercised is less than the minimum period for which a capital asset must be held for gain to be treated as long-term capital gain under section 1222(3).

"(3) Positions held by related persons,

"(A) In GENERAL.—In determining whether 2 or more positions are offsetting, the taxpayer shall be treated as holding any position held by a related person.

"(B) RELATED PERSON.-For purposes of subparagraph (A), a person is a related person to the taxpayer if with respect to any period during which a position is held by such person, such person-

"(i) is the spouse of the taxpayer, or

"(ii) files a consolidated return (within the meaning of section 1501) with the taxpayer for any taxable year which includes a portion of such period.

"(C) CERTAIN FLOWTHROUGH ENTITIES.-If part or all of the gain or loss with respect to a position held by a partnership, trust, or other entity would properly be taken into account for purposes of this chapter by a taxpayer, then, except to the extent otherwise provided in regulations, such position shall be treated as held by the taxpayer.

"(4) SPECIAL RULE FOR REGULATED FUTURES contracts.-In the case of a straddle-

"(A) at least 1 (but not all) of the positions of which are regulated futures contracts, and

"(B) with respect to which the taxpayer has elected not to have the provisions of section 1256 apply.

the provisions of this section shall apply to any regulated futures contract and any other position making up such straddle.

"(5) REGULATED FUTURES CONTRACT.—The term 'regulated futures contract' has the same meaning given such term by section 1256(b).

(e) EXCEPTION FOR HEDGING TRANSAC-TIONS.-This section shall not apply in the case of any hedging transaction (as defined in section 1256(e)).

'(f) Cross Reference -

"For provision requiring capitalization of certain interest and carrying charges where there is a straddle, see section 263(g).'

(b) PENALTY FOR FAILURE TO DISCLOSE .-Section 6653 (relating to failure to pay tax) is amended by adding at the end thereof the following new subsection:

"(g) SPECIAL RULE IN CASES OF FAILURE TO REPORT UNREALIZED GAIN ON POSITION IN PERSONAL PROPERTY.-If-

"(1) a taxpayer fails to make the report required under section 1092(a)(3)(B) in the manner prescribed by such section and such failure is not due to reasonable cause, and

"(2) such taxpayer has an underpayment of any tax attributable (in whole or in part) to the denial of a deduction of a loss with respect to any position (within the meaning of section 1092(d)(2)),

then such underpayment shall, for purposes of subsection (a), be treated as an underpayment due to negligence or intentional disregard of rules and regulations (but without intent to defraud).".

APPLICATION WITH SECTION Paragraph (2) of section 1233(e) (defining property to which section applies) is amended by inserting ", but does not include any position to which section 1092(b) applies" after "taxpayer" in subparagraph (A), (d) CLERICAL AMENDMENTS.—

(1) The table of sections for such part VII is amended by adding at the end thereof the following new item:

'Sec. 1092. Straddles."

(2) The heading for such part VII is amended to read as follows:

"PART VII-WASH SALES; STRADDLES".

(3) The table of parts for subchapter O of chapter 1 is amended by striking out the item relating to part VII and inserting in lieu thereof the following:

'Part VII. Wash sales; straddles."

SEC. 502. CAPITALIZATION OF CERTAIN INTEREST AND CARRYING CH CASE OF STRADDLES. CHARGES IN THE

Section 263 (relating to capital expenditures) is amended by adding at the end thereof the following new subsection:

(g) CERTAIN INTEREST AND CARRYING COSTS IN THE CASE OF STRADDLES.

"(1) GENERAL RULE.—No deduction shall be allowed for interest and carrying charges properly allocable to personal property which is part of a straddle (as defined in section 1092(c)). Any amount not allowed as a deduction by reason of the preceding sentence shall be chargeable to the capital account with respect to the personal property to which such amount relates.
"(2) Interest and carrying charges de-

FINED.-For purposes of paragraph (1), the term 'interest and carrying charges' means

the excess of-"(A) the sum of-

"(i) interest on indebtedness incurred or continued to purchase or carry the personal property, and

(ii) amounts paid or incurred to insure, store, or transport the personal property,

"(B) the sum of-

"(i) the amount of interest (including original issue discount) includible in gross income for the taxable year with respect to the property described in subparagraph (A),

"(ii) any amount treated as ordinary income under section 1232(a)(4)(A) with respect to such property for the taxable year.

"(3) EXCEPTION FOR HEDGING TRANSAC-TIONS.—This subsection shall not apply in the case of any hedging transaction (as defined in section 1256(e))."

SEC. 503. REGULATED FUTURES CONTRACTS MARKED TO MARKET.

(a) GENERAL RULE.—Part IV of subchapter P of chapter 1 (relating to special rules for determining capital gains and losses) is amended by adding at the end thereof the following new section:

"SEC. 1256. REGULATED FUTURES CONTRACTS MARKED TO MARKET.

"(a) GENERAL RULE.—For purposes of this subtitle-

"(1) each regulated futures contract held by the taxpayer at the close of the taxable year shall be treated as sold for its fair market value on the last business day of such taxable year (and any gain or loss shall be taken into account for the taxable year),

"(2) proper adjustment shall be made in the amount of any gain or loss subsequently realized for gain or loss taken into account

by reason of paragraph (1),

(3) any gain or loss with respect to a regulated futures contract shall be treated as-

"(A) short-term capital gain or loss, to the extent of 40 percent of such gain or loss,

"(B) long-term capital gain or loss, to the extent of 60 percent of such gain or loss. and

"(4) if all the offsetting positions making up any straddle consist of regulated futures contracts to which this section applies (and such straddle is not part of a larger straddle), sections 1092 and 263(g) shall not apply with respect to such straddle.

'(b) REGULATED FUTURES CONTRACTS DE-FINED.-For purposes of this section, the term 'regulated futures contract' means a

"(1) which requires delivery of personal property (as defined in section 1092(d)(1)) or an interest in such property

'(2) with respect to which the amount required to be deposited and the amount which may be withdrawn depends on a system of marking to market; and

"(3) which is traded on or subject to the rules of a domestic board of trade designated as a contract market by the Commodity Futures Trading Commission or of any board of trade or exchange which the Secretary determines has rules adequate to carry out the purposes of this section.

"(c) TERMINATIONS.—The rules of paragraphs (1), (2), and (3) of subsection (a) shall also apply to the termination during the taxable year of the taxpayer's obligation with respect to a regulated futures contract by offsetting, by taking or making delivery, or otherwise. For purposes of the preceding sentence, fair market value at the time of the termination shall be taken into account

"(d) ELECTIONS WITH RESPECT TO MIXED

STRADDLES.

"(1) Election.—The taxpayer may elect to have this section not to apply to all regulated futures contracts which are part of a mixed straddle.

(2) TIME AND MANNER.—An election under paragraph (1) shall be made at such time and in such manner as the Secretary may

by regulations prescribe.

(3) ELECTION REVOCABLE ONLY WITH CON-SENT.—An election under paragraph (1) shall apply to the taxpayer's taxable year for which made and to all subsequent taxable years, unless the Secretary consents to a revocation of such election.

"(4) MIXED STRADDLE.—For purposes of this subsection, the term 'mixed straddle' means any straddle (as defined in section

1092(c))-

"(A) at least 1 (but not all) of the positions of which are regulated futures contracts, and

"(B) with respect to which each position forming part of such straddle is clearly identified, before the close of the day on which such position is acquired, as being part of

"(e) MARK TO MARKET NOT TO APPLY TO

HEDGING TRANSACTIONS .-

1) Section not to apply.—Subsection (a) shall not apply in the case of a hedging transaction.

"(2) DEFINITION OF HEDGING TRANSAC-TION.—For purposes of this subsection, the term 'hedging transaction' means any transaction if-

"(A) such transaction is entered into by the taxpayer in the normal course of the taxpayer's trade or business primarily-

"(i) to reduce risk of price change or currency fluctuations with respect to property which is held or to be held by the taxpayer,

"(ii) to reduce risk of interest rate or price changes or currency fluctuations with respect to borrowings made or to be made, or obligations incurred or to be incurred, by the taxpayer,

"(B) the gain or loss on such transactions is treated as ordinary income or loss, and

'(C) before the close of the day on which such transaction was entered into, the taxpayer clearly identifies such transaction as being a hedging transaction.

"(3) SPECIAL RULE FOR SYNDICATES.

"(A) In GENERAL.-Notwithstanding paragraph (2), the term 'hedging transaction' shall not include any transaction entered into by or for a syndicate.

"(B) SYNDICATE DEFINED.-For purposes of subparagraph (A), the term 'syndicate' means any partnership or other entity (other than a corporation which is not an electing small business corporation within the meaning of section 1371(b)) if more than 35 percent of the losses of such entity during the taxable year are allocable to limpartners or limited entrepreneurs (within the meaning of section 464(e)(2)).

"(C) HOLDINGS ATTRIBUTABLE TO ACTIVE MANAGEMENT.-For purposes of subparagraph (B), an interest in an entity shall not be treated as held by a limited partner or a limited entrepreneur (within the meaning

of section 464(e)(2))-

"(i) for any period if during such period such interest is held by an individual who actively participates at all times during such period in the management of such entity.

"(ii) for any period if during such period such interest is held by the spouse, children, grandchildren, and parents of an individual who actively participates at all times during such period in the management of such

"(iii) if such interest is held by an individual who actively participated in the management of such entity for a period of not less

than 5 years.

"(iv) if such interest is held by the estate of an individual who actively participated in the management of such entity or is held by the estate of an individual if with respect to such individual such interest was at any time described in clause (ii), or

"(v) if the Secretary determines that such interest should be treated as held by an individual who actively participates in the management of such entity, and that such entity and such interest are not used (or to be used) for tax-avoidance purposes.

For purposes of this subparagraph, a legally adopted child of an individual shall be treated as a child of such individual by blood.

"(4) SPECIAL RULE FOR BANKS.—In the case of a bank (as defined in section 581), subparagraph (A) of paragraph (2) shall be applied without regard to clause (i) or (ii) thereof.

"(f) SPECIAL RULES .-

"(1) DENIAL OF CAPITAL GAINS TREATMENT FOR PROPERTY IDENTIFIED AS PART OF A HEDG-ING TRANSACTION.-For purposes of this title, gain from any property shall in no event be considered as gain from the sale or exchange of a capital asset if such property was at any time personal property (as defined in section 1092(d)(1)) identified under subsection (e)(2)(C) by the taxpayer as being part of a hedging transaction.

"(2) Subsection (a)(3) not to apply to ordinary income property.—Paragraph (3) of subsection (a) shall not apply to any gain or loss which, but for such paragraph, would be ordinary income or loss.".

(b) CLERICAL AMENDMENT.—The table of sections for part IV of subchapter P of chapter 1 is amended by adding at the end thereof the following new item:

"Sec. 1256. Regulated futures contracts marked to market.".

SEC. 504. CARRYBACK OF LOSSES FROM REGULAT-ED FUTURES CONTRACTS TO OFFSET PRIOR GAINS FROM SUCH CONTRACTS.

Section 1212 (relating to capital loss carrybacks and carryovers) is amended by adding at the end thereof the following new subsection:

"(c) CARRYBACK OF LOSSES FROM REGULATED FUTURES CONTRACTS TO OFFSET PRIOR GAINS FROM SUCH CONTRACTS.—

"(1) IN GENERAL.—If a taxpayer (other than a corporation) has a net commodity futures loss for the taxable year and elects to have this subsection apply to such taxable year, the amount of such net commodity futures loss—

"(A) shall be a carryback to each of the 3 taxable years preceding the loss year, and

"(B) to the extent that, after the application of paragraphs (2) and (3), such loss is allowed as a carryback to any such preceding taxable year—

"(i) 40 percent of the amount so allowed shall be treated as a short-term capital loss from regulated futures contracts, and

"(ii) 60 percent of the amount so allowed shall be treated as a long-term capital loss from regulated futures contracts.

"(2) AMOUNT CARRIED TO EACH TAXABLE YEAR.—The entire amount of the net commodity futures loss for any taxable year shall be carried to the earliest of the taxable years to which such loss may be carried back under paragraph (1). The portion of such loss which shall be carried to each of the 2 other taxable years to which such loss may be carried back shall be the excess (if any) of such loss over the portion of such loss which, after the application of paragraph (3), was allowed as a carryback for any prior taxable year.

"(3) AMOUNT WHICH MAY BE USED IN ANY PRIOR TAXABLE YEAR.—An amount shall be allowed as a carryback under paragraph (1) to any prior taxable year only to the extent—

"(A) such amount does not exceed the net commodity futures gain for such year, and

"(B) the allowance of such carryback does not increase or produce a net operating loss (as defined in section 172(c)) for such year.

"(4) NET COMMODITY FUTURES LOSS.—For purposes of paragraph (1), the term 'net commodity futures loss' means the lesser of—

"(A) the net capital loss for the taxable year determined by taking into account only gains and losses from regulated futures contracts and positions to which section 1256 applies or

"(B) the sum of the amounts which, but for paragraph (6)(A), would be treated as capital losses in the succeeding taxable year under subparagraphs (A) and (B) of subsection (b)(1).

"(5) NET COMMODITY FUTURES GAIN.—For purposes of paragraph (1)—

"(A) In general.—The term 'net commodity futures gain' means the lesser of—

"(i) the capital gain net income for the taxable year determined by taking into account only gains and losses from regulated futures contracts, or

"(ii) the capital gain net income for the

"(B) SPECIAL RULE.—The net commodity futures gain for any taxable year before the loss year shall be computed without regard to the net commodity futures loss for the loss year or for any taxable year thereafter.

"(6) COORDINATION WITH CARRYFORWARD PROVISIONS OF SUBSECTION (b)(1).—

"(A) CARRYFORWARD AMOUNT REDUCED BY AMOUNT USED AS CARRYBACK.—For purposes of applying subsection (b)(1), if any portion of the net commodity futures loss for any taxable year is allowed as a carryback under paragraph (1) to any preceding taxable year.—

"(i) 40 percent of the amount allowed as a carryback shall be treated as a short-term capital gain for the loss year, and

"(ii) 60 percent of the amount allowed as a carryback shall be treated as a long-term

capital gain for the loss year.

"(B) CARRYOVER LOSS RETAINS CHARACTER AS ATTRIBUTABLE TO REGULATED FUTURES CONTRACT.—Any amount carried forward as a short-term or long-term capital loss to any taxable year under subsection (b)(1) (after the application of subparagraph (A)) shall, to the extent attributable to losses from regulated futures contracts, be treated as loss from regulated futures contracts for such taxable year.

"(7) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this subsection—

"(A) REGULATED FUTURES CONTRACT.—The term 'regulated futures contract' means any regulated futures contract (as defined in section 1256(b)) to which section 1256 applies.

"(B) Exclusion for estates and trusts.— This subsection shall not apply to any estate or trust.".

SEC. 505. CERTAIN GOVERNMENTAL OBLIGATIONS ISSUED AT DISCOUNT TREATED AS CAPITAL ASSETS.

(a) GENERAL RULE.—Section 1221 (defining capital asset) is amended by striking out paragraph (5) and by redesignating paragraph (6) as paragraph (5).

(b) TREATMENT OF AMOUNTS RECEIVED ON SALE OR OTHER DISPOSITION.—Subsection (a) of section 1232 (relating to bonds and other evidences of indebtedness) is amended by adding at the end thereof the following new paragraph:

"(4) CERTAIN SHORT-TERM GOVERNMENT OB-LIGATIONS.—

"(A) In general.—On the sale or exchange of any short-term Government obligation, any gain realized which does not exceed an amount equal to the ratable share of the acquisition discount shall be treated as ordinary income. Gain in excess of such amount shall be considered gain from the sale or exchange of a capital asset held less than 1 year.

"(B) SHORT-TERM GOVERNMENT OBLIGATION.—For purposes of this paragraph, the
term 'short-term Government obligation'
means any obligation of the United States
or any of its possessions, or of a State or any
political subdivision thereof, or of the District of Columbia which is issued on a discount basis and payable without interest at
a fixed maturity date not exceeding 1 year
from the date of issue. Such term does not
include any obligation the interest on which
is not includible in gross income under section 103 (relating to certain governmental
obligations).

"(C) Acquisition discount.—For purposes of this paragraph, the term 'acquisition discount' means the excess of the stated redemption price at maturity over the taxpayer's basis for the obligation.

"(D) RATABLE SHARE.—For purposes of this paragraph, the ratable share of the acquisition discount is an amount which bears the

same ratio to such discount as-

"(i) the number of days which the taxpayer held the obligation, bears to

"(ii) the number of days after the date the taxpayer acquired the obligation and up to (and including) the date of its maturity.".

(c) TECHNICAL AMENDMENTS .-

(1) Subparagraph (D) of section 1231(b)(1) is amended by striking out "paragraph (6)" and inserting in lieu thereof "paragraph (5)".

(2) Subparagraph (B) of section 341(c)(2) is amended by striking out "(and governmental obligations described in section 1221(5))".

SEC. 506. PROMPT IDENTIFICATION OF SECURITIES BY DEALERS IN SECURITIES.

(a) In General.—Subsection (a) of section 1236 (relating to dealers in securities) is amended—

(1) by striking out "before the expiration of the 30th day after the date of its acquisition" and inserting in lieu thereof "before the close of the day on which it was acquired (before the close of the following day in the case of an acquisition before January 1, 1982)", and

(2) by striking out "expiration of such 30th day" and inserting in lieu thereof "close of such day".

(b) SPECIAL RULE FOR FLOOR SPECIALISTS.— Section 1236 (relating to dealers in securities) is amended by adding at the end thereof the following new subsection:

"(d) SPECIAL RULE FOR FLOOR SPECIALISTS.—

"(1) IN GENERAL.—In the case of a floor specialist (but only with respect to acquisitions, in connection with his duties on an exchange, of stock in which the specialist is registered with the exchange), subsection (a) shall be applied—

"(A) by inserting 'the 7th business day following' before 'the day' the first place it appears in paragraph (1) and by inserting '7th business' before 'day' in paragraph (2), and

"(B) by striking the parenthetical phrase in paragraph (1).

"(2) FLOOR SPECIALIST.—The term 'floor specialist' means a person who is—

"(A) a member of a national securities exchange,
"(B) is registered as a specialist with the

exchange, and
"(C) meets the requirements for specialists established by the Securities and Ex-

change Commission.".

SEC. 507. TREATMENT OF GAIN OR LOSS FROM CERTAIN TERMINATIONS.

(a) GENERAL RULE.—Part IV of subchapter P of chapter 1 (relating to special rules for determining capital gains and losses) is amended by inserting after section 1234 the following new section:

"SEC. 1234A. GAINS OR LOSSES FROM CERTAIN TER-MINATIONS.

"Gain or loss attributable to the cancellation, lapse, expiration, or other termination of a right or obligation with respect to personal property (as defined in section 1092(d)(1)) which is (or on acquisition would be) a capital asset in the hands of the taxpayer shall be treated as gain or loss from the sale of a capital asset.".

(b) CLERICAL AMENDMENT.—The table of sections for part IV of subchapter P of chapter 1 is amended by inserting after the item relating to section 1234 the following new item:

'Sec. 1234A. Gains or losses from certain terminations.".

SEC. 508. EFFECTIVE DATES.

(a) In General.-Except as otherwise provided in this section, the amendments made by this title shall apply to property acquired and positions established by the taxpayer after June 23, 1981, in taxable years ending after such date.

(b) Identification Requirements.

(1) Under Section 1236 OF CODE.—The amendments made by section 506 shall apply to property acquired by the taxpayer after the date of the enactment of this Act in taxable years ending after such date.

(2) UNDER SECTION 1256(e)(2)(C) OF CODE.-Section 1256(e)(2)(C) of the Internal Revenue Code of 1954 (as added by this title) shall apply to property acquired and positions established by the taxpayer after December 31, 1981, in taxable years ending

after such date.
(c) Election With Respect to Property Held on June 23, 1981.—If the taxpayer so elects (at such time and in such manner as the Secretary of the Treasury or his delegate shall prescribe) with respect to all regulated futures contracts or positions held by the taxpayer on June 23, 1981, the amendments made by this title shall apply to all such contracts and positions, effective for periods after such date in taxable years ending after such date. For purposes of the preceding sentence, the term "regulated fu-tures contract" has the meaning given to such term by section 1256(b) of the Internal Revenue Code of 1954, and the term "position" has the meaning given to such term by section 1092(d)(2) of such Code.

SEC. 509. ELECTION FOR EXTENSION OF TIME FOR PAYMENT AND APPLICATION OF SECTION 1256 FOR THE TAXABLE YEAR IN-CLUDING JUNE 23, 1981.

(a) ELECTION.-

(1) In general.-In the case of any taxable year beginning before June 23, 1981, and ending after June 22, 1981, the taxpayer may elect, in lieu of any election under section 508(c), to have this section apply to all regulated futures contracts held during such taxable year.

(2) APPLICATION OF SECTION 1256.-If a taxpayer elects to have the provisions of this section apply to the taxable year described

in paragraph (1).

(A) the provisions of section 1256 of the Internal Revenue Code of 1954 (other than section 1256(e)(2)(C)) shall apply to regulated futures contracts held by the taxpayer at any time during such taxable year, and

(B) for purposes of determining the rate of tax applicable to gains and losses from regulated futures contracts held at any time during such year, such gains and losses shall be treated as gain or loss from a sale or exchange occurring in a taxable year beginning in 1982.

(3) DETERMINATION OF DEFERRED TAX LIABIL-ITY.—If the taxpayer makes an election

under this subsection.

(A) the taxpayer may pay part or all of the tax for such year in two or more (but not exceeding five) equal installments;

(B) the maximum amount of tax which may be paid in installments under this sec-

tion shall be the excess of—
(i) the tax for such year, determined by taking into account paragraph (2), over

(ii) the tax for such year, determined by taking into account paragraph (2) and by

treating all regulated futures contracts which were held by the taxpayer on the first day of the taxable year described in paragraph (1), and which were acquired before the first day of such taxable year, as having been acquired for a purchase price equal to their fair market value on the last business day of the preceding taxable year.

(4) DATE FOR PAYMENT OF INSTALLMENT (A) If an election is made under this subsection, the first installment under subsection (a)(3)(A) shall be paid on or before the due date for filing the return for the taxable year described in paragraph (1), and each succeeding installment shall be paid on or before the date which is one year after the date prescribed for payment of the preceding installment.

(B) If a bankruptcy case or insolvency proceeding involving the taxpayer is commenced before the final installment is paid, the total amount of any unpaid installments shall be treated as due and payable on the day preceding the day on which such case or

proceeding is commenced. (5) INTEREST ON INSTALLMENT.

(b) FORM OF ELECTION.—An election under this section shall be made not later than the time for filing the return for the taxable year described in subsection (a)(1) and shall be made in the manner and form required by regulations prescribed by the Secretary. The election shall set forth-

(A) the amount determined under subsection (a)(3)(B) and the number of install-

ments elected by the taxpayer,

(B) each regulated futures contract held by the taxpayer on the first day of the taxable year described in subsection (a)(1), and the date such contract was acquired,

(C) the fair market value on the last business day of such taxable year for each regulated futures contract described in subpara-

graph (B), and

(D) such other information for purposes of carrying out the provisions of this section as may be required by such regulations.

(5) INTEREST IMPOSED.—For purposes of section 6601(b) of the Internal Revenue Code of 1954, the time for payment of any tax with respect to which an election is made under this subsection shall be determined without regard to this subsection.

TITLE VI-ENERGY PROVISIONS Subtitle A-Changes in Windfall Profit Tax SEC. 601. \$2,500 ROYALTY CREDIT FOR 1981; EXEMP-TION FOR 1982 AND THEREAFTER.

(a) \$2,500 ROYALTY CREDIT FOR 1981.-

(1) In general.—Subsection (a) of section 6429 (relating to treatment as overpayment)

is amended to read as follows:
"(a) TREATMENT AS OVERPAYMENT.—In the case of a qualified royalty owner, that portion of the tax imposed by section 4986 which is paid in connection with qualified royalty production removed from the premises during calendar year 1981 shall be treated as an overpayment of the tax imposed by section 4986."

(2) INCREASE IN AMOUNT OF CREDIT.-Paragraph (1) of section 6429(c) (relating to \$1,000 limitation on credit or refund) is

amended to read as follows:

"(1) In general.—The aggregate amount which may be treated as an overpayment under subsection (a) with respect to any qualified royalty owner for production re-moved from the premises during calendar ear 1981 shall not exceed \$2,500.

(3) Conforming amendments.—Subsection

(c) of section 6429 is amended-

(A) by striking out "\$1,000" each place it appears and "\$2,500", and and inserting in lieu thereof

(B) by striking out "qualified period" each place it appears and inserting in lieu thereof 'calendar year".

(4) DEFINITION OF QUALIFIED ROYALTY PRO-DUCTION.-Subsection (d) of section 6429 is amended by striking out paragraphs (2) and (3) and inserting in lieu thereof the follow-

ing new paragraphs:

"(2) QUALIFIED ROYALTY PRODUCTION.—The term 'qualified royalty production' means, with respect to any qualified royalty owner, taxable crude oil which is attributable to an economic interest of such royalty owner other than an operating mineral interest (within the meaning of section 614(d)). Such term does not include taxable crude oil attributable to any overriding royalty interest, production payment, net profits interest, or similar interest of the qualified royalty owner which-

'(A) is created after June 9, 1981, out of an operating mineral interest in property which is proven oil or gas property (within the meaning of section 613A(c)(9)(A)) on the date such interest is created, and

"(B) is not created pursuant to a binding contract entered into prior to June 10, 1981.

"(3) PRODUCTION FROM TRANSFERRED PROP-

"(A) In general.—In the case of a transfer of an interest in any property, the qualified royalty production of the transferee shall not include any production attributable to an interest that has been transferred after June 9, 1981, in a transfer which-

"(i) is described in section 613A(c)(9)(A). and

"(ii) is

not described in section 613A(c)(9)(B).

(B) Exceptions.—Subparagraph (A) shall not apply in the case of any transfer so long as the transferor and the transferee are required by paragraph (3) or (4) of subsection (c) to share the \$2,500 amount in subsection (c)(1). The preceding sentence shall apply to the case of any property only if the production from the property was qualified royalty production of the transferor.

"(C) TRANSFERS INCLUDE SUBLEASES.-For purposes of this paragraph, a sublease shall be treated as a transfer.

"(D) Estates.—For purposes of this paragraph, property held by any estate shall be treated as owned both by such estate and proportionately by the beneficiaries of such estate."

(5) QUALIFIED FAMILY FARM CORPORATION DEFINED.-Paragraph (4) of section 6429(d) is amended to read as follows:

"(4) QUALIFIED FAMILY FARM CORPORA-TION .- The term 'qualified family farm corporation' means a corporation-

"(A) all the outstanding shares of stock of which at all times during the calendar year are held by members of the same family (within the meaning of section 2032A(e)(2)), and

'(B) 80 percent in value of the assets of which (other than royalty interests described in paragraph (2)(A)) are held by the corporation at all times during such calendar year for use for farming purposes (within the meaning of section 2032A(e)(5))."

(6) CONFORMING AMENDMENTS .-

(A) Paragraph (3) of section 6654(f) (relating to failure by individuals to pay estimated income tax) is amended to read as fol-

"(3) the sum of-

"(A) the credits against tax allowed by part IV of subchapter A of chapter 1, other than the credit against tax provided by section 31 (relating to tax withheld on wages),

"(B) to the extent allowed under regulations prescribed by the Secretary, any amount which is treated under section 6429 as an overpayment of the tax imposed by section 4986.

(B) Paragraph (2) of section 6655(e) (relating to failure by corporation to pay estimated income tax) is amended to read as fol-

"(2) the sum of-

"(A) the credits against tax provided by part IV of subchapter A of chapter 1, plus

"(B) to the extent allowed under regulations prescribed by the Secretary, any amount which is treated under section 6429 as an overpayment of the tax imposed by section 4986.

(b) Exemption for 1982 and Thereafter .-

(1) In general.—Subsection (b) of section 4991 is amended by striking out "and" at the end of paragraph (3), by striking out the period at the end of paragraph (4), and in-serting in lieu thereof ", and", and by adding at the end thereof the following new paragraph:

(5) exempt royalty oil."

(2) EXEMPT ROYALTY OIL.—Section 4994 is amended by adding at the end thereof the following new subsection:
"(f) EXEMPT ROYALTY OIL.

"(1) IN GENERAL.—For purposes of this chapter, the term 'exempt royalty oil' means that portion of the qualified royalty owner's qualified royalty production for the quarter which does not exceed the royalty limit for such quarter.

"(2) ROYALTY LIMIT.—For purposes of this subsection-

"(A) In general.-A qualified royalty owner's royalty limit for any quarter is the product of-

"(i) the number of days in such quarter, multiplied by

"(ii) the limitation in barrels determined under the following table:

"In the case of qualified royalty production during:	The limitation in barrels is:
1982	2 2 2

"(B) PRODUCTION EXCEEDS LIMITATION.—If a qualified royalty owner's qualified royalty production for any quarter exceeds the royalty limitation for such quarter, such royalty owner may allocate such limit to any qualified royalty production which he selects.

"(3) Definitions.—
"(A) In general.—The terms 'qualified royalty owner' and 'qualified royalty pro-duction' have the meanings given to such terms by section 6429; except that the reference to qualified taxable crude oil in section 6429(d) shall be treated as a reference to oil which would have been taxable crude oil but for this section.

(B) ALLOCATION.-Rules similar to the rules of paragraphs (2), (3), and (4) of section 6429(c) shall apply to the limitation de-

termined under subsection (b)(1)."

(3) ADJUSTMENTS TO WITHHOLDING.—Subsection (a) of section 4995 is amended by adding at the end thereof the following new paragraph:

"(9) ADJUSTMENTS TO TAKE INTO ACCOUNT ROYALTY EXEMPTION.—The Secretary shall

prescribe such regulations as may be necessary so that the withholding required under this subsection shall be reduced to take into account the exemption provided by section 4991(b)(5) (relating to exempt royalty oil), and he may prescribe such other regulations as may be necessary to administer such exemption.'

(c) EFFECTIVE DATES.

(1) Except as provided in paragraph (2), subsection (a) shall take effect on January 1, 1981.

(2) The amendments made by paragraph (6) of subsection (a) shall take effect on

January 1, 1980.

(3) The amendments made by subsection (b) shall apply to oil removed after December 31, 1981.

SEC. 602. REDUCTION IN TAX IMPOSED ON NEWLY DISCOVERED OIL.

(a) In GENERAL.—Paragraph (3) of section 4987(b) (relating to applicable percentage) is amended to read as follows:

"(3) TIER 3 OIL.-

"(A) In general.—The applicable percentage for tier 3 oil which is not newly discov-

ered oil is 30 percent.

(B) NEWLY DISCOVERED OIL.—The applicable percentage for newly discovered oil shall be determined in accordance with the following table:

The

"For taxable periods beginning in:	ble percent- age is:	
1982	271/2	
1983	25	
1984	221/2	
1985	20	
1986 and thereafter	15".	

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable periods beginning after December 31, 1981. SEC. 603. EXEMPT INDEPENDENT PRODUCER STRIP-

PER WELL OIL.

(a) In General.-Subsection (b) of section 4991 (as amended by section 601(b)) is amended by striking out "and" at the end of paragraph (4), by striking out the period at the end of paragraph (5), and inserting in lieu thereof ", and", and by adding at the end thereof the following new paragraph: "(6) exempt stripper well oil."

(b) EXEMPT STRIPPER WELL OIL.—Section 4994 (as amended by section 601(b)) is amended by adding at the end thereof the following new subsection:

(g) EXEMPT STRIPPER WELL OIL.

In general.-For purposes of this chapter, the term 'exempt stripper well oil' means any oil-

"(A) the producer of which is an inde-pendent producer (within the meaning of section 4992(b)(1)),

"(B) which is from a stripper well property within the meaning of the June 1979

energy regulations, and
"(C) which is attributable to the independent producer's working interest in the

stripper well property.

(2) LIMITATION FOR CERTAIN TRANSFERRED PROPERTIES.-Exempt stripper well oil does not include production attributable to an interest in any property which at any time after July 22, 1981, was owned by a person other than an independent producer (within the meaning of section 4992(b)(1)).

(c) Conforming Amendment.-Paragraph (2) of section 4492(c) (defining independent producer amount) is amended by adding at the end thereof the following new sentence:

"For purposes of the preceding sentence, tier 1 oil and tier 2 oil shall be treated as not

including exempt stripper well oil."

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to oil removed from the premises after December 31, 1982,

SEC. 604. EXEMPTION FROM WINDFALL PROFIT TAX OF OIL PRODUCED FROM INTER-ESTS HELD BY OR FOR THE BENEFIT OF RESIDENTIAL CHILD CARE AGEN-CIES.

(a) EXEMPTION OF CHILD CARE AGENCIES FROM TAX.-Subparagraph (A) of section 4994(b)(1) (relating to charitable interests exempt from windfall profit tax) is amended by redesignating clause (ii) as clause (iii) and by adding after clause (i) the following new clause:

"(ii) held by an organization described in section 170(c)(2) which is organized and operated primarily for the residential placement, care, or treatment of delinquent, dependent, orphaned, neglected, or handi-

capped children, or"

(b) PERIOD INTEREST REQUIRED TO BE HELD.

(1) In general.—Subparagraph (B) of section 4994(b)(1) is amended to read as fol-

"(B) such interest was held on January 21, 1980, and at all times thereafter before the last day of the taxable period, by the orgaparagraph (A), or subclause (I) of subparagraph (A)(iii)." nization described in clause (i) or (ii) of sub-

(2) INTERESTS HELD FOR THE BENEFIT OF CHILD CARE AGENCIES .- Paragraph (2) of sec-

tion 4994(b) is amended-

(A) by striking out "paragraph (1)(A)(ii)" and inserting in lieu thereof "clause (ii) or (iii) of paragraph (1)(A)", and

(B) by striking out "paragraph (1)(A)(i)" each place it appears and inserting in lieu thereof "clause (i) or (ii) of paragraph (1)(A)".

(c) Conforming Amendments

(1) Clause (i) of section 4994(b)(1)(A) is amended by striking out "or" at the end thereof.

Subclause (II) of section 4994(b)(1)(A)(ii) is amended by inserting "or (ii)" after "clause (i)"

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable periods beginning after December 31, 1980.

Subtitle B-Miscellaneous Provision

SEC. 611. APPLICATION OF CREDIT FOR PRODUCING NATURAL GAS FROM A NONCONVEN-TIONAL SOURCE WITH THE NATURAL GAS POLICY ACT OF 1978.

(a) In General.—Subsection (e) of section 44D (relating to the credit for producing fuel from a nonconventional source) is amended to read as follows:

"(e) Application With the Natural Gas

POLICY ACT OF 1978.-

"(1) No credit if section 107 of the natu-RAL GAS POLICY ACT OF 1978 IS UTILIZED.— Subsection (a) shall apply with respect to any natural gas described in subsection (c)(1)(B)(i) which is sold during the taxable year only if such natural gas is sold at a lawful price which is determined without regard to the provisions of section 107 of the Natural Gas Policy Act of 1978 and sub-title B of title I of such Act.

"(2) TREATMENT OF THIS SECTION.—For purposes of section 107(d) of the Natural Gas Policy Act of 1978, this section shall not be treated as allowing any credit, exemption, deduction, or comparable adjustment applicable to the computation of any Federal

(b) Effective Date.-The amendment made by this section shall apply to taxable years ending after December 31, 1979.

TITLE VII—ADMINISTRATIVE PROVISIONS

Subtitle A-Prohibition of Disclosure of **Audit Methods**

SEC. 701. PROHIBITION OF DISCLOSURE OF METH-ODS FOR SELECTION OF TAX RE-TURNS FOR AUDITS.

- (a) GENERAL RULE.—Paragraph (2) of section 6103(b) (defining return information) is amended by adding at the end thereof the following new sentence: "Nothing in the preceding sentence, or in any other provision of law, shall be construed to require the disclosure of standards used or to be used for the selection of returns for examination, or data used or to be used for determining such standards, if the Secretary determines that such disclosure will seriously impair assessment, collection, or enforcement under the internal revenue laws."
- EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to disclosures after July 19, 1981.

Subtitle B-Changes in Interest Rate for Overpayments and Underpayments

SEC. 711. CHANGES IN RATE OF INTEREST FOR OVERPAYMENTS AND UNDERPAY-MENTS.

(a) ANNUAL ADJUSTMENT TO RATE OF INTER-EST.—Subsection (b) of section 6621 (relating to adjustment of interest rate) is amended by striking out the last sentence thereof.

(b) RATE OF INTEREST TO BE BASED ON 100 PERCENT OF PRIME RATE.—Subsection (c) of section 6621 is amended by striking out "90 percent of"

(c) NEW RATE TO TAKE EFFECT ON JANUARY 1 of Each Year After 1982.—Subsection (b) of section 6621 is amended by striking out "February 1" and inserting in lieu thereof "January 1"

(d) EFFECTIVE DATES .-

(1) For subsections (a) and (b).-The amendments made by subsections (a) and (b) shall apply to adjustments made after the date of the enactment of this Act.

(2) For subsection (c).—The amendment made by subsection (c) shall apply to adjustments made for periods after 1982.

Subtitle C-Changes in Certain Penalties and in Requirements Relating to Returns

SEC. 721. CHANGES IN PENALTIES FOR FALSE IN-FORMATION WITH RESPECT TO WITH-HOLDING.

(a) CIVIL PENALTY.—Section 6682 (relating to false information with respect to withholding allowances based on itemized deductions) is amended to read as follows:

"SEC. 6682. FALSE INFORMATION WITH RESPECT TO WITHHOLDING.

"(a) CIVIL PENALTY.-In addition to any criminal penalty provided by law, if-

"(1) any individual makes a statement under section 3402 which results in a decrease in the amounts deducted and withheld under chapter 24, and

"(2) as of the time such statement was made, there was no reasonable basis for such statement.

such individual shall pay a penalty of \$500 for such statement.

"(b) Exception.—The Secretary waive (in whole or in part) the penalty imposed under subsection (a) if the taxes imposed with respect to the individual under subtitle A for the taxable year are equal to or less than the sum of-

"(1) the credits against such taxes allowed by part IV of subchapter A of chapter 1, and

"(2) the payments of estimated tax which are considered payments on account of such taxes.

DEFICIENCY PROCEDURES NOT (c) APPLY.-Subchapter B of chapter 63 (relating to deficiency procedures for income, estate, gift, and certain excise taxes) shall not apply in respect to the assessment or collection of any penalty imposed by subsection (a)

(b) CRIMINAL PENALTY.-Section 7205 (relating to fraudulent withholding exemption certificate or failure to supply information) is amended by striking out "\$500" and inserting in lieu thereof "\$1,000"

(c) CLERICAL AMENDMENT.—The table of sections for subchapter B of chapter 68 is amended by striking out the item relating to section 6682 and inserting in lieu thereof

the following:

Sec. 6682. False information with respect to withholding."

(d) Effective Date.-The amendments made by this section shall apply to acts and failures to act after December 31, 1981. SEC. 722. ADDITIONS TO TAX IN THE CASE OF VALU-

IN NEGLIGENCE PENALTY.

(a) VALUATION OVERSTATEMENTS.

(1) In general.—Subchapter A of chapter 68 (relating to additions to tax) is amended redesignating section 6659 as section 6660 and by inserting after section 6658 the following new section:

SEC. 6659. ADDITION TO TAX IN THE CASE OF VALUATION OVERSTATEMENTS FOR PURPOSES OF THE INCOME TAX.

"(a) Addition to the Tax.-If-

"(1) an individual, or "(2) a closely held corporation or a personal service corporation.

has an underpayment of the tax imposed by chapter 1 for the taxable year which is attributable to a valuation overstatement, then there shall be added to the tax an amount equal to the applicable percentage of the underpayment so attributable.

"(b) APPLICABLE PERCENTAGE DEFINED. purposes of subsection (a), the applicable percentage shall be determined under the

following table:

The "If the valuation claimed is the applica-ble following percent of the correct valuation percent-150 percent or more but not

more than 200 percent..... 10 More than 200 percent but not more than 250 percent..... More than 250 percent.....

"(c) VALUATION OVERSTATEMENT DEFINED .-"(1) In general.-For purposes of this section, there is a valuation overstatement if the value of any property, or the adjusted basis of any property, claimed on any return exceeds 150 percent of the amount determined to be the correct amount of such valuation or adjusted basis (as the case may

"(2) PROPERTY MUST HAVE BEEN ACQUIRED WITHIN LAST 5 YEARS.—This section shall not apply to any property which, as of the close of the taxable year for which there is a valuation overstatement, has been held by the taxpayer for more than 5 years.

"(d) UNDERPAYMENT MUST BE AT LEAST \$1,000.-This section shall not apply if the underpayment for the taxable year attributable to the valuation overstatement is less than \$1,000

"(e) AUTHORITY TO WAIVE.—The Secretary may waive all or any part of the addition to the tax provided by this section on a showing by the taxpayer that there was a reasonable basis for the valuation or adjusted basis claimed on the return and that such claim was made in good faith.

'(f) OTHER DEFINITIONS.-For purposes of

this section-

"(1) UNDERPAYMENT.—The term 'underpayment' has the meaning given to such term by section 6653(c)(1).

"(2) CLOSELY HELD corporation.-The term 'closely held corporation' means any corporation described in section 465(a)(1)(C).

"(3) Personal service corporation.—The term 'personal service corporation' means any corporation which is a service organization (within the meaning of section 414(m)(3))."

(2) CLERICAL AMENDMENT.—The table of sections for subchapter A of chapter 68 is amended by striking out the last item and inserting in lieu thereof the following:

"Sec. 6659. Addition to tax in the case of valuation overstatements for purposes of the income tax.

"Sec. 6660. Applicable rules."

(3) TECHNICAL AMENDMENT.—Subsection (c) of section 5684 (relating to penalties for the payment and collection of liquor taxes) and subsection (d) of section 5761 (relating to civil penalties) are each amended by striking out "6659" in the heading and text thereof and inserting in lieu thereof "6660".

(4) Effective date.—The amendments made by this subsection shall apply to returns filed after December 31, 1981.

(b) INCREASE IN NEGLIGENCE PENALTY .-

(1) In general.—Subsection (a) of section 6653 (relating to failure to pay tax) is amended to read as follows:

"(a) NEGLIGENCE OR INTENTIONAL DISRE-GARD OF RULES AND REGULATIONS WITH RE-SPECT TO INCOME, GIFT, OR WINDFALL PROFIT

"(1) In general.-If any part of any underpayment (as defined in subsection (c)(1)) of any tax imposed by subtitle A, by chapter 12 of subtitle B, or by chapter 45 (relating to windfall profit tax) is due to negligence or intentional disregard of rules or regulations (but without intent to defraud), there shall be added to the tax an amount equal to 5 percent of the underpayment.

"(2) ADDITIONAL AMOUNT FOR PORTION AT-TRIBUTABLE TO NEGLIGENCE, ETC.—There shall be added to the tax (in addition to the amount determined under paragraph (1)) an amount equal to 50 percent of the interest payable under section 6601-

'(A) with respect to the portion of the underpayment described in paragraph (1) which is attributable to the negligence or intentional disregard referred to in para-

graph (1), and "(B) for the period beginning on the last date prescribed by law for payment of such underpayment (determined without regard to any extension) and ending on the date of the assessment of the tax."

(2) EFFECTIVE DATE.-The amendment made by paragraph (1) shall apply to taxes the last date prescribed for payment of which is after December 31, 1981.

SEC. 723. CHÁNGES IN REQUIREMENTS RELATING TO INFORMATION RETURNS.

(a) INCREASES IN PENALTIES FOR FAILURE To FILE CERTAIN RETURNS OR FURNISH CER-TAIN STATEMENTS.

(1) CERTAIN RETURNS.—Paragraph (1) of section 6652(a) (relating to failure to file certain information returns, registration statements, etc.) is amended to read as fol-

"(1) to file a statement of the aggregate amount of payments to another person required by-

"(A) section 6041(a) or (b) (relating to cer-

tain information at source),

"(B) section 6042(a)(1) (relating to payments of dividends aggregating \$10 or

"(C) section 6044(a)(1) (relating to payments of patronage dividends aggregating \$10 or more),

"(D) section 6049(a)(1) (relating to payments of interest aggregating \$10 or more), "(E) section 6050A(a) (relating to reporting requirements of certain fishing boat op-

erators), or

"(F) section 6051(d) (relating to information returns with respect to income tax withheld), or".

(2) CERTAIN STATEMENTS.—Section 6678 (relating to failure to furnish certain statements) is amended by striking out "or" at the end of paragraph (1), by inserting "or" at the end of paragraph (2), and by inserting after paragraph (2) the following new paragraph:

"(3) to furnish a statement under-

"(A) section 6050A(b) (relating to statements furnished by certain fishing boat op-

"(B) section 6050C (relating to information regarding windfall profit tax on crude

"(C) section 6051 (relating to information returns with respect to income tax withheld) if the statement is required to be fur-

nished to the employee, or "(D) section 6053(b) (relating to statements furnished by employers with respect

on the date prescribed therefor to a person with respect to whom such a statement is required."

(3) RETENTION OF EXISTING PENALTIES FOR FAILURE TO FILE CERTAIN STATEMENTS.—Subsection (b) of section 6652 is amended to read as follows:

"(b) OTHER RETURNS.—In the case of each failure to file a statement of a payment to another person required under the author-

'(1) section 6042(a)(2) (relating to payments of dividends aggregating less than \$10),

"(2) section 6044(a)(2) (relating to payments of patronage dividends aggregating less than \$10),

"(3) section 6049(a)(2) (relating to payments of interest aggregating less than \$10).

"(4) section 6049(a)(3) (relating to other payments of interest by corporations),

on the date prescribed therefor (determined with regard to any extension of time for filing), unless it is shown that such failure is due to reasonable cause and not to willful neglect, there shall be paid (upon notice and demand by the Secretary and in the same manner as tax) by the person failing to so file the statement, \$1 for each such statement not so filed, but the total amount imposed on the delinquent person for all such failures during the calendar year shall not exceed \$1,000.

(4) CLERICAL AMENDMENT.—The subsection heading of subsection (a) of section 6652 is amended by inserting "Information at Source," before "Payments of Dividends".

(b) REQUIREMENT OF STATEMENTS TO BE FURNISHED TO PERSONS WITH RESPECT TO WHOM INFORMATION IS FURNISHED ON PAY-MENTS OF \$600 OR MORE.

(1) IN GENERAL.—Section 6041 (relating to information at source) is amended by redesignating subsection (d) as subsection (e) and by inserting after subsection (c) the following new subsection:

"(d) STATEMENTS TO BE FURNISHED TO PER-SONS WITH RESPECT TO WHOM INFORMATION Is Furnished.—Every person making return under subsection (a) shall furnish to each person whose name is set forth in such return a written statement showing-

(1) the name, address, and identification number of the person making such return,

"(2) the aggregate amount of payments to the person shown on the return.

The written statement required under the preceding sentence shall be furnished to the person on or before January 31 of the year following the calendar year for which the return under subsection (a) was made. To the extent provided in regulations pre-scribed by the Secretary, this subsection shall also apply to persons making returns under subsection (b)."

(2) PENALTY FOR FAILURE TO FURNISH STATE-MENT.—Paragraph (1) of section 6678 (relating to failure to furnish certain statements) is amended-

inserting "6041(d)." (A) by before

"6042(c)", and
(B) by inserting
"6042(a)(1)". "6041(a)," before

(c) Effective Date.-The amendments made by this section shall apply to returns and statements required to be furnished after December 31, 1981.

SEC. 724. PENALTY FOR OVERSTATED DEPOSIT CLAIMS.

(a) GENERAL RULE.—Subsection (b) of section 6656 (relating to failure to make deposit of taxes) is amended to read as follows:

(b) OVERSTATED DEPOSIT CLAIMS. "(1) Imposition of Penalty.-Any person who makes an overstated deposit claim shall be subject to a penalty equal to 25 percent

"(2) OVERSTATED DEPOSIT CLAIM DEFINED .-For purposes of this subsection, the term overstated deposit claim' means the excess

"(A) the amount of tax under this title which any person claims, in a return filed with the Secretary, that such person has deposited in a government depositary under section 6302(c) for any period, over

'(B) the aggregate amount such person has deposited in a government depositary under section 6302(c), for such period, on or before the date such return is filed.

"(3) PENALTY NOT IMPOSED IN CERTAIN cases.—The penalty under paragraph (1) shall not apply if it is shown that the excess described in paragraph (2) is due to reasonable cause and not due to willful neglect.

"(4) PENALTY IN ADDITION TO OTHER PENAL-TIES.—The penalty under paragraph (1) shall be in addition to any other penalty provided by law."

(b) CLERICAL AMENDMENTS.

(1) The heading of section 6656 is amended by inserting "or overstatement of deposafter "TAXES".

(2) The table of sections for subchapter A of chapter 68 is amended by striking out the item relating to section 6656 and inserting in lieu thereof the following:

'Sec. 6656. Failure to make deposit of taxes or overstatement of deposits.'

(3) The heading of subsection (a) of section 6656 is amended by striking out "Penaland inserting in lieu thereof "UNDER-PAYMENT OF DEPOSITS"

(4)(A) Section 5684 (relating to penalties relating to the payment and collection of

liquor taxes) is amended by striking out subsection (b) and by redesignating subsections (c) and (d) as subsections (b) and (c), respectively

(B) Subsection (c) of section 5684, as redesignated by subparagraph (A), is amended by redesignating paragraphs (4) and (5) as paragraphs (5) and (6), respectively, and by inserting after paragraph (3) the following new paragraph:

"(4) For penalty for failure to make deposits or for overstatement of deposits, see section 6656."

(5) Section 5761 (relating to civil penalties) is amended by striking out subsections (c) and (d) and inserting in lieu thereof the following:

"(c) APPLICABILITY OF SECTION 6659.penalty imposed by subsection (b) shall be assessed, collected, and paid in the same manner as taxes, as provided in section 6659(a).

"(d) Cross References .-

"For penalty for failure to make deposits or for overstatement of deposits, see section 6656.

(c) Effective Date.—The amendments made by this section shall apply to returns filed after the date of the enactment of this Act.

SEC. 725. DECLARATION OF ESTIMATED TAX NOT REQUIRED IN CERTAIN CASES

(a) GENERAL RULE.—Section 6015 (relating to declaration of estimated tax by individuals) is amended by redesignating subsections (b) through (i) as subsections (c) through (j), respectively, and by inserting after subsection (a) the following new subsection:

"(b) DECLARATION NOT REQUIRED IN CER-TAIN CASES.-No declaration shall be required under subsection (a) if the estimated tax (as defined in subsection (d)) is less than the amount determined in accordance with

the following table:

982	The amount is:	
1981	\$100	
1982	200	
1983	300	
1984	400	
1985 and thereafter	500."	

(b) No Penalty for Failure To Pay Esti-MATED TAX IN CERTAIN CASES.—Section 6654 (relating to failure by individual to pay estimated tax) is amended by redesignating subsections (f) and (g) as subsections (g) and (h), respectively, and by inserting after subsection (e) the following new subsection:

"(f) EXCEPTION WHERE TAX IS SMALL

(1) In general.—No addition to tax shall be imposed under subsection (a) for any taxable year if the tax shown on the return for such taxable year (or, if no return is filed, the tax) is less than the amount determined under the following table:

"In the case of taxable years beginning in:	The amount is:
1981	\$100
1982	200
1983	300
1984	400
1985 and thereafter	500.

"(2) Special Rule.-For purposes of subsection (b), the amount of any installment required to be paid shall be determined without regard to subsection (b) of section 6015."

(c) TECHNICAL AMENDMENTS .-

(1) Paragraph (6) of section 871(g) is amended by striking out "6015(i)" and inserting in lieu thereof "6015(j)".

(2) Subsection (a) of section 6015 is amended by striking out the last sentence.

(3) Subsection (a) of section 6153 is amended by striking out "6015(c)" and inserting in lieu thereof "6015(d)".

(4) Subparagraph (A) of section 7701(a)(34) is amended by striking out "6015(c)" and inserting in lieu thereof "6015(d)".

(5) Subsection (g) of such section 6654 (as redesignated by subsection (b)) is amended by striking out "subsections (b) and (d)" and inserting in lieu thereof "subsections (b), (d), and (f)".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to estimated tax for taxable years beginning after December 31, 1980.

Subtitle D—Cash Management

SEC. 731. CASH MANAGEMENT.

(a) In General.—Paragraph (1) of section 6655(h) (relating to large corporations required to pay at least 60 percent of current year tax) is amended to read as follows:

"(1) MINIMUM PERCENTAGE.-

"(A) In GENERAL.—Except as provided in subparagraph (B), in the case of a large corporation, paragraphs (1) and (2) of subsection (d) shall not apply.

"(B) Transition Rule.—For taxable years beginning before 1984, in the case of a large corporation, the amount treated as the estimated tax for the taxable year under paragraphs (1) and (2) of subsection (d) shall in no event be less than the applicable percentage of—

"(i) the tax shown on the return for the

taxable year, or

"(ii) if no return was filed, the tax for such year.

"(C) APPLICABLE PERCENTAGE.—For purposes of subparagraph (B), the applicable percentage shall be determined in accordance with the following table:

"If the taxable year begins in:	The applicable percentage is:
1982	65
1983	75."

(b) CLERICAL AMENDMENT.—The heading of subsection (h) of section 6655 (relating to failure by corporations to pay estimated income tax) is amended by striking out "at Least 60 Percent" and inserting in lieu thereof "Minimum Percentage".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 1981.

Subtitle E—Financing of Railroad Retirement System

SEC. 741. INCREASES IN EMPLOYER AND EMPLOY-EE TAXES.

(a) Tax on Employees.—Section 3201 (relating to rate of tax on employees) is amended by striking out all that precedes "the rate of the tax" and inserting in lieu thereof the following:

"(a) In addition to other taxes, there is hereby imposed on the income of each employee a tax equal to 2.0 percent of so much of the compensation paid in any calendar

month to such employee for services rendered by him as is not in excess of an amount equal to one-twelfth of the current maximum annual taxable 'wages' as defined in section 3121 for any month.

"(b) The rate of tax imposed by subsec-

tion (a) shall be increased by".

(b) Tax on Employee Representatives.— Subsection (a) of section 3211 (relating to tax on employee representatives) is amended by striking out "9.5" and inserting in lieu thereof "11.75"

(c) Tax on Employers.—The first sentence of section 3221(a) (relating to tax on employers) is amended by striking out "9.5" and inserting in lieu thereof "11.75".

(d) CONFORMING AMENDMENTS .-

(1) The last sentence of section 230(c) of the Social Security Act is amended—

(A) by inserting "employee and" before 'employer",

(B) by striking out "section 3221(a)" and inserting in lieu thereof "sections 3201(a) and 3221(a)", and

(C) by striking out "9.5" and inserting in lieu thereof "11.75".

(2) Paragraph (1) of section 3231(e) (defining compensation) is amended by striking out "(iii)" and all that follows through "(iv)" and inserting in lieu thereof "or (iii)".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to compensation paid for services rendered after September 30, 1981.

SEC, 742. ADVANCE TRANSFER OF AMOUNTS PAY-ABLE UNDER SOCIAL SECURITY FI-NANCIAL INTERCHANGE.

Section 15(b) of the Railroad Retirement Act of 1974 is amended by inserting "(1)" after "(b)" and by inserting at the end thereof the following new subdivision:

"(2) In any month when the Board finds that the balance in the Railroad Retirement Account is insufficient to pay annuity amounts due to be paid during the following month, the Board shall report to the Secretary of the Treasury the additional amount of money necessary in order to make such annuity payments, and the Secretary shall transfer to the credit of the Railroad Retirement Account such additional amount upon receiving such report from the Board. The total amount of money outstanding to the Railroad Retirement Account from the general fund at any time during any fiscal year shall not exceed the total amount of money the Board and the Trustees of the Social Security Trust Funds estimate will be transferred to the Railroad Retirement Account pursuant to section 7(c)(2) of this Act with respect to such fiscal year. Whenever the Board determines that the sums in the Railroad Retirement Account are sufficient to pay annuity amounts, the Board shall request the Secretary of the Treasury to re-transfer to the general fund from the Railroad Retirement Account all or any part of the amount outstanding, and the Secretary of the Treasury shall make such retransfer of the amount requested. Not later than 10 days after a transfer to the Railroad Retirement Account under section 7(c)(2) of this Act, any amount of money outstanding to the Railroad Retirement Account from the general fund under this subdivision shall be retransferred in accordance with this subdivision. Any amount retransferred shall include an amount of interest computed at a rate determined in accordance with the following two sentences: The rate of interest payable with respect to an amount out-standing for any month shall be equal to the average investment yield for the most recent auction (before such month) of

United States Treasury bills with maturities of 52 weeks, deeming any amount outstanding at the beginning of a month to have been borrowed at the beginning of such month. For this purpose the amount of interest computed in accordance with the preceding sentence but not repaid by the end of such month shall be added to the amount outstanding at the beginning of the next month."

SEC. 743. AMENDMENTS TO SECTION 3231 CLARIFY-ING DEFINITION OF COMPENSATION.

(a) Paragraph (1) of section 3231(e) (defining compensation) is amended by adding after the third sentence thereof the following new sentence: "Compensation which is paid in one calendar month but which would be payable in a prior or subsequent taxable month but for the fact that prescribed date of payment would fall on a Saturday, Sunday or legal holiday shall be deemed to have been paid in such prior or subsequent taxable month."

(b) Paragraph (2) of section 3231(e) is amended by adding at the beginning thereof the following new sentence: "A payment made by an employer to an individual through the employer's payroll shall be presumed, in the absence of evidence to the contrary, to be compensation for service rendered by such individual as an employee of the employer in the period with respect to which the payment is made."

(c) Paragraph (2) of section 3231(e), as amended by subsection (b), is amended by striking from the second sentence thereof the words "An employee" and inserting instead the words: "An employee receiving retroactive wage payments".

(d) The amendments made by this section shall apply for taxable years beginning after December 31, 1981.

Subtitle F-Filing Fees

SEC. 751. FEES FOR FILING PETITIONS.

(a) In General.—Section 7451 is amended by striking out "\$10" and inserting in lieu thereof "\$60".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to petitions filed after December 31, 1981.

TITLE VIII-MISCELLANEOUS PROVISIONS

Subtitle A—Extension

SEC. 801. FRINGE BENEFITS.

Section 1 of the Act entitled "An Act to prohibit the issuance of regulations on the taxation of fringe benefits, and for other purposes", approved October 7, 1978 (Public Law 95-427), is amended by striking out "May 31, 1981" each place it appears and inserting in lieu thereof "December 31, 1983".

SEC. 802. EXCLUSION FOR PREPAID LEGAL SERVICES EXTENDED FOR 3 YEARS.

(a) EXTENSION.—Section 120 (relating to amounts received under qualified group legal services plans) is amended by adding at the end thereof the following new subsection:

"(e) Termination.—This section shall not apply to taxable years ending after December 31, 1984."

(b) Conforming Amendment.—Paragraph (1) of section 2134(e) of the Tax Reform Act of 1976 (relating to effective date) is amended by striking out ", and ending before January 1, 1982".

Subtitle B—Tax-Exempt Obligations

SEC. 811. TAX-EXEMPT FINANCING FOR VEHICLES USED FOR MASS COMMUTING.

(a) GENERAL RULE.—Paragraph (4) of section 103(b) (relating to industrial development bonds) is amended by striking out "or"

at the end of subparagraph (G), by striking out the period at the end of subparagraph (H) and inserting in lieu thereof ", or", and by inserting after subparagraph (H) the following new subparagraph:

"(I) qualified mass commuting vehicles."
(b) Definition of Qualified Mass Com-MUTING VEHICLES -Subsection (b) of section 103 is amended by redesignating paragraph (9) as paragraph (10) and by inserting after paragraph (8) the following new paragraph:

QUALIFIED MASS COMMUTING

"(A) In general.-For purposes of paragraph (4)(I), the term 'qualified mass commuting vehicle' means any bus, subway car, rail car, or similar equipment-

"(i) which is leased to a mass transit system wholly owned by 1 or more govermental units (or agencies or instrumental-

ities thereof), and

"(ii) which is used by such system in pro-

viding mass commuting services.
"(B) Termination.—Paragraph (4)(I) shall not apply to any obligation issued after December 31, 1984."

EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

SEC. 812. OBLIGATIONS OF CERTAIN VOLUNTEER FIRE DEPARTMENTS.

(a) In General.-Section 103 (relating to interest on certain governmental obligations) is amended by redesignating subsection (i) as subsection (J) and by inserting after subsection (H) the following new sub-

section:
"(i) Obligations of Certain Volunteer

FIRE DEPARTMENTS.-

(1) In general.—An obligation of a volunteer fire department shall be treated as an obligation of a political subdivision of a

"(A) such department is a qualified volunteer fire department with respect to an area within the jurisdiction of such political sub-

division, and

(B) such obligation is issued as part of an issue substantially all of the proceeds of which are to be used for the acquisition, construction, reconstruction, or improvement of a firehouse or firetruck used or to

be used by such department.

"(2) QUALIFIED VOLUNTEER FIRE DEPART--For purposes of this subsection, the MENT. term 'qualified volunteer fire department' means, with respect to a political subdivi-

sion of a State, any organization-

"(A) which is organized and operated to provide firefighting or emergency medical services for persons in an area (within the jurisdiction of such political subdivision) which is not provided with any other firefighting services,

'(B) which is required (by written agreement) by the political subdivision to furnish

firefighting services in such area.

(b) EFFECTIVE DATE .-

(1) In GENERAL.—The amendment made by subsection (a) shall apply to obligations issued after December 31, 1980.

(2) SPECIAL RULE FOR CERTAIN OBLIGATIONS

ISSUED BEFORE EFFECTIVE DATE .-

(A) In GENERAL.-Interest on any obligation described in subparagraph (B) shall be excluded from gross income.

(B) Obligation to which paragraph applies.—For purposes of subparagraph (A), an obligation is described in this subparagraph if the obligation-

(i) was issued after December 31, 1969, and before January 1, 1981, to the First Bank and Trust Company of Indianapolis, Indi-

ana.

(ii) was issued by a qualified volunteer fire department (within the meaning of section 103(i)(2) of the Internal Revenue Code of 1954), and

was issued for the acquisition, construction, reconstruction, or improvement

of firefighting property.

An obligation shall be treated as described in this subparagraph only for the period which is held by the First Bank and Trust Company of Indianapolis, Indiana.

(C) FIREFIGHTING PROPERTY.-For purposes of subparagraph (B), the term 'firefighting property' means property-

(i) which is of a character subject to the allowance for depreciation, and

(ii)(I) which is used in the training for the performance of, or in the performance of, firefighting or ambulance services, or

(II) which is exclusively used to house the property described in subclause (I).

Subtitle C-Excise Taxes

SEC. 821. EXTENSION OF TELEPHONE EXCISE TAX. (a) In GENERAL.—The table contained in paragraph (2) of section 4251(a) (relating to

imposition of tax on communications) is amended by striking out the last line and in-

serting in lieu thereof the following: 'During 1982, 1983, or 1984 (b) Conforming Amendment.-

(b) of section 4251 is amended by striking out "1983" and inserting in lieu thereof "1985"

SEC. 822. EXCLUSION OF CERTAIN SERVICES FROM FEDERAL UNEMPLOYMENT TAX ACT.

(a) In General.—Section 3306(c) (relating to the definition of employment under the Federal Unemployment Tax Act) is amend-

(1) by striking out "or" at the end of paragraph (17);

(2) by redesignating paragraph (18) as paragraph (19); and

(3) by inserting after paragraph (17) the

following new paragraph: described service in section (18) 3121(b)(20); or".

(b) EFFECTIVE DATE.-The amendments made by subsection (a) shall be effective with respect to remuneration paid during

SEC. 823, PRIVATE FOUNDATION DISTRIBUTIONS.

(c) GENERAL RULE

(1) Paragraph (1) of section 4942(d) (defining distributable amount) is amended by striking out "or the adjusted net income (whichever is higher)".

(2) Paragraph (3)(A) of section 4942(j) (defining operating foundation) is amended to

"(A) which makes qualifying distributions (within the meaning of paragaph (1) or (2) of subsection (g)) directly for the active conduct of the activities constituting the purpose or function for which it is organized and operated equal to substantially all of the lesser of

"(i) its adjusted net income (as defined in

subsection (f), and

'(ii) its minimum investment return; and" (3) Paragraph (3) of section 4942(j) is amended by adding at the end thereof the following new sentence: "Notwithstanding the provisons of subparagraph (A), if the qualifying distributions (within the meaning of paragraph (1) or (2) of subsection (g)) of an organization for the taxable year exceed the minimum investment return for the taxable year, clause (ii) of subparagraph (A) shall not apply unless substantially all of such qualifying distributions are made directly for the active conduct of the activities constituting the purpose or function for which it is organized and operated."

(b) Effective Date.-The amendments made by this section shall apply to taxable years beginning after December 31, 1981.

Subtitle D-Other Provisions

SEC. 831. TECHNICAL AMENDMENTS RELATING TO DISPOSITIONS OF INVESTMENT IN UNITED STATES REAL PROPERTY.

(a) GENERAL RULE.

(1) Paragraph (1)(A)(i) of section 897(c) (defining United States real property interests) is amended by striking out "United States" and inserting in lieu thereof and inserting in lieu thereof 'United States or the Virgin Islands"

(2) Section 862(a) (relating to income from sources without the United States) is

amended-

(A) by striking out "and" at the end of paragraph (5).

(B) by striking out the period at the end of paragraph (6) and inserting in lieu thereof a semicolon.

(C) by striking out "Underwriting" in paragraph (7) and inserting in lieu thereof underwriting".

(D) by striking out the period at the end of paragraph (7) and inserting in lieu thereand", and

(E) by adding at the end thereof the following new paragraph:

"(8) gains, profits, and income from the disposition of a United States real property interest (as defined in section 897(c)) when the real property is located in the Virgin Islands.

(3) Section 6039C (relating to returns with respect to United States real property interests) is amended by adding at the end there-

of the following new subsection:

"(f) SPECIAL RULE FOR UNITED STATES IN-TEREST AND VIRGIN ISLANDS INTEREST .- A nonresident alien individual or foreign corporation subject to tax under section 897(a) shall pay any tax and file any return required by this title—

"(1) to the United States, in the case of any interest in real property located in the United States and an interest (other than an interest solely as a creditor) in a domestic corporation (with respect to the United States) described in section 897(c)(1)(A)(ii),

"(2) to the Virgin Islands, in the case of an interest in real property located in the Virgin Islands and an interest (other than an interest solely as a creditor) in a domestic corporation (with respect to the Virgin Islands) described in section 897(c)(1)(A)(ii).

PARTNERSHIP Assets.-Paragraph (b) (4)(B) of section 897(c) is amended to read

as follows:

"(B) ASSETS HELD BY PARTNERSHIPS, ETC.-Under regulations prescribed by the Secretary, assets held by a partnership, trust, or estate shall be treated as held proportionately by its partners or beneficiaries. Any asset treated as held by a partner or beneficiary by reason of this subparagraph which is used or held for use by the partnership, trust, or estate in a trade or business shall be treated as so used or held by the partner or beneficiary. Any asset treated as held by a partner or beneficiary by reason of this subparagraph shall be so treated for purposes of applying this subparagraph successively to partnerships, trusts, or estates which are above the first partnership, trust, or estate in a chain thereof.'

(c) Nonrecognition Rules Overridden in CERTAIN CASES.—Subparagraph (B) of section 897(d)(1) is amended to read as follows:

"(B) Exceptions.—Gain shall not be recognized under subparagraph (A)-

"(i) if-

"(I) at the time of the receipt of the distributed property, the distributee would be subject to taxation under this chapter on a subsequent disposition of the distributed property, and

'(II) the basis of the distributed property in the hands of the distributee is no greater than the adjusted basis of such property before the distribution, increased by the amount of gain (if any) recognized by the distributing corporation, or

"(ii) if such nonrecognition is provided in regulations prescribed by the Secretary under subsection (e)(2),"

(d) FOREIGN CORPORATION PERMITTED TO ELECT TO BE TREATED AS A DOMESTIC CORPO-RATION.-Subsection (i) of section 897 is amended to read as follows:

"(i) ELECTION BY FOREIGN CORPORATION TO BE TREATED AS DOMESTIC CORPORATION .-

"(1) IN GENERAL.-If-

"(A) a foreign corporation holds a United States real property interest, and

"(B) under any treaty obligation of the United States the foreign corporation is entitled to nondiscriminatory treatment with respect to that interest.

then such foreign corporation may make an election to be treated as a domestic corporation for purposes of this section and section

"(2) REVOCATION ONLY WITH CONSENT. Any election under paragraph (1), once made, may be revoked only with the consent of the Secretary.

'(3) Making of election.—An election under paragraph (1) may be made only-

'(A) if all of the owners of all classes of interests (other than interests solely as a creditor) in the foreign corporation at the time of the election consent to the making of the election and agree that gain, if any, from the disposition of such interest after June 18, 1980, which would be taken into account under subsection (a) shall be taxable notwithstanding any provision to the contrary in a treaty to which the United States is a party, and

"(B) subject to such other conditions as the Secretary may prescribe by regulations with respect to the corporation or its shareholders

In the case of a class of interest (other than an interest solely as a creditor) which is regularly traded on an established securities market, the consent described in subparagraph (A) need only be made by any person if such person held more than 5 percent of such class of interest at some time during the shorter of the periods described in subsection (c)(1)(A)(ii). The constructive ownership rules of subsection (c)(6)(C) shall apply in determining whether a person held more than 5 percent of a class of interest.

"(4) EXCLUSIVE METHOD OF CLAIMING NON-DISCRIMINATION.—The election provided by paragraph (1) shall be the exclusive remedy for any person claiming discriminatory treatment with respect to this section and

section 6039C.

(e) REPORTING REQUIRED FOR CERTAIN INDI-RECT HOLDINGS.—Paragraph (4)(C) of section 6039C(b) is amended to read as follows:

"(C) Indirect holdings.—For purposes of determining whether an entity to which this subsection applies has a substantial investor in United States real property, the assets of any person shall include the person's pro rata share of the United States real property interest held by any corporation (whether domestic or foreign) if the person's pro rata share of the United States real property interests exceeded \$50,000."

(f) CERTAIN CONTRIBUTIONS TO CAPITAL.-Section 897 is amended by adding at the end thereof the following new subsection:

'(j) CERTAIN CONTRIBUTIONS TO CAPITAL Except to the extent otherwise provided in regulations, gain shall be recognized by a nonresident alien individual or foreign corporation on the transfer of a United States real property interest to a foreign corporation if the transfer is made as paid in surplus or as a contribution to capital, in the amount of the excess of-

(1) the fair market value of such proper-

ty transferred, over

(2) the sum of-

"(A) the adjusted basis of such property in the hands of the transferor, plus

(B) the amount of gain, if any, recognized to the transferor under any other provision at the time of the transfer.

(g) Pre-enactment Acquisitions.—Section 897 is amended by adding at the end thereof the following new subsections:

(h) FOREIGN CORPORATIONS ACQUIRED BEFORE ENACTMENT.-If-

"(1) a foreign corporation adopts, or has adopted, a plan of liquidation described in

section 334(b)(2)(A), and

'(2) the 12-month period described in section 334(b)(2)(B) for the acquisition by purchase of the stock of the foreign corpora-tion, began after December 31, 1979, and before November 26, 1980,

then such foreign corporation may make an election to be treated, for the period following June 18, 1980, as a domestic corporation pursuant to section 897(i)(1). Notwithstanding an election under the preceding sentence, any selling shareholder of such corporation shall be considered to have sold the stock of a foreign corporation.

"(1) SPECIAL RULE FOR CERTAIN UNITED STATES SHAREHOLDERS OF LIQUIDATING FOR-EIGN CORPORATIONS.—If a corporation adopts a plan of complete liquidation and if, solely by reason of section 897(d), section 337(a) does not apply to sales or exchanges, or section 336 does not apply to distributions, of United States real property interests by such corporation, then, in the case of any shareholder who is a United States citizen or resident and who has held stock in such corporation continuously since June 18, 1980, for the first taxable year of such shareholder in which he receives a distribution in complete liquidation with respect to such stock-

"(1) the amount realized by such shareholder on the distribution shall be increased by his proportionate share of the amount by which the tax imposed by this subtitle on such corporation would have been reduced if section 897(d) had not been applicable, and

'(2) for purposes of this title, such shareholder shall be deemed to have paid, on the last day prescribed by law for the payment of the tax imposed by this subtitle on such shareholder for such taxable year, amount of tax equal to the amount of the increase described in paragraph (1).

(h) TREATY.-Paragraph (2)(B) of section 1125 of the Foreign Investment Real Property Tax Act of 1980 is amended to read as

"(B) the new treaty is signed on or after January 1, 1981, and before January 1, 1985, then paragraph (1) shall be applied with respect to obligations under the old treaty by substituting for 'December 31, 1984' the date (not later than 2 years after the new treaty was signed) specified in the new treaty (or accompanying exchange of notes)."

(i) Effective Dates.-The amendments made by this section shall apply to dispositions after June 18, 1980, in taxable years ending after such date.

SEC. 832. MODIFICATION OF FOREIGN INVESTMENT COMPANY PROVISIONS.

(a) In General.—Paragraph (2) of section 1246(a) (defining ratable share) is amended by striking out subparagraph (B) and inserting in lieu thereof the following:

"(B) excluding such earnings and profits

attributable to-

"(i) any amount previously included in the gross income of such taxpayer under section 951 (but only to the extent the inclusion of such amount did not result in an exclusion of any other amount from gross income under section 959), or

"(ii) any taxable year during which such corporation was not a foreign investment

company but only if-

"(I) such corporation was not a foreign investment company at any time before such taxable year, and

(II) such corporation was treated as a foreign investment company solely

reason of subsection (b)(2).

(b) Effective Date.—The amendment made by subsection (a) shall apply to sales or exchanges after the date of the enactment of this Act in taxable years ending after such date.

And the Senate to agree to the same.

DAN ROSTENKOWSKI, SAM GIBBONS, J. J. PICKLE. CHARLES B. RANGEL. PETE STARK, BARBER B. CONABLE, Jr., JOHN J. DUNCAN,

WILLIAM ARCHER, Managers on the Part of the House.

BOB DOLE, BOB PACKWOOD, BILL ROTH, JOHN C. DANFORTH, RUSSELL B. LONG, HARRY F. BYRD, Jr., LLOYD BENTSEN, Managers on the Part of the Senate.

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The Managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4242) to encourage economic growth through reduction of tax rates submit the following joint statement to the House and the Senate as an explanation of the effect of the action agreed upon by the Managers recommended in the accompanying report:

I. EXPLANATION OF CONFERENCE AGREEMENT

A. Individual Income Tax Reductions 1. Individual rate reductions

House bill.-Under present law, individual income tax rates begin at 14 percent on taxable income above \$3,400 on a joint return and \$2,400 on a single return. The rates range up to 70 percent on taxable incomes, excess of \$215,400 on a joint return, and \$108,300 on a single return.

The highest marginal rate is 70 percent on taxable income in excess of \$215,400 on a joint return and \$108,300 on a single return. However, the top rate on personal service income is limited to 50 percent (the maximum tax). This rate applies above \$60,000 on a joint return and \$41,500 on a single return.

A deduction from gross income is allowed for 60 percent of any net capital gain for the year. The remaining 40 percent of any net capital gain is taxed at the ordinary rates up to 70 percent. Thus, the top effective tax rate on capital gains is 28 percent (70 percent rate times the 40 percent included in taxable income).

The capital gains deduction generally applies to assets held more than one year.

The House bill provides for cumulative across-the-board reductions of 23 percent by 1984 on the following schedule:

	Percent
1981	11/4 10 19 23

Withholding changes take place on October 1, 1981, July 1, 1982, and July 1, 1983. The bill makes several other withholding changes to give the Secretary the authority to issue regulations, which would permit workers to adjust their withholding to more closely match their tax liability.

The House bill reduces the top marginal rate from 70 percent to 50 percent (and, thus, the maximum effective rate on capital gains from 28 percent to 20 percent) in 1982 and repeals the maximum tax in 1982.

A special alternative tax for 1981 provides that a maximum 20-percent rate on net capital gains will apply to sales or exchanges occurring after June 8, 1981. Thus, this provision does not apply to taxable receipts after June 8, 1981, of proceeds of sales or exchanges which occurred prior to that date.

The holding period for long-term capital gain or loss treatment is reduced to 6 months for taxable years beginning after December 31, 1981.

Senate amendment.—The Senate amendment is the same as the House bill, except (1) that the alternative tax for capital gains for individuals applies to sales and exchanges after June 9, 1981, and (2) there is no provision reducing the holding period for capital gains.

Conference agreement.—The conference agreement is the same as the Senate amendment, except for technical changes.

2. Deduction for two-earner married couples

House bill.—Under present law, married taxpayers generally are treated as a single taxpaying unit. If married taxpayers elect to file separate rather than joint returns, they usually pay a higher tax. The differing rate schedules for single and married taxpayers give rise to a marriage penalty when two single wage earners of relatively equal income marry each other.

The House bill allows couples filing a joint return a deduction in computing adjusted gross income equal to a percentage of the lower earning spouse's qualified earned income (up to \$30,000 of income). In 1982, the percentage will be 5 percent (up to a \$1,500 maximum deduction) and in 1983 and subsequent years the percentage will be 10 percent (up to a \$3,000 maximum deduction).

Senate amendment.—Same as House bill. Conference agreement.—The conference agreement is the same as the House bill and the Senate amendment.

3. Indexing

House bill.—Under present law, the individual income tax is based on various fixed

amounts including the amounts that define the tax brackets, the zero bracket amount, and the personal exemption. These amounts are set by statute and are not adjusted for inflation.

Under the House bill, the income tax brackets, zero bracket amount, and personal exemption are adjusted for inflation (as measured by the Consumer Price Index), starting in 1985.

Senate amendment.—Same as House bill.

Conference agreement.—The conference agreement is the same as the House bill and the Senate amendment.

Individuals eligible for earned income credit

House bill.-No provision.

Senate amendent.—Under present law, individuals eligible for the earned income credit include all marrried individuals entitled to a dependency exemption for a child, surviving spouses, and heads of households who maintain a household for a child. In each case, the child must reside with the taxpayer in the United States.

Under the Senate amendment, an individual would not be eligible for the credit unless he or she is a citizen of the United States or an alien admitted as a permanent resident.

Conference agreement.—The conference agreement follows the House bill.

5. Child and dependent care credit

House bill.-No provision.

Senate amendment.—Under present law, there is a tax credit for 20 percent of expenditures for the care of children and other dependents incurred in connection with the taxpayer's employment, up to a maximum of \$2,000 of expenditures for each of the taxpayer's first two dependents.

The Senate amendment provides a refundable child care credit equal to 30 percent of employment-related expenses of taxpayers with incomes of \$10,000 or less. The credit will be reduced by one percent for each \$2,000, or fraction thereof, of income above \$10,000. For taxpayers with adjusted gross income above \$28,000, the credit rate will be 20 percent. The maximum amount of employment-related expenses taken into account will be increased to \$2,400 (one dependent) and \$4,800 (two or more dependents). Expenditures for out-of-home, noninstitutional care of a disabled spouse or dependent are made eligible for the credit. Expenditures for services provided by a dependent care center not in compliance with State or local regulations will not be eligible for the credit.

The Senate amendment also provides that child care provided by an employer under a written nondiscriminatory plan will not be included in an employee's gross income. In addition, employers will be entitled to a credit equal to 50 percent of the cost of any employer-provided child and dependent

Conference agreement.—The conference agreement follows the Senate amendment with several modifications. Under the conference agreement, the increased child care credit will not be refundable. In addition, employers will not be entitled to a tax credit for employer-provided child and dependent care.

In general, the provision is effective in taxable years beginning after December 31, 1981. The phase-down of the credit percentage applies to remuneration paid after December 31, 1981.

6. Charitable contributions deduction for nonitemizers

House bill.—Under present law, charitable contributions may be deducted from adjusted gross income in determining taxable income. Thus, in order for an individual taxpayer to deduct charitable contributions, the taxpayer must itemize deductions. Present law also provides that charitable contributions are allowable as deductions only if verified under Treasury regulations.

The House bill allows all taxpayers to deduct allowable charitable contributions whether or not they itemize deductions.

The deduction would be a percentage of contributions up to a fixed dollar amount of contributions as follows:

Year	Per- centage	Cap
1987 1983 1984 1985 1986 1987	25 25 25 50 100 Provision ex- pires.	\$100 100 100

Senate amendment.—The Senate amendment is similar to the House bill with the following limitations:

Year	Per- centage	Cap
1982 1983 1984 1985 1986 1987	25 25 25 50 100 Provision ex- pires.	\$100

Conference agreement.—The conference agreement generally follows the Senate amendment with the addition of a \$300 contribution cap in 1984 (\$75 maximum deduction). In addition, the conferees intend that the Secretary promulgate new regulations providing substantiation requirements for claiming the deduction. The contribution cap is the same for married taxpayers filing joint returns and single taxpayers. The cap is one-half the applicable amount for married taxpayers filing separately.

ried taxpayers filing separately.

The provision is effective for taxable years beginning after December 31, 1981, and applies to contributions made after that date. The provision will not apply to contributions made after December 31, 1986.

7. Gain on sale of residence

a. Replacement period for rollover of gain on sale of residence

House bill.—Present law provides for the deferral of recognition or rollover, of gain on the sale of a taxpayer's principal residence if a new principal residence is purchased and used by the taxpayer within a period beginning 18 months before, and ending 18 months after, the sale. This rule applies only to the extent that the purchase price of the replacement residence equals or exceeds the sale price of residence sold.

The House bill extends the 18-month replacement period of present law to 2 years. This change is effective for sales and exchanges of principal residences after July 20, 1981, and for such sales and exchanges with respect to which the 18-month rollover period has not expired on or before July 20, 1981. It is not effective for sales and exchanges of principal residences with respect

to which the 18-month rollover period has expired by July 21, 1981.

Senate amendment.-No provision.

Conference agreement.-The conference agreement follows the House bill.

b. Exclusion of gain on sale of residence

House bill.-Present law allows individuals who have attained the age of 55 to elect a one-time exclusion of up to \$100,000 of gain on the sale of their principal residence (Code sec. 121). Generally, the individual must have owned and used the property as a principal residence for three years or more out of the five-year period preceding the

The House bill increases from \$100,000 to \$125,000 the amount of gain excludable from gross income on the sale or exchange of a principal residence by an individual who has attained the age of 55.

The House bill is effective on sales and exchanges of a principal residence after July

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

c. Sale of residence by handicapped individ-

House bill.-No provision

Senate amendment.-Present law allows individuals who have attained the age of 55 to elect a one-time exclusion of up to \$100,000 of gain on the sale of their principal residence. Generally, the individual must have owned and used the property as a principal residence for three years or more out of the five-year period preceding the sale. The Senate amendment extends the one-time election to taxpayers in situations involving serious handicaps.

Conference agreement.—The conference

agreement follows the House bill.

8. Foreign earned income

House bill.-Present law provides a variety of deductions and exclusions for income earned abroad. The House bill modifies the eligibility standards of present law and replaces the present system of deductions for excess living costs with an exclusion of a portion of foreign earned income. The bona fide residence test remains in its present form. However, an individual also is eligible for the special provisions if he is present in a foreign country or countries for 330 full days in any period of 12 consecutive months (rather than 510 days in any period of 18 consecutive months as under present law). Individuals meeting these requirements generally may elect to exclude foreign earned income attributable to the period of foreign residence or presence at an annual rate for taxable years beginning on or after January 1, 1982, of \$75,000. This amount is increased \$5,000 a year over the next four years to \$95,000. Thus, at the end of the phase-in period a taxpayer will be able to exclude up to \$95,000. In the case of a married couple, the exemption is computed separately for each qualifying individual. The definition of earned income is identical to present law.

Once a taxpayer has elected to exclude foreign earned income the election remains in effect for that year and all future years. The election may be revoked with the consent of the Commissioner. In addition the election may be revoked by the taxpayer without consent. However, if the election is revoked without consent, the taxpayer cannot again elect until the sixth taxable year following the taxable year for which

the revocation was made. If a taxpayer who elects to exclude for-

eign earned income becomes a resident of

the United States and then, a number of years later, moves abroad again, the election remains in effect. Accordingly, that individual would not have to reelect the exclusion for that later year. If that individual does not want to be subject to the exclusion, he would have to revoke the election and would be barred from reelecting the exclusion for five years. However, the Commissioner might, in determining whether to consent to a revocation of the election, take into account U.S. residence for a period of a number of years.

In addition to the exclusion described above, an individual may elect to exclude a portion of his income or, in the case of housing amounts not provided by an employer, elect to deduct an amount for housing, based on his housing expenses. This exclusion is equal to the excess of the taxpayer's "housing expenses" over a base housing amount. The term "housing expenses" means the reasonable expenses paid or incurred during the taxable year by, or on behalf of, the individual for housing for the individual (and for his spouse and dependents, if they reside with him) in a foreign country. The term includes expenses attributable to the housing, such as utilities and insurance, but does not include interest and taxes, which are separately deductible. If the taxpayer maintains a second household outside the United States for his spouse and dependents who do not reside with him because of adverse living conditions, then the housing expenses of the second household also are eligible for the exclusion. Housing expenses are not treated as reasonable to the extent they are lavish or extravagant under the circumstances.

The base housing amount is 16 percent of the salary of an employee of the United States whose salary grade is step 1 of grade GS-14. Currently, this salary is \$37,871 so the current base housing amount would be

Housing costs attributable to amounts provided by an employer of the individual in the course of his employment are excluded from gross income of the employee. Amounts not attributed to an employer are to be allowed as a deduction in computing adjusted gross income of the employee. The amount of the deduction is limited, subject to a special carryover rule, to the foreign earned income of the individual which is not otherwise excluded from gross income under this provision. For example, if an individual who is not an employee has foreign earned income in 1982 of \$100,000 and qualifying housing expenses in excess of the base amount of \$20,000, the individual may elect and then deduct \$75,000 under the general exclusion plus \$20,000 for the excess housing cost exclusion. If, however, that individual had no foreign earned income for the year, then he could not deduct any amount attributable to the housing expenses for the year. However, the special carryover rule may allow the individual to deduct all or a portion of his unused housing expenses in the next taxable year.

The bill provides that an individual who is not an employee and who qualifies for the foreign earned income exclusion, but who has housing expenses in excess of earned income for a year can carry those expenses forward only to the next taxable year and deduct them in that year subject to the limitation in the next year. In determining how much of the carried forward housing ex-penses could be used in that next year the carried over amounts could be used only

after the housing expenses incurred in that vear 1

Deductions and credits attributable to excluded income are not allowed. For example, foreign taxes paid on excluded income may not be credited against U.S. taxes.

As under present law, pensions, and annuities, and income from certain trusts are not excludable.

The bill extends the benefits of the exclusion to individuals who receive compensation from the U.S. or any agency thereof. but who are not employees of the U.S. or any agency thereof. Thus, for example, the bill extends the exclusion to certain overseas independent contractors and teachers at certain schools for U.S. dependents who are not employees of the U.S. or any agency thereof.

The bill retains with certain modifications the present rule that in the case of an individual who is furnished lodging in a camp located in a foreign country by or on behalf of his employer the camp shall be considered part of the business premises of the employer for purposes of section 119, relating to the exclusion from income of the value of meals and lodging furnished by the employer. To qualify as a camp, the lodging must be furnished for the convenience of the employer because the place at which the services are rendered in a remote area where satisfactory housing is not otherwise available on the open market. The lodging must also be located, as near as practicable, in the vicinity of the site at which the individual performs the services and must also be in a common area, or enclave, which is not available to the public and which normally accommodates 10 or more employees. This provision differs from present law primarily in that the camp does not have to be in a hardship area and need not constitute substandard lodging.

The bill retains the present rules under which an individual is allowed pro rata benefits in certain cases where civil unrest or similar adverse conditions require an individual to leave the foreign country before meeting the time requirements.

The bill authorizes the Secretary of the Treasury to issue such regulations as may be necessary or appropriate to carry out the purposes of this provision, including regulations providing rules for cases in which both spouses have foreign earned income or file separate returns.

The present rule extending the period within which capital gain on the sale of a principal residence must be rolled over to qualify for exemption from tax is retained.

The provision does not affect the treatment of amounts received since December 31, 1962, which are attributable to services performed on or before December 31, 1962, and with respect to which there existed on March 12, 1962, a right (whether forfeitable or nonforfeitable) to receive such amounts. Accordingly, these amounts will continue (as they have since 1962) to be subject to

¹ For example, assume that A. a U.S. citizen, is a bona fide resident of a foreign country for all of 1983. The citizen has no foreign earned income and his housing cost amount (his foreign housing expenses over the base amount) is \$30,000. A gets no deduction for housing costs in 1983. In 1984 A has foreign earned income of \$150,000 and his housing cost amount is again \$30,000. A would be entitled to an exclusion of \$85,000 plus a deduction of his \$30,000 housing cost amount paid in 1984. In addition A would be permitted to deduct the \$30,000 of his unused housing costs carried over from 1983.

section 911 as in effect before amendment by the Revenue Act of 1962.

Finally, the provision of the Foreign Earned Income Act of 1978 requiring the Secretary of report biannually to the Congress on the operation and effects of sections 911 and 912 is changed to require the report as soon as practicable after enactment and each fourth calendar year thereafter.

Senate amendment.—The Senate amendment is the same as the House bill except that the foreign earned income excluded is the first \$50,000 plus one-half of the next \$50,000, the election is annual, and the housing exclusion is not limited to earned income.

Conference agreement.—The conference agreement follows the House bill.

B. CAPITAL COST RECOVERY PROVISIONS

Capital cost recovery provisions—general concept

House bill.—Present law is designed to allocate depreciation deductions over the period the asset is used in business so that deductions for the cost of an asset are matched with the income produced by the asset

Under the House bill, the present law Asset Depreciation Range (ADR) system is terminated for recovery property placed in service after December 31, 1980, and replaced with the Accelerated Cost Recovery System (ACRS). Under ACRS, the cost of an asset is recovered over a predetermined period shorter than the useful life of the asset or the period the asset is used to produce income.

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and Senate amendment. To make clear that the repair allowance rules under the ADR system do not apply to recovery property, the conference agreement provides for the repeal of section 263(e).

10. Eligible property

House bill.—Under present law, assets used in a trade or business or for the production of income are depreciable if they are subject to wear and tear, decay or decline from natural causes or obsolescence. Assets that do not decline in value on a predictable basis or that do not have a determinable useful life, such as land, goodwill, and stock, are not depreciable.

Under the House bill, most tangible depreciable property (real and personal) is covered by the accelerated cost recovery system (ACRS). However, ACRS does not apply to (1) property not depreciated in terms of years (except certain railroad property), and (2) property amortized (e.g., leasehold improvements and low-income rehabilitation expenditures).

Senate amendment.—The Senate amendment is the same as the House bill, except all racehorses and other horses over 11 years old are not eligible property. Thus, excluded horses are subject to present law rules. The useful life for an excluded racehorse will be determined on the basis of all facts and circumstances. The useful life for other horses over 11 years old will be determined under the ADR system.

Conference agreement.—In general, the conference agreement follows the House bill and Senate amendment. However, under the conference agreement, all horses are eligible for ACRS.

11. Useful lives and methods

a. Personal property useful lives and methods

House bill.—Under present law, a principal method used to determine useful lives for personal property is the Asset Depreciation Range (ADR) system.

Under the ADR system, the Treasury, on the Basis of actual industry experience, specifies a midpoint life for equipment used in most industries. Taxpayers may elect lives 20 percent longer or shorter than the midpoint life. ADR midpoint lives for equipment range from 2.5 years for certain special manufacturing tools to 50 years for certain public utility equipment.

tain public utility equipment.

For assets not eligible for ADR and for taxpayers who do not elect ADR, useful lives are determined according to the facts and circumstances pertaining to each asset or by agreement between the taxpayer and the IRS.

The House bill provides that eligible personal property (and certain real property) is recovered over 3, 5, 10, or 15 years. The classification of property by recovery period is as follows:

except long-lived public utility property. Also includes single purpose agricultural structures and petroleum storage facilities, which are designated as section 1245 property under the bill.

10 years..... Public utility property with an ADR midpoint life greater but than 18 not greater than years; railroad tank cars: and real property with an ADR midpoint life of 12.5 years or less (e.g., theme park struc-

tures).

Public utility property with an ADR midpoint life exceeding 25 years.

Under a flexibility provision, taxpayers may elect to use one of two longer recovery periods as set forth below:

Optional periods

Property: 5 and 12 years 5-year property. 12 and 25 years 10-year property. 25 and 35 years 15-year property. 35 and 45 years.

Under present law, taxpayers may use the straight-line method, a declining balance method at a rate up to 200-percent of the straight-line rate, or the sum of the years-digits method with respect to new personal property. For used personal property, taxpayers may use either the straight-line method or a declining balance method at a

rate up to 150-percent of the straight-line rate.

Under the House bill, taxpayers have the option to use the straight-line method over the regular or optional longer recovery period or a prescribed accelerated method over the regular recovery period. The prescribed accelerated method for property placed in service in the following years is based on depreciation methods as set forth below, using a half-year convention and no salvage value limitation:

Prescribed method

Year property placed in service:	
1981-1984	150 percent declining balance, changing to straight-line
1985	175 percent declining balance, changing to SYD
After 1985	200 percent declining balance changing to

Senate amendment.-The Senate amendment is generally the same as the House bill, except residential, manufactured homes and certain public utility property are included in the 10-year class and certain pollution control equipment is included in the 3year class. Residential mobile homes that are section 1250 property are included in the 10-year class instead of the 15-year real property class. Electric utility coal-fired burners and boilers that either replace, or are conversions of, oil- or gas-fired burners or boilers are included in the 10-year class instead of the 15-year public utility property class. Related equipment necessary to convert such burners or boilers to coal use, such as fuel-handling equipment, are also included in the 10-year class. Replacement and converted coal-fired burners and boilers (and related conversion equipment) used in a major fuel-burning installation are included in the 10-year class to the extent such equipment is not otherwise 3-year, 5-year, or 10-year property. Qualified pollution control equipment is in the 3-year class if installed in connection with coal-fired burners and boilers that are replacements or conversions of burners or boilers in electric utility powerplants and major fuel-burning instal-

Conference agreement.-The conference agreement generally follows the House bill and Senate amendment, except with respect to the treatment of horses and coal utilization property. Residential manufactured homes that are section 1250 property are included in the 10-year class. Race horses over 2 years old when placed in service by the taxpayer and other horses over 12 years old when placed in service by the taxpayer are included in the 3-year class. Other horses included in the 5-year class. Qualified pollution control equipment related to coal utilization property is not included in the 3year class. Such property, to the extent it is not amortized under section 169, is included in the 5-year class or 15-year public utility property class, depending on whether such property is public utility property. Burners and boilers using coal (including lignite) as a primary fuel (and related necessary equipment) that either replace or are conversions of oil- or gas-fired burners or boilers are included in the 10-year class only if such

equipment is used in an public utility power-plant.

b. Real property

House bill.-Present IRS guideline lives range from 40 to 60 years for real property, but actual lives claimed under a facts and circumstances approach may be shorter. Non-residential property may be depreciated using a 150 percent declining balance method (if new) or the straight-line method. New residential property may be depreciated using straight-line, the 200 percent declining balance method, or the sum of the years-digits method. Used residential may use up to the 125 percent declining balance method (if 20 years useful life is remaining) or straight-line. Taxpayer may use different lives for each separate component of a building, such as plumbing, wiring, etc. (component depreciation) or use a single life for the building and all components (composite depreciation).

Under the House bill, real property is assigned a 15-year recovery period, but tax-payers may elect a 35- or 45-year extended

recovery period.

For all real property, taxpayers have the option to use (1) an accelerated method (200 percent declining balance to straight-line) over the 15-year recovery period, or (2) straight-line over either the 15-year period or the optional extended period chosen. Composite depreciation is required.

Senate amendment.—The Senate amendment is the same as the House bill except that (1) residential property other than lowincome housing is depreciated using the 150-percent declining balance method, and (2) nonresidential property is depreciated using the 150-percent declining balance method, except that the 175-percent declining balance method applies in 1985-1990.

Conference agreement.—The conference agreement follows the House bill and Senate amendment, except that real property other than low-income housing is depreciated using the 175-percent declining balance method, changing to the straight-line method to maximize acceleration.

12. Special depreciation for small business

House bill.—Under present law, there are no special provisions specifically applicable to the depreciation of assets by a small business. Present law, however, does provide a deduction for "bonus" first-year depreciation in an amount not exceeding 20 percent of the cost of eligible property (sec. 179). The cost of the property that may be taken into account may not exceed \$10,000 (\$20,000 for individuals who file a joint return). Thus, the maximum additional first-year depreciation deduction is limited to \$2,000 (\$4,000 for individuals filing a joint return).

The House bill repeals section 179 and replaces it with an election to immediately deduct (expense) the cost of new or used personal property up to \$5,000 per year in 1982 and 1983, \$7,500 in 1984 and 1985, and \$10,000 in years after 1985.

Senate amendment.—The Senate amendment is the same as the House provision.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

13. Recapture of depreciation

House bill.—Under present law, gain on the disposition of personal property is treated as ordinary income rather than capital gain to the extent of prior depreciation taken (sec. 1245). Gain on the disposition of real property is treated as ordinary income rather than capital gain only to the extent prior depreciation taken exceeds what would have been allowable if straight-line depreciation had been used (sec. 1250). In the case of installment sales of personal and real property, the recognition of any gain realized can be deferred (sec. 453).

Under the House bill, the treatment of personal property is unchanged, except that the recognition of gain cannot be deferred by installment sales treatment to the extent a deduction was taken for the property under the special expensing election. The treatment of residential real property is not changed. The treatment of nonresidential real property is unchanged if the straight-line depreciation method is used. However, for nonresidential real property depreciated under an accelerated method, gain is treated as ordinary income to the extent of all prior depreciation taken.

prior depreciation taken.

Senate amendment.—The Senate amendment is the same as the House provision.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

14. Flexibility

House bill.—Under present law, taxpayers have several options that permit flexibility in computing depreciation deductions and net operating losses. Taxpayers have an option to use a useful life 20 percent shorter or longer than the ADR midpoint life. There is an option to use straight-line or accelerated methods, where allowed. In determining the date of additions to and retirements from a depreciation account, taxpayers have an option to use an averaging convention for personal property. In general, net operating losses and operating losses of certain insurance companies may be carried back three years and forward seven years.

Under the House bill taxpayers have an option to use one of two additional recovery periods that are longer than the recovery period prescribed for each class of property. In addition, taxpayers have an option to use an accelerated or straight-line method over

the regular recovery period.

As under the present Treasury regulations for the ADR system, each member of an affiliated group of corporations generally may make its own flexibility elections with respect to property it places in service. However, if the affiliated group files a consolidated tax return, the availability of separate elections will depend on the applicable consolidated return regulations prescribed by the Treasury. The provisions of this bill do not curtail Treasury authority to prescribe consolidated return rules, including those relating to cost recovery elections.

Further, although a transferee of property, in general, may elect a recovery period or method different from that elected by the transferor, appropriate restrictions are imposed to prevent the use of asset transfers as a mechanism to change the recovery period or method for property acquired in an intercompany transfer from another member of an affiliated group or in certain other related party transfers and nonrecognition transactions. For transfers subject to these restrictions, the transferee must "step into the shoes" of the transferor with respect to the recovery period and method of the transferred property. This rule applies only to the extent the basis in the transferee's hands equals the transferor's adjusted For example, assume the transferor elected to use a 12-year life for 5-year property and the straight-line method. Assume also that the transfer occurred 5 years after the property was placed in service. The transferee must depreciate the property using the straight-line method over the remaining 7 years. Transactions subject to this rule are sale-leasebacks and transfers between other related persons as defined in the anti-churning rules and transactions described in section 332 (other than a transaction to which section 334(b)(2) applies), 351, 361, 371(a), 374(a), 721, or 731.

An averaging convention for personal property is built into the proposed recovery percentages. The NOL carry back is extended, in general, to 20 years. However, NOLs of a financial institution are carried back 10 years and carried forward 5 years as under present law.

Senate amendment.—The Senate amendment follows the House bill except the NOL carryover period is extended to 10 years rather than 20 years. in addition, the carryover period for operating losses that receive an 8-year carryover under present law due to the inability of the taxpayer to carry back losses against any year the taxpayer was a real estate investment trust (REIT) is extended from 8 to 11 years. The carryover period for financial institutions remains at 5 years, and the carryover period for Cuban expropriation losses remains at 20 years.

Conference agreement.—The conference agreement follows the House bill and Senate amendment, except the NOL carry-over period is extended to 15 years. Net operating losses of a financial institution are carried back 10 years and forward 5 years as under present law. The carryover period for Cuban expropriation losses remains at 20 years.

15. Earnings and profits

House bill.—Distributions by a corporation to its shareholders are taxable as dividends only to the extent the distribution is out of current or accumulated earnings and profits. Earnings and profits for U.S. corporations are computed, under present law, using straight-line depreciation over the useful life of property. The 20-percent ADR useful life variance may be used to determine the useful life for this purpose. Under the House bill, earnings and profits for U.S. corporations are based on straight-line depreciation over extended recovery periods as set forth below:

Extended recovery period

Date recovery period	
Property:	Years
3-year property	5
5-year property	12
10-year property	25
15-year property	35

If, to compute the recovery deduction under section 168, a taxpayer uses a recovery period longer than the applicable extended recovery period described above, the taxpayer must use such longer period in lieu of the regular extended period to compute earnings and profits. Thus, if a taxpayer elects to use the optional 25-year recovery period to compute the recovery deduction for 5-year property placed in service in a taxable year, the taxpayer must use the 25-year period to compute earnings and profits with respect to such property.

Senate amendment.—The Senate amendment is generally the same as the House bill, except the special rule relating to the use of recovery periods longer than the prescribed extended recovery period does not apply.

Conference agreement.—The conference agreement generally follows both the House bill and Senate amendment, except a longer recovery period to compute earnings and

profits is required if such longer period is used to compute the recovery deduction.

 Depreciation of assets held outside the United States

House bill.—Under present law, property used predominantly outside the United States may be depreciated using useful lives based on facts and circumstances or the guideline lives under the ADR system, but the 20-percent useful life variance may not be used. Accelerated methods of depreciation generally may be used with respect to such property. The investment tax credit generally is not allowed for such property (sec. 48(a)(2)).

The House bill provides that foreign personal property is depreciated using the 200-percent declining balance method, changing to the straight-line method, over the ADR midpoint life in effect for the property on January 1, 1981, or 12 years if no ADR midpoint life is in effect at such time. Taxpayers have the option to use the straight-line method over the regular recovery period (ADR midpoint life or 12 years, whichever is applicable) or an optional recovery period.

Foreign real property is depreciated over 35 years using the 150-percent declining balance method, changing to the straight-line method. Taxpayers have the option to use the straight-line method over 35 or 45 years.

Senate amendment.—The Senate amendment is generally the same as the House bill, except the definition of railroad rolling stock that is considered a foreign asset is changed. Under present law, property used outside the United States for more than half the taxable year generally is considered a foreign asset. However, railroad rolling stock owned by a U.S. railroad and used both within and without the United States is not considered a foreign asset. Under the Senate amendment, rolling stock leased by U.S. person and used to and from the United States is not considered a foreign asset. Rolling stock owned by a U.S. railroad and used to and from the United States, rather than within and without the United States, is not considered a foreign asset.

Conference agreement.—The conference agreement generally follows the House bill and Senate amendment, except with respect to the railroad rolling stock provisions of the Senate amendment. Under the conference agreement, railroad rolling stock used within and without the United States is not treated as a foreign asset, whether it is owned by a U.S. railroad or is leased by a U.S. person. However, this provision does not apply to rolling stock subject to a long-term lease to a foreign person. Thus, rolling stock leased on a long-term basis and used outside the United States more than half the taxable year is considered a foreign asset unless it is owned by a U.S. railroad.

17. Add-on minimum tax and maximum tax

House bill.—Under present law, a 15-percent minimum tax is imposed on a portion of a taxpayer's items of tax preference. Accelerated depreciation on leased personal property is an item of tax preference for taxpayers other than corporations (including subchapter S corporations and personal holding companies). Accelerated depreciation on real property is an item of tax preference for all taxpayers. The amount of the preference item is the excess of depreciation taken over what would have been allowable using the straight-line method over the property's useful life (the ADR midpoint life for property depreciated under the ADR system). The taxpayer's total preference items reduce the amount of personal service

taxable income that is eligible for the preferential 50-percent maximum tax rate.

Under the House bill, the amount of the tax preference item for accelerated depreciation is the excess of the depreciation taken over the amount that would have been allowable using the straight-line method over prescribed periods as set forth below:

Prescribed period

Property:	Years
3-year property	5
5-year property	8
10-year property	15
15-year property	15
15-year personal property	22

Senate amendment.—The Senate amendment is the same as the provision of the House bill.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

18. Regular investment credit

a. Eligibility

House bill.—The regular investment credit under present law applies to tangible personal property and other tangible property used in connection with manufacturing, production, or certain other activities not including distribution. Petroleum storage facilities are ineligible unless used in connection with production. Property used predominately outside the United States is not eligible. Although there is an exception permitting the credit for railroad rolling stock of a domestic railroad that is used within and without the United States, leased railroad rolling stock used within and without the United States is not eligible.

The House bill adds to eligible property facilities used for storage of petroleum and its primary products, even if used in connection with distribution. Primary products of petroleum means the primary products of oil as defined under the DISC regulations (Treas. Reg. §1.993-3(g)(3)(i)).

Senate amendment.—The Senate amendment is the same as the House bill, except leased railroad rolling stock of a U.S. person used to and from the U.S. is added to eligible property. Also, the present law exception, which applies to rolling stock of a domestic railroad used "within and without" the United States, is modified so that it applies only to rolling stock used "to and from" the United States.

Conference agreement.—The conference agreement follows the House bill and Senate amendment, except with respect to the Senate provision for railroad rolling stock. The conference agreement adds to eligible property railroad rolling stock that is leased by a U.S. person and used within and without the United States, and retains the present law "within and without" exception for rolling stock of a domestic railroad. Leased railroad property is not eligible if it is leased on a long-term basis to a foreign person.

b. Amount of credit

House bill.—Under present law, the amount of regular credit is determined as follows: Credit

Estimated useful life (years):	(percent)
Less than 3	0
3-4	31/2
5-6	6%
7 or moreli	10

Under the house bill, the regular credit amount is as follows:

Recovery period (years):	Credit (percent)
3	6
5, 10 and 15	10

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

c. Used property limitation

House bill.—Under present law, only \$100,000 of used property is eligible for the investment credit.

The House bill raises the limitation to \$125,000 in 1981 and to \$150,000 in 1985.

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

d. Recapture of credit

House bill.—Under present law, the credit is recomputed on early disposition of property as if the actual useful life had been used to determine the amount of credit.

Under the House bill, the credit is recomputed on early disposition by allowing a 2-percent credit for each year the property is held. Thus, no recapture is required for eligible 5-year, 10-year, or 15-year property actually held for at least 5 years, or for eligible 3-year property held for at least 3 years.

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

e. Carryover of credit

House bill.—Under present law, unused investment credits may be carried back 3 years and forward 7 years.

The House bill extends the carryover period to 20 years.

Senate amendment.—The Senate amendment extends the carryover period to 10 years.

Conference agreement.—The conference agreement extends the carryover period to 15 years.

19. Normalization rules for public utility property

House bill.—Under present law, a public utility may use an accelerated depreciation method only if it also uses a normalization method of accounting, unless the company used flow-through accounting for accelerated depreciation in 1969. A public utility that must normalize accelerated depreciation may use the ADR system only if it normalizes certain differences between the ADR useful life and the ratemaking useful life of eligible property. Similarly, a utility that must normalize accelerated depreciation must normalize the investment tax credit. In addition, some utilities not required to normalize accelerated depreciation are required to normalize all or part of the investment credit.

Under the House bill, except as provided in relevant transition rules, normalization of accelerated depreciation, useful lives, and the investment credit is mandatory for all public utilities with respect to property depreciated under ACRS. Under transition rules, taxpayers are considered to satisfy the new normalization requirements for depreciation or the investment credit under a rate order that complies with the present law requirements if (1) the rate order was put into effect before the date of enactment of the Act and will expire by its terms, and (2) a superseding rate order is put into effect complying with the new applicable normalization requirement.

Senate amendment.—The Senate amendment provides normalization provisions that generally are the same as the provisions of the House bill. The Senate amendment does not provide a transition rule relating to the investment credit normalization rules. The Senate amendment contains a provision giving the Secretary authority, until Congress takes further action, to prescribe any regulations necessary or appropriate to determine whether the new depreciation normalization requirements have been met.

Conference agreement.—The conference agreement generally follows the House bill and Senate amendment with certain technical modifications to the transition rules. Under the conference agreement, normalization of the investment credit is mandatory but a transition rule for investment credit normalization is provided. Also the Secretary is given authority to prescribe regulations relating to the new depreciation normalization rules.

20. Investment credit at-risk limitation

House bill.-Under present law, there is no at-risk limitation on the allowance of investment credits. Under the House bill, the allowance of investment credits is subject to an at-risk limitation. The limitation applies to business activities, the losses from which are subject to limitation under the at-risk rules of section 465, engaged in by individuals, subchapter S corporations, and certain closely held corporations. The investment credit is not allowed with respect to amounts invested in qualifying property to the extent the invested amounts are not at within the meaning of section 465(b) (without regard to subsection (b)(5)). An exception is provided for certain direct or guaranteed governmental loans and certain amounts borrowed from banks, savings and loan institutions, credit unions, or insurance companies. These amounts owed to qualified lenders are considered at risk even if the taxpayer is not personally required to repay the debt.

Senate amendment.—The Senate amendment is generally the same as the House bill, except that the exception for certain qualified lenders is expanded to include independent third party lenders, and an exception is added for seller financing in certain investments in energy property. The Senate amendment modifies the exception for qualified lenders by adding a minimum 20-percent at-risk investment requirement (determined without regard to the qualified lender exception), by requiring that the borrower and the seller or manufacturer of the property be unrelated, and by adding to the list of qualified lenders pension trusts and unrelated third parties engaged in the business of loaning money.

As under the House provision, a qualified lender may not be the person from which the taxpayer acquires the eligible property (or a person related to such supplier) nor a person who receives a fee with respect to the taxpayer's investment (or a person related to such promoter). For purposes of determining whether a pension trust or commercial lender is related to the taxpayer, the supplier, or the promoter, a special additional related party rule is provided. Under

the special additional related party rule the rules of section 267(b) and 707(b)(1) are applied, except that "more than 0 percent" is substituted for "more than 50 percent."

As under current law, the substance of a transaction rather than its form will govern whether it will be characterized as a loan, a

lease, or a sale.

The Senate amendment also contains a safe harbor rule for certain loans related to certain energy property. Amounts borrowed with respect to these types of property would be considered, under certain circumstances, at risk, even though such amounts are not otherwise considered at risk under the bill. In order to qualify under the safe harbor, the taxpayer must have an investment in the property that is at risk with respect to at least 25 percent of the unadjusted basis of the property (determined without regard to any safe harbor rules). In addition, any nonrecourse financing for the property (other than financing by a qualified lender that is considered at risk) must be a level payment loan. A level payment loan is a loan repaid in substantially equal installments including both principal and interest.

If the taxpayer does not make adequate repayments of loan principal, some of the credit allowed will be recaptured, and additional interest added to the increase in tax. determined as if the increase in tax were for the taxable year in which the property was placed in service. The determination of whether the taxpayer has made the requisite repayments of loan principal is made at the end of the second taxable year following the year the property was placed in service and each succeeding year. Generally, credits are recaptured to the extent they are attributable to any principal payments that have not been made under the level payment loan standard. If the amount of principal payments not made under this standard is equal to or greater than the total principal payments under this standard for the most recent 5-taxable-year period, full recapture, attributable to both the deficiency of required principal payments and all future required principal payments will be triggered. If the property is disposed of before the loan is repaid, the credit is recaptured on the basis of the outstanding principal not paid in cash on the date of disposition.

This safe harbor only applies so long as the energy tax credit is in effect.

Conference agreement.—The conference agreement follows the Senate amendment.

21. Qualified progress and expenditures

House bill.—The investment credit is available for qualified progress expenditures made for property with a 2-year normal construction period and at least a 7-year useful life.

The House bill repeals the 7-year useful life requirement. Thus, the amount of credit allowed with respect to progress expenditures will be determined in accordance with the recovery period the taxpayer expects the property to have when the property is placed in service. For example, a full 10 percent credit will be allowed for progress expenditure property that the taxpayer anticipates will be in the 10-year class when the property is placed in service.

The provision applies to progress expenditures made after December 31, 1980.

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

22. Leasing

House bill.—Under present IRS guidelines, a transaction is characterized as a lease if (1) the lessor's minimum at-risk investment in the property throughout the lease term is 20 percent of cost; (2) the lessor has a positive cash flow and a profit from the lease independent of tax benefits; (3) the lessee does not have a right to purchase the property at less than fair market value; (4) the lessee does not have an investment in the lease and does not lend any of the purchase costs of the owner, and (5) use of the property at the end of the lease term by a person other than the lessee must be commercially feasible.

The House bill creates a safe harbor that guarantees that a transaction will be characterized as a lease for nurposes of allowing investment credits and cost recovery allowances to the nominal lessor. To come within the safe harbor, both the lessor and the lessee must affirmatively elect to treat the lessor as the owner of the property. The lessor must be a corporation, a partnership of corporations, or a grantor trust, the grantor and beneficiaries of which are all corporations. At all times during the term of the lease and at the time that the property is placed in service, the lessor must have a minimum "at-risk" investment of not less than 10 percent of the adjusted basis of the property. In addition, the term of the lease (including all extensions) cannot exceed the greater of (1) 90 percent of the useful life of the property under section 167 or (2) 150 percent of the present class life (ADR midpoint as of January 1, 1981).

Only property that is new section 38 property (or certain qualified mass commuting vehicles) may come within the safe harbor rules. The leased property must be leased within 3 months after its acquisition or, in the case of a sale-leaseback transaction, it must be purchased by the lessor within 3 months of the lessee's acquisition for a purchase price that does not exceed the adjusted basis of the property in the hands of the lessee at the time of the lessor's purchase. It is anticipated that the Secretary of the Treasury may prescribe regulations under which property which is part of a facility may not be deemed placed in service until the entire facility is placed in service in order to make the leasing rules available with respect to the entire facility.

If a transaction meets the above requirements, the transaction will be treated as a lease and the parties of the transaction will be treated as lessor and lessee as stipulated in their agreement. The following factors will therefore not be taken into account in determining whether a transaction is a lease:

(1) whether the lessor or lessee must take the tax benefits into account in order to make a profit from the transaction:

(2) the fact that the lessee is the nominal owner of the property for state or local law purposes (e.g., has title to the property) and retains the burdens, benefits, and incidents of ownership (such as payment of taxes and maintenance charges with respect to the property):

(3) whether or not a person other than the lessee may be able to use the property after the lease term:

(4) the fact that the property may (or must) be bought or sold at the end of the lease term at a fixed or determinable price that is more or less than its fair market value at that time:

(5) the fact that the lessee or related party has provided financing or has guaranteed financing for the transaction (other than for the lessor's minimum 10-percent investment); and

(6) the obligation of any person is subject to any contingency or offset agreement.

Also, under the bill, if the obligation of the lessor under the lease agreement is contingent or offset, the basis of the lessor in the qualified lease property includes the amount of that obligation. In addition, in such cases, the gross income of the lessor includes the amount the lessor is to receive under the payment schedule in the agreement, whether or not received, and the lessor shall deduct interest due on such obligation, whether or not paid. The Secretary of the Treasury shall prescribe regulations to insure that such receipts and deduction are reflected in the lessor's income on a rat-able basis (except that, with respect to interest deductions, calculations under a level payment mortgage assumption shall be permitted)

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—In general, the conference agreement follows the House bill and Senate amendment. However, several clarifications are made. Under the conference agreement, property will qualify if it is leased within three months after the property was placed in service by the lessee. This is intended to prevent the lessee from also claiming cost recovery allowances or credits with respect to the qualified lease property. Also, under the conference agreement, the that the lessee used the property within the 3-month period prior to the lease will not deprive the property of its status as new section 38 property of the lessee. The conferees intend no change with respect to the factors that will not be considered in determining whether a transaction is a lease transaction under the safe harbor, even though the list of factors is not contained in the final language. For example, the fact that there is a fixed or determinable price in the agreement does not deprive the transaction of its lease status.

The conferees intend that the amount and timing of cost recovery allowances in the hands of the lessor will be the same as they would have been in the hands of the lessee.

23. Effective dates and phase-in provisions

House bill.—In general, the capital cost recovery provisions apply to property placed in service after December 31, 1980. Although there is no phase in period, the most accelerated method of depreciation for personal property is not available until 1986. The rules for extension of the carryover period for operating losses apply for operating losses in taxable years ending after December 31, 1975. The effective dates for extension of the carryover periods for various credits is as follows:

(1) Investment credit and WIN credits.— Unused credit years ending after December 31, 1973

(2) New employee credit.—Unused credit years ending after December 31, 1976.

(3) Alcohol fuels credit.—Unused credit years ending after September 30, 1980.

The at risk rule for the investment credit applies to property placed in service on or after February 19, 1981, except for property acquired by the taxpayer pursuant to a binding contract entered into on or before that date. A technical amendment to section 46(e) relating to investment credit for non-corporate lessors applies to leases entered into after June 25, 1981.

Special rules are provided to prevent the taxpayer from bringing its property used during 1980 (pre-1981 property) within the system by certain post-1980 transactions (i.e., "churning" transactions). Similar rules are provided to prevent the taxpayer from taking advantage of the increased recovery percentages available after 1984 for its property used before 1985 (pre-1985 property). Under these anti-churning rules ACRS will not apply to personal property in use during 1980 unless the property is transferred after 1980 in a transaction in which the owner and user (if different) change. Also, ACRS does not apply to personal property leased back to a person that owned or used the property during 1980 or to a person related to that person.

ACRS will not apply to real property if (a) the taxpayer or a person related to the taxpayer owned the property during 1980, (b) the property is leased back to a person that owned the property at any time during 1980 or to a person related to that person or (c) the property is acquired in certain like kind exchanges, "rollovers" of low-income housing, involuntary conversions, or repossessions, for property of the taxpayer or a re-

lated person owned during 1980.

Special rules apply in determining whether a person will be considered related to the prior owner-user. A subsidiary is not considered a related person if at least 80 percent of its stock was acquired by the taxpayer by purchase after December 31, 1980 in a transaction described in section 334(b)(2).

For real or personal property used in 1980 and transferred to a corporation or partnership in a transaction which the basis is determined by reference to the basis to the transferor (transaction described in sections 332, 351, 361, 371, 374, 721, or 731) ACRS will not apply. In that case, the Secretary shall provide rules similar to those that apply under section 381(c)(6).

Senate amendment.-The Senate amendment generally follows the House bill. However, in determining whether a person is related to the taxpaver under the anti-churning rules, the Senate amendment replaces rule regarding liquidations described in section 334(b)(2) with a rule for any liquidation under section 331. Under the Senate amendment, a person is not related to the taxpayer if that person is a distributing corporation in a complete or partial liquidation to which section 331 applies and the stock of such corporation with respect to which the distribution described in section 331 is being made was acquired by purchase by the taxpayer or by a person related to the taxpayer after December 31, 1980.

Conference agreement.-The agreement follows the House bill and Senate amendment, with certain exceptions. To make clear that property (1) owned by the taxpayer and under construction during 1980, and (2) placed in service by the taxpayer after December 31, 1980, is not subject to the anti-churning rules, the property is not treated as owned until it is placed in service. Also, new rules will apply for determining whether a corporation is a related person to the taxpayer. Under the new rules, a corporation is not a related person to the taxpayer if either (1) the person is a distributing corporation in a transaction described in section 334(b)(2)(B) and 80 per-cent of the stock is acquired by purchase after December 31, 1980, by the taxpayer or a person related to the taxpayer, or (2) if the person is a distributing corporation in a complete liquidation to which section 331(a)(1) applies and 80 percent of the stock of that corporation is acquired by purchase by one or more taxpayers or by persons related to the taxpayer after December 31, 1980.

The provision relating to leased railroad rolling stock applies to taxable years beginning after December 31, 1980. The conference agreement with respect to the effective date of the extension of the carryover period of certain losses and credits follows the House bill and Senate amendment, except the rule extending the NOL carryover period also applies to any NOL deduction taken by a former real estate investment trust (a "former REIT") in taxable years ending after October 8, 1976, with respect to NOLs incurred in taxable years ending after 1972 but only if the principal purpose of the change from a REIT to a former REIT was not to obtain the NOL.

C. Rehabilitation Expenditures

24. Tax credit for rehabilitation expenditures

House bill.—Under present law, the 10-percent investment tax credit (and additional energy credit) is available for expenditures to rehabilitate a building that is at least 20 years old. The credit allowed does not reduce the basis of the property for purposes of depreciation. In lieu of the investment credit, the taxpayer may elect with respect to rehabilitation of a certified historic structure to amortize the expenditures over a 60-month period (sec. 191).

Under the House bill, the 10 percent regular investment credit (and the additional energy credit) and the 60-month amortization provision for certified historic rehabilitation expenditures is replaced by a 3-tier investment credit. The credit is 15 percent for structures at least 30 years old, 20 percent for structures at least 40 years old, and 25 percent for certified historic structures. No credit is allowed for rehabilitation of a building less than 30 years old.

The 15- and 20-percent credits are limited, as under present law, to nonresidential buildings. However, the 25-percent credit for certified historic rehabilitation is available for both nonresidential and residential buildings. These credits are available only if the taxpayer elects to use the straight-line method of cost recovery with respect to rehabilitation expenditures. In addition, there must be a substantial rehabilitation of the building to qualify for the credit. A building has been substantially rehabilitated if (1) the rehabilitation expenditures during the 24-month period ending on the last day of the taxable year exceed the greater of (a) the adjusted basis of the property as of the first day of the 24-month period or (b) \$5,000, or (2) if it meets the requirements under (1) by substituting 60 months for 22 months. The 60-month alternative is available only if there is a written set of architectural plans and specifications for all phases of the rehabilitation and a reasonable expectation that all phases of the rehabilitation will be completed.

For rehabilitation credits other than the credit for certified historic rehabilitations, the basis of the property must be reduced by the amount of the credit allowed. If subsequently there is a recapture of the credit, the resulting increase in tax (or adjustment in carrybacks and carryovers) will increase the basis of the building immediately before the recapture event.

No credit is available for a certified historic structure if approval of the rehabilitation is not obtained from the Secretary of Interior

Also, no credit is available for a certified historic rehabilitation if the taxpayer or a member of the taxpayer's family uses the

property for residential purposes

The House bill treats a building in an historic district as a certified historic structure unless the taxpayer obtains a certification from the Secretary of Interior. This changes the present law rule under which a building in an historic district is not a certified historic district unless the Secretary of Interior takes action to designate the property as being of historic significance to the district.

The provisions generally apply to expenditures made after December 31, 1981. However, a special rule allows a credit under present law rules for buildings that are more than 20 but less than 30 years old, if the rehabilitation began before January 1, 1982

Senate amendment.-The Senate amendment is the same as the House bill, except the restriction related to use by the taxpay-

er or a family member is deleted. Conference agreement.—The conference agreement follows the Senate amendment, except the present law rule denying investment credit for property leased to tax-exempt organizations (sec. 48(a)(4)) or governmental units (sec. 48(a)(5)) does not apply to the portion of the basis of the building attributable to qualified rehabilitation expenditures. This corrects a clerical error in the enrollment of the Miscellaneous Revenue Act of 1980. Due to the error, this provision was omitted from that Act.

In connection with the investment tax credit for rehabilitation expenditures on a historic structure, Section 212(e) addresses the situation where qualified rehabilitation expenses are incurred before and after January 1, 1982. Where expenditures on a given qualified historic rehabilitation occur both before and after January 1, 1982, before January 1, 1982, expenditures can qualify for either the present ten percent investment tax credit for over-twenty-year-old buildings, or the five-year historic building amortization, while expenditures on or after January 1, 1982, can qualify for the new 25 percent investment tax credit. In other words, a combination of the old and new law is envisaged where the expenditures occur on both sides of January 1, 1982.

25. Demolition of historic structures

House bill.-Under present law, buildings constructed or reconstructed at the site of a demolished or substantially altered certified historic structure must be depreciated using the straight-line method over its useful life (sec. 167(n)). Demolition costs must be capitalized as part of the basis of land and, thus, may not be deducted as the loss or depreciated. (Sec. 280B.)

Under the House bill, section 167(n) is repealed, but section 280B is retained. The provision applies to expenditures made after

December 31, 1981.

Senate amendment.-The Senate amend-

ment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.

D. Incentives for Research and Experimentation

26. Tax credit for research and experimen-

House bill.-Under present law, a taxpayer may elect to deduct currently the amount of research or experimental expenditures incurred in connection with the taxpayer's trade or business, or may elect to amortize

certain research costs over a period of 60 months or more (sec. 174). These rules apply to the costs of research conducted by the taxpayer and, in general, to expenses paid for research conducted on behalf of the taxpayer by a research firm, university, etc. Treasury regulations define qualifying expenditures to mean "research and development costs in the experimental or laboratory sense," and provide illustrations of qualifying and nonqualifying expenditures.

The House bill provides a 25-percent tax credit for certain research and experimental expenditures paid in carrying on a trade or business of the taxpayer, but only to the extent that current-year expenditures exceed the average amount of research expenditures in a base period (generally, the preceding three taxable years). Subject to certain exclusions, the bill adopts the definition of research as used for purposes of the special deduction rules under section 174.

Under the House bill, research expenditures qualifying for the new incremental credit consist of (1) "in-house" expenditures for research wages and supplies, plus certain lease or other charges for research use of computers, laboratory equipment, etc.; (2) 65 percent of amounts paid (e.g., to a research firm or university) for contract research; and (3) 65 percent of corporate grants for basic research to be performed by universities or certain scientific research organizations (or of grants to certain funds organized to make basic research grants to universities).

The credit under the House bill applies to research expenditures made after June 30. 1981, and before 1986.

Senate amendment.-The tax credit for incremental research expenditures provided under the Senate amendment differs from the credit under the House bill, apart from minor language differences, in the following respects: (1) qualifying research costs, other than wages and supplies, consist of certain lease or other charges for research use of computers (but not for use of other equipment); (2) the amount of contract research expenditures qualifying for the credit is the amount reimbursed by the taxpayer for the costs of research wages, supplies, etc, paid by the person performing the research on the taxpayer's behalf; (3) there is not specific provision making corporate grants for basic research at universities, etc. eligible for the credit (although the credit is available for qualifying contract expenditures for such basic research); (4) the Senate bill does not have a "sunset" provision terminating the credit.

Conference agreement.-The conference agreement follows the House bill.

The conferees also agreed to certain interpretations of the rule under the bill that the new credit is available only with regard to qualified research expenditures paid by the taxpayer in carrying on a trade or business of the taxpayer. The "carrying on" test for purposes of the new credit generally is the same as for purposes of section 162. For example, it is intended that to be eligible for the credit, qualified research expenditures must be paid or incurred in the particular business being carried on by the taxpayer. The conferees also intend that the Treasury will issue regulations, for credit purposes only, which will allow the credit in the case of research joint ventures by taxpayers who otherwise satisfy the "carrying on" test and who are entitled to the research results.

27. Charitable contributions of newly manufactured equipment to universities for research

House bill.—Under present law, the amount of charitable deduction for a contribution of appreciated ordinary-income property generally is limited to the amount of the taxpayer's basis in the property. An exception is provided for corporate contributions of certain property for use in the care of the needy, the ill, or infants; in such case, the lesser of 50 percent of appreciation plus basis, or twice the basis, may be deducted.

The House bill allows a deduction equal to the taxpayer's basis plus 50 percent of appreciation (but not to exceed twice the basis) for qualified corporate contributions of newly manufactured ordinary-income property to a college or university for research or experimentation, including research training. This provision applies to qualified contributions made after the date of enactment of the bill.

Senate amendment.-The Senate amendment generally is the same as the House bill.1

Conference agreement.-The conference agreement follows the House bill.

28. Rule for allocating research and development expenditures to U.S. source income

House bill.-Regardless of the source of the income generated by such expenditures, all research and experimentation expenditures which are paid or incurred for research conducted in the United States will be allocated and apportioned to income from sources within the United States.

Senate amendment.-Like the House bill. the Senate amendment provides that the allocation of all U.S. research and experimentation expenditures are to be allocated or apportioned to U.S. source income for all purposes under the Code. The rule applies only for one year-the taxpayer's first taxable year after the date of enactment.

Treasury is required to study the impact which Treasury regulation §1.861-8 has on United States domestic research and experimentation activities and on the availability of the foreign tax credit. Treasury must report to the Ways and Means and Finance Committees within six months from the date of enactment.

Conference agreement.-The conference agreement follows the Senate amendment except that the allocation or apportionment of U.S. research and experimentation expenditures to U.S. sources will be for the taxpayer's first two taxable years following the date of enactment.

E. Small Business Provisions

29. Accumulated earnings credit

House bill.-Under present law, an accumulated earnings tax is imposed on earnings accumulated in a corporation to avoid income tax on the corporation's shareholders. In computing the tax base, a credit (of not less than \$150,000) is allowed for earn-

¹The Senate amendment does not include certain requirements (contained in the House bill) for the increased charitable deduction, namely, that the donated property must be scientific equipment or apparatus, that the donee must use the contributed property in the United States, and that the donee's use of the property must be for research in the physical sciences (including physics, chemistry, astronomy, mathematics, and engineering) or biological sciences (including biology and medicine). Also, the Senate amendment provides that subchapter S corporations are ineligible for the new deduction rule, while the House bill also excludes personal holding companies and service organizations.

ings retained for the reasonable needs of the business. The House bill increases the minimum accumulated earnings credit to \$250,000 except for service corporations in health, law, engineering, architecture, accounting, actuarial science, performing arts and consulting. The provision is effective for taxable years beginning after December 31, 1981.

Senate amendment.—Same as House bill. Conference agreement.—The conference agreement follows the House bill and Senate amendment.

30. Subchapter S corporations

House bill.—Under present law, a subchapter S corporation may not have more than 15 shareholders and generally trusts may not be shareholders. The House bill increases the number of permitted shareholders to 25 and allows "section 678" trusts to be shareholders. In addition certain trusts holding stock for a disabled beneficiary could be a shareholder. The provisions are effective for taxable year ending after December 31, 1981.

Senate amendment.-The Senate amendment also increases the shareholder limit to 25 and permits section "678 trusts." In addition, under the amendment, the sole income beneficiary of a trust which distributes all its income currently can elect to be treated as the owner, under section 678, of the stock of any subchapter S corporation held by the trust, and the trust will be eligible as a shareholder of that subchapter S corporation. The income beneficiary must be a U.S. citizen resident, and must be a beneficiary for his life unless the corpus of the trust is to be distributed to the income beneficiary upon termination of the trust. The election under this section may be made retroactive for up to 60 days.

Conference agreement.—The conference agreement follows the Senate amendment.

31. LIFO inventory and small business accounting

House bill.—Under the cash receipts and disbursements method of accounting, tax-payers may currently deduct all expenditures other than those for capital assets. However, if the production, purchase or sale of merchandise is an income producing factor, the taxpayer must use the accrual method of accounting and must keep inventories. Acceptable methods of accounting for, inventories include specific identification, average cost, first-in first-out, and last-in first-out ("LIFO").

An approved method of computing LIFO inventories is the dollar-value method. Dollar-value LIFO is an advantageous method of computing LIFO inventories but because of its inherent complexity it is considered by some, especially small businessmen, as unworkable.

Under dollar-value LIFO the taxpayer accounts for his inventory on the basis of a pool of dollars rather than on an item-byitem basis. In general, the pool of dollars is actually measured in terms of the equivalent dollar value of the inventory in the year the taxpayer first used the dollar-value LIFO method.

Under the House bill, businesses with average gross receipts of less than \$1 million for the 3 years (ending with the taxable year) may elect one inventory pool for purposes of dollar value LIFO inventory accounting. Also, taxpayers electing LIFO will have 3 years (beginning with the year of the election to LIFO) to take back into income inventory writedowns taken in years prior to the year of the LIFO election. The Secre-

tary shall also prescribe regulations providing for the simplification of LIFO inventory accounting through the use of published government indexes.

Also under the House bill, the Secretary of the Treasury is directed to conduct a full and complete study of methods of tax accounting for inventory (including but not limited to the LIFO method and the cash receipts and disbursements method) with a view toward the development of simplified methods. The Secretary is also directed to submit to the Committee on Ways and Means of the House of Representatives and to the Committee on Finance of the Senate a report on this study, together with such recommendations as he deems appropriate, by December 31, 1982.

Senate amendment.—The Senate amendment provides that businesses with average gross receipts of less than \$3 million for the 3 years (ending with the taxable year) may elect one inventory pool for purposes of dollar value LIFO inventory accounting. Also taxpayers electing LIFO will have 3 years (beginning with the year of the election to LIFO) to take back into income inventory writedowns taken in years prior to the year of the LIFO election.

As in the House bill, the Secretary is directed to prescribe regulations providing for the simplification LIFO inventory accounting for businesses. However, the regulations will be based on 100 percent of the appropricomponents of the Consumer Price Index or Producer's Price Index and will only apply to businesses with average gross receipts for the preceding three years of less than \$3 million. Additionally, taxpayers may elect to use the link-chain or the index method of accounting for dollar-value LIFO inventory without showing that any other method of computing dollar-value LIFO inventory is unsuitable or impractical. Finally, the Treasury Department is required to report to the Congress by June 30, 1982 on the results of a study on LIFO accounting and the use of cash accounting.

Conference agreement.—The conference agreement follows the House bill but increases the amount of average gross receipts that a business must have to use a single dollar-value LIFO pool from \$1 million to \$2 million. Also, the provisions regarding the three-year averaging of income relating to inventory writedowns taken in prior years and the use of single dollar-value LIFO pools are effective for the first taxable year beginning after December 31, 1981.

F. Windfall Profit Tax and Other Energy Provisions

32. Windfall profit tax provisions a. Royalty owners credit and exemption

House bill.—Qualified royalty owners were allowed a credit (or refund) of up to \$1,000 against the windfall profit tax imposed on their royalty oil during calendar year 1980.

The House bill makes the royalty owner credit available for calendar year 1981 and increases it from \$1,000 to \$2,500.

For 1982 and subsequent years, the House bill provides a limited exemption from the windfall profit tax for specified amounts of royalty production. For 1982 through 1984, the exemption is 2 barrels a day; starting in 1985 the exemption is 4 barrels a day.

The House bill also makes technical, administrative, and conforming amendments to the royalty owner provisions, including provisions providing for tax payment and withholding rules to allow royalty owners to receive the benefit of the provision prior to the close of the calendar year, as well as

rules to prevent a proliferation of royalty interests.

Senate amendment.—The Senate amendment makes the royalty owner credit permanent and increases it to \$2,500. The amendment also provides for similar administrative rules.

Conference agreement.—The conference agreement follows the House bill except that in 1985 and subsequent years, the royalty exemption is 3 barrels per day.

b. Producer exemption

House bill.—Stripper oil is oil produced from a property from which the average daily per well production has been 10 barrels or less for any consecutive 12-month period after 1972. Stripper oil is in tier 2 of the windfall profit tax and generally is subject to a 60-percent rate of tax. However, independent producers are eligible for reduced windfall profit tax rates on up to 1,000 barrels a day of tier 1 and tier 2 oil. The reduced rate applicable to an independent producer's tier 2 oil is 30 percent rather than 60 percent.

The House bill exempts from the windfall profit tax, starting in 1983, stripper oil production of independent producers. The House bill also provides that stripper oil cannot qualify for this exemption if it is produced from a stripper well property which has been owned on or after July 23, 1981, by a producer other than an independent producer.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill. The conference agreement clarifies, however, that exempt stripper well oil does not include production attributable to an interest in any property which at any time after July 22, 1981, was owned by a person other than an independent producer (within the meaning of Code section 4992(b)(1)).

Because both the exemption and existing law's lower rates for up to 1,000 barrels a day of oil produced by independent producers apply, in part, to tier 2 oil (which includes stripper oil), the conference agreement clarifies that any person's independent producer amount eligible for lower rates is not reduced by the amount to which the exemption applies.

c. Reduced rate on newly discovered oil

House bill.—Newly discovered oil is taxed at a 30-percent rate on the difference between its removal price and a severance tax adjustment plus a base price of \$16.55 adjusted for grade, quality, location and inflation plus 2 percent.

The House bill reduces the newly discovered oil tax rate from 30 percent to the following rates:

[In percent]	
1982	27.5
1983	25.0
1984	22.5
1985	20.0
1986 and after	15.0

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and the Senate amendment.

d. Exemption for qualified charities

House bill.—Under present law, oil production attibutable to certain qualifying charitable interests is exempt from the windfall

profit tax. A charitable organization for the residential placement, care, or treatment of delinquent, dependent, orphaned, neglected, or handicapped children is not within this exemption.

The House bill extends the existing windfall profit tax exemption for specified charitable educational organizations and medical facilities to oil production attributable to economic interests held by charitable organizations, described in Code section 170(c)(2), which are organized and operated primarily for the residential placement, care, or treatment of delinquent, dependent, orphaned, neglected, or handicapped children. To qualify for this exemption, the oil interest must have been held by the organization on January 21, 1980, and at all times thereafter before the last day of the calendar quarter.

If the interest is not held by the organization, the exemption may apply if the interest was held by a church for the benefit of the organization and if all the proceeds from the interest were dedicated on January 21, 1980, and at all times thereafter before the close of the calendar quarter, to the qualifying child care organization. These rules are the same as the present rules for qualifying charitable interests

Senate amendment.—Same as the House

Conference agreement.—The conference agreement follows the House bill and the Senate amendment.

33. Percentage depletion on oil and gas

House bill.-Under present law, percentage depletion, which is available only to independent producers and royalty owners, is calculated as a percentage of gross income from each oil and gas property. Under a 1975 amendment, the applicable percentage, which was 22 percent in 1980 and earlier years, is to be reduced to 20 percent in 1981 18 percent in 1982, 16 percent in 1983, and to 15 percent for 1984 and subsequent years.

The House bill provides that the rate of percentage depletion will remain at 22 percent for 1981 and subsequent years.

Senate amendment.—No provision. Conference agreement.—The conference agreement follows the Senate amendment.

34. Tax credit for woodburning stoves

House bill.—Under present law, a 15-percent tax credit is available for the first \$2,000 of qualifying expenditures for insulation and other specified energy-conserving items. The credit is available for the installation of specified energy property after April 19, 1977, and before January 1, 1986, with respect to a taxpayer's principal residence, if the residence was substantially completed before April 20, 1977.

The House bill adds to the list of energy conserving items eligible for the credit certain woodburning stoves and furnaces.

Senate amendment.—No provision.
Conference agreement.—The conference agreement follows the Senate amendment. 35. Production credit for certain gases

House bill.-No provision. Senate amendment.—Present law allows a credit for the production of specified alternative fuels, including several types of natural gas which are eligible for incentive prices under the Natural Gas Policy Act of 1978 (NGPA). The credit phases out as the price of uncontrolled domestic oil rises from \$23.50 to \$29.50 a barrrel, adjusted for inflation. Because of the phase out based on the price of oil, the credit generally was not available during 1980.

Section 107(d) of the NGPA provides that gas production is not eligible for an incen-

tive price if any special tax provision applies and if the producer does not file a price election with the Federal Energy Regulatory Commission within 30 days of enactment of the special tax provision.

The amendment provides that no production credit is available unless the taxpayer elects it on the appropriate tax return. This has the effect of allowing the producer to elect the incentive price under the NGPA after the 30-day period has elapsed.

The Senate amendment does not change any provision of the NGPA or deal with the FERC's administration of that Act. It is intended, however, that the amendment be administered by Treasury and, to the extent appropriate, by FERC so as to prevent any producer from obtaining the benefits of the production credit and the incentive price.

Conference agreement.—The conference agreement follows the Senate amendment.

G. Corporate Rate Reduction and Other **Business Provisions**

36. Corporate tax rate reductions

House bill.-Under present law, the corporate income tax is imposed at the following

Taxable income—	Rate (percent)
Less than \$25,000	17
25,000-50,000	20
50,000-75,000	30
75,000-100,000	40
Over \$100,000	46

The House bill decreases the tax rates on the two lowest brackets, i.e., those imposing tax on taxable income below \$50,000. The change will go into effect in 1982 and 1983. The brackets below \$50,000 will be adjusted as follows:

Taxable income— In 1982—	Rate (percent)
Less than \$25,000	16
\$25,000-50,000 1983 and later years—	19
Less than \$25,000	15
\$25,000-\$50,000	18

Senate amendment.-The provision is the same as in the House bill.

Conference agreement.-The conference agreement follows the House bill and the Senate amendment.

37. Incentive stock options

House bill.-Under present law, the taxation of stock options granted by an employer to an employee as compensation is governed by section 83. The value of the option constitutes ordinary income to the employee when granted only if the option itself has a readily ascertainable fair market value at that time. If the option does not have a readily ascertainable value when granted, it does not constitute ordinary income at that time. Instead, when the option is exercised, the difference between the value of the stock at exercise and the option price constitutes ordinary income to the employee. Ordinary income on grant or on exercise of a stock option is treated as personal service income and, hence, generally is taxed at a maximum rate of 50 percent.

An employer who grants a stock option generally is allowed a business expense deluction equal to the amount includible in the employee's income in its corresponding

taxable year (sec. 83(h)).

The bill reinstitutes "restricted stock options," under which there is no tax conse-

quences when a restricted stock option is granted or when the option is exercised, and the employee is generally taxed at capital gains rates when the stock received on exercise of the option is sold. Similarly, no business expense deduction will be allowed to the employer with respect to a restricted stock option.

To receive restricted stock option treatment, the bill provides that the employee must not dispose of the stock within two years after the option is granted, and must hold the stock itself for at least one year. If all requirements other than these holding period rules are met, the tax will be imposed on sale of the stock, but gain will be treated as ordinary income rather than capital gain, and the employer will be allowed a deduction at that time.

In addition, at the time the option is exercised, the option holder must be an employee either of the company granting the option, a parent or subsidiary of that corporation, or a corporation (or parent or subsidiary of that corporation) which has assumed option of another corporation as a result of a corporate reorganization, liquidation, etc., or must have been such an employee within three months of the date of exercise (twelve months if the employee is disabled (within the meaning of section 105(d))). This requirement and the holding period requirements are waived in the case of the death of the employee.

For an option to qualify as a "restricted stock option," terms of the option itself must meet the following conditions:

- 1. The option must by its terms be exercisable within ten years of the date it is grant-
- 2. The option price must equal or exceed 85 percent of the fair market value of the stock at the time the option is granted.
- 3. The option by its terms must be nontransferable other than at death and must be exercisable during the employee's lifetime only by the employee.
- 4. The employee must not, immediately before the option is granted, own stock representing more than ten percent of the voting power or value of all classes of stock of the employer corporation or its parent or subsidiary. However, the stock ownership limitation will be waived if the option price is at least 110 percent of the fair market value (at the time the option is granted) of the stock subject to the option and the option by its terms is not exercisable more than five years from the date it is granted.
- 5. In the case of a corporation whose stock is tradable on a stock exchange or any overthe-counter market, under the terms of the plan, the aggregate fair market value of the stock (determined at the time of grant of the option) for which any employee may be granted restricted stock options in any calendar year may not exceed \$75,000. Only \$150,000 of prior options can be exercised.
- 6. The option by its terms is not exercisable while there is outstanding any restricted stock option which was granted to the employee at an earlier time. For this purpose, an option which has not been exercised in full is outstanding for the period which under its initial terms it could have been exercised. Thus, the cancellation of an earlier option will not enable a subsequent option to be exercised any sooner. Also, for this purpose an option is considered to retain its original date of grant even if the terms of the option or the plan are later amended to qualify the option as a restricted stock option.

The bill provides that stock acquired on exercise of the option may be paid for with stock of the corporation (or its parent or subsidiary) granting the option.

The difference between the option price and the fair market value of the stock at the exercise of the option will not be an

item of tax preference.

The bill will apply to options granted after May 21, 1976, and exercised after December 31, 1980. However, in the case of an option which was granted on or before January 1, 1981, and which was not a qualified option, the corporation granting the option may elect (within six months after enactment of the bill) to have the option not be treated as a restricted stock option.

In the case of an option granted after May 21, 1976, and outstanding on the date of enactment, the option terms (or the terms of the plan under which the option was granted) may be changed, to conform to the restricted stock option rules, within one year of the date of enactment of the bill, without the change giving rise to a new option requiring the setting of an option price based on a later valuation rate.

All such changes relate back to the time of granting the original option. For example, if the option price of a ten-year option granted in 1978 is increased during the one year after date of enactment to 85 percent (110 percent, if applicable) of the fair market value of the stock on the date the option was granted in 1978, the price requirement will be met. Likewise, if the term of an option held by a 10-percent shareholder is shortened to five years from the date the option was granted, the 10-percent stock ownership limitation will not apply.

Any restricted stock option must meet the requirements of new section 424(b)(5), limiting the amount of options which may be granted to an employee to \$75,000 per year (determined at time of grant). In the case of options outstanding on date of enactment granted under a plan (or plans) providing for the granting of more than \$75,000 of options per year, the employer may amend the plan to specify that only certain options under the plan (up to \$75,000 granted per year) will be treated as restricted stock options.

Senate amendment.—The amendment provides for "incentive stock options," which will be taxed in a manner similar to the tax treatment previously applied to restricted and qualified stock options. That is, there will be no tax consequences when an incentive stock option is granted or when the option is exercised, and the employee will be taxed at capital gains rates when the stock received on exercise of the option is sold. Similarly, no business expense deduction will be allowed to the employer with respect to an incentive stock option.

The term "incentive stock option" means an option granted to an individual, for any reason connected with his or her employment, by the employer corporation or by a parent or subsidiary corporation of the employer corporation, to purchase stock of any

of such corporations.

To receive incentive stock option treatment, the amendment provides that the employee must not dispose of the stock within two years after the option is granted, and must hold the stock itself for at least one year. If all requirements other than these holding period rules are met, the tax will be imposed on sale of the stock, but gain will be treated as ordinary income rather than capital gain, and the employer will be allowed a deduction at that time.

In addition, for the entire time from the date of granting the option until three months before the date of exercise, the option holder must be an employee either of the company granting the option, a parent or subsidiary of that corporation, or a corporation (or parent or subsidiary of that corporation) which has assumed the option of another corporation as a result of a corporate reorganization, liquidation, etc. This requirement and the holding period requirements are waived in the case of the death of the employee.

For an option to qualify as an "incentive stock option," terms of the option itself must meet the following conditions:

1. The option must be granted under a plan specifying the number of shares of stock to be issued and the employees or class of employees to receive the options. This plan must be approved by the stockholders of the corporation within 12 months before or after the plan is adopted.

2. The option must be granted within ten years of the date the plan is adopted or the date the plan is approved by the stockhold-

ers, whichever is earlier.

3. The option must by its terms be exercisable only within 20 years of the date it is granted.

4. The option price must equal or exceed the fair market value of the stock at the time the option is granted. This requirement will be deemed satisfied if there has been a good faith attempt to value the stock accurately, even if the option price is less than the stock value.

5. The option by its terms must be nontransferable other than at death and must be exercisable during the employee's life-

time only by the employee.

6. The employee must not, immediately before the option is granted, own stock representing more than ten percent of the voting power or value of all classes of stock of the employer corporation or its parent or subsidiary. However, the stock ownership limitation will be waived if the option price is at least 110 percent of the fair market value (at the time the option is granted) of the stock subject to the option and the option by its terms is not exercisable more

than five years from the date it is granted.
7. The option by its terms is not to be exercisable while there is outstanding any incentive stock option which was granted to the employee at an earlier time. For this purpose, an option which has not been exercised in full is outstanding for the period which under its initial terms it could have been exercised. Thus, the cancellation of an earlier option will not enable a subsequent option to be exercised any sooner. Also, for this purpose an option is considered to retain its original date of grant even if the terms of the option or the plan are later amended to qualify the option as an incentive stock option.

The amendment provides that stock acquired on exercise of the option may be paid for with stock of the corporation granting the option.

The difference between the option price and the fair market value of the stock at the exercise of the option will not be an item of tax preference.

Also, under the amendment, any option which was a qualified stock option or restricted stock option under prior law will become an incentive stock option, if it was not exercised before January 1, 1981, and if it otherwise satisfies requirements for incentive stock options. Such an option will not be subject to the minimum tax.

An option will not be disqualified because of the inclusion of any condition not inconsistent with the qualification requirements, nor because the corporation may make a cash payment to the employee at the time of exercise.

The amendment generally applies to options exercised or granted after December 31, 1980, or outstanding on such date. However, in the case of an option which was granted on or before December 31, 1980, the corporation granting the option must elect to have the option treated as an incentive stock option. Only \$50,000 of stock may be purchased with restricted options granted in any year prior to 1981, and only \$250,000 of stock from such options could be purchased in the aggregate.

In the case of an option granted before 1982, the modification or deletion of any stock appreciation right or right to receive cash payments to permit the option to qualify as an incentive stock option can be made within one year of the enactment of the bill without the modification being treated as the grant of a new option.

In addition, the terms of a stock option plan or an option issued before 1982 can be modified to conform to the incentive stock option rules within one year of the date of enactment of the bill, without the modification being considered as giving rise to a new option requiring a new option price.

Conference agreement.—The agreement generally follows the Senate amendment except—

(1) the term of the option may not exceed 10 years from the date of grant,

(2) a disabled employee has 12 months after leaving employment to exercise the

(3) the amendment clarifies that additional cash or other property may be transferred to the employee at the time the option is exercised, so long as such property is subject to inclusion in income under the provisions of section 83,

(4) the managers wish to clarify that alternative rights may be granted, so long as no alternative options to purchase stock are granted which cause the option to violate

the terms of section 422A(b), and

(5) in the case of options granted after 1980, the terms of the plan must limit the amount of aggregate fair market value of the stock (determined at the time of the grant of the option) for which any employee may be granted incentive stock options in any calendar year to not more than \$100,000 plus the carryover amount. The carryover amount from any year is one-half of the amount by which \$100,000 exceeds the value (at time of grant) of the stock for which incentive stock options were granted in such prior year. Amounts may be carried over 3 years. Options granted in any year use up the \$100,000 current year limitation first and then the carryover from earliest year.

The agreement will apply to options granted after January 1, 1976, and exercised after December 31, 1980, or outstanding on such later date.

However, in the case of options granted before January 1, 1981, an option is an incentive stock option only if the employer elects such treatment for an option. The aggregate value (determined at time of grant) of stock for which any employee may be granted incentive stock options prior to 1981 shall not exceed \$50,000 per calendar year and \$200,000 in the aggregate.

In the case of an option granted after January 1, 1976, and outstanding on the date of enactment, the option terms (or the terms

of the plan under which the option was granted or shareholder approval) may be changed, to conform to the incentive stock option rules, within one year of the date of enactment, without the change giving rise to a new option requiring the setting of an option price based on a later valuation date.

All such changes relate back to the time of granting the original option. For example, if the option price of a ten-year option granted in 1978 is increased during the one year after date of enactment to 100 percent percent, if applicable) of the fair market value of the stock on the date the option was granted in 1978, the price requirement will be met. Likewise, if the term of an option held by a 10-percent shareholder is shortened to five years from the date the option was granted, the 10-percent stock ownership limitation will not apply.

38. Extension and modification of targeted jobs tax credit

House bill.-Under present law, the targeted jobs tax credit, which applies to eligible trade or business wages paid before January 1, 1982, is available on an elective basis for hiring individuals from one or more of seven target groups. In general, the credit is equal to 50 percent of the first \$6,000 of first-year wages and 25 percent of the first \$6,000 of second-year wages. Qualified first-year wages are limited to 30 percent of FUTA second-year wages (the first \$6,000 per calendar year) for all employees.

In the case of trade or business employment, taxpayers are allowed a WIN tax credit equal to 50 percent of qualified firstyear wages and 25 percent of qualified second-year wages paid to WIN registrants and AFDC recipients. For employment other than in a trade or business, the credit

is 35 percent of qualified first-year wages.

The House bill extends and modifies the

targeted jobs credit as follows:

Extension and eligible wages.-The bill provides that credit is available for wages paid or incurred before January 1, 1984. The provision limiting qualified first-year wages

to 30 percent of FUTA wages is repealed.

Targeted groups.—AFDC recipients and
WIN registrants are added as a targeted group, and the WIN credit is terminated. Elcooperative education students are limited to those who are economically disadvantaged, effective for wages paid after December 31, 1981. The age limitation for Vietnam veterans (under age 35) is eliminated. and employees laid off from public service employment funded by CETA are made eligible for the credit.

Changes in certification requirements.-Certifications issued or requested after the individual begins work are invalid, effective for individuals who begin work after the date of enactment; certifications that individuals are members of economically disadvantaged families are valid for a minimum of 45 days; and certification and marketing are to be performed by State employment security agencies.

Hiring of relatives.-The credit is denied for hiring relatives of the employer

Authorization for penses.—No provision. administrative ex-

Senate amendment.-The Senate amend-

ment has the following provisions:

Extension and eligible wages.—The Senate amendment provides that full credit is available for targeted employees who begin work before January 1, 1983. For cooperative education students, qualified first-year wages are limited to \$3,000, and qualified secondyear wages are limited to \$1,500. Qualified first-year wages may be at least \$25,000, regardless of the 30-percent FUTA wage cap.

Targeted groups.-Same as House bill, except cooperative education students are not limited to those who are economically disadvantaged, and general assistance and Supplemental Security Income recipients

are not removed as targeted group.

Changes in certification requirements.-Same as House bill, except (1) requirement for certification before the employee begins work applies to individuals who begin work after July 23, 1981, or with respect to whom the employer has not received a certification by this date, (2) the credit is not allowed for rehires, and (3) certifications based on false information provided by the employee are revoked prospectively.

Hiring of relatives.-Same as the House

Authorization for administrative penses.—For fiscal year 1982, \$30 million of appropriations is authorized for program administration, of which \$5 million is to be used for a quality program.

Conference agreement.—The conference agreement is as follows:

Extension and eligible wages .ference agreement provides that full credit available for targeted employees who begin work before January 1, 1983. The provision limiting qualified first-year wages to 30 percent of FUTA wages is repealed.

Targeted groups.—Same as House bill.

Changes in certification requirements. Same as Senate amendment, with one exception. The requirements that certification is to be received or requested before the individual begins work and that certifications based on false information are revoked prospectively generally apply to all individuals. regardless of the date they begin work for their employer. However, for an individual, other than a cooperative education student, who began work earlier than 45 days before the date of enactment, the certification has to have been requested or received before July 23, 1981, and for an individual who begins work for the employer during the 90day period beginning with the date 45 days before the date of enactment or a cooperative education student who begins work before the end of this period, the certification must be requested or received before the last day of this 90-day period.

Hiring of relatives.-Same as House bill

and Senate amendment.

Authorization for administrative penses.-Same as Senate amendment.

39. Motor carrier operating rights

House bill.—Under present law, taxpayers are not allowed a loss deduction under section 165 for the diminution in the value of a license or permit (caused, for example, by an expansion in the number of licenses or permits that could be issued) if the license or permit continues to have value as a right

to carry on a business

Under the House bill, an ordinary deduction is allowed ratably over a 60-month period for the adjusted bases of motor carrier operating authorities held by the taxpayer on July 1, 1980 (the date of enactment of the Motor Carrier Act of 1980). The House bill provides a special stock acquisition rule for cases in which a corporation acquired the stock of another corporation that directly or indirectly held an operating authority. Under regulations, the taxpayer holding the authority on July 1, 1980, may elect to allocate to the basis of the authority a portion of the acquiring corporation's basis in the stock of the acquired corpora tion. The allocable portion is the amount of basis the acquiring corporation would have had in the authority under section 334(b)(2)

if such corporation had received the authority in a liquidation of the acquired corporation (and any other corporations necessary for the acquiring corporation to receive the authority) immediately after acquisition of the acquired corporation. Under regula-tions, adjustments shall be made to the acquiring corporation's basis in the stock of the acquired corporation and any other property, to the extent deemed necessary by the Secretary. The provision applies to taxable years ending after June 30, 1980.

Senate amendment.-The provision in the Senate amendment is generally the same as the provision in the House bill, except for certain technical details relating to the

stock acquisition rule.

Conference agreement.-The Conference agreement generally follows the House bill and Senate amendment, except that certain technical modifications are made to the stock acquisition rule.

H. Savings Incentives Provisions

Self-employed retirement savings (Keogh plans)

House bill.-The deduction limit for employer contributions to a defined contribution Keogh plan, to a defined contribution plan maintained by a subchapter S corpora-tion, or to a simplified employee pension (SEP) is increased from \$7,500 to \$15,000. The 15-percent limit on contributions is not changed. To provide a similar increase in the level of benefits permitted under a defined benefit Keogh or subchapter S corporation plan, the compensation taken into account in determining permitted annual benefit acruals is increased from \$50,000 to \$100,000.

The bill also increases the amount of compensation which may be taken into account to determine contributions to a Keogh plan, to a subchapter S plan, or to a SEP. Under the bill, the includible compensation limit is increased from \$100,000 to \$200,000. Howevif annual compensation in excess of \$100,000 is taken into account, the rate of employer contributions for a plan participant who is a common-law employee cannot be less than the equivalent of 71/2 percent of that participant's compensation.

The House bill also extends to all partners the present-law rule under which a loan from a Keogh plan to an owner-employee or his use of an interest in the plan as security for a loan is treated as a distribution.

In addition, the House bill permits (1) the penalty-free correction of an excess contribution to a Keogh plan if the excess is withdrawn before the return filing due date and (2) early withdrawals from a terminated Keogh plan by an owner-employee without regard to the 5-year ban on Keogh plan contributions for the owner-employee.

Senate amendment.-The Senate amendment generally follows the House bill except that it contains no provision relating to excess contributions to Keogh plans or distributions made on account of the termination of a Keogh plan.

Conference agreement.-The conference agreement follows the House bill.

41. Individual retirement accounts

House bill.-In the case of an individual who is not an active participant in an employer-sponsored plan, the annual contribution limit is raised from the lesser of \$1,500 or 15 percent of compensation to the lesser of \$2,000 or 100 percent of compensation. The limit for a spousal IRA is increased from \$1,750 to \$2,250, and the present-law requirement that contributions under a spousal IRA be equally divided between the spouses is deleted.

In the case of an employee who is an active participant is a plan, a deduction is allowed for contributions to an IRA or for voluntary contributions to the plan. The voluntary contributions and earnings thereon under a plan are subject to IRA-type rules, except that (1) distributions starting at age 70½ are not mandated and (2) rollovers may be made to an IRA with regard to the present law rule limiting rollovers to one per year.

Under the House bill, benefits under a qualified plan (including deductible employee contributions and earnings thereon) are taxed only when paid to the employee or a beneficiary and are not taxed if merely made available. Of course, as under present law, if benefits are paid with respect to an employee to a creditor of the employee, a child of the employee, etc., the benefits paid would be treated as if paid to the employee.

Under present law, individuals generally may self-direct IRA investments or investments under an account in a qualified plan. Under the House bill, amounts invested in collectibles (antiques, art, gems, stamps, etc.) under an IRA or a self-directed account in a qualified plan are treated as distributions for income tax purposes.

Under the House bill, the proceeds of a redeemed U.S. retirement bond which is distributed under a qualified bond purchase plan may be rolled over, tax-free, to an IRA. U.S. retirement bonds purchased for an employee may be redeemed only after the employee attains age 59½, dies or becomes disabled. Also, the bill clarifies the treatment of IRA retirement bonds acquired in a tax-free rollover.

Senate amendment.—The Senate amendment is generally the same as the House bill, except that (1) active plan participants are allowed a deduction for contributions to an IRA or for qualified voluntary contributions to a plan limited annually to the lesser of \$1,500 (\$1,625 for a spousal IRA) or 100 percent of compensation for the year, and (2) a surviving or divorced spouse may deduct at least \$1,125 annually for life for contributions to a spousal IRA established by the individual's former spouse at least 5 years before the death or divorce.

In addition, the Senate amendment does not include provisions relating to investments in collectibles under IRAs or self-directed accounts in qualified plans or to roll-overs of the redemption proceeds of U.S. retirement bonds. Also, voluntary contributions and earnings thereon are taxed only if paid, but other plan benefits are taxed if paid or made available.

The Senate amendment requires that Treasury provide the Congress (before June 30, 1982) a study of the tax incentives for individual retirement savings.

Conference agreement.—The conference agreement follows the House bill, except that a divorced spouse is allowed a deduction for contributions to a spousal IRA established by the individual's former spouse at least 5 years before the divorce if the former spouse contributed to the IRA under the spousal IRA rules for at least three of the five years preceding the divorce. If these requirements are met, the limit on the divorced spouse's IRA contributions for a year is not less than the lesser of (1) \$1,125, or (2) the sum of the divorced spouse's compensation and alimony includible in gross income.

42. Partial dividend and interest exclusion

House bill.—Under present law, individuals may exclude from income up to \$200 (\$400 on a joint return) of dividends and interest earned from most domestic sources in 1981 and 1982. After 1982, only the dividend exclusion, which applied before 1981, will be available. This exclusion was limited to \$100

of dividends per taxpayer.

The House bill repeals the \$200/\$400 interest and dividend exclusion after 1981 and reinstates the \$100 per taxpayer dividend exclusion of prior law for 1982 and subsequent years. Effective in 1985, the bill provides for a 15-percent net interest exclusion on up to \$3,000 of net interest (\$6,000 on a joint return). Interest described in section 116(c) of present law is eligible for the percentage exclusion but only to the extent it exceeds the taxpayer's qualified interest expenses. Qualified interest expenses is interest paid for which a deduction is allowed other than interest paid on debt related to a taxpayer's dwelling or his conduct of a trade or business.

Senate amendment.—The Senate amendment generally follows the House bill except that (1) the net interest exclusion is effective in 1984 and (2) the \$100 per taxpayer limit on the reinstated dividend exclusion is replaced with a limit of \$100 for a single return and \$200 for a joint return.

single return and \$200 for a joint return.

Conference agreement.—The conference conference agreement generally follows the House bill, except that the Senate amendment on the \$200 maximum dividend exclusion for joint returns is adopted. In addition, two technical and clarifying changes are made. First, real estate investment trusts, regulated investment companies, and insurance companies are added to the list of eligible payors of excludable interest. Second, the conferees intend that only qualified interest expenses that give rise to a tax benefit are to reduce the amount of excludable interest. Thus, for example, individuals who do not itemize their deductions are not to reduce excludable interest. The Secretary is to provide regulations to implement this rule.

43. Exclusion of interest on qualified saving certificates

House bill.—Present law has no provision that provides specifically for the exclusion of interest earned on saving certificates. Under section 116, and for calendar years 1981 and 1982 only, up to \$200 (\$400 on a joint return) of dividends and interest from a variety of domestic sources may be excluded from gross income.

House bill provides for a lifetime exclusion from gross income of \$1,000 (\$2,000 in the case of a joint return) of interest earned on qualified tax-exempt savings certificates.

Qualified tax-exempt savings certificates are one-year certificates issued after September 30, 1981, and before January 1, 1983, by a qualified depository institution with a yield equal to 70 percent of the yield on 52-week Treasury bills. A qualified depository institution is a bank defined in section 581, a mutual savings bank, cooperative bank, domestic building and loan association, industrial loan association or bank, credit union, or any other savings or thrift institution chartered and supervised under Federal or State law, if the deposits or accounts of the institution (other than an industrial loan association) are insured under Federal or State law or protected or guaranteed by State law.

For interest to qualify for the exclusion, a certificate issued by a qualified institution must meet several requirements. First, such certificates may be issued only during the

period beginning on October 1, 1981, and ending on December 31, 1982. Interest paid after December 31, 1982, with respect to certificates properly issued before that date will be entitled to the exemption. Second, the certificates must have a maturity period of one year. Thus, all of the interest excludable by virtue of the new provision will be earned before January 1, 1984. Third, the certificate must have a yield equal to 70 percent of the yield on 52-week Treasury bills. Whether a certificate meets this 70-percent requirement is determined by comparing the yield to maturity on the certificates (including the effect of any compounding of interest) to the yield to maturity on 52-week Treasury bills sold at the last Treasury auction to have occurred in a calendar week preceding the week the certificate is issued. Fourth, the issuing institution must provide that certificates are available for any deposit of \$500 or more, subject to any limit on maximum deposits.

The provision does not authorize the issuance of qualified tax-exempt savings certificates; however, the House anticipates that the cognizant regulatory authorities will consider such authorization as expeditiously as practicable.

Generally, the provision requires that at least 75 percent of the proceeds of qualified certificates issued during a calendar quarter by an institution other than a credit union be used to provide residential financing by the end of the subsequent calendar quarter. In the case of an institution with net new savings less that the amount of net new savings. For this purpose, qualified net savings is the amount by which deposits into passbook savings accounts, 6-month money market certificates, 30-month small saver certificates, time deposits of less than \$100,000, and qualified certificates exceeds the amount withdrawn or redeemed from such accounts measured at the beginning and end of each calendar quarter. A special rule limits the amount of certificates issued by a credit union that may be outstanding at the close of any calendar quarter to 100 percent of the credit union's savings deposits as of September 30, 1981, plus 10 percent of any new net savings as of the end of the quarter over the credit union's savings deposits as of September 30, 1981.

Qualified residential financing of an institution is any of the following held by the institution:

(a) any loan secured by a lien on a singlefamily or multifamily residence;

(b) any secured or unsecured qualified home improvement loan;

(c) any mortgage on a single-family or multi-family residence which is insured or guaranteed by the Federal, State or local government or any instrumentality thereof;

(d) any loan to acquire a mobile home;(e) any loan for the construction or rehabilitation of a single-family or multifamily residence;

(f) any mortgage secured by single-family or multifamily residences purchased on the secondary market, but only to the extent purchases exceed sales of such assets;

(g) any security issued or guaranteed by the Federal National Mortgage Association, the Government National Mortgage Association, or the Federal Home Loan Mortgage Corporation, or security issued by any other person if such security is secured by mortgages, but only to the extent purchases exceed sales of such assets; or

(h) any agriculture loan.

The term single-family residence includes stock in a cooperative housing corporation

as defined in section 216, and 2, 3, and 4 family residences.

If an institution fails to meet the proceeds investment test at the end of any calendar quarter, it may not issue additional certificates until the requirement is satisfied.

The amount that any individual may exclude from income under the new provision is limited to \$1,000. This limitation applies to the aggregate of all interest paid on all certificates. In the case of married individuals filling joint returns, the limit is increased to \$2,000. This is true even if all of the \$2,000 is earned by only one of the individuals filling the joint return.

Interest paid on qualified certificates is excludable only when earned by individuals or by estates that receive such certificates by reason of the decedent's death. In the case of a partnership, the individual partners may exclude their distributive shares of interest paid on qualified certificates held by the partnership subject to each partner's \$1,000 lifetime limitation on the exclusion. In applying the dollar limitation to estates, the estate is treated as having claimed as having claimed any exclusion taken by the decedent or by a surviving spouse who files a joint return claiming an exclusion.

If a taxpayer earns interest in excess of the excludable amount, the first interest earned is the interest eligible for exclusion. The receipt of interest earned on the certificate prior to maturity is not a premature redemption. However, if any portion of a certificate is redeemed or disposed of before maturity, the exclusion from income is not available for any interest earned on the certificate for the year in which the certificate is redeemed or disposed of or in any subsequent year. If interest paid on a certificate is excluded from income in one year and the certificate is prematurely redeemed or disposed of in a subsequent year, then the amount of excluded interest in the prior year must be included in income for the year of the redemption or disposition. Previously excluded amounts that are recaptured under this rule are not taken into account for purposes of the \$1,000 limitation. Thus, if a holder redeems a certificate and reinvests a portion in a new certificate, interest on the new certificate can be excluded.

The provision also provides that using a certificate or any portion of a certificate as collateral or security for a loan will be treated as a redemption of the entire certificate.

There is a denial of the deduction for interest paid on indebtedness incurred to purchase or carry investment in qualified taxexempt savings certificates. These rules are the same as those that apply under present law with respect to debt incurred or continued to purchase or carry tax-exempt obligations (sec. 265(2)).

The House bill requires the Secretary of the Treasury to report to the Congress before June 1, 1982, on the results of a study to be conducted by the Treasury on the effectiveness of the new saving certificates provision in generating additional sav-

Since some interest earned in 1981 may otherwise be eligible for exclusion under both the new provision and the section 116 interest and dividend exclusion the bill provides a special transition rule. This rule provides that any amount earned on a depository institution tax-exempt savings certificate may be excluded only under new section 128 and may not be excluded under the general interest and dividend exclusion in section 116 of present law, even if the interest on the certificate in not tax-exempt because of a premature redemption or disposition.

Senate amendment.—The Senate amendment is the same as the House bill with some exceptions. Savings certificates must be available in denominations of \$500. The term single-family residence does not include stock in a cooperative housing corporation. No restrictions are placed on the amount of certificates issued by credit unions or on investment by credit unions.

Conference agreement.—The conference agreement follows the House bill. In addition, the conferees agreed to three technical amendments. First, if a consolidated return is filed for any part of a calendar quarter in which savings certificates may be issued, the amount of qualified certificates, residential financing, and net new savings are to be determined on a net aggregate basis for all affiliated corporations.

Foreign branches and international banking facilities of U.S. banks may not issue tax-exempt savings certificates, and their deposits will not be taken into account in determining the required level of residential financing and agricultural loans needed.

Loans secured by cooperative housing stock will be treated as residential financing

44. Employee stock ownership plans (ESOPs)

House bill.-No provision.

Senate amendment.—The Senate amendment accelerates the termination of the present law investment-based tax credit for ESOP contributions by one year, so that it expires at the end of 1982, and replaces it with a payroll-based tax credit. The payroll-based credit (which is not available if contributions allocated to officers, shareholders (more than 10 percent), and employees whose compensation exceeds \$83,000 (adjusted for inflation) exceed specified limits) is limited to one-half of one percent of aggregate employee compensation in calendar year 1983, three-quarters of one-percent in 1984, and one percent in 1985 and subsequent years.

The amendment generally increases from 15 percent of aggregate employee compensation to 25 percent of such compensation the deduction allowed the employer for contributions to an ESOP where the contributions are applied by the plan to make principal payments on a loan incurred to purchase employer stock. An unlimited deduction is allowed the employer for contributions applied to pay interest on the loan.

The Senate amendment also provides that (1) contribution applied to pay loan interest, and (2) forfeitures of fully leveraged ESOP stock are disregarded for purposes of the present law limit on contributions to any participant's account (generally, for 1981, the lesser of \$41,500 or 25 percent of compensation). This rule applies only if contributions allocated to officers, shareholders (more than 10 percent) and employees whose compensation exceeds \$83,000, do not exceed specified limits.

Distributions from a tax credit ESOP which are made on account of the sale of corporate assets or the disposition of a subsidiary are permitted without regard to the present law rule which generally precludes distributions of employer securities for at least 84 months. The Senate amendment also changes the cash distribution and putoption rules to reflect certain State laws and corporate charter restrictions which prevent compliance with present law rules. In addition, the Senate amendment repeals (for all but tax credit ESOPs) the present law rule requiring that employees be entitled to direct voting of employer securities

allocated under a defined contribution plan of a closely held corporation.

The non-tax rules of ERISA are also amended to supersede State securities laws to permit Continental Airlines to establish and maintain an ESOP, to issue previously authorized stock to an ESOP, to permit the company to guarantee a loan to the ESOP, and to permit the ESOP to distribute company stock to employees and beneficiaries.

Conference agreement.—The conference agreement generally follows the Senate amendment except that the new payroll-based tax credit for contributions to a tax credit ESOP is allowed only for wages paid in calendar years 1983 through 1987. The credit is limited for 1983 and 1984 to one-half of one percent of compensation paid to employees under the plan and to three-quarters of one percent of such compensation for 1985, 1986, and 1987. The tax credit expires on December 31, 1987.

In addition, the present-law rule requiring that an employee must be entitled to vote stock allocated to his account under a defined contribution plan is deleted with respect to profit-sharing plans for securities acquired after 1979, but is still applicable to all other defined contribution plans.

The conference agreement does not include the Senate provision which supersede State securities laws with respect to Continental Airlines.

45. Dividend reinvestment plans

House bill.—Under present law (sec. 305(a)), a pro rata stock distribution is not taxable to a shareholder at the time he or she receives it, but it is taxable only when the taxpayer sells or otherwise disposes of the shares received as a distribution. Any gain on the sale generally is treated as a long-term capital gain if the underlying shares (on which the distribution was declared) were held for more than one year. Stock distributions which are not pro rata, including stock distributions received pursuant to a shareholder's option to receive either stock or cash, are taxable at fair market value when the shares are initially received.

Under the House bill, a domestic public utility corporation may establish a plan under which shareholders who choose to receive a dividend in the form of common stock rather than cash or other property may elect to exclude up to \$1,500 per year (\$3,000 in the case of a joint return) of the stock dividends from income.

To qualify, the stock must be newly issued common stock, designated by the board of directors of the corporation to qualify for this purpose. The number of shares to be distributed to any shareholder must be determined by reference to a value which is not less than 95 percent (and not more than 105 percent) of the stock's value during the period immediately before the distribution date.

Generally, stock will not qualify where the corporation has repurchased any of its stock within one year before or after the distribution date (or any member of the same affiliated group of corporations has purchased common stock of any other member of such group). However, if the corporation establishes a business purpose for the purchase not inconsistent with the purpose of the dividend reinvestment provision to aid in the raising of new capital, the purchase will not disqualify any dividend otherwise eligible for exclusion.

Stock received as a qualified dividend will have a zero basis, so that when the stock is later sold the full amount of the sales proceeds will be taxable. In general, proceeds from the sale of such stock will be taxed as capital gains. However, where the stock is sold within one year after distribution, any gain will be treated as ordinary income. In addition, if shares of stock of the distribut ing corporation are sold by the taxpayer any time after the record date for the dividend and before a date one year after the dividend distribution date, the sale will be treated as a sale of the qualified dividend stock. These rules are designed to prevent the immediate resale of stock without the recognition of ordinary income which would have resulted in the case of a taxable divi-

Under the House bill, the earnings and profits of the distributing corporation will not be reduced by reason of the distribution of qualified stock, whether or not the shareholder elects to exclude the dividend from income.

Only individual shareholders are eligible for the exclusion. Corporations, trusts, estates, non-resident aliens, and persons holding at least 5 percent of the voting power or value of stock in the corporation (using the attribution rules of section 318) are not eligible to exclude any dividends under this provision

A public utility is qualified if during the 10 years prior to its taxable year in which the dividend is paid, at least 60 percent of the cost of the depreciable property the corporation acquired for the members of an affiliated group (in which the public utility is a member) was public utility recovery property (within the meaning of new sec. 168A). For periods before 1981, the determination of whether property would have been public utility recovery property shall be made as if section 168A had been in effect.

Senate amendment.—No provision.

Conference agreement.—The conference agreement generally follows the House bill The exclusion from income applies to dividends up to \$750 a year (\$1,500 on a joint return), and the exclusion will be allowed for dividends distributed in calendar years 1982 through 1985.

46. Qualified group legal services plans

House bill.-No provision.

Senate amendment.-Employer contributions to, and benefits provided under, a qualified group legal services plan are excluded from an employee's income. income exclusion expires December 31, 1981.

Under the Senate amendment, the income exclusion for qualified group legal services plans is extended through December 31.

Conference agreement.-The conference agreement follows the Senate amendment.

I. Estate and Gift Tax Provisions 47. Unified credit

House bill.-The unified credit against estate and gift taxes is gradually increased from \$47,000 to \$192,800 over six years. The amount of the credit is \$62,800 for gifts made, and decedents dying, in 1982, \$79,300 in 1983, \$96,300 in 1984, \$121,800 in 1985, \$155,800 in 1986, and \$192,800 in 1987 and subsequent years. Thus, cumulative transfers exempt from gift and estate taxes increase from \$175,625 under present law to \$225,000 in 1982, \$275,000 in 1983, \$325,000 in 1984, \$400,000 in 1985, \$500,000 in 1986, and \$600,000 in 1987 and subsequent years.

Senate amendment.-The Senate amendment also increases the unified credit to \$192,800, but provides a five-year phase-in. For 1982 and 1983, the amount of the credit and the amount of cumulative transfers exempt from estate and gift taxes follows the House bill. However, the amount of the credit is \$104,800 for gifts made and decendents dying in 1984 (exempting cumulative transfers of \$350,000), \$138,800 in 1985 (exempting cumulative transfers of \$450,000), and reaches \$192,800 exempting cumulative transfers of \$600,000) for 1986 and subsequent years.

agreement.-The conference Conference agreement follows the House bill.

48. Rate reduction

House bill.—The maximum gift and estate tax rates are reduced over a 4 year period in five percent increments from 70 percent to 50 percent. The maximum rate is 65 percent for gifts made, and decedents dying, in 1982, 60 percent in 1983, 55 percent in 1984, and 50 percent in 1985 and subsequent years. When fully phased in, in 1985, the 50-percent tax rate will apply to taxable gifts and bequests in excess of \$2.5 million.

Senate amendment.—No provision.
Conference agreement.—The conference agreement follows the House bill.

49. Marital deduction

House bill.-Present law permits a gift tax marital deduction for the first \$100,000 of gifts to a spouse and for 50 percent of gifts to a spouse in excess of \$200,000. An estate tax marital deduction is allowed for transfer to a surviving spouse up to the greater of \$250,000 or one-half the adjusted gross estate. Transfers of terminable interests generally do not qualify for the gift or estate tax marital deduction.

The House bill removes the quantitative limits on both the gift and estate tax martial deductions and provides that certain terminable interests also qualify for those deductions.

Senate amendment.-The Senate amendment is the same as the House bill.

Conference agreement.-The conference agreement follows the House bill and Senate amendment.

50. Current use valuation

a. Increase in maximum reduction in fair market value

House bill.—Under present law, the fair market value of qualified real property cannot be reduced by more than \$500,000 as a result of current use valuation. The House increases the maximum amount by which the fair market value of qualified real property may be reduced as a result of current use valuation to \$750,000 for estates of decedents dying in 1981, \$875,000 in 1982, and \$1,000,000 in 1983 and thereafter.

Senate amendment.-Under the Senate amendment, the maximum amount by which the fair market value of qualified real property may be reduced as a result of current use valuation is increased to \$600,000 for estates of decedents dying in 1982 and thereafter.

Conference agreement.-Under the conference agreement, the maximum amount by which the fair market value of qualified real property may be reduced as a result of current use valuation is increased to \$600,000 estates of decedents dying in 1981. \$700,000 in 1982, and \$750,000 in 1983 and thereafter.

b. Predeath qualified use requirement

House bill.-Under present law, to be specially valued, real property must be used or held for use as a farm or closely held business ("a qualified use") for five of the last eight years before the decedent's death and on the date of death.

The House bill provides that the qualified use requirement of present law, applicable to periods on and before the date of the decedent's death (sec. 2032A(b)(1)), may be satisfied if either the decedent or a member of the decedent's family uses real property otherwise eligible for current use valuation in the qualified use. This change is retroactive to estates of certain decedents dying after December 31, 1976.

The House bill also clarifies the types of operations that are to be considered "quali-fied uses." The bill divides these operations into three categories: (1) farming (including timber operations other than those that are incidental to other farming operations), (2) timber operations which are not incidental to other farming operations, and (3) other trades or businesses. The requirement of present law that each of these uses be an active trade or business use, as opposed to a passive, or investment, use is not changed.

Senate amendment.-The Senate amendment permits the qualified use requirement of present law, applicable to periods on or before the date of the decedent's death (sec. 2032A(b)(1)), to be satisfied if either the decedent or a member of the decedent's family uses real property otherwise eligible for current use valuation in the qualified use.

The Senate amendment contains no provision redefining what types of business uses constitute qualifies uses.

Conference agreement.-The conference agreement follows the Senate amendment.

c. Pre-death material participation require-

House bill.-Under present law, the decedent or a member of his family must materially participate in the farm (or other business operation) for periods aggregating five years of the eight years before the decedent's death. On the other hand, if the decedent materially participates in the farm operation, any income derived from the farm is treated as earned income for social security purposes and, therefore, may reduce social security benefits.

Under the House bill, the material participation requirement has to be satisfied during periods aggregating five years or more of the eight-year period ending before the earlier of (1) the date of death, (2) the date on which the decedent became disabled (which condition lasted until the date of the decedent's death), or (3) the date on which the individual began receiving social security retirement benefits (which status continued until the date of the decedent's death).

An individual is considered to be disabled if the individual is mentally or physically unable to materially participate in the operation of the farm or other business

The House bill provides an alternative to the material participation requirement for qualification of real property for current use valuation in the estates of surviving spouses who receive the property from a decedent spouse in whose estate it was eligible to be valued based on its current use. The bill provides that the spouse will be treated as having materially participated during periods when the spouse (but not a family member) engaged in active management of the farm or other business operation. Active management of the making of business decisions other than the daily operating decisions of a farm or other trade or business

Senate amendment.-The Senate amendment is the same as the House bill.

Conference agreement.-The conference agreement follows the House bill and the Senate amendment.

d. Tacking to satisfy certain requirements in cases of certain pre-death involuntary conversions and like-kind exchanges

House bill.—The House bill changes present law to permit tacking of the ownership, qualified use, and material participation requirements in the case of replacement property acquired pursuant to likekind exchanges under section 1031 and involuntary conversions under section 1033. This tacking is available only for that portion of the replacement property or exchange property which does not exceed the value of the property disposed of in the exchange or conversion, and is permitted only when the replacement property or exchange property is used in the same qualified use as the property which was disposed of.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

e. Election requirements

House bill.—Under present law, an election to specially value qualified real property must be made on a timely filed estate tax return. An agreement to the election which is binding under local law must be signed by all parties having an interest in the property. State law normally requires that a guardian be appointed to sign the agreement for minor heirs.

Under the House bill, elections to specially value property must be made on the decedent's estate tax return rather than by the due date of the return as under present law. Therefore, the election is permitted to be made on a late return, if that return is the first estate tax return filed by the estate. As under present law the election is irrevocable

House bill also permits a custodial parent to sign the required agreement to the current use valuation election on behalf of minor heirs, who otherwise have no guardian empowered to sign on their behalf. The consent by the custodial parent is binding on the minor heir for all purposes under the current use valuation provision, the special lien under section 6324B, and income tax basis rules for specially valued property.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the portion of the House bill that provides that an election to specially value property must be made on the decedent's estate tax return rather than by the due date of that return as under present law. The conference agreement deletes the portion of the House bill permitting a custodial parent to sign the required agreement on behalf of a minor heir.

f. Use of share rentals in the formula valuation method

House bill.—Under present law, farm real property may be specially valued using a formula valuation method. Under the formula method, the value of qualified real property is determined by (1) substracting the average annual State and local real estate taxes for tracts of comparable land used for farming from the average annual gross cash rental for the tracts of the comparable land, and (2) dividing that amount by the average annual effective interest rate for all new Federal land bank loans. Each average annual computation is made on the basis of the five most recent calendar years ending before the decedent's death.

The House bill permits substitution of net share rentals for cash rentals in the formula valuation method for farm real property if the executor cannot identify actual tracts of comparable farm real property in the same locality as the decedent's farm property that are rented solely for cash. As under present law, if there is no comparable land from which a cash or share rental can be determined, the real property subject to the election is to be valued using the multiple factor valuation method.

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and the Senate amendment.

g. Reduction in post-death recapture period

House bill.-Under present law, if, within 15 years after the death of the decedent (and before the death of the qualified heir), specially valued property is disposed of to nonfamily members or ceases to the used for the farming or other closely held business purpose based upon which it was valued in the decedent's estate, all or a portion of the Federal estate tax benefits obtained by virtue of the reduced valuation are recaptured by means of a special "additional estate tax" or "recapture tax" imposed on the qualified heir. Failure by the heir or a member of the heir's family to materially participate in the business operation for periods aggregating three years or more during any eight-year period ending within 15 years after the decedent's death is treated as a cessation of qualified use.

The House bill reduces the present 15year recapture period to 10 years; the fiveyear phase-out period of present law is re-

pealed.

Senate amendment.—The Senate amendment is the same as the House bill.

Conference agreement.—The conference agreement follows the House bill and the Senate amendment.

h. Increase in basis of property on which a recapture tax is paid

House bill.—Under present law, if an election is made to value property based on its current use, the qualified heir's income tax basis in the property is the current use value. No adjustment is made to this basis if

the recapture tax is imposed.

The House bill permits a qualified heir to make an irrevocable election to have the income tax basis of qualified real property increased to the fair market value of the property as of the date of the decedent's death (or the alternate valuation date under section 2032, if the estate elected that provision) where the recapture tax is paid. If the heir elects this basis adjustment, the heir must pay interest on the amount of the recapture tax from the date which in nine months after the decedent's death until the due date of the recapture tax. The interest is computed at the rate (or rates) charged on deficiencies of tax for the period volved. If the heir does not make the election and pay the interest, no adjustment is made to the basis of the property.

Senate amendment.—Under the Senate

Senate amendment.—Under the Senate amendment, the increase in income tax basis is automatic if a recapture tax is paid, and no interest is imposed on the recapture tax

Conference agreement.—The conference agreement follows the House bill.

 Miscellaneous technical changes to postdeath recapture period rules

House bill.—The House bill retains the present requirement that the qualified heir owning the real property after the decedent's death use it in the qualified use throughout the recapture period. However, the bill creates a special two-year grace period immediately following the date of

the decedent's death during which failure by the qualified heir to commence use of the property in the qualified use will not result in imposition of a recapture tax. The 10-year recapture period (15 years for estates of decedents dying before December 31, 1981) is extended by a period equal to any part of the two-year grace period which expires before the qualified heir commences using the property in the qualified use. This provision is retroactive to estates of certain decedents dying after December 31, 1976.

In the case of an eligible qualified heir, the House bill provides that "active management" by the eligible qualified heir is treated as material participation for purposes of meeting the material participation requirement during the post-death recapture periods. Eligible qualified heirs include the spouse of the decedent, a qualified heir who has not attained the age of 21, a qualified heir who is a full-time student (within the meaning of sec. 151(e)(4)), and a qualified heir who is disabled (within the meaning of sec. 2032A(b)(4)(B), as added by the bill). Active management means the making of business decisions of the trade or business.

The House bill provides that an exchange pursuant to section 1031 of qualified real property solely for qualified replacement property to be used for the same qualified use as the original qualified real property does not result in imposition of the recap-

ture tax.

The House bill also repeals the requirement that a qualified heir make an election to secure the benefits of the special nonrecognition rules for the recapture tax for involuntary conversions.

Senate amendment.—The Senate amendment is the same as the House bill, except the grace period immediately following the decedent's death during which the qualified use requirement need not be met is one year, and the provision applies only to estates of decedents dying after December 31, 1981.

Conference agreement.—The conference agreement follows the House bill.

j. Qualification of property purchased from a decedent's estate

House bill.-Under present law, only that property which is acquired from a decedent eligible for current use valuation. The House bill expands the circumstances in which property is considered to be so acquired to include property that is purchased from a decedent's estate by a qualified heir as well as property that is received by bequest, devise, inheritance, or in satisfaction of a right to pecuniary bequest. This change reverses present law in cases where the decedent gives a qualified heir an option to purchase property otherwise qualified for current use valuation as well as in cases where the executor sells the property to an heir in the absence of such a direction in the will. If purchased property is specially valued, the qualified heir who purchases the property is limited to the current use value of the property as his income tax basis. This change is retroactive to estates of certain decedents dying after December 31, 1976.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

k. Property transferred to discretionary trusts

House bill.—Under present law, property owned indirectly through ownership of an interest in a partnership, a corporation, or a trust qualifies for current use valuation to the extent that it would qualify if it were owned directly. However, trust property qualifies for current use valuation only to the extent that an heir receives a "present interest" in the trust property. Treasury regulations define the term "present interby reference to the gift tax law (sec. 2503). This definition precludes current use valuation of any property passing from the decedent to a trust in which the interest of the life tenant (or any other beneficiary whose interest becomes a present interest before expiration of the recapture period) is subject to discretion on the part of the trustee. This result is the same even if all potential beneficiaries of the trust are qualified heirs. (Treas. Reg. § 20.203A-3(b)(1)).

The House bill provides that property meeting the other requirements for current use valuation can be specially valued if it passes to a discretionary trust in which no beneficiary has a present interest (under sec. 2503) because of the discretion in the trustee to determine the amount to be received by any individual beneficiary so long as all potential beneficiaries of the trust are qualified heirs. This provision applies retroactively to certain estates of decedents dying after December 31, 1976.

Senate amendment.—No provision.
Conference agreement.—The conference agreement follows the House bill.

L. Definition of family member

House bill.—Under present law, only real property that passes to qualified heirs is eligible for current use valualtion. The term 'qualified heir' means a member of the decedent's family, including his spouse, lineal descendants, parents, grandparents, and aunts or uncles of the decedent and their decendants. The term does not include members of a spouse's family.

Additionally, the pre-death qualified use and material participation requirement may be satisfied by the decedent or a member of the decedent's family. Likewise, the post-death material participation requirement may be satisfied by participation of the qualified heir or a member of the heir's family. Property can only be disposed of during the recapture period without imposition of a recapture tax if the transfer is to a member of the qualified heir's family.

member of the qualified heir's family.

The House bill changes the definition of family member. The new definition includes an individual's spouse, parents, brothers and sisters, children, stepchildren, and spouses and lineal descendants of those individuals.

and lineal descendants of those individuals. Senate amendment.—No provision. Conference agreement.—The conference agreement follows the House bill.

m. Judicial review of fair market value of specially valued property

House bill.—Under present law, the fair market value or specially valued property, as well as the property's use value, must be determined for several purposes. The House bill provides for a declaratory judgment proceeding in the Tax Court review of Treasury Department determinations of the fair market value of specially valued property.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the Senate amendment.

n. Credit for State recapture tax

House bill.—Many States have enacted current use valuation provisions similar to the Federal provision. Some of these States impose a recapture tax like the Federal recapture tax. Those State recapture taxes are not eligible for the State death tax credit of present law.

The House bill permits a qualified heir to claim part or all of any recapture tax im-

posed by a State which has a current use valuation provision like the Federal provision as a credit against the Federal recapture tax.

Senate amendment.-No provision.

Conference agreement.—The conference agreement follows the Senate amendment.

o. Special rules for woodlands

House bill.—Under present law, only real property used as a farm for farming purposes or in other closely held business operations ("a qualified use") is eligible for current use valuation. Timber operations are included in the definition of farming purposes. Standing timber, like other growing crops, is not treated as part of the qualified real property.

The House bill permits an executor to elect to treat timber operations as a separate qualified use. Qualified timber operations are operations where growing and harvesting trees (other than milling) are not incidental to other types of farming operations. If the election is made, standing timber can be specially valued as part of the real property on which it is located, and active management is treated as material participation for purposes of qualifying for current use valuation and of avoiding imposition of the recenture tax.

If standing timber is specially valued, disposition or severance of the timber results in imposition of the recapture tax. This recapture tax is determined by treating the timber as an interest in the real property on which the timber stands or stood.

Senate amendment.—The Senate amendment continues treatment of timber operations as a farming use, but permits executors to elect to specially value the standing timber. If standing timber is specially valued, the recapture tax is imposed when the timber is disposed of or severed.

Conference agreement.—The conference agreement follows the Senate amendment on current use valuation of standing timber.

p. Effective dates

House bill.—The changes to the current use valuation provision apply generally to estates of decedents dying after December 31, 1981.

The increase in the limitation on the amount by which the fair market value of specially valued property can be reduced applies to estates of decedents dying after December 31, 1980.

The changes to the recapture period rules on involuntary conversions (under sec. 1033) and like-kind exchanges (under sec. 1031) apply to such exchanges occurring after December 31, 1981, even if the decedent in whose estate the property was specially valued died before that date.

As noted in the discussion of individual items, four provisions apply to all estates for which estate tax returns are due to be filed after July 28, 1980, and to all estates for which a timely use valuation election was made between January 1, 1977, and July 28, 1980. These four provisions are the change in the pre-death qualified use requirement, the provision on property passing to discretionary trusts, the provision on property purchased from a decedent's estate, and the two-year grace period during which the post-death qualified use requirement need not be met.

Senate amendment.—The changes to the current use valuation provision apply to estates of decedents dying after December 31,

Conference agreement.—The conference agreement follows the House bill.

51. Transfers within 3 years of death

House bill.-Present law generally requires that gifts made by a decedent within 3 years of death be included in the dece-dent's gross estate at their value as of the date of death or alternate valuation date (sec. 2035(a)). In general, the House bill provides that this rule does not apply to decedents dying after December 31, 1981. However, the House bill continues to apply present law to gifts of certain types of property covered by sections 2036, 2037, 2038, 2041, and 2042. In addition, all gifts made within 3 years of death are included for purposes of qualifying for current use valuation (sec. 2032A), deferred payment of estate tax (sec. 6166), qualified redemptions to pay estate tax (sec. 303), and estate tax liens (subchapter C of chapter 64).

Senate amendment.—Gifts made within 3 years of death are included in a decedent's estate at their value as of the date of the gift.

Conference agreement.—The conference agreement follows the House bill.

52. Time for payment of estate tax attributable to closely held businesses

House bill.—The most liberal provisions of present law sections 6166 and 6166A, relating to the deferred payment of estate taxes attributable to interests in closely held businesses, are combined into one provision. The new provision permits deferred payment if interests in closely held businesses exceed 35 percent of the adjusted gross estate. Conforming changes are made to section 303, which permits redemption of stock in a closely held business to pay certain estate taxes, funeral expenses, and administration expenses.

The House bill also provides that the remaining unpaid tax balance will not be accelerated upon the death of the decedent's heir or a subsequent transferee provided the interest in closely held businesses passes to a family member of the heir or subsequent transferee.

In addition, the House bill provides a declaratory judgment procedure to determine eligibility for deferral and whether acceleration is proper.

Senate amendment.—The Senate amendment also combines sections 6166 and 6166A into one provision, but provides that qualifying interests in closely held businesses must exceed 35 percent of the gross estate or 50 percent of the taxable estate.

No acceleration of the unpaid tax balance occurs upon the death of decedent's heir or subsequent transferee, whether or not the interest in closely held businesses passes to a family member of the heir or subsequent transferee.

The Senate amendment contains no provision permitting judicial review of controversies involving deferred payment of estate taxes.

Conference agreement.—In general, the conference agreement follows the House bill, except that it deletes the provision of the House bill which provides a declaratory judgment procedure for controversies involving deferred payment of estate taxes.

53. Disclaimers

House bill.—The House bill provides that a timely transfer of property to the person who would have received it had an effective disclaimer been made under the applicable local law is considered an effective disclaimer for purposes of Federal estate and gift taxes where the other Federal requirements of qualified disclaimers are met.

Senate amendment.-The Senate amendment follows the House bill except for technical language differences.

Conference agreement.-The conference agreement follows the House bill.

54. Basis rule for property received within 3 years of death

House bill.-The House bill provides that the basis of appreciated property acquired by gift within 3 years of death is not adjustto its fair market value at date of death if it is returned to the donor (or donor's

Senate amendment,-No provision.

Conference agreement.-In general, the conference agreement follows the House bill, except that it reduces the 3-year period to one year.

55. Certain charitable contributions

House bill.-Where a charitable transfer is an interest which is less than the donor's entire interest in property, present law provides that no charitable deduction is allowable unless the split-interest gift is made in certain specified forms. Because an original work of art and a related copyright are considered interests in the same property, no deduction is allowed for the transfer of an original work of art to charity if the copyright is retained or transferred ot a noncharity.

The House bill provides that where a donor or decedent makes a qualified contri-bution of a copyrightable work of art, the work of art and its copyright will be treated as separate properties for purposes of the estate and gift tax charitable deduction. Thus, a charitable deduction will be allowed for a transfer of a work of art to a qualified charitable organization, whether or not the copyright itself is simultaneously transferred to the charitable organization.

Senate amendment.—The Senate amend-

ment contains no provision relating to splitinterest transfers of copyrightable works of art. However, it provides a special credit against the estate taxes imposed on the estate of D. M. Kunhardt. The amount of the credit is equal to the smallest of (1) the total estate tax imposed, (2) the fair market value of the Matthew Brady glass plate negatives transferred to the Smithsonian, or (3) \$700,000.

Conference agreement.—The conference agreement follows the portion of the House bill relating to the gift or bequest of a copyrightable work of art and the portion of the Senate amendment relating to the special credit to the estate of D. M. Kunhardt

56. Certain bequests, etc., to minor children House bill.-The House bill repeals the provision of present law which permits a limited deduction for certain property passing to certain orphaned minor children.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follow the House bill.

57. Generation-skipping transfer tax

House bill.-No provision.

Senate amendment.—The Tax Reform Act of 1976 imposed a tax on generation-skipping transfers. A transitional rule exempts from the tax generation-skipping trusts created by wills or revocable trusts in existence on June 11, 1976, if (1) such wills and trusts were not amended after that date to create or increase the amount of the generationskipping transfer, and (2) the testator or trust grantor dies before January 1, 1982. Under the Senate amendment, the Janu-

ary 1, 1982, date contained in the present transitional rule is extended one additional

year to January 1, 1983.

Conference agreement.-The conference agreement follows the Senate amendment. 58. Annual gift tax exclusion

House bill.-The House bill increases the amount of the annual gift tax exclusion from \$3,000 to \$10,000 per donee and provides an unlimited exclusion for amounts paid for the benefit of a donee for certain

medical expenses and school tuition.

Senate amendment.—The Senate amendment follows the House bill in increasing the annual exclusion form \$3,000 to \$10,000 per donee, but does not provide an unlimited exclusion for tuition and medical ex-

Conference agreement.-The conference agreement follows the House bill.

59. Annual payment of gift tax

House bill.-Present law requires that gift tax returns must be filed, and any gift tax paid, on a quarterly basis if the sum of (1) the taxable gifts made during the quarter, plus (2) all other taxable gifts made during the taxable year (for which a return has not yet been required to be filed) exceeds \$25,000. If annual gifts are less than \$25,000, a return must be filed for the fourth quar-

The House bill provides that all gift tax returns are to be filed, and any gift tax paid, on an annual basis.

Senate amendment.-No provision. Conference agreement.-The conference agreement follows the House bill.

J. Tax Straddles

60. Gains or losses on straddles

House bill.-Under present law, gain or loss on property generally is recognized at the time of its disposition. In Revenue Ruling 77-185, the Internal Revenue Service denied deductions for losses on certain partial dispositions of straddles on the grounds that the transactions were incomplete, taxmotivated and not reflective of true economic position. The theory of this ruling is currently in litigation.

The House bill allows taxpayers to deduct straddle losses to the extent of straddle gains and net non-straddle commodity gains. Disallowed straddle losses are carried forward as straddle losses. The bill applies to commodity-related property which includes futures contracts, forward contracts, actual commodities (including metals), Treasury bills, other debt instruments, currency, and any interests in the foregoing, The bill does not apply to real estate, stock (except commodity substitute stock), interest income and short-term stock options. Positions in commodity-related property are attributed to and from related persons and flow-through entities in order to determine whether taxpayers hold offsetting positions. Related persons are a taxpayer, the taxpayer's spouse and minor children; a taxpayer and a person under common control within section 414(b) or (c); and persons whose relationship is subject to the loss disallowance rules in sections 267 and 707(b). Hedging transactions are excepted from this provision. The bill applies to property acquired and positions established by the taxpayer after January 27, 1981, in taxable years ending after that date.

Senate amendment.—The Senate amend-

ment marks all commodity futures contracts to market at year end and treats them as if 60 percent of the capital gains and losses on them were long-term and 40 percent were short-term. Net losses under the market-tomarket rule may be carried back three years against market-to-market gains. Taxpayers may elect to mark their futures to market

for the entire 1981 year as if 1982 rates were in effect. Tax due on gains rolled forward from prior years into 1981 may be paid in five annual installments with interest. The first installment payment is due with the taxpayer's 1981 taxe

In the case of straddles involving property other than futures which are market-tomarket, the Senate amendment allows staddle losses only to the extent such losses exceed the unrealized gains on offsetting positions. Disallowed losses are deferred. The wash sale and short sale principles of present law are extended to straddles by regulation. The loss deferral rule applies to actively-traded personal property (other than stock). This rule does not apply to such property as real estate, stock and short-term stock options. Attribution of positions runs to and from related persons, but only from a flow-through entity to a taxpayer. Related persons are a taxpayer and the taxpaver's spouse, or a taxpaver and any person with whom the taxpayer files a consolidated return under section 1501. Hedging transactions are excepted from this

The Senate amendment applies to property acquired and positions established by the taxpayer after June 23, 1981, in taxable

years ending after that date.

Conference agreement.—The conference agreement follows the Senate amendment.

61. Interest and carrying charges

House bill.-Present law allows a current deduction for interest and carrying charges for purchasing or carrying commodity investments. The House bill requires that such charges be added to the basis of the commodiy if it is part of a straddle. However, futures traders may continue to deduct these charges currently from commodity-related gains. Hedging transactions are excepted from the capitalization rule.

Senate amendment.-The Senate amendment follows the House bill except it omits the special rule for futures traders.

Conference agreement.—The conference agreement follows the Senate amendment.

62. Hedging exception House bill.-The House bill excepts hedging transactions from the capitalization rule and the rule limiting straddle losses. Syndicates are not entitled to the hedging exemption. A syndicate is defined as a flow-through entity (1) more than 35 percent of whose losses go to limited partners or limited entrepreneurs; or (2) whose interests must at any time be registered under State

or Federal law. Senate amendment.-The Senate amendment generally follows the House bill, except that the hedging exception applies to the mark-to-market and loss deferral rules, as well as the capitalization rule. Under the Senate amendment, a syndicate is defined as a flow-through entity with more than 35 percent of its losses allocable to limited partners or limited entrepreneurs. Certain interests held by family members of an active participant in an entity, retired active participants, and estates of active participants are treated as if held by active participants. The Senate amendment gives the Secretary discretion to treat any interest held by an individual as if it were held by an active participant, provided the Secre-tary determines that tax-avoidance is unlikely.

Conference agreement.-The Conference agreement follows the Senate amendment.
The Senate amendment's provisions on syndicates provide the Secretary with flexibility to treat certain limited interests in partnerships and other flow-through entities as interests held by active participants when the facts and circumstances warrant such treatment. It is intended that authority granted the Secretary to treat an interest in an entity as if it were held by an active participant be used to insure that for legitimate and demonstrated business reasons, an entity may take advantage of this exemption. However, in allowing a taxpayer to claim the hedging exemption, the Secretary must determine that the facts and circumstances in the specific case indicate that the hedging exemption is not sought, nor could it be exploited, for tax avoidance purposes.

Further, it is intended that in determining eligibility for the exemption, the Secretary need not require requests for rulings and information from every interest or participant, in the entity nor to examine every interest and participant, in order to make such a determination. The Secretary must determine that the entity itself has the required percentage of interests held by active participants and by others treated as active participants and that the entity and such participants lack tax-avoidance purpose.

63. Characterization of Treasury bills

House bill.—Under present law, gain and loss on certain governmental obligations (including Treasury bills) issued at discount and payable at a fixed maturity date less than one year from issue date are treated as ordinary income and loss. The House bill treats such obligations as capital assets and the discount on these obligations as ordinary income if they were property acquired after or positions established after January 27, 1981.

Senate amendment.—The Senate amendment follows the House bill, but applies to property acquired after and positions established after June 23, 1981.

Conference agreement.—The Conference agreement follows the Senate amendment.

64. Dealer identification of securities held for investment

House bill.—Present law requires dealers to identify securities held as investments within 30 days of the date of acquisition. The House bill requires identification of securities acquired after the date of enactment by the close of business on the date of acquisition.

Senate amendment.—The Senate amendment follows the House bill, except that securities acquired after the date of enactment and before January 1, 1982, must be identified by the close of business on the first day after the date of acquisition. Floor specialists are allowed seven business days to designate stock for which they are registered specialists.

Conference agreement.—The conference agreement follows the Senate amendment.
65. Sale or exchange of capital assets

House bill.—Under present law, for gain or loss to be capital gain or loss, it must result from the sale or exchange of a capital asset. The House bill provides that taxable dispositions of capital assets which are commodity-related property are treated as sales or exchanges. This change applies to property acquired after January 27, 1981.

acquired after January 27, 1981.

Senate amendment.—The Senate amendment follows the House bill, except that it applies to actively traded personal property acquired after June 23, 1981.

Conference agreement.—The conference agreement follows the House bill and Senate amendment.
66. Treasury study

House bill.-The House bill requires the

Treasury Department to study the effects of straddles provisions and provide two reports to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate. The first report is due on or before July 1, 1983, and must analyze 1981 tax returns; the second is due on or before July 1, 1984, and must analyze 1982 returns.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the Senate amendment.

K. Administrative Provisions

67. Interest on deficiencies and overpayments

House bill.—Under present law, the interest rate applicable to deficiencies and overpayments is set by Treasury regulations at 90 percent of the adjusted prime rate for September, and is effective on February 1 of the immediately succeeding year. The interest rate, however, cannot be changed more frequently than once every 23 months.

The House bill provides that the interest rate is to be set annually at the prime rate. Starting in 1983, changes in the interest rate are to be effective on January 1, rather than on February 1, of the year immediately succeeding that in which the rate is established.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

68. Penalties for false withholding allowance certificate

House bill.—Under present law, a civil penalty of \$50 may apply for claiming withholding allowances based on false information (Code sec. 6682). The criminal penalty for willfully failing to supply information, or for willfully supplying false or fraudulent information, in connection with wage withholding is a fine of up to \$500 and/or up to one year imprisonment. The bill increases to \$500 the civil penalty for filing false information with respect to wage withholding. The bill also increases the criminal penalty for willfully failing to supply information, or for willfully supplying falsified information in connection with wage withholding to \$1.000.

These provisions are effective for acts and failures to act after December 31, 1981.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

69. Penalty for failure to file information returns

House bill.—Present law requires taxpayers to file a variety of information returns with the Secretary. Generally, such returns relate to payments to, and transactions with, other persons. The penalty for failure to file most information returns is \$1 per return, subject to a maximum of \$1,000 for any calendar year (Code sec. 6652(b)). Present law generally does not require a taxpayer who must file an information return to furnish a copy to the person to whom the payment relates. However, such a requirement is imposed as to some information returns (Code sec. 6678).

The bill generally requires that information returns be furnished to the person to whom the payments on the return relate.

The bill also increases the penalty for failure to file most information returns with the Secretary. The increased penalty is \$10 for each return, subject to a maximum penalty of \$25,000 for any calendar year. Because the obligation to furnish a statement and the requirement to file an information return are different obligations, a taxpayer

could be subject to both the information and statement penalties.

The bill retains the \$1 penalty of present law for fallure to file information returns with respect to certain payments aggregating less than \$10.

The provision is effective as to returns and statements required to be furnished after December 31, 1981.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

70. Penalty for overstated tax deposits

House bill.—Present law requires periodic deposits of various taxes prior to the close of the taxable year (see, e.g., Code sec. 6302, relating to tax deposits). Taxpayers who fall to comply with these depository requirements may be subject to a penalty of 5 percent of any underdeposit not deposited on or before the prescribed date, unless it is shown that the failure is due to reasonable cause and not due to willful neglect (Code sec. 6656(a)). In addition, criminal penalties may apply with respect to taxpayers who make a false return claiming to have made deposits of tax (Code sec. 7206), or who fail to collect, account for or pay over collected taxes (Code sec. 7215, 7512).

The bill contains a specific penalty applicable to persons who make an overstated deposit claim. The penalty is 25 percent of the overstated deposit claim, and applies in addition to any other applicable penalty. However, the overstated deposit claim penalty does not apply if the overstated deposit claim is due to reasonable cause and not due to willful neglect.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

71. Penalty for valuation overstatements

House bill.—Present law imposes an addition to tax, or penalty, with respect to certain tax underpayments due to negligence or civil fraud (Code sec. 6653). The penalty for negligence is 5-percent of any underpayment that is due to negligent or intentional disregard for rules and regulations but not with intent to defraud. The alternative civil fraud penalty is 50 percent of any underpayment.

The bill provides a graduated addition to tax applicable to certain income tax "valuation overstatements." The addition to tax applies only to the extent of any income tax underpayment which is attributable to such an overstatement, and only if the taxpayer is an individual, a closely held corporation, or a personal service corporation.

Under the bill, there is a valuation overstatement if the value of any property, or the adjusted basis of any property, claimed on any return exceeds 150 percent of the amount determined to be the correct amount of the valuation, or adjusted basis. If there is a valuation overstatement, the following percentages are used to determine the applicable addition to tax:

The applicable percentage is—

The penalty is effective for returns filed after December 31, 1981.

More than 250 percent

Senate amendment.—Same as the House bill.

Conference agreement.—The conference agreement follows the House bill and the Senate amendment.

72. Addition to negligence penalty

House bill.—Present law imposes an addition to tax, or penalty, with respect to certain tax underpayments due to negligence or civil fraud (Code sec. 6653). The penalty for negligence is 5 percent of any underpayment that is due to negligent or intentional disregard for rules and regulations but not with intent to defraud. The alternative civil penalty is 50 percent of any underpayment.

The bill imposes an addition to tax equal to 50 percent of the interest (determined under Code sec. 6601) attributable to that portion of an underpayment which is attributable to negligent or intentional disregard of rules or regulations. The addition to tax is 50 percent of the interest for the period beginning on the last day for payment of the underpayment and ending on the date of the assessment.

As an addition to tax, amounts imposed under this new penalty are nondeductible.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill. For deficiency notice purposes (sec. 6212), the addition to tax imposed under this provision is considered to be an amount stated even though the addition is dependent upon the interest due on the underpayment.

 Disclosure of returns and return information for purposes not relating to tax administration

House bill.-No provision.

Senate amendment.-Under present law, Federal agencies may, in certain circumstances, receive tax returns, taxpayer return information (i.e., books and records supplied by the taxpayer), and return information from the Internal Revenue Service for their use in nontax criminal investigations. Returns and taxpayer return information are available only pursuant to an ex parte order granted by a Federal district court judge. Return information, other than taxpayer return information, may be received by written request. The IRS may refuse to disclose tax returns, taxpayer return information or return information if it determines that disclosure would identify a confidential informant or seriously impair a civil or criminal tax investigation. Present law also permits the IRS to disclose return information, other than taxpayer return information, which may constitute evidence of a violation of Federal criminal laws, to the extent necessary to apprise the head of the appropriate Federal agency charged with enforcing such laws.

Under present law, the unauthorized disclosure of tax returns or return information is a felony punishable upon conviction by a fine of not more that \$5,000 or imprisonment of not more than 5 years, or both.

Under present law, a taxpayer may bring a civil action for damages against a person who knowingly or negligently discloses returns or return information in violation of the disclosure provisions.

The Senate amendment relaxes the standards for obtaining an ex parte court order for the disclosure of returns and books and records of individuals. In addition, the books and records of any business entity consisting of more then two owners would be available upon written request. Return information that has been disclosed to the Justice Department may be disclosed, fur-

ther, to other Federal agencies; and may, pursuant to court order, be disclosed to State law enforcement officials.

The IRS would be required to disclose any nonreturn information that may constitute evidence of a violation of Federal criminal law to the appropriate Federal agency. Moreover, in certain emergency situations, the IRS would be required to disclose returns on its own initiative.

In certain circumstances, the bill would permit disclosure of returns and return information to foreign law enforcement officials.

The bill provides that a Federal employee will not be criminally liable for a wrongful disclosure that results from a good faith but erroneous interpretation of the law while the employee was acting within the scope of his employment. Moreover, any civil action for wrongful disclosure would be brought against the appropriate Federal agency, rather than a Federal employee.

Conference agreement.—The conference agreement follows the House bill. However, the conferees intend that this matter should be thoroughly examined in Congressional hearings in the very near future and that appropriate legislative action should be taken.

 Confidentiality of certain IRS information

House bill.—Present law restricts the disclosure of tax returns and return information. However, information that cannot identify any particular taxpayer is not protected under the disclosure restrictions. Because of this, questions have been raised concerning whether the IRS can legally refuse to disclose information which is used to develop standards for auditing tax returns.

The House bill provides that nothing in the tax law, or in any other Federal law, will be construed to require the disclosure of standards used, or to be used, for the selection of returns for examination (or data used, or to be used, for determining such standards), if the Secretary determines that such disclosure will seriously impair assessment, collection, or enforcement under the internal revenue laws. However, it is intended that nothing in this provision be construed to limit disclosure of statistical data or other information (other than of the type that could be used by the IRS to determine criteria for selecting returns for examination) to the extent permitted under present law. Thus, any information that is currently made available will continue to be available.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

75. Tax Court filing fee

House bill.-No provision.

Senate amendment.—Under present law, the Tax Court is authorized to impose a fee of up to \$10 for the filing of any petition. The House bill authorizes the Tax Court to impose a filing fee of up to \$60. This provision applies to petitions filed after December 31, 1981.

Conference agreement.—The conference agreement follows the Senate amendment.

Cash management: Corporate estimated tax payments

House bill.—Under present law, corporations whose taxable income exceeded \$1 million in any of the three preceding taxable years must pay estimated tax of at least 60 percent of current year's tax liability regardless of their prior year's tax liability.

The House bill provides that corporations whose taxable income exceeded \$1 million in any of three preceding taxable years will be required to pay estimated tax of at least 80 percent of current year's tax liability regardless of their prior year's tax liability. The provision is effective for taxable years beginning after December 31, 1981.

Senate amendment.—The Senate amendment is similar to the House bill, except that the 80 percent requirement is phased in over a three-year period. In 1982, large corporations will have to be at least 65 percent current with estimated tax payments. This will increase to 75 percent in 1983, and to 80 percent for 1984 and subsequent years. The provision is effective for taxable years beginning after December 31, 1981.

Conference agreement.—The conference agreement follows the Senate amendment.

77. Declaration and payment of estimated taxes by individuals

House bill.—In general, present law provides that individuals whose tax liability, over amounts withheld during the year, is less than \$100 are not required to file declarations of estimated taxes. The House bill increases the tax liability threshold for the payment of estimated taxes from \$100 to \$500 over a four year period, as follows:

Taxable years	Threshold
beginning in:	amount
1882	\$200
1883	\$300
1884	\$400
1885 and thereafter	\$500

Individuals whose tax liability, in excess of withholding does not exceed the threshold amount would not be required to declare or pay estimated tax, nor would they be penalized for underpayment of estimated tax.

The increase in the tax liability threshold begins in taxable years beginning after December 31, 1981.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

78. Railroad retirement taxes

House bill.—The House bill has the following provisions:

Tier II taxes.—Under present law (code section 3221), there is imposed on railroad employers a tax of 9.5 percent of compensation paid in a calendar month, subject to a maximum limitation. Currently, the annual taxable compensation base is \$22,200; however, in no case does the tax apply to any amount paid in a month in excess of one-twelfth of the annual limitation (\$1,850 in 1981). The annual (and monthly) limitation on taxable compensation for the purposes of section 3221 is indexed pursuant to section 230 (c) and (d) of the Social Security Act. The rate of tax under section 3221 applies to employers only.

The House bill will, pursuant to a negotiated agreement between railway management and labor, provide for adjustments in the financing of the tier-II pension component. The tax on employers under section 3221 will be increased from 9.5 to 11.75 percent, an increase of 2.25 points. In addition, the provision will provide for a new tax of 2 percent on the compensation of employees (as defined in section 3221).

Advance transfers to the railroad retirement account.—Generally, under the railroad retirement and social security interchange, for a given fiscal year there is computed the amount of social security taxes that would have been collected if railroad employment nad been covered directly by social security. This amount is netted against the amount of benefits social security would have paid to railroad beneficiaries based on railroad and nonrailroad earnings during that period. Where social security benefits that would have been paid exceed social security taxes that would have been due, the excess, plus an allowance for interest and administrative expenses, is trans-ferred from the social security trust funds to the Railroad Retirement Account. The financial interchange amount for a given fiscal year is determined and transferred no later than June of the year following the close of the preceding fiscal year.

The House bill provides advanced, limited transfers to the Railroad Retirement Account from the general fund in amounts necessary to make monthly benefit payments. In no case will the amounts outstanding at any time for any fiscal year under this authority exceed the estimated interchange transfer for that fiscal year. The Board will pay the prevailing rate of interest currently being paid on short-term instruments of the Department of the Treasury on amounts transferred under this authority. The borrowing authority will be ef-

fective upon enactment.

Payments of employee taxes by railroad employers.—Under present law (code section 3221(e)(1)(iii)), payments made by railroad employers of railroad employee taxes under section 3211 without deduction from the remuneration of the employee are excluded from the definition of compensation for the purposes of the Railroad Retirement Tax Act (RRTA). Until 1981, a similar provision was included in the Federal Insurance Contributions Act (code section 3121(a)(6) and section 209(f) of the Social Security Act). The exclusion of such payment from the definition of wages for FICA tax and social security benefit computation purposes was eliminated by section 1141(a)(1) of Public Law 96-499, the Omnibus Reconciliation Act of 1980.

The House bill provides that payments by an employer of employee railroad payroll taxes, without deduction from the employee's remuneration, will be included in tax-able compensation for RRTA purposes. This change will conform the provisions of the Railroad Retirement Tax Act to the corresponding provisions of the recently amended Federal Insurance Contributions Act. The changes made by this provision will be effective with respect to compensation paid for services rendered after September 30,

Definition of compensation.-Under present law, there is imposed on employers a tax on so much of compensation paid in any calendar month by such employer for services rendered by an employee. It is unclear whether the intent of the law is to tax

compensation when paid or when earned.

The House bill provides that compensation that is paid in one calendar month but that would be payable in a prior or subse quent taxable month but for the fact that the prescribed date of payment would fall on a Saturday, Sunday, or legal holiday will be deemed to have been paid in such prior or subsequent taxable month. The bill thus makes clear the treatment for RRTA purposes of compensation "bunched" in any month for services rendered in the preceding month.

The House bill also provides that, in the absence of evidence to the contrary (e.g., the statutory presumption curing "bunching" of compensation problems in certain months, as clarified by the immediately preceding provision), payments by railroad employers shall be presumed to be compensation for services rendered as an employee in the period for which the payment is made, an employee receiving retroactive wage payments (such as lump sum retroactive wage payments and crew consists payments) will be deemed under the provision to be compensation paid in the period for which the payment is made unless the employee requests in writing (pursuant to existing provisions in sec. 3231(e)(2)) that such compensation was earned in a period other than the period in which it was paid.

This provision generally applies to taxable years ending on or after the date of enactment. It also applies in taxable years ending before enactment for which the period for assessment, collection, or claim for credit or refund of taxes has not expired.

Senate amendment.-No provision.

Conference agreement.-The conference agreement follows the House bill with several modifications. The conference agreement does not include the House bill provision dealing with advance transfers to the railroad retirement account. Under the conference agreement, the provision that clarifies the definition of compensation is effective for taxable years beginning after December 31, 1981. It is the specific intent of the conferees that no inference be drawn from this clarification for taxable years beginning after 1981 as to Congressional intent with respect to prior legislation concerning the definition of compensation for the purposes of administrative or judicial proceedings.

L. Miscellaneous Provisions

79. State legislators business expenses

House bill.-For taxable years before 1981, State legislators were allowed an election to treat their residences within the district represented as their tax home for purposes of computing business deductions for expenses while away from home. If such an election is made, the allowable deduction is equal to the sum of the legislator's legislative days multiplied by the Federal per diem

for the State capital.

The House bill extends, and modifies, the State legislator provision for taxable years beginning on or after January 1, Under the provision, an electing State legislator is deemed to have expended for business purposes an amount equal to the individual's legislative days multiplied by the greater of the Federal per diem or the State per diem (but not over 110 percent of the Federal per diem). This amount is deductible, except for legislators living within 50 miles of the capitol building, without regard to the away-from-home rule.

amendment.-The generally is the same as the House bill, except that the Senate provision does not apply to taxable years before 1981, and the 50-mile rule is applied with respect to dis-

tances from the capital city.

Conference agreement.—The conference agreement generally follows the House bill and the Senate amendment. The 50-mile rule adopted is that contained in the House bill, and the provision is effective for taxable years beginning on or after January 1,

80. Fringe benefit regulations

House bill.-Prior to June 1, 1981, the Treasury was prohibited from issuing final regulations, under Code section 61, relating to the income tax treatment of fringe benefits. The House bill extends this prohibition until May 31, 1983.

Senate amendment.-The Senate amendment is the same as the House bill except that the prohibition is extended until December 31, 1983.

Conference agreement.-The conference agreement follows the House bill and the Senate amendment, and extends the prohibition until December 31, 1983.

81. Commuting expense regulations

House bill.-Prior to June 1, 1981, the Treasury was required to apply the income tax, FICA, FUTA, and withholding provisions relating to the treatment of certain transportation expenses as they were applied before the issuance of Rev. Rul. 76-453, 1976-2 C.B. 86. The House bill extends the requirement until May 31, 1981.

Senate amendment.-No provision.

Conference agreement.-The conference agreement follows the Senate amendment.

82. Campaign funds

House bill.-No provision.

Senate amendment.-Under present law, candidates for election to Congress must designate one "principal campaign committo receive contributions and make expenditures on the candidate's behalf (2 USC 432(e)). A campaign committee may be designated as a "principal campaign committee" by only one candidate, and such a designated committee may not support any other candidate. A statement of designation must be filed with the Federal Election Commission (FEC) and, as appropriate, with the Clerk of the House or the Secretary of the Senate. A congressional candidate's principal campaign committee must coordinate the submission of FEC reports of affiliated campaign committees.

Under Code section 527, a candidate's campaign organization generally is exempt from taxation. However, political organization taxable income, e.g., interest on account balances, etc., is subject to the highest rate, rather than the graduated rates, of the corporate income tax. Currently, this rate is 46 percent for amounts over \$100,000.

The Senate amendment applies the generally applicable corporate income tax rates to political organization taxable income of a Congressional candidate's "principal campaign committee," as defined under present law (2 USC 432(e)). Under regulations prescribed by the Secretary, candidates have to furnish the Secretary with the principal campaign committee's designation. No change is made to the present law rules applicable to other campaign or political organizations.

Under the amendment, political organization taxable income of a candidate's "principal campaign committee" is taxed at the generally applicable corporate income tax rates. Thus, after 1982, the lowest rate would be 15 percent as to amounts of \$25,000 or less, and the highest rate would be 46 percent on amounts over \$100,000.

The Senate amendment is effective for taxable years beginning after December 31,

Conference agreement.-The conference agreement follows the Senate amendment.

83. Tax-exempt bonds for the purchase of mass transit equipment

House bill.-Under section 103, interest on State and local government obligations is generally exempt from Federal income tax. However, tax exemption is denied to State and local government issues of industrial development bonds with certain exceptions. A State or local government bond is an industrial development bond (IDB) if (1) all or a major portion of the proceeds of the issue are to be used in any trade or business not carried on by a State or local government or tax-exempt organization, and (2) payment of principal or interest is secured, in whole or in major part, by an interest in, or derived from payments with respect to, prop-

erty used in a trade or business. Certain industrial development bonds qualify for tax exemption where the proceeds of the bonds are used to provide exempt activity facilities. Such facilities include mass commuting facilities. These facilities do not include the equipment used for commuting purposes, such as buses, subway cars, or railroad passenger cars used

in a commuting system.

The House bill provides that interest on obligations of a State or local government are exempt from Federal income tax, if substantially all of the proceeds of the obligations are used to provide qualified mass commuting vehicles. Qualified mass commuting vehicles is defined in the committee bill to mean any bus, subway car, rail car, or similar equipment which is leased to a mass transit system that is wholly owned by one or more governmental units and which is principally used by the mass transit system in providing mass commuting services to the general public.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

84. Tax-exempt bonds for volunteer fire departments

House bill.-In general, obligations issued by States or their political subdivisions are exempt from Federal income tax. Volunteer fire departments are not considered to be political subdivisions and, thus, cannot issue tax-exempt bonds on their own behalf.

The House bill treats an obligation of a volunteer fire department as an obligation of a political subdivision of a State if the following conditions are met: (1) the volunteer fire department is the sole organization providing firefighting services in a particular area; (2) the volunteer fire department is required by the political subdivision, by agreement or otherwise, to provide firefighting services; (3) the volunteer fire de-partment receives more than half of its funds from political subdivisions; and (4) the volunteer fire department makes no charge for its firefighting services

Tax-exempt obligations may be used only to finance (1) depreciable property that is used in training for, or the performance of, firefighting or ambulance services, or (2) depreciable property used to house such prop-

The provision is effective for obligations

issued after December 31, 1980.

Senate amendment.—The Senate amendment treats an obligation of a volunteer fire department as an obligation of a political subdivision of a State if the following condi-tions are met: (1) the volunteer fire depart-ment is organized and operated to provide firefighting or emergency medical services in an area that is not provided with firefighting services, and (2) the volunteer fire department is required by written agreement to provide firefighting services.

Tax-exempt obligations may be used only

to finance (1) depreciable property that is used in training for, or the performance of, its firefighting or ambulance services, or (2) depreciable property used exclusively to

house such property.

The provision applies to obligations issued

after December 31, 1968.

Conference agreement.-The conference agreement generally follows the Senate

amendment, with several modifications. Under the conference agreement, obligations must be issued as part of an issue substantially all of the proceeds of which are to be used for the acquisition, construction, reconstruction, or improvement of a firehouse or fire truck used or to be used by a volunteer fire department.

The provision generally applies to obligations issued after December 31, 1980. However, the provision has retroactive effect with respect to certain obligations held by the First Bank and Trust Company of Indianapolis, Indiana, which were issued after December 31, 1969, and before January 1,

85. Modification of foreign investment company provisions

House bill.-No provision.

Senate amendment.-Gain on the sale or exchange of stock in a foreign investment company is taxed as ordinary income to the extent attributable to earnings and profits derived after 1962. Once a foreign corporation becomes a foreign investment company, the ordinary income treatment applies to even earnings and profits derived before the foreign corporation became a foreign invest-

ment company.

Under section 1248 of the Code, certain gain attributable to post-1962 earnings and profits derived by a controlled foreign corporation are treated as as a dividend. Under section 1248, gain attributable to earnings and profits of a foreign corporation which were accumulated during any taxable year beginning before January 1, 1976, while the corporation was a less developed country corporation under section 902(b) as in effect before the enactment of the Tax Reduction Act of 1976, would be taxed as capital gain, rather than a dividend, under section 1248(d)(3).

The Senate amendment provides that gain on the disposition of stock in a foreign investment company attributable to earnings and profits derived before the foreign corporation became a foreign investment company will not be subject to tax under section 1246 of the Code. Instead, that gain not covered by section 1246 because of the amendment is covered by section 1248 where that section is otherwise applicable. The amendment only applies to companies that became foreign investment companies because they met the requirements of section 1246(b)(2) of the Code.

Conference agreement.-The conference agreement follows the Senate amendment.

86. Charitable contributions by corporations

House bill.-No provision.

Senate amendment.-Under present law, a corporation's deduction for charitable contributions may not exceed 5 percent of its taxable income. The Senate amendment increases the limitation on a corporation's charitable contributions deduction to 10 percent of taxable income. The provision is effective for taxable years beginning after December 31, 1981.

Conference agreement.—The conference agreement follows the House bill,

87. Unemployment tax status for certain fishing boat services

House bill.-No provision.

Senate amendment.-Under present law, certain crew members of fishing boats are treated as self-employed individuals rather than as employees for purposes of the Federal Insurance Contributions Act (FICA) and income tax withholding. However, services which are not subject to FICA taxes are not exempt for purposes of the Federal Unemployment Tax act (FUTA) if the services are related to catching halibut or salmon for commercial purposes or if the services are performed on a vessel of more than ten net tons. In general, a claim for credit or refund of any tax imposed by the Internal Revenue Code must be made either within 3 years from the time the return was filed or years from the time the tax was paid (whichever is later). If no return was filed, the claim for refund must be made within 2 years from the time the tax was paid.

The Senate amendment exempts for purposes of FUTA, the services of fishing boat crew members which currently are exempt for purposes of FICA and income tax withholding. Thus, services by members of the crew on boats engaged in catching fish or other forms of aquatic animal life are exempt for purposes of FUTA if the remuneration for those services is a share of the boat's catch, or of the proceeds of the catch, and if the crew of such boat normally is made up of fewer than ten individuals. In the case of a fishing operation involving more than one boat, services are exempt for purposes of FUTA if the remuneration for services is a share of the entire fleet's catch or its proceeds, and if the operating crew of each boat in the fleet normally is made up of fewer than ten individuals.

On addition, the provision allows employers who paid FICA taxes prior to the enactment of the Tax Reform Act of 1976 for services exempted from FICA by that Act to claim a refund of these taxes within one year of the date of enactment of this Act.

The FUTA tax exemption applies to wages paid after December 31, 1980, for services performed after that date. The provision allowing a refund of FICA taxes previously paid is effective on the date of en-

agreement.-The conference Conference agreement follows the Senate bill with modifications. Under the conference agreement, the FUTA tax exemption is effective for one year. In addition, employers will not be permitted to seek a refund for FICA taxes previously paid.

88. Tax credit for planting certain pecan

House bill.-No provision.

Senate amendment.-Under present law, there is no provision that allows taxpayers to take tax credits for planting pecan trees. The Senate amendment allows taxpayers to claim a nonrefundable credit for planting pecan trees to replace pecan trees that were destroyed, in September 1979, by Hurricane Frederick. The amount of the credit is \$10 per tree. Excess credits may be carried forward to succeeding taxable years.

The credit generally is available to taxpayers in taxable years beginning after December 31, 1980, and before January 1, 1986. However, in the case of a taxpayer's first taxable year beginning after December 31, 1980, the credit is available with respect to trees planted after August 31, 1979.

Conference agreement.-The conference agreement follows the House bill.

89. General obligation veterans mortgage subsidy bonds for State of Oregon

House bill.-No provision.

Senate amendment.-Under section 103A, limitations have been imposed on the issue of tax-exempt mortgage subsidy bonds for the purchase of owner-occupied homes, effective January 1, 1981. Transition rules apply to certain issues. Qualified veterans mortgage bonds are exempt from the limitation, if they are general obligation bonds, are in registered form, and the home-owner meets the principal residence requirements.

The amendment permits the issuance of \$66.5 million of State of Oregon general obligation bonds that will be used to finance residential mortgages for veterans to whom commitments were delayed beyond the effective date of the Act.

Conference agreement.—The conference agreement follows the House bill.

90. 2-year extension of telephone excise tax at 1 percent.

House bill.-No provision.

Senate amendment.-The present excise tax on communications services (local telephone, toll telephone, and teletypewriter services) is 2 percent for 1981 and 1 percent for 1982, with no tax as of January 1, 1983. The Senate amendment extends the 1-percent rate for two years, and thus delays the termination of the telephone tax until January 1, 1985.

Conference agreement.-The conference agreement follows the Senate amendment

91. Exemption from firearms excise tax for small producers

House bill.-No provision.

Senate bill.-Present law (sec. 4181) imposes an excise tax on firearms generally and on shells and cartridges at a rate of 11 percent of the manufacturer's sales price. Also, a tax of 10 percent is imposed on pistols and revolvers. There are no exemptions except for sales to the Department of Defense.

The Senate amendment provides an exemption from the excise taxes on firearms. pistols, and revolvers for small producers who produce or assemble 50 or fewer complete firearm units per year. The amendment also exempts from the tax on ammunition hand-loaded shells or cartridges for individuals who load it for themselves or for others on a nonprofit basis. The small producer exemption is effective for sales made after December 31, 1975, and the exemption for hand-loaded shells or cartridges is effective upon enactment.

Conference agreement.—The conference agreement follows the House bill.

92. Amortization of construction period taxes and interest

House bill.-Under present law, taxpayers other than most corporations, in general, are required to capitalize and amortize construction period interest and taxes (sec. 189). This rule is not applicable to lowincome housing until after December 31,

The House bill delays application of section 189 to low-income housing until 1983.

Senate amendment.-The Senate amendment excludes application of section 189 to low-income housing, phases out application to other residential housing for post-1986 years, and repeals section 189 for post-1990 years.

In general, the provision applies to amounts paid or accrued in taxable years beginning after December 31, 1981.

Conference agreement.—The conference agreement follows the House bill, but extends permanently the exemption of lowincome housing from section 189.

93. Amortization of low-income housing rehabilitation expenditures

House bill.-The House bill has no provi-

Senate amendment.-Under present law, the taxpayer may elect to amortize qualified low-income housing rehabilitation expenditures over a 60-month period. The amount of expenditures is limited to \$20,000 per dwelling unit (sec. 167 (k)).

The Senate amendment increases the amount of expenditures eligible for amortization under section 189 to \$40,000 per unit if the rehabilitation is conducted pursuant to a program under which tenants who demonstrate home ownership responsibilities may purchase their units at a price that limits the profit to the seller. The program must be certified by the Secretary of Housing and Urban Development or by a State or local governmental unit and the tenants must occupy the units as their principal residence. The program must provide that the sum of the taxable income and the amount realized on sale must not exceed the excess of (1) the taxpayer's basis in the property (without adjustment for deductions under section 167) over (2) the new tax benefits from the section 167 deduction less tax on the taxable income from leasing.

The provision applies to amounts paid or incurred after December 31, 1980.

Conference agreement.-The conference

agreement follows the Senate amendment. 94. Investment credit for theatrical produc-

tions and TV shows

House bill.-No provision.

Senate amendment.-The present law investment credit is allowed neither for live theatrical productions nor for television game shows. The Senate amendment provides an investment credit for live theatrical productions and extends the investment credit for movie and television films to television game shows.

Conference agreement.-The conference agreement follows the House bill.

95. Foreign investment in U.S. real property House bill.-No provision.

Senate amendment.-On November 26, 1980, Congress passed the Omnibus Reconciliation Act of 1980 which contained a provision that requires, in general, that foreign persons selling U.S. real estate after June 18, 1980, will be subject to United States taxation on that sale. Also, foreign persons selling stock in a U.S. corporation having 50 percent or more of its gross asset value comprised of U.S. real property interests will be subject to U.S. taxation. Finally, the distri-butions (liquidating or non-liquidating) of U.S. real property interests by a foreign corporation shall be subject to tax.

While the provision was effective for dispositions after June 18, 1980, special rules applied to transactions covered by a treaty of the United States. In general, the Code provision overrides treaties, but not until January 1, 1985. If treaties are negotiated and signed before 1985, the old treaty is to take precedence over the Code provision for a maximum period of two years after the new treaty is signed.

Withholding.-The Senate amendment provides that the foreign investment in United States real property provisions are to be enforced by a system of withholding.

The provision requires withholding by a purchaser, purchaser's agents, or any settlement officer or seller's agent where U.S. real estate is acquired from a foreign person.

The amount to be withheld is the smallest of: first, 20 percent of the amounts realized; second, the seller's maximum tax liability, discussed below; or third, the fair market value of that portion of the sale proceeds which is within the withholder's control. The seller's maximum tax liability is the maximum amount which the Treasury determines that the seller could owe on his gain on the sale plus any unsatisfied prior withholding tax liabilities of prior foreign owners with respect to that property that, under the provisions of the amendment, the seller was required to withhold when he bought the property but failed to do so.

The withholding requirement would apply only if the purchaser knows or has received a notice that the seller is a foreign person. The seller is required to notify the purchaser, the purchaser's agent, and settlement officer that the seller is a foreign person. The seller's agent is also required to notify the purchaser that the seller is a foreign person if the agent has reason to believe that the

seller may be a foreign person.

The withholding is thus required only if the purchaser has actual knowledge that the seller is foreign or has received notice that the seller is foreign. However, the seller's agent is relieved of any responsibility to give notice to a purchaser if he relies in good faith on a written statement of the seller-or, in the case of a seller's agent retained by another agent of the seller a written statement by that other seller's agentthat the seller is a U.S. person.

No withholding is required if the purchaser is to use the real property as his principal residence and the purchase price is \$200,000 or less. Also, withholding is not required if the seller obtains a qualifying statement from the Treasury that he is exempt from tax or has provided adequate security for payment of the tax, or has otherwise made arrangements with Treasury for the pay-ment of the tax. Furthermore, withholding is not required if the property being sold is stock of a corporation and the sale takes place on an established U.S. securities market.

The provision provides that a seller agent who does not carry out his obligation to provide notice will be required to withhold any of the purchaser's consideration he has within his control, including any compensation received by him in connection with the transaction.

Provision is made for the Treasury, upon request of the seller or any withholding agent, to reduce the amount of withholding otherwise required. Any request, as well as a request for a qualifying statement, must be acted upon within 30 days of receipt of the

The provision sets forth special rules for withholding by a domestic partnership, a trustee of a domestic trust, or an executor of a domestic estate. These persons will be required to withhold from amounts which such entities have in their custody and which are attributable to the disposition of a U.S. real property interest, but only if the amounts are income of a nonresident alien individual or foreign corporation, partnership, trust, or estate.

Special rules are also provided requiring withholding where a U.S. real property interest is distributed by a foreign corporation or is disposed of in a transaction which, under the general rules in the Code, would be a nonrecognition transaction. For example, it is intended that, where a foreign corporation distributes U.S. real property interest to its shareholders, it would be required to withhold a tax equal to 20 percent of the fair market value of the property reduced by the adjusted basis of the property.

Technical Amendments.-The amendment makes a number of clarifying and technical amendments to the foreign investment in U.S. real property provisions. These provisions are intended to make clear the Congress' intention to tax dispositions

of U.S. real property interests by foreign investors.

Virgin Islands Corporations.-Under present law, gains realized by foreign investors on the sale of U.S. real property are subject to U.S. tax unless the property is held by a Virgin Islands corporation. This arises because section 28(a) of the Revised Organic Act of the Virgin Islands provides that Virgin Islands corporations satisfy their U.S. income tax obligations by paying their tax on worldwide income to the Virgin Islands under the so-called mirror system. The mirror system means that the name "Virgin Islands" is substituted for the name "United States," and vice versa, wherever such names appear in the U.S. income tax

For purposes of the Virgin Islands mirror tax, a Virgin Islands corporation is a domestic corporation and arguably may avoid tax on its capital gains if it sells its U.S. real estate and liquidates under the rules prescribed by section 337. It has been argued that gains realized by the foreign share-holders will also escape Virgin Islands tax, since section 897, as mirrored, can be read to impose a Virgin Islands tax on gain from a disposition of a Virgin Islands real property interest, but there is no Virgin Islands tax on the sale of a U.S. real property interest. It has also been argued that various other transactions involving foreign corporations interacting with the mirror system avoid the effect of the real estate legislation.

This problem does not exist for the other possessions of the United States.

The Senate amendment provides that a U.S. real property interest includes an interest in real property located in the United States or the Virgin Islands. Under this definition, a foreign shareholder of a Virgin Islands corporation 50 percent or more of the gross asset value of which consists of a Virgin Islands or U.S. real property interests is subject to tax on gain from disposition of an interest in a Virgin Islands real property holding corporation.

Thus, for example, this provision makes clear that if a Virgin Islands corporation purchases U.S. real estate, adopts a plan of complete liquidation, and then sells the real estate, the shareholder will be subject to Virgin Islands taxation on the gain under mirror section 987. For a further example, the provision also makes clear that a foreign corporation cannot avoid the provisions of section 897 by establishing a permanent establishment in the Virgin Islands for investment in U.S. real property.

To prevent double taxation, the amendment provides that a person subject to tax because of section 897 shall pay such tax and file the necessary returns with the United States with respect to real property interests where the underlying interest in real property in the United States, and with the Virgin Islands with respect to a real property interest where the underlying interest in real property is located in the Virgin Islands. Sale of an interest, other than solely as a creditor, in a U.S. real property holding corporation shall be subject to tax in the United States while the tax on the sale of an interest in a Virgin Islands real property holding corporation will be paid to the Virgin Islands.

The source rules are amended to provide that gain on the disposition of an interest in real property located in the Virgin Islands is foreign source income to United States tax-payers. This insures that the gain will be taxed as income that is effectively connected with the conduct of a trade or business in

the United States or the Virgin Islands, as the case may be. Further, this amendment will insure that a U.S. person subject to Virgin Islands tax on the disposition of Virgin Islands property can take a foreign tax credit against his U.S. liability for such

Partnership Assets.—Current taxation applies to the disposition of an interest in a U.S. real property holding corporation, which is a U.S. corporation 50 percent or more of the fair market value of the assets of which consists of U.S. real property. If a corporation is a partner, only the U.S. real property of the partnership is taken into account for purposes of determining whether a corporation is a U.S. real property holding corporation.

The amendment provides that for purposes of determining whether a corporation is a U.S. real property holding corporation, the corporate partner takes into account its proportionate share of all assets of the partnership. Thus, for example, the corporate partner would count its proportionate share of the foreign real estate of the partnership. The same rules apply to trusts and estates in which a corporation has an interest. The amendment also makes clear that the same rules apply to a chain of successive partnerships, trusts or estates.

Taxation in Carryover Basis Cases.—
Under present law, the Treasury has the authority to override the nonrecognition provisions of the Code in the case of certain transfers of a U.S. real property interest. The Senate amendment makes clear the Treasury's authority to provide for recognition of gain where a carryover basis transaction is entered into for the purpose of avoiding Federal income tax on the transaction. Taxation is specifically provided for if, at the time of receipt of the property, the distribution would not be subject to tax on a later disposition of the property by the recipient.

However, after the issuance of regulations by the Secretary, the Treasury may waive taxation in appropriate cases where tax avoidance is not present.

For example, assume that, A, a nonresident alien individual owns real estate through corporation B organized in country X. A contributes the stock of B to corporation C which is located in country Y. Y has a treaty with the U.S. B liquidates under section 332 of the Code. Since the present treaty between Y and the United States enables C to dispose of the property free of U.S. tax, B is taxed on the distribution to the extent the fair market value of the property at the time of the distribution exceeds B's adjusted basis in the property.

Nondiscrimination.-U.S. income treaties generally contain a provision that provides for nondiscriminatory tax treatment by the treaty partners of U.S. residents and residents of the treaty partner. A similar provision is contained friendship, commerce and navigation treaties. Present law avoids any possible claim that a foreign corporation is discriminated against by allowing a foreign corporation that has a permanent establishment in the United States to elect to be treated as a domestic corporation, but only if, under a treaty, the permanent establishment may not be treated less favorably than domestic corporations carrying on the same activities. The treaties are overridden by the legislation, but not until 1985.

Despite this provision and the intent of Congress, it is understood that some taxpayers may be taking the position that because

of technical problems under old treaties, they cannot make the election and therefore are being discriminated against. This enables taxpayers to plan around the provision.

The amendment makes clear that under section 897(i), any foreign corporation may make an election to be treated as a domestic corporation for purposes of section 897 of the Code and the related reporting requirements if the corporation owns a U.S. real property interest, and, under any treaty obligation of the United States, the foreign corporation is entitled to nondiscriminatory treatment with respect to that interest.

The election may be revoked only with the consent of the Secretary. The election can be made only if all shareholders of the corporation at the time of the election consent to the election and specifically agree that any gain from the disposition of the interest after June 18, 1980, the effective date of the original legislation, which would be taken into account under the legislation will be taxable even if such taxation would not be allowed under a treaty to which the United States is a party. If a class of interest is traded on an established securities market, then the consent need only be made by a person who held more than 5 percent of that class of interest.

For example, foreign person A owns all of the stock of X, a corporation organized in the Netherlands Antilles which owns U.S. real estate. A contributes the stock of X to Y, a Netherlands corporation. X, with the consent of its sole shareholder Y makes an election under section 897(i) to be treated as a U.S. corporation. Under the Netherlands-U.S. treaty, the sale of X's shares by Y would be exempt from tax. To prevent taxpayers from rearranging their United States real property interest holdings so as to avoid U.S taxation on gains derived from the disposition of a U.S. real property interest, the amendment confirms that X cannot make the section 897(i) election unless Y agrees that on the ultimate sale of X's shares, Y would be subject to U.S. tax under section 897.

The amendment also makes clear that the election provided by this provision is the exclusive remedy for any person claiming discriminatory treatment because of sections 897 or 6039(C) or both of them.

Indirect Holdings.—The amendment makes clear that for purposes of determining whether a foreign corporation has substantial U.S. real property investors, and therefore must report, the foreign corporation must look through to the assets of any U.S. corporations in which the foreign corporation has an interest.

Contributions to Capital.-Under present law, an argument has been made that a foreign investor can avoid paying U.S. tax on his gain from the disposition of a U.S. real property interest through the device of contributing that interest to the capital of a foreign corporation in which he is a shareholder. The amendment clarifies present law by specifically providing that gain will be recognized by a nonresident alien individual or foreign corporation on the tranfer of a U.S. real property interest to a foreign corporation if the transfer is made as paid in surplus or as a contribution to capital to the extent of the fair market value to the property transferred over the adjusted basis and any other gain recognized by the transferor.

Liquidation of Foreign Corporations.— Under present law, a foreign corporation is taxed when it sells or exchanges a U.S. real property interest. Taxation applies even if the sale would otherwise be tax-free under the nonrecognition liquidation provisions of the Code. Under the legislation as reported by the Senate Finance Committee on December 15, 1979, and the House Ways and Means Committee on June 18, 1980, a foreign corporation could have taken advantage of the tax-free liquidation provisions, but the foreign shareholders would have been taxed on the exchange of their stock, which was a real property interest, for the property distributed.

In the case of a U.S. person acquiring the stock of a foreign corporation from a foreign person between December 15, 1979, and November 26, 1980, it would have been reasonable to assume that the tax, if any, due with respect to the unrealized appreciation of the U.S. real estate would have been borne by the foreign seller of the corporation's stock. The conference action shifted that burden to the liquidating corporationeffectively the acquiring shareholders. Thus, in the case of an acquiring U.S. corporation, it now owns the stock of a foreign corporation that has a substantial tax liability due on its U.S. real estate. In contrast, if the U.S. corporation had acquired the stock of a U.S. corporation, it could have liquidated the corporation without a tax liability and received a step-up in basis of the U.S. real estate to its fair market value.

The amendment permits foreign corporations that were acquired during the period that began after December 31, 1979, and before November 26, 1980, to elect to be treated as a U.S. corporation for purposes of liquidating under section 334(b)(2) of the Code. This will enable those corporations to liquidate tax-free with a corresponding stepin basis of the U.S. real estate in the hands of the U.S. purchaser corporation.

For all other purposes, the foreign corporation will be treated as a foreign corporation. Thus, the selling foreign shareholders will be treated as having sold the stock of a foreign corporation and, accordingly, will generally not be taxable by the U.S.

A separate problem arises in situations where a U.S. individual has held stock of a foreign corporation which holds U.S. real estate. Under present law, upon a 12-month liquidation of the foreign corporation, there would be a tax at the corporate level on the U.S. real property interest, as well as a tax at the shareholder level. If the acquired corporation had been a U.S. corporation, the liquidation could have been accomplished tax-free at the corporate level with a tax remaining at the shareholder level. The double tax in the case of U.S. shareholders of foreign corporations was not intended.

The amendment relieves the double tax burden by giving U.S. shareholders who acquired their interests prior to the effective date of this legislation a credit against any tax imposed on them on the surrender of their stock in the liquidating foreign corporation. The credit is equal to the tax imposed on the liquidating foreign corporation on the sale of the U.S. real property. This rule would apply only if the U.S. persons continuously held the stock since June 18, 1980, the effective date of the legislation.

The statute provides for the override of certain nonrecognition provisions of the Code, and for the continued application of treaties until 1985. However, it was never intended that these provisions be manipulated so as to make the provisions of the legislation in effect elective until 1985. Accordingly, the conferees agree with the Senate that the statute should be clarified to reiterate

Congress' original intent to collect at least one tax on the transfer of U.S. real property interests by foreign investors. Congress provided a grace period until January 1, 1985, to certain foreign investors who were residents on the enactment of section 897 of a treaty country which provides an exemption from tax on the gain from such sale. However, it was not Congress' intent to grant such an exemption to a foreign investor, who after the enactment of section 897 rearranged their investments so as to come under a treaty which would exempt the gain from U.S. tax. While most, if no all, of the transactions are already covered by the present statute because of the great latitude given to the Secretary of the Treasury to prescribe regulations to prevent tax avoidance, clarification will help avoid any misunderstandings.

Application of Treaties.—Public Law 96-499 provided that existing treaties will take precedence over the real estate legislation until January 1, 1985. However, if a new treaty is negotiated to resolve conflicts with this legislation, the provisions of the old treaty will apply for a maximum period of 2 years after the new treaty is signed. However, if the new treaty is ratifled earlier, the period may be shorter. The effect of this effective date provision on treaties with countries with which we already signed a treaty is unclear.

The amendment would make clear that, in order for a new treaty to begin the 2-year period, it must have been signed on or after January 1, 1981, and before January 1, 1985. It also makes clear that the old treaty with that country will take precedence over the legislation for 2 years after the new treaty is signed, even if that 2-year period ends after December 31, 1984. If a new treaty was signed before January 1, 1981, the old treaty will continue to apply until December 31, 1984, or, if earlier, until the new treaty is ratified.

Effective Date.—These provisions apply to dispositions after June 18, 1980.

Conference agreement.—The Senate recedes with respect to withholding. The conference agreement follows the Senate amendment with respect to the technical amendments.

The statute provides for the override of certain nonrecognition provisions of the Code, and for the continued application of treaties until 1985. However, it was never intended that these provisions be munipulated so as to make the provisions of the legislation, in effect, elective until 1985. Accordingly, the conferees agree with the Senate that the statute should be clarified to reiterate Congress' original intent to collect at least one tax on the transfer of U.S. real property interests by foreign investors. Congress provided a grace period of tax exemption until January 1, 1985, to certain foreign investors who were residents of a treaty country on the date section 897 became effective. However, it was not Congress' intent to grant such an exemption to a foreign investor, who after the enactment of section 897 rearranged his investment so as to come under a treaty which would exempt the gain from U.S. tax while these transactions are already covered by the present statute because of the great latitude given to the Secretary of the Treasury to prescribe regulations to prevent tax avoidance. The conferees agreed that clarification of these provisions will help avoid any misunderstandings. 96. Payout requirement of private founda-

House bill.-No provision.

Senate amendment.—Under present law, private foundations (other than operating foundations) are required to distribute annually the greater of their minimum investment return or their adjusted net income, less certain taxes (sec. 4942). The minimum investment return basically is 5 percent of the foundation's net investment assets. Under the definition of an operating foundation, the foundation is required (among other requirements) to spend for charitable purposes substantially all of its adjusted net income (sec. 4942(j)).

The Senate amendment reduces the required payout for private foundations so that they must distribute only their minimum investment return. The Senate amendment also provides a comparable amendment to the definition of an operating foundation. The Senate amendment is effective for taxable years beginning after December 31, 1980.

Conference agreement.—The conference agreement follows the Senate amendment, but delays the effective date of the amendment one year until taxable years beginning after December 31, 1981, and clarifies the comparable amendment to the definition of an operating foundation.

97. Imputed interest rates on installment sales

House bill.-No provision.

Senate amendment.—Section 483 requires that a minimum portion of payments under an installment sales contract be treated as interest. The current rate used for this purpose is 10 percent in the case of contracts that do not provide for at least 9 percent interest.

The Senate amendment provides a special 7-percent maximum rate of imputed interest for sales of non-depreciable property for less than \$2 million.

Conference agreement.—The conference agreement adopts a modified form of the Senate amendment. Under the provision, the maximum rate of imputed interest on qualified sales of land is 7 percent. An installment sale of land qualifies for this lower rate if the installment sale takes place between members of the same family (within the meaning of sections 453(f) and 318(a)(1)) and if the sales price of property sold or exchange between the same family members during the calendar year does not exceed \$500,000. If the \$500,000 limit is exceeded, the lower rate is available only as to the first sales or exchanges up to the limit.

98. Bad debt deduction of commercial banks

House bill.—No provision.

Senate amendment.—Under present law, commercial banks compute their bad debt deductions under either the experiecnce method or the percentage of outstanding loans method (sec. 585). Under the Tax Reform Act of 1969, the percentage of outstanding loans method is phased out over an 18-year period. Under the phase-out of the method, bad debt deductions generally are permitted to the extent necessary to increase the bad debt reserve to the following percentages of eligible outstanding loans: 1969 to 1975, 1.8 percent; 1976-1981, 1.2 percent; and 1982-1987, 0.6 percent. After 1987, the bad debt deduction of commercial banks is to be computed under the experience method.

The Senate amendment provides that the applicable percentage under the percentage of eligible loans is to be 1.0 percent for taxable years beginning in 1982 instead of the 0.6 percent provided by present law. For

years after 1982 and before 1988, the applicable percentage will be 0.6 percent.

Conference agreement.—The conference

Conference agreement.—The conference agreement follows the Senate amendment.

99. House heating oil credit

House bill.-No provision.

Senate amendment.—A credit is allowed in 1981 for home heating costs. The credit is calculated by multiplying heating costs by 40 percent of the increase in the Consumer Price Index. The maximum allowable credit is \$200 and phases out as the taxpayer's adjusted gross income increases from \$15,000 to \$25,000. Special rules are provided for households with more than one person and for tenants who do not pay separately for heating.

Conference agreement.—The conference agreement follows the House bill.

100. Deduction for gifts and awards

House bill.-No provision.

Senate amendment.—Present law generally disallows deductions for business gifts to the extent that the cost of all gifts to the same individual during the taxable year exceeds \$25. This general rule does not apply, however, to items costing \$100 or less which are awarded to an employee by reason of length of service or for safety achievement.

The Senate amendment increases the ceiling on the deductibility of employee awards, and expands the purposes for which they may be given. The amendment allows employee awards for length of service, productivity, or safety achievement, and increases the ceiling from \$100 to \$400 per item. The amendment also allows a deduction for such awards to the extent that the item is awarded as part of a permanent, written plan or program that does not discriminate in favor of officers, shareholders, or highly compensated employees as to eligibility or benefits. A deduction is allowed for such plan awards only if the average cost of all awards under the plan during the taxable year does not exceed \$400. However, no deduction may be claimed under such an award plan or program to the extent the cost of an item exceeds \$1,600. The amendment is effective for taxable years ending after the date of enactment.

Conference agreement.—The conference agreement follows the Senate amendment.

Reorganizations involving financially troubled thrift institutions

House bill.-Under present law, there is a nonstatutory requirement applicable to taxmergers and other reorganizations (commonly called the "continuity of interest" requirement) that the shareholders of the acquired corporation receive stock in the acquiring corporation. Present law is unclear as to how this continuity of interest requirement applies to reorganizations in-volving a mutual thrift institution. Present law also imposes limitations on the use of pre-reorganization net operating loss carryovers where shareholders of the acquired corporation are not shareholders of the surviving corporation in a merger or other reorganizations (sec. 382). Further, under present law, distributions out of excess bad debt reserves of building and loan associations are recaptured as ordinary income (sec. 593(e)). Finally, under present law, contributions to capital by nonshareholders are excluded from the income of a recipient corporation (see 118), but the basis of property is reduced by such contributions (sec. 362(c)).

The House bill allows tax-free reorganizations of thrift institutions undertaken in connection with a case under jurisdiction of

the Federal Home Loan Bank Board or Federal Savings and Loan Insurance Corporation (or where neither has supervisory authority, an equivalent state authority) without regard to the "continuity of interest" requirement.

Institutions to which this rule applies are building and loan associations, cooperative banks, and mutual savings banks (i.e., thrift institutions to which sec. 593 applies). The amendment covers all possible combinations of stock and mutual thrift institutions, i.e., stock acquiring mutual, stock acquiring stock, mutual acquiring mutual, and mutual acquiring stock. The amendment applies to these combinations where the appropriate agency certifies that one of the grounds in section 1464(d)(6)(A) (i) (ii) or (iii) of title 12 of the U.S. Code exists. The amendment requires that substantially all the assets of the transferor be acquired by the transferee and that substantially all of the liabilities of the transferor, including deposits, immediately before the transfer become liabilities of the transferee. The amendment removes the requirement that stock or securities in the transferee corporation be received or distributed in the transaction. No inference is intended by the amendment concerning the proper tax treatment of supervisory mergers under existing law or concerning the extent to which the continuity of interest requirement will be considered satisfied in acquisitions outside the scope of the amendment.

The bill provides that, in applying section 382(b) to operating loss carryovers to the surviving corporation after a reorganization of a thrift institution which has been certified by the appropriate agency as described above, deposits in the acquired corporation which become deposits in the transferee are treated as stock of both corporations. Deposits in the transferee are also treated as stock for this purpose.

Under the bill, the recapture rule for distributions out of excess bad debt reserves does not apply to distributions to the Federal Savings and Loan Insurance Corporation with respect to an interest in a thrift institution received in exchange for financial assistance. The exclusion from recapture applies whether or not the interest may be treated as an equity interest under applicable tax law rules.

The bill excludes from income of a building and loan association all money or property contributed to the thrift institution by the Federal Savings and Loan Insurance Corporation under its financial assistance program without reduction in basis of property. The amendment applies to assistance payments whether or not the association issues either a debt or equity instrument in exchange therefor. No inference is intended as to the proper treatment of Federal Savings and Loan Insurance Corporation assistance payments under prior law with respect to whether they are excluded from income or require a basis reduction.

The amendments apply with respect to transfers in reorganization, distributions by building and loan associations, and payments by the Federal Savings and Loan Insurance Corporation on or after January 1, 1981.

Senate amendment.—The Senate amendment is the same as the House bill, except that the exclusion from the recapture rule is applied to all distributions with respect to interests originally received by the Federal Savings and Loan Insurance Corporation.

Conference agreement.—The conference agreement follows the House bill and adds

the requirement that only distributions in redemption will escape section 593(e) recapture. Thus, the exclusion will not apply to payments of interest to the Federal Savings and Loan Insurance Corporation by the building and loan association. The conferees intend that section 269 will apply as under current law to reorganizations covered by the amendment. The conferees understand that, in applying section 269 to such acquisitions, depositors in a thrift institution to which section 593 applies will be treated as shareholders and deposits in the institution will be treated as stock. The conferees understand that no certification will be made by the appropriate agency on the grounds set forth in 12 USC section 1464(d)(6)(A) (ii) or (iii) unless it is determined that the transferor is unable to meet its obligations as they become due or will be unable to do so in the immediate future. The conferees understand that no certification will be made by the appropriate agency where it is determined that the association has intentionally placed itself in the position where one of the grounds for certification would otherwise apply.

102. Tax treatment of mutal savings banks that convert to stock associations

House bill.-No provision.

Senate amendment.-Under present law, building and loan associations, cooperative banks, and nonstock mutual savings banks compute their bad debt deduction under a special set of rules (sec. 593). Under one of these rules, called the percent of taxable income method, these institutions are allowed a bad debt deduction equal to 40 percent of the institution's taxable income (computed without regard to the bad debt deduction). However, in order to qualify for the full amount of this deduction, at least percent of its assets in the case of a building and loan association or cooperative bank, or 72 percent of its assets in the case of mutual savings banks, must be invested in certain assets (hereafter called "qualified assets"). The 40 percent is reduced under a formula to the extent that the percentage of qualifed assets is less than the 82- or 72percent levels. The reduction in the case of building and loan associations and cooperative banks is three-fourths of one percent for each percentage point that the percent of qualified assets is less than 82 percent of all assets. The reduction in the case of mutual savings banks is 11/2 percent for each percentage point that the percent of qualified assets is less than 72 percent of all assets.

Present law also provides rules which recapture excess bad debt deductions to building and loan associations when there are dividends in excess of post-1951 earnings and profits or when there are liquidations or redemptions of stock (sec. 593(e)). Finally, present law permits mutual savings banks to compute the tax on their life insurance business as if the life insurance business was in a separate corporation subject to the special rules applicable to life insurance companies (sec. 594).

The Senate amendment makes two changes which are designed to facilitate the conversion of mutual savings banks into

^{&#}x27;Notwithstanding the fact that the appropriate agency can make a certification required by this amendment only on the grounds that the institution can or will not be able to meet its obligations, the appropriate agency may nevertheless appoint a receiver on any of the grounds set forth in 12 USC sections 1464(d)(6)(A) (ii) or (iii).

stock associations. These amendments apply to both mutual savings banks which convert into stock associations and to newly formed stock associations so long as the institution is operated as a savings institution and is subject to the same Federal or State regulatory scheme as a mutual savings bank chartered under Federal or State law, as the case may be. First, the Senate amendment provides that a stock association which is subject to the same regulation as a mutual savings bank is to be treated as a mutual savings bank and, thus, is eligible to com-593. However, consistent with the treatment of building and loan associations which may be organized as stock associations, such stock associations would compute their bad debt deduction under the percentage of eligible loan method under the same rules applicable to building and loan associations (i.e., 82 percent of their assets would have to be invested in qualified assets in order to receive the full 40-percent deduction and the reduction would be at three-fourths of one percent rate). Similarly, the Senate amendment requires recapture of excess bad debt deductions by such stock associations in the same manner as building and loan associations (sec. 593(e)).

Second, the Senate amendment extends the special rule under which mutual savings banks can compute their tax on life insurance business as if it were a separate corporation to stock associations which are regulated as mutual savings banks. The Senate amendment also clarifies that amounts paid to depositors of such stock associations are deductible to the same extent as mutual savings banks (sec. 591).

Conference agreement.—The conference agreement follows the Senate amendment.

103. Restricted property

House bill.—Under present law, property transferred to an employee as compensation for services is taxable at the time the property is not subject to a substantial risk of forfeiture or is transferable. The Tax Court has ruled that the provisions of section 16(b) of the Securities and Exchange Act of 1934 do not restrict transferability for this purpose. Under the House bill, the provisions of section 16(b) are taken into account to postpone taxation until the provisions no longer may apply. A similar rule applies to certain restrictions under the SEC accounting rules. The House bill is effective for taxable years ending after December 31, 1981.

Senate amendment.—No provision.

Conference agreement.—The conference agreement follows the House bill.

104. Deduction for certain adoption expenses

House bill.-No provision.

Senate amendment.—Under present law, expenses that are paid or incurred in connection with the adoption of a child are nondeductible, personal expenses. The Senate amendment permits taxpayers to deduct from gross income (that is, the deduction is available whether or not taxpayers itemize deductions) up to \$1,500 of the expenses that are paid or incurred in connection with the adoption of a qualified child (generally a hard to place child).

Adoption expenses that are eligible for the deduction are reasonable and necessary adoption fees, court costs, attorney fees, and other expenses that are directly related to the legal adoption of a qualified child. The Senate amendment applies to taxable years beginning after December 31, 1980

beginning after December 31, 1980.

Conference agreement.—The conference agreement follows the Senate amendment with modifications that limit the deduction to taxpayers who itemize deductions and define eligible expenses in terms of the Social Security Act adoption assistance program. Under the agreement, adoption expenses are allowable in the case of children who have been found by the State to be eligible for adoption assistance on the basis that they are children with special needs, i.e., that there is a specific factor which leads the State to conclude that they cannot be placed without adoption assistance. (Adoption assistance under the Social Security Act provides an ongoing maintenance payment but does not reimburse adoption expenses.)

105. Separate report on social security trust funds

House bill.-No provision.

Senate amendment.—Reports on the receipts, outlays, surplus or deficit, and reserve balance of each of the 3 social security trust funds are included in the President's annual budget submission in January in a separate section of the budget. The information is brought up to date in sections within the context of the (July 15) mid-sesion budget review. In addition, the Board of Trustees publishes an annual report on the financial status of the trust funds and includes in the report its current estimates of the short-run and long-run actuarial balances of each trust fund.

The amendment requires the President, in the annual budget message and mid-session review, to include a separate statement which contains a summary of his requests for new budget authority, and estimates of outlays, revenues, and surplus or deficit of the Federal Old-Age and Survivors Insurance, Federal Disability Insurance, and Federal Hospital Insurance trust funds. The separate statement will show the revenues, outlays, and surplus or deficit estimates for the trust funds, will describe the economic assumtions that were used in making the estimates for the trust funds and the relationship to economic assumptions made for other parts of the budget, will indicate the financial prospects of the trust funds, and will present a comparative summary of the 3 trust funds with all the other portions of the unified budget. This report will be in addition to the usual budget submission which includes the budget estimates for the trust funds within the unified budget estimates.

Conference agreement.—The conference agreement follows the House bill.

106. Congressional Budget Office reports on state of the economy

House bill.-No provision.

Senate amendment.—The Congressional Budget Office reports to the House and Senate Budget Committees, by April 1 of each year, on the economic outlook and related fiscal policy and Budget matters. The report covers the President's budget submission and relevant alternative considerations. In addition, CBO submits additional reports relating to the economy and fiscal and budget policy, as may be necessary during the year.

In the Senate amendment, the CBO is to report to Congress quarterly on the extent that the purposes and goals of the Economic Recovery Tax Act of 1981 and the Omni-

bus Reconciliation Act of 1981 are being accomplished. If expectations of economic performance are not realized, CBO is instructed to recommend available options and actions that may be taken to improve economic performance. The first report is due by January 31, 1982. In the event of negative real growth in two successive quarters, CBO is to submit monthly reports.

Conference agreement.—The conference agreement follows the House bill.

107. Level of interest rates

House bill.-No provision.

Senate amendment.—Since persistent high interest rates have meant reduced credit for small commercial, financial, industrial and construction enterprises and the recent increase in merger activity in all areas is being financed with massive lines of credit, the Senate amendment declares that it is the Sense of the Senate that the President should adopt policies to ensure the independence, credit availability, and financial health of small enterprises, the Federal Reserve Board should exercise its regulatory power to require that loans be used for productive purposes rather than business merg-ers, and the President, Federal Reserve Board, and Congressional Budget Office should report annually on the actions taken to implement these policies and the degree of success or failure, beginning on January 1982, and by January 1 of each subsequent year.

Conference agreement.—The conference agreement follows the House bill.

108. Limitation on revenue losses

House bill.-No provision.

Senate amendment.—The Senate amendment, in a Sense of the Senate resolution, provides that the revenue loss in the bill should not be greater than—

Fiscal year:	Revenue loss (billions)
1981	-\$1.5
1982	-38.3
1983	91.8
1984	150.0

As passed by the Senate, revenue losses under the bill were estimated as—

	Revenue
	loss
Fiscal year:	(billions)
1981	-\$1.5
1982	-37.7
1983	91.0
1984	148.6

Conference agreement.—The conference agreement follows the House bill.

109. Interfund borrowing among social security trust funds

House bill.-No provision.

Senate amendment.—The Senate amendment includes a resolution that it is the Sense of the Senate that the Senate Finance Committee report a bill to the Senate by November 15, 1981, which would authorize interfund borrowing among the social security trust funds, or other such measures as may be required.

Conference agreement.—The conference agreement follows the House bill.

CONGRESSIONAL RECORD - HOUSE

II. ESTIMATED REVENUE EFFECTS OF THE CONFERENCE AGREEMENT

TABLE 1.—SUMMARY OF ESTIMATED REVENUE EFFECTS OF THE PROVISIONS OF H.R. 4242 AS APPROVED BY THE CONFERENCE COMMITTEE, FISCAL YEARS 1981-86

TABLE 2.—ESTIMATED REVENUE EFFECTS OF THE PROVISIONS OF H.R. 4242 AS APPROVED BY THE CONFERENCE COMMITTEE, FISCAL YEARS 1981-86—Continued

Provision	1981	1982	1983	1984	1985	1986
Taxation of investment income of campaign funds Tax-exempt bonds for volunteer fire departments Charitable contributions by corporations.		(10) -44 (10)	(10) (10) -93	(10) (10) -102	(10) (10) -112	(10) -123
Unemployment tax status of fishing boat services Excise tax on teleplone service. Amortization of construction period interest and taxes Amortization of low-income housing rehabilitation expenditures Foreign investment in U.S. real property. Payout requirements of private foundations Imputed interest rates on installment sales Deduction for gifts and awards. Industrial development bonds for mass transit	1 (2) (2) (2)	1 1	435 -33 -16 (2) (2) (2) (2) (2) (3) -5	766 -27 -25 (2) (2) (2) (2) -6 -29	309 -23 -35 (2) (2) (2) -7 -54	-2 -3 (** (** (**
Deduction for certain adoption expenses	-1	-9 -88	_9 267	-10 561	-11 61	-1 -27
Grand total all provisions	-1,565	-37,656	-92,732	-149,944	-199,303	-267,62

¹These figures include the increase in outlays attribute to the earned income credit which results from reduction in tax rates. These outlays are: \$4 million in fiscal year 1982, \$31 million in 1983, \$44 million in 1984, \$41 million in 1985, and \$38 million in 1985, million.

¹Loss of less than \$5 million.

¹Loss of less than \$10 million.

⁵This estimate is based on limited information about reorganizations that were planned even without this provision. If such reorganizations would have increased markedly without this provision, the revenue loss could be substantial.

¹Includes a portion of the \$36 million in tax liabilities for calendar year 1980.

¹These estimates were made using the rate schedule proposed by the bill. This approach results in a lower revenue loss than one that would have been obtained if the present law rates had been used.

"Gain of less than \$5 million.

*Revenue effects do not reflect transactions entered into after December 31, 1981. Total revenue effects of subsequent years might be affected by judicial decisions interpreting present law.

¹OLOSS of less than \$1 million.

EXTENSIONS OF REMARKS

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4. agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee-of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the Congressional Record on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Tuesday, August 4, 1981, may be found in the Daily Digest of today's Record.

MEETINGS SCHEDULED

AUGUST 24

9:30 a.m.

Select on Ethics

*Closed meeting, to discuss the Special Counsel's report on the investigation of Senator Williams.

6228 Dirksen Building

SEPTEMBER 9

10:00 a.m. Judiciary

To hold hearings on the prospective nomination of Sandra D. O'Connor, of Arizona, to be an Associate Justice of the Supreme Court.

1202 Dirksen Building 9:30 a.m.

SEPTEMBER 10

9:30 a.m.

Judiciary

Constitution Subcommittee

To resume hearings on Senate Joint Resolution 41, proposed constitutional amendment prohibiting the United States or any State from making or enforcing any law which makes distinctions on account of race, color, or national origin.

2228 Dirksen Building

Special on Aging

To hold hearings to examine employment incentives and benefits for older Americans.

6226 Dirksen Building

10:00 a.m.

Judiciary

To continue hearings on the prospective nomination of Sandra D. O'Connor, of

Arizona, to be an Associate Justice of the Supreme Court

1202 Dirksen Building

2:30 p.m.

Labor and Human Resources

To hold hearings on the nominations of Robert P. Hunter, of Virginia, and John R. Van de Water, of California, each to be a Member of the National Labor Relations Board.

4232 Dirksen Building

SEPTEMBER 11

10:00 a.m.

Environment and Public Works

Business meeting, to mark up an original bill authorizing funds for the municipal wastewater treatment construction grants programs of the Clean Water Act.

4200 Dirksen Building

To continue hearings on the prospective nomination of Sandra D. O'Connor, of Arizona, to be an Associate Justice of the Supreme Court.

1202 Dirksen Building

SEPTEMBER 14

10:00 a.m.

Appropriations

Business meeting, to mark up H.R. 4119, appropriating funds for fiscal year 1982 for the Department of Agriculture and related agencies, and H.R. 4129, appropriating funds for fiscal year 1982 for the Legislative Branch of the Federal Government.

1114 Dirksen Building

2:00 p.m.

Appropriations

Business meeting, to continue markup of H.R. 4119, appropriating funds for fiscal year 1982 for the Department of Agriculture and related agencies, and H.R. 4120, appropriating funds for fiscal year 1982 for the Legislative Branch of the Federal Government. 1114 Dirksen Building

SEPTEMBER 15

Banking, Housing and Urban Affairs

Business meeting, to mark up S. clarifying the intent and modifying certain provisions of the Foreign Cor-rupt Practices Act of 1977, and S. 1230, authorizing the minting of special coins commemorating the 1984 coins commemorating the 1984 summer Olympic games in Los Angeles, California.

5302 Dirksen Building

Labor and Human Resources

Aging, Family and Human Services Subcommittee

To hold hearings on primary intervention in addressing societal problems. 4232 Dirksen Building

10:00 a.m.

Appropriations

Business meeting, to mark up H.R. 4121, appropriating funds for fiscal year 1982 for the Department of the Treasury, U.S. Postal Service, Executive

Office of the President, and certain independent agencies.

1114 Dirksen Building

Governmental affairs

Federal Expenditures, Research, and Rules Subcommittee

To hold hearings on S. 719, requiring the disclosure of Federal agency use of consultants.

3302 Dirksen Building

2:00 p.m.

Appropriations

Business meeting, to continue mark up of H.R. 4121, appropriating funds for fiscal year 1982 for the Department of the Treasury, U.S. Postal Service, Executive Office of the President, and certain independent agencies.

1114 Dirksen Building

SEPTEMBER 16

9:30 a.m.

Banking, Housing and Urban Affairs

Business meeting, to continue markup of S. 708, clarifying the intent and modifying certain provisions of the Foreign Corrupt Practices Act of 1977, and S. 1230, authorizing the minting of special coins commemorating the 1984 summer Olympic games in Los Angeles, California.

5302 Dirksen Building

Judiciary

Constitution Subcommittee

To resume oversight hearings on the implementation of the Freedom of Information Act, and on S. 1247, S. 1235, and S. 587, bills providing for the protection of certain confidential infor-mation from the disclosure require-ments of the Freedom of Information Act.

2228 Dirksen Building

*Veterans' Affairs

Business meeting, to mark up S. 5, S. 7, S. 25, S. 26, S. 48, S. 105, S. 248, S. 417, and S. 742, bills providing educational assistance to members of the Armed Forces, and S. 266 and amendment No. 62 of S. 636 (Veterans' Administration Health Care Amendments), measures implementing procedures and guide-lines for the interagency sharing of health resources between the Department of Defense and the Veterans' Administration.

412 Russell Building

Select on Indian Affairs

To hold hearings on S. 874, providing for additional protection of steelhead trout as a game fish.

3110 Dirksen Building

SEPTEMBER 22

10:00 a.m.

Veterans' Affairs

To hold hearings on fiscal year 1982 legislative recommendations of the American Legion.

318 Russell Building

EXTENSIONS OF REMARKS

SEPTEMBER 23

9:30 a.m. Judiciary

Constitution Subcommittee

To resume oversight hearings on the implementation of the Freedom of Information Act, and on S. 1247, S. 1235, and S. 587, bills providing for the pro-tection of certain confidential infor-mation from the disclosure require-ments of the Freedom of Information Act.

2228 Dirksen Building

Small Business

To hold hearings to examine the impact of high interest rates on small business, and on their future credit needs. 424 Russell Building

Labor and Human Resources

Investigations and General Oversight Subcommittee

To hold oversight hearings on the activities of the Occupational Safety and Health Administration.

4232 Dirksen Building

SEPTEMBER 24

10:00 a.m.

Labor and Human Resources

Investigations and General Oversight Sub-

To continue oversight hearings on the activities of the Occupational Safety and Health Administration.

4232 Dirksen Building

SEPTEMBER 29

9:30 a.m.

Veterans' Affairs

Business meeting, to mark up S. 349, providing for limited judicial review of the administrative action of the Veterans' Administration, and for reasonable fees to attorneys representing legal counsel for veterans, and H. Con. Res. 76, expressing the sense of Congress that the Secretary of the Army provide for a plaque in Arlington National Cemetery honoring members of the U.S. Armed Forces who died during the rescue attempt in Iran.

412 Russell Building

HOUSE OF REPRESENTATIVES—Tuesday, August 4, 1981

The House met at 12 o'clock noon.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Almighty God, as we acknowledge our diverse backgrounds and varied interests, with one voice we thank You for Your blessings upon us. From the early days our Nation has known the fullness of Your providence and our people have experienced the richness of freedom and liberty. Encourage us to seek Your way of truth, justice, and peace. When we fail and follow the expedient path, forgive us, and when we rise above personal concerns and reach out to others with generosity of spirit, encourage us. May our Nation know the vitality of life when we seek to serve each other with deeds of love and acts of good will. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Sparrow, one of its clerks, announced that the Senate had passed without amendment a joint resolution and concurrent resolutions of the House of the following titles:

H.J. Res. 141. Joint resolution authorizing and requesting the President to issue a proclamation designating the period from October 4, 1981, through October 10, 1981, as "National Schoolbus Safety Week";

H. Con. Res. 164. Concurrent resolution relative to adjournment to a date certain during the remainder of the 97th Congress;

H. Con. Res. 167. Concurrent resolution directing the Clerk of the House of Representatives to make corrections in the enrollment of H.R. 3982.

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3982) entitled "An act to provide for reconciliation pursuant to section 301 of the first concurrent resolution on the budget for the fiscal year 1982."

The message also announced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4242) entitled "An act to amend the Internal Revenue Code of 1954 to encourage economic growth through reductions in individual income tax rates, the expensing of depreciable property, incentives for small businesses, and incentive for savings, and for other purposes."

The message also announced that the Senate agrees to the amendments of the House to a bill of the Senate of the following title:

S. 640. An act to amend the District of Columbia Self-Government and Governmental Reorganization Act with respect to the borrowing authority of the District of Columbia.

The message also announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 4034. An act making appropriations for the Department of Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 1982, and for other purposes.

The message also announced that the Senate insists upon its amendments to the bill (H.R. 4034) entitled "An act making appropriations for the Department of Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 1982, and for other purposes," requests a conference with the House on the disagreeing votes of the two Houses thereon, and appoints Mr. GARN, Mr. WEICKER, Mr. LAXALT, Mr. SCHMITT, Mr. D'AMATO, Mr. SPECTER, Mr. HAT-FIELD, Mr. HUDDLESTON, Mr. STENNIS, Mr. PROXMIRE, Mr. LEAHY, and Mr. Sasser to be the conferees on the part of the Senate.

The message also announced that the Senate had passed bills, joint resolutions, and concurrent resolutions of the following titles, in which the concurrence of the House is requested:

S. 1191. An act to extend for 1 year the authority of the Secretary of Commerce to reimburse commercial fishermen of the United States for certain losses incurred as the result of the seizure of their vessels by foreign nations;

S.J. Res. 53. Joint resolution to provide for the designation of September 6, 1981, as "Working Mothers' Day";

S.J. Res. 62. Joint resolution to authorize and request the President to designate the week of September 20 through 26, 1981, as "National Cystic Fibrosis Week";

S.J. Res. 65. Joint resolution proclaiming Raoul Wallenberg to be an honorary citizen of the United States, and requesting the President to ascertain from the Soviet Union the whereabouts of Raoul Wallenberg and to secure his return to freedom;

S.J. Res. 87. Joint resolution to authorize and request the President to designate September 13, 1981, as "Commodore John Barry Day";

S.J. Res. 98. Joint resolution to authorize and request the President to issue a proclamation designating October 16, 1981, as "World Food Day";

S. Con. Res. 27. Concurrent resolution providing for an adjournment of the Senate from August 3, 1981, to September 9, 1981, and an adjournment of the House from August 4, 1981, to September 9, 1981;

S. Con. Res. 28. Concurrent resolution providing for an adjournment of the Senate from August 3, 1981 to September 9, 1981, and an adjournment of the House from August 5, 1981, to September 9, 1981; and

S. Con. Res. 30. Concurrent resolution directing the Clerk of the House of Representatives to make corrections in the enrollment of H.R. 4242.

PRIVATE CALENDAR

The SPEAKER. This is Private Calendar day. The Clerk will call the first individual bill on the Private Calendar.

REMEDIOS R. ALCUDIA, CHRISTOPHER, EZRA, VERMILLION, AND PERISTELLO ALCUDIA

The Clerk called the bill (H.R. 1547) for the relief of Remedios R. Alcudia, Christopher, Ezra, Vermillion, and Peristello Alcudia.

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that the bill be passed over without prejudice.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

REINSTATING AND VALIDATING U.S. OIL AND GAS LEASES NUMBERED OCS-P-0218 AND OCS-P-0226

The Clerk called the bill (H.R. 1946) to reinstate and validate United States oil and gas leases Nos. OCS-P-0218 and OCS-P-0226.

Mr. SENSENBRENNER. Mr. Speaker, I ask unanimous consent that the bill be passed over without prejudice.

The SPEAKER. Is there objection to the request of the gentleman from Wisconsin?

There was no objection.

The SPEAKER. This concludes the call of the Private Calendar.

[☐] This symbol represents the time of day during the House proceedings, e.g., ☐ 1407 is 2:07 p.m.

[•] This "bullet" symbol identifies statements or insertions which are not spoken by the Member on the floor.

CONSENT CALENDAR

The SPEAKER. This is Consent Calendar day. The Clerk will call the first bill on the Consent Calendar.

ENABLING THE SECRETARY OF THE INTERIOR TO ERECT PER-MANENT IMPROVEMENTS ON LAND ACQUIRED FOR SILETZ INDIANS OF OREGON

The Clerk called the bill (H.R. 2015) to enable the Secretary of the Interior to erect permanent improvements on land acquired for the Confederated Tribes of Siletz Indians of Oregon.

There being no objection, the Clerk read the bill, as follows:

H.R. 2015

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That notwithstanding any other provision of law or regulation, the Attorney General shall approve any deed or other instrument conveying to the United States a defeasible or indefeasible interest in the land described in section 2 of the Act entitled "An Act to establish a reservation for the Confederated Tribes of Siletz Indians of Oregon", approved September 4, 1980 (94 Stat. 1073). The Secretary of the Interior or the Confederated Tribes of Siletz Indians of Oregon may erect permanent improvements, improvements of a substantial value, or any other improvements authorized by law on such land after such land is conveyed to the United States

With the following committee amendment:

Page 1, after line 2 strike all after the enacting clause and insert the following:

That, notwithstanding any other provision of law or regulation, the Attorney General shall approve any deed or other instrument which—

(1) conveys to the United States the land described in section 2 of the Act entitled "An Act to establish a reservation for the Confederated Tribes of Siletz Indians of Oregon", approved September 4, 1980 (94 Stat. 1073), and

(2) incorporates by reference the terms of the agreement entered into on September 18, 1980, by the city of Siletz, Oregon, the Confederated Tribes of Siletz Indians of Oregon, and the United States of America.

The Secretary of the Interior or the Confederated Tribes of Siletz Indians of Oregon may erect permanent improvements, improvements of a substantial value, or any other improvements authorized by law on such land after such land is conveyed to the United States.

The committee amendment was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

Mr. PATTERSON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table a similar Senate bill (S. 547) to enable the Secretary of the Interior to erect permanent improvements on land acquired for the Confederated Tribes of Siletz Indians of Oregon, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER. Is there objection to the request of the gentleman from California?

There being no objection, the Clerk read the Senate bill, as follows:

S. 547

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding any other provision of law or regulation, the Attorney General shall approve any deed or other instrument which—

(1) conveys to the United States the land described in section 2 of the Act entitled "An Act to establish a reservation for the Confederated Tribes of Siletz Indians of Oregon", approved September 4, 1980 (94 Stat. 1073), and

(2) incorporates by reference the terms of the agreement entered into on September 18, 1980, by the city of Siletz, Oregon, the Confederated Tribes of Siletz Indians of Oregon, and the United States of America. The Secretary of the Interior or the Con-

rite Secretary of the internal of the Confederated Tribes of Siletz Indians of Oregon may erect permanent improvements, improvements of a substantial value, or any other improvements authorized by law on such land after such land is conveyed to the United States.

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

A similar House bill (H.R. 2015) was laid on the table.

PROVIDING FOR THE RETENTION OF THE NAME OF MOUNT MCKINLEY

The Clerk called the bill (H.R. 772) to provide for the retention of the name of Mount McKinley.

There being no objection, the Clerk read the bill, as follows:

H.R. 772

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, Notwithstanding any other authority of law, the mountain located 63 degrees, 04 minutes, 15 seconds north, by 151 degrees, 00 minutes, 20 seconds west, shall continue to be named and referred to for all purposes as Mount McKinley.

With the following committee amendment:

Page 1, line 4, change "15" to "12" and change "north" to "north"

change "north" to "north,".
Page 1, line 5, change "degrees" to "degrees," and change "west" to "west,".

The committee amendments were agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

PLACING A PLAQUE AT THE U.S. MARINE CORPS WAR MEMORI-AL HONORING JOSEPH ROSEN-THAL

The Clerk called the joint resolution (H.J. Res. 207) to require the Secre-

tary of the Interior to place a plaque at the U.S. Marine Corps War Memorial honoring Joseph Rosenthal, photographer of the scene depicted by the memorial.

There being no objection, the Clerk read the joint resolution as follows:

H.J. RES. 207

Whereas the photograph of the raising of the American flag during the battle for control of Mount Suribachi, Iwo Jima, on February 23, 1945, has long been recognized as the most distinguished depiction of the courage and spirit of the United States Armed Forces during World War II;

Whereas such photograph served as the model for the United States Marine Corps War Memorial, known as the Iwo Jima Statue, in Arlington, Virginia; and

Whereas Joseph Rosenthal, the man who took such photograph, has represented the finest tradition of photographic journalism for the past fifty years: Now, therefore be it

Resolved by the Senate and House of Representativies of the United States of America in Congress assembled, That the Secretary of the Interior shall construct and place at the United States Marine Corps War Memorial, known as the Iwo Jima Statue, in Arlington, Virginia, a plaque honoring Joseph Rosenthal of San Francisco, California, photographer of the raising of the American flag during the battle for control of Mount Suribachi, Iwo Jima, on February 23, 1945, whose photograph served as the model for the memorial.

With the following committee amendments:

Revise the first clause to read as follows: Whereas the photograph of the raising of the American flag by Sergeant Michael Strank, Corporal Harland H. Block, Privates First Class Franklin R. Sousley, Rene A. Gagnon, and Ira Hayes and Pharmacist's Mate 2nd class John H. Bradley, during the battle for control of Mount Suribachi, Iwo Jima, on February 23, 1945, has long been recognized as a most distinguished depiction of the courage and spirit of the United States Armed Services during the Second World War;

In the second clause, after "Memorial," insert "also".

Page 2, lines 3 and 4, strike the words "Construct and place at" and in lieu thereof insert the words "cause to be inscribed upon".

Page 2, line 5, after "Memorial," insert "also".

Page 2, line 6, strike the words "a plaque honoring" and in lieu thereof insert "the name of".

Page 2, line 10, strike "memorial." and in lieu thereof insert.

Memorial, and the date of such photograph. The location and design of such inscription shall be approved by the Secretary of the Interior and by the Commission of Fine Art, in consultation with appropriate representatives of the original donors of the Memorial. The Secretary of the Interior is authorized to accept donated funds for carrying out the purposes of this Act, and the United States shall be put to no expense in the placement of such inscription.

The committee amendments were agreed to.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

The SPEAKER. This concludes the call of the Consent Calendar.

AUTHORIZING GENERATIONS OF ELECTRICAL POWER AT PALO VERDE IRRIGATION DISTRICT DIVERSION DAM, CALIFORNIA

Mr. PATTERSON. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the Senate bill (S. 875) to authorize the generation of electrical power at Palo Verde Irrigation District Diversion Dam, California, and ask for its immediate consideration.

The Clerk read the title of the Senate bill.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the Senate bill, as follows:

S. 875

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act of August 31, 1954 (68 Stat. 1045) is amended by striking subsection 2(c) and inserting in lieu thereof the following:

"(c) to accept title to said dam, appurtenant works, lands, and interests in land upon payment by the district (which payment shall be made over a period of not more than fifty years) of the sum of \$1,175,000, and upon repayment of any loan made pursuant to section 4, clause (c), of this Act.

"(d) notwithstanding any provision of the Federal Power Act (16 U.S.C. 792 et. seq.), to the contrary, the Palo Verde Irrigation District, California, shall have the exclusive right to utilize said dam, appurtenant works, lands, and interests in land for the development, generation, transmission, and disposal of electric power and energy pursuant to a license from the Federal Energy Regulatory Commission under part I of the Federal Power Act: Provided, That if the Palo Verde Irrigation District, California, after the date of enactment of this subsection shall notify the Secretary of the Interior that it relinquishes the right granted in this subsection there shall be and is hereby reserved to the United States or there shall be made available to it, as the case may require, the exclusive right to utilize, without cost to it, said dam, appurtenant works, lands, and interests in land for such development, generation, and transmission of electric power and energy as may hereafter be authorized by law: Provided further, That in the event it becomes practicable for the United States to develop hydroelectric energy at this site, the division of such energy between the United States and the district shall be a matter of negotiation prior to construction of any powerplant."

The Senate bill was ordered to be read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

REINSTATING AND VALIDATING U.S. OIL AND GAS LEASES NUMBERED OCS-P-0218 AND OCS-P-0226

Mr. PATTERSON. Mr. Speaker, I ask unanimous consent for the immediate consideration of the bill (H.R. 1946) to reinstate and validate U.S. oil and gas leases numbered OCS-P-0218 and OCS-P-0226.

The Clerk read the title of the bill.

The SPEAKER. Is there objection to the request of the gentleman from California?

Mr. MARRIOTT. Mr. Speaker, reserving the right to object, could the gentleman from California tell us what is involved in this legislation.

Mr. PATTERSON. Mr. Speaker, will the gentleman yield?

Mr. MARRIOTT. I yield to the gentleman from California.

Mr. PATTERSON. Mr. Speaker, H.R. 1946 reinstates two oil and gas leases in the Santa Barbara Channel which are owned by Poligroup, a consortium of independent oil companies.

In the last Congress, the 96th Congress, a bill identical to H.R. 1946 passed this House unanimously and was reported to the Senate Energy and Natural Resources Committee. Unfortunately sine die adjournment precluded final action of the Senate on the matter. Enactment of H.R. 1946 will insure the earliest possible development of these oil tracts which otherwise could not be resold until at least June 1982.

H.R. 1946 commits the Poligroup to exercise due diligence in the exploration on these leases. It also provides the Federal Government with substantial economic benefits. The group would pay all accrued rental since 1973 and pay the windfall profit tax longer than the new leases would require.

Most importantly, the bill mandates an unprecedented 50-percent net profit-sharing arrangement with the Federal Government.

Mr. MARRIOTT. This is the legislation that has the unanimous consent of the Interior Committee of the House, the Mines and Mining Subcommittee, and has passed that committee on a number of occasions?

Mr. PATTERSON. On at least two occasions it passed both the subcommittee and the committee, the gentleman is correct.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman yield?

Mr. MARRIOTT. I yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Mr. Speaker, I would like to compliment the gentleman from California. We have worked on this legislation, being the ranking member of the committee in previous years. We have passed this in this House. It is long overdue and I want to compliment both gentleman for bringing this bill up.

Mr. MARRIOTT. We need this legislation. This is good legislation and I urge the House to pass it. I do not object and yield back my time.

Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER. Is there objection to the request of the gentleman from California?

There was no objection.

The Clerk read the bill, as follows:

H.R. 1946

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. Notwithstanding any other provision of law, and subject to the requirements of section 2 of this Act, United States oil and gas leases numbered OCS-P-0218 and OCS-P-0226, located in the Santa Barbara Channel, California, shall be deemed to be in full force and effect from date of enactment of this Act for a period of four years, one hundred and twenty-six days, and so long thereafter as oil or gas is produced in paying quantities.

SEC. 2. (a) Lessees must exercise due diligence in the exploration and development of oil and gas from these leases. Within forty-five days after the effective date of this Act, lessees shall submit an exploration and development plan to the Secretary of the Interior.

(b) Lessees shall be subject to the pertinent provisions of the Outer Continental Shelf Lands Act Amendments of 1978 (Public Law 95-372).

(c) Lessees shall pay to the United States the amount of unpaid rental accrued under said leases and shall continue to pay the annual rental payment for the period the leases are in force.

(d) In lieu of the standard royalty interest payment required in each lease, the lessees shall pay to the United States a net profit share payment which—

(1) shall be made in accordance with part 390 of title 10 of the Code of Federal Regulations and which is determined on the basis of a recovery allowance of 15 per centum, and

(2) shall be an amount equal to 50 per centum of the net profits of the lessee under the lease as determined in accordance with such part 390: Provided, That, subject to the provisions of section 1337(a)(3) of title 45, United States Code, the payment to the United States in accordance with this subsection shall in each reporting period be at least equivalent to the royalty provided for in the original leases.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

SUGAR PROGRAM AND PEANUT PROGRAM SHOULD BE VOTED DOWN

(Mr. PEYSER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PEYSER. Mr. Speaker, the day after we passed the budget bill, a few weeks back, we found out that a very significant sugar deal had been made in the White House for Members of this House to promote a new sugar program, even though just prior to that the administration had been totally opposed to this program.

About 2 days after the tax bill that we passed 1 week ago was passed, we found out that a peanut deal had been made, and this peanut deal, if any-thing, is worse than the sugar deal. The administration had been totally opposed to the proposal that had been made by the Agriculture Committee on both the other body and the House, and now they have agreed to support that program and it is among the most outrageous.

I just want the Members of the House to know that when the farm bill reaches the floor, they will have an opportunity on amendments that I have offered, to vote down both the peanut and the sugar programs.

STRIKE OF AIR TRAFFIC CONTROLLERS

(Mr. WEISS asked and was given permission to address the House for 1 minute and to revise and extend his and include remarks extraneous matter.)

WEISS. Mr. Speaker, as we listen to the President's rhetoric on the air controllers' strike, we have reason to be concerned about Ameri-

Mr. Speaker, many of us have been delayed in our arrival in Washington by the strike of air traffic controllers. This strike is among the most inconvenient labor actions possible; it is also illegal. Yet those facts do not excuse the incredible overreaction of President Reagan, who obviously intends to bust the union.

The President would fire all controllers within 48 hours, and he seeks to decertify the union as bargaining agent. Both actions are as counterproductive as the strike itself. Firing all strikers within 2 days is a brutal threat, which, if carried out, would deprive at least 10,000 individuals and their families of a livelihood and deprive the Nation of an irreplaceable pool of trained talent. Decertifying the union flies in the face of all commonsense, because it is clear that this union, and no other, has the allegiance of the air traffic controllers. Attempting to decertify PATCO can only create more bitterness, and make it even more difficult to settle the under-

The President's attempts at union busting could turn an unmanageable situation into an impossible one. I urge him to rethink his position.

AIR CONTROLLERS STRIKE

(Ms. OAKAR asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. OAKAR, Mr. Speaker, I rise to express my deep concern about the air traffic controllers' strike and this administration's response to settle the many grievances between the FAA and

I strongly urge the FAA and PATCO to return to the bargaining table. A prolonged strike will settle nothing and will cause irreparable harm to this country's economy. Already, tens of millions of dollars are being lost each day by the airline industry and those sectors of the economy dependent on air travel. The crippling of a major transportation system does not benefit anyone and only aggravates existing

differences of opinion.

For this reason, as chair of the Subcommittee on Compensation and Employee Benefits, which must act on the agreement, I stand ready to offer whatever assistance I can in resolving the issues that now divide the FAA and PATCO. Should an agreement be reached our subcommittee will expeditiously mark up the agreement and pass the legislation. Certainly, more can be achieved in a positive way through face-to-face dialog and through a spirit of compromise than through threats and counterthreats.

Again, I urge the FAA and PATCO to return to the bargaining table as soon as possible and extend the services of my subcommittee in a common effort to settle this strike.

THE PEANUT SITUATION

(Mr. DANIELSON asked and was given permission to address the House and to revise and extend his remarks.)

Mr. DANIELSON. Mr. Speaker, a little while ago I was shocked to learn of the peanut and sugar situation. It occurred to me, suppose this had happened 12 months ago when the gentleman from Georgia was President of the United States. Peanuts getting an advantage? Heavens; that would be un-

When we add sugar, it should be twice as unthinkable.

The only thing we lack now is some chocolate, and we have a candy bar. I am going to start looking for the chocolate. It is hidden out there someplace. Perhaps we have to settle with jelly beans. There is a lot of sugar in jelly beans, but no peanuts.

□ 1215

WINDOW TO THE WEST MUST BE OPENED TO THE UKRAINI-AN PEOPLE

(Mr. DYMALLY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DYMALLY. Mr. Speaker, recently, members of the Ukrainian Human Rights Committee testified before the Subcommittee on Human Rights and International Organizations of the House Committee on Foreign Affairs.

I commend the members of the Ukrainian Human Rights Committee for bringing this matter before the Congress and wish to express my view in support of their concerns.

Ukraine is an isolated country. Events occurring in Ukraine are not covered by the Western press; there are no correspondents in Ukraine.

It is of the utmost importance and significance that a window to the West be opened for the Ukrainian people. The most expedient and effective way to accomplish this is to establish an American consulate in Kiev. Construction had begun on a consulate, but was halted, and the American advance team pulled out, after the Soviet invasion of Afghanistan. Whom did we punish by closing the consulate?

There are signs of potential selfassertion of the Ukrainian people, as the recent strikes of 3 months ago, in Ivano-Frankivsk in Western Ukraine, indicate. It would serve the best interests of the United States to encourage these signs of liberalization by opening a consulate. This in turn would encourage correspondents to come to Ukraine who would report these happenings and shape the public's percep-

Mr. Speaker, I would like to recommend that the efforts to open the consulate in Kiev be reestablished. Foreign correspondents should be encouraged to report on events in Ukraine. and the Helsinki process should be continued through interim reports before congressional committees dealing with human rights violations.

STOCKMAN, REGAN. AND REAGAN-WYNKEN, BLYNKEN, AND NOD

(Mr. GONZALEZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GONZALEZ. Mr. Speaker, Stockman winks and guts the older Americans; Regan blinks, and Mr.

Stockman winks while savings and loans sink; Mr. Regan blinks and expresses no concern, and Mr. Reagan nods.

In truth, one must admit, all Mr. Reagan did was to hire out to act the part of the President. But he is an actor who needs a script, so scriptwriters Stockman, Regan, Meese, Allen, and Baker, et al., our friendly Fascists, get shook up because labor's natives are restless, while the giant plutocrats suck the Nation's economic and financial resources in colossal cannibalistic orgies.

There is something dreadfully wrong when the money can be found to finance multibillion-dollar corporate raids but cannot be found to keep two newspapers alive in a town as big and rich as Washington. There is something amiss when gigantic speculations can always get cash on favorable terms, but the corner merchant cannot finance an inventory at less than loan shark rates. There is something sadly wrong when a Federal deficit that is progressively smaller—in terms of GNP—somehow is supposed to be crowding interest rates up to historically high levels.

While all this goes on, Messrs. Stockman, Regan, and Reagan—Wynken,

Blynken, and Nod-they nod.

HOME OF GOLDA MEIR IN DENVER SHOULD BE PRE-SERVED

(Mrs. SCHROEDER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHROEDER. Mr. Speaker, I normally would not do this, but because of the urgency of the matter I am really asking my colleagues if they

could please help.

I just returned from my district in Denver where people on the west side of the city found out that they have the honor of having a very humble home of a very distinguished woman which is marked to be destroyed very soon. It was the home of a very, very notable woman and great world leader. Golda Meir. I am asking my colleagues to join me in a letter to make this one of our national historic preservation trust properties. It is a very small home. Golda Meir lived there as a young teenager. It was in Denver that she became interested in creating Israel as a State and home for so many who suffered so long. Golda Meir lived in Denver because she had a sister who had tuberculosis, and was in a sanitarium in Denver.

We are hoping that we can prevent her home from being demolished, and I hope other Members will join me in asking that we save this home. I think it is a great national and international treasure, for even though it is small, great things and a great future began

there.

HIGH INTEREST RATES WILL CONTINUE UNDER REAGAN ECONOMIC PLAN

(Mr. HARKIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HARKIN. Mr. Speaker, today the House will pass the largest tax cut in history, about \$750 billion. All of us, I believe, are still in the dark as to how the administration will recommend reducing the resulting budget deficit. I personally fear that the pro-

grams for the elderly and needy, including social security, will be targeted. At the same time, the oil industry will be adding billions to their coffers in unneeded tax breaks.

Yesterday, interest rates surged upward under the pressure of Government borrowing. In today's Wall Street Journal we have an article explaining how the Reagan administration is working to keep those interest rates high. If we do not have relief from high interest rates this economic experiment, untested and untried, will be driving tens of thousands of small businesses and farms into bankruptcy.

Our entire economy is in danger, and I can assure my fellow Members that in my home State of Iowa the most clear and present danger to our economic well-being is the extremely high interest rate. That must be reduced, but under the economic experiment of this tax cut I can assure Members that interest rates will continue high this year and next year, driving more farmers, more small businesses to the brink, if not into actual bankruptcy.

THE LATE HONORABLE FRED K. KROLL

(Mr. GINN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.

Mr. GINN. Mr. Speaker, I would like to join with my other colleagues who have expressed their sadness over the recent death of a great leader in the American labor movement, the Honorable Fred J. Kroll.

Though he was only 45 years of age, Fred had attained a great national reputation as a dynamic leader. He was an AFL-CIO vice president and was also president of the Railway & Airline Clerks

His loss will be felt especially hard in my State of Georgia, where Fred has many friends in the ranks of organized labor

He joined the Railway & Airline Clerks in 1953 when he went to work for the Pennsylvania Railroad as an IBM machine operator. Eight years later, he was elected chairman of local 587 in Philadelphia.

His leadership in the local union led to a lifelong career that brought him many honors. He was elected president of the international union in 1976, and was reelected by acclamation at the union's 1979 convention.

When Fred was elected to the AFL-CIO Executive Council as a Federal vice president in February 1978 at the age of 42, he was the youngest member ever to hold a council seat.

He was further recognized for his abilities by being selected as a trustee of both the Asian-American Free Labor Institute and American Institute for Free Labor Development. It is always a great tragedy when we lose a man or woman of such ability and effectiveness, and it is especially sad because Fred was such a young man.

I would like to express my deepest sympathies to Fred's wife, and family, and to his colleagues in Georgia and throughout the country.

BUDGET DEFICITS AND HIGH INTEREST RATES—NOW IT IS THE PRESIDENT'S BALL GAME

(Mr. ALEXANDER asked and was given permission to address the House for 1 minute and to revise and extend his remarks and to include extraneous matter.)

Mr. ALEXANDER. Madam Speaker, today the House will pass the largest tax measure in the history of the Republic. We have previously enacted spending cuts totaling about \$130.6 billion. Over the next 3 fiscal years, this tax bill will enact tax cuts of about \$280.2 billion and the projected cumulative deficits for the next 3 fiscal years are estimated at about \$175 billion.

Madam Speaker, the Congress has passed up a golden opportunity to balance the Federal budget, which would lead to the decline in interest rates. Instead, we will use tax cuts financed by inflation-causing deficit spending to pay for the high interest rates that will sustain the President's massive transfer program for shifting the wealth of this Nation from Main Street to Wall Street.

Who will benefit from the President's conscious policy of tight money and high interest rates? Will it be small business? Will it be farmers? Will it be young people trying to buy a home? Will it be the housing and automobile industries and the workers they employ? Will it be community banks and savings and loans? Will it be our allies and trading partners? Will it be American cities who cannot sell their municipal bonds? Will it be the small investor trying to realize a reasonable return in the stock market?

Madam Speaker, it will be none of those. Only the very wealthy and the big brokerage houses and institutional investors really have anything to gain from continued high interest rates. And they are the President's real constituents.

The President has repeatedly said that his economic program will stem inflation and bring interest rates down. Well, his program is now in place and if interest rates remain at 10 percent or higher for another year—the American people will regret that the President and the Congress passed up the best opportunity in two decades to balance the Federal budget.

As the news media has said, "It is now the President's ball game." For wins.

SOCIAL SECURITY NEXT

(Mr. CONABLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CONABLE. Madam Speaker, following the tax bill, one major legislative obligation in addition to our routine authorization and appropriation responsibilities faces us this year. Everyone will recognize that I am talking about social security, an institution we could deal with at any time but are not likely to reform permanently unless we do it this year. Its political sensitivity suggests that the first year of a Presidential term, a year in which congressional elections are not held and the excuse of a short-term funding crisis will all help us make the difficult long-term decisions which are necessary if we are not to have a continuing decline of confidence in the system. Because of the sensitivity and complexity of the issue, we need both Presidential leadership and bipartisanship. There are many reform options, but all of them involve a degree of unpleasantness, at least suppressing future expectations of benefit growth, and thus the irresponsible or the timid can whipsaw or be whipsawed by a leadership failure.

Fortunately, we are poised for a major effort between now and the end of the year. We do not need any more studies. The gentleman from Texas (Mr. Pickle) heads a knowledgeable subcommittee of Ways and Means which is already well prepared to battle the dragon, and many of us on both sides of the aisle are anxious to help him organize support for any feasible plan designed to insure the future solvency of the system.

SENATE URGED TO RESTORE MINIMUM SOCIAL SECURITY RENEFIT

(Mr. WRIGHT asked and was given permission to address the House for 1 minute.)

WRIGHT. Madam Speaker, Mr. with the tax bill and the budget reconciliation bill completed Congress is about to adjourn for the August recess. Yet there is one extremely important piece of business that has not been completed because the U.S. Senate has refused to schedule it for a vote.

I am speaking of H.R. 4331, the bill passed by the House last Friday to undo the damage done to recipients of the minimum social security benefit by the Gramm-Latta II amendment to the budget reconciliation bill.

Last week we heard various legalistic reasons why this terrible injustice had to remain in the reconciliation bill.

the sake of the country, I hope he But the minimum benefit bill passed by the House on Friday, by a vote of 404 to 20, provides an immediate means of correcting that injustice. It would amend the just-passed Omnibus Reconciliation Act to restore the minimum social security benefit.

Why has this bill been ignored by the Senate leadership? Why has it been routinely assigned to the Finance Committee instead of bringing it to the floor for action before the recess? Why must 3 million recipients of the minimum benefit be left with the certain knowledge that their benefits have been stripped from them and only the faint hope that a reprieve somehow will save them before their checks cease to come?

Madam Speaker, the President of the United States has demonstrated that he can make things happen in
